This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

1 Network Bridge Cloud Native Software Compatibility

Environments	1-1
System Requirements	1-2
Optional Software	1-2

Preface

This guide describes the compatibility considerations and software requirements you should review when installing Oracle Communications Converged Charging System (CCS) Network Bridge.

Audience

This document is intended for system administrators responsible for product installation and planning.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1

Network Bridge Cloud Native Software Compatibility

To run, manage, and monitor your Oracle Communications Network Bridge cloud native software, ensure that you use the latest versions of all compatible software.

Topics in this document:

- [Environments](#)
- [System Requirements](#)
- [Optional Software](#)

Caution:

- System administrators are responsible for ensuring that all installed software dependencies are kept up to date wherever possible. Oracle supports versions of the software where the software vendor declares backward compatibility to the version certified with Network Bridge and where the upgrade is a minor version increment (that is, A.B.C to A.B.D).

It is crucial for system administrators to adopt this policy for software dependencies for which upgrades are generally related to security rather than focusing on functionality.

- Oracle does not provide support for any prerequisite third-party software installation or configuration. The customer must handle any installation or configuration issues related to non-Oracle prerequisite software.

Environments

[Table 1-1](#) lists the environments supported by Network Bridge cloud native deployments.

Table 1-1 Supported Environments

Software	Version	Notes
Oracle Linux	Oracle Linux 7.6 and higher 7.x updates (with critical patch updates) Oracle Linux 8.4 and higher 8.x updates (with critical patch updates) Oracle Linux 9.x and higher 9.x updates (with critical patch updates)	N/A

Table 1-1 (Cont.) Supported Environments

Software	Version	Notes
Oracle Linux Cloud Native Environment (OLCNE)	1.5	The cloud native deployment model was certified with the following, using the same version numbers as supported by the respective versions of OLCNE: <ul style="list-style-type: none"> • Kubernetes • Helm • Oracle Linux Server

System Requirements

[Table 1-2](#) lists the required software for Network Bridge cloud native deployments.

Table 1-2 System Requirements

Software	Version	Notes
Kubernetes	1.23.x	N/A
Helm	3.x	N/A

Optional Software

[Table 1-3](#) lists the optional software you can use with your Network Bridge cloud native deployment.

Table 1-3 Optional Software

Software	Version	Notes
Grafana	8.x	Used for charts, graphs, and alerts
Jaeger	1.25.0	Used for tracing
Metrics Server	0.6.x	To support Kubernetes Horizontal Pod Autoscaler
Prometheus Operator	0.59.x	Used for event monitoring and alerting
Service Mesh	N/A	To support Kubernetes Horizontal Pod Autoscaler
