This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

## Accessing Oracle Cloud Native Session Border Controller Documents on MOS

This procedure describes how to access the Oracle Cloud Native Session Border Controller documents on MOS using any of the following options:

- [Access with Patch Number](#)
- [Access without Patch Number](#)

### Access with Patch Number

This procedure describes how to access the Oracle Cloud Native Session Border Controller specific documents on MOS with the patch number of the release.

1. Log in to [MOS](#) using the appropriate credentials.
2. From the Oracle Support page, click the box labeled "**Search for knowledge, service requests, and communities**".
3. Type "Patches" in the search box. You will see an option called "Patches and Product Certification Matrix."
4. Select "Patches and Product Certification Matrix." This will take you to the Patch Search screen.
5. Select "Patch Name or Number" as your search criteria.
6. Enter the patch number.
7. Click "**Apply**". The patch details will be displayed in a table.
8. Click the patch name that includes customer documentation.  
The patch details page will open, where you can download the Read Me file, download the patch package, or participate in discussions about this patch in the community.

### Access without Patch Number

This procedure describes how to access the Oracle Cloud Native Session Border Controller specific documents on MOS without the patch number of the release.

1. Log in to [MOS](#) using the appropriate credentials.
2. From the Oracle Support page, click the box labeled "**Search for knowledge, service requests, and communities**".
3. Type "Patches" in the search box. You will see an option called "Patches and Product Certification Matrix."
4. Select "Patches and Product Certification Matrix." This will take you to the Patch Search screen.
5. Select "Patch Name or Number" as your search criteria.

6. Choose Acme Packet OS as the platform.
7. Select Oracle Cloud Native Session Border Controller as the product.
8. Select the desired release.
9. Click "**Apply**" The patch details will be displayed in a table.
10. Click the patch name that includes customer documentation.  
The patch details page will open, where you can download the Read Me file, download the patch package, or participate in discussions about this patch in the community.
