

Oracle® WebCenter Content

Administrator's Guide for Imaging

11g Release 1 (11.1.1)

E12782-05

January 2013

Oracle WebCenter Content: Imaging integrates electronic document storage, retrieval, and annotation with business processes to facilitate document use across an enterprise. This guide describes typical procedures necessary for administering Oracle WebCenter Content: Imaging including creating applications, inputs, searches, and connections.
