Oracle Banking Retail Deposits Cloud Service Retail Deposits User Guide, Release 14.7.5.0.0

G13900-01

Contents

A   Functional Activity Codes

B   Error Codes and Messages

Index

Preface

Purpose

This guide is designed to help user quickly get acquainted with the features and functionality of **Oracle Banking Retail Deposits Cloud Service**. It provides an overview to the product and the steps involved in the creation and the maintenance of Retail Deposits.

Audience

This user guide is intended for the following end Users / User Roles in a Bank:

Table   User Roles

User Role	Functions
Back Office Clerk	Input functions for contracts
Back Office Managers/Officers	Authorization functions
Product Managers	Product definition and authorization
End of Day Operators	Processing during End of Day/ Beginning of Day
Financial Controller/Product Managers	Generation of reports

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
`monospace`	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

The related documents are as follows:

- *Account Configurations User Guide*
- *Getting Started User Guide*
- *Oracle Banking Common Core User Guide*
- *Security Management System User Guide*

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table   Abbreviations

Abbreviation	Definition
ATM	Automated Teller Machine
BBAN	Basic Bank Account Number
CASA	Current and Savings Account User Guide
ECA	External Credit Approval
EOD	End of Day
GL	General Ledger
IBAN	International Bank Account Number
LOV	List of Values

Table   (Cont.) Abbreviations

Abbreviation	Definition
MMDA	Money Market Deposit Account
TD	Term Deposit

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Basic Actions

This topic describes about basic actions that can be performed on a screen.

Table   Basic Actions

Action	Applicable Stages	Description
Approve	Approval	The system displays a section where approval remarks if any can be input. Click **OK** to submit. The transaction is sent to the Host system through *Oracle Banking Routing Hub.* The Host system validates the transaction again and the transaction is created if all the validations are successful. If the transaction fails, the transaction is moved to Handoff retry stage, and user can view the error message. In this stage, the authorizer can retry or reject the transaction. On reject, the transaction is sent back to the maker to modify or delete it. ✎ **Note:** The maker checker validation will be provided if the same maker tries to approve the transaction.
Audit	Initiation, Approval and Hand off Retry	Audit details provide the logs of users who have acted on the transaction, the transaction date, and the time for all stages that the transaction has passed through.

Table   (Cont.) Basic Actions

Action	Applicable Stages	Description

Auto Authorization	Initiation	Auto authorization can be configured for the branch servicing screens by creating a Rule based on life cycle code.
		The steps to create the Auto authorization as follows:
		
		1. Create the fact value as **LIFECYCLECODE**.
		
		2. Create Rule to enable Auto authorization for any servicing screen and add the expression in Rule for that screen's lifecycle code. While creating a Rule the product processor should be given as **DEPOSIT** and fact should be selected as **LIFECYCLECODE**.
		For Example:
		
		`IF ( LIFECYCLECODE == TDPOMN )`
		
		output
		
		`Section1 LEVEL:0`
		
		3. Create or modify a Rule Group with Name **ApprovalRuleGroup** and map the Rule(s) created in the step (2).
		
		Note:
		You can define one single Rule for all the screens and add the expression for the life cycle code or you can define individual Rule for each screen and map to the Rule group.
		
		Note:
		For more information, refer to the *Oracle Banking Common Core User Guide* to create Fact, Rule and Rule Group.

Back	Initiation, Approval, and Hand off Retry	In case the user missed to specify or need to modify the details in the previous segment, click to navigate to the previous segment.
Cancel	Initiation, Approval and Hand off Retry	Cancel operation cancels the transaction input midway without saving any data. The user is alerted that the input data would be lost before confirming the cancellation.

Table   (Cont.) Basic Actions

Action	Applicable Stages	Description
Change Log	Approval	When the authorizer clicks on the **Change Log** button, the system displays the changes made to the transaction in a pop-up window. By default, the change log is set to display only modified values. The **Change Log** button has two options, they are, **All** and **Updated**. The **All** button displays both modified and non-modified fields and the **Updated** button displays only the modified fields. The old and new values are displayed so that the authorizer can compare or verify the values and decide on further action. Also, the new values appear is red for easy recognition.
Close	Initiation, Approval and Hand off Retry	Users can close the transaction input screen. The system displays a warning message to the user that any unsaved data would be lost. User can either choose to ignore the message and close the screen or choose to **Save and Close** the transaction.
Delete	Initiation	Delete operation deletes the transaction without saving any data. The user is alerted that the input data would be lost before confirming the deletion.
Document	Initiation, Approval and Hand-off Retry	The maker of the transaction can click on **Document** to upload documents that are relevant to the transaction. Once uploaded, the documents are available for viewing during authorization or by the maker.
Host Error	Hand Off Retry	Hand off Retry comes into use whenever a transaction input from the mid-office system fails authorization due to Host System rejection. The authorizer of the transaction can view the reason for Host rejection and take appropriate action.
i icon	Initiation, Approval and Hand-off Retry	To view the Customer details such as the photograph, signature, customer ID, Account Branch, and balance, the **i** icon is used. The **i** icon becomes active once the maker of the transaction inputs the account number and tabs out of the field. The **i** icon is useful to inquire customer information about both the debit and the credit account numbers.
Maximize	Initiation, Approval and Hand off Retry	User can maximize the transaction input screen.
Minimize	Initiation, Approval and Hand-off Retry	Users can minimize the transaction input screen. When the screen is minimized, it appears as to a separate tab within the same web page.

Table   (Cont.) Basic Actions

Action	Applicable Stages	Description

Multi-Level Authorizatio n	Initiation	Multi-level authorization can be configured for the branch servicing screens by creating a Rule based on life cycle code.
		The steps to create the Multi-level authorization as follows:
		
		1. Create the fact value as **LIFECYCLECODE**.
		
		2. Create Rule to enable Multi-level authorization for any servicing screen and add the expression in the Rule for that screen's lifecycle code.
		While creating a Rule the product processor should be given as **DEPOSIT** and fact should be selected as **LIFECYCLECODE**.
		For Example:
		
		`IF ( LIFECYCLECODE == TDPYIN )`
		
		output
		
		`Section1 LEVEL:1~DSR_FA_TDPAYIN_AUTH,`
		`LEVEL:2~DSR_FA_TDPAYIN_AUTH`
		
		Note:
		If customer wants to use separate Functional Activity Code for each Level then Rule output need to be define like
		
		`LVELE:1~<FUNCTIONAL_ACTIVITY_CODE1>,`
		`LVELE:2~<FUNCTIONAL_ACTIVITY_CODE2>`
		
		.
		
		3. Create or modify a Rule Group with name **ApprovalRuleGroup** and map the rule(s) created in the step (2).
		
		Note:
		You can define one single rule for all the screens and add the expression for the life cycle code or you can define individual rule for each screen and map to the rule group.
		
		Note:
		The maker checker validation will be provided if the same maker tries to

Table   (Cont.) Basic Actions

Action	Applicable Stages	Description
		✎ authorize the single or multi-level approval tranaction.
Overrides	Initiation, Approval and Hand-off Retry	If override messages had appeared during initiation stage and they were accepted by the maker during submission, the **Overrides** button appears in the Initiation screen if the transaction is subsequently rejected by the authorizer. On the **Override Details** section, click **Decline** to go back to the transaction screen to modify or cancel it, or click **Accept** to complete the initiation stage and move the transaction to the approval stage.The **Overrides** button is displayed in the Approval and Hand-off retry stage if there were any override messages generated during initiation and accepted by the maker. When the **Overrides** button is clicked, the system displays the overrides accepted by the maker. After verifying the transaction and override details, the authorizer can either approve or reject the transaction. Existing Approve Transaction section is modified to display the overrides if any overrides are raised during the initiation submits.
Reject	Approval and Hand off Retry	When an authorizer chooses to reject a transaction, the **Reject** icon is used. The system displays a pop-up screen to capture the Rejection remarks if any. Click **OK** for the transaction to be routed back to the initiation stage. Subsequently, the maker can modify or delete the transaction details.
Remarks	Initiation, Approval and Hand-off Retry	**Remarks** can be used either by the maker or the authorizer of the transaction to optionally capture useful information about the transaction.
Reset	Hand off Retry	The reset button clears all the details displayed on the screen and allows input or selection of a different customer number.
Retry	Hand off Retry	The possibility of retrying a transaction arises when transaction input from the mid-office system fails authorization due to Host System rejection. Such host-rejected transactions will be present in the Hand off Retry queue in the Task Wizard. The Retry option is available only to the authorizer. Upon **Retry**, the transaction is sent to the host once again through Oracle Banking Routing Hub. Optionally, the authorizer can also **Reject** the transaction in which case it is routed back to the maker.
Save and Close	Initiation	In case a transaction has to be closed midway due to a lack of sufficient information, the maker of the transaction can choose this option. On **Save and Close**, the input details are saved and the transaction screen is closed. Saved transaction details will be available in **My task**. Users can select the transaction from **My Task** and proceed with the transaction or delete it.
Submit	Initiation	After submitting the initiation stage, the system validates the transaction with the host and displays the errors or overrides if any. In case of an error, you can modify and resubmit or cancel the transaction. In case of an override, you can modify and resubmit or proceed with the transaction by accepting the overrides.

Symbols and Icons

The following buttons are used in the screens:

1
Configurations

This topic contains the following **Configurations** as subtopics:

- Retail Deposits Business Product
  Users can classify the customer accounts of the bank into different groups and assign each group an identifying code.

- Deposit Pay-in Maintenance
  The deposit pay-ins to be done by GL, user needs to maintain the GL details through the Deposit Pay-in Maintenance screen.

1.1 Retail Deposits Business Product

Users can classify the customer accounts of the bank into different groups and assign each group an identifying code.

Each group is referred to as a **Business Product** and is maintained in the **Retail Deposits Business Product Configuration** screen. User also define certain common fields applicable to the accounts in this business product, such as the General Ledger lines to which the accounts in this report to facilities granted to the account holders.

Business Product definition and various features are captured across the following sub-screens covered as subtopics.

- **Basic Details**
- **Features**
- **Preferences**
- **Tenor Parameters**
- **Rate Chart Parameters**
- **Maturity Instructions**
- **Maturity Holiday Treatment**
- **Interest**
- **MIS**

This topic contains the following subtopics:

- Create Business Product
  This topic describes the systematic instructions to create business product. The maintenance screen allows the user to configure business product parameters.

- View Business Product
  This topic explains the systematic instructions to view the list of configured business product parameters.

1.1.1 Create Business Product

This topic describes the systematic instructions to create business product. The maintenance screen allows the user to configure business product parameters.

> **Note:**
>
> The fields marked as **Required** are mandatory.

1. On **Home** screen, under **Menu**, click **Retail Deposits**. Under **Retail Deposits**, click **Configurations**.

2. Under **Configurations**, click **Retail Deposits Business Product**. Under **Retail Deposits Business Product**, click **Create Business Product**.

   The **Create Business Product** screen displays.

   Figure 1-1   Create Business Product - Basic Details

3. Specify the fields on the **Basic Details** screen.

   For more information on fields, refer to the field description table below.

   Table 1-1   Basic Details - Field Description

Field	Description
Business Product	Specify the business product code to be maintained. This indicates the class code or template code. This code is referenced during the deposit creation.
Description	Specify the description for the business product.
Account Type	Specify the account as **Deposit**. This is the default value.

Table 1-1 (Cont.) Basic Details - Field Description

Field	Description
Account Code	As per your bank's requirement, you can choose to classify business products into different account codes. The bank can decide the way the business products are to be assigned to different account codes. An account code can consist of a maximum of four characters. An account code can be part of the customer account mask. If the customer account mask consists of an account code, the value in this field is used as part of deposit account number generation.
Validity	Specify the validity period of the business product by specifying the start date and the end date. End date is optional.

4. After specifying the fields in the **Basic Details** screen, click **Next**.

   The **Features** screen displays.

Figure 1-2 Create Business Product - Features
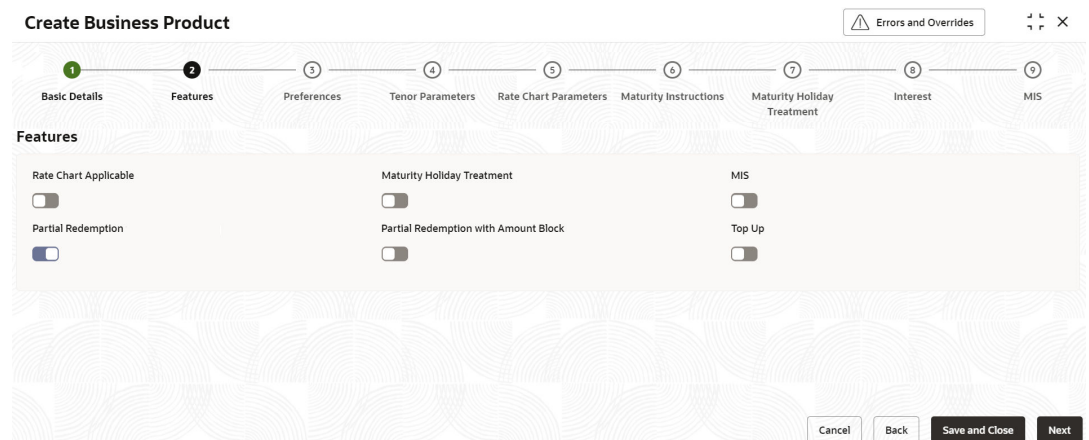

5. Specify the fields on **Features** screen.

   For more information on fields, refer to the field description table below.

Table 1-2 Features - Field Description

Field	Description
Rate Chart Applicable	Switch this toggle **ON**, if balance and tenor based rates are applicable. If this option is enabled, the **Rate Chart Parameters** data segment will be displayed in the screen.
Maturity Holiday Treatment	Switch this toggle **ON**, if maturity holiday treatment is applicable. It determines the treatment applicable for deposit account, if the maturity date falls on a holiday. If this option is enabled, the **Maturity Holiday Treatment** data segment will be displayed in the screen.

Table 1-2   (Cont.) Features - Field Description

Field	Description
MIS	Switch this toggle **ON**, to capture the MIS details for the product. If this option is enabled, the **MIS** data segment will be displayed in the screen.
Partial Redemption	Switch this toggle **ON**, to indicate that partial redemption is allowed. If this option is not enabled, then partial redemption will not be allowed on deposits under this business product. The default value is **OFF**.
Partial Redemption with Amount Block	Switch this toggle **ON**, to indicate that partial redemption is allowed for the deposits with amount blocks. If the deposit is linked partially then partial redemption of the deposit will be allowed only if you enable this option. The default value is **OFF**.
Top Up	User can top-up an existing deposit by adding funds to the deposit account.

6. After specifying the fields in the **Features** screen, click **Next**.

   The **Preferences** screen displays.

Figure 1-3   Create Business Product - Preferences

7. Specify the fields on **Preferences** in **Deposits** screen.

   Click **Add** button in the **Preferences** screen to specify the currency code, minimum opening deposit amount, maximum opening deposit amount, and top up units.
   For more information on fields, refer to the field description table below.

Table 1-3   Preferences - Field Description

Field	Description
Currency Code	Specify the currency code or click **Search** icon to select the applicable currency from the list for which the minimum and maximum opening deposit amount is to be maintained.
Minimum Opening Deposit Amount	Specify the minimum opening deposit amount for the deposit product. If the deposit funding amount is less than minimum opening deposit amount, then the system will reject the deposit creation.
Maximum Opening Deposit Amount	Specify the maximum opening deposit amount for the deposit product. If the deposit funding amount is greater than the maximum opening deposit amount, then system will reject the deposit creation.
Top up Units	Specify the top-up units for the deposit product. The top-ups done on the deposit product should be basis the units if configured. Eg: If top-up unit is USD 500, then top-up can be done for UDS 500, USD 1000, USD 1500 etc.
Action	Click the **Edit** icon to edit the values specified, or click **Delete** icon to delete the added row.
Deposit Statement	Switch this toggle **ON**, to specify the cycle, and statement format to get the deposit statement for the transactions.
Cycle	Specify the frquency on which the periodic statement needs to be generated. The values are as follow: • **Daily** • **Weekly** • **Fortnightly** • **Monthly** • **Quarterly** • **Semi Annual** • **Annual** This field is available only when the **Deposit Statement** is enabled.
Statement Format	Specify the format in which the account statement should be generated. Click **Search** icon to view and select the required statement format. This field is available only when the **Deposit Statement** is enabled.
Credit GL	Specify the GL to which an account balance should belong. Click **Search** icon and select the credit GL from the list of values.
Deposit Funding Options	Specify the option(s) through which the deposit can be funded. When the deposit is opened, a validation ensures that the deposit is funded only through the selected option(s). The available options are **General Ledger**, and **Account**.

8. After specifying the fields in the **Preferences** screen, click **Next**.

The **Tenor Parameters** screen displays.

Figure 1-4   Create Business Product - Tenor Parameters

9. Specify the fields on **Tenor Parameters** screen.

   Click **Add** button in the **Tenor Parameters** data segment to add the applicable tenors. For more information on fields, refer to the field description table below.

Table 1-4   Tenor Parameters - Field Description

Field	Description
Tenor Parameters	This section determines the list of applicable tenors for a business product and also the minimum, maximum and default tenor for a business product.
Applicable Tenors	Click on **Add** to specify multiple tenors that are applicable for the business product. If Applicable Tenors are defined for a business product then the deposit can be created only with one of the tenors mentioned in the configured list. The deposit creation will fail in case the deposit is booked with any other tenor not part of the maintained list.
Days	Specify the tenor value in **Days**.
Months	Specify the tenor value in **Months**.
Years	Specify the tenor value in **Years**.
Minimum Tenor	Specify the minimum tenor for which deposits should be created under this business product. If the deposit is booked for a tenor that is less than the minimum tenor then the deposit creation fails with an appropriate error message. If applicable tenor is configured, then it needs to be made sure that the minimum tenor is less than the least value of the configured applicable tenors.
Days	Specify the minimum tenor in terms of days.
Months	Specify the minimum tenor in terms of months.
Years	Specify the minimum tenor in terms of years.

Table 1-4   (Cont.) Tenor Parameters - Field Description

Field	Description
Default Tenor	User can define a tenor for the deposits that are opened under the business product. Deposits opened under the business product will automatically acquire this tenor. However, user can change the tenor to suit the requirements of a specific deposit. The default tenor should be within the minimum and maximum range specified. The default tenor is mandatory for a business product. If applicable tenors are also configured, then one of the applicable tenors needs to be captured as a default tenor.
Days	Specify the default tenor in terms of days.
Months	Specify the default tenor in terms of months.
Years	Specify the default tenor in terms of years.
Maximum Tenor	Specify the maximum tenor for which deposits can be created under this business product. If the deposit is booked beyond the maximum tenor then the deposit creation fails with an appropriate error message. If applicable tenor is configured, then it needs to be made sure that the maximum tenor is more than the max value of the configured applicable tenors.
Days	Specify the maximum tenor in terms of days.
Months	Specify the maximum tenor in terms of months.
Years	Specify the maximum tenor in terms of years.

10. After specifying the fields in the **Tenor Parameters** screen, click **Next**.

The **Rate Chart Parameters** screen displays.

Figure 1-5   Create Business Product - Rate Chart Parameters

11. Specify the fields on **Rate Chart Parameters** screen.

For more information on fields, refer to the field description table below.

Table 1-5   Rate Chart Parameters - Field Description

Field	Description
Rate Chart Parameters	This determines if rate chart is applicable for the business product and the premature redemption details for the deposits if rate chart is allowed.
Rate Chart Tenor	Specify the value by which the tenor maintained should be considered. User can select one of the following values: • **Days** - If user select this, the rate chart tenor will be considered as days for all deposit under this business product. • **Months** - If user select this, the rate chart tenor will be considered as months for all deposit under this business product. The default value is **Days**.
Rate Based On Cumulative Amount	Switch this toggle **ON** to indicate that the system should arrive at the interest rate of a new deposit using the cumulative amount of other active deposits, under the same business product, customer, and currency. The default value is **OFF**.
Interest Rate for Redemption Amount	Select the interest rate to be applied for the redemption amount, from the drop-down list. The list of values are as follow: • **Continue Existing** • **As on Opening Date** • **As on Redemption Date** • **Special Rate Code** • **As on Rate Revision Events** The default value is **Continue Existing**.
Interest Rate for Post Redemption	Select the interest rate to be applied after redemption of deposit, from the drop-down list. The list of values are as follows: • **Continue Existing** • **As on Opening Date** • **As on Redemption Date** • **As on Rate Revision Events** The default value is **Continue Existing**.
Interest Rate	Select the interest to be applied on the top-up deposit, from the drop-down list. The list of values as follow: • **Current** - Select this option to apply the current interest rate of the deposit on the top-up amount. • **As on Opening Date** - Select this option to apply the interest rate based on the slab as on the value date of deposit opening. If top-up is made to a deposit after rollover, the rate as on rollover date will be considered for rate pick up. • **As on Top Up Value Date** - Select this option to apply the interest rate based on the slab as on the value date of the top-up.

12. After specifying the fields in the **Rate Chart Parameters** screen, click **Next**.

    The **Maturity Instructions** screen displays.

Figure 1-6   Create Business Product - Maturity Instructions

13. Specify the fields on **Maturity Instructions** screen.

For more information on fields, refer to the field description table below.

Table 1-6   Maturity Instructions - Field Description

Field	Description
Maturity Instructions	This determines the default maturity instructions for accounts opened under the business product.
Auto Rollover	Switch this toggle **ON** to automatically rollover the deposits on maturity date. The default value is **OFF**.
Month-End Maturity Deposit	Switch this toggle **ON** to indicate that the deposit is a month-end maturing deposit (i.e., the deposit matures on the last working day of the month). The default value is **OFF**.
Re-pick up Business Product Tenor on Rollover	Switch this toggle **ON** to enable re-pick up of the business product tenor on rollover. During rollover, the system will pick up the default tenor of the business product. The default value is **OFF**.
Close on Maturity	Switch this toggle **ON** to close the deposit account on maturity date and transfer the amount as per the pay-out details maintained for the deposit. The default value is **OFF**.
Cascade Month-End Maturity Date	Switch this toggle **ON** to cascade the month end maturity date of the deposit. If not selected then, the maturity date will fall in line with the account open date. The default value is **OFF**.
Maturity Notice Period	Specify the number of days before which the customer notification is to be sent for deposit maturity.
Grace Period For Renewal	Specify the grace period for renewing a deposit. This option is applicable only for deposits whose interest and principal is moved to unclaimed GLs upon maturity. In other words, grace period will not be applicable on the maturity date in case of auto rollover or closure of the deposit.

14. After specifying the fields in the **Maturity Instructions** screen, click **Next**.

The **Maturity Holiday Treatment** screen displays.

ORACLE

Figure 1-7   Create Business Product - Maturity Holiday Treatment

15. Specify the fields on **Maturity Holiday Treatment** screen.

For more information on fields, refer to the field description table below.

Table 1-7   Maturity Holiday Treatment - Field Description

Field	Description
Holiday Treatment	This determines the holiday treatment if the maturity of the deposit falls on a holiday.
Holiday Calendar	Select the holiday calendar applicable to the business product from the drop-down list. This list displays the following values: • **Ignore** - Select this option to ignore all other holiday parameters for the business product. By default, this option is selected. • **Branch** - Holiday calendar will be based on the branch holiday maintenance of the respective branch. • **Currency** - Holiday calendar will be based on the currency maintenance done at bank level for the respective currency. • **Both Branch and Currency** - Holiday calendar is based on both branch and currency holiday maintenance. The holiday calendar is used to arrive at the maturity date. The holiday calendar defined at the business product is applicable to all deposits opened under the business product. User cannot modify the **Holiday Calendar** if there are active accounts under the business product. The default value is **Ignore**.

Table 1-7   (Cont.) Maturity Holiday Treatment - Field Description

Field	Description
Holiday Movement	Select the working day to which the holiday should be moved from the adjoining drop-down list. This list displays the following values: • **No Change** - If you select this option, then there is no change in the maturity date. By default, this option is selected. • **Previous Working Day** - In case the computed maturity date is a holiday, then system moves the maturity date to the previous working day for the corresponding Holiday Calendar chosen. • **Next Working Day** - In case the computed maturity date is a holiday, then system moves the maturity date to the next working day for the corresponding Holiday Calendar chosen. Holiday movement is adjusting the next maturity date when the maturity date falls on a holiday, based on the Holiday Calendar chosen. **Holiday Movement** is not applicable if you select **Ignore** option for **Holiday Calendar**. **Note:** User cannot modify the **Holiday Movement** if there are active account under the business product. The default value is **No Change**.
Maturity Date Movement	Select the maturity date movement across months from the drop-down list: • **Allowed** - The maturity date is moved across months. If the computed maturity date falls on a Holiday, then the maturity date can be moved to the next or previous working day, based on the holiday movement option, even if it falls in a different month. By default, this option is selected. • **Previous/Next Working Day of the Same Month** - After moving the maturity date, if the adjusted maturity date falls in the previous/next month, then the system moves the maturity date forward or backward to the next/previous working day of the same month. • **No Change in Maturity Date** - If the adjusted maturity date falls on next/previous month, then the system ignores the movement and considers the computed maturity date as the maturity date even it falls on a holiday. Maturity date across months is applicable only when the maturity date is adjusted to previous or next working day. The default value is **Allowed**.

Table 1-7   (Cont.) Maturity Holiday Treatment - Field Description

Field	Description
Adhoc Holiday Change	Select the adhoc holiday change from the drop-down list. The list displays the following values: • **Change Maturity Date and Generate Advice** - System updates the maturity date and the rollover maturity date as per the deposit holiday calendar maintenance, generates an advice to the customer. By default, this option is selected. • **Generate Advice** - System generates an advice on deposits having maturity date falling on a holiday. • **No Action** - If this is selected, the maturity date does not change. In this case the system will not generate advices for the deposit. The adhoc holiday change is the change in branch and currency holiday calendar after opening the deposit due to adhoc change in holiday or branch transfer of the deposit. System ignores the value of **Adhoc Holiday Change** if you select the **Ignore** option for **Holiday Calendar**. The default value is **Change Maturity Date and Generate Advice**.
Applicable Deposit Tenor	Select the deposit tenor, applicable to the deposit for interest rate pick-up, from the drop-down list. This list displays the following values: • **Original Tenor** - If you select this option, then the system considers the tenor which is defaulted from the business product or modified at the account level. By default, this option is selected. • **Deposit Tenor** - If you select this option, then the system considers the tenor based on the adjusted maturity date. The default value is **Original Tenor**.

16. After specifying the fields in the **Maturity Holiday Treatment** screen, click **Next**.

    The **Interest** screen displays.

Figure 1-8   Create Business Product - Interest
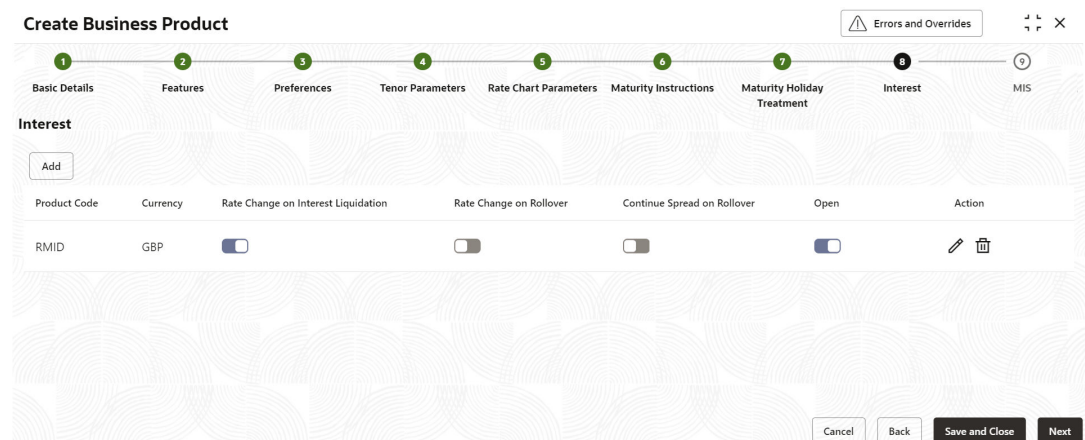

17. Specify the fields on **Interest** screen.

    Click the **Add** button. The **Add Interest** screen displays.

For more information on fields, refer to the field description table below.

Table 1-8   Interest - Field Description

Field	Description
Product Code	Specify the interest product code that should be linked to the account. The adjoining option list displays all valid Interest and Charge (IC) products available in the system. User can select the appropriate one.
Currency	Select the Currency from the drop-down list defined for the interest product.
Rate Change on Interest Liquidation	Switch this toggle **ON**, then on every interest liquidation new rates are picked up for the interest calculation. However, you cannot toggle this switch once authorized.
Rate Change on Rollover	Switch this toggle **ON** to re pick up the rate activity on the rollover of deposit. The rate is picked up for fixed and rate chart allowed deposits.
Continue Spread on Rollover	This is defaulted based on the Interest and Charges product. Switch this toggle **ON** to enable continued variance on rollover. The system will default account variance as current value to the rollover deposit for the next cycle. If you toggle **OFF** this, then the account variance will not be carried forward to the next rollover cycle.
Open	Switch this toggle **ON** to make the product applicable. More than one IC product may be applicable for a business product at the same time. The default value is **ON**.
Action	Click **Edit** icon to edit the values in a row, or click **Delete** icon to delete the rows.

- After specify the details in the **Add Interest** screen. Click **Add** or **Add Another** button to include the interest parameters in the Interest screen.

18. After specifying the fields in the **Interest** screen, click **Next**.

The **MIS** screen displays.

Figure 1-9   Create Business Product - MIS

19. Specify the fields on **MIS** screen.

For more information on fields, refer to the field description table below.

Table 1-9   MIS - Field Description

Field	Description
MIS Group	Select the MIS group applicable for the deposit business product from the selection list. The list is populated based on the MIS configuration maintained in common core.
Description	The system displays the description. This is auto populated.
SECTOR	Specify the sector to be associated.
SECTOR Description	The description of the sector is displayed.

20. After specifying all the details, click **Save and Close** to complete the steps or click **Cancel** to exit without saving.

1.1.2 View Business Product

This topic explains the systematic instructions to view the list of configured business product parameters.

1. On **Home** screen, under **Menu**, click **Retail Deposits**. Under **Retail Deposits**, click **Configurations**.

2. Under **Configurations**, click **Retail Deposits Business Product**. Under **Retail Deposits Business Product**, click **View Business Product**.

The **View Business Product** screen displays.

Figure 1-10   View Business Product
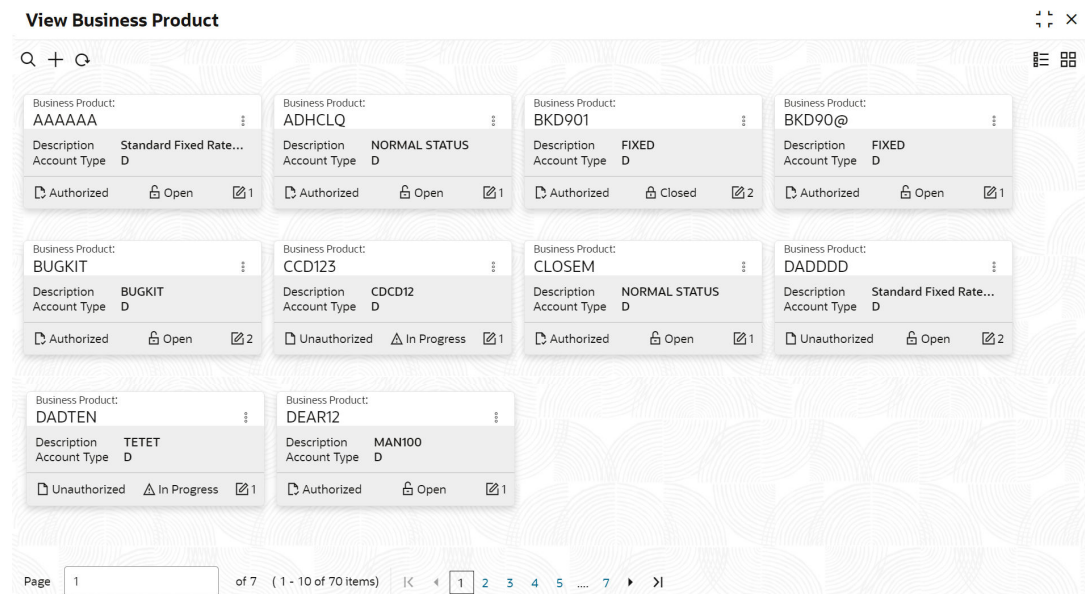

For more information on fields, refer to the field description table below.

Table 1-10   View Business Product - Field Description

Field	Description
Business Product	Displays the business product.
Description	Displays the description of the business product.
Account Type	Displays the type of deposit account.
Authorization Status	Displays the authorization status of the record. The available options are: • **Authorized** • **Rejected** • **Unauthorized**
Record Status	Displays the status of the record. The available options are: • **Open** • **In Progress** • **Closed**
Modification Number	Displays the number of modifications performed on the record.

1.2 Deposit Pay-in Maintenance

The deposit pay-ins to be done by GL, user needs to maintain the GL details through the Deposit Pay-in Maintenance screen.

To link appropriate GLs in case the pay in option chosen is pay in by GL, user need to maintain the **Branch Code**, **Pay-In Option**, and **General Ledger Code**.

This topic contains the following subtopics:

• Create Payin Maintenance
This topic describes the systematic instructions to create pay-in maintenance.

• View Payin Maintenance
This topic explains the systematic instructions to view the list of payin maintenance parameters.

1.2.1 Create Payin Maintenance

This topic describes the systematic instructions to create pay-in maintenance.

> ✎ **Note:**
>
> The fields marked as **Required** are mandatory.

1. On **Home** screen, under **Menu**, click **Retail Deposits**. Under **Retail Deposits**, click **Configurations**.

2. Under **Configurations**, click **Deposit Payin Maitenance**, under **Deposit Payin Maitenance**, click **Create Payin Maintenance**.

The **Create Payin Maintenance** screen displays.

Field	Description
Branch Code	Displays the branch code.
Pay In Option	Displays the pay in option.
Authorization Status	Displays the authorization status of the record. The available options are: • **Authorized** • **Rejected** • **Unauthorized**
Record Status	Displays the status of the record. The available options are: • **Open** • **In Progress** • **Closed**
Modification Number	Displays the number of modifications performed on the record.

2

Operations

This topic contains the following **Operations** as subtopics:

- Overview of Deposit Services
  The **Deposit Services** module facilitates doing various transactions on Term Deposit accounts.

- Deposit View
  You can use the screen under the **Deposit View** menu to view a 360 view of a TD account.

- TD Transactions
  You can use the screens under the **Transactions** menu to initiate deposit services transactions. A deposit with a fixed tenure or term is called as time deposit or Term Deposit (TD). This chapter deals with transactions of a term deposit.

- TD Maintenances
  You can maintain the TD account details in this section. A deposit with a fixed tenure or term is called as time deposit or Term Deposit (TD).

- TD Inquiries
  A deposit with a fixed tenure or term is called as time deposit or Term Deposit (TD). This chapter deals with inquiries of a term deposit.

- Prior Maturity Notices in Deposits
  This topic describes the details of prior maturity notices in depositss.

- Business Events in Oracle Banking Retail Deposits
  This topic describes the processing of business events in online for Oracle Banking Retail Deposits.

2.1 Overview of Deposit Services

The **Deposit Services** module facilitates doing various transactions on Term Deposit accounts.

- About Main Menu
  The **Deposit Services** is grouped into several menus. It is a large panel divided into groups of menu items, which simplifies the navigation.

2.1.1 About Main Menu

The **Deposit Services** is grouped into several menus. It is a large panel divided into groups of menu items, which simplifies the navigation.

The menu items are grouped based on the type of operation to be performed. In addition, the **Menu Item Search** helps to search and select a specific screen to navigate to any screen from the main menu items. The main menus are listed below:
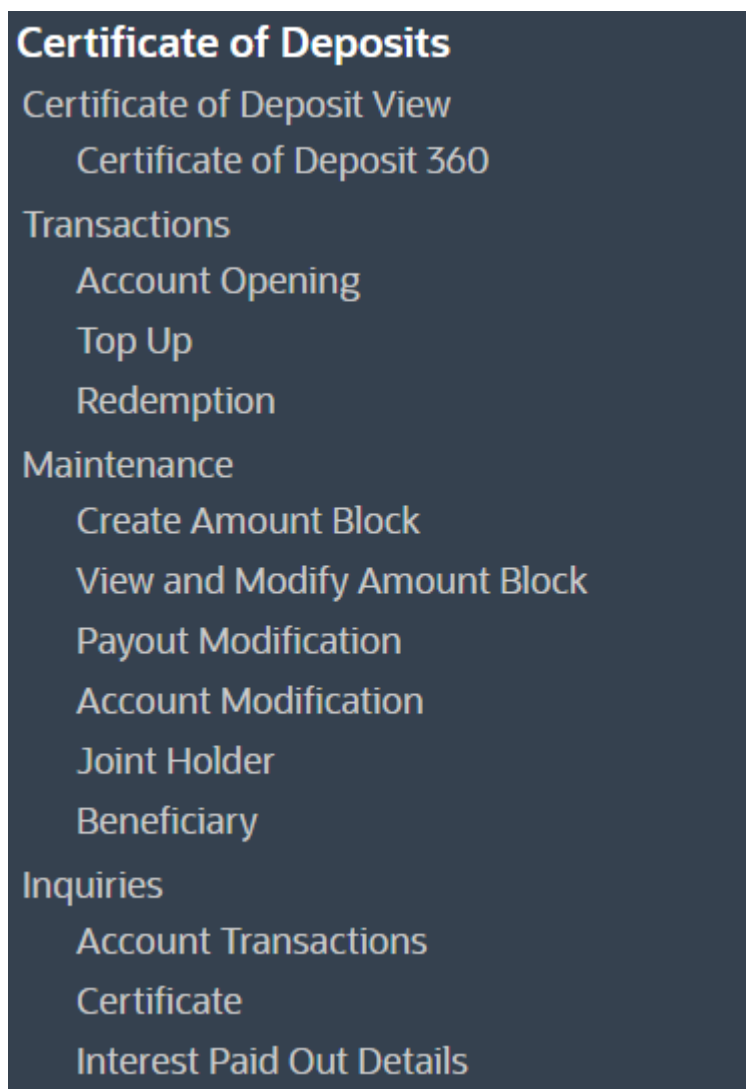

Figure 2-1   Deposit Services Mega Menu

Table 2-1   Menu Items

Menu Item	Description
Transactions	Teller or Supervisor can use to initiate term deposit account opening.
Maintenance	Teller or Supervisor can use to perform the deposit services maintenance activities.
Inquiries	Teller or Supervisor can use to perform the deposit services inquiries.

2.2 Deposit View

You can use the screen under the **Deposit View** menu to view a 360 view of a TD account.

This topic contains the following subtopic:

- Deposit 360
  You can get an 360-degree view of a customer's term deposit account using the **Deposit 360** screen.

2.2.1 Deposit 360

You can get an 360-degree view of a customer's term deposit account using the **Deposit 360** screen.

> **Note:**
>
> The fields marked as **Required** are mandatory.

The various sections are:

- Deposit Information
- Account holders
- Account details
- Balances
- Instruction set
- Redemption Simulation
- Amount Block Details
- Rollover History
- Interest Rate Changes
- Overdue Transactions
- Recent Transactions
- Frequent Actions

To view the term deposit details:

1. On the **Home** screen, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Deposit View**, click **Deposit 360** or specify **Deposit 360** in the search icon bar and select the screen.

   The **Deposit 360** screen is displayed.

   Figure 2-2   Deposit 360

2. On the **Deposit 360** screen, click the **Search** icon or specify the **Account Number** and press the **Tab** or **Enter** key.

The details are displayed in the dashboard.

Figure 2-3   Deposit Details for Term Deposit

3. You can view the TD details of the account holder in the dashboard displayed. For more information on fields, refer to the field description table.

Table 2-2   Deposit 360 - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. ✎ **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
<Product Name>	Displays the product name from the product master.
<Deposit Status>	Displays the deposit status. The options for the status are: • **Active** • **Matured** • **Closed**
<TD Account Number>	Displays the TD account number.
Branch	Displays deposit branch.
<Deposit Term - Interest Rate>	Displays the term for the deposit and interest rate for the deposit.
Deposit Start Date	Displays the value date of the deposit.
Maturity On	Displays the maturity date of the deposit.
Re-invest TD	Displays if the interest from the TD is to be re-invested in the same deposit or paid out.
Nomination	Specify if a nominee is registered or not.
Account Holder	This widget displays the account holder details.
Name	Displays the name of the account holder of the TD.
Customer ID	Displays the customer ID of the holder.
Relationship	Displays relationship as Primary/Secondary.
Mobile Number	Displays the mobile number of the customer.

ORACLE®

Table 2-2   (Cont.) Deposit 360 - Field Description

Field	Description
Email ID	Displays the email ID of the customer.
Account Details	This widget displays the account details.
Customer's Address	Displays the address of the primary customer.
Part Redemption	This option will be selected if part redemption is allowed for the TD product.
Premature Redemption	This option will be selected if premature redemption is allowed for the TD product.
Top up	This option will be selected if a top-up is allowed for the TD product.
Mode of Operation	Displays the mode of operation chosen for the deposit.
Current Principal	Displays the currently remaining principal balance in the deposit.
Initial Pay in	Displays the initial payin done to create the deposit.
Topup Pay in	Displays the subsequent top-ups done.
Redeemed Principal	Displays the principal redeemed in case any premature redemptions have happened.
Maturity Amount	Displays the proceeds that will be paid out on maturity. This value will be net of tax.
Blocked Amount	Displays the total block amount on the deposit.
Interest Paid out or Interest Reinvested	Displays the amount and currency for the reinvested or paid out interest. **Note:** • If the interest if of reinvest type, then the field name is displayed as **Reinvested Interest**. • If the interest if of paid out type, then the field name is displayed as **Paid out Interest**.
Tax Deducted	Displays the tax deducted.
Upcoming Transactions	This widget displays the details of upcoming transactions.
Overdue Transactions	Displays the details of overdue transactions.
Redemption Simulation (As of Today)	This widget displays the remdemption simulation of the day for the TD account. Click the **View Error Details** link to view the error message.
Instructions Set	This widget displays the set of instructions set on the TD account. **Note:** To create new set of instructions for the TD account, click the **Set Instructions** ink. For more information, refer Term Deposit Payout Modification screen.
Recent Transactions	This widget displays the details of the recent transactions performed on the account.

Table 2-2   (Cont.) Deposit 360 - Field Description

Field	Description
<Number> Amount Blocks	This widget displays the amunt block details of the account. **Note:** To manage the amount blocks, click the **Manage Amount Blocks** link. For more information, refer View and Modify Amount Block screen.
<Currency Amount>	Displays the currency and amount of block.
Block <Number>	Displays the block number.
Type	Displays the block type.
Expiry	Displays the expiry date of the block.
Interest Rate Changes	This widget displays the rate changes if any for the interest applied on the account.
Net Rate	Displays the net rate percentage of interest.
<Date>	Displays the date of interest rate change.
Base Rate	Displays the base rate percentage of interest.
Variance	Displays the variance percentage of interest.
Rollover History	This widget displays the rollover history of the account.
<Currency Amount>	Displays the currency and amount of rollover.
<Component>	Displays the rollover component.
<Date>	Displays the from and to date of the rollover.
<Tenure>	Displays the tenure of rollover.
Frequent Actions	This widget displays the frequent actions that were performed on the account. **Note:** The actions are displayed as links. You can click the link and the related screen is opened in a new page.

Note:

- You can also launch the screens for performing various transactions on the account by clicking the **Menu** icon. A list of links displays under various menus. Click the required link from the list that displays. For more information on how to perform the transactions using the links, see the respective chapters. For image reference, see Mega Menu screenshot.

- If the latest updates of the TD account performed is not displayed on the screen, you can refresh the screen by clicking the **Refresh** icon. The screen is refreshed and the latest changes are displayed.

2.3 TD Transactions

You can use the screens under the **Transactions** menu to initiate deposit services transactions. A deposit with a fixed tenure or term is called as time deposit or Term Deposit (TD). This chapter deals with transactions of a term deposit.

This topic contains the following subtopics:

*   Term Deposit Account Opening
    You can open a Term Deposit account and simulate its creation by providing funds from Account, and Ledger modes or a combination of Account and Ledger modes.

*   Top Up
    You can perform a TD top-up transaction using this screen.

*   Redemption
    Redeem a Term Deposit using the **Term Deposit Redemption** screen. The redemption proceeds can be credited to Current and Savings Account, New Term Deposit, Banker's Cheque, Demand Draft, or Ledger. The user can redeem the Term Deposit in full or in part.

2.3.1 Term Deposit Account Opening

You can open a Term Deposit account and simulate its creation by providing funds from Account, and Ledger modes or a combination of Account and Ledger modes.

> **✎ Note:**
>
> The fields marked as **Required** are mandatory.

1. On the **Homepage**, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Transactions**, click **Account Opening**, or specify **Term Deposit Account Opening** in the search icon bar and select the screen.

    The **Term Deposit Account Opening** screen is displayed.

    Figure 2-4   Term Deposit Account Opening

2. On the **Term Deposit Account Opening** screen, specify the customer number in the **Customer ID** field, and press **Enter** or **Tab**.

In the **Term Deposit Account Opening** screen, all available TD account deposit accounts are displayed by the system.

Table 2-3   Term Deposit Account Opening – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.

No nominee added for the deposit account

8. On **Term Deposit Account Opening** screen, the user will be able to create new TD in two methods.

   They are as follows:

   • Copying the existing account to create new deposit

   • Selecting the product to create new deposit.

   The two methods are explained in the below steps.

9. Click **Copy** icon in the existing account tile, to copy the existing details of an acccount.

   On copying the account, the system defaults the Account details (i.e. Deposit Amount, Tenor, Reinvest Interest, Maturity Instruction), Payin Details, Payout Details, Nominee Details, and Joint Holder Details if any. All these details are displayed by default and the user is allowed to modify the value.
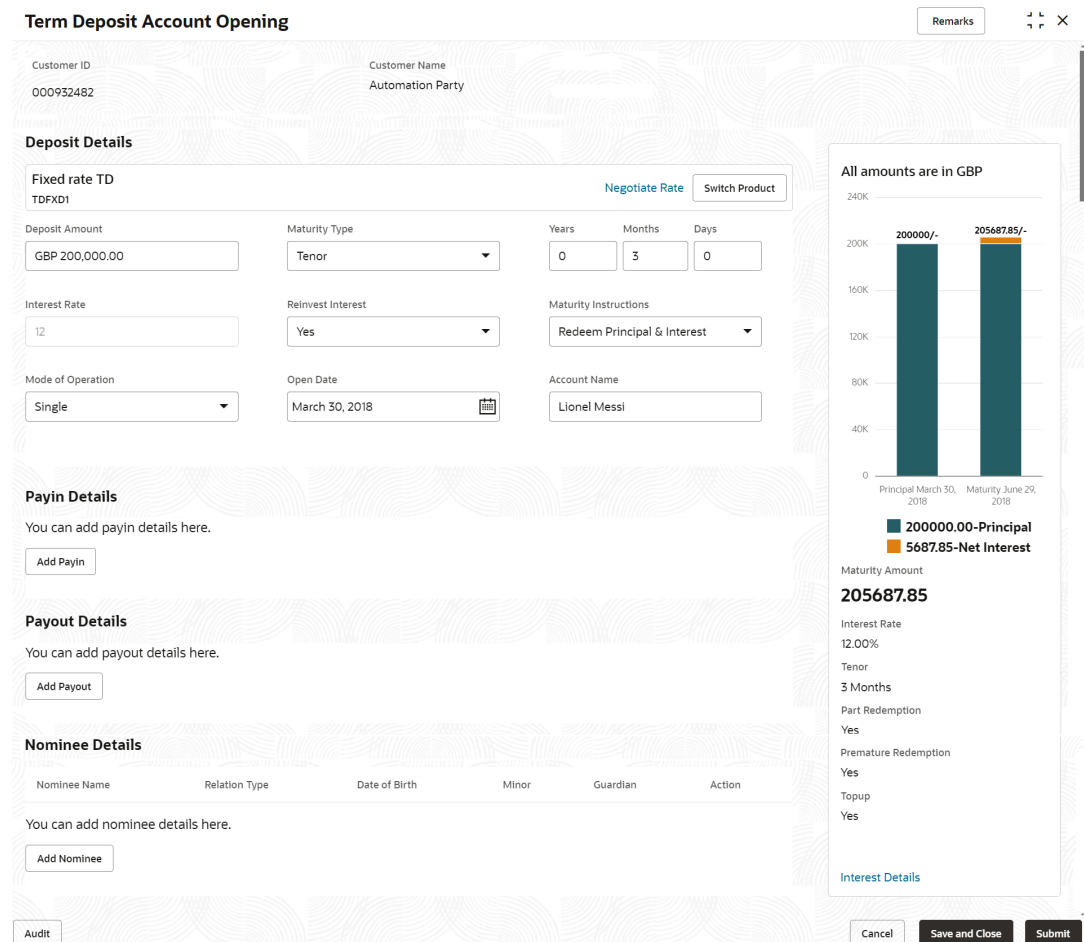

> **✎ Note:**
>
> - The payin details will not be defaulted, if the Payin account is closed or payin GL is not valid for the branch.
> - The payout details will not be defaulted, if account payout mode is other than the account, multi-mode payout, and payout account is closed.
> - For Joint Holder details, the end date will be nullified.
> - Nominee details are nullified, if nominee customer ID is closed.
> - Existing guardian details are nullified, if nominee become major for the new account.

10. On the **Term Deposit Account Opening** screen, select the product to create a new deposit account.

    The **Term Deposit Account Opening** is displayed with the **Deposit Details** fields to specify the details.

Figure 2-9   Term Deposit Account Opening - Deposit Details

11. Perform the required actions on the **Deposit Details** section. For more information on fields, refer to the field description table.

Table 2-6   Term Deposit Account Opening - Deposit Details – Field Description

Field	Description
<Product Name>	Displays the name of the deposit product selected.
<Product Description>	Displays the description of the deposit product selected.
Deposit Amount	When user Specify the deposit amount, the system simulate the maturity amount and interest details based on given deposit amount, defaulted tenor, and account opening date. The tenor opening date and reinvest interest is defaulted.
Maturity Type	Select the option for TD maturity from the drop-down. The options are: • **Tenure**: If you select this option, then specify the tenure for maturity in years, months, and days in the fields displayed adjacent. The tenor maintained at product will be defaulted and the user is allowed to modify it. • **Date**: If you select this option, then specify or select the date.
Interest Rate	Displays the interest rate of the deposit and it is defaulted from the product, when you specified the deposit amount.
Reinvest Interest	Select the option from drop-down for reinvest interest. • Select **Yes** to reinvest the interest in TD. This is the default value. • Select **No** to be paid out the interest. **Note:** If Reinvest Interest is **No**, then the interest paid out account details need to be provided while capturing the payout details.
Maturity Instructions	The product displays its default maturity instructions, which the user can modify. The following maturity instructions are supported. • **Reinvest Interest** is selected as **Yes**: – **Redeem Principal and Interest** – **Rollover Principal and Redeem Interest** – **Special Rollover** – **No Instruction** • **Reinvest Interest** is selected as **No**: – **Redeem Principal** – **Rollover Principal** – **Special Rollover** – **No Instruction** **Note:** – **Rollover Principal and Redeem Interest**, and **Special rollover** are not displayed if rollover is not enabled for the selected product. – The maturity instruction defined at product will be defaulted as maturity instruction and the user is allowed to change it.

Table 2-6   (Cont.) Term Deposit Account Opening - Deposit Details – Field Description

Field	Description
Mode of Operation	Select the mode of operation from the drop-down. The options are: • **Single** • **Jointly** • **Either Anyone or Survivor** • **Former or Survivor** • **Mandate Holder** If the **Mode of Operation** is single, the **Joint Holder Details** will not be displayed.
Opening Date	This date is defaulted as the current branch date and user is allowed to modify it.
Account Name	The Customer name is defaulted as the account name and the user is allowed to modify the name.

If the user wishes to change the selected product before the save/submit operation, click **Switch Product** in the deposit details screen, and the system displays a confirmation message related to clearing the input details. On confirmation, all input details are cleared and the user will navigate to the product selection screen.

12. Click **Negotiate Rate** link, to negotiate the interest rate by modifying the variance.

    The **Negotiate Interest Rate** is displayed.

Figure 2-10   Negotiate Interest Rate

The options are: • **Account** • **Banker's Cheque** • **Demand Draft** **Note:** This field is displayed if **Redeem Principal & Interest**, **Renew Principal & Redeem Interest**, or **Special Amount Renewal** option is selected from the **Maturity Instructions** field.
Select Account Number	Select the type of account. **Note:** This field is displayed if **Account** option is selected from the **Maturity Payout Mode** field.
Account Number	Select the Current and Savings Account number. **Note:** This field is displayed if **Others** option is selected from the **Account** field.
Account Name	Displays the account name upon account number selected.
Payable Branch Code	Select the banker's cheque payable branch. **Note:** This field is displayed if **Banker's Cheque** or **Demand Draft** option is selected from the **Maturity Payout Mode** field.

- Perform the required action for payout details with **Reinvest Interest** is selected as **No** in **Deposit Details** section. For more information on fields, refer to the field description table.

Table 2-13   Add Payout Details with Reinvest Interest is No - Field Description

Field	Description
Principal Payout Instruction	Select the principal payout instructions for the deposit. The options are: • **Redeem Principal** • **Renew Principal** • **Special Amount Renewal** • **No Instruction**
Principal Payout Mode	Select the principal payout instructions for the deposit. **Note:** This field is displayed if **Redeem Principal** or **Special Amount Renewal** option is selected from the **Principal Payout Instruction** field.
Select Account Number	Select the type of account. **Note:** This field is displayed if **Account** option is selected from the **Maturity Payout Mode** field.
Account Number	Select the Current and Savings Account account number. **Note:** This field is displayed if **Others** option is selected from the **Account** field.
Account Name	Displays the account name upon account number selected.
Payable Branch Code	Select the banker's cheque payable branch. **Note:** This field is displayed if **Banker's Cheque** or **Demand Draft** option is selected from the **Principal Payout Mode** field.

Table 2-13 (Cont.) Add Payout Details with Reinvest Interest is No - Field Description

Field	Description
Interest Payout Mode	Select the maturity payout mode. The options are: • **Account** • **Banker's Cheque** • **Demand Draft**
Select Account Number	Select the type of account. > ✏ **Note:** > This field is displayed if **Account** option is selected from the **Interest Payout Mode** field.
Account Number	Select the Current and Savings Account account number. > ✏ **Note:** > This field is displayed if **Others** option is selected from the **Account** field.
Account Name	Displays the account name upon account number selected.
Payable Branch Code	Select the banker's cheque payable branch. > ✏ **Note:** > This field is displayed if **Banker's Cheque** or **Demand Draft** option is selected from the **Interest Payout Mode** field.

- Click **Cancel**, to close the **Add Payout Details** screen without adding the payin details.

- Click **Add More**, the system add the payout details in the main screen and refreshes the **Add Payout Details** screen with default values, and the payout amount is updated for the remaining payout amount.

- Click **Add** to add the payout details in the main screen.

17. Click on **Add Nominee**, in the Nominee Details section on the **Term Deposit Account Opening** screen.

    The **Add Nominee Details** screen is displayed.
    For more information about **Add Nominee Details**, refer to the Add Nominee section in the Nominee Details Update.

18. Click on **Add Joint Holder**, in the Joint Holder Details section on the **Term Deposit Account Opening** screen.

The **Add Joint Holder Details** screen is displayed.
For more information about **Add Joint Holder Details**, refer to the Maintain Joint Holder Details section in the Joint Holder Maintenance.

19. After adding the **Add Payin**, **Add Payout**, and **Add Nominee** details, the **Term Deposit Account Opening** screen displays the added information.

Figure 2-18   Term Deposit Account Opening - Added Details

20. Click **Submit**.

The screen is successfully submitted for authorization.

> ✏️ **Note:**
>
> The TD account number is displayed when the TD account creation is successful.

2.3.2 Top Up

You can perform a TD top-up transaction using this screen.

> ✎ **Note:**
>
> The fields marked as **Required** are mandatory.

1. On **Homepage**, from the **Retail Deposit Services** mega menu, under **Term Deposits**, under **Transactions**, click **Top Up**.

   The **Term Deposit Top Up** screen is displayed.

   Figure 2-19   Term Deposit Top Up

2. On the **Term Deposit Top Up** screen, Click the **Search** icon or specify the account number in the **Account Number** field, and press **Enter** or **Tab**.

   The Top Up details are displayed in the **Term Deposit Top Up** screen.

Figure 2-20   Term Deposit Top Up Details

3. In the **Term Deposit Top Up** screen, specify the fields. For more information on fields, refer to the field description table.

Table 2-14   Term Deposit Top Up – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. ✎ **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Status	Displays the TD status. The possible options are: • **Active** • **Matured** • **Closed**
Deposit Details	Displays the principal balance of the TD, the rate of interest, and the tenor of the TD.
Maturity Details	Displays the proceeds due to the customer on maturity and the maturity date.
Reinvested Interest	Displays the amount and currency for the reinvested or paid out interest. ✎ **Note:** • If the interest if of reinvest type, then the field name is displayed as **Reinvested Interest**. • If the interest if of paid out type, then the field name is displayed as **Paid out Interest**.
Tax Deducted	Displays the actual tax deducted on reinvested or paid out interest till date.

ORACLE®

Table 2-14 (Cont.) Term Deposit Top Up – Field Description

Field	Description
Amount	Specify the amount which the customer wants to add to the principal of the TD.
Value Date	Specify the date from which the top-up is to take effect.

* After specifying the amount in the **Amount** field in the **Term Deposit Top Up** screen, the simulated output detail displays on the right side of the screen.

> **Note:**
>
> Computation will be triggered based on the inputs selected and output should be displayed on the panel on the right in a graphical format comparing the current principal, interest, and net proceeds at maturity with what the user would get after the top-up.

For more information on fields, refer to the field description table.

Table 2-15 Top-Up Simulation Details – Field Description

Field	Description
Maturity Amount	Displays the proceeds due to the customer on maturity after taking into consideration the top-up amount.
Interest Rate	Displays the Net interest on the principal (Interest – Tax).
Principal	Displays the total principal of the TD.
Net Interest	Displays the interest net amount.
Top-up Amount	Displays the top-up amount.

* Click the **Interest Details** link in the TD simulation details of the **Term Deposit Top Up** screen.

  The **Interest Details** screen is displayed.

Figure 2-21   Term Deposit Top Up_Interest Details

    The screen is successfully submitted for authorization.

2.4 TD Maintenances

You can maintain the TD account details in this section. A deposit with a fixed tenure or term is called as time deposit or Term Deposit (TD).

This topic contains the following subtopics:

• Term Deposit Amount Block
  You can block the TD amount. A Term Deposit can be blocked for certain amount due to different reasons like collateral to an overdraft, funds provider account during sweep transactions, and so on. Also, the Bank might receive request from any authorized external agencies to block the TD amount.

• View and Modify Amount Block
  You can view or modify the already added block details using this screen.

• Term Deposit Payout Modification
  You can view or modify the payout instructions maintained during the TD account opening using this screen. Also, you can create new payout instruction, if no instructions are maintained for the TD account.

• Term Deposit Account Modification
  You can modify certain attributes of the TD. Also, the account description and interest rates. Based on customer's request or otherwise, you can change the account description or interest rates associated with the account.

• Term Deposit Joint Holder Maintenance
  Term Deposit account can be owned by single holder or multiple owners. This screen can be used for modifying the deposit account's joint holder details. You can either add joint holders for the first time or modify the existing joint holder relationship using this screen.

- **Term Deposit Nominee Details Update**
  You can modify the existing nominee details, add a new nominee, and delete the existing nominee details added to the TD account using this screen.

2.4.1 Term Deposit Amount Block

You can block the TD amount. A Term Deposit can be blocked for certain amount due to different reasons like collateral to an overdraft, funds provider account during sweep transactions, and so on. Also, the Bank might receive request from any authorized external agencies to block the TD amount.

> **Note:**
>
> The fields marked as **Required** are mandatory.

To create amount block:

1. On the **Home** screen, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Maintenance**, click **Create Amount Block**, or specify **Create Amount Block** in the search icon bar and select the screen.

    The **Term Deposit Amount Block** screen is displayed.

    Figure 2-30   Term Deposit Amount Block

2. On the **Term Deposit Amount Block** screen, click the **Search** icon or specify the account number in the **Account Number** field, and press **Enter** or **Tab**.

    The details for the account entered are displayed.

Figure 2-31   Term Deposit Amount Block Details

3. Perform the required actions on the **Term Deposit Amount Block** screen. For more information on fields, refer to the field description table.

Table 2-25   Term Deposit Amount Block – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Amount To Be Blocked	Specify the amount you want to block for the Term Deposit (TD). Note that the currency for the TD will be displayed by default.
Block Reason	Select reason for block from drop-down list.
Effective Date	Specify or select the effective date for the block. **Note:** This date cannot be less than current process date.
Expiry Date	Specify or select the expiry date for the block. **Note:** This date cannot be less than current process date and effective date.
Narrative	Specify the narration, if any for the block.

4. Click **Submit**.

The screen is successfully submitted for authorization.

2.4.2 View and Modify Amount Block

You can view or modify the already added block details using this screen.

> **✎ Note:**
>
> The fields marked as **Required** are mandatory.

To view the amount block details:

1. On the **Home** screen, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Maintenance**, click **View and Modify Amount Block**, or specify **View and Modify Amount Block** in the search icon bar and select the screen.

   The **View and Modify Amount Block** screen is displayed.

  You can add a nominee to a TD account.

- View Nominee Details
  You can view the details of the nominee added to a TD account.

- Edit Nominee Details
  You can edit the nominee details that are already added to a TD account.

2.4.6.1 Add Nominee

You can add a nominee to a TD account.

To add a nominee:

1. In the **Nominee Details** section, click **Add Nominee**.

The **Add Nominee** section is displayed.

Figure 2-53　Add Nominee Details

2. You can maintain the required details in the sections displayed. For more information on fields, refer to the field description table.

Table 2-38   Add Nominee Details – Field Description

Field	Description
Nominee Details	This section displays the fields for capturing the basic nominee details.
Customer ID	Select or specify the customer ID to default the nominee details for the selected customer.
Relationship Type	Select the relationship type with the nominee.
First Name	Specify the nominee's first name.
Middle Name	Specify the nominee's middle name.
Last Name	Specify the nominee's last name.
Date of Birth	Select or specify the nominee's date of birth.

Minor	Displays whether the added nominee is a minor or major based on the date of birth selected or specified.
	
	Note:
	The minor status will be derived based on the minor age limit maintained for the country (the country will be derived from the account holder's communication address).
	Find the below steps to configure minor age validation.
	a. Create a fact for values, State, and Age.
	b. Create a rule for minor age validation with the required state and related age.
	
	`IF`
	
	`((STATE==GB)&&(AGE < 18))`
	
	Output
	
	`Section1 True`
	
	c. Maintain a validation model with model code as **VMMINORAGE** and link the above rule.
	For more information, refer to the *Oracle Banking Common Core User Guide* to create Fact, Rule and Rule Group.

Address Details	This section displays the fields to capture the nominee's address.
Default Account Address	Switch to toggle **ON** to default the account holder's communcation address specified. Switch to toggle **OFF** to not to default the account holder's communcation address specified.
Address Line 1/Building Name	Specify the building of the nominee.
Address Line 2/Street Name	Specify the street of the nominee.

Table 2-38   (Cont.) Add Nominee Details – Field Description

Field	Description
Address Line 3/City/Town Name	Specify the city or town of the nominee.
State	Specify the state of the nominee or click **Search** and select the state from the list of values.
Country	Country is defaulted based on the state selected.
Zip Code	Specify the zip code of the nominee.
Contact Details	This section displays the fields to capture the contact details.
Mobile Number	Specify the mobile number of the nominee.
Email ID	Specify the email ID number of the nominee.

• If the added nominee is a minor, its mandatory to add the guardian details. If required, you can also add gaurdian details for a major by switching to toffle **ON** from the **Add Gaurdian** field in the **Gaurdian Details** section.

Figure 2-54   Add Guardian Details

For more information on fields, refer to the field description table.

Table 2-39   Guardian Details – Field Description

Field	Description
Add Guardian	Switch to toggle **ON** to add guardian details. Switch to toggle **OFF** to not to add the guardian details.
Relationship Type	Select the relationship type with the guardian.
Title	Select a title for the guardian.
First Name	Specify the guardian's first name.
Middle Name	Specify the guardian's middle name.
Last Name	Specify the guardian's last name.
Address Details	This section displays the fields to capture the guardian's address details.
Default Address	Select the default address for the guardian. The options are: – **Nominee**: If you select this option, then the guardian address is defaulted from nominee address. – **Account**: If you select this option, then the account holder communication address is defaulted as guardian's address. **Note:** If requried, you can edit the defaulted address.
Address Line 1/Building Name	Specify the building of the guardian.
Address Line 2/Street Name	Specify the street of the guardian.
Address Line 3/City/Town Name	Specify the city or town of the guardian.
State	Specify the state of the guardian or click **Search** and select the state from the list of values.
Country	Country is defaulted based on the state selected.
Zip Code	Specify the zip code of the guardian.
Contact Details	This section displays the fields to capture the contact details.
Mobile Number	Specify the mobile number of the guardian.
Email ID	Specify the email ID number of the guardian.

Note:

- The system defaults the customer's communication address, and personal details when the nominee details are defaulted from the customer.

- The system defaults the customer's communication address when the nominee or guardian address details are defaulted from the account.

3. Click **Save**.

The nominee details are saved and displayed in the **Nominee Details Update** section.

4. Click **Submit**.

The screen is successfully submitted for authorization.

2.4.6.2 View Nominee Details

You can view the details of the nominee added to a TD account.

To view the nominee details:

1. In the **Nominee Details** section, click the **Edit** icon from the **Actions** field.

   The **Nominee Details** section is displayed.

Figure 2-55   View Nominee Details

2. You can view the required nominee details in the section displayed. For more information on fields, refer to the field description table.

Table 2-40   View Nominee Details – Field Description

Field	Description
Nominee Details	This section displays the details of the nominee.
Customer ID	Displays a customer ID of the nominee.
Relation Type	Displays the type of relationship with the nominee.
Title	Displays a title for the nominee.
First Name	Displays the nominee's first name.
Middle Name	Displays the nominee's middle name.
Last Name	Displays the nominee's last name.
Date of Birth	Displays the nominee's date of birth.
Minor	Displays whether the added nominee is a minor.
Address	Displays the complete address of the nominee.
Mobile Number	Displays the nominee's mobile number.
Email ID	Displays the nominee's email ID.

3. Click **Close**.

2.4.6.3 Edit Nominee Details

You can edit the nominee details that are already added to a TD account.

To edit a nominee:

1. In the **Nominee Details** section, click the **Edit** icon from the **Actions** field.

   The **Edit Nominee** section is displayed.

2. For information on fields and description, refer *Add Nominee*, as the fields in the **Add Nominee** section are same.

3. Click **Save**.

2.5 TD Inquiries

A deposit with a fixed tenure or term is called as time deposit or Term Deposit (TD). This chapter deals with inquiries of a term deposit.

This topic contains the following subtopics:

* Transaction View and Reversal
  You can view the term deposit transaction details and reverse the top-up and redemption related transactions using the **Transaction View and Reversal** screen.

* Certificate
  You can specify a TD account number and generate the deposit certificate and displayed along with an option to email the PDF to the customer's registered email address using the **Certificate** screen. You can also perform this activity based on request from the deposit holder.

* Interest Paid Out Details
  You can inquire about the interest paid out details for a deposit account with a given period.

2.5.1 Transaction View and Reversal

You can view the term deposit transaction details and reverse the top-up and redemption related transactions using the **Transaction View and Reversal** screen.
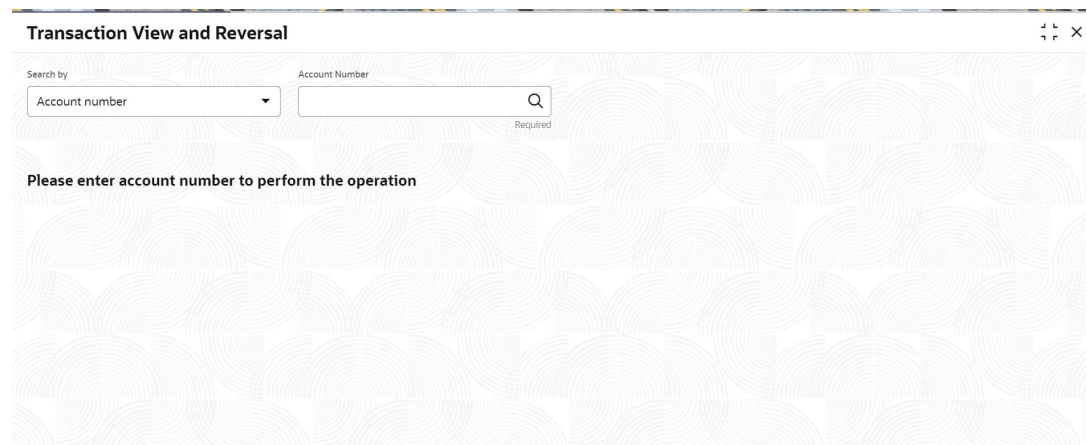

> ✎ **Note:**
>
> The fields marked as **Required** are mandatory.

To view or perfrom transaction reversal:

1. On the **Home**, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Inquiries**, click **Transaction View and Reversal** or specify **Transaction View and Reversal** in the search icon bar and select the screen.

   The **Transaction View and Reversal** screen is displayed.

   Figure 2-56   Transaction View and Reversal

2. On the **Transaction View and Reversal** screen, click the **Search** icon or specify the account number in the **Account Number** field, and press the **Tab** or **Enter**.

3. Select the required details and click **Fetch**.

   The **Transactions Details** section is displayed.

Figure 2-57   Transaction Details of the Account

For more information on fields, refer to the field description table.

Table 2-41   Transaction View and Reversal – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Select Period	The date criteria are based on which the entries are to be displayed. Below are the options: • **All Transactions** • **Date Range** • **Current Month** • **Current Month Plus Previous Month** • **Current Month Plus Previous 3 Months** • **Current Month Plus Previous 6 Months** **Note:** • If the **All Transactions** option is selected, it displays all the transaction details. This is the default option. • If the **Date Range** option is selected, then you need to select the from and to date from the fields displayed adjacent. • If the **Current Month**, **Current Month Plus Previous Month**, **Current Month Plus Previous 3 Months**, or **Current Month Plus Previous 6 Months** option is selected, then the date range is accordingly defaulted and not enabled.

Table 2-41   (Cont.) Transaction View and Reversal – Field Description

Field	Description
Transaction Details	This section displays the transaction details of the TD account. By default, all the transactions are displayed.
Type to Filter	A pattern filter will get applied to all the fields in the output grid. Whenever a match is found, the rows will become a part of the revised output.
Currency	Displays the currency for the transactions.
Number of Results	Displays the number of results available for the transactions.
Transaction Date	Displays the transaction date.
Description	Displays the description of the transaction.
Debit	Displays the debited amount in the transaction.
Credit	Displays the credited amount in the transaction.
Value Date	Displays the value date of the transaction.
Instrument Number	Displays the instrument number of the transaction.
Reference Number	Displays the reference number of the transaction.
Details	Displays the **Details** icon to view the account transaction details. For more information, refer Transaction Details.
Reversal	Displays the **Reverse** icon to reverse the transaction. For more information, refer Transaction Reversal. **Note:** • This icon is displayed only for redemption and top-up related events. • This icon is not displayed, if the transaction is already reversed.

- **To view transaction details:**
  a. Click the **Details** icon from the **Details** field.

  The transaction and audit details are displayed in respective sections.

Figure 2-58   Transaction Details

For more information on fields, refer to the field description table.

Table 2-42   Transaction and Audit Details – Field Description

Field	Description
Reference Number	Displays the unqiue reference number of the transaction.
Transaction Date	Displays the actual date of the transaction.
Value Date	Displays the value date of the transaction.
Instrument Number	Displays the instrument number related to the transaction.
Account Branch	Displays the branch of the account or GL.
Account/General Ledger Number	Displays the account or GL number of the transaction.
Account Description	Displays the name of the account or GL description.
Account Currency	Displays the currency of the account.
Dr/Cr	Displays whether the transaction is debit or credit.
Account Currency Amount	Displays the amount in account currency.
Local Currency Amount	Displays the amount in local currency.
Amount Tag	Display the amount tag for each leg of the transaction.
Exchange Rate	Displays the exchange rate of the transaction.
Audit Details	This section displays the audit details of the transaction.
Authorized	Displays the status of the authorization of the transaction.
Maker	Displays the maker name of the transaction.
Checker	Displays the checker name of the transaction.
Source System	Displays the name of the source system related to the transaction.

b. Click the **Close** icon, to exit the section.

• **To perform transaction reserval:**

a. Click the **Reverse** icon from the **Reversal** field.

The **Transaction Reversal** screen is displayed.

Figure 2-59   Transaction Reversal

For more information on fields, refer to the field description table.

Table 2-43   Transaction Reversal - Field Description

Field	Description
Account Number	Displays the deposit account number of the transaction.
Account Name	Displays the account name for the account number displayed.
Deposit Details	This section displays the details of the deposit.
Status	Displays the status of the deposit account.
Deposit Details	Displays the details of the certificate of deposit account.
Maturity Details	Displays the current maturity details of the account.
Reinvested Interest	Displays the reinvested interest amount along with currency.
Tax Deducted	Displays the tax deducted amount along with currency.
Deposit Redemption Transaction Details	This section displays the redemtpion transaction details of the deposit.
Reference Number	Displays the unqiue reference number for the redemption transaction.
Transaction Date	Displays the transaction date of the redemption.
Value Date	Displays the value date of the redemption.
Account Branch	Displays the branch where the redepemtion transaction was performed.
Account/General Ledger Number	Displays the account or general ledger number related to the transaction.
Account Description	Displays the description for the account.
Account Currency	Displays the account currency for the transaction.
Dr/Cr	Displays the type of the transaction.
Account Currency Amount	Displays the amount in account currency.
Local Currency Amount	Displays the amount in local currency.
Amount Tag	Displays the amount tag for the transaction.
Exchange Rate	Displays the exchange rate of interest.
Audit Details	This section displays audit details of the transaction.
Maker	Displays the maker name of the transaction.
Checker	Displays the checker name of the transaction.
Source System	Displays the transaction's source system.

b. Click **Submit**.

The transaction is submitted successfully for reversal requrest.

4. Click **Submit**.

The screen is successfully submitted for authorization.

2.5.2 Certificate

You can specify a TD account number and generate the deposit certificate and displayed along with an option to email the PDF to the customer's registered email address using the **Certificate** screen. You can also perform this activity based on request from the deposit holder.
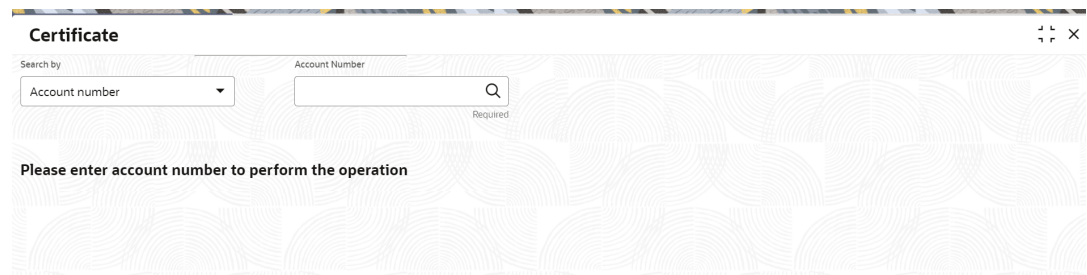

> **Note:**
>
> The fields marked as **Required** are mandatory.

To generate and view the deposit certificate:

1. On the **Home** screen, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Inquiries**, click **Certificate** or specify **Certificate** in the search icon bar and select the screen.

   The **Certificate** screen is displayed.

   Figure 2-60   Certificate

2. On the **Certificate** screen, click the **Search** icon or specify the **Account Number** and press the **Tab** or **Enter** key.

   The deposit summary and certificate is displayed.

Figure 2-61   TD Certificate

3. You can view the certificate. For more information on fields, refer to the field description table.

Table 2-44   Certificate – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. ✎ **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Deposit Details	Displays the deposit currency, amount, interest rate percentage, and tenure.
Maturity Details	Displays the maturity currency, amount, and date.
Status	Displays the current status of the account.
Certificate	This section displays the deposit certificate. ✎ **Note:** If required, you can email the certificate by clicking **Email**.

2.5.3 Interest Paid Out Details

You can inquire about the interest paid out details for a deposit account with a given period.

✎ **Note:**

The fields marked as **Required** are mandatory.

1. On the **Homepage**, from the **Retail Deposit Services** mega menu, under **Term Deposits** and **Inquiries**, click **Interest Paid Out Details** or specify **Interest Paid Out Details** in the search icon bar and select the screen.

   The **Interest Paid Out Details** screen is displayed.

   Figure 2-62   Interest Paid Out Details

2. On the **Interest Paid Out Details** screen, click the **Search** icon or specify the account number in the **Account Number** field, and press **Enter** or **Tab**.

   The system displays interest transaction details for the defaulted start and end date. The Interest transaction details are segregated for each auto renewal period in the lifecycle of the deposit in case any renewal happens for the given date range.

   Figure 2-63   Interest Paid Out Details_Data

   For more information on fields, refer to the field description table.

Table 2-45   Interest Paid Out Details – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the **Search** icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. **Note:** The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Start Date	The Start date is defaulted as the account opening or renewed date in case of rolled over TD and user is allowed to modify the defaulted value. In case of rolled over deposit, the start date will be the new TD start date.
End Date	The end date will default to the current branch date and the user is allowed to modify the defaulted value.
Search	Click this button to search the interest paid out details for a given date range.
Total Interest Amount	Displays the total interest amount for each life cycle of TD and the given date range.
Transaction Date	Displays the transaction date.
Interest Rate	Displays the final interest rate.
Interest Amount	Displays the liquidated interest amount (without deducting tax).
Payout Account	Displays the interest payout account.
Payout Mode	Display interest payout mode , the possible values are Account, Ledger, and Deposit.
Reference Number	Displays the transaction reference number.

3. Click **Close** icon to close the **Interest Paid Out Details** screen.

2.6 Prior Maturity Notices in Deposits

This topic describes the details of prior maturity notices in depositss.

Existing Notice days configuration at the business product level will be used to configure the prior days for notice generation. Notice generation will be applicable for both close-on-maturity and auto-renewal deposits. Basis the configuration, the notice generation will happen 'x' days before the maturity date of the deposit.

The static data for the maturity notices is listed below:

Table 2-46   Factory Shipped list of Facts

Domain	Category	Event	Facts	Fact Description
OBRDEP	NOTICES	TD/CD Maturity	F_CUST_TYPE	Account Customer Type
OBRDEP	NOTICES	TD/CD Maturity	F_CUST_NO	Account Customer Number
OBRDEP	NOTICES	TD/CD Maturity	F_CUST_NAME	Account Customer Name
OBRDEP	NOTICES	TD/CD Maturity	F_ACC_NAME	Account Name

OBRDEP	NOTICES	TD/CD Maturity	F_APY	Transaction Account Annual Percentage Yield

2.7 Business Events in Oracle Banking Retail Deposits

This topic describes the processing of business events in online for Oracle Banking Retail Deposits.

The System has the capability to generate events basis customer initiated or system-initiated actions. The system generates these events related to a customer and their accounts when activities or actions related to the customer or accounts take place that are useful for a service interaction. Some of these generated events are also important to be communicated to customers in a timely manner as per regulations.

The system has the capability to generate and hanover the event with the required details to an external system through Event Delivery Platform (EDP) for their consumption and the external system can use the data handed over for any purpose as deemed necessary. For

example, the external system can use the data for communicating the customer of the event with necessary details.

The following business events is available as follows:

- Create Deposit

- Change in maturity instructions for the deposit account

- Change of payout instructions

- Change in special condition for interest rate

- Topup - Add funds to deposit principal

- Partial/ Full redemption of the deposit.

The static data is factory shipped as part of this release as below.

When the event happens and passes the underlying rule, the system will publish the event with neccessary facts (Data) as shown in the table for the multible third party systems to consume. A single event can be published to multiple consumers.

> **✎ Note:**
>
> Facts and Rules are the key elements for generating the Business Events. Banks can configure the Facts and Rules, with the naming convention specified in the below tables respectively.

State Group Mapping Maintenance	RDEPPP_FA_STATEGROUPMAP_REOPEN	REOPEN	Reopen a closed maintenance of penalty basis

Table A-2   Functional Activity Codes for Term Deposit Servicing Screens

Screen Name/API Name	Functional Activity Code	Action	Description
Deposit 360	DSR_FA_TDCODV_VIEW	Query Details	View the Deposit 360 details.
Account Opening	DSR_FA_TDPYIN_SAVE	Initiation	Initiate the deposit account opening.
Account Opening	DSR_FA_TDPYIN_AUTH	Authorization	Approve or Reject the deposit account opening request.
Top Up	DSR_FA_TDTPUP_SAVE	Initiation	Initiate the deposit top up.
Top Up	DSR_FA_TDTPUP_AUTH	Authorization	Approve or Reject the deposit top up request.
Redemption	DSR_FA_TDREDM_SAVE	Initiation	Initiate the deposit redemption.
Redemption	DSR_FA_TDREDM_AUTH	Authorization	Approve or Reject the deposit redemption request.
Create Amount Block	DSR_FA_CRTDBK_SAVE	Initiation	Initiate the deposit create amount block.
Create Amount Block	DSR_FA_CRTDBK_AUTH	Authorization	Approve or Reject the deposit create amount block request.
Modify Amount Block	DSR_FA_MOTDBK_SAVE	Initiation	Initiate the deposit modify amount block.
Modify Amount Block	DSR_FA_MOTDBK_AUTH	Authorization	Approve or Reject the deposit modify amount block request.
View Amount Block	DSR_FA_TDAMBK_VIEW	Query Details	View the deposit amount block.
Close Amount Block	DSR_FA_CLTDBK_SAVE	Initiation	Initiate the close amount block.
Close Amount Block	DSR_FA_CLTDBK_AUTH	Authorization	Approve or Reject the close amount block request.
Payout Modification	DSR_FA_TDPOMN_SAVE	Initiation	Initiate the payout modification.
Payout Modification	DSR_FA_TDPOMN_AUTH	Authorization	Approve or Reject the payout modification request.
Account Modification	DSR_FA_TDACMN_SAVE	Initiation	Initiate the account modification.
Account Modification	DSR_FA_TDACMN_AUTH	Authorization	Approve or Reject the account modification.
Joint Holder	DSR_FA_UPJHTD_SAVE	Initiation	Initiate the Joint Holder maintenance.
Joint Holder	DSR_FA_UPJHTD_AUTH	Authorization	Approve or Reject the joint holder maintenance.
Beneficiary	DSR_FA_UPNMTD_SAVE	Initiation	Initiate the beneficiary details update.
Beneficiary	DSR_FA_UPNMTD_AUTH	Authorization	Approve or Reject the beneficiary details update request.
Account Transactions View	DSR_FA_TDACTN_VIEW	Query Details	View deposit account transactions.
Reverse Transaction	DSR_FA_TDTRNREVR_SAVE	Initiation	Initiate deposit transaction reversal.

Table A-2 (Cont.) Functional Activity Codes for Term Deposit Servicing Screens

Screen Name/API Name	Functional Activity Code	Action	Description
Reverse Transaction	DSR_FA_TDTRNREVR_AUTH	Authorization	Approve or Reject the deposit transaction reversal request.
Certificate	DSR_FA_TDCERT_VIEW	Query Details	View the deposit certificate.
Interest Paid Out Details	DSR_FA_TDINPO_VIEW	Query Details	View deposit interest paid out details.

B

Error Codes and Messages

This topic contains error codes and messages found while using Oracle Banking Retail Deposits Service.

Table B-1   List of Error Codes and Messages

Error Code	Error Message
RDEP-ACC-001	Interest Rate Based on Cumulative Amount should be Y or N
RDEP-ACC-002	Continue Variance on Rollover should be Y or N
RDEP-ACC-003	Maturity Instruction not provided
RDEP-ACC-004	Auto rollover should not be selected if the deposit is close on maturity
RDEP-ACC-005	Duplicate Records For UDE Effective Date for the given UDEVAL Combination
RDEP-ACC-006	For independent deposit tenor preference, tenor cannot be blank
RDEP-ACC-007	If Move Interest to unclaimed is checked, Move principal to unclaimed also should be checked
RDEP-BLK-001	No operation is allowed in Amount Block type Account
RDEP-BLK-002	Expiry Date cannot be in the past
RDEP-BLK-003	Expiry Date cannot be less than Effective Date
RDEP-BLK-004	Effective date cannot be in the past
RDEP-BLK-005	System has defaulted the Effective Date to Today
RDEP-BLK-006	Certificate Blocked amount not equal to total block amount
RDEP-BLK-007	Blocked Amount Value cannot be less than or equal to zero
RDEP-BLK-008	Blocked amount cannot be greater than the available balance for TD accounts
RDEP-BLK-009	Amount Block type as Loan cannot be processed
RDEP-BLK-010	Account Number cannot be modified
RDEP-BLK-011	Amount block not released
RDEP-BLK-012	Online amount block cannot be modified
RDEP-BLK-013	Amount block of type Sweep Deposit can be only queried
RDEP-BLK-014	Amount Block Effective Date cannot be in Past
RDEP-BLK-015	Only Maker can delete the Amount Block
RDEP-BLK-016	Amount block is already authorised
RDEP-BLK-017	Amount Block is already closed
RDEP-BLK-018	Amount Block is unauthorized, cannot close
RDEP-COM-001	Unhandled Exception
RDEP-COM-002	Record not found
RDEP-COM-003	Authorized record cannot be deleted
RDEP-COM-004	Request Validation Failure
RDEP-COM-005	Both Percentage or Payin Amount cannot be null
RDEP-COM-006	Account Balance is Negative

Table B-1   (Cont.) List of Error Codes and Messages

Error Code	Error Message
RDEP-COM-007	User restricted to query or modify this Account
RDEP-COM-008	TD Payout Details not provided
RDEP-COM-009	Both Percentage and Payout Amount cannot be blank
RDEP-COM-010	Payout Component not specified in the Payout Details
RDEP-COM-011	Failed to Query Data
RDEP-COM-012	Successfully Saved
RDEP-COM-013	Branchcode should be same as TD Payin branch
RDEP-COM-015	Multimode pay option cannot be blank
RDEP-COM-016	Pay in Option for TD cannot be blank
RDEP-COM-017	Both multi mode percentage and multimode td amount should not be null
RDEP-COM-018	Failed to get business product details
RDEP-COM-019	Multimode td amount cannot be negative or zero
RDEP-COM-020	Duplicate Record Found
RDEP-COM-021	Maker Cannot Authorize the Record
RDEP-COM-022	Maturity amount Service Processed Successfully
RDEP-COM-023	Maturity amount Service Processing Failed
RDEP-COM-025	Maturity Date cannot be less than or equal to Account Open Date
RDEP-COM-026	No payin details entered
RDEP-COM-027	Failed to Save
RDEP-COM-028	$1 cannot be null
RDEP-COM-029	$1 is mandatory
RDEP-COM-030	Invalid $1
RDEP-COM-031	Invalid Value For The Field $1
RDEP-REDM-001	Redemption Mode is Incorrect
RDEP-REDM-002	Redemption Amount is Mandatory when Redemption mode is partial
RDEP-REDM-003	Redemption amount is negative
RDEP-REDM-004	Incorrect Redemption Interest Payout
RDEP-REDM-005	Waive Interest is allowed only for Full Redemption
RDEP-REDM-006	Total Amount Should be Equal to Redemption Amount
RDEP-REDM-007	Payout Amount is not equal to Redemption Amount
RDEP-REDM-008	Available balance is lesser than redemption Amount
RDEP-REDM-009	Redemption Authorization is pending on this Account
RDEP-REDM-010	Redemption deleted successfully
RDEP-REDM-011	Failed to delete redemption
RDEP-REDM-012	TD Currency not same as Redemption currency
RDEP-ROLL-001	Only matured accounts can be renewed
RDEP-TOP-001	Authorization pending for the previous Top-up on this account
RDEP-TOP-002	Multimode Amount is not equal to Topup Amount
RDEP-TOP-003	Top-Up is not allowed for Discounted Deposit
RDEP-TOP-004	Top-Up not allowed for the account before completing block duration as on account open date

Table B-1   (Cont.) List of Error Codes and Messages

Error Code	Error Message
RDEP-TOP-005	Top-up value date cannot be future dated
RDEP-TOP-006	Top up can be back value dated only up to the value date $1 of the last financial transaction
RDEP-TOP-007	Top-up value date cannot be before account open date
RDEP-TOP-008	Top-up cannot be done for Future dated TDs
RDEP-TOP-009	TD currency not matching Top up currency
RDEP-TOP-010	Topup amount cannot be zero
