1.   Foreclosure of Retail Term Deposit Account

1.1 Introduction

The process begins when bank receives a request from the customer for foreclosure of a term deposit. The bank retrieves the details of the term deposit and checks:

- Whether foreclosure is allowed as per the product terms and conditions
- If the signature / signatures on the request is/are made by the authorized signatories of the account

 In case verification is not successful, the bank rejects the request made by the customer else, the bank checks if there is any lien to be released. In case lien has to be released the bank obtains necessary approvals for releasing the lien. The bank then books foreclosure of the term deposit in the relevant system and the proceeds are paid to the customer as per his/her instructions. Successful completion of all the steps required for foreclosure of a term deposit.

1.2 Stages in Retail Term Deposit Creation

In Oracle FLEXCUBE, the process for closing a retail term deposit is governed by several user roles created to perform different tasks. At every stage, the users (with requisite rights) need to fetch the relevant transactions from their task lists and act upon them. Similarly, at different times, the system will make calls to certain web services to process the transaction.

The retail term deposit opening process comprises the following stages:

- Receive and verify the request for foreclosure of a term deposit
- Generate advice of rejection of foreclosure of term deposit
- Dispatch/handover the advice of rejection of request to the customer
- Check whether lien can be released on the term deposit
- Verify details of foreclosure of term deposit
- Modify details of foreclosure of term deposit
- Release lien on the term deposit
- Book foreclosure of a term deposit
- Arrange for payment of foreclosure/partial closure amount and update details
- Endorse term deposit receipt
- Hand over term deposit receipt
- Generate confirmation advice for foreclosure of a term deposit
- Dispatch/handover confirmation advise to customer and store documents

Only users who have procured the relevant access rights can perform activities under a stage.
