Primary Author: Oracle Corporation

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Oracle Unified Business Process Management Suite 5-105
Oracle SOA Suite and Oracle BPEL Process Manager Option Licensing with Oracle Internet Application Server 5-107
Oracle WebLogic Coherence Grid Edition Option 5-107
Oracle WebLogic Server Enterprise Edition and WebLogic Suite Options 5-107
Oracle WebLogic Server Multitenant 5-108
Third-Party Products and Details for Oracle Traffic Director 5-108
Java SE Products 5-118
Oracle WebLogic Server Continuous Availability 5-119
Oracle SOA Suite Options 5-119
Oracle Integration Continuous Availability 5-119
Third-Party Products and Details for Oracle Webservices Manager 5-120
Third-Party Products and Details for Oracle JRF Webservices 5-128
Application Server Enterprise Management 5-135
Oracle SOA Management Pack Enterprise Edition 5-135
Oracle WebLogic Server Management Pack Enterprise Edition 5-135
Third-Party Products and Details for Oracle Fusion Middleware 5-136

6 Exalogic Elastic Cloud Software

Oracle Coherence 6-2
Oracle WebLogic Server 6-2
Oracle Tuxedo 6-2

Use of Exalogic Elastic Cloud Software on the Oracle Private Cloud Appliance and Oracle Private Cloud at Customer 6-2

7 Oracle Fusion Middleware Adapters

Adapters License Prerequisites 7-2

8 Data Integration Products

Oracle Data Integrator Enterprise Edition 8-1
Third-Party Products and Details for Oracle Data Integrator 8-3
Oracle Management Pack for Oracle Data Integrator 8-18
Oracle Data Integrator for Big Data (DIBD) 8-18
Oracle Data Integration Suite 8-19
Oracle Enterprise Data Quality 8-20
Oracle Enterprise Data Quality Audit and Dashboard for Data Integration 8-20
Oracle Enterprise Data Quality Batch Processing for Data Integration 8-20
Oracle Enterprise Data Quality Real-time Processing for Data Integration 8-20
Oracle Enterprise Data Quality Address Verification Server for Data Integration 8-20
Third-Party Products and Details for Oracle Enterprise Data Quality 8-21
Oracle Application Adapters for Data Integration 8-42
Oracle Application Adapters for Warehouse Builder 8-43
Oracle Enterprise Metadata Management 8-44

9 Oracle Tuxedo Licensing

Oracle Tuxedo 9-1
Add-on Products for Oracle Tuxedo 9-1
Tuxedo Server Components 9-1
Oracle Services Architecture Leveraging Tuxedo (SALT) 9-2
Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus) 9-2
Third-Party Products and Details for Oracle Tuxedo System and Applications Monitor Plus (TSAM Plus) 9-2
Oracle Tuxedo JCA Adapter 9-4
Oracle Tuxedo Mainframe Adapters (SNA and TCP) 9-4
Oracle Tuxedo Application Runtime (ART) for CICS and Batch 9-4
Oracle Tuxedo Application Runtime (ART) for Batch 9-4
Oracle Tuxedo Application Runtime (ART) for IMS 9-4
Oracle Tuxedo Application Rehosting (ART) Test Manager 9-5
Third-Party Products and Details for Oracle Tuxedo Application Rehosting (ART) Test Manager 9-5
Oracle Tuxedo Advanced Performance Pack 9-7
Independent Products 9-7

Oracle Tuxedo Application Rehosting Workbench 9-7
Oracle Tuxedo Message Queue 9-7
Third-Party Products and Details for Oracle Tuxedo 9-7
Oracle Tuxedo Optimizations for Exalogic Elastic Cloud Software 9-8
Oracle Tuxedo Optimization for Inter-node Communication 9-8
Socket Direct Protocol for Exalogic Elastic Cloud Software 9-8
Oracle Tuxedo Optimization for Lock Mechanism 9-9

10 Oracle Business Intelligence

Oracle Business Intelligence Suite Extended Edition 10-2
Oracle Analytics Publisher 10-2
Third-Party Products and Details for Oracle Analytics Publisher 10-2
Oracle Business Intelligence Standard Edition One 10-32
Oracle Real-Time Decision Server 10-33
Third-Party Products and Details for Oracle Real-Time Decision Server 10-33
Oracle Scorecard and Strategy Management 10-46
Oracle Business Intelligence Mobile 10-46
Oracle Business Intelligence Server Enterprise Edition 10-46
Third-Party Products and Details for Oracle Business Intelligence Enterprise Edition 10-47
Oracle Business Intelligence Interactive Dashboards 10-96
Oracle Business Intelligence Answers 10-97
Oracle Business Intelligence Delivers 10-97
Oracle Business Intelligence Server Administrator 10-97
Third-Party Products and Details for Oracle Business Intelligence 10-97
Oracle Data Integrator for Oracle Business Intelligence 10-200
Informatica PowerCenter and PowerConnect Adapters 10-200
Oracle Metadata Management for Oracle Business Intelligence 10-201
Oracle Essbase Plus 10-201
Third-Party Products and Details for Oracle Essbase 10-202
Oracle Business Intelligence Suite Foundation Edition 10-210
Oracle Data Visualization 10-211
Oracle Exalytics In-Memory Software 10-211
Oracle Hyperion Interactive Reporting 10-212
Oracle Hyperion SQR Production Reporting 10-212
Oracle Hyperion Web Analysis 10-212
Oracle Hyperion Financial Reporting 10-213
Oracle Endeca Server 10-213
Oracle Endeca Information Discovery Integrator 10-213
Oracle Endeca Information Discovery Studio 10-214
Oracle Endeca Text Enrichment 10-214
Oracle Endeca Text Enrichment with Sentiment Analytics 10-214

Oracle Endeca Web Acquisition Toolkit 10-214
Oracle Database In-Memory for Exalytics 10-215

11 Oracle WebCenter

Oracle WebCenter Suite Plus 11-1
Oracle WebCenter Content 11-1
Oracle WebCenter Portal 11-2
Oracle WebCenter Sites 11-3
Oracle Management Pack for Oracle WebCenter 11-3
Oracle WebCenter Universal Content Management 11-4
Oracle WebCenter Content 11-5
Third-Party Products and Details for Oracle WebCenter Content 11-6
Oracle WebCenter Portal 11-32
Third-Party Products and Details for Oracle WebCenter Portal 11-34
Third-Party Products and Details for Oracle Webservices Manager 11-66
Oracle WebCenter Imaging 11-74
Oracle WebCenter Sites 11-75
Third-Party Products and Details for Oracle WebCenter Sites 11-75
Oracle WebCenter Sites Mobile Option 11-181
Oracle WebCenter Sites for Oracle ATG Web Commerce 11-181
Oracle WebCenter Adapters 11-181
Oracle WebCenter Enterprise Capture Standard Edition 11-182
Oracle WebCenter Enterprise Capture 11-182
Oracle Management Pack for Oracle WebCenter 11-183
Oracle WebCenter Licensing with Oracle Internet Application Server 11-183

12 Oracle Identity and Access Management Independent License Offerings

Third-Party Products and Details for Oracle Identity and Access Management 12-2
Oracle Enterprise Identity Services Suite Plus 12-3
Oracle Enterprise Identity Services Suite 12-4
Oracle Identity and Access Management Suite Plus 12-4
Restricted-Use Licenses 12-4
Oracle Identity Governance Suite 12-5
Third-Party Products and Details for Oracle Identity Role Intelligence 12-6
Third-Party Products and Details for Oracle Privileged Account Manager 12-193
Oracle Access Management Suite Plus 12-198
Restricted-Use Licenses 12-199
Third-Party Products and Details for Oracle Access Management Mobile and Social 12-200
Third-Party Products and Details for Oracle Adaptive Access Manager 12-201

Third-Party Products and Details for Oracle Advanced Authentication and Oracle Adaptive Risk Management 12-203
Third-Party Products and Details for Oracle RADIUS Agent 12-664
Third-Party Products and Details for Oracle Webservices Manager 12-665
Third-Party Products and Details for User Messaging Service 12-674
Oracle Directory Services Plus 12-675
Restricted-Use Licenses 12-676
Third-Party Products and Details for Oracle RADIUS Agent 12-676
Third-Party Products and Details for Oracle Unified Directory 12-677
Third-Party Products and Details for Oracle Internet Directory 12-679
Third-Party Products and Details for Oracle Virtual Directory 12-683
Oracle Identity Manager 12-685
Restricted-Use Licenses 12-685
Third-Party Products and Details for Oracle Identity Manager 12-686
Oracle Identity Manager Connectors Pack 12-716
Third-Party Products and Details for Oracle Identity Manager Connectors - ARCON Privileged Access Management 12-718
Third-Party Products and Details for Oracle Identity Manager Connector for DocuSign 12-725
Third-Party Products and Details for Oracle Identity Manager Connector for Google Cloud Platform 12-730
Third-Party Products and Details for Oracle Identity Manager Connectors - NetSuite 12-770
Third-Party Products and Details for Oracle Identity Manager Connector for Zoom 12-777
Oracle Identity Manager Connectors 12-783
Third-Party Products and Details for Oracle Identity Manager Connectors 12-785
Third-Party Products and Details for Oracle Identity Manager Connector - Amazon Web Services 12-788
Third-Party Products and Details for Oracle Identity Manager Connectors - Atlassian Jira 12-791
Third-Party Products and Details for Oracle Identity Manager Connector for Generic REST 12-798
Third-Party Products and Details for Oracle Identity Manager Connectors - Microsoft Teams and Microsoft SharePoint 12-804
Third-Party Products and Details for Oracle Identity Manager Connectors - NetSuite 12-810
Third-Party Products and Details for Oracle Identity Manager Connectors - Primavera 12-817
Third-Party Products and Details for Oracle Identity Manager Connectors - SAP Ariba 12-822
Third-Party Products and Details for Oracle Identity Manager Connectors - SAP Fieldglass 12-829
Third-Party Products and Details for Oracle Identity Manager Connectors - SAP S/4HANA Cloud 12-836
Oracle Access Manager 12-842
Restricted-Use Licenses 12-843
Third-Party Products and Details for Oracle Access Manager 12-843
Oracle Access Manager Clients 12-858
Third-Party Products and Details for Oracle Access Manager Web Gates 12-858
Oracle Identity Federation 12-860

Restricted-Use Licenses 12-860
Third-Party Products and Details for Oracle Identity Federation 12-861
Oracle Management Pack Plus for Identity Management 12-861
Oracle Enterprise Single Sign-On Suite Plus 12-862
Restricted-Use Licenses 12-862
Third-Party Products and Details for Oracle Enterprise Single Sign-On Suite Plus 12-863
Oracle Entitlements Server 12-877
Restricted-Use Licenses 12-878
Oracle Entitlements Server Security Module 12-878
Oracle Database License Requirements 12-878
Full Use License of Oracle Database Enterprise Edition/Oracle Database Standard Edition 2 12-879

Introduction

This Licensing Information document is a part of the product or program documentation under the terms of your Oracle license agreement and is intended to help you understand the program editions, entitlements, restrictions, prerequisites, special license rights, and/or separately licensed third party technology terms associated with the Oracle software program(s) covered by this document (the “Program(s)"). Entitled or restricted use products or components identified in this document that are not provided with the particular Program may be obtained from the Oracle Software Delivery Cloud website (https://edelivery.oracle.com) or from media Oracle may provide. If you have a question about your license rights and obligations, please contact your Oracle sales representative, review the information provided in Oracle's Software Investment Guide (http://www.oracle.com/us/corporate/pricing/software-investment-guide/index.html), and/or contact the applicable Oracle License Management Services representative listed on http://www.oracle.com/us/corporate/license-management-services/index.html.

For details on system requirements and supported platforms for Programs covered in this Licensing Information User Manual, please refer to the Oracle Fusion Middleware Supported Systems Configurations page at: http://www.oracle.com/technetwork/middleware/ias/downloads/fusion-certification-100350.html

- Intended Audience
- Documentation Accessibility
- Diversity and Inclusion
- Related Documents
- Conventions

Intended Audience

This Licensing Information User Manual is intended for all purchasers of licenses for Programs.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/us/corporate/accessibility/index.html.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/us/corporate/accessibility/support/index.html#info, or visit http://www.oracle.com/us/corporate/accessibility/support/index.html#trs, if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Documents

For more information, see the following documents:

- Licensing Information User Manual Oracle GraalVM for JDK 22

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
`monospace`	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

1
Oracle Fusion Middleware

This licensing information is for the product or product family release level available from Oracle as of the publication date; individual components or products in the product or product family may be at different release levels.

As applicable, review the user interface or media of the component or product you are using to determine its specific release level.

- Java SE Products

Java SE Products

Licensing information for Java SE products is available at the following location:

`http://www.oracle.com/technetwork/java/javase/documentation/index.html`

Such licensing information includes Java SE-specific license terms, a description of commercial features that are restricted for use in certain scenarios, and notices and license for third party components.

2
Oracle Fusion Middleware 14.1.2.0.0 Release

This chapter provides licensing information [or notices] for third-party technologies included in Oracle Fusion Middleware 14.1.2.0.0 products.

The applicable commercial third-party notices and/or licenses of Oracle Fusion Middleware 14.1.2.0.0 products are listed below:

- Database Adapter for Oracle SOA Suite
- Oracle Access Manager
- Oracle Access Manager Web Gates
- Oracle Business Process Management
- Oracle Coherence
- Oracle Data Integrator
- Oracle Enterprise Data Quality
- Oracle GraalVM for JDK 23 (24.1)
  For information on the Open Source variant of GraalVM, see Open Source Projects at Oracle.
- Oracle HTTP Server
- Oracle Java Required Files
- Oracle JDeveloper
- Oracle Managed File Transfer
- Oracle Platform Security Service
- Oracle Service Bus
- Oracle SOA Suite
- Oracle TopLink
- Oracle WebCenter Content
- Oracle WebCenter Enterprise Capture
- Oracle WebCenter Portal
- Oracle WebCenter Sites
- Oracle WebLogic Server
- Oracle WebLogic Server Web Server Plug-Ins
- Oracle Webservices Manager
- User Messaging Service

3
Application Server Products

This chapter describes the application server product family, and the features available with this product family.

> **Note:**
>
> To know about Oracle Stream Analytics products and licensing information, see Oracle Stream Analytics.

This chapter contains the following sections:

- Application Server Products and Release Versions
- General Infrastructure
- Oracle TopLink and Oracle Application Development Framework (ADF)
- Oracle WebLogic Server
- Oracle Internet Application Server
- Oracle GlassFish Server
- Oracle Web Tier
- Oracle Coherence Products
- Oracle BPEL Process Manager
- Oracle WebLogic Integration
- Oracle SOA Suite for Non-Oracle Middleware
- Oracle Unified Business Process Management Suite for Non-Oracle Middleware
- Oracle Managed File Transfer
- Oracle Edge Analytics
- Oracle Mobile Suite
- Oracle Forms and Reports (OFR)
- Oracle Internet Developer Suite (iDS)
- Oracle WebLogic Server Management Pack Enterprise Edition

Application Server Products and Release Versions

This section describes various Application Server products and their release versions.

Each Application Server product or its component is associated with one or more release versions. The following Table 3-1 lists the applicable release versions for each or component or both.

Table 3-1 Application Server Products and Release Versions

Product Name	Applicable Versions
Oracle API Catalog	**12.1.3.0.0**
Oracle API Manager	**12.2.1.0.0**
Oracle BPEL Process Manager	**11.1.1.7.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**
Oracle Coherence Products	**12.1.2.0.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**, **12.2.1.3.0**; **12.2.1.4.0**; **14.1.1.0.0**
Oracle Edge Analytics	**12.1.3.0.0** The following components also apply. Oracle Communications Analytics: **12.1.0.0.0**; **12.1.1.0.0**
Oracle Enterprise Repository	**11.1.1.5.0**; **11.1.1.6.0**; **11.1.1.7.0**; **12.1.3.0.0**
Oracle Forms and Reports (OFR)	**12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.1.4.0**
Oracle GlassFish Server	**3.1.0.0.0**; **3.1.1.0.0**; **3.1.2.0.0**; **4.0.0.0.0**; **5.0.0.0.0**; **5.0.1.0.0** The following components also apply. Oracle GlassFish Server OSE: **4.1**
Oracle Internet Application Server	The following components apply. Oracle Application Server: **10.1.2.0.2**; **10.1.2.0.3**; **10.1.2.3.0**; **10.1.3.0.0**; **10.1.3.3.0**; **10.1.3.4.0**; **10.1.4.0.0** Oracle Communications Internet Name and Address Management: **6.1.5** Oracle Internet Directory: **11.1.1.7.0**; **11.1.1.9.0**; **12.2.1.4.0**
Oracle Managed File Transfer	**12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.1.4.0**
Oracle Mobile Application Framework	**2.1.0.0.0**; **2.2.0.0.0**; **2.3.0.0.0**; **2.3.1.0.0**; **2.4.1.0.0**; **2.5.0.0.0**; **2.5.1.0.0**; **2.6.0.0.0**; **2.6.1.0.0**

Table 3-1 (Cont.) Application Server Products and Release Versions

Product Name	Applicable Versions
Oracle Mobile Suite	The following components apply. Oracle Access Management Mobile and Social: **11.1.2.2.0**; **11.1.2.3.0** Oracle Business Intelligence Mobile App Designer: **11.1.1.7.0**; **11.1.1.7.1** Oracle CRM On Demand Disconnected Mobile Sales: **2.0.0**; **2.1.0** Oracle Communications Mobile Synchronization Gateway: **8.0.0.0.0**; **8.0.1.0.0** Oracle Communications Mobile Synchronization Server: **1.0.0.0.0** Oracle Communications United Communications Suite Mobile Application: **1.0.0.0.0** Oracle Documents Cloud Service Mobile: **13.2.0.0.0**; **14.1.0.0.0** Oracle Documaker Mobile: **12.4.0.0.0**; **12.5.0.0.0** Oracle Database Mobile Server: **12.2.0.0.0** Oracle Enterprise Performance Management Mobile: **11.1.2.3.5**; **11.1.2.4.0** Oracle Mobile Application Accelerator Mobile Application: **1.0.0.0.0**; **6.0.11**; **8.0.0.0**
Oracle Service Registry	**10.3.0.0.0**; **10.1.1.6.0**
Oracle SOA Suite for Non-Oracle Middleware	The following components apply. Oracle SOA Suite: **11.1.1.6.0**; **11.1.1.9.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.1.4.0**
Oracle TopLink and Oracle Application Development Framework (ADF)	The following components apply. Oracle TopLink: **11.1.1.6.0**; **12.1.2.0.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.2.0.0**; **12.2.2.1.0**; **12.2.2.2.0**; **12.2.1.3.0**; **12.2.1.4.0**; **14.1.1.0.0** Oracle Application Development Framework (ADF): **11.1.1.7.0**; **11.1.1.9.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.2.0.0**; **12.2.2.1.0**
Oracle Unified Business Process Management Suite for Non-Oracle Middleware	**11.1.1.7.0**; **11.1.1.9.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.1.4.0**
Oracle Web Tier	**12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.1.4.0**
Oracle WebLogic Integration	**10.3.1.0.0** The following components also apply. WebLogic Server Plug-in: **11.1.1.7.0**
Oracle WebLogic Server	**10.3.6.0.0**; **12.1.1.0.0**; **12.1.2.0.0**; **12.1.3.0.0**; **12.2.1.0.0**; **12.2.1.1.0**; **12.2.1.2.0**; **12.2.1.3.0**; **12.2.1.4.0**; **14.1.1.0.0**
Oracle WebLogic Server Management Pack Enterprise Edition	The following components apply. WebLogic Server: **12.1.1.0.0** WebLogic Portal: **10.3.2.0.0**; **10.3.4.0.0**; **10.3.5.0.0**; **10.3.6.0.0** WebLogic Server Virtual Edition: **10.3.1.0.0**; **10.3.2.0.0**

General Infrastructure

This section lists the Oracle components that are common to all installations and distributions:

- Oracle Components common to all Installations
- Oracle Components common to all Distributions

Oracle Components common to all Installations

The following Oracle Components are common to all Installations:

- Third-Party Products and Details for Oracle DIAGFWK (Diagnostic Framework)
- Third-Party Products and Details for Oracle Universal Installer

Third-Party Products and Details for Oracle DIAGFWK (Diagnostic Framework)

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Oracle DIAGFWK (Diagnostic Framework), in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle DIAGFWK (Diagnostic Framework) with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle DIAGFWK (Diagnostic Framework) are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle DIAGFWK (Diagnostic Framework):

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle DIAGFWK (Diagnostic Framework).

Table 3-2 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle DIAGFWK (Diagnostic Framework)

Provider	Component(s)	Release Versions	Licensing Information

Third-Party Products and Details for Oracle Universal Installer

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Universal Installer, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed inOracle Universal Installer with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Universal Installer are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Universal Installer:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Universal Installer.

Provider	Component(s)	Release Versions	Licensing Information
Infozip	zip 3	11.1.1.9.0	Copyright (c) 1990-2007 Info-ZIP. All rights reserved. For the purposes of this copyright and license, "Info-ZIP" is defined as the following set of individuals: Mark Adler, John Bush, Karl Davis, Harald Denker, Jean-Michel Dubois, Jean-loup Gailly, Hunter Goatley, Ed Gordon, Ian Gorman, Chris Herborth, Dirk Haase, Greg Hartwig, Robert Heath, Jonathan Hudson, Paul Kienitz, David Kirschbaum, Johnny Lee, Onno van der Linden, Igor Mandrichenko, Steve P. Miller, Sergio Monesi, Keith Owens, George Petrov, Greg Roelofs, Kai Uwe Rommel, Steve Salisbury, Dave Smith, Steven M. Schweda, Christian Spieler, Cosmin Truta, Antoine Verheijen, Paul von Behren, Rich Wales, Mike White. This software is provided "as is," without warranty of any kind, express or implied. In no event shall Info-ZIP or its contributors be held liable for any direct, indirect, incidental, special or consequential damages arising out of the use of or inability to use this software. Permission is granted to anyone to use this software for any purpose, including commercial applications, and to alter it and redistribute it freely, subject to the above disclaimer and the following restrictions: 1. Redistributions of source code (in whole or in part) must retain the above copyright notice, definition, disclaimer, and this list of conditions. 2. Redistributions in binary form (compiled executables and libraries) must reproduce the above copyright notice, definition, disclaimer, and this list of conditions in documentation and/or other materials provided with the distribution. The sole exception to this condition is redistribution of a standard UnZipSFX binary (including SFXWiz) as part of a self-extracting archive; that is permitted without inclusion of this license, as long as the normal SFX banner has not been removed from the binary or disabled. 3. Altered versions--including, but not limited to, ports to new operating systems, existing ports with new graphical interfaces, versions with modified or added functionality, and dynamic, shared, or static library versions not from Info-ZIP--must be plainly marked as such and must not be misrepresented as being the original source or, if binaries, compiled from the original source. Such altered versions also must not be misrepresented as being Info-ZIP releases--including, but not limited to, labeling of the altered versions with the names "Info-ZIP" (or any variation thereof, including, but not limited to, different capitalizations), "Pocket UnZip," "WiZ" or "MacZip" without the explicit permission of Info-ZIP. Such altered versions are further prohibited from misrepresentative use of the Zip-Bugs or Info-ZIP e-mail addresses or the Info-ZIP URL(s), such as to imply Info-ZIP will provide support for the altered versions.

Table 3-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Universal Installer

Provider	Component(s)	Release Versions	Licensing Information
			4. Info-ZIP retains the right to use the names "Info-ZIP," "Zip," "UnZip," "UnZipSFX," "WiZ," "Pocket UnZip," "Pocket Zip," and "MacZip" for its own source and binary releases.

The sole exception to this condition is redistribution of a standard UnZipSFX binary (including SFXWiz) as part of a self-extracting archive; that is permitted without inclusion of this license, as long as the normal SFX banner has not been removed from the binary or disabled. 3. Altered versions--including, but not limited to, ports to new operating systems, existing ports with new graphical interfaces, versions with modified or added functionality, and dynamic, shared, or static library versions not from Info-ZIP--must be plainly marked as such and must not be misrepresented as being the original source or, if binaries, compiled from the original source. Such altered versions also must not be misrepresented as being Info-ZIP releases--including, but not limited to, labeling of the altered versions with the names "Info-ZIP" (or any variation thereof, including, but not limited to, different capitalizations), "Pocket UnZip," "WiZ" or "MacZip" without the explicit permission of Info-ZIP. Such altered versions are further prohibited from misrepresentative use of the Zip-Bugs or Info-ZIP e-mail addresses or the Info-ZIP URL(s), such as to imply Info-ZIP will provide support for the altered versions.

Table 3-3 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Universal Installer

Provider	Component(s)	Release Versions	Licensing Information
			4. Info-ZIP retains the right to use the names "Info-ZIP," "Zip," "UnZip," "UnZipSFX," "WiZ," "Pocket UnZip," "Pocket Zip," and "MacZip" for its own source and binary releases.

Oracle Components common to all Distributions

The following Oracle Components are common to all Distributions:

- FMW Platform
- Oracle Global Lifecycle Management NextGen OUI Framework 13.9.1.0.0
- Third-Party Products and Details for FMW Platform
- Third-Party Products and Details for Fusion Middleware 12c Infrastructure 12.2.1.4.0
- Third-Party and Details for Oracle Global Lifecycle Management NextGen OUI Framework 13.9.1.0.0

Third-Party Products and Details for FMW Platform

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for FMW Platform, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in FMW Platform with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in FMW Platform are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in FMW Platform:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in FMW Platform.

Table 3-4 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in FMW Platform

Third-Party Products and Details for Fusion Middleware 12c Infrastructure 12.2.1.4.0

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Fusion Middleware 12c Infrastructure 12.2.1.4.0 , in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Fusion Middleware 12c Infrastructure 12.2.1.4.0 with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Fusion Middleware 12c Infrastructure 12.2.1.4.0 are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Fusion Middleware 12c Infrastructure 12.2.1.4.0 :

- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Fusion Middleware 12c Infrastructure 12.2.1.4.0.

Oracle TopLink and Oracle Application Development Framework (ADF)

Oracle TopLink and Oracle Application Development Framework (ADF) is included in all editions of Oracle Internet Application Server and Oracle WebLogic Server. Oracle TopLink and Oracle Application Development Framework can be separately licensed, independently of any Oracle WebLogic Server or Oracle Internet Application Server edition.

> **Note:**
>
> Oracle grants restricted license of GraalVM for the functionality it serves as part of Oracle Application Development Framework.

The license for Oracle TopLink and Oracle Application Development Framework includes:

- Oracle TopLink
- Oracle Application Development Framework (ADF)

  Developer tools used with the ADF are freely available for download from the Developer Tools page.

Oracle TopLink and Oracle Application Development Framework includes the following components:

- Oracle MapViewer
- Mobility Support in Oracle Application Development Framework (ADF)
- Third-Party Notices and/or Licenses for Oracle TopLink, Oracle Application Development Framework (ADF), and Oracle MapViewer

Oracle MapViewer

Oracle MapViewer (deprecated in 12.2.1.3.0) provides APIs and libraries for developing and running interactive geospatial web mapping applications. Oracle MapViewer supports map visualization of geospatial content from multiple database and file formats and is optimized for use with Oracle Database and Oracle Spatial and Graph.

Oracle MapViewer includes an .EAR file designed for deployment in a Java EE server and client libraries for Java and JavaScript based development.

Mobility Support in Oracle Application Development Framework (ADF)

Oracle Application Development Framework (ADF) enables enterprise applications to support delivery to multiple screens, including desktop browsers, mobile browsers and native mobile applications.

ADF includes the following components:

- ADF Faces Rich Client can be used to develop desktop browser and tablet browser applications.

- ADF Mobile Browser is optimized for mobile phone browsers.
- ADF Mobile includes a framework and runtime for developing hybrid mobile applications which install onto the mobile devices. The Oracle TopLink and Oracle Application Development Framework licensing terms apply to the resulting applications. All hardware and software requirements for developing ADF Mobile applications, as outlined in the Mobile Developer Guide for Oracle Application Development Framework, must be met. You do NOT receive a license to use the third party mobile SDKs under your agreement with Oracle. Third party mobile SDKs must be separately licensed from each applicable third party if you choose to use the mobile SDK.

Third-Party Notices and/or Licenses for Oracle TopLink, Oracle Application Development Framework (ADF), and Oracle MapViewer

This section lists the following Third-Party Notices and/or Licenses topics.

- Third-Party Products and Details for Oracle TopLink
- Third-Party Notices and Licenses for Oracle Application Development Framework (ADF)
- Third-Party Products and Details for Oracle MapViewer

Third-Party Products and Details for Oracle TopLink

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle TopLink, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle TopLink with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle TopLink are identified in the following Table 3-7, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle TopLink:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0
- 14.1.1.0.0

This Table 3-7 summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle TopLink.

Third-Party Notices and Licenses for Oracle Application Development Framework (ADF)

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Application Development Framework (ADF), in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Application Development Framework (ADF) with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Application Development Framework (ADF) are identified in the following Table 3-8, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Application Development Framework (ADF):

- 11.1.1.9.0

This Table 3-8 summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Application Development Framework (ADF).

Table 3-8 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Application Development Framework (ADF)

Third-Party Products and Details for Oracle MapViewer

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle MapViewer, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle MapViewer with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle MapViewer are identified in the following Table 3-9, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Application Development Framework (ADF):

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This Table 3-9 summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle MapViewer.

Oracle WebLogic Server

Oracle WebLogic Server is available in three editions with different functional capabilities, each suitable for different kinds of applications and different development and deployment scenarios. Oracle also offers several application server options, packs, and other products that enhance the capabilities of Oracle WebLogic Server for specific purposes.

This section describes the editions of Oracle WebLogic Server. Table 3-10 describes the Oracle WebLogic Server edition options.

Table 3-10 Oracle WebLogic Server (WLS) Editions

WLS Edition	High Level Functionality	Features Included
Standard Edition	The Oracle WebLogic Server Standard Edition includes: • Core WebLogic application server, with Administration Console, Configuration Wizard, and Upgrade Framework • Oracle TopLink and Application Development Framework (This also includes MapViewer. For more details see Oracle TopLink and Oracle Application Development Framework (ADF)) • Oracle JDeveloper • Oracle Enterprise Pack for Eclipse • Oracle Security Developer Tools • Java SE. For details on Java SE Editions, see `http://www.oracle.com/technetwork/java/javase/terms/products/index.html`. • Oracle Web Tier • Oracle Enterprise Manager Fusion Middleware Control[1] • Oracle WebLogic Software Kit for Oracle Database Appliance • MicroTX Free	Includes: • Java EE • High performance JMS messaging • HTTP Pub-Sub Server • WebLogic JDBC Drivers, WebLogic Server Clients, and WebLogic and Apache Web Server Plug-Ins • Oracle WebLogic Management Framework (included through Oracle Web Tier) • XA transaction coordination between WebLogic Server and Helidon, without enforced throughput limitations

Table 3-10 (Cont.) Oracle WebLogic Server (WLS) Editions

WLS Edition	High Level Functionality	Features Included
Enterprise Edition	Includes all of the Standard Edition functionality, plus: • Clustering support • Oracle Virtual Assembly Builder • Oracle Java SE Advanced (restricted for Oracle WebLogic Server. Java SE is included for client applications that access these server components).	All Standard Edition features, plus: • Whole-server migration and service migration • Oracle Virtual Assembly Builder (OVAB) enables rapid configuration and provisioning of multi-tier application topologies onto virtualized and cloud environments.

Table 3-10 (Cont.) Oracle WebLogic Server (WLS) Editions

WLS Edition	High Level Functionality	Features Included
WebLogic Suite	Includes all of the Enterprise Edition functionality, plus: • Oracle Coherence Enterprise Edition • Oracle Forms, Reports, and Portal • Oracle Enterprise Manager Pack for Oracle Coherence • Oracle Verrazzano Enterprise Container Platform • Oracle Java SE Suite (restricted for WebLogic Server, Oracle Containers for J2EE and Coherence. Java SE is included for client applications that access these server components) • Oracle WebLogic Server Zero Downtime Patching	All Enterprise Edition features, plus: • Application data management provided by Oracle Coherence Enterprise Edition. Includes: fault-tolerant data caching, data management, write-behind, transactions, analytics and events. For license details, see Oracle Coherence Products • High performance, low latency JDK with deterministic garbage collection for Java EE applications running on Oracle WebLogic Server with JRockit Real Time. JRockit Real Time is included in Java SE Suite. For details on Java SE Editions, see `http://www.oracle.com/technetwork/java/javase/terms/products/index.html`. • Management tooling for monitoring, administering, and provisioning Oracle Coherence with Oracle Enterprise Manager Management Pack for Oracle Coherence. For complete license details, see the Oracle Enterprise Manager Licensing Information document available at: `http://www.oracle.com/technetwork/oem/grid-control/documentation/index.html`. • Deployment and management of container-based applications with Oracle Verrazzano Enterprise Container Platform, including deployment and management of non-WebLogic Server workloads. For complete licensing and support details, see the Oracle Verrazzano Enterprise Container Platform licensing information available at Oracle Verrazzano Enterprise Edition. Also includes Oracle Internet Application Server Enterprise Edition, which contains: • Oracle Internet Directory • Oracle Single Sign-On • Oracle Reports Services • Oracle Forms Services • Oracle WebLogic Server • Oracle Containers for J2EE • Oracle Portal • Oracle Web Cache • Oracle Directory Integration Platform For license details about Oracle Internet Application Server Enterprise Edition, see Oracle Internet Application Server

Table 3-10 (Cont.) Oracle WebLogic Server (WLS) Editions

WLS Edition	High Level Functionality	Features Included
		For details about Oracle WebLogic Server Zero Downtime Patching, see Introduction to Zero Downtime Patching .

[1] This is the stand alone Oracle Enterprise Manager Fusion Middleware Control 12c console for a single domain and not Oracle Enterprise Manager Cloud Control 12c which is Oracle's comprehensive multi-domain WLS management solution. See Oracle WebLogic Server Management Pack Enterprise Edition for details in regards to multi-domain management through Oracle Enterprise Manager Cloud Control 12c.

This section contains the following topics:

- Installation of Oracle WebLogic Product Editions
- Licensing Considerations for Additional Features
- Restricted-Use Licensing
- Oracle WebLogic Server Optimizations for Exalogic Elastic Cloud Software
- Third-Party Products and Details for Oracle WebLogic Server
- Third-Party Products and Details for Oracle Platform Security Service
- Third-Party Products and Details for Oracle Security Service

Installation of Oracle WebLogic Product Editions

Oracle WebLogic Server does not provide installation programs that correspond directly to each available edition. For example, depending on the edition licensed, you may need to run one or more of the following individual installers:

- Oracle WebLogic Server
- Oracle Web Tier
- Oracle Coherence
- Oracle JRockit
- Oracle JDeveloper
- Oracle TopLink
- Oracle Business Intelligence
- Oracle SOA Suite
- Oracle Virtual Assembly Builder

In addition, many installers contain multiple components that may be installed all together or individually, and each installation component has a minimum license requirement. The following table identifies the minimum edition requirements for each installation option available from the Oracle WebLogic Server installation programs.

Table 3-11 Installation Programs Required for WebLogic Product Editions

Licensing Edition	Corresponding Installation Programs
Standard Edition	Standard Edition encompasses the following installation programs: • Oracle WebLogic Server net or package installer, and Apache plug-ins (optional). This installer includes the core JEE 5 application server, Administration Console, Configuration Wizard and Upgrade Framework, WebLogic and third-party JDBC drivers, JMS, WebLogic Server clients, Web server plug-ins, and Xquery Support, WebLogic Server examples, Oracle Enterprise Pack for Eclipse, WebLogic SIP Server[1], and Sun or Oracle JRockit JDKs (depending on platform). • Oracle JDeveloper installer • Oracle TopLink installer • Oracle Web Tier installer
Enterprise Edition	The installation programs for Enterprise Edition include all those for Standard Edition, plus the installers for: • Oracle JRockit Mission Control • Oracle Virtual Assembly Builder (OVAB) **Note:** Adding cluster support does not require an additional installation procedure.
WebLogic Suite	The installation programs for WebLogic Suite include all those for Enterprise Edition, plus: • Oracle Verrazzano Enterprise Container Platform • Oracle Identity Management • Oracle Enterprise Manager Cloud Control 12c (to obtain features of Oracle Enterprise Management Pack for Oracle Coherence) • Oracle Enterprise Manager Pack for Oracle Coherence • Oracle JRockit • Oracle Portal, Forms, Reports and Discoverer

[1] Usage rights to WebLogic SIP Server require a license for Oracle Communications Converged Application Server. For details, see WebLogic SIP Server

Licensing Considerations for Additional Features

Some Oracle WebLogic Server editions contain features that have additional licensing considerations.

This section contains the following topics:

- WebLogic for Oracle Internet Application Server
- Management Features
- High Availability Features
- WebLogic SIP Server
- Apache Derby
- Standalone WebLogic Clients
- Other Oracle WebLogic Server Clients

WebLogic for Oracle Internet Application Server

The entitlement for Oracle WebLogic Server Basic from Internet Application Server Enterprise Edition is superceded by the unrestricted full use capabilities of Oracle WebLogic Server Enterprise Edition included in WebLogic Suite.

> **Note:**
>
> When Oracle Internet Application Server is licensed independently of WebLogic Suite, a constrained WebLogic license, called WebLogic Server Basic, is included. However, when Oracle Internet Application Server is licensed as part of WebLogic Suite, an unrestricted license of Oracle WebLogic Server Enterprise Edition is included.
>
> This does not imply that two licenses of Oracle WebLogic Server Enterprise are provided within WebLogic Suite, but rather that the rights to Oracle WebLogic Server included in Internet Application Server are expanded to the unrestricted use of Oracle WebLogic Server Enterprise Edition included in WebLogic Suite.

Management Features

Note the following license considerations for management features:

- Oracle Enterprise Manager Fusion Middleware Control is included with Oracle WebLogic Server Standard Edition, Oracle WebLogic Server Enterprise Edition, and WebLogic Suite Edition.[1]
- Unrestricted use of the WebLogic Server Administration Console, the WebLogic Scripting Tool, and WebLogic JMX is available in all Oracle WebLogic Server editions.
- Oracle WebLogic Server Standard Edition, Oracle WebLogic Server Enterprise Edition, and WebLogic Suite work with Oracle Enterprise Manager Cloud Control, which is Oracle's integrated enterprise information technology (IT) management product line providing the industry's only complete, integrated, and business-driven enterprise cloud management solution.[2]

High Availability Features

Oracle WebLogic Server provides several features and tools to support the deployment of highly available and scalable applications, including the following:

- Oracle WebLogic Server clusters, that provide scalability and reliability for your applications by distributing the work load among multiple instances of Oracle WebLogic Server.
- Work Managers, which prioritize work based on rules you define and by monitoring actual run time performance statistics. Work Managers can be used to provide overload protection, such as detecting, avoiding, and recovering from excess workload. They may

[1] This is the stand alone Oracle Fusion Middleware Control console for a single domain and not Oracle Enterprise Manager Cloud Control which is Oracle's comprehensive multi-domain WLS management solution. See Oracle WebLogic Server Management Pack Enterprise Edition for details in regards to multi-domain management through Oracle Enterprise Manager Cloud Control.

[2] Licensed through Oracle WebLogic Server Management Pack Enterprise Edition.

be applied globally to a Oracle WebLogic Server domain or to a specific application or component.

- Oracle WebLogic Server persistent store, which is a built-in, high-performance storage solution for Oracle WebLogic Server subsystems and services that require persistence. For example, it can store persistent JMS messages or temporarily store messages sent using the Store-and-Forward feature. The persistent store supports persistence to a file-based store or to a JDBC-enabled database.
- Network channels, which facilitate the effective use of network resources by segregating network traffic into channels based on the type of traffic.
- Store-and-forward services, which enable Oracle WebLogic Server to deliver messages reliably between applications that are distributed across Oracle WebLogic Server instances. If the message destination is not available at the moment the messages are sent, either because of network problems or system failures, then the messages are saved on a local server instance and are forwarded to the remote destination once it becomes available.
- Oracle Database Real Application Cluster (RAC) integration, which is provided by Oracle WebLogic Server via multi data sources, a collection of data sources representing each node in an Oracle Database RAC treated logically as one data source by the application layer, and GridLink data sources, an integration with Oracle Database RAC that requires only one data source per Oracle Database RAC within Oracle WebLogic Server.

  A multi data source is an abstraction around a group of data sources that provides load balancing or failover processing at the time of connection requests, between the data sources associated with the multi data source.

Some Oracle WebLogic Server high availability features require special licensing considerations, which are described in the following topics.

- Oracle WebLogic Server Standard Edition
- Cluster Support
- High Availability Considerations for Oracle WebLogic Server Middle-Tier Instances
- Database Integration
- Oracle WebLogic Software Kit for Oracle Database Appliance

Oracle WebLogic Server Standard Edition

A Standard Edition license provides unlimited access to most high availability features in Oracle WebLogic Server, with the exception of Cluster Support. With a Standard Edition license, no restrictions are placed on the following[3]:

- The number of Managed Server instances that may be configured in a WebLogic domain
- Use of the Apache HTTP Server Plug-In to perform load balancing among non-clustered Managed Server instances using the `WebLogicCluster` plug-in configuration parameter

Cluster Support

Cluster Support is provided in all Oracle WebLogic Server Enterprise Edition and WebLogic Suite Edition licenses, and includes the following capabilities:

- Application failover

[3] For Oracle Enterprise Performance Management products, Oracle WebLogic Server Standard Edition additionally supports the non-runtime usage of clustering for functional/organizational grouping of managed servers. No other clustering features as defined in Cluster Support are supported.

When an application component becomes unavailable for any reason, a copy of the failed object finishes the job. In case of hardware or other failures, session state is available to other cluster nodes that can resume the work of the failed node.

- Cluster management and administration

  Creating a cluster of Managed Servers enables management and administration of these clustered servers as a single entity. Cluster management and administration features are provided for configuration, application deployment, and monitoring purposes.

- Automatic and manual migration of a clustered server instance from one computer to another using Server Migration

  Using Service Migration, the uninterrupted availability of singleton services — services that must run on only a single server instance at any given time, such as JMS and the JTA transaction recovery system — is ensured when the hosting server instance fails.

- Load balancing

  Incoming requests can be routed to a WebLogic Server instance in the cluster based on the volume of work being processed.

The following types of objects can be clustered in a WebLogic Server deployment:

- Servlets
- Java Server Pages
- Enterprise JavaBeans
- Remote Method Invocation (RMI) objects
- Java Messaging Service (JMS) destinations. Note:
  - A connection factory and a destination can be targeted to different WebLogic Server instances.
  - Foreign servers and distributed destinations may be used across multiple WebLogic Server instances.

High Availability Considerations for Oracle WebLogic Server Middle-Tier Instances

There are several ways that you can make Oracle WebLogic Server instances highly available. Each of these high availability models has specific licensing implications. These considerations are similar to the licensing considerations for the high availability features of the Oracle Database.

- **Backup:** In this type of recovery, Oracle WebLogic Server data/files of the primary server are stored on storage devices, such as tape media, and customers are **not** required to purchase additional licenses.
- **Failover (also known as Active/Passive or Cold Failover Cluster):** In this type of recovery, Oracle WebLogic Server nodes are configured in an *Active/Passive Cluster*; the first installed node acts as a primary node. If the primary node fails, one of the nodes in the cluster acts as the primary node. In this type of environment Oracle permits licensed Oracle WebLogic Server customers to run the Oracle WebLogic Server on an unlicensed spare computer for up to a total of ten separate days in any given calendar year. Any other use requires the environment to be fully licensed. Additionally, the same metric (that is, processor-based, or named user based) must be used when licensing the Oracle WebLogic Server in a failover environment.
- **Remote Mirroring:** This method involves copying the Oracle WebLogic Server software to the secondary site and copying the changes in the primary Oracle WebLogic Server configuration and data to the secondary site. This can be accomplished through

techniques such as storage based remote mirroring or host based mirroring. In the event of a failure at the primary site, the Oracle WebLogic Server on the secondary site is run using the remote storage. In this environment, Oracle WebLogic Server must be fully licensed at the primary site, and if it is ever installed and/or run at the secondary site, it must also be fully licensed there. Additionally, the same metric (that is, processor-based, or named user based) must be used to license both Oracle WebLogic Server domains.

Database Integration

JDBC multi data sources, also known as GridLink for RAC, are available in Oracle WebLogic Server Standard Edition, Oracle WebLogic Server Enterprise Edition, and WebLogic Suite.

Use of Oracle WebLogic Server GridLink data sources, known as Active GridLink for RAC, is an entitlement available only as part of licensing WebLogic Suite or Exalogic Elastic Cloud Software.

Table 3-12 lists and describes the license restricted Oracle WebLogic Server GridLink data source XML configuration elements.

Table 3-12 GridLink Data Source (Active GridLink for RAC) Configuration Detail

Data Source Configuration	Description
`<fan-enabled>`	Enables Fast Application Notification (FAN) event awareness of Oracle WebLogic Server
`<ons-node-list>`	Identifies list of Oracle Notification Service (ONS) nodes
`<ons-wallet-file>`	Identifies file defining SSL keys for ONS

For more information about configuring GridLink data sources within Oracle WebLogic Server, see Using Active GridLink Data Sources in *Administering JDBC Data Sources for Oracle WebLogic Server*.

Oracle WebLogic Software Kit for Oracle Database Appliance

Oracle WebLogic Software Kit (the "Kit") for Oracle Database Appliance includes a restricted use of Oracle Traffic Director with Oracle WebLogic Server and integration software for Oracle WebLogic Server, both specific for Oracle Database Appliance (ODA).

The Oracle WebLogic Software Kit (the "Kit") for Oracle Database Appliance is limited to use with Oracle Database Appliance. The Oracle Traffic Director portion of the Kit is limited to High Availability Virtual IP, Access Manager WebGate, Origin server load balancing to Oracle WebLogic Server, and content caching on Oracle Database Appliance.

WebLogic SIP Server

WebLogic SIP Server is included in all editions of Oracle WebLogic Server; however, you must license Oracle Communications Converged Application Server (OCCAS) in order to have usage rights to SIP Server.

Apache Derby

Apache Derby is an all-Java open source RDBMS that is included in the Oracle WebLogic Server distribution solely in support of Oracle WebLogic Server evaluation, either in the form of custom trial applications or through packaged sample applications provided with Oracle WebLogic Server. Use of Derby is subject to the terms of the Apache License, Version 2.0, available at the following URL:

http://www.apache.org/licenses/

Standalone WebLogic Clients

The licenses for Oracle WebLogic Server Standard Edition, Oracle WebLogic Server Enterprise Edition, and WebLogic Suite Edition provide unrestricted use of the client JAR files bundled with Oracle WebLogic Server for creating standalone clients that access applications hosted on Oracle WebLogic Server.

For more information on Client JAR files and other resources provided in Oracle WebLogic Server to create standalone clients, and the key features they support, see Clients and Features in *Developing Standalone Clients for Oracle WebLogic Server*.

> **Note:**
>
> Unrestricted use of client JAR bundles includes clients obtained from older or newer versions of WebLogic Server as long as interoperability with the client version is supported for interoperability. For more information, see Protocol Compatibility.

Other Oracle WebLogic Server Clients

The licenses for Oracle WebLogic Server Standard Edition, Oracle WebLogic Server Enterprise Edition, and WebLogic Suite provide unrestricted use of the clients listed and described in Table 3-13 for the licensed Oracle WebLogic Server installation.

Table 3-13 Other Clients Use Not Restricted with the Licensed Oracle WebLogic Server

Client Type	Key Features
WebLogic Scripting Tool (WLST)	Client for configuring Oracle WebLogic Server instances
Web server plug-ins for Oracle WebLogic Server	Client for Apache HTTP Server, Microsoft Internet Information Server, Oracle HTTP Server, and Oracle iPlanet Web Server
WebLogic Kubernetes Toolkit	Tools for simplifying the usage of Oracle WebLogic Server in Kubernetes
WebLogic Remote Console	Client for remotely managing and monitoring Oracle WebLogic Server

Restricted-Use Licensing

The following restricted-use licenses are included with Oracle WebLogic Server in the editions and products indicated.

- Oracle Database License Requirements
- Oracle Internet Application Server Requirements
- Oracle JDeveloper License Requirements
- Oracle Java SE, Oracle Java SE Advanced, and Oracle Java SE Suite

Oracle Database License Requirements

WebLogic Suite includes Oracle Internet Application Server Enterprise Edition, which includes a restricted-use license of the Oracle Database. See Restricted-Use Licensing for details.

Oracle Internet Application Server Requirements

See Restricted-Use Licensing for details about restricted-use licenses included with WebLogic Suite Edition.

Oracle JDeveloper License Requirements

Oracle JDeveloper bundles UDDI client libraries from the HP SOA Systinet Registry. Such libraries and UDDI client functionality are licensed only to the end user for the purpose of connecting to and communicating with the Oracle Service Registry.

Oracle Java SE, Oracle Java SE Advanced, and Oracle Java SE Suite

A license to Oracle WebLogic Server Standard Edition includes a restricted use license for Oracle Java SE, solely for running Oracle WebLogic Server Standard Edition server applications and for enabling client applications to access Oracle WebLogic Server Standard Edition components. Support of Oracle Java SE is limited to support of Oracle WebLogic Server Standard Edition components.

A license to Oracle WebLogic Server Enterprise Edition includes a restricted use license for Oracle Java SE Advanced, solely for running Oracle WebLogic Server Enterprise Edition server applications. A license to Oracle WebLogic Server Enterprise Edition also includes a restricted use license for Oracle Java SE (for clarity, it is not Oracle Java SE Advanced), solely for the purpose of enabling client applications to access Oracle WebLogic Server Enterprise Edition components. Support of Oracle Java SE Advanced and Oracle Java SE is limited to support of Oracle WebLogic Server Enterprise Edition components.

A license to Oracle WebLogic Suite includes a restricted use license for Oracle Java SE Suite, solely for running Oracle WebLogic Suite server applications. A license to Oracle WebLogic Suite also includes a restricted use license for Oracle Java SE (for clarity, it is not Oracle Java SE Suite), solely for the purpose of enabling client applications to access Oracle WebLogic Suite components. Support of Oracle Java SE Suite and Oracle Java SE is limited to support of Oracle WebLogic Suite components.

In each case;

(a) Use of the applicable Oracle Java SE edition in the manner or order listed above in this section, shall be pursuant to the terms and conditions applying to your use of the corresponding Oracle WebLogic edition.

(b) If you use an Oracle Java SE edition in any other way than as set forth above in this section, your use of Oracle Java SE shall be subject to the terms set forth at: http://java.com/otnlicense.

For details on Java SE Editions, see http://www.oracle.com/technetwork/java/javase/terms/products/index.html.

Oracle WebLogic Server Optimizations for Exalogic Elastic Cloud Software

The following sections describe the Oracle Weblogic Server optimizations for Exalogic Elastic Cloud software:

- Input/ Output and Work Manager Optimizations for Exalogic Elastic Cloud Software
- JDBC and Data Source Optimizations for Exalogic Elastic Cloud Software
- Cluster State Replication Optimizations for Exalogic Elastic Cloud Software
- Socket Direct Protocol for Exalogic Elastic Cloud Software
- Server and Service Migration Performance Optimizations for Exalogic Elastic Cloud Software
- Java Server Page Factory Caching Optimizations for Exalogic Elastic Cloud Software
- Oracle HTTP Client Optimizations for Exalogic Elastic Cloud Software

Input/ Output and Work Manager Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software can be configured with input/output and Work Manager optimizations for Oracle WebLogic Server Table 3-14 lists and describes the MBean attributes[4]for configuring Oracle WebLogic Server with these options that are restricted to Exalogic Elastic Cloud Software licenses.

Table 3-14 Exalogic Elastic Cloud Software Configuration Enabled in Oracle WebLogic Server

MBean Attribute	Description
`KernelMBean.ScatteredReadsEnabled=true`	Increases efficiency during I/O in environments with high network throughput.
`KernelMBean.GatheredWritesEnabled=true`	Increases efficiency during I/O in environments with high network throughput.
`KernelMBean.AddWorkManagerThreadsByCpuCount`	Increases efficiency of the self-tuning thread pool by aligning it with the Exalogic processor architecture threading capabilities
`ServerMBean.useConcurrentQueueForRequestManager=true`	Lockless request manager enables higher concurrency and efficiency in processing on Exalogic systems, especially for JMS use cases.

JDBC and Data Source Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software can be configured with optimized JDBC connections and improved Oracle Database Real Application Cluster connectivity within Oracle WebLogic Server. Table 3-15 lists and describes the Oracle JDBC features that are restricted to Exalogic Elastic Cloud Software licenses. Note, as stated in Socket Direct Protocol for Exalogic Elastic Cloud Software that Oracle WebLogic Server data sources using a JDBC connection string with the protocol portion being set to SDP (`PROTOCOL=SDP`) are restricted to Exalogic Elastic Cloud Software.

Table 3-15 Exalogic Elastic Cloud Software Oracle JDBC Options

Option	Description
`oracle.jdbc.enableJavaNetFastPath`	Enables the Oracle JDBC driver to reduce data copies and fragmentation.

Exalogic Elastic Cloud Software includes the right to Oracle WebLogic Server GridLink data sources, known as Active GridLink for RAC. The definitions of the XML configuration elements

[4] For more information about these MBeans, see KernelMBean in Oracle WebLogic Server MBean Reference.

available in GridLink data sources for the Exalogic Elastic Cloud Software entitlement are described in Database Integration

Cluster State Replication Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software can be configured for optimized state replication with Oracle WebLogic Server. Specifically one-way RMI for state replication and multi-channel replication are restricted to Exalogic Elastic Cloud Software.

For information about configuring these cluster state replication optimizations, see "Enabling Cluster-Level Session Replication Enhancements" in *Oracle Fusion Middleware Exalogic Enterprise Deployment Guide*.

Table 3-16 lists and describes the Oracle WebLogic Server cluster state replication MBeans that are restricted to Exalogic Elastic Cloud.

Table 3-16 Exalogic Elastic Cloud Software MBeans for State Replication

MBean	Description
`ServerMBean.setReplicationPorts(String ports)`	Enables the configuration of multiple replication channels per server within a Oracle WebLogic Server cluster.
`ClusterMBean.setOneWayRmiForReplicationEnabled(boolean enable)`	Enables state replication to be set directionally to one-way only
`ClusterMBean.setSessionLazyDeserializationEnabled(boolean enable)`	Increases efficiency with session replication.

Socket Direct Protocol for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud can be configured to utilize socket direct protocol (SDP) as a high performance protocol for WebLogic Network Channels and JDBC connectivity.

Oracle WebLogic Server data sources using a JDBC connection string with the SDP protocol (for example, (`PROTOCOL=SDP`)) are restricted to Exalogic Elastic Cloud Software. For information about configuring SDP based Oracle WebLogic Server data sources see "Enable Socket Direct Protocol for a Grid Link Data Source" in *Administering JDBC Data Sources for Oracle WebLogic Server*.

Table 3-4 lists and describes Oracle WebLogic Server SDP features that are restricted to Exalogic Elastic Cloud Software licenses.

Table 3-17 Exalogic Elastic Cloud Software WebLogic MBean Configuration Options

MBean Attribute	Description
`NetworkAccessPointMBean.SDPEnabled`	Specifies whether the network channel supports the socket direct protocol.

For more information about the `NetworkAccessPointMBean.SDPEnabled` attribute, see NetworkAccessPointMBean in Oracle WebLogic Server MBean Reference.

Server and Service Migration Performance Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software can be configured with Oracle WebLogic Server to enable more rapid failure detection and failover for migration of pinned services such as JMS and JTA Transaction Recovery Services, or migration of migratable servers hosting such services.

Table 3-18 lists and describes the Oracle WebLogic Server cluster MBeans that are restricted to Exalogic Elastic Cloud.

Table 3-18 Exalogic Elastic Cloud Software WebLogic MBean Configuration Options

MBean	Description
`ClusterMBean.memberDeathDetectorEnabled=true`	Enables faster detection of failed singleton services to improve server and service migration performance.

Java Server Page Factory Caching Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software can be configured with Oracle WebLogic Server to use JSP factory caching and improve scalability of Web applications built on the JSP Servlet engine (OJSP) utilized by Fusion Middleware products and Fusion Middleware applications running on Oracle WebLogic Server.

These optimizations are enabled when Exalogic domain-level enhancements are enabled as described in Enabling Exalogic-Specific Enhancements in Oracle WebLogic Server 11g Release 1. They can also be controlled by enabling the init parameter `jsp_factory_caching` (default `false`).

Oracle HTTP Client Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software can be configured with Oracle WebLogic Server to optimize Oracle HTTP client connection management to improve performance of Web applications built with Fusion Middleware products running on Oracle WebLogic Server.

These optimizations are enabled when Exalogic domain-level enhancements are enabled as described in Enabling Exalogic-Specific Enhancements in Oracle WebLogic Server 11g Release 1.

Third-Party Products and Details for Oracle WebLogic Server

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party products and details, for Oracle WebLogic Server, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle WebLogic Server with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle WebLogic Server are identified in the following Table 3-19,

along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle WebLogic Server:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0
- 14.1.1.0.0

This Table 3-19 summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle WebLogic Server.

For more information on the Apache Software Foundation, please see `<http://www.apache.org/>`. Copyright in source: Copyright (c) 2000-2002 The Apache Software Foundation Notice in source:None Contributors in source:Daniel Savarese is the original author of the OROMatcher, PerlTools, AwkTools, and TextTools packages that became the Jakarta-ORO project. Jon Stevens helped prepare the first release ofjakarta-oro and is a constant help in keeping the project consistent with the Jakarta project as a whole. Takashi Okamoto has contributed a unicode character class fix and an initial posix character class implementation. Mark Murphy has contributed performance improvements to Perl5Substitution as well as adding support for\UuLlE and escaping of $. Michael Davey fixed some documentation and added a missing int substitute(...) method to Perl5Util. Harald Kuhn updated MatchActionProcessor.processMatches() to accommodate character encodings.

Third-Party Products and Details for Oracle JDeveloper

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle JDeveloper, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle JDeveloper with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle JDeveloper are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle JDeveloper:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle JDeveloper.

Provider	Component(s)	Release Versions	Licensing Information
Terence Parr	ANTLR 2.7.6	11.1.1.9.0	We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software. We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc. If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed. In countries where the Public Domain status of the work may not be valid, the author grants a copyright licence to the general public to deal in the work without restriction and permission to sublicence derivates under the terms of any (OSI approved) Open Source licence. The Python parser generator code under antlr/actions/python/ is covered by the 3clause BSD licence (this part is included in the binary JAR files); the runtime part under lib/python/ is covered by the GNU GPL, version 3 or later (this part is not included in the binary JAR files). See here for the full details.

Third-Party Products and Details for Oracle Java Required Files

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Java Required Files, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Java Required Files with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Java Required Files are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Java Required Files:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0
- 14.1.1.0.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Java Required Files.

Third-Party Products and Details for Oracle WebLogic Server Proxy Plug-Ins

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle WebLogic Server Proxy Plug-ins, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle WebLogic Server Proxy Plug-ins with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in OracleWebLogic Server Proxy Plug-ins are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle WebLogic Server Proxy Plug-ins:

- 14.1.1.0.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle WebLogic Server Web Server Plug-ins.

Table 3-22 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebLogic Server Proxy Plug-Ins

Provider	Component(s)	Release Versions	Licensing Information
Apache	APR UTIL 1.6.1	14.1.1.0.0	Copyright (c) 2000-2016 The Apache Software Foundation. This product includes software developed at The Apache Software Foundation (`http://www.apache.org/`) Portions of this software were developed at the National Center for Supercomputing Applications (NCSA) at the University of Illinois at Urbana-Champaign. This software contains code derived from the RSA Data Security Inc. MD5 Message-Digest Algorithm, including various modifications by Spyglass Inc., Carnegie Mellon University, and Bell Communications Research, Inc (Bellcore). For a copy of the license, see Apache License Version 2. APACHE PORTABLE RUNTIME SUBCOMPONENTS: The Apache Portable Runtime includes a number of subcomponents with separate copyright notices and license terms. Your use of the source code for the these subcomponents is subject to the terms and conditions of the following licenses. For the include\apr_md5.h component: This is work is derived from material Copyright RSA Data Security, Inc. The RSA copyright statement and Licence for that original material is included below. This is followed by the Apache copyright statement and licence for the modifications made to that material. Copyright (C) 1991-2, RSA Data Security, Inc. Created 1991. All rights reserved. License to copy and use this software is granted provided that it is identified as the "RSA Data Security, Inc. MD5 Message-Digest Algorithm" in all material mentioning or referencing this software or this function. License is also granted to make and use derivative works provided that such works are identified as "derived from the RSA Data Security, Inc. MD5 Message-Digest Algorithm" in all material mentioning or referencing the derived work. RSA Data Security, Inc. makes no representations concerning either the merchantability of this software or the suitability of this software for any particular purpose. It is provided "as is" without express or implied warranty of any kind. These notices must be retained in any copies of any part of this documentation and/or software. For the passwd\apr_md5.c component: This is work is derived from material Copyright RSA Data Security, Inc. The RSA copyright statement and Licence for that original material is included below. This is followed by

Table 3-22 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebLogic Server Proxy Plug-Ins

Provider	Component(s)	Release Versions	Licensing Information
			the Apache copyright statement and licence for the modifications made to that material. MD5C.C - RSA Data Security, Inc., MD5 message-digest algorithm Copyright (C) 1991-2, RSA Data Security, Inc. Created 1991. All rights reserved. License to copy and use this software is granted provided that it is identified as the "RSA Data Security, Inc. MD5 Message-Digest Algorithm" in all material mentioning or referencing this software or this function. License is also granted to make and use derivative works provided that such works are identified as "derived from the RSA Data Security, Inc. MD5 Message-Digest Algorithm" in all material mentioning or referencing the derived work. RSA Data Security, Inc. makes no representations concerning either the merchantability of this software or the suitability of this software for any particular purpose. It is provided "as is" without express or implied warranty of any kind. These notices must be retained in any copies of any part of this documentation and/or software. The apr_md5_encode() routine uses much code obtained from the FreeBSD 3.0 MD5 crypt() function, which is licenced as follows: "THE BEER-WARE LICENSE" (Revision 42): <phk@login.dknet.dk> wrote this file. As long as you retain this notice you can do whatever you want with this stuff. If we meet some day, and you think * this stuff is worth it, you can buy me a beer in return. Poul-Henning Kamp For the crypto\apr_md4.c component: This is derived from material copyright RSA Data Security, Inc. Their notice is reproduced below in its entirety. Copyright (C) 1991-2, RSA Data Security, Inc. Created 1991. All * rights reserved. License to copy and use this software is granted provided that it is identified as the "RSA Data Security, Inc. MD4 Message-Digest Algorithm" in all material mentioning or referencing this software or this function. License is also granted to make and use derivative works provided that such works are identified as "derived from the RSA Data Security, Inc. MD4 Message-Digest Algorithm" in all material mentioning or referencing the derived work. RSA Data Security, Inc. makes no representations concerning either the merchantability of this software or the suitability of this software for any particular purpose.

Table 3-22 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle WebLogic Server Proxy Plug-Ins

Provider	Component(s)	Release Versions	Licensing Information
			It is provided "as is" without express or implied warranty of any kind. These notices must be retained in any copies of any part of this documentation and/or software. For the crypto\crypt_blowfish.c(.h) component: Written by Solar Designer <solar at openwall.com> in 1998-2011. No copyright is claimed, and the software is hereby placed in the public domain. In case this attempt to disclaim copyright and place the software in the public domain is deemed null and void, then the software is Copyright (c) 1998-2011 Solar Designer and it is hereby released to the general public under the following terms: Redistribution and use in source and binary forms, with or without modification, are permitted. There's ABSOLUTELY NO WARRANTY, express or implied. See crypto/crypt_blowfish.c for more information. For the include\apr_md4.h component: This is derived from material copyright RSA Data Security, Inc. Their notice is reproduced below in its entirety. Copyright (C) 1991-2, RSA Data Security, Inc. Created 1991. All rights reserved. License to copy and use this software is granted provided that it is identified as the "RSA Data Security, Inc. MD4 Message-Digest Algorithm" in all material mentioning or referencing this software or this function. License is also granted to make and use derivative works provided that such works are identified as "derived from the RSA Data Security, Inc. MD4 Message-Digest Algorithm" in all material mentioning or referencing the derived work. RSA Data Security, Inc. makes no representations concerning either the merchantability of this software or the suitability of this software for any particular purpose. It is provided "as is" without express or implied warranty of any kind. These notices must be retained in any copies of any part of this documentation and/or software. For the test\testmd4.c component: This is derived from material copyright RSA Data Security, Inc. Their notice is reproduced below in its entirety. Copyright (C) 1990-2, RSA Data Security, Inc. Created 1990. All rights reserved. RSA Data Security, Inc. makes no representations concerning either the merchantability of this software or the suitability of this software for any particular purpose.

Third-Party Products and Details for Oracle Platform Security Service

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Platform Security Service, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Platform Security Service with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Platform Security Service are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Platform Security Service:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Platform Security Service.

Table 3-23 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Platform Security Service

Provider	Component(s)	Release Versions	Licensing Information
Liberty Alliance	OpenAz 1.0	11.1.1.9.0 12.2.1.2.0 12.2.1.3.0 12.2.1.4.0	For a copy of the license, see Apache License Version 2.

Third-Party Products and Details for Oracle Security Service

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Security Service, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Security Service with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Security Service are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Security Service:

- 12.2.1.1.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Security Service.

Table 3-24 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Security Service

Provider	Component(s)	Release Versions	Licensing Information
Andy Clark	NekoHTML 1.9.12	12.2.1.1.0 12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.

Oracle will use reasonable efforts to include the RSA seal in advertisements for bundled products.
RSA	MES 4.1.6.3	12.2.1.4.0	

Oracle Internet Application Server

Oracle Internet Application Server is available in three editions with different functional capabilities, each suitable for different kinds of applications and different development and deployment scenarios. Oracle also offers several application server options, packs, and other products that enhance the capabilities of Oracle Internet Application Server for specific purposes.

This section describes the licensing editions of Oracle Internet Application Server.

> **Note:**
>
> All editions of the products Oracle Internet Application Server and Oracle Forms and Reports Server include rights to Oracle WebLogic Server Basic. Oracle WebLogic Server Basic is only for running components provided within these products such as Forms, Reports, Discoverer and Portal. It can also be used for custom Java applications such as those developed for Oracle Containers for J2EE. Products outside of Oracle Internet Application Server and Oracle Forms and Reports that have licensing dependencies on any edition of Oracle Internet Application Server or Oracle Forms and Reports do not have the right to run those products on Oracle WebLogic Server Basic unless stated specifically within their licensing documentation.
>
> For complete details about Oracle WebLogic Server Basic, see WebLogic Server Basic.

Table 3-25 introduces the Oracle Internet Application Server licensing options.

Table 3-25 Oracle Internet Application Server Editions

Licensing Edition	High-Level Functionality	Included Features
Standard Edition	Oracle Internet Application Server Standard Edition includes: • Oracle HTTP Server • Oracle TopLink and Application Development Framework (This also includes MapViewer, for details see Oracle TopLink and Oracle Application Development Framework (ADF)) • Oracle Portal • Oracle Web Cache • Java SE. For details on Java SE Editions, see `http://www.oracle.com/technetwork/java/javase/terms/products/index.html`. • Oracle WebLogic Server Basic (see WebLogic Server Basic) **Note:** In Oracle Fusion Middleware 10*g* Release 2 and Release 3, Oracle Internet Application Server includes the licensing rights to Oracle Containers for J2EE (OC4J) as the J2EE container. In future releases of Oracle Fusion Middleware, customers of Oracle Internet Application Server continue to have rights to the OC4J 10g Release 2 and Release 3 (the terminal release of OC4J). Oracle Internet Application Server also includes the Oracle Security Developer Tools. Oracle Internet Application Server Standard Edition, in addition to the components listed above, also includes the following: • Oracle Internet Directory • Oracle Single Sign-On • Oracle Directory Services Manager	• mod_ossl • mod_oradav • mod_fastcgi • mod_rewrite • Proxy Plug-In • XML Developer Kit • Oracle Security Developer Tools • Oracle Enterprise Manager Fusion Middleware Control • Java Authentication and Authorization Service (JAAS) Provider • Data Direct JDBC drivers for Oracle and non-Oracle databases • mod_plsql • mod_osso • mod_perl • Perl Interpreter • DBI/DBD data access libraries • Oracle Content Management SDK • Oracle Repository Creation Utility

Table 3-25 (Cont.) Oracle Internet Application Server Editions

Licensing Edition	High-Level Functionality	Included Features
		Note: In Oracle Fusion Middleware 10*g* Release 2, Oracle Internet Application Server includes the licensing rights to Oracle Single Sign-On. In Oracle Fusion Middleware 11*g*, customers of Oracle Internet Application Server continue to have rights to Oracle Single Sign-On 10*g* Release 2. In Oracle Fusion Middleware 11*g*, customers of Oracle Internet Application Server additionally have the rights to Oracle Access Manager Basic as described in Oracle Access Manager Basic.
		Note: In Oracle Fusion Middleware 10*g* Release 2, Oracle Internet Application Server Standard Edition includes limited use licenses for Oracle Internet Directory and Oracle Single Sign-On. The full use licenses for these products are available in Oracle Internet Application Server Enterprise Edition, and also in Oracle Identity and

Table 3-25 (Cont.) Oracle Internet Application Server Editions

Licensing Edition	High-Level Functionality	Included Features
	Access Management Suite Plus as described in Oracle Identity and Access Management Suite Plus.	

Table 3-25 (Cont.) Oracle Internet Application Server Editions

Licensing Edition	High-Level Functionality	Included Features
Enterprise Edition	Oracle Internet Application Server Enterprise Edition includes all of the Standard Edition functionality, plus: • Oracle Internet Directory • Oracle Single Sign-On • Oracle Reports Services • Oracle Forms Services • Oracle Directory Services Manager In addition to the components listed above, Oracle Internet Application Server Enterprise Edition includes the rights to the following components from Oracle Fusion Middleware 10*g* Release 2: • Oracle Delegated Administration Services • Oracle Directory Integration Platform • Oracle Single Sign-On Oracle Internet Application Server Enterprise Edition includes full use licenses for Oracle Internet Directory. **Note:** In Oracle Fusion Middleware 10*g* Release 2, Oracle Internet Application Server includes the licensing rights to Oracle Single Sign-On. In Oracle Fusion Middleware 11*g*, customers of Oracle Internet Application Server continue to have rights to Oracle Single Sign-On 10*g* Release 2. In Oracle Fusion Middleware 11*g*, customers of Oracle Internet Application Server additionally have the rights to Oracle Access Manager Basic as described in Oracle Access Manager Basic.	All Standard Edition features, plus: • Oracle Identity Management features • Business Intelligence features • Application Interconnect Toolkit • Technology Adapters and Oracle Enterprise Service Bus • Oracle B2B **Note:** See Oracle Identity Management for details about Identity Management features.

Table 3-25 (Cont.) Oracle Internet Application Server Editions

Licensing Edition	High-Level Functionality	Included Features
		Note: If you license Oracle Internet Application Server Enterprise Edition, some Identity Management and Access Management components will be from earlier releases of Oracle Fusion Middleware 10*g*.

This section contains the following topics:

- Oracle Internet Application Server Editions and Installation Types
- Licensing Considerations for Additional Features
- Restricted-Use Licensing

Oracle Internet Application Server Editions and Installation Types

When you install Oracle Internet Application Server, you will have the choice of several installation types. Each installation type provides a specific set of components and features.

Oracle Internet Application Server editions do not map directly to these product installation types. It is important to understand how these two concepts relate to each other. Table 3-26 lists the minimum edition requirements for each installation type.

In each case, the minimum edition listed is the edition required to install the installation type. However, the minimum edition may not enable you to use everything included in that installation type. For example, you can install Portal, Forms, Reports and Discoverer from an installation type, but the Standard Edition license does not cover the usage of Oracle Forms, Reports and Discoverer. These restrictions are detailed in Table 3-27.

Table 3-26 Edition Requirements for Installation Types of Oracle Internet Application Server

Installation Type	Oracle Internet Application Server Minimum Edition Required
Web Tier	Standard Edition
Oracle WebLogic Server	Standard Edition
JDeveloper	Standard Edition
TopLink	Standard Edition

Table 3-26 (Cont.) Edition Requirements for Installation Types of Oracle Internet Application Server

Installation Type	Oracle Internet Application Server Minimum Edition Required
Oracle Identity Management	Standard Edition
Portal, Forms, Reports and Discoverer	Standard Edition
Integration, Oracle B2B	Enterprise Edition
Repository Creation Utility	Standard Edition

Table 3-27 lists the installation types available with each of the Oracle Internet Application Server editions, along with any exceptions or restrictions associated with each edition-installation pair.

Table 3-27 Installation Types Included with Editions of Oracle Internet Application Server

Edition	Installation Types	Exceptions
Standard Edition	Web Tier Oracle WebLogic Server JDeveloper TopLink Portal, Forms, Reports and Discoverer Repository Creation Utility	Upgrade to Enterprise Edition if you need: • Portal, Forms, Reports and Discoverer • Oracle Single Sign-On • Oracle Internet Directory See also Restricted-Use Licensing
Enterprise Edition	Web Tier Oracle WebLogic Server JDeveloper TopLink Portal, Forms, Reports and Discoverer Integration, Oracle B2B Repository Creation Utility	For Integration installations, all packaged application, legacy system, and B2B adapters are licensed separately. See also Restricted-Use Licensing

Licensing Considerations for Additional Features

Certain Oracle Application Server features have additional licensing considerations.

This section contains the following topics:

- Management Features
- Security Features
- High Availability Features
- Adapters

Management Features

Note the following license considerations for management features:

- Oracle Enterprise Manager Fusion Middleware Control is included with all editions of Oracle Application Server.
- Oracle Application Server Enterprise Edition can be managed by Oracle Enterprise Manager Cloud Control, which is Oracle's integrated enterprise information technology (IT) management product line providing the industry's only complete, integrated, and business-driven enterprise cloud management solution.

Security Features

Oracle Application Server provides a number of features to ensure security between the client and the application server, and between the application server and the database.

This section contains the following topics:

- Oracle Advanced Security
- Oracle Identity Management

Oracle Advanced Security

Oracle Advanced Security ensures that communication over the Oracle SQL*Net Protocol is encrypted and secure. It also provides strong authentication services between the application server and the database. As part of a "secure by default" architecture, Oracle Advanced Security is installed with Oracle Fusion Middleware by default. This ensures that the client components required for secure communication and strong authentication between the application server and an Oracle database are present. However, if you want to configure and use the secure communication and authentication services provided by Oracle Advanced Security, you must also license Oracle Advanced Security with the Oracle database with which the application server communicates.

Oracle Identity Management

The Oracle Identity Management license that is included in Oracle Internet Application Server Enterprise Edition includes the following:

- Oracle Internet Directory
- Oracle Directory Integration Platform
- Oracle Delegated Administration Services
- Oracle Directory Services Manager
- Oracle Single Sign-On
- Oracle Access Manager Basic

  For more information, see Oracle Access Manager Basic.

A restricted use license for some of the Oracle Identity Management features is included with the application server for specific purposes. For more information, see Restricted-Use Licensing

High Availability Features

Oracle Internet Application Server has several high availability features that require special licensing considerations. These considerations are similar to the licensing considerations for the high availability features of the Oracle Database. These considerations are described in High Availability Considerations for Oracle WebLogic Server Middle-Tier Instances There are

further high availability restrictions for Oracle Internet Application Server based on the limited use license of Oracle WebLogic Server Basic, described in WebLogic Server Basic.

Adapters

See Oracle Fusion Middleware Adapters for a description of Fusion Middleware Adapters. Technology adapters are included in all Oracle Internet Application Server editions. Other adapters require separate licensing.

Restricted-Use Licensing

The following restricted-use licenses are included with Oracle Internet Application Server in the editions and products indicated.

- Standard Edition
- Enterprise Edition
- Oracle Database License Requirements: Oracle Internet Application Server (Standard Edition, Enterprise Edition) and WebLogic Suite

Standard Edition

- Oracle Single Sign-On is provided only for use with Oracle Portal.
- Oracle Internet Directory is provided for use with Oracle Single Sign-On and with application server components to:
  - Provision, store, and manage users and groups, along with their associated security credentials and privileges
  - Synchronize data with third party directory services
  - Store other component-specific metadata
- Oracle Advanced Security Option is included, with use limited strictly to the Oracle Java SSL Library.
- The Oracle Database (Enterprise Edition) is provided only for use with the Oracle Repository Creation Utility database schema for storing product metadata.

> **Note:**
>
> During installation, you can choose to install the product metadata into an existing, licensed database. Choosing this option has the following licensing implications:
>
> - The restricted use license does not apply to the use of the existing database as the Oracle Repository Creation Utility database schema.
> - If the computer on which your existing database is running does not run any other Oracle Application Server installations, there is no Oracle Internet Application Server license requirement for that computer.
> - Installing the Oracle Repository Creation Utility database schema into your existing database may increase the number of users accessing that database, and may thus affect your database license needs. You need to make sure that you have the appropriate number of database licenses to ensure compliance.

Enterprise Edition

- A license to iAS-EE includes a restricted-use license to Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher). Use of Oracle Analytics Publisher is restricted to use for production deployment purposes only. For use of Oracle Analytics Publisher with application development and testing, a full use Oracle Analytics Publisher, Oracle Business Intelligence EE, or Internet Developer Suite license is required.
- Oracle Advanced Security Option is included, with use limited strictly to the Oracle Java SSL Library.
- The Oracle Database (Enterprise Edition) is provided only for use with the Oracle Repository Creation Utility database schema for storing product metadata.

> **Note:**
>
> During installation, you can choose to install the Oracle Repository Creation Utility database schema into an existing, licensed database. Choosing this option has the following licensing implications:
>
> - The restricted use license does not apply to the use of the existing database for the Oracle Repository Creation Utility database schema.
> - If the computer on which your existing database is running does not run any other Oracle Fusion Middleware installations, there is no Oracle Internet Application Server license requirement for that computer.
> - Installing the Oracle Repository Creation Utility database schema into your existing database may increase the number of users accessing that database, and may thus affect your database license needs. You need to make sure that you have the appropriate number of database licenses to ensure compliance.

Oracle Database License Requirements: Oracle Internet Application Server (Standard Edition, Enterprise Edition) and WebLogic Suite

Storing any data other than the Oracle Repository Creation Utility database schema in the Oracle Application Server Infrastructure database requires a full use license of the Oracle Database (Standard Edition 2 or Enterprise Edition).

This section contains the following topics:

- Full Use License of Oracle Database Standard Edition 2
- Full Use License of Oracle Database Enterprise Edition
- When is a Full Use License of Oracle Database Not Required?

Full Use License of Oracle Database Standard Edition 2

Some examples of the kinds of data that require the purchase of a full use license for the Oracle Database Standard Edition 2 include:

- Documents or any other objects stored in the Oracle Database under Oracle Content Management SDK
- Documents or any kind of content stored in the Portal Repository

- Oracle Integration B2B
- Any BPEL Process Manager process instance data, which includes using Oracle Database as the dehydration store
- Any LDAP data related to the use of Oracle Internet Directory as a general purpose LDAP directory
- Any other custom data that is created or updated by an application

Full Use License of Oracle Database Enterprise Edition

Two kinds of data require the purchase of a full use license of the Oracle Database Enterprise Edition:

- Any Oracle Portal that leverages the VPD functionality of the database for hosting
- Any LDAP data related to the use of an Oracle Internet Directory LDAP Directory, and database replication is used

When is a Full Use License of Oracle Database Not Required?

The following scenarios do not require the purchase of a full use license of the Oracle Database when you purchase Oracle Internet Application Server:

- If you are only using Oracle Web Cache
- If you are using Oracle Business Intelligence Discoverer only against a non-Oracle database
- If you are using Oracle Reports Services only against a non-Oracle database

Oracle GlassFish Server

Oracle GlassFish Server is a Java EE server infrastructure that comes with a rich administrative console and scripting infrastructure for developing and deploying Java EE applications. It is available as a standalone product.

When you license Oracle GlassFish Server, it includes:

- Java EE Server infrastructure
- Java SE. For details on Java SE Editions, see `http://www.oracle.com/technetwork/java/javase/terms/products/index.html`.
- Oracle GlassFish Message Queue
- Oracle GlassFish Server HTTP load balancer plug-in
- GlassFish Server Control
- Oracle TopLink — for JPA 2.0 persistence infrastructure
- asadmin — the command line interface to Oracle GlassFish Server
- HADB — for Oracle GlassFish 2.*x* releases, enabling additional quality of service support for state management

Oracle GlassFish Server is part of the Oracle Fusion Middleware application grid portfolio and is ideally suited for applications requiring lightweight infrastructure with the most up-to-date implementation of enterprise Java, Java EE 6, and Java Web Services infrastructure.

Oracle GlassFish Server can also be managed with Oracle Enterprise Manager Cloud Control 12c, which is Oracle's integrated enterprise information technology (IT) management product

line providing the industry's only complete, integrated, and business-driven enterprise cloud management solution. Management of Oracle GlassFish Server with Cloud Control is separately licensed; see Oracle WebLogic Server Management Pack Enterprise Edition.

This section contains the following topics:

- Java SE
- Third-Party Products and Details for Oracle GlassFish Server

Java SE

Java SE includes the Java Development Kit (JDK), the Java Runtime Environment (JRE) and the JRockit JDK.

For full details on Java SE Editions, see `http://www.oracle.com/technetwork/java/javase/terms/products/index.html`.

Third-Party Products and Details for Oracle GlassFish Server

This section lists all the applicable commercial third party notices and/or licenses and all open sourc e or other separately licensed third party notices and/or licenses, for Oracle GlassFish Server, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle GlassFish Server with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle GlassFish Server are identified in the following Table 3-28, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle GlassFish Server:

- 4.0.1.0.0
- 5.0.0.0.0
- 5.0.1.0.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle GlassFish Server.

Table 3-28 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle GlassFish Server

Provider	Component(s)	Release Versions	Licensing Information

			SOFTWARE RIGHTS
			ANTLR 1989-2006 Developed by Terence Parr Partially supported by University of San Francisco & jGuru.com
			We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software.
			We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc... If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed.
			The primary ANTLR guy:
			Terence Parr

Oracle Web Tier

Oracle Web Tier is a high performance Web server infrastructure consisting of the following components:

- Oracle WebLogic Management Framework
- Oracle HTTP Server

  Oracle HTTP Server is an Apache based web server that provides a HTTP listener for Oracle WebLogic Server and the framework for hosting static pages, dynamic pages, and applications over the web.

  Oracle HTTP Server includes the following extensions:

  - mod_ossl
  - proxy plug-in
  - mod_oradav
  - mod_fastcgi
  - mod_rewrite
  - mod_plsql
  - mod_osso
  - mod_perl
- Third-Party Products and Details for Oracle HTTP Server

Third-Party Products and Details for Oracle HTTP Server

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle HTTP Server, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle HTTP Server with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle HTTP Server are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle HTTP Server:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle HTTP Server.

Table 3-29 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle HTTP Server

Provider	Component(s)	Release Versions	Licensing Information
CPAN	Compress::Zlib 2.008	11.1.1.9.0	Copyright (c) 1995-2007 Paul Marquess. All rights reserved. This program is free software; you can redistribute it and/or modify it under the same terms as Perl itself. Definitions: "Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification. "Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder as specified below. "Copyright Holder" is whoever is named in the copyright or copyrights for the package. "You" is you, if you're thinking about copying or distributing this Package. "Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.) "Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it. 1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers. 2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version. 3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how and when you changed that file, and provided that you do at least ONE of the following: • a) Place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by

Table 3-29 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle HTTP Server

Provider	Component(s)	Release Versions	Licensing Information
			allowing the Copyright Holder to include your modifications in the Standard Version of the Package. • b) Use the modified Package only within your corporation or organization. • c) Rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version. • d) Make other distribution arrangements with the Copyright Holder. 4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following: • a) Distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version. • b) Accompany the distribution with the machine-readable source of the Package with your modifications. • c) Give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version. • d) Make other distribution arrangements with the Copyright Holder. 5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own. You may embed this Package's interpreter within an executable of yours (by linking); this shall be construed as a mere form of aggregation, provided that the complete Standard Version of the interpreter is so embedded. 6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package. If such scripts or library files are aggregated with this

Table 3-29 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle HTTP Server

Provider	Component(s)	Release Versions	Licensing Information
			Package via the so-called "undump" or "unexec" methods of producing a binary executable image, then distribution of such an image shall neither be construed as a distribution of this Package nor shall it fall under the restrictions of Paragraphs 3 and 4, provided that you do not represent such an executable image as a Standard Version of this Package. 7. C subroutines (or comparably compiled subroutines in other languages) supplied by you and linked into this Package in order to emulate subroutines and variables of the language defined by this Package shall not be considered part of this Package, but are the equivalent of input as in Paragraph 6, provided these subroutines do not change the language in any way that would cause it to fail the regression tests for the language. 8. Aggregation of this Package with a commercial distribution is always permitted provided that the use of this Package is embedded; that is, when no overt attempt is made to make this Package's interfaces visible to the end user of the commercial distribution. Such use shall not be construed as a distribution of this Package. 9. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission. 10. THIS PACKAGE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Copyright (c) 1995-2007 Paul Marquess. All rights reserved. This program is free software; you can redistribute it and/or modify it under the same terms as Perl itself. Definitions: "Package" refers to the collection of files distributed by the Copyright Holder, and derivatives of that collection of files created through textual modification. "Standard Version" refers to such a Package if it has not been modified, or has been modified in accordance with the wishes of the Copyright Holder as specified below. "Copyright Holder" is whoever is named in the copyright or copyrights for the package. "You" is you, if you're thinking about copying or distributing this Package. "Reasonable copying fee" is whatever you can justify on the basis of media cost, duplication charges, time of people involved, and so on. (You will not be required to justify it to the Copyright Holder, but only to the computing community at large as a market that must bear the fee.) "Freely Available" means that no fee is charged for the item itself, though there may be fees involved in handling the item. It also means that recipients of the item may redistribute it under the same conditions they received it. 1. You may make and give away verbatim copies of the source form of the Standard Version of this Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers. 2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version. 3. You may otherwise modify your copy of this Package in any way, provided that you insert a prominent notice in each changed file stating how

Table 3-29 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle HTTP Server

Provider	Component(s)	Release Versions	Licensing Information
			and when you changed that file, and provided that you do at least ONE of the following: • a) Place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package. • b) Use the modified Package only within your corporation or organization. • c) Rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version. • d) Make other distribution arrangements with the Copyright Holder. 4. You may distribute the programs of this Package in object code or executable form, provided that you do at least ONE of the following: • a) Distribute a Standard Version of the executables and library files, together with instructions (in the manual page or equivalent) on where to get the Standard Version. • b) Accompany the distribution with the machine-readable source of the Package with your modifications. • c) Give non-standard executables non-standard names, and clearly document the differences in manual pages (or equivalent), together with instructions on where to get the Standard Version. • d) Make other distribution arrangements with the Copyright Holder. 5. You may charge a reasonable copying fee for any distribution of this Package. You may charge any fee you choose for support of this Package. You may not charge a fee for this Package itself. However, you may distribute this Package in aggregate with other (possibly commercial) programs as part of a larger (possibly commercial) software distribution provided that you do not advertise this Package as a product of your own. You may embed this Package's interpreter within an executable of yours (by linking); this shall be construed as a mere form of aggregation, provided that the complete Standard Version of the interpreter is so embedded.

Table 3-29 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle HTTP Server

Provider	Component(s)	Release Versions	Licensing Information
			6. The scripts and library files supplied as input to or produced as output from the programs of this Package do not automatically fall under the copyright of this Package, but belong to whoever generated them, and may be sold commercially, and may be aggregated with this Package. If such scripts or library files are aggregated with this Package via the so-called "undump" or "unexec" methods of producing a binary executable image, then distribution of such an image shall neither be construed as a distribution of this Package nor shall it fall under the restrictions of Paragraphs 3 and 4, provided that you do not represent such an executable image as a Standard Version of this Package. 7. C subroutines (or comparably compiled subroutines in other languages) supplied by you and linked into this Package in order to emulate subroutines and variables of the language defined by this Package shall not be considered part of this Package, but are the equivalent of input as in Paragraph 6, provided these subroutines do not change the language in any way that would cause it to fail the regression tests for the language. 8. Aggregation of this Package with a commercial distribution is always permitted provided that the use of this Package is embedded; that is, when no overt attempt is made to make this Package's interfaces visible to the end user of the commercial distribution. Such use shall not be construed as a distribution of this Package. 9. The name of the Copyright Holder may not be used to endorse or promote products derived from this software without specific prior written permission. 10. THIS PACKAGE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Oracle Coherence Products

Oracle Coherence is available in the following three editions: Oracle Coherence Standard Edition One (OC-SEO), Oracle Coherence Enterprise Edition (OC-EE), and Oracle Coherence Grid Edition (OC-GE). Coherence deployment consists of a set of clustered nodes, each of which must be licensed with the same edition.

OC-SEO clusters may have unlimited nodes, but only two nodes may be configured to have any partitioned cache services (storage-enabled attribute set to true).

An unlimited number of Oracle Coherence Real-Time Compute Clients licenses are included with each license of OC-GE. Real-time Compute Clients provide Java client access from within the Coherence cluster and have all the capabilities of OC-GE nodes except the capability to manage partitioned data and the capability to be an extend proxy.

This section contains the following topics:

- Client Access to Oracle Coherence Clusters
- Feature Availability in Oracle Coherence Editions
- Oracle WebLogic Coherence Grid Edition Option
- Restricted Use Licenses
- Oracle Coherence Optimizations for Exalogic Elastic Cloud Software
- Oracle Management Pack for Oracle Coherence
- Third-Party Products and Details for Oracle Coherence Products

Client Access to Oracle Coherence Clusters

Oracle Coherence Real-Time Data Clients (OC-RTDC) enable client access from outside the Oracle Coherence cluster. An unlimited number of OC-RTDC licenses are included with each license of Oracle Coherence. OC-RTDC come in three languages: Java, C++ or .NET (C#), with OC-SEO limited to Java-only. OC-RTDC connects to the Oracle Coherence cluster through one or more specially configured cluster member nodes called an Extend Proxy. All Extend Proxy nodes must be separately licensed.

Feature Availability in Oracle Coherence Editions

Oracle Coherence installation packages install features that may be restricted to use only in specified Oracle Coherence Editions. Table 3-30 lists the features available in the Oracle Coherence Editions. The Y value in a column means that the feature is available in the specified product edition; N means that use of the feature is not permitted in the specified product edition. This table can help you understand the difference between the product editions and determine whether you require Oracle Coherence Standard Edition One, Oracle Coherence Enterprise Edition or Oracle Coherence Grid Edition.

Table 3-30 Coherence Editions

Feature	Oracle Coherence Standard Edition One	Oracle Coherence Enterprise Edition	Oracle Coherence Grid Edition
Fault-tolerant data caching	Y	Y	Y
Data management including write-behind, transactions, analytics and events	Y	Y	Y
Local cache, Near cache, continuous query cache, real-time events	Y	Y	Y
Fully replicated data management	Y	Y	Y
Partitioned data management	Y	Y	Y
Data source integration through read-through/write-through/write-behind caching	Y	Y	Y

Table 3-30 (Cont.) Coherence Editions

Feature	Oracle Coherence Standard Edition One	Oracle Coherence Enterprise Edition	Oracle Coherence Grid Edition
Persistent, Recoverable Caching	Y	Y	Y
Hibernate integration	Y	Y	Y
REST, memcached, JCache Clients	Y	Y	Y
Java Real Time Data Clients	Y	Y	Y
Scale-out Caching, Query, Aggregation, and Processing	N	Y	Y
.NET and C++ Real-Time Data Clients	N	Y	Y
Oracle WebLogic Management Framework (see Oracle WebLogic Management Framework)	N	Y	Y
HTTP session management for application servers	N	Y	Y
TopLink integration	N	Y	Y
WorkManager	N	Y	Y
Elastic Data	N	N	Y
GoldenGate HotCache	N	N	Y
Unlimited Real-Time Compute Clients	N	N	Y
Multitenancy[1]	N	N	Y
Federated Caching / WAN support[2]	N	N	Y

1 Coherence Multitenancy works only in conjunction with Oracle WebLogic Server Multitenant. See Oracle WebLogic Server Multitenant for additional licensing details.

2 Grid Edition is required for Federated Caching, WAN and other deployments that implement cluster-to-cluster interconnects, including any deployment where responsibility for data and/or processing spans more than one data center and activities are coordinated between those data centers using any form of Coherence-provided messaging or connectivity, such as deployments that feature two or more TCMP clusters interconnected by Coherence*Extend.

Oracle WebLogic Coherence Grid Edition Option

A license to Oracle WebLogic Coherence Grid Edition Option includes a license to use the following features in OC-GE: Elastic Data, GoldenGate HotCache, Unlimited Real-Time Compute Clients, Multitenancy, and Federated Caching. For more information on the applicability of this option to Oracle WebLogic Server editions, see Oracle WebLogic Suite Options.

Prerequisite: A license to Oracle WebLogic Suite is a prerequisite to license and use Oracle WebLogic Coherence Grid Edition Option.

A license to Oracle WeLogic Coherence Grid Edition Option is included in Oracle WebLogic Server Multitenant and Oracle WebLogic Server Continuous Availability.

Restricted Use Licenses

A license to OC-SEO, OC-EE or OC-GE includes a restricted-use license to Java SE. Use of Java SE is restricted to running applications hosted on components within OC-SEO, OC-EE or OC-GE.

A license to OC-EE or OC-GE includes a restricted-use license to Oracle TopLink and Oracle Application Development Framework. Use of Oracle TopLink and Oracle Application Development Framework is restricted to the TopLink component within OC-EE and OC-GE.

Oracle Coherence Optimizations for Exalogic Elastic Cloud Software

Exalogic Elastic Cloud Software includes the following optimizations for use with Oracle Coherence:

- For Coherence cluster optimized point-to-point communications on Exalogic the use of the reliable transport options imb and sdmb.
- For Coherence*Web caching performance optimizations on Exalogic use `Coherence*Web OptimizeModifiedSessions` as described in Oracle Coherence User's Guide for Oracle Coherence*Web.

Oracle Management Pack for Oracle Coherence

Oracle Management Pack for Oracle Coherence provides monitoring and management capabilities for Oracle Coherence.

For complete license details about Management Pack for Oracle Coherence, see "Oracle Middleware Enterprise Management" in Oracle Enterprise Manager Licensing Information. This document is available from the Oracle Enterprise Manager Documentation page at http://www.oracle.com/technetwork/oem/grid-control/documentation/index.html

Third-Party Products and Details for Oracle Coherence Products

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Coherence, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Coherence with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Coherence are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Coherence:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0
- 14.1.1.0.0

The following Oracle Coherence products are included:

- Oracle WebLogic Coherence Standard Edition One

- Oracle WebLogic Coherence Enterprise Edition
- Oracle WebLogic Coherence Grid Edition
- Oracle WebLogic Coherence Grid Edition Option

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Coherence.

Provider	Component(s)	Release Versions	Licensing Information
Creative Commons Legal Code	SBAdmin 2 1.0.7	12.2.1.2.0	License details SB (Start Bootstrap) Admin 2 Creative Commons Legal Code Attribution 3.0 Unported All rights reserved. CREATIVE COMMONS CORPORATION IS NOT A LAW FIRM AND DOES NOT PROVIDE LEGAL SERVICES. DISTRIBUTION OF THIS LICENSE DOES NOT CREATE AN ATTORNEY-CLIENT RELATIONSHIP. CREATIVE COMMONS PROVIDES THIS INFORMATION ON AN “AS-IS” BASIS. CREATIVE COMMONS MAKES NO WARRANTIES REGARDING THE INFORMATION PROVIDED, AND DISCLAIMS LIABILITY FOR DAMAGES RESULTING FROM ITS USE. License THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE COMMONS PUBLIC LICENSE ("CCPL" OR "LICENSE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENSE OR COPYRIGHT LAW IS PROHIBITED. BY EXERCISING ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENSE. TO THE EXTENT THIS LICENSE MAY BE CONSIDERED TO BE A CONTRACT, THE LICENSOR GRANTS YOU THE RIGHTS CONTAINED HERE IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS. 1. Definitions a. "Adaptation" means a work based upon the Work, or upon the Work and other pre-existing works, such as a translation, adaptation, derivative work, arrangement of music or other alterations of a literary or artistic work, or phonogram or performance and includes cinematographic adaptations or any other form in which the Work may be recast, transformed, or adapted including in any form recognizably derived from the original, except that a work that constitutes a Collection will not be considered an Adaptation for the purpose of this License. For the avoidance of doubt, where the Work is a musical work, performance or phonogram, the synchronization of the Work in timed-relation with a moving image ("synching") will be considered an Adaptation for the purpose of this License. b. "Collection" means a collection of literary or artistic works, such as encyclopedias and anthologies, or performances, phonograms or broadcasts, or other works or subject matter other than works listed in Section 1(f) below, which, by reason of the selection

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			and arrangement of their contents, constitute intellectual creations, in which the Work is included in its entirety in unmodified form along with one or more other contributions, each constituting separate and independent works in themselves, which together are assembled into a collective whole. A work that constitutes a Collection will not be considered an Adaptation (as defined above) for the purposes of this License. c. "Distribute" means to make available to the public the original and copies of the Work or Adaptation, as appropriate, through sale or other transfer of ownership. d. "Licensor" means the individual, individuals, entity or entities that offer(s) the Work under the terms of this License. e. "Original Author" means, in the case of a literary or artistic work, the individual, individuals, entity or entities who created the Work or if no individual or entity can be identified, the publisher; and in addition (i) in the case of a performance the actors, singers, musicians, dancers, and other persons who act, sing, deliver, declaim, play in, interpret or otherwise perform literary or artistic works or expressions of folklore; (ii) in the case of a phonogram the producer being the person or legal entity who first fixes the sounds of a performance or other sounds; and, (iii) in the case of broadcasts, the organization that transmits the broadcast. f. "Work" means the literary and/or artistic work offered under the terms of this License including without limitation any production in the literary, scientific and artistic domain, whatever may be the mode or form of its expression including digital form, such as a book, pamphlet and other writing; a lecture, address, sermon or other work of the same nature; a dramatic or dramatico-musical work; a choreographic work or entertainment in dumb show; a musical composition with or without words; a cinematographic work to which are assimilated works expressed by a process analogous to cinematography; a work of drawing, painting, architecture, sculpture, engraving or lithography; a photographic work to which are assimilated works expressed by a process analogous to photography; a work of applied art; an illustration, map, plan, sketch or three-dimensional work relative to geography, topography, architecture or science; a performance; a broadcast; a phonogram; a compilation of data to the extent it is protected as a copyrightable work; or a work performed by a variety or circus performer to the extent it is not otherwise considered a literary or artistic work. g. "You" means an individual or entity exercising rights under this License who has not previously violated the terms of this License with respect to the Work, or who has received express permission from the Licensor to

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			exercise rights under this License despite a previous violation. h. "Publicly Perform" means to perform public recitations of the Work and to communicate to the public those public recitations, by any means or process, including by wire or wireless means or public digital performances; to make available to the public Works in such a way that members of the public may access these Works from a place and at a place individually chosen by them; to perform the Work to the public by any means or process and the communication to the public of the performances of the Work, including by public digital performance; to broadcast and rebroadcast the Work by any means including signs, sounds or images. i. "Reproduce" means to make copies of the Work by any means including without limitation by sound or visual recordings and the right of fixation and reproducing fixations of the Work, including storage of a protected performance or phonogram in digital form or other electronic medium. 2. Fair Dealing Rights. Nothing in this License is intended to reduce, limit, or restrict any uses free from copyright or rights arising from limitations or exceptions that are provided for in connection with the copyright protection under copyright law or other applicable laws. 3. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below: a. To Reproduce the Work, to incorporate the Work into one or more Collections, and to Reproduce the Work as incorporated in the Collections; b. To create and Reproduce Adaptations provided that any such Adaptation, including any translation in any medium, takes reasonable steps to clearly label, demarcate or otherwise identify that changes were made to the original Work. For example, a translation could be marked "The original work was translated from English to Spanish," or a modification could indicate "The original work has been modified." c. To Distribute and Publicly Perform the Work including as incorporated in Collections; and, d. To Distribute and Publicly Perform Adaptations. e. For the avoidance of doubt: i. Non waivable Compulsory License Schemes. In those jurisdictions in which the right to collect royalties through any statutory or compulsory licensing scheme cannot be waived, the Licensor reserves the exclusive right to collect such royalties for any exercise by You of the rights granted under this License; ii. Waivable Compulsory License Schemes. In those jurisdictions in which the right to collect royalties

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			through any statutory or compulsory licensing scheme can be waived, the Licensor waives the exclusive right to collect such royalties for any exercise by You of the rights granted under this License; and, iii. Voluntary License Schemes. The Licensor waives the right to collect royalties, whether individually or, in the event that the Licensor is a member of a collecting society that administers voluntary licensing schemes, via that society, from any exercise by You of the rights granted under this License. The above rights may be exercised in all media and formats whether now known or hereafter devised. The above rights include the right to make such modifications as are technically necessary to exercise the rights in other media and formats. Subject to Section 8(f), all rights not expressly granted by Licensor are hereby reserved. 4. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions: a. You may Distribute or Publicly Perform the Work only under the terms of this License. You must include a copy of, or the Uniform Resource Identifier (URI) for, this License with every copy of the Work You Distribute or Publicly Perform. You may not offer or impose any terms on the Work that restrict the terms of this License or the ability of the recipient of the Work to exercise the rights granted to that recipient under the terms of the License. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties with every copy of the Work You Distribute or Publicly Perform. When You Distribute or Publicly Perform the Work, You may not impose any effective technological measures on the Work that restrict the ability of a recipient of the Work from You to exercise the rights granted to that recipient under the terms of the License. This Section 4(a) applies to the Work as incorporated in a Collection, but this does not require the Collection apart from the Work itself to be made subject to the terms of this License. If You create a Collection, upon notice from any Licensor You must, to the extent practicable, remove from the Collection any credit as required by Section 4(b), as requested. If You create an Adaptation, upon notice from any Licensor You must, to the extent practicable, remove from the Adaptation any credit as required by Section 4(b), as requested. b. If You Distribute, or Publicly Perform the Work or any Adaptations or Collections, You must, unless a request has been made pursuant to Section 4(a), keep intact all copyright notices for the Work and provide, reasonable to the medium or means You are utilizing: (i) the name of the Original Author (or pseudonym, if applicable) if supplied, and/or if the Original Author and/or Licensor

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			designate another party or parties (e.g., a sponsor institute, publishing entity, journal) for attribution ("Attribution Parties") in Licensor's copyright notice, terms of service or by other reasonable means, the name of such party or parties; (ii) the title of the Work if supplied; (iii) to the extent reasonably practicable, the URI, if any, that Licensor specifies to be associated with the Work, unless such URI does not refer to the copyright notice or licensing information for the Work; and (iv) , consistent with Section 3(b), in the case of an Adaptation, a credit identifying the use of the Work in the Adaptation (e.g., "French translation of the Work by Original Author," or "Screenplay based on original Work by Original Author"). The credit required by this Section 4 (b) may be implemented in any reasonable manner; provided, however, that in the case of an Adaptation or Collection, at a minimum such credit will appear, if a credit for all contributing authors of the Adaptation or Collection appears, then as part of these credits and in a manner at least as prominent as the credits for the other contributing authors. For the avoidance of doubt, You may only use the credit required by this Section for the purpose of attribution in the manner set out above and, by exercising Your rights under this License, You may not implicitly or explicitly assert or imply any connection with, sponsorship or endorsement by the Original Author, Licensor and/or Attribution Parties, as appropriate, of You or Your use of the Work, without the separate, express prior written permission of the Original Author, Licensor and/or Attribution Parties. c. Except as otherwise agreed in writing by the Licensor or as may be otherwise permitted by applicable law, if You Reproduce, Distribute or Publicly Perform the Work either by itself or as part of any Adaptations or Collections, You must not distort, mutilate, modify or take other derogatory action in relation to the Work which would be prejudicial to the Original Author's honor or reputation. Licensor agrees that in those jurisdictions (e.g. Japan), in which any exercise of the right granted in Section 3(b) of this License (the right to make Adaptations) would be deemed to be a distortion, mutilation, modification or other derogatory action prejudicial to the Original Author's honor and reputation, the Licensor will waive or not assert, as appropriate, this Section, to the fullest extent permitted by the applicable national law, to enable You to reasonably exercise Your right under Section 3(b) of this License (right to make Adaptations) but not otherwise. 5. Representations, Warranties and Disclaimer UNLESS OTHERWISE MUTUALLY AGREED TO BY THE PARTIES IN WRITING, LICENSOR OFFERS THE WORK AS-IS AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			WORK, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTIBILITY, FITNESS FOR A PARTICULAR PURPOSE, NONINFRINGEMENT, OR THE ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OF ABSENCE OF ERRORS, WHETHER OR NOT DISCOVERABLE. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO SUCH EXCLUSION MAY NOT APPLY TO YOU. 6. Limitation on Liability. EXCEPT TO THE EXTENT REQUIRED BY APPLICABLE LAW, IN NO EVENT WILL LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES ARISING OUT OF THIS LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. 7. Termination a. This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Adaptations or Collections from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License. b. Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above. 8. Miscellaneous a. Each time You Distribute or Publicly Perform the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License. b. Each time You Distribute or Publicly Perform an Adaptation, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License. c. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable. d. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent. e. This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You. f. The rights granted under, and the subject matter referenced, in this License were drafted utilizing the terminology of the Berne Convention for the Protection of Literary and Artistic Works (as amended on September 28, 1979), the Rome Convention of 1961, the WIPO Copyright Treaty of 1996, the WIPO Performances and Phonograms Treaty of 1996 and the Universal Copyright Convention (as revised on July 24, 1971). These rights and subject matter take effect in the relevant jurisdiction in which the License terms are sought to be enforced according to the corresponding provisions of the implementation of those treaty provisions in the applicable national law. If the standard suite of rights granted under applicable copyright law includes additional rights not granted under this License, such additional rights are deemed to be included in the License; this License is not intended to restrict the license of any rights under applicable law. Creative Commons Notice Creative Commons is not a party to this License, and makes no warranty whatsoever in connection with the Work. Creative Commons will not be liable to You or any party on any legal theory for any damages whatsoever, including without limitation any general, special, incidental or consequential damages arising in connection to this license. Notwithstanding the foregoing two (2) sentences, if Creative Commons has expressly identified itself as the Licensor hereunder, it shall have all rights and obligations of Licensor. Except for the limited purpose of indicating to the public that the Work is licensed under the CCPL, Creative Commons does not authorize the use by either party of the trademark "Creative Commons" or any related trademark or logo of Creative Commons without the prior written consent of Creative Commons. Any

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
perl.org	perl 5.8.8	12.2.1.2.0 12.2.1.3.0	Artistic License 2.0 Copyright (c) 2000-2006, The Perl Foundation. Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed. Preamble This license establishes the terms under which a given free software Package may be copied, modified, distributed, and/or redistributed. The intent is that the Copyright Holder maintains some artistic control over the development of that Package while still keeping the Package available as open source and free software. You are always permitted to make arrangements wholly outside of this license directly with the Copyright Holder of a given Package. If the terms of this license do not permit the full use that you propose to make of the Package, you should contact the Copyright Holder and seek a different licensing arrangement. Definitions "Copyright Holder" means the individual(s) or organization(s) named in the copyright notice for the entire Package. "Contributor" means any party that has contributed code or other material to the Package, in accordance with the Copyright Holder's procedures. "You" and "your" means any person who would like to copy, distribute, or modify the Package. "Package" means the collection of files distributed by the Copyright Holder, and derivatives of that collection and/or of those files. A given Package may consist of either the Standard Version, or a Modified Version. "Distribute" means providing a copy of the Package or making it accessible to anyone else, or in the case of a company or organization, to others outside of your company or organization. "Distributor Fee" means any fee that you charge for Distributing this Package or providing support for this Package to another party. It does not mean licensing fees. "Standard Version" refers to the Package if it has not been modified, or has been modified only in ways explicitly requested by the Copyright Holder. "Modified Version" means the Package, if it has been changed, and such changes were not explicitly requested by the Copyright Holder. "Original License" means this Artistic License as Distributed with the Standard Version of the Package, in its current version or as it may be modified by The Perl Foundation in the future. "Source" form means the source code, documentation source, and configuration files for the Package. "Compiled" form means the compiled bytecode, object code, binary, or any other form resulting from

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			mechanical transformation or translation of the Source form. Permission for Use and Modification Without Distribution (1) You are permitted to use the Standard Version and create and use Modified Versions for any purpose without restriction, provided that you do not Distribute the Modified Version. Permissions for Redistribution of the Standard Version (2) You may Distribute verbatim copies of the Source form of the Standard Version of this Package in any medium without restriction, either gratis or for a Distributor Fee, provided that you duplicate all of the original copyright notices and associated disclaimers. At your discretion, such verbatim copies may or may not include a Compiled form of the Package. (3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License. Distribution of Modified Versions of the Package as Source (4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that you do at least ONE of the following: (a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version. (b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version. (c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under (i) the Original License or (ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed. Distribution of Compiled Forms of the Standard Version or Modified Versions without the Source (5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be valid at the time of your distribution. If these instructions, at any

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution. If you provide valid instructions or cease distribution within thirty days after you become aware that the instructions are invalid, then you do not forfeit any of your rights under this license. (6) You may Distribute a Modified Version in Compiled form without the Source, provided that you comply with Section 4 with respect to the Source of the Modified Version. Aggregating or Linking the Package (7) You may aggregate the Package (either the Standard Version or Modified Version) with other packages and Distribute the resulting aggregation provided that you do not charge a licensing fee for the Package. Distributor Fees are permitted, and licensing fees for other components in the aggregation are permitted. The terms of this license apply to the use and Distribution of the Standard or Modified Versions as included in the aggregation. (8) You are permitted to link Modified and Standard Versions with other works, to embed the Package in a larger work of your own, or to build stand-alone binary or bytecode versions of applications that include the Package, and Distribute the result without restriction, provided the result does not expose a direct interface to the Package. Items That are Not Considered Part of a Modified Version (9) Works (including, but not limited to, modules and scripts) that merely extend or make use of the Package, do not, by themselves, cause the Package to be a Modified Version. In addition, such works are not considered parts of the Package itself, and are not subject to the terms of this license. General Provisions (10) Any use, modification, and distribution of the Standard or Modified Versions is governed by this Artistic License. By using, modifying or distributing the Package, you accept this license. Do not use, modify, or distribute the Package, if you do not accept this license. (11) If your Modified Version has been derived from a Modified Version made by someone other than you, you are nevertheless required to ensure that your Modified Version complies with the requirements of this license (12) This license does not grant you the right to use any trademark, service mark, tradename, or logo of the Copyright Holder (13) This license includes the non-exclusive, worldwide, free-of-charge patent license to make, have made, use, offer to sell, sell, import and otherwise transfer the Package with respect to any patent claims licensable by the Copyright Holder that are necessarily infringed by the Package. If you institute patent litigation (including a cross-claim or counterclaim) against any party alleging

Table 3-31 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Coherence

Provider	Component(s)	Release Versions	Licensing Information
			that the Package constitutes direct or contributory patent infringement, then this Artistic License to you shall terminate on the date that such litigation is filed (14) Disclaimer of Warranty: THE PACKAGE IS PROVIDED BY THE COPYRIGHT HOLDER AND CONTRIBUTORS "AS IS' AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES. THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT ARE DISCLAIMED TO THE EXTENT PERMITTED BY YOUR LOCAL LAW. UNLESS REQUIRED BY LAW, NO COPYRIGHT HOLDER OR CONTRIBUTOR WILL BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES ARISING IN ANY WAY OUT OF THE USE OF THE PACKAGE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

Oracle BPEL Process Manager

Oracle BPEL Process Manager is a tool for integrating applications that is supported only on IBM WebSphere software.

Prerequisite: Oracle BPEL Process Manager requires a separately licensed database. A license for Oracle BPEL Process Manager includes the following Oracle SOA Suite for Non-Oracle Middleware components:

- Oracle BPEL Process Manager
- Human Workflow
- Event Delivery Network
- Technology Adapters

Restricted use: Any use of Oracle SOA Suite for Non-Oracle Middleware components not listed above requires a full use license for Oracle SOA Suite for Non-Oracle Middleware.

Restricted use: A license for Oracle BPEL Process Manager includes UDDI client libraries from the HP SOA Systinet Registry. Use of UDDI client libraries is restricted to connecting to and communicating with the Oracle Service Registry.

Restricted use: A license for Oracle BPEL Process Manager includes a restricted-use license for Oracle Coherence Enterprise Edition. Oracle Coherence Enterprise Edition may be used solely for clustering, portable object format, local caching, and support for internal Service Oriented Architecture (SOA) usage.

- Third-Party Products and Details for Oracle BPEL Process Manager

Third-Party Products and Details for Oracle BPEL Process Manager

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle BPEL Process Manager in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle BPEL Process Manager with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle BPEL Process Manager are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle BPEL Process Manager:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

The following table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle BPEL Process Manager.

Oracle WebLogic Integration

Oracle WebLogic Integration is separately licensed as a standalone product.

Prerequisite: Oracle WebLogic Server Enterprise Edition.

This section contains the following topics:

Oracle SOA Suite for Non-Oracle Middleware

Oracle SOA Suite for Non-Oracle Middleware is an application integration platform that is supported only on IBM WebSphere software.

The Oracle SOA Suite for Non-Oracle Middleware includes:

- Oracle BPEL Process Manager
- Mediator
- Oracle Business Activity Monitoring
- Oracle Web Services Manager
- Oracle Business Rules
- Human Workflow
- Oracle Event Processing
- Oracle JDeveloper and Oracle Application Development Framework
- Technology Adapters
- B2B (B2B engine only. B2B adapters are available separately.)
- Oracle Entitlements Server Basic (see Appendix C “Oracle Entitlements Server Basic")

Prerequisite: Oracle SOA Suite for Non-Oracle Middleware requires a separately licensed database.

Restricted use: Oracle Business Activity Monitoring includes a restricted-use license for Oracle Data Integrator Enterprise Edition. Use of Oracle Data Integrator Enterprise Edition is restricted to scenarios where Oracle Business Activity Monitoring is the source of and/or destination for the transformed data.

Restricted use: A license for Oracle SOA Suite for Non-Oracle Middleware includes a restricted-use license for Oracle Coherence Enterprise Edition. Oracle Coherence Enterprise Edition may be used solely for clustering, portable object format, local caching, and support for internal Service Oriented Architecture (SOA) usage.

Restricted use: A license for Oracle SOA Suite for Non-Oracle Middleware includes UDDI client libraries from the HP SOA Systinet Registry. Use of UDDI client libraries is restricted to connecting to and communicating with the Oracle Service Registry.

- Third-Party Products and Details for Oracle SOA Suite for Non-Oracle Middleware
- Third-Party Products and Details for Oracle JDeveloper

Third-Party Products and Details for Oracle SOA Suite for Non-Oracle Middleware

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle SOA Suite for Non-Oracle Middleware in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle SOA Suite for Non-Oracle Middleware with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle SOA Suite for Non-Oracle Middleware are identified in the following table, along with the applicable licensing information. Additional notices and/or

licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle SOA Suite for Non-Oracle Middleware:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

The following table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle SOA Suite for Non-Oracle Middleware:

Table 3-33 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle SOA Suite for Non-Oracle Middleware

Provider	Component(s)	Release Versions	Licensing Information

Third-Party Products and Details for Oracle JDeveloper

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle JDeveloper, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle JDeveloper with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle JDeveloper are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle JDeveloper:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle JDeveloper.

Provider	Component(s)	Release Versions	Licensing Information
Terence Parr	ANTLR 2.7.6	11.1.1.9.0	We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software. We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc. If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed. In countries where the Public Domain status of the work may not be valid, the author grants a copyright licence to the general public to deal in the work without restriction and permission to sublicence derivates under the terms of any (OSI approved) Open Source licence. The Python parser generator code under antlr/actions/python/ is covered by the 3clause BSD licence (this part is included in the binary JAR files); the runtime part under lib/python/ is covered by the GNU GPL, version 3 or later (this part is not included in the binary JAR files). See here for the full details.

Oracle Unified Business Process Management Suite for Non-Oracle Middleware

Oracle Unified Business Process Management Suite is a software suite that integrates the modeling, integration, execution, management and monitoring of business processes into a complete lifecycle that supports rapid change. It enables the creation, execution, and optimization of business processes, providing for unparalleled collaboration between business and IT. As a result, business processes are automated and optimized to improve efficiency and agility while costs are lowered. Oracle Unified Business Process Management Suite leverages your existing IT investments and is specially tuned for line-of-business users. Using Oracle Unified Business Process Management Suite, you can improve productivity and visibility and provide your organization with the ability to respond to market needs as never before.

Customers using Oracle WebLogic Server should use Oracle Unified Business Process Management Suite. Customers with non-Oracle application servers, such as WebSphere, should license this "Non-Oracle" version. Oracle Unified Business Process Management Suite for Non-Oracle Middleware includes the same components and licenses as Oracle Unified Business Process Management Suite.

Oracle Unified Business Process Management Suite for Non-Oracle Middleware is licensed as an option on SOA Suite for Non-Oracle Middleware.

This section contains the following topics:

- Third-Party Products and Details for Oracle Business Process Management

Third-Party Products and Details for Oracle Business Process Management

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Business Process Management, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Business Process Management with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Business Process Management are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Business Process Management:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

The following table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Business Process Management.

Table 3-35 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Business Process Management

Provider	Component(s)	Release Versions	Licensing Information
Android Open Source Project	Google Droid Fonts	12.2.1.2.0 12.2.1.3.0	For a copy of the license, see Apache License Version 2.
Apache	Ant 1.6.2 1.7	11.1.1.9.0 12.2.1.2.0 12.2.1.3.0 12.2.1.4.0	"This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`)." For a copy of the license, see Apache License Version 2

Oracle Managed File Transfer

Oracle Managed File Transfer provides centralized file transfer infrastructure tightly integrated with Oracle WebLogic Server, Oracle Enterprise Manager, Oracle SOA Suite, Oracle Unified Business Process Management Suite and Oracle B2B.

Prerequisite: A license to Oracle WebLogic Server Enterprise Edition or Oracle WebLogic Suite; and Oracle Database (Standard Edition 2 or Enterprise Edition) are prerequisites to license and use Oracle Managed File Transfer.

Restricted use: A license for Oracle Managed File Transfer includes Enterprise Scheduler. Use of the Enterprise Scheduler component of Oracle Managed File Transfer is limited to scheduling internal Oracle Managed File Transfer jobs.

Restricted use: A license for Oracle Managed File Transfer includes a restricted-use license for Oracle Coherence Enterprise Edition. Use of Oracle Coherence Enterprise Edition is limited to clustering, portable object format, local caching, and support for internal Service-Oriented Architecture (SOA) usage.

- Third-Party Products and Details for Oracle Managed File Transfer

Third-Party Products and Details for Oracle Managed File Transfer

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Managed File Transfer in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Managed File Transfer with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Managed File Transfer are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Managed File Transfer:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0
- The following table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Managed File Transfer.

Provider	Component(s)	Release Versions	Licensing Information
Gerwin Klein	Jflex 1.4.1	12.2.1.2.0	JFlex - Copying, Warranty & License JFlex is free software, published under the terms of the GNU General Public License. There is absolutely NO WARRANTY for JFlex, its code and its documentation. The code generated by JFlex inherits the copyright of the specification it was produced from. If it was your specification, you may use the generated code without restriction. TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION 0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you". Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does. 1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee. 2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions: a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change. b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived

Table 3-37 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Edge Analytics

Provider	Component(s)	Release Versions	Licensing Information
			from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License. c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.) These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program. In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License. 3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following: a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or, b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

Table 3-37 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Edge Analytics

Provider	Component(s)	Release Versions	Licensing Information
			c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.) The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code. 4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance. 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it. 6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License. 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason

Table 3-37 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Edge Analytics

Provider	Component(s)	Release Versions	Licensing Information
			(not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program. If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances. It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License. 8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License. 9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may

Table 3-37 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Edge Analytics

Provider	Component(s)	Release Versions	Licensing Information
			choose any version ever published by the Free Software Foundation. 10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally. NO WARRANTY 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Oracle Mobile Suite

Oracle Mobile Suite includes tools for building mobile applications.

The Oracle Mobile Suite includes the following products or components:

- Oracle Service Bus
- Technology Adapters (see Table 7-1)
- One of the following adapters must be chosen when the Oracle Mobile Suite license is purchased (the chosen adapter may not be exchanged):
  - Oracle E-Business Suite Adapter
  - Oracle Integration Adapter for SAP R/3
  - Oracle Integration Adapter for JD Edwards World
  - Oracle Cloud Adapter for Oracle RightNow Cloud Service

Prerequisite: A license for Oracle WebLogic Suite is a prerequisite to using Oracle Mobile Suite. Oracle Mobile Suite and Oracle Mobile Suite Client RunTime must be licensed together.

Restricted use: Oracle Service Bus, Oracle Fusion Middleware Adapters (see Table 7-1) and the four adapters listed above are installed as part of the Oracle Mobile Suite installation. You are restricted to use only Oracle Service Bus, Technology Adapters, and the chosen adapter from the list above.

Restricted use: A license for Oracle Service Bus includes a restricted use license for Oracle Web Services Manager. Use of Oracle Web Services Manager is restricted to policy enforcement in Oracle Service Bus. Authoring and management tooling is limited to capabilities delivered with Oracle Service Bus console screens. New policies may be authored with command line and scripting tools only. Any other use of Oracle Web Services Manager requires a full use license for Oracle SOA Suite.

This section contains the following topics:

- Oracle Mobile Suite Client RunTime
- Oracle Service Bus

Oracle Mobile Suite Client RunTime

A license for Oracle Mobile Suite Client RunTime includes a license for Oracle Mobile Application Framework.

Oracle Mobile Suite and Oracle Mobile Suite Client RunTime must be licensed together.

Oracle Service Bus

Oracle Service Bus is a lightweight SOA integration platform, or "enterprise service bus." Oracle Service Bus includes Oracle SOA Suite Adapters (see Oracle Fusion Middleware Adapters).

Oracle Service Bus is licensed as an option to Oracle WebLogic Suite and is also included in Oracle SOA Suite and Oracle Mobile Suite. Users running Oracle SOA Suite on WebLogic Server Basic may not run Oracle Service Bus (see Oracle SOA Suite and Oracle BPEL Process Manager Option Licensing with Oracle Internet Application Server).

Prerequisite: A license to Oracle WebLogic Suite is a prerequisite to license and use Oracle Service Bus.

Prerequisite: A license to Oracle Database (Standard Edition 2 or Enterprise Edition) is a prerequisite to license and use the following Oracle Service Bus features: Reporting provider, Re-sequencer, Xrefs and Enterprise Scheduler.

Restricted use: Oracle Service Bus includes the Enterprise Scheduler feature. Use of the Enterprise Scheduler feature is limited to scheduling Oracle Service Bus internal jobs and proxy services.

Restricted Use: A license to Oracle Service Bus includes a restricted use license for Oracle Web Services Manager. Use of Oracle Web Services Manager is restricted to policy enforcement in Oracle Service Bus. Authoring and management tooling is limited to capabilities delivered with Oracle Service Bus console screens. New policies may be authored with command line and scripting tools only. Any other use of Oracle Web Services Manager requires a full use license to Oracle SOA Suite.

- Third-Party Products and Details for Oracle Service Bus

Third-Party Products and Details for Oracle Service Bus

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Service Bus, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Service Bus with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Service Bus are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Service Bus:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0
- 12.2.1.4.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Service Bus.

Table 3-38 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Service Bus

Provider	Component(s)	Release Versions	Licensing Information
Apache	Ant 1.7 1.6.2	12.2.1.2.0 12.2.1.3.0	This product includes software developed by The Apache Software Foundation (`http://www.apache.org/`). For a copy of the license, see Apache License Version 2.

Oracle Forms and Reports (OFR)

Oracle Forms and Reports (Oracle Reports deprecated in 12.2.1.3.0) includes the following integrated runtime components:

- Oracle Forms Services
- Oracle Reports Services
- Oracle Enterprise Manager Fusion Middleware Control
- Forms and Reports Compilers and Converters
- Forms WebUtil add-on

Designtime components are included in the OFR installer. However, a license to OFR does not include a license to the Designtime components.

- Restricted-Use Licenses
- Third-Party Products and Details for Oracle Forms and Reports

Restricted-Use Licenses

- A license to OFR includes a restricted-use license to Oracle Single Sign-On. Use of Oracle Single Sign-On is restricted to providing authentication services to users accessing OFR.
- A license to OFR includes a restricted-use license to Oracle Access Manager Basic. Use of Oracle Access Manager Basic is restricted to providing authentication services to users accessing OFR.
- A license to OFR includes a restricted-use license to Oracle Internet Directory. Use of Oracle Internet Directory is restricted to provisioning, storing, and managing OFR users and groups and their associated security credentials and privileges, to synchronize data with third party directory services, and to store other metadata specific to OFR.
- A license to OFR includes a restricted-use license to Oracle Web Tier. Oracle Web Tier includes Oracle HTTP Server. Use of Oracle Web Tier is restricted using Oracle HTTP Server is for running OFR applications only.
- A license to OFR includes a restricted-use license to Oracle WebLogic Server Basic or Oracle Containers for J2EE (OC4J). Use of Oracle WebLogic Server Basic or Oracle Containers for J2EE (OC4J) is restricted to running OFR applications only. For additional details on Oracle WebLogic Server Basic, see WebLogic Server Basic.
- A license to OFR includes a restricted-use license to Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher). Use of Oracle Analytics Publisher is restricted to use for production deployment purposes only. For use of Oracle Analytics Publisher with application development and testing, a full use Oracle Analytics Publisher, Oracle Business Intelligence EE, or Internet Developer Suite license is required.
- A license to OFR includes a restricted-use license to Oracle Web Services Manager. Use of Oracle Web Services Manager is restricted to use with the Forms Application Deployment Services (FADS) only.

Third-Party Products and Details for Oracle Forms and Reports

This section lists all the applicable commercial third party notices and/or licenses and all open source or other separately licensed third party notices and/or licenses, for Oracle Forms and Reports, in the following sub-sections.

Commercial Software

Currently there are no commercial software products or components distributed in Oracle Forms and Reports with the applicable licensing information.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Forms and Reports are identified in the following table, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release versions are associated with the third-party products in Oracle Forms and Reports:

- 11.1.1.9.0
- 12.2.1.2.0
- 12.2.1.3.0

This table summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Forms and Reports.

Table 3-39 Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Forms and Reports

Provider	Component(s)	Release Versions	Licensing Information
Dan Adler	Jacob 1.0	12.2.1.2.0 12.2.1.3.0	Oracle must include all proprietary notices on any copies of Jacob. Oracle may not include any links to Jacob code in Oracle documentation.

Oracle Internet Developer Suite (iDS)

Oracle Internet Developer Suite (iDS) provides the tools necessary to develop, test, and maintain Forms, Reports, and Analytics Publisher (formerly BI-Publisher) applications.

The Oracle iDS includes the following products or components:

- Oracle Forms Developer
  - Forms Builder
  - Forms Compiler
  - Forms Java Development API (JDAPI)
  - Forms C API
  - Forms XML Converter
  - WebUtil add-on
- Oracle Reports Developer
  - Oracle Reports Builder
  - Oracle Reports Converter
  - Oracle Reports Client

  - Oracle Reports Runtime
- SQL*Plus
- Restricted-Use Licenses

Restricted-Use Licenses

- A license to iDS includes a restricted-use license to Oracle iAS Enterprise Edition. Use of Oracle iAS Enterprise Edition is restricted to testing and debugging applications developed with iDS.
- A license to iDS includes a restricted-use license to Oracle Database Enterprise Edition. Use of Oracle Database Enterprise Edition is restricted to installing, testing, and debugging applications developed with iDS.
- A license to iDS includes a restricted-use license to Oracle Analytics Publisher (formerly Oracle Business Intelligence Publisher). Use of Oracle Analytics Publisher is restricted to use for development and testing purposes only.
- A license to iDS includes a restricted-use license to Oracle WebLogic Server Basic or Oracle Containers for J2EE (OC4J). Use of Oracle WebLogic Server Basic or Oracle Containers for J2EE (OC4J) are restricted to running, testing, and debugging applications developed with iDS.
- A license to iDS includes a restricted-use license to Oracle Web Services Manager. Use of Oracle Web Services Manager is restricted to testing and debugging applications developed with iDS for the Forms Application Deployment Services (FADS) only.

Oracle WebLogic Server Management Pack Enterprise Edition

Oracle WebLogic Server Management Pack Enterprise Edition can be licensed for Internet Application Server Enterprise Edition, any edition of Oracle WebLogic Server, or Oracle GlassFish Server.

This pack offers a complete, cost-effective, and easy-to-use solution for managing Oracle WebLogic Server, Oracle Application Server, and Oracle GlassFish Server. At a high level, this pack provides capabilities for application performance management, administration, business transaction management, configuration management, service level management, provisioning, and patch automation that span many of these Fusion Middleware components.

For complete license details about Oracle WebLogic Server Management Pack Enterprise Edition, see “Oracle Middleware Enterprise Management" in Oracle Enterprise Manager Licensing Information. This document is available from the Oracle Enterprise Manager Documentation page at: `http://www.oracle.com/technetwork/oem/grid-control/documentation/index.html`.

This section contains the following topics:

4
Oracle Verrazzano

This chapter describes the licensing and support of Oracle Verrazzano products.

- Oracle Verrazzano Enterprise Container Platform

Oracle Verrazzano Enterprise Container Platform

Oracle Verrazzano Enterprise Container Platform is a cloud-enabling technology that you can use to deploy and manage container applications across Kubernetes clusters running in private clouds, Oracle Cloud, and other public clouds.

Support for Oracle Verrazzano Enterprise Container Platform is available through an Oracle Verrazzano Premier Support subscription that entitles you to support when using the software on servers (that you own or those hosted by a third party on your behalf) for your internal business operations, as specified in your subscription agreement and for as long as the subscription remains active. Once the subscription terminates or expires, all support of the software acquired through the subscription ends.

Oracle Verrazzano Enterprise Container Platform includes the following:

- Oracle Support for Oracle Verrazzano Enterprise Edition (the core container platform)
- Oracle Support for Coherence Community Edition
- Oracle Support for Helidon
- Oracle Support for Micronaut
- Oracle Support for Spring Boot

Details are covered in the following sections:

- Oracle Verrazzano Enterprise Edition
- Oracle Support for Coherence Community Edition
- Oracle Support for Helidon
- Oracle Support for Micronaut
- Oracle Support for Spring Boot
- Third-Party Products and Details for Oracle Verrazzano Enterprise Container Platform

Oracle Verrazzano Enterprise Edition

Oracle Verrazzano Enterprise Edition is a combination of open-source software that form a platform for deploying applications in containers. For the open-source software, see Oracle Verrazzano Installed Software.

Oracle Verrazzano Enterprise Edition includes the following capabilities and features:

- Application modeling with handling for Open Application Model descriptor files that enable managing a collection of application software as a single "application system," while also enabling portability across deployment environments.

- Automated secure configuration of a service mesh, with network policies, ingress controllers, and certificate management.
- Application management across clusters where applications can be deployed to individual or multiple local or remote clusters from a central administrative site.
- An observability stack that includes collection, storage, and viewing of log records and metrics, as well as preconfigured metrics dashboards for Oracle WebLogic Server, Coherence, and Helidon applications.
- Advanced handling for Oracle WebLogic Server applications and Oracle Coherence clusters where required operators are automatically deployed to selected clusters and namespaces, and sophisticated configuration and lifecycle management is driven through these operators.
- An embedded identity and access provider that is used to protect Verrazzano software, and can also be used to protect application software.

For more details on licensing, see the Oracle Rules and Definition Booklet.

- Oracle Verrazzano Installed Software

Oracle Verrazzano Installed Software

This section lists the Oracle Verrazzanno project open-source software that have been written to integrate and use the full set of software that make up Oracle Verrazzano Enterprise Edition. These software will be updated and augmented as new releases of Oracle Verrazzano are released.

> **Note:**
>
> The list of software may change from release to release as the product evolves.

For information on list of installed open-source software, see Verrazzano Installed Software.

License Terms for Oracle Verrazzano Project Software

The Universal Permissive License (UPL), Version 1.0

Copyright (c) 2020, 2021, Oracle America, Inc. and its affiliates.

Subject to the condition set forth below, permission is hereby granted to any person obtaining a copy of this software, associated documentation and/or data (collectively the "Software"), free of charge and under any and all copyright rights in the Software, and any and all patent rights owned or freely licensable by each licensor hereunder covering either (i) the unmodified Software as contributed to or provided by such licensor, or (ii) the Larger Works (as defined below),to deal in both

(a) the Software, and

(b) any piece of software and/or hardware listed in the lrgrwrks.txt file ifone is included with the Software (each a “Larger Work” to which the Software is contributed by such licensors),without restriction, including without limitation the rights to copy, create derivative works of,display, perform, and distribute the Software and make, use, sell, offer for sale, import, export,have made, and have sold the Software and the Larger Work(s), and to sublicense the foregoing rights on either these or other terms.

This license is subject to the following condition:

The above copyright notice and either this complete permission notice or at a minimum a reference to the UPL must be included in all copies or substantial portions of the Software.

THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOTLIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT.IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY,WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITHTHE SOFTWARE OR THE USE OR OTHER DEALINGS IN THE SOFTWARE.

Oracle Support for Coherence Community Edition

An Oracle Verrazzano Premier Support subscription entitles you to support for Coherence Community Edition as described in *Oracle Support for Coherence Community Edition*. For details, see My Oracle Support (document ID 2804780.1).

This support entitlement is restricted to the use of Coherence Community Edition in applications deployed and managed using the Verrazzano management infrastructure.

Oracle Support for Helidon

An Oracle Verrazzano Premier Support subscription entitles you to support for Helidon as described in *Oracle Support for Helidon in Oracle Commercial Offerings*. For details, see My Oracle Support (document ID 2645279.1).

This support entitlement is restricted to the use of Helidon in applications deployed and managed using the Verrazzano management infrastructure.

Oracle Support for Micronaut

An Oracle Verrazzano Premier Support subscription entitles you to support for Micronaut as described in *Oracle Support for Micronaut with Oracle Verrazzano Enterprise Container Platform*. For details, see My Oracle Support (document ID 2792826.1).

This support entitlement is restricted to the use of Micronaut in applications deployed and managed using the Verrazzano management infrastructure.

Oracle Support for Spring Boot

An Oracle Verrazzano Premier Support subscription entitles you to support for Spring Boot as described in *Oracle Support for Spring Boot with Oracle Verrazzano Enterprise Container Platform*. For details, see My Oracle Support (document ID 2789907.1).

This support entitlement is restricted to the use of Spring Boot in applications deployed as Verrazzano managed containers.

Third-Party Products and Details for Oracle Verrazzano Enterprise Container Platform

This section lists all the applicable open source or other separately licensed third party products and details, for Oracle Verrazzano Enterprise Container Platform, in the following sub-sections.

Open Source or Other Separately Licensed Software

Required notices for open source or other separately licensed software products or components distributed in Oracle Verrazzano Enterprise Container Platform are identified in the following Table 4-1, along with the applicable licensing information. Additional notices and/or licenses may be found in the included documentation or `readme` files of the individual third party software.

The following release version is associated with the third-party products in Oracle Verrazzano Enterprise Container Platform:

- 1.0.0
- 1.1.0
- 1.2.0
- 1.3.0
- 1.4.0
- 1.5.0
- 1.6.0 (See *Licensing Information User Manual for Oracle Verrazzano 1.6.0*)
- 1.7.0 (See *Licensing Information User Manual for Oracle Verrazzano 1.7.0*)

This Table 4-1 summarizes the contents of third-party notices and/or licenses and open source or other separately licensed software in Oracle Verrazzano Enterprise Container Platform.

For a copy of the license, see GNU GENERAL PUBLIC LICENSE (Version 2). ## CLASSPATH EXCEPTION Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License version 2 cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version. ========== Dependencies Grouped by License ========== -------- Dependency com.sun.activation:jakarta.activation -------- Copyrights Copyright (c) 2018 Oracle and/or its affiliates. Copyright Holder(s) and the Author(s) or with their explicit written -------- Notices Kibana source code with Kibana X-Pack source code Copyright 2012-2021 Elasticsearch B.V. --- Pretty handling of logarithmic axes. Copyright (c) 2007-2014 IOLA and Ole Laursen. Licensed under the MIT license. Created by Arne de Laat The transform filters negative and zero values, because those are invalid on logarithmic scales. This plugin tries to create good looking logarithmic ticks, using unicode superscript characters. If all data to be plotted is between two powers of ten then the default flot tick generator and renderer are used. Logarithmic ticks are

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			places at powers of ten and at half those values if there are not to many ticks already (e.g. [1, 5, 10, 50, 100]). For details, see https://github.com/flot/flot/pull/1328 --- This module was heavily inspired by the externals plugin that ships with webpack@97d58d31 MIT License http://www.opensource.org/licenses/mit-license.php Author Tobias Koppers @sokra --- This product includes code that is based on Ace editor, which was available under a "BSD" license. Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			All of the software in the OpenSearch project is released under the Apache License, Version 2.0 (ALv2). The ALv2 license grants you well-understood usage rights for OpenSearch. You can use, modify, extend, embed, monetize, resell, and offer OpenSearch as part of your products and services. We have also published permissive usage guidelines for the OpenSearch trademark, so you can use the name to promote your offerings. 1.15 Will you be making contributions back to Elasticsearch open-source? No. Open source Elasticsearch development ended with 7.10 when it was moved to a non-open source license. OpenSearch software will move forward according to the needs of the community. That said, all OpenSearch software built for its customers and the community is released under the ALv2 license and we welcome anyone to use the software under the ALv2 terms and conditions. ========== HdrHistogram LICENSE ========== The code in this repository code was Written by Gil Tene, Michael Barker, and Matt Warren, and released to the public domain, as explained at http://creativecommons.org/publicdomain/zero/1.0/ For users of this code who wish to consume it under the "BSD" license rather than under the public domain or CC0 contribution text mentioned above, the code found under this directory is *also* provided under the following license (commonly referred to as the BSD 2-Clause License). This license does not detract from the above stated release of the code into the public domain, and simply represents an additional license granted by the Author. ---------- Beginning of "BSD 2-Clause License" text.

			Weiss and Marcin Miłkowski (https:github.commorfologikmorfologik-stemming) and uses data from the BSD-licensed dictionary of Polish (SGJP, http:sgjp.plmorfeusz). Servlet-api.jar and javax.servlet-*.jar are under the CDDL license, the original source code for this can be found at http:www.eclipse.orgjettydownloads.php ========== Kuromoji Japanese Morphological Analyzer - Apache Lucene Integration ========== This software includes a binary andor source version of data from mecab-ipadic which can be obtained from http:atilika.comreleasesmecab-ipadic or http:jaist.dl.sourceforge.netprojectmecabmecab-ipadic ========== mecab-ipadic Notice ========== Nara Institute of Science and Technology (NAIST), the copyright holders, disclaims all warranties with regard to this software, including all implied warranties of merchantability and fitness, in no event shall NAIST be liable for any special, indirect or consequential damages or any damages whatsoever resulting from loss of use, data or profits, whether in an action of contract, negligence or other tortuous action, arising out of or in connection with the use or performance of this software. A large portion of the dictionary entries originate from ICOT Free Software. The following conditions for ICOT Free Software applies to the current dictionary as well. Each User may also freely distribute the Program, whether in its original form or modified, to any third party or parties, PROVIDED that the provisions of Section 3 ("NO WARRANTY") will ALWAYS appear on, or be attached to, the Program, which is distributed substantially in the same form as set out herein and that such intended distribution, if actually made, will neither violate or otherwise contravene

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			any of the laws and regulations of the countries having jurisdiction over the User or the intended distribution itself. NO WARRANTY The program was produced on an experimental basis in the course of the research and development conducted during the project and is provided to users as so produced on an experimental basis. Accordingly, the program is provided without any warranty whatsoever, whether express, implied, statutory or otherwise. The term "warranty" used herein includes, but is not limited to, any warranty of the quality, performance, merchantability and fitness for a particular purpose of the program and the nonexistence of any infringement or violation of any right of any third party. Each user of the program will agree and understand, and be deemed to have agreed and understood, that there is no warranty whatsoever for the program and, accordingly, the entire risk arising from or otherwise connected with the program is assumed by the user. Therefore, neither ICOT, the copyright holder, or any other organization that participated in or was otherwise related to the development of the program and their respective officials, directors, officers and other employees shall be held liable for any and all damages, including, without limitation, general, special, incidental and consequential damages, arising out of or otherwise in connection with the use or inability to use the program or any product, material or result produced or otherwise obtained by using the program, regardless of whether they have been advised of, or otherwise had knowledge of, the possibility of such damages at any time during the project or thereafter. Each user will be deemed to have agreed to the foregoing by his or her commencement of use of the program. The term "use" as used herein includes, but is not limited to, the use, modification, copying and distribution of the program and the production of secondary products from the program. In the case where the program, whether in its original form or modified, was distributed or delivered to or received by a user from any person, organization or entity other than ICOT, unless it makes or grants independently of ICOT

Greene: LICENSE: licenseLICENSE.jsr166y.txt (Public Domain) The person or persons who have associated work with this document (the "Dedicator" or "Certifier") hereby either (a) certifies that, to the best of his knowledge, the work of authorship identified is in the public domain of the country from which the work is published, or (b) hereby dedicates whatever copyright the dedicators holds in the work of authorship identified below (the "Work") to the public domain. A certifier, moreover, dedicates any copyright interest he may have in the associated work, and for these purposes, is described as a "dedicator" below. A certifier has taken reasonable steps to verify the copyright status of this work. Certifier recognizes that his good faith efforts may not shield him from liability if in fact the work certified is not in the public domain. Dedicator makes this dedication

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			for the benefit of the public at large and to the detriment of the Dedicator's heirs and successors. Dedicator intends this dedication to be an overt act of relinquishment in perpetuity of all present and future rights under copyright law, whether vested or contingent, in the Work. Dedicator understands that such relinquishment of all rights includes the relinquishment of all rights to enforce (by lawsuit or otherwise) those copyrights in the Work. Dedicator recognizes that, once placed in the public domain, the Work may be freely reproduced, distributed, transmitted, used, modified, built upon, or otherwise exploited by anyone for any purpose, commercial or non-commercial, and in any way, including by methods that have not yet been invented or conceived. 			Public License Version 1.0 ("EPL"). A copy of the EPL is provided with this Content and is also available at http:www.eclipse.orglegalepl-v10.html. For purposes of the EPL, "Program" will mean the Content. Content includes, but is not limited to, source code, object code, documentation and other files maintained in the Eclipse Foundation source code repository ("Repository") in software modules ("Modules") and made available as downloadable archives ("Downloads"). Content may be structured and packaged into modules to facilitate delivering, extending, and upgrading the Content. Typical modules may include plug-ins ("Plug-ins"), plug-in fragments ("Fragments"), and features ("Features"). Each Plug-in or Fragment may be packaged as a sub-directory or JAR (Java™ ARchive) in a directory named "plugins". A Feature is a bundle of one or more Plug-ins andor Fragments and associated material. Each Feature may be packaged as a sub-directory in a directory named "features". Within a Feature, files named "feature.xml" may contain a list of the names and version numbers of the Plug-ins andor Fragments associated with that Feature. Features may also include other Features ("Included Features"). Within a Feature, files named "feature.xml" may contain a list of the names and version numbers of Included Features. The terms and conditions governing Plug-ins and Fragments should be contained in files named "about.html" ("Abouts"). The terms and conditions governing Features and Included Features should be contained in files named "license.html" ("Feature Licenses"). Abouts and Feature Licenses may be located in any directory of a Download or Module including, but not limited to the following locations: The top-level (root) directory Plug-in and Fragment directories Inside Plug-ins and Fragments packaged as JARs Sub-directories of the directory named "src" of certain Plug-ins Feature directories Note: if a Feature made available by the Eclipse Foundation is installed using the Provisioning Technology (as defined below), you must agree to a license ("Feature Update License") during the

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			installation process. If the Feature contains Included Features, the Feature Update License should either provide you with the terms and conditions governing the Included Features or inform you where you can locate them. Feature Update Licenses may be found in the "license" property of files named "feature.properties" found within a Feature. Such Abouts, Feature Licenses, and Feature Update Licenses contain the terms and conditions (or references to such terms and conditions) that govern your use of the associated Content in that directory. THE ABOUTS, FEATURE LICENSES, AND FEATURE UPDATE LICENSES MAY REFER TO THE EPL OR OTHER LICENSE AGREEMENTS, NOTICES OR TERMS AND CONDITIONS. SOME OF THESE OTHER LICENSE AGREEMENTS MAY INCLUDE (BUT ARE NOT LIMITED TO): Eclipse Distribution License Version 1.0 (available at http:www.eclipse.orglicensesedl-v10.html) Common Public License Version 1.0 (available at http:www.eclipse.orglegalcpl-v10.html) Apache Software License 1.1 (available at http:www.apache.orglicensesLICENSE) Apache Software License 2.0 (available at http:www.apache.orglicensesLICENSE-2.0) Mozilla Public License Version 1.1 (available at http:www.mozilla.orgMPLMPL-1.1.html) IT IS YOUR OBLIGATION TO READ AND ACCEPT ALL SUCH TERMS AND CONDITIONS PRIOR TO USE OF THE CONTENT. If no About, Feature License, or Feature Update License is provided, please contact the Eclipse Foundation to determine what terms and conditions govern that particular Content. Use of Provisioning Technology The Eclipse Foundation makes available provisioning software, examples of which include, but are not limited to, p2 and the Eclipse Update Manager ("Provisioning Technology") for the purpose of allowing users to install software, documentation, information andor other materials (collectively "Installable Software"). This capability is provided with the intent of allowing such users to install, extend and update Eclipse-based products. Information about packaging Installable

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			Software is available at http:eclipse.orgequinoxp2repository_packaging.html ("Specification"). You may use Provisioning Technology to allow other parties to install Installable Software. You shall be responsible for enabling the applicable license agreements relating to the Installable Software to be presented to, and accepted by, the users of the Provisioning Technology in accordance with the Specification. By using Provisioning Technology in such a manner and making it available in accordance with the Specification, you further acknowledge your agreement to, and the acquisition of all necessary rights to permit the following: 1. A series of actions may occur ("Provisioning Process") in which a user may execute the Provisioning Technology on a machine ("Target Machine") with the intent of installing, extending or updating the functionality of an Eclipse-based product. 2. During the Provisioning Process, the Provisioning Technology may cause third party Installable Software or a portion thereof to be accessed and copied to the Target Machine. 3. Pursuant to the Specification, you will provide to the user the terms and conditions that govern the use of the Installable Software ("Installable Software Agreement") and such Installable Software Agreement shall be accessed from the Target Machine in accordance with the Specification. Such Installable Software Agreement must inform the user of the terms and conditions that govern the Installable Software and must solicit acceptance by the end user in the manner prescribed in such Installable Software Agreement. Upon such indication of agreement by the user, the provisioning Technology will complete installation of the Installable Software. Cryptography Content may contain encryption software. The country in which you are currently may have restrictions on the import, possession, and use, andor re-export to another country, of encryption software. BEFORE using any encryption software, please check the country's laws, regulations and policies concerning the import, possession, or

Provider	Component(s)	Release Versions	Licensing Information
			Copyright (c) JS Foundation and other contributors <https://js.foundation/> -------- Notices OpenSearch Copyright 2021 OpenSearch Contributors This product includes software, including Kibana source code, developed by Elasticsearch (http://www.elastic.co). Copyright 2012-2021 Elasticsearch B.V. --- Pretty handling of logarithmic axes. Copyright (c) 2007-2014 IOLA and Ole Laursen. Licensed under the MIT license. Created by Arne de Laat The transform filters negative and zero values, because those are invalid on logarithmic scales. This plugin tries to create good looking logarithmic ticks, using unicode superscript characters. If all data to be plotted is between two powers of ten then the default flot tick generator and renderer are used. Logarithmic ticks are places at powers of ten and at half those values if there are not to many ticks already (e.g. [1, 5, 10, 50, 100]). For details, see https://github.com/flot/flot/pull/1328 --- This module was heavily inspired by the externals plugin that ships with webpack@97d58d31 MIT License http://www.opensource.org/licenses/mit-license.php Author Tobias Koppers @sokra --- This product includes code that is based on Ace editor, which was available under a "BSD" license. All rights reserved. Copyright 2020 The Go Authors. All rights reserved. Copyright 2021 The Go Authors. All rights reserved. Patents Additional IP Rights Grant (Patents) "This implementation" means the copyrightable works distributed by Google as part of the Go project. Google hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, transfer and otherwise run, modify and propagate the contents of this implementation of Go, where such license applies only to those patent claims, both currently owned or controlled by Google and acquired in the future, licensable by Google that are necessarily infringed by this implementation of Go. This grant does not include claims that would be infringed only as a consequence of further modification of this implementation. If you or your agent or exclusive licensee institute or order or agree to the institution of patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that this implementation of Go or any code incorporated within this implementation of Go constitutes direct or contributory patent infringement, or inducement of patent infringement, then any patent rights granted to you under this License for this implementation of Go shall terminate as of the date such litigation is filed. ---------- Licenses ---------- SPDX:BSD-3-Clause--modified-by-Google

All right reserved. -------- Patents Additional IP Rights Grant (Patents) "This implementation" means the copyrightable works distributed by Google as part of the Go project. Google hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, transfer and otherwise run, modify and propagate the contents of this implementation of Go, where such license applies only to those patent claims, both currently owned or controlled by Google and acquired in the future, licensable by Google that are necessarily infringed by this implementation of Go. This grant does not include claims that would be infringed only as a consequence of further modification of this implementation. If you or your agent or exclusive licensee institute or order or agree to

This work is licensed under a Creative Commons Attribution 4.0 International License: Attribution 4.0 International Creative Commons Attribution 4.0 International Public License By exercising the Licensed Rights (defined below), You accept and agree to be bound by the terms and conditions of this Creative Commons Attribution 4.0 International Public License ("Public License"). To the extent this Public License may be interpreted as a contract, You are granted the Licensed Rights in consideration of Your acceptance of these terms and conditions, and the Licensor grants You such rights in consideration of benefits the Licensor receives from making the Licensed Material available under these terms and conditions. Section 1 -- Definitions. a. Adapted Material means material subject to Copyright and Similar Rights that is derived from or based upon the Licensed Material and in which the Licensed Material is translated, altered, arranged, transformed, or otherwise modified in a manner requiring permission under the Copyright and Similar Rights held by the Licensor. For purposes of this Public License, where the Licensed Material is a musical work, performance, or sound recording, Adapted Material is always produced where the Licensed Material is synched in timed relation with a moving image. b. Adapter's License means the license You apply to Your Copyright and Similar Rights in Your

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			contributions to Adapted Material in accordance with the terms and conditions of this Public License. c. Copyright and Similar Rights means copyright and/or similar rights closely related to copyright including, without limitation, performance, broadcast, sound recording, and Sui Generis Database Rights, without regard to how the rights are labeled or categorized. For purposes of this Public License, the rights specified in Section 2(b)(1)-(2) are not Copyright and Similar Rights. d. Effective Technological Measures means those measures that, in the absence of proper authority, may not be circumvented under laws fulfilling obligations under Article 11 of the WIPO Copyright Treaty adopted on December 20, 1996, and/or similar international agreements. e. Exceptions and Limitations means fair use, fair dealing, and/or any other exception or limitation to Copyright and Similar Rights that applies to Your use of the Licensed Material. f. Licensed Material means the artistic or literary work, database, or other material to which the Licensor applied this Public License. g. Licensed Rights means the rights granted to You subject to the terms and conditions of this Public License, which are limited to all Copyright and Similar Rights that apply to Your use of the Licensed Material and that the Licensor has authority to license. h. Licensor means the individual(s) or entity(ies) granting rights under this Public License. i. Share means to provide material to the public by any means or process that requires permission under the Licensed Rights, such as reproduction, public display, public performance, distribution, dissemination, communication, or importation, and to make material available to the public including in ways that members of the public may access the material from a place and at a time individually chosen by them. j. Sui Generis Database Rights means rights other than copyright resulting from Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases, as amended and/or succeeded, as

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			well as other essentially equivalent rights anywhere in the world. k. You means the individual or entity exercising the Licensed Rights under this Public License. Your has a corresponding meaning. Section 2 -- Scope. a. License grant. 1. Subject to the terms and conditions of this Public License, the Licensor hereby grants You a worldwide, royalty-free, non-sublicensable, non-exclusive, irrevocable license to exercise the Licensed Rights in the Licensed Material to: a. reproduce and Share the Licensed Material, in whole or in part; and b. produce, reproduce, and Share Adapted Material. 2. Exceptions and Limitations. For the avoidance of doubt, where Exceptions and Limitations apply to Your use, this Public License does not apply, and You do not need to comply with its terms and conditions. 3. Term. The term of this Public License is specified in Section 6(a). 4. Media and formats; technical modifications allowed. The Licensor authorizes You to exercise the Licensed Rights in all media and formats whether now known or hereafter created, and to make technical modifications necessary to do so. The Licensor waives and/or agrees not to assert any right or authority to forbid You from making technical modifications necessary to exercise the Licensed Rights, including technical modifications necessary to circumvent Effective Technological Measures. For purposes of this Public License, simply making modifications authorized by this Section 2(a) (4) never produces Adapted Material. 5. Downstream recipients. a. Offer from the Licensor -- Licensed Material. Every recipient of the Licensed Material automatically receives an offer from the Licensor to exercise the Licensed Rights under the terms and conditions of this Public License. b. No downstream restrictions. You may not offer or impose any additional or different terms or conditions on, or apply any Effective Technological Measures to, the Licensed Material if doing so restricts exercise of the Licensed Rights by any recipient of the Licensed Material. 6. No endorsement. Nothing in this Public License constitutes or may be construed as permission to

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			assert or imply that You are, or that Your use of the Licensed Material is, connected with, or sponsored, endorsed, or granted official status by, the Licensor or others designated to receive attribution as provided in Section 3(a)(1)(A)(i). b. Other rights. 1. Moral rights, such as the right of integrity, are not licensed under this Public License, nor are publicity, privacy, and/or other similar personality rights; however, to the extent possible, the Licensor waives and/or agrees not to assert any such rights held by the Licensor to the limited extent necessary to allow You to exercise the Licensed Rights, but not otherwise. 2. Patent and trademark rights are not licensed under this Public License. 3. To the extent possible, the Licensor waives any right to collect royalties from You for the exercise of the Licensed Rights, whether directly or through a collecting society under any voluntary or waivable statutory or compulsory licensing scheme. In all other cases the Licensor expressly reserves any right to collect such royalties. Section 3 -- License Conditions. Your exercise of the Licensed Rights is expressly made subject to the following conditions. a. Attribution. 1. If You Share the Licensed Material (including in modified form), You must: a. retain the following if it is supplied by the Licensor with the Licensed Material: i. identification of the creator(s) of the Licensed Material and any others designated to receive attribution, in any reasonable manner requested by the Licensor (including by pseudonym if designated); ii. a copyright notice; iii. a notice that refers to this Public License; iv. a notice that refers to the disclaimer of warranties; v. a URI or hyperlink to the Licensed Material to the extent reasonably practicable; b. indicate if You modified the Licensed Material and retain an indication of any previous modifications; and c. indicate the Licensed Material is licensed under

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			this Public License, and include the text of, or the URI or hyperlink to, this Public License. 2. You may satisfy the conditions in Section 3(a)(1) in any reasonable manner based on the medium, means, and context in which You Share the Licensed Material. For example, it may be reasonable to satisfy the conditions by providing a URI or hyperlink to a resource that includes the required information. 3. If requested by the Licensor, You must remove any of the information required by Section 3(a)(1)(A) to the extent reasonably practicable. 4. If You Share Adapted Material You produce, the Adapter's License You apply must not prevent recipients of the Adapted Material from complying with this Public License. Section 4 -- Sui Generis Database Rights. Where the Licensed Rights include Sui Generis Database Rights that apply to Your use of the Licensed Material: a. for the avoidance of doubt, Section 2(a)(1) grants You the right to extract, reuse, reproduce, and Share all or a substantial portion of the contents of the database; b. if You include all or a substantial portion of the database contents in a database in which You have Sui Generis Database Rights, then the database in which You have Sui Generis Database Rights (but not its individual contents) is Adapted Material; and c. You must comply with the conditions in Section 3(a) if You Share all or a substantial portion of the contents of the database. For the avoidance of doubt, this Section 4 supplements and does not replace Your obligations under this Public License where the Licensed Rights include other Copyright and Similar Rights. Section 5 -- Disclaimer of Warranties and Limitation of Liability. a. UNLESS OTHERWISE SEPARATELY UNDERTAKEN BY THE LICENSOR, TO THE EXTENT POSSIBLE, THE LICENSOR OFFERS THE LICENSED MATERIAL AS-IS AND AS-AVAILABLE, AND MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND CONCERNING THE LICENSED MATERIAL, WHETHER EXPRESS, IMPLIED,

			STATUTORY, OR OTHER. THIS INCLUDES, WITHOUT LIMITATION, WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, ABSENCE OF LATENT OR OTHER DEFECTS, ACCURACY, OR THE PRESENCE OR ABSENCE OF ERRORS, WHETHER OR NOT KNOWN OR DISCOVERABLE. WHERE DISCLAIMERS OF WARRANTIES ARE NOT ALLOWED IN FULL OR IN PART, THIS DISCLAIMER MAY NOT APPLY TO YOU. b. TO THE EXTENT POSSIBLE, IN NO EVENT WILL THE LICENSOR BE LIABLE TO YOU ON ANY LEGAL THEORY (INCLUDING, WITHOUT LIMITATION, NEGLIGENCE) OR OTHERWISE FOR ANY DIRECT, SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, EXEMPLARY, OR OTHER LOSSES, COSTS, EXPENSES, OR DAMAGES ARISING OUT OF THIS PUBLIC LICENSE OR USE OF THE LICENSED MATERIAL, EVEN IF THE LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES, COSTS, EXPENSES, OR DAMAGES. WHERE A LIMITATION OF LIABILITY IS NOT ALLOWED IN FULL OR IN PART, THIS LIMITATION MAY NOT APPLY TO YOU. c. The disclaimer of warranties and limitation of liability provided above shall be interpreted in a manner that, to the extent possible, most closely approximates an absolute disclaimer and waiver of all liability. Section 6 -- Term and Termination. a. This Public License applies for the term of the Copyright and Similar Rights licensed here. However, if You fail to comply with this Public License, then Your rights under this Public License terminate automatically. b. Where Your right to use the Licensed Material has terminated under Section 6(a), it reinstates: 1. automatically as of the date the violation is cured, provided it is cured within 30 days of Your discovery of the violation; or 2. upon express reinstatement by the Licensor. For the avoidance of doubt, this Section 6(b) does

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			not affect any right the Licensor may have to seek remedies for Your violations of this Public License. c. For the avoidance of doubt, the Licensor may also offer the Licensed Material under separate terms or conditions or stop distributing the Licensed Material at any time; however, doing so will not terminate this Public License. d. Sections 1, 5, 6, 7, and 8 survive termination of this Public License. Section 7 -- Other Terms and Conditions. a. The Licensor shall not be bound by any additional or different terms or conditions communicated by You unless expressly agreed. b. Any arrangements, understandings, or agreements regarding the Licensed Material not stated herein are separate from and independent of the terms and conditions of this Public License. Section 8 -- Interpretation. a. For the avoidance of doubt, this Public License does not, and shall not be interpreted to, reduce, limit, restrict, or impose conditions on any use of the Licensed Material that could lawfully be made without permission under this Public License. b. To the extent possible, if any provision of this Public License is deemed unenforceable, it shall be automatically reformed to the minimum extent necessary to make it enforceable. If the provision cannot be reformed, it shall be severed from this Public License without affecting the enforceability of the remaining terms and conditions. c. No term or condition of this Public License will be waived and no failure to comply consented to unless expressly agreed to by the Licensor. d. Nothing in this Public License constitutes or may be interpreted as a limitation upon, or waiver of, any privileges and immunities that apply to the Licensor or You, including from the legal processes of any jurisdiction or authority. ========== Creative Commons is not a party to its public licenses. Notwithstanding, Creative Commons may elect to apply one of its public licenses to material it publishes and in those instances will be considered the "Licensor." Except for the limited purpose of indicating that material is shared under a Creative Commons public license or as

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

			"This implementation" means the copyrightable works distributed by Google as part of the Go project. Google hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, transfer and otherwise run, modify and propagate the contents of this implementation of Go, where such license applies only to those patent claims, both currently owned or controlled by Google and acquired in the future, licensable by Google that are necessarily infringed by this implementation of Go. This grant does not include claims that would be infringed only as a consequence of further modification of this implementation. If you or your agent or exclusive licensee institute or order or agree to the institution of patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that this implementation of Go or any code incorporated within this implementation of Go constitutes direct or contributory patent infringement, or inducement of patent infringement, then any patent rights granted to you under this License for this implementation of Go shall terminate as of the date such litigation is filed. -------- Dependency golang.org/x/lint -------- Copyrights Copyright (c) 2013 The Go Authors. All rights reserved. -------- Patents Additional IP Rights Grant (Patents) "This implementation" means the copyrightable works distributed by Google as part of the Go project. Google hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to

Table 4-1 (Cont.) Third-Party Notices and/or Licenses and Open Source or Other Separately Licensed Software in Oracle Verrazzano Enterprise Container Platform

Provider	Component(s)	Release Versions	Licensing Information
			sell, sell, import, transfer and otherwise run, modify and propagate the contents of this implementation of Go, where such license applies only to those patent claims, both currently owned or controlled by Google and acquired in the future, licensable by Google that are necessarily infringed by this implementation of Go. This grant does not include claims that would be infringed only as a consequence of further modification of this implementation. If you or your agent or exclusive licensee institute or order or agree to the institution of patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that this implementation of Go or any code incorporated within this implementation of Go constitutes direct or contributory patent infringement, or inducement of patent infringement, then any patent rights granted to you under this License for this implementation of Go shall terminate as of the date such litigation is filed. ======== Dependencies Summary github.com/PuerkitoBio/urlesc golang.org/x/crypto golang.org/x/net golang.org/x/sync golang.org/x/sys golang.org/x/text golang.org/x/tools ======== License used by Dependencies SPDX:BSD-3-Clause--modified-by-Google Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met: • Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer. • Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution. • Neither the name of Google Inc. nor the names of its contributors may be used to endorse or promote products derived from

5
Oracle Fusion Middleware Options

This chapter describes the licensing information for Fusion Middleware Options.

This chapter contains the following sections:

- Oracle WebLogic Suite Options
- Oracle WebLogic Server Enterprise Edition and WebLogic Suite Options
- Oracle SOA Suite Options
- Third-Party Products and Details for Oracle JRF Webservices
- Application Server Enterprise Management
- Third-Party Products and Details for Oracle Fusion Middleware
