

Oracle® Communications MetaSolv Solution ASR

Release Notes

Release 63.0

F42854-01

July 2021

Release Notes

This document describes the enhancements that are introduced and the Access Service Ordering Guidelines (ASOG) issues that have been implemented in Oracle Communications MetaSolv Solution Access Service Request (ASR) 63.

This document consists of the following sections:

- [Data Conversions](#)
- [Software Support](#)
- [ASR CORBA APIs Desupported](#)
- [ASOG Issues Implemented](#)
- [Fixes in This Release](#)

See *ASR Installation Guide* for instructions about installing ASR 63.

Data Conversions

The **ASR63BD.sql** file is included in this release. The installer provides all upgrades to MetaSolv Solution executable files and stored procedure files (**Procs** directory).

Software Support

MetaSolv Solution 6.3.1 supports ASR 63 on the following software versions:

- Oracle Enterprise Linux Server 6.6 (or later) and 7.1 (or later)
- Red Hat Enterprise Linux Server 6.6 (or later) and 7.1 (or later)
- Oracle Solaris 11.2 or later
- IBM AIX 7.1 Update 1
- HP-UX Itanium 11.31 Update 7
- Windows Server 2012 R2, Windows Server 2016, and Windows Server 2019
- Oracle WebLogic Server 12c (12.2.1.3 and 12.2.1.4)
- Oracle Database 12cR2 (12.2.0.1), 18c (18.3.0.0.0), and 19c (19.3.0.0.0)

ASR CORBA APIs Desupported

CORBA APIs are no longer supported from ASR 60. Oracle recommends that you use ASR Web Services to integrate ASR with other Oracle products or with external applications. See *ASR Web Services Developer's Guide* for more information about the ASR Web Services.

ASOG Issues Implemented

The following table describes the Access Service Ordering Guidelines (ASOG) issues that have been implemented in this release.

Table 1-1 ASOG Issues Implemented

Issue Number	Description
3654	Addition of allowable special characters.
3655	The valid entry changes have been implemented for the Clarification/Notification Type (CNT) field in the Clarification/Notification Request (C/NR) Details section form.

Fixes in This Release

The following table lists the customer-reported bugs that have been fixed in this release.

Table 1-2 Fixes in This Release

Bug Number	Description
32750029	<p>Issue</p> <p>When executing the ImportExternalDLR ASR Web Service API with the UNIT field value length more than 6, the API returns the error "The value '1234567' of element 'UNIT' is not valid.". As per the DLR-ISI guidelines, the length of the UNIT field is 25 characters.</p> <p>Resolution</p> <p>The code has been modified and now when executing the ImportExternalDLR Web Service API with UNIT field length up to 25 characters, the API will successfully create the external DLR.</p> <p>After importing the External DLR via API, when the user views the external DLR in the application, the UNIT field value that exceeds 6 characters will be split into multiple lines in the Design Lines tab.</p> <p>The length of the IC field has been increased from 20 to 25 characters to match the DLR-ISI guidelines. This change will be reflected in the External DLR API and also in the Connection Design and External DLR windows in the GUI.</p>

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software" or "commercial computer software documentation" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.
