Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related software documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, the following notice is applicable:

U.S. GOVERNMENT END USERS. Oracle programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, delivered to U.S. Government end users are "commercial computer software" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, use, duplication, disclosure, modification, and adaptation of the programs, including any operating system, integrated software, any programs installed on the hardware, and/or documentation, shall be subject to license terms and license restrictions applicable to the programs. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

# Oracle Fabric Manager VMware Integrator Release Notes

---

This document provides late-breaking information about the Oracle Fabric Manager VMware Integrator plug-in version 1.0.1. Topics include:

- [“Minimum Requirements” on page 1](#)
- [“Known Issues” on page 2](#)
- [“Issues Resolved” on page 2](#)
- [“Documentation Issues” on page 2](#)

---

## Minimum Requirements

The plug-in is an optional component for the Oracle Fabric Manager. The plug-in brings Oracle Fabric Manager GUI functionality to a selection tab of the ESXi network management GUI, vSphere.

These software versions are compatible with the plug-in:

- **vSphere** – Version 5.0, 5.1, and 5.5
- **Oracle Fabric Manager** – Version 4.2.0 and 4.2.1

---

## Known Issues

---

Number	Description
16338017	On very rare occasions, the plug-in loses the ESX server list and related data. <b>Workaround:</b> Perform a Load Data action on each ESX server that is not displayed in the list.

---

---

## Issues Resolved

---

Number	Description
16338022	The previous version of the plug-in only partially supported vSphere 5.1 because the plug-in could not reliably perform discovery. For example, autonomous creation of MAC-based access control lists was not available. Additionally, a manual rescan of the vSphere instance was needed to update with any new data.
