This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Purpose

This guide is designed to help user quickly get acquainted with the features and functionality of **Oracle Banking Accounts Retail Cloud Service**. It provides an overview to the product and the steps involved in the creation and the maintenance of Retail Accounts.

Before You Begin

User Can refer the guide **Getting Started with Oracle Banking Cloud Service** for common elements, including Symbols and Icons, Conventions Definitions, and so forth.

Module- Prerequisite

Specify **User Name** and **Password**, and login to **Home** screen.

Module Definitions

Business Product

User can classify the customer accounts of the bank into different groups and assign each group an identifying code

Amount Block

An amount block is that part of the balance in a customer's account, which is reserved for a specific purpose.

Audience

This user guide is intended for the following end Users / User Roles in a Bank:

Table User Roles

User Role	Functions
Back Office Clerk	Input functions for contracts
Back Office Managers/Officers	Authorization functions
Product Managers	Product definition and authorization
End of Day Operators	Processing during End of Day/ Beginning of Day
Financial Controller/Product Managers	Generation of reports

Basic Actions

This topic describes about basic actions that can be performed on a screen.

Table Basic Actions

Action	Applicable Stages	Description
Approve	Approval	The system displays a section where approval remarks if any can be input. Click OK to submit. The transaction is sent to the Host system through <i>Oracle Banking Routing Hub</i> . The Host system validates the transaction again and the transaction is created if all the validations are successful. If the transaction fails, the transaction is moved to Handoff retry stage, and user can view the error message. In this stage, the authorizer can retry or reject the transaction. On reject, the transaction is sent back to the maker to modify or delete it.
		Note : The maker checker validation will be provided if the same maker tries to approve the transaction.
Audit	Initiation, Approval, and Hand off Retry	Audit details provide the logs of users who have acted on the transaction, the transaction date, and the time for all stages that the transaction has passed through.

Table (Cont.) Basic Actions

Action	Applicable Stages	Description	
Auto Authorizatio n	Initiation	Auto authorization can be configured for the branch servicing screens by creating a Rule based on life cycle code. The steps to create the Auto authorization as follows:	
		Create the fact value as LIFECYCLECODE.	
		Create Rule to enable Auto authorization for any servicing screen and add the expression in Rule for that screen's lifecycle code. While creating a Rule the product processor should be given as DEPOSIT and fact should be selected as LIFECYCLECODE. For Example:	
		IF (LIFECYCLECODE == TDPOMN)	
		output	
		Section1 LEVEL:0	
		3. Create or modify a Rule Group with Name ApprovalRuleGroup and map the Rule(s) created in the step (2).	
		Note You can define one single Rule for all the screens and add the expression for the life cycle code or you can define individual Rule for each screen and map to the Rule group.	
		Note : For more information, refer to the <i>Oracle Banking Common Core User Guide</i> to create Fact, Rule and Rule Group.	
Back	Initiation, Approval, and Hand off Retry	In case the user missed to specify or need to modify the details in the previous segment, click to navigate to the previous segment.	
Cancel	Initiation, Approval, and Hand off Retry	Cancel operation cancels the transaction input midway without saving any data. The user is alerted that the input data would be lost before confirming the cancellation.	
Change Log	Approval	When the authorizer clicks on the Change Log button, the system displays the changes made to the transaction in a pop-up window. By default, the change log is set to display only modified values. The Change Log button has two options, they are, All and Updated . The All button displays both modified and non-modified fields and the Updated button displays only the modified fields. The old and new values are displayed so that the authorizer can compare or verify the values and decide on further action. Also, the new values appear is red for easy recognition.	
Close	Initiation, Approval, and Hand off Retry	Users can close the transaction input screen. The system displays a warning message to the user that any unsaved data would be lost. User can either choose to ignore the message and close the screen or choose to Save and Close the transaction.	

Table (Cont.) Basic Actions

Action	Applicable Stages	Description
Delete	Initiation	Delete operation deletes the transaction without saving any data. The user is alerted that the input data would be lost before confirming the deletion.
Document	Initiation, Approval, and Hand off Retry	The maker of the transaction can click on Document to upload documents that are relevant to the transaction. Once uploaded, the documents are available for viewing during authorization or by the maker.
Host Error	Hand Off Retry	Hand off Retry comes into use whenever a transaction input from the mid-office system fails authorization due to Host System rejection. The authorizer of the transaction can view the reason for Host rejection and take appropriate action.
i icon	Initiation, Approval, and Hand-off Retry	To view the Customer details such as the photograph, signature, customer ID, Account Branch, and balance, the i icon is used. The i icon becomes active once the maker of the transaction inputs the account number and tabs out of the field. The i icon is useful to inquire customer information about both the debit and the credit account numbers.
Maximize	Initiation, Approval, and Hand off Retry	User can maximize the transaction input screen.
Minimize	Initiation, Approval, and Hand-off Retry	Users can minimize the transaction input screen. When the screen is minimized, it appears as to a separate tab within the same web page.

Table (Cont.) Basic Actions

Action	Applicable Stages	Description
Multi-Level Authorizatio n	Initiation	Multi-level authorization can be configured for the branch servicing screens by creating a Rule based on life cycle code. The steps to create the Multi-level authorization as follows:
		Create the fact value as LIFECYCLECODE.
		Create Rule to enable Multi-level authorization for any servicing screen and add the expression in the Rule for that screen's lifecycle code. While creating a Rule the product processor should be given as DEPOSIT and fact should be selected as LIFECYCLECODE. For Example:
		IF (LIFECYCLECODE == TDPYIN)
		output
		Section1 LEVEL:1~DSR_FA_TDPAYIN_AUTH, LEVEL:2~DSR_FA_TDPAYIN_AUTH
		(i) Note
		If customer wants to use separate Functional Activity Code for each Level then Rule output need to be define like
		LVELE:1~ <functional_activity_code1>, LVELE:2~<functional_activity_code2></functional_activity_code2></functional_activity_code1>
		3. Create or modify a Rule Group with name ApprovalRuleGroup and map the rule(s) created in the step (2).
		① Note
		You can define one single rule for all the screens and add the expression for the life cycle code or you can define individual rule for each screen and map to the rule group.
		Note : The maker checker validation will be provided if the same maker tries to authorize the single or multi-level approval tranaction.

Table (Cont.) Basic Actions

Action	Applicable Stages	Description
Overrides	Initiation, Approval, and Hand-off Retry	If override messages had appeared during initiation stage and they were accepted by the maker during submission, the Overrides button appears in the Initiation screen if the transaction is subsequently rejected by the authorizer.
		On the Override Details section, click Decline to go back to the transaction screen to modify or cancel it, or click Accept to complete the initiation stage and move the transaction to the approval stage. The Overrides button is displayed in the Approval and Hand-off retry stage if there were any override messages generated during initiation and accepted by the maker. When the Overrides button is clicked, the system displays the overrides accepted by the maker.
		After verifying the transaction and override details, the authorizer can either approve or reject the transaction. Existing Approve Transaction section is modified to display the overrides if any overrides are raised during the initiation submits.
Reject	Approval, and Hand off Retry	When an authorizer chooses to reject a transaction, the Reject icon is used. The system displays a pop-up screen to capture the Rejection remarks if any. Click OK for the transaction to be routed back to the initiation stage. Subsequently, the maker can modify or delete the transaction details.
Remarks	Initiation, Approval, and Hand-off Retry	Remarks can be used either by the maker or the authorizer of the transaction to optionally capture useful information about the transaction.
Reset	Hand off Retry	The reset button clears all the details displayed on the screen and allows input or selection of a different customer number.
Retry	Hand off Retry	The possibility of retrying a transaction arises when transaction input from the mid-office system fails authorization due to Host System rejection. Such host-rejected transactions will be present in the Hand off Retry queue in the Task Wizard. The Retry option is available only to the authorizer. Upon Retry, the transaction is sent to the host once again through Oracle Banking Routing Hub. Optionally, the authorizer can also Reject the transaction in which case it is routed back to the maker.
Save and Close	Initiation	In case a transaction has to be closed midway due to a lack of sufficient information, the maker of the transaction can choose this option. On Save and Close , the input details are saved and the transaction screen is closed. Saved transaction details will be available in My task . Users can select the transaction from My Task and proceed with the transaction or delete it.
Submit	Initiation	After submitting the initiation stage, the system validates the transaction with the host and displays the errors or overrides if any. In case of an error, you can modify and resubmit or cancel the transaction. In case of an override, you can modify and resubmit or proceed with the transaction by accepting the overrides.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Module Postrequisite

Once done with Account Configuration, User should Logout by clicking logout at the right corner.

Configurations

This topic describes about the following **Configurations** that helps the user to maintain the account with the preferences.

Business Product

User can classify the customer accounts of the bank into different groups and assign each group an identifying code. Each group is referred to as an **Business Product**

Test Simple Account Creation

This topic describes the account opening with minimal data input in the screen.

Joint Holder Type

Joint accounts are accounts that are shared between two or more individuals. They can be operated either singly or jointly. The Customer can be the sole owner of the account or it can be held jointly.

Relationship Type

This configuration helps the user to maintain the different relationship types applicable. For instance, In the joint account case, the joint holder's relationship with the primary holder can be maintained as part of the configuration.

1.1 Business Product

User can classify the customer accounts of the bank into different groups and assign each group an identifying code. Each group is referred to as an **Business Product**

For example, user may define a group called **SAVREG** for regular savings accounts, **WLTSAV** for wealth management saving accounts.

Business Product is maintained in the **Business Product** screen. For each class, user also define certain common fields applicable to the accounts in this class such as, the General Ledger lines to which the accounts in this class report to facilities granted to the account holders (Check Book, ATM, Limits, and so on).

The various features of a business product are captured across the following sub-screens covered as subtopics.

- Basic Details
- Preferences
- Features
- Statement Preferences
- Interest
- Charges
- Limits
- Overdraft Parameters
- Status Rule Definition
- GL Reporting Details

- MIS Details
- Balance Parameters
- Restrictions

This topic contains the following sub-topics:

Create Business Product

This topic describes the systematic instructions to create business product. The maintenance screen allows the user to configure business product parameters.

View Business Product

This topic explains the systematic instructions to view the list of configured business product parameters.

1.1.1 Create Business Product

This topic describes the systematic instructions to create business product. The maintenance screen allows the user to configure business product parameters.

- On Home screen, under Menu, click Retail Account Configurations. Under Retail Account Configurations, click Business Product.
- 2. Under Business Product, click Create Business Product.

The Create Business Product screen displays.

Figure 1-1 Create Business Product - Basic Details

The fields marked as **Required** are mandatory.

3. Specify the fields on the **Basic Details** screen.

Table 1-1 Basic Details - Field Description

Field	Description
Product Code	Specify the six digit alpha numeric unique product code for the creation of accounts.
Description	Specify the brief description of the business product.
Account Type	Select the type of the account from the drop-down list. The available options are: • Savings
	Current
	The default value is Savings .
Account Code	As per your bank's requirement, you can choose to classify business products into different account codes. The bank can decide the way the business products are to be assigned to different account codes. The business product or an account code can be part of the customer account mask.
	If the customer account mask consists of an account code, the value in this field is replaced in the account number.
Validity	Specify the validity period of the business product by specifying the start date and the end date. Note: End date is optional.

4. After specifying the fields in the **Basic Details** screen, click **Next**.

The **Preferences** screen displays.

Figure 1-2 Create Business Product - Preferences

(i) Note

The fields marked as **Required** are mandatory.

5. Specify the fields on **Preferences** screen.

Table 1-2 Preferences - Field Description

Field	Description
ATM Required	Switch this toggle ON , if you need to avail the ATM facility for the accounts belonging to that business product. The default value is OFF .
Passbook Required	Switch this toggle ON whether passbook is required or not for the account under the business product. The default value is OFF .
Check Book Required	Switch this toggle ON whether check book is required or not for the account under the business product. When it is cleared, the preference is disabled for the account. The default value is OFF .
Auto Reorder of Check Book	Switch this toggle ON whether check book should be replenished automatically when check leaves are getting exhausted. Note: This option appears only if Check Book Required option is toggle ON .
Reorder Level	Specify the threshold for auto reorder of check book.
Reorder Number of Leaves	Specify the number of leaves to be issued with the check book.
Direct Banking Required	Switch this toggle ON whether direct banking is required for accounts under the business product. The default value is OFF .
	Once it is enabled, an Add icon and the related fields are displayed.
	 Click Add icon to add a direct banking channel details. A new row is added with the below fields. Action - Click the Delete icon to delete the added details. Banking Channel - Banking channels maintained in Static Type Maintenance are listed here as permissible channels for the business product. Channels include Internet Banking, Interactive Voice Response, Mobile, ATM, Credit Card and so on. Channel Name - This field indicates the name of the banking channel. For example, ATM is the banking channel name for
	Automated Teller Machine.
	Remarks - Capture if any remarks for the channel.

Table 1-2 (Cont.) Preferences - Field Description

Field	Description
Auto Closure of Account Parameters	Switch this toggle ON whether to auto close an account basis balance maintained in an account over a defined period. The default value is OFF .
	Once it is enabled, an Add icon and the related fields are displayed.
	Click Add icon to add a direct banking channel details. A new row is added with the below fields.
	Currency - Specify the applicable currencies from the list of values.
	Threshold Amount - Specify the amount for the corresponding currency selected. This amount is configured together with the threshold days for auto-account closure. This can be any value greater than or equal to 0.
	Threshold Days - Specify the number of days of maintaining the configured threshold amount as account balance basis which the system would pick an account under the business product for automatic account closure process.
	Balance Transfer GL - The user can select the GL account to which the balance (if any) needs to be moved to auto closing the account.
	Action - To edit the values in a row or delete the added row.
	Note: An accounts with draft balance (negative balance) are not considered for auto closure of Accounts. As per adopted banking practices, Closing of Accounts with trivial negative balances (Debit), will be treated as write-off and this will be carried out with proper approvals from Credit Committee of Board. Once the approvals are obtained, the relevant asset monitoring department will pass accounting entries by debiting Profit and Loss Statement, and Credit the Account with Debit balances. Once these accounts become zero, they will be picked for auto closure after the threshold days.

6. After specifying the fields in the Preferences screen, click Next.

The **Features** screen displays.

Figure 1-3 Create Business Product - Features

7. Specify the fields on **Features** screen.

Table 1-3 Features - Field Description

Field	Description
Limit Check Required	Switch this toggle ON to indicate that the limit check for sufficient availability of funds are made for the accounts belonging to this business product. The default value is OFF .
Available Balance Check Required	Switch this toggle ON to enable the system to check for the available funds before posting a debit entry to a customer account. The default value is OFF .
Defer Balance Update For Debit	Switch this toggle ON to defer the balance update. If Defer Balance Update for Debit is selected, then the balance after debit transactions will be updated during EOD. The default value is OFF .
Defer Balance Update For Credit	Switch this toggle ON to defer the balance update for credit transactions. If Defer Balance Update For Credit is selected, then the balance after credit transactions will be updated during EOD. The default value is OFF .
IBAN Required	Switch this toggle ON , if IBAN is required for the business product. The default value is OFF .
Multi Currency Allowed	Switch this toggle ON , to hold the different currencies under a single bank account.
Currencies	Select the Currencies from the list of values provided. This field is enabled only when the Multi Currency Allowed option is toggled ON .
Enable Sweep-in	Switch this toggle ON , if overdraft protection/sweep-in is applicable for accounts under this business product. The default value is OFF .

Overdraft Protection/Sweep-in:

Banks offer Overdraft Protection/Sweep-in as a service which safeguards customers from having their debit transactions dishonored or rejected due to insufficient funds in their Checking or Savings account. When such an instance occurs, the customer pulls an amount from another linked savings/checking account(s) to cover the shortfall.

The linked account(s) is called the provider account and the account for which the funds are being pulled is called the beneficiary account.

Multiple sweep provider accounts can be set up for a beneficiary account with a priority assigned to them.

(i) Note

When a transaction is initiated on an account with a sweep setup, if the balance is insufficient, only the available balance of the sweep funding account is used to validate the balance and complete the transaction.

After specifying the fields in the **Features** screen, click **Next**.

The **Statement Preferences** screen displays.

Figure 1-4 Create Business Product - Statement Preferences

Specify the fields on the Statement Preferences screen.

For more information on fields, refer to the field description table below.

Table 1-4 Statement Preferences - Field Description

Field	Description
Statement Type	Specify the type of account statement. The options are: None
	Summary
	• Detailed
Start Date	Select the start date of the account statement.
Frequency	Select the frequency of the account statement.
Statement Format	Specify the format in which the account statement should be generated. Click Search icon to view and select the required statement format. This field is available only when the Statement Type is selected as Summary or Detailed .

Validations

When the **Cycle** is selected as follows:

- **Monthly** the list of value displays value from **1** to **31**. This shows the day of the month for statement generation.
- Weekly the list of value displays value from Sunday to Saturday.
- Fortnightly the list of value displays value from Sunday to Saturday.
- Quarterly the list of value displays value from January to December.
- **Semi Annual** the list of value displays value from **January** to **December**.
- Annual the list of value displays value from January to December.
- **10.** After specifying the fields in the **Statement Preferences** screen, click **Next**.

The **Interest** screen displays.

To calculate interest for an account, you must apply an interest product code on the account. To recall, every interest product code that you create is linked to an interest rule. The logic to calculate interest is built into an interest rule. When you apply an interest

product code on the account, interest for the account will be calculated according to the interest rule definition.

The interest rule that is linked to the product(s) will determine the interest that is applied on the account. You may want to apply more than one interest product code on an account. For example, you may want to pay credit interest on the credit balance maintained in a current account and levy a debit interest if the account lapses into a debit balance. In order to achieve this, you would have to apply two product codes (one defined for credit interest and another defined for debit interest). In this screen, you can choose the interest product codes that you want to apply on the account.

Currency	Click Search icon to view and select the required currency of an account to be opened.
Address Type	This field indicates the type of an address. The address types are Communication or Residential .
Address Line1/Building Name	Specify the building name.
Address Line2/Street Name	Specify the street name.
Address Line3/City/Town Name	Specify the town or city name.
State	Specify the state name.
Country	Specify the country name.
Zip Code	Specify the zip code.

(i) Note

- This screen is only for creating Accounts in the Host (OBA) for Testing in the UAT phase by the Bank's Testing SMEs.
- The Functional Activity Codes for this screen should not be assigned to the Bank's front office business roles, as this screen is not intended to perform business functions from the branch.
- There will be no additional enhancements to this screen in terms of features.
- The only purpose of this screen is to open single holder accounts, specifically Single Accounts. Any other actions related to an account must be handled through Branch Servicing screens.
- Integrations with any third-party applications for conducting KYC checks or any functions performed in the Origination Process Flow are excluded from the scope of this screen.
- After specifying all the details, click Save to complete the steps. Or, click Cancel to exit without saving.

1.2.2 Process to View Test Simple Account

This topic describes the systematic instructions to view the list of an accounts created.

- 1. On Home screen, under Menu, click Retail Account Configurations. Under Retail Account Configurations, click Test Simple Account Creation.
- 2. Under Test Simple Account Creation, click Test Simple Account View.

The **Test Simple Account View** screen displays.

Figure 1-26 Test Simple Account View

For more information on fields, refer to the field description table below.

Table 1-21 Test Simple Account View - Field Description

	_
Field	Description
Customer Number	Displays the customer number.
Account Number	Displays the account number.
Account Name	Displays the account name.
Authorization Status	Displays the authorization status of the record. The available options are: • Authorized • Unauthorized
Record Status	Displays the status of the record. The available options are: Open Closed
Modification Number	Displays the number of modifications performed on the record.

1.3 Joint Holder Type

Joint accounts are accounts that are shared between two or more individuals. They can be operated either singly or jointly. The Customer can be the sole owner of the account or it can be held jointly.

This topic contains the following sub-topics:

- <u>Create Joint Holder Type</u>
 This topic explains the systematic instructions to create joint holder type.
- <u>View Joint Holder Type</u>
 This topic describes the systematic instructions to view the list of configured joint holder types.

1.3.1 Create Joint Holder Type

This topic explains the systematic instructions to create joint holder type.

 On Home screen, under Menu, click Retail Account Configurations. Under Retail Account Configurations, click Joint Holder Type.

Under Joint Holder Type, click Create Joint Holder Type.

The Create Joint Holder Type screen displays.

Figure 1-27 Create Joint Holder Type

3. Specify the fields on **Create Joint Holder Type** screen.

For more information on fields, refer to the field description table below.

Table 1-22 Create Joint Holder Type - Field Description

Field	Description
Joint Holder Type Code	Specify the joint holder type code which should be an unique alpha numeric code.
Description	Specify the description of the joint holder type. For Example: Guardian, Custodian, etc.

 After specifying all the details, click Save to complete the steps. Or click Cancel to exit without saving.

1.3.2 View Joint Holder Type

This topic describes the systematic instructions to view the list of configured joint holder types.

- 1. On Home screen, under Menu, click Retail Account Configurations. Under Retail Account Configurations, click Account Holder Role.
- 2. Under Joint Holder Type, click View Joint Holder Type.

The View Joint Holder Type screen displays.

Figure 1-28 View Joint Holder Type

For more information on fields, refer to the field description table below.

Table 1-23 View Joint Holder Type - Field Description

Field	Description
Joint Holder Type Code	Displays the account holder role code.
Description	Displays the description of the joint holder type code.
Authorization Status	Displays the authorization status of the record. The available options are: • Authorized • Rejected • Unauthorized
Record Status	Displays the status of the record. The available options are: Open In Progress Closed
Modification Number	Displays the number of modifications performed on the record.

1.4 Relationship Type

This configuration helps the user to maintain the different relationship types applicable. For instance, In the joint account case, the joint holder's relationship with the primary holder can be maintained as part of the configuration.

This topic contains the following sub-topics:

Create Relationship Type

This topic explains the systematic instructions to create relationship type.

• Process to View Relationship Type

This topic describes the systematic instructions to view the list of configured relationship type.

1.4.1 Create Relationship Type

This topic explains the systematic instructions to create relationship type.

- On Home screen, under Menu, click Retail Account Configurations. Under Retail Account Configurations, click Relationship Type.
- Under Relationship Type, click Create Relationship Type.

The Create Relationship Type screen displays.

Figure 1-29 Create Relationship Type

Specify the fields on Create Relationship Type screen.

For more information on fields, refer to the field description table below.

Table 1-24 Create Relationship Type - Field Description

Field	Description
Relationship Code	Specify the relationship code which should be an unique alpha numeric code.
Description	Specify the description for the relationship code.

4. After specifying all the details, click **Save** to complete the steps Or click **Cancel** to exit without saving.

1.4.2 Process to View Relationship Type

This topic describes the systematic instructions to view the list of configured relationship type.

- On Home screen, under Menu, click Retail Account Configurations. Under Retail Account Configurations, click Relationship Type.
- Under Relationship Type, click View Relationship Type.

The View Relationship Type screen displays.

Figure 1-30 View Relationship Type

For more information on fields, refer to the field description table below.

Table 1-25 View Relationship Type - Field Description

Field	Description
Relationship Code	Displays the relationship code.
Description	Displays the description of the relationship type.
Authorization Status	Displays the authorization status of the record. The available options are: • Authorized • Rejected • Unauthorized
Record Status	Displays the status of the record. The available options are: Open In Progress Closed
Modification Number	Displays the number of modifications performed on the record.

Servicing Configurations

The Oracle Banking Branch is installed with servicing configuration helps banks to build the desired workflow for servicing transactions.

- Branch Date Configurations
- Business Product Configuration

The Oracle Banking Branch is equipped with business product configuration helps banks to configure various services for retail bank offerings.

Business Process Configuration

The Oracle Banking Branch is installed with business process configuration helps banks to build the desired workflow for servicing transactions.

Servicing Configuration

The Oracle Banking Branch is installed with servicing configuration helps banks to build the desired workflow for servicing transactions.

Bulletin Board Maintenance

This topic helps you to create, view, modify, or delete the bulletin messages.

Memo Maintenance

This topic describes the systematic instruction about Memo Maintenance. User can add, edit, or delete a memo using this screen.

Branch Servicing Auto Auth Setup

User can enable or deactivate the auto-authorization for servicing operations by using the **Branch Servicing Auto Auth Setup** screen.

2.1 Branch Date Configurations

For branch servicing operations, the system allows user to configure the branch date as either the Common Core Branch Date or the Teller Branch Date. By default, the system uses the Common Core Branch Date for these operations. If you prefer to use the Teller Branch Date, then you can change the default setting by updating the **tellerIntegrationEnabled** parameter in the <code>obbrn-cmn-process-driver-serve</code> to **Y**.

- When **tellerIntegrationEnabled** = **Y**, the system uses the Teller Branch Date for branch servicing transactions.
- When tellerIntegrationEnabled = N, the system uses the Common Core Branch Date for branch servicing transactions.

2.2 Business Product Configuration

The Oracle Banking Branch is equipped with business product configuration helps banks to configure various services for retail bank offerings.

This topic contains the following subtopics:

About Business Product Configuration

Business product configuration allows users to configure the various services for retail bank offerings. The details captured in the business product configuration are used for processing the servicing transactions.

Create Business Product

User can use this screen to create the business product and map it to the host product.

View Business Product

Oracle Banking Branch supports viewing the business product created. The **View Business Product** screen allows the user to view all of the authorized, unauthorized and closed business products. The 'Authorize' option is also available for supervisor users for approving the unauthorized business product.

2.2.1 About Business Product Configuration

Business product configuration allows users to configure the various services for retail bank offerings. The details captured in the business product configuration are used for processing the servicing transactions.

The business product created in Oracle Banking Branch is linked with the host product. There is only one golden source available for product creation or configuration, which is in the host. The business product created in Oracle Banking Branch allows configuring parameters that are more customer-facing and how the products are sold in banks.

The business product is linked to the business process so that the servicing transactions related to the selected business product will flow as per the business process definition. The business product process allows the user to create the business products and view the existing business products.

2.2.2 Create Business Product

User can use this screen to create the business product and map it to the host product.

The following data segments of the screen allows user to define the various elements for the products:

- Business Product Details
- Host Product Mapping

Perform the following steps to create business product:

 On the Home screen, from the Servicing Configurations, under Business Product, click Create Business Product. User can also open the screen by specifying Create Business Product in the search icon bar and selecting the screen.

The Create Business Product screen is displayed.

Figure 2-1 Create Business Product - Business Product Details

On the Business Product Details segment, specify the fields. For more information on fields, refer to the field description table.

Table 2-1 Business Product Details – Field Description

Field	Description
Product Type	Select the product from the drop-down list. The available options are: Customer Account Services Term Deposit Account Services Loan Account Services
Product Sub Type	Select the product sub-type from the drop-down list. Product sub-types supported are based on the Product Type selected.
	a. Customer Account Services
	b. Term Deposit Account Services
	c. Loan Account Services
Business Product Code	Specify the business product code.
	Note: The maximum length of the business product code should not be more than six characters. Alphanumeric and alphabets should be in the capital.
Business Product Description	Specify the business product description.
Channel Allowed	Select the channels that should be allowed for the business product from the drop-down list. For Example – Oracle Banking Digital Experience.
Fintech Allowed	Select if the business product is supported for servicing transactions from Fintech Companies.
Fintech Name	Select the Fintech Company name from the drop-down list. The system allows the selection of multiple companies. Note: This field is mandatory if Fintech Allowed is selected.

Click Next.

If Scheduled Transfer, Sweep In to Account, Sweep Out from Account, Term
Deposit Account Services, or Loan Account Services option is selected from the
Product Sub Type field in the Business Product Details segment, then the following
Host Product Mapping segment is displayed. In this data segment, the business
product is mapped to the host product and parameters for processing servicing
transactions are defined.

Figure 2-2 Create Business Product – Host Product Mapping

For more information on fields, refer to the field description table.

Table 2-2 Host Product Mapping - Field Description

Field	Description
Business Product Code	Displays the business product code defaulted from the Business Product Code entered in the Business Product Details data segment.
Host Product	Select the host product from the drop-down list.
Host Product Description	Displays the product description once the host product is selected in Select Host Product .
Get Products Details	Click Get Product Details, and the system will default the parameter configured at the host product. When user click this button, the system defaults the values in the following fields: - Product Start Date - Product End Date - Frequency - Product Type - Minimum Sweep Amount
Product Start Date	Displays the product start date defaulted from the host.
Product End Date	Displays the product end date defaulted from the host.
Frequency	Displays the frequency defaulted from the host.
Product Type	Displays the product type defaulted from the host.
Minimum Sweep Amount	Displays the minimum sweep amount defaulted from the host. Note: This field is displayed only if the Product Sub Type in the Business Product Details segment is selected as Sweep Out from Account or Sweep In to Account.

If Cheque Leaves Default option is selected from the Product Sub Type field in the Business Product Details segment, then the following Host Product Mapping segment is displayed.

Figure 2-3 Create Business Product – Host Product Mapping (Cheque Leaves Default)

For more information on fields, refer to the field description table.

Table 2-3 Create Business Product – Host Product Mapping (Cheque Leaves Default) – Field Description

Field	Description
Default Cheque Book Size	Specify the numeric values for cheque book sizes against those accounts, for which the Account Classes have not been mapped or that have been created newly in the system. Note: A Close icon is displayed next to the value specified as you tab out of the field. To remove the value, click the Close icon.
Host Product	Select the account classes defined in the system. Note: This field is enabled if you click the Add icon displayed above the table. An Account Class cannot belong to more than one group of Host Product.
Cheque Book Sizes	Specify numeric values for the cheque book sizes for the account classes selected. Note: This field is enabled if you click the Add icon displayed above the table. You are not allowed to enter duplicate values in this field.
Action	Displays the Delete icon to remove the row added. Note: This field is enabled if you click the Add icon displayed above the table.

4. Click Save & Close.

2.2.3 View Business Product

Oracle Banking Branch supports viewing the business product created. The **View Business Product** screen allows the user to view all of the authorized, unauthorized and closed

business products. The 'Authorize' option is also available for supervisor users for approving the unauthorized business product.

To view business product:

 On the Home screen, from the Servicing Configurations, under Business Product, click View Business Product. User can also open the screen by specifying View Business Product in the search icon bar and selecting the screen.

The View Business Product screen is displayed.

Figure 2-4 View Business Product

- 2. On the View Business Product screen, User can perform the following actions:
 - Search for a particular business product.
 - Add preference for a business product.
 - Refresh the page to view the latest updates.
 - Change view to grid or tile.
- 3. On the **View Business Product** screen, view the business product set for the required services. For more information on the options, refer to the table below.

Table 2-4 View Business Product - Field Description

Field	Description
Business Product Code	Displays the business product set for the service.
Business Product Description	Displays the description for the business product.

- 4. Each tile also displays the following information:
 - Authorized or Unauthorized
 - For Authorized status: The **Actions** icon provides the options to Unlock, Close, Copy, and View.
 - For Unauthorized status: The **Actions** icon provides the options to Unlock, Authorize, Delete, Copy, and View.
 - Open, In Progress, or Closed
 - Number of edits performed on the business product.

2.3 Business Process Configuration

The Oracle Banking Branch is installed with business process configuration helps banks to build the desired workflow for servicing transactions.

This topic contains the following subtopics:

About Business Process Configuration

The business process configuration defines the stages, respective data segments, checklists, documents required, and advice generation for the stages.

Create Business Process

The **Create Business Process** screen helps to configure the workflow for servicing transactions. This process will allow defining the data segments, checklists, documents, and advices for the stages defined in the process code selected for the lifecycle code and business product combination.

View Business Process

Oracle Banking Branch supports viewing the business process created. The **View Business Process** screen allows the user to view all of the authorized, unauthorized, and closed business processes. Authorize option is also available for supervisor users for approving unauthorized business processes.

2.3.1 About Business Process Configuration

The business process configuration defines the stages, respective data segments, checklists, documents required, and advice generation for the stages.

A business process can be defined as a set of activities and tasks that, once completed, will accomplish the distinct servicing processes. The business process must involve clearly defined inputs and a single output.

The business process definition will determine the different stages required for a given combination of the process code, life cycle, and business product code. The workflow management of these stages and the relevant stage movements are defined in Plato/Conductor to:

- Orchestrate the microservices-based process flow
- Ensure a seamless transition of servicing process across various stages in that given order.

The Plato/Conductor process will drive the workflow from one stage to another based on the process outcomes at the respective stages and subject to fulfilling the mandatory data capture, confirmation on the mandatory checklist items, and submission of mandatory documents at the respective stages. The stages defined in the business process can be dynamically assigned to different user profiles or roles.

While performing the servicing transactions, the system picks the business process run-time and initiates the workflow based on the configuration. The prerequisites for configuring the business process are enumerated below:

Table 2-5 Prerequisites for Configuration - Field Description

Prerequisites	Description
Lifecycle	Lifecycle represents the cycle of the process for which the business process is created. These are factory-shipped codes and currently support servicing transactions such as customer account transactions, term deposit transactions, and loan account transactions.
Process Code	Process code defines the various stages relevant for servicing transactions. Process code configuration allows you to define the business process flow that needs to be mapped for the business product and lifecycle code combination in the business process configuration.
	A set of default process codes are factory-shipped for the reference workflow. User can also create process codes in CMC_TM_PROCESS_CODE and CMC_TM_PROCESS_STAGE tables.
Business Product	Business product maintenance allows configuring the various business products by the product offerings that the bank deals with. Each business product has a unique business process defined for a specific lifecycle code selected.

2.3.2 Create Business Process

The **Create Business Process** screen helps to configure the workflow for servicing transactions. This process will allow defining the data segments, checklists, documents, and advices for the stages defined in the process code selected for the lifecycle code and business product combination.

This screen allows configuring the elements for each of the stages of the servicing transactions. For information on the elements, refer to the table below:

Table 2-6 Elements of Business Process

Element	Description
Data Segment	A data segment, as the name suggests is an individual block of data. Bringing in data segments allows to break down a huge process into smaller units, which will be easier to update, maintain, and process. The business process consists of several data segments that make up the stage.
	 Business process definition enables the user to perform the following: Add 'n' number of data segments to each stage. Set the data segment as mandatory or non-mandatory. Set the data segment as editable or non-editable. Control the sequence order of the data segments. Select the stage.
Document	The documents are required to be submitted by the customer for the servicing transactions.
Checklist	Checklists are distinct and a list of mandatory checkpoints for the servicing transactions to be configured by the bank.
Advices	Advices are an official letter of notices detailing an action taken or to be taken on a stated date by the bank. This is the final configuration for the Business Process creation.

Perform the following steps to create business process:

 On the Homepage, from the Servicing Configurations, under Business Process, click Create Business Process. You can also open the screen by specifying Create Business Process in the search icon bar and selecting the screen.

The Create Business Process screen is displayed.

Figure 2-5 Create Business Process

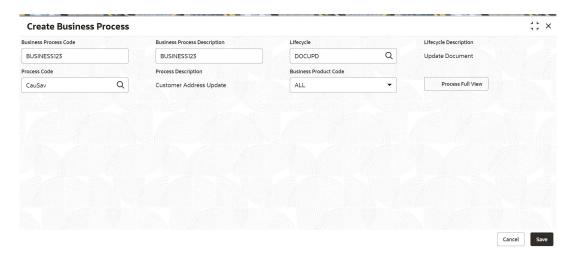

Figure 2-6 Create Business Process - Stages

On the Create Business Process screen, specify the fields. For more information on fields, refer to the field description table.

Table 2-7 Create Business Process - Field Description

Field	Description
Business Process Code	Specify an alphanumeric business process code.
	Note: The maximum length allowed is 16.
Business Process	Specify the description of the business process code.
Description	Note: The maximum length allowed is 60 alphanumeric characters.
Lifecycle	Search and select the lifecycle code.
Lifecycle Description	Displays the description of the lifecycle selected.
Process Code	Search and select the process code of the business process flow that needs to be mapped for the lifecycle code and business process code combination.
	Note: Once user select the process code, the elements and stages are displayed on the screen.
Process Description	Displays the description of the selected process code.
Business Product Code	Specify the business product code for which the business process is being created. Alternatively, the system allows selecting 'All', in which case the business process will apply to all the business products that are associated with the lifecycle and process code.

(i) Note

The system allows you to configure only one business process for a combination of **Lifecycle** and **Business Product Code**.

On the Create Business Process screen, click Data Segments tab and then click Add icon on the header panel.

The **Data Segments** screen is displayed.

Figure 2-7 Data Segments

4. On the **Data Segments** screen, select the required data segment or data segments for the selected stage, and specify the fields. For more information on fields, refer to the field description table.

Table 2-8 Data Segments - Field Description

Field	Description
Preview	Click on this tab to view the data segment.
Settings	Specify the settings.
Mandatory	Select if the data segment is mandatory.
Editable	Select if the data segment is editable.
Select Products	Select the products for which the data segment is relevant.

5. On the **Data Segments** screen, click **Add**.

The **Create Business Process** screen is displayed with the data added segment.

Figure 2-8 Create Business Process - Added Data Segments

(i) Note

The system allows to re-sequence the data segment by dragging and dropping over the specific data segment.

6. On the **Create Business Process** screen, select the desired stage, and click **Document** tab to define the specific documentation requirement.

The **Documents** segment is displayed.

Figure 2-9 Create Business Process – Documents

On the **Documents** segment, specify the fields. For more information on fields, refer to the field description table.

Table 2-9 Documents - Field Description

Field	Description
Document Type	Search and select the document type.
Document Description	Displays the corresponding description of the document.
Mandatory	Select if it is mandatory to submit the document for the stage.
Business Products	Select the required option for the document submission requirement. The available options are: Single Product List of Products All

8. On the Create Business Process screen, select the desired stage, and click Checklist tab.

The Checklist segment is displayed.

Figure 2-10 Create Business Process - Checklist

On the Checklist segment, specify the fields. For more information on fields, refer to the field description table.

Table 2-10 Checklist - Field Description

Field	Description
Checklist Data	It is a free-text field that allows to user to enter the checklists that must be validated as part of the selected stage.
Mandatory	Select if it is mandatory to submit the checklist for the stage.
Business Products	Select the required option to restrict the checklist. The available options are: Single Product List of Products All

10. On the Create Business Process screen, select the desired stage, and click Advices tab. The Advices segment is displayed.

Figure 2-11 Create Business Process – Advices

11. On the Advices segment, specify the fields. For more information on fields, refer to the field description table.

Table 2-11 Advices - Field Description

Field	Description
Advice Type	Search and select the required advice type from the displayed list of all the valid advices maintained, and that must be mapped to this stage.
Advice Description	Displays the corresponding description of the advice.
Business Products	Select the required option to restrict the advices. The available options are: Single Product List of Products All

Click Save to create the business process.

At this point, the status of the business process is unauthorized. A user with supervisor access has to approve the business process. Once approved, the status of the business process changes from unauthorized to authorized, and is activated for usage in the servicing transactions.

2.3.3 View Business Process

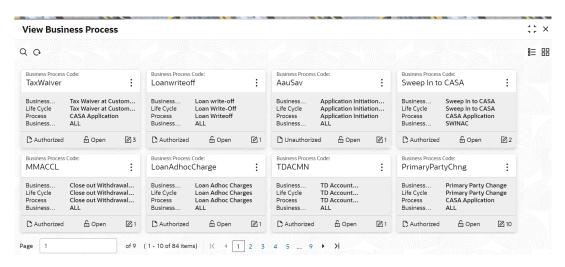

Oracle Banking Branch supports viewing the business process created. The **View Business Process** screen allows the user to view all of the authorized, unauthorized, and closed business processes. Authorize option is also available for supervisor users for approving unauthorized business processes.

Perform the following steps to view business process:

 On the Homepage, from the Servicing Configurations, under Business Process, click View Business Process. You can also open the screen by specifying View Business Process in the search icon bar and selecting the screen.

The **View Business Process** screen is displayed.

Figure 2-12 View Business Process

- 2. On the View Business Process screen, you can perform the following actions:
 - Search for a particular business process.
 - Add preference for a business process.
 - Refresh the page to view the lastest updates.
 - Change view to grid or tile.
- On the View Business Process screen, view the business product set for the required services. For more information on the options, refer to the table below.

Table 2-12 View Business Process – Field Description

Field	Description
Business Process Code	Displays the business process set for the service.
Business Process Description	Displays the description for the business process.

Table 2-12 (Cont.) View Business Process - Field Description

Field	Description
Life Cycle	Displays the life cycle set for the business process.
Process	Displays the process.
Business Product	Displays the business code.

- 4. Each tile also displays the following information:
 - Authorized or Unauthorized
 - For Authorized status: The **Actions** icon provides the options to Unlock, Close, Copy, and View.
 - For Unauthorized status: The **Actions** icon provides the options to Unlock, Authorize, Delete, Copy, and View.
 - Open, In Progress, or Closed
 - Number of edits performed on the business process.

2.4 Servicing Configuration

The Oracle Banking Branch is installed with servicing configuration helps banks to build the desired workflow for servicing transactions.

This topic contains the following subtopics:

• Create Service Preferences

User can create service preferences for Transaction Code for Debit, Transaction Code for Credit, Exchange Rate Code, and Exchange Rate Type servicing screens using the **Create Service Preferences** screen.

View Service Preferences

User can view all of the authorized, unauthorized, and closed service preferences using the **View Service Preferences** screen. Authorize option is also available for supervisor users for approving unauthorized business processes.

2.4.1 Create Service Preferences

User can create service preferences for Transaction Code for Debit, Transaction Code for Credit, Exchange Rate Code, and Exchange Rate Type servicing screens using the **Create Service Preferences** screen.

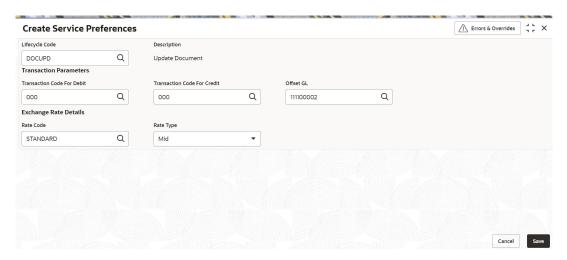

To create service preferences:

 On the Home screen, from the Servicing Configurations, under Servicing Configurations, click Create Service Preferences. User can also open the screen by specifying Create Service Preferences in the search icon bar and selecting the screen.

The Create Service Preferences screen is displayed.

Figure 2-13 Create Service Preferences

On the Create Service Preferences screen, select or specify the required details.

Table 2-13 Create Service Preferences – Field Description

Field	Description
Lifecycle Code	Select the lifecycle code for the servicing screens.
Description	Displays the description based on the lifecycle code selected.
Transaction Parameters	This section displays the fields to select the parameters for the transactions.
Transaction Code For Debit	Select the code for the debit transaction.
Transaction Code For Credit	Select the code for the credit transaction.
Offset GL	Select the offset GL for the transaction.
Exchange Rate Details	This section displays the fields to create the rate preferences.
Rate Code	Select the code for the exchange rate.
Rate Type	Select the type for the exchange rate. The available options are: • Mid • Buy/Sell

3. Click Save.

2.4.2 View Service Preferences

User can view all of the authorized, unauthorized, and closed service preferences using the **View Service Preferences** screen. Authorize option is also available for supervisor users for approving unauthorized business processes.

To view the service preferences:

 On the Home screen, from the Servicing Configurations, under Servicing Configurations, click View Service Preferences. User can also open the screen by specifying View Service Preferences in the search icon bar and selecting the screen.

The View Service Preferences screen is displayed.

Figure 2-14 View Service Preferences

- On the View Service Preferences screen, User can perform the following actions:
 - Search for a particular service preference.
 - Add preference for a service.
 - Refresh the page to view the latest updates.
 - Change view to grid or tile.
- On the View Service Preferences screen, view the preferences set for the required services.

Table 2-14 View Service Preferences – Field Description

Field	Description
Lifecycle Code	Displays the lifecycle code set for the service.
Description	Displays the description for the lifecycle code.

- 4. Each tile also displays the following information:
 - Authorized or Unauthorized
 - For Authorized status: The **Actions** icon provides the options to Unlock, Close, Copy, and View.
 - For Unauthorized status: The **Actions** icon provides the options to Unlock, Authorize, Delete, Copy, and View.
 - Open, In Progress, or Closed
 - Number of edits performed on the set preferences.

2.5 Bulletin Board Maintenance

This topic helps you to create, view, modify, or delete the bulletin messages.

This topic contains the following subtopics:

Create Bulletin

This topics helps you to create, view, modify, or delete the bulletin messages.

View Bulletin

This topic describes the systematic instructions to View or Modify the Bulletin Message.

2.5.1 Create Bulletin

This topics helps you to create, view, modify, or delete the bulletin messages.

However, Joint account holders share equal responsibility for charges or any other liability arising from holding such accounts.

To create bulletin:

 On the Home screen, from Interaction Services, under Maintenance, Bulletin, click Create Bulletin, or specify the Create Bulletin in the Search icon bar.

Create Bulletin screen is displayed.

Figure 2-15 Create Bulletin

On the Create Bulletin screen, specify the fields.

(i) Note

For more information on fields, refer to the field description table.

Table 2-15 Create Bulletin - Field Description

Field	Description
Message Type	Select the message type from the drop-down list. The available options are: • Alert - Select this option if the message requires immediate attention from the users. When this option is selected, the Bulletin message is represented with Alert icon on the widget. • Information - Select this option if the bulletin is for information purposes only. When this option is selected, the Bulletin message is represented with Information icon on the widget.
Start Date	Select the date from which the bulletin message displays on the widget. (i) Note This date cannot be lesser than the current business date.
End Date	Users can specify the expiry date of the bulletin message. Once the bulletin message reaches the expiry date, the message gets removed from the bulletin board widget.
Subject	Enter a brief description of the bulletin message.
Message	Enter a detailed description of the message.
Attachments	You can attach relevant documents using this option. You can either drag and drop files into the space provided or select documents from your local drive. You can preview or delete an attachment before submitting the transaction for authorization.

To preview an attached document, click the document link.

The **Document Uploaded** pop up window is displayed.

Note

The document preview is available only to those document types that support the preview feature by default. Where the preview feature is not supported, click on **Download** button to download the attached document before viewing.

- Click the **Close** icon to close the **Document Uploaded** pop up window.
- User can target bulletin messages towards user groups or specific users. Using the User **Role Mapping** table, User can configure User Roles or Users to a particular bulletin.
- 6. Click the **Add** icon to specify User Role or User mapping to the bulletin message.

(i) Note

For more information on fields, refer to the field description table.

Table 2-16 User Role Mapping - Field Description

Field	Deceription
Field	Description
User/Role	Select User/Role from the drop-down list.
ID	When User is selected, click the search icon to view the User Mapping pop-up window. By default, this window lists all the Users present in the system. User can search for a specific User by providing User, or Username and click Fetch . When Role is selected, click the search icon to view the Role Mapping pop-up window. By default, this window lists all the Roles present in the system. You can search for a specific Role by providing Role or Role Name and click Fetch .
Name	User or Role name is displayed based on the user id or role id selected.
Actions	Displays the Delete icon, to remove the respective user or role.

7. After the message is created, the status of the message is updated as Active or Awaited.

System updates the status of the Bulletin message as Active if the start date is equal to the current business date.

(i) Note

If the Start Date is future date, then the status of Bulletin message is updated as Awaited until the date is reached. The system automatically updates the status to Active once the start date is reached

2.5.2 View Bulletin

This topic describes the systematic instructions to View or Modify the Bulletin Message.

On the Home screen, from Interaction Services, under Maintenance, Bulletin, click View Bulletin, or specify the View Bulletin in the Search icon bar.

View Bulletinscreen is displayed.

Figure 2-16 View Bulletin

- 2. On View Bulletin screen, the system displays all the bulletin messages with status:
 - a. Awaited
 - b. Active
 - c. Paused
 - d. Expired
- 3. On the View Bulletin screen, user can search for specific bulletin using the Search icon. user can use any of the following options to search:
 - a. Message Type
 - b. Message Status
 - c. Message Reference Number
 - d. Subject
 - e. Start Date
 - f. Expiry Date
 - g. Authorization Status
 - h. Record Status
- 4. After the input of any options mentioned above, click the **Search** button.
- 5. Click the **Action** icon to display the following options:
 - a. Unlock
 - b. Authorize
 - c. Delete
 - d. Close
 - e. Copy
 - f. View

To modify an existing bulletin message, click the Unlock option from the Action icon.
 The Bulletin Message screen is displayed.

Figure 2-17 BulletIn Message

7. To view the bulletin message, click the **View** option from the **Action** icon.

Create Bulletin screen is displayed.

On the create bulletin screen, all the fields are non-editable.

- 8. To replicate an existing bulletin, click the **Copy** option from the **Action** icon.
- 9. To permanently delete the existing bulletin, click the **Delete** option from the **Action** icon.
- 10. On View Bulletin screen, the system displays all the bulletin messages with status

For more information on fields, refer to the field description table.

Table 2-17 Tax Deducted at Source Inquiry - Field Description

Field	Description
Customer ID	Enter the Customer ID or click the search icon to view the Customer ID pop-up window. By default, this window lists all the Customer ID's present in the system. User can search for a specific Customer ID by providing Customer Number or Customer Name and click on the Fetch button.
Customer Name	Customer Name is displayed based on the Customer ID selected.
Account Number	User can enter a specific account number of the customer and search Tax Deducted at Source details or click the drop-down list to select the available account numbers listed for the customer id to search the Tax Deducted at Source details. Note: This is an optional field.
Financial Year	By default, the current financial year is displayed in this field. User can select the previous financial years from the drop-down. The system displays the Tax Deducted at Source details financial yearwise.
Branch	The system displays the Branch Code based on the account number.
Account Number	The system displays the Account Number.
Account Name	The system displays the Account Name.
Interest Amount	The system displays the Credit interest on the account.
Taxation Date	The system displays the date of the tax application on the account.
Tax Amount	The system displays the Tax amount calculated on the credit interest.

2.6 Memo Maintenance

This topic describes the systematic instruction about Memo Maintenance. User can add, edit, or delete a memo using this screen.

 On the Home screen, from Interaction Services, under Maintenance, click Memo Maintenance, or specify the Memo Maintenance in the Search icon bar.

The Memo Maintenance screen is displayed.

Figure 2-18 Memo Maintenance

Note

The fields marked as Required are Mandatory.

2. On **Memo Maintenance** screen, perform the required action.

The memo maintenance details are displayed in the screen.

Figure 2-19 Memo Maintenance Details

3. On the **Memo Maintenance** screen, specify the fields.

Note

For more information on fields, refer to the field description table.

Table 2-18 Memo Maintenance - Field Description

Field	Description
Create memo for	Select the option for creating memo. The available options are: Account: If user selects this option, then the Account Number and Account Name are displayed. Deposit: If user selects this option, then the Deposit Account Number and Account Name are displayed.
Message	Provide the text of the memo message.
Action	Click the Edit icon to edit the message or the Delete icon to delete the added memo.

4. Click Add Memo in the Memo Maintenance screen.

The **Add Memo** screen is displayed to specify the memo message.

Figure 2-20 Add Memo

Cancel Add Another Add

- a. Click **Cancel** to cancel the memo message.
- b. Click Add or Add Another to add the message in the main screen.
- 5. Click Submit.

The screen is successfully submitted for authorization.

2.7 Branch Servicing Auto Auth Setup

User can enable or deactivate the auto-authorization for servicing operations by using the **Branch Servicing Auto Auth Setup** screen.

The auto authorization can be set for Accounts, Deposits, and IRA modules of servicing.

To set up auto-authorization:

On the Home screen, from the Retail Servicing Configuration mega menu, click Branch Servicing Auto Auth Setup or specify Branch Servicing Auto Auth Setup in the search icon bar and select the screen.

The Branch Servicing Auto Auth Setup screen is displayed.

Figure 2-21 Branch Servicing Auto Auth Setup

- From the Accounts, Deposit, and IRA tabs, select the required screens for which autoauthorization is to be set from the **Non-auto authorization screens** section.
- Click Move to auto authorization.

The screens are removed from the Non-auto authorization screens section and displayed in the Auto authorization screens section.

For more information on fields, refer to the field description table.

Table 2-19 Branch Servicing Auto Auth Setup – Field Description

Field	Description
Non auto authorization screens	Select the screens to be auto-authorized from this section. User can also search for any required screen by specifying the screen name in the Search field.
Auto Authorized screens	This section displays the screens to be auto-authorized.
Lifecycle Code	Displays the lifecycle code of the screen.
Screen Name	Displays the screen set for auto-authorization.
Action	Displays the Delete icon. User can click to deactivate the screen from auto-authorization. Post deletion, the screen is added back to the Non auto authorization screens section.

(i) Note

If the user selects the screen and clicks Move to auto authorization, then to proceed with action in other tabs, the user should click **Save**. Else, the changes made by user will be lost if switched between the modules.

Click Save.

The updates are saved successfully.

Operations

This topic contains the following **Operations** as subtopics:

Dashboard

This topic describes the systematic instructions about Dashboard and various widgets used. This Dashboard provides an overview of the goings-on at the bank to its users which helps the user in managing the transaction life cycle of different activities in an efficient manner.

Account Creation

This topic provides the account creation details for the Retail Accounts.

Servicing Charge

User can configure online service charge configure account servicing screens. The system validates the charge amount against the account balance when user modify or waive the charge details. User can define multiples charges for the servicing transactions.

Customer Information

Customer information includes Customer Name, Customer Id, and KYC details. Based on the selection of the account number in a screen, the Customer Information is displayed in a widget, to the right of a screen.

Account View

Under the **Account View** menu, user can view and perform various vital transactions on a CASA account.

Maintenance

Under the Maintenance menu, User can maintain the details of a CASA account.

Statement

Under the **Statement** menu, User can perform the required actions related to statement of an account.

Status Update

Under the **Status Update** menu, User can update the status of an account.

Limits

Under the **Limits** menu, User can perform actions related to limits for an account.

Amount Block

Under the **Amount Block** menu, User can perform the amount block related actions for an account.

Cheque Book

Under the **Cheque Book** menu, User can perform the check book related actions for an account.

Inquiry

Under the **Inquiry** menu, User can perform inquire the details of a CASA account.

Staff Restrictions

- Access Restriction
- Multi-Currency Accounts

Business Events in Oracle Banking Retail Accounts

This topic describes about the processing of business events in online for Oracle Banking Retail Accounts.

3.1 Dashboard

This topic describes the systematic instructions about Dashboard and various widgets used. This Dashboard provides an overview of the goings-on at the bank to its users which helps the user in managing the transaction life cycle of different activities in an efficient manner.

The Dashboard is used to visualize the data by graphically representing them using a doughnut wheel. In Dashboard the filters are used to narrow down the data to the transaction level.

Figure 3-1 Dashboard

The Dashboard displays widgets for which access is granted to the user. Following widgets are available in the Account Dashboard and described in the sub-sections:

Servicing Tasks

This topic describes the process of viewing, acquiring, releasing, and tracking the transactions that was performed during the day.

Bulletin Board

This topic describes the systematic instruction about the Bulletin Board widget in Dashboard.

My Diary

This topic describes the systematic instruction about the My Diary widget in Dashboard.

My Pending Tasks

This topic describes the systematic instruction about My Pending Tasks widget in Dashboard.

3.1.1 Servicing Tasks

This topic describes the process of viewing, acquiring, releasing, and tracking the transactions that was performed during the day.

The Servicing Tasks widget provides an overall view of the servicing transaction status for the day and the activities to be completed during the day without having to refer for information in different pages.

Based on the user rights, user can view the count of transactions categorized as free tasks, acquired, or pending tasks, tasks awaiting approval, rejected or failed tasks, and completed tasks. User can search for or filter a particular transaction and drill down to the transaction level to execute it under each category.

On the **Dashboard** screen, the **Servicing Tasks** widget is displayed:

Figure 3-2 Servicing Tasks

Servicing Tasks				
Free Tasks	Acquired/Draft Tasks	Pending Approval Tasks	Failed/Rejected Tasks	Completed Tasks
2453	151	9	7	0

(i) Note

For more information on fields, refer to the field description table.

Table 3-1 Servicing Tasks - Field Description

Field	Description
Free Task	Displays the number of free tasks available either for editing or claiming based on the rights. If the user clicks on a number, the system performs the action on the task. If the user lacks authorization rights, the system displays a zero instead.
Acquired/Draft Tasks	Displays the tasks that have been acquired for authorization and tasks where a servicing screen was launched, actions were performed, and were saved and closed to be continued later. Depending on user Authorization rights, user can acquire the tasks from Free Tasks for further processing if you have Maker rights. If you do, the draft numbers are populated.
	The Acquired/Draft Tasks counts are displayed in the My Pending Tasks page too. They can be identified as tasks in Approval and Incomplete status respectively.
	Also, if a transaction is rejected or when it fails, the number is also populated in this field.

Table 3-1 (Cont.) Servicing Tasks - Field Description

Field	Description
Pending Apporval Tasks	Displays the number of approvals pending for the transactions. The values in this field are displayed in following two scenarios: Pending approval tasks are those which the maker has submitted and the initiation task is completed. Once the initiation is complete, user will find the task on the free task page for approval. Hence, the value in this field represents those tasks that are completed by the maker but are yet to be authorized or actioned further. The maker and the first authorizer will display this field after a transaction has been approved in a multi-auth set up. So, there is a track of the transaction count that each role has performed during the day.
Failed/Rejected Tasks	Displays the number of transactions that are failed or rejected. The following are the scenarios, where the transactions that are failed and rejected are displayed, based on the rights: In case of maker, when the authoriser rejects a transaction, then the transaction is sent back to the maker. The maker's transaction has been rejected and is now displayed as such on the My Pending Tasks page. If a transaction fails host validation during authorization, then the authorizer updates its status to Failed and displays it on the My Pending Tasks page.
Completed Tasks	Displays the transactions that are completed from maker as well as checker perspective.

3.1.2 Bulletin Board

This topic describes the systematic instruction about the Bulletin Board widget in Dashboard.

The Bulletin Board widget posts all messages about the business in between the bank and its customers. If the bulletin message is Alert, the **Alert** icon is displayed and if the bulletin message is information, the **Information** icon is displayed.

The messages are:

- Public news and its messages
- Bank policies and notices
- System Messages like system downtime information, network failures, etc.

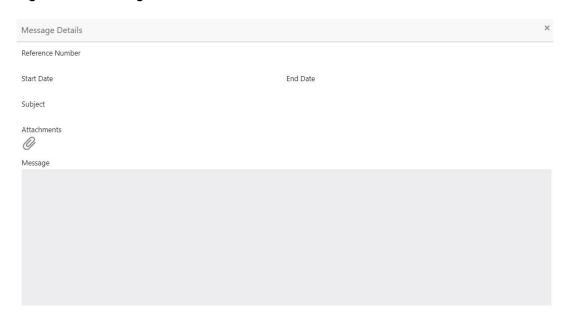

Figure 3-3 Bulletin Board

1. To view the details of the bulletin, click the **Expand** icon.

Message Details pop-up window is displayed.

Figure 3-4 Message Details

2. Click the **Attachments** icon, to view the list of attachments.

Document List pop-up window is displayed.

Figure 3-5 Document List

- 3. Click the attachment to view the document.
- Click the Filter icon to filter the bulletin board based on Reference Number, Start Date, End Date.

For more information on fields, refer to the field description table.

Table 3-2 Bulletin Board-Filter - Field Desription

Field	Description
Reference Number	Enter the Reference Number or click the search icon to view the Reference Number pop-up window. By default, this window lists all the Reference Numbers present in the system. You can search for a specific Reference Number by providing Reference Number, and click on the Fetch button.
Start Date	Click on the adjoining calendar icon and specify the Start Date.
End Date	Click on the adjoining calendar icon and specify the End Date .

5. Click the **Filter** button.

The applied Filters will appear in the band within the widget.

6. To remove the filters, click the **Filter** icon and click the clear button.

3.1.3 My Diary

This topic describes the systematic instruction about the My Diary widget in Dashboard.

My Diary widget helps users to keep a record of activities that they would perform in the near future or perform at regular intervals. This widget allows users to set reminders, define a frequency for reminders as well as define an end date to the event.

Figure 3-6 My Diary

1. Click the **Filter** icon to filter the events based on due date.

For more information on fields, refer to the field description table.

Table 3-3 My Diary-Filter

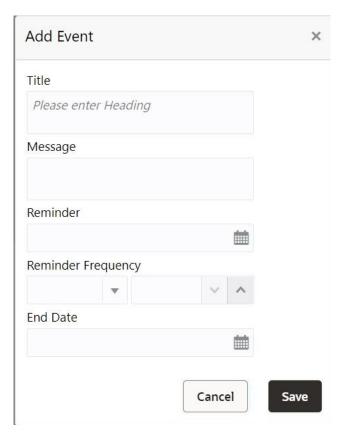

Field	Description
Filter By Due Date	Click on the adjoining calendar icon and specify the Due date.

- 2. The dairy event within the widget will show the Title and the End-Date. Click the **Expand** icon to view or edit the diary event.
- When the user defines the reminder date for a dairy event, the bell icon with the number of reminder events will be displayed. Click the Bell icon to view the events that are due for the day.
- 4. Click the Add icon to create a new Diary event

Add Event pop up screen is displayed.

Figure 3-7 Add Event

5. On Add Event pop up screen, specify the fields.

Table 3-4 My Diary-Add Event

Field	Description
Title	Enter an appropriate title for the diary event. When event is saved, the title appears on the widget.
Message	Enter details about the diary event.
Reminder	Click on the adjoining calendar icon and specify the reminder date.
Reminder Frequency	Users can define a reminder frequency for the diary event in Days, Months, or Years. By using the increment and decrement button, the frequency can be increased or decreased.

Table 3-4 (Cont.) My Diary-Add Event

Field	Description
End Date	Click on the adjoining calendar icon and specify the End date. On this date, the event will be removed from the widget. (i) Note
	If the Due Date is not specified, the event remains in the widget indefinitely.

6. Click the Filter button.

The applied Filters will appear in the band within the widget.

7. To remove the filters, click the **Filter** icon and click the **Clear** button.

3.1.4 My Pending Tasks

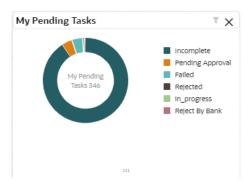

This topic describes the systematic instruction about My Pending Tasks widget in Dashboard.

My Pending Tasks widget provides the user list of transactions that are in different statuses such as rejected, failed, and incomplete. Users can click on each section of the widget to access the transactions and proceed to complete them.

My Pending Tasks doughnut is classified as follows:

- Failed
- Incomplete
- Rejected

Figure 3-8 My Pending Tasks

- To view the Pending Tasks, hover the mouse on each section of the doughnut.
- 2. Click the **Filter** icon to display the transactions based on process name.

For more information on fields, refer to the field description table.

Table 3-5 My Pending Tasks-Filter

Field	Description
Process Name	Enter the Process Name or click on the search icon to select the processes available under a particular sub-domain.

3. Click the Filter button.

The applied Filters will appear in the band within the widget.

4. To remove the filters, click the **Filter** icon and click the clear button.

3.2 Account Creation

This topic provides the account creation details for the Retail Accounts.

For the detailed explanation on the savings account and current account creation, refer to the following user guides under the *Oracle Banking Origination* product.

- Current Account Origination User Guide
- Savings Account Origination User Guide

If a user searches for accounts using a minor customer ID, whether directly or indirectly, by employing various search criteria like SSN, mobile number, or email, the accounts managed by the custodians will not appear. The user will be prohibited from conducting any transactions related to a minor account.

3.3 Servicing Charge

User can configure online service charge configure account servicing screens. The system validates the charge amount against the account balance when user modify or waive the charge details. User can define multiples charges for the servicing transactions.

Based on the charge maintenance, user can configure the charges in the following screens:

- Account Address Update
- Activate Dormant Account
- Cheque Book Status
- Stop Cheque Payment
- Account Statement Frequency
- Nominee Details Update
- Joint Holder Maintenance
- Account Preferences
- Account Status Change
- View and Modify Stop Cheque Payment

To configure charge details:

1. In the **Charge Details** section, view the required details.

Figure 3-9 Charge Details

For more information on fields, refer to the field description table.

Table 3-6 Charge Details - Field Description

Field	Description
Charge Code	Displays the charge code applied on the account.
Currency	Displays the currency of the charge amount.
Defaulted Amount	Displays the defaulted charge amount.
Modified Amount	Displays the modified charge amount.
Charge Details	Displays the Details icon to view more details on the charge. Note: For more information, refer <i>View Charge Details</i> .
Waiver	Switch to toggle ON to waive the particular charge applied on the account. Switch to toggle OFF to retain the charges applied on the account. Note: To enabled the field, user need to double click in the field.
Total Charge Amount in Local Currency	Displays the total charge amount in local currency.
Total Charge Amount in Account Currency	Displays the total charge amount in account currency.

View Charge Details

If user click the **Details** icon from the **Charge Details** field, the following section is displayed:

Figure 3-10 Charge Details

(i) Note

Debit Account

DR_LEG

For more information on fields, refer to the field description table.

Table 3-7 View Charge Details - Field Description

Field	Description
Charge Code	Displays the charge code applied on the account.
Currency	Displays the currency of the charge amount.
Charge Amount	Displays the charge amount on the account.
Charge in Transaction Currency	Displays the charge amount in transaction currency.
Charge in Local Currency	Displays the charge amount in local currency.
Basis	Displays the basis of the charge.
Minimum Charge	Displays the minimum charge amount applied on the account.
Maximum Charge	Displays the maximum charge amount applied on the account.
Pricing Rule ID	Displays the pricing rule ID applied on the charge.
Credit Account	Displays the credit account number.
Debit Account	Displays the debit account number.

- If there are multiple charges applied on the account, user can click the **Navigate** icon to move forward or backward, to view the details of a specific charge code.
- 2. Click Close icon to close the section.

3.4 Customer Information

Customer information includes Customer Name, Customer Id, and KYC details. Based on the selection of the account number in a screen, the Customer Information is displayed in a widget, to the right of a screen.

To view the customer information:

1. Select or specify the account number in the screen.

Figure 3-11 Customer Information

For more information on fields, refer to the field description table.

Table 3-8 Customer Information - Field Description

Field	Description
<lmage></lmage>	Displays the image of the customer.
Customer ID	Displays the unique customer ID for the account number specified.
Customer Name	Displays the customer name for the account number specified.
KYC Status	Displays the current KYC status of the account.
Signature	Displays the customer's signature.
Account Name	Displays the account holder's name.
Account Branch	Displays the account holder's branch.
Mode of Operation	Displays the account's mode of operation.
Account Status	Displays the current status of the account. Note:
	The possible account status are Active , Closed , and Overdue .
	Following status is displayed when there are combination of account status: If the account is Frozen and Dormant, then the status is displayed as Frozen.
	If the account is Inactive and Frozen, then the status is displayed as Frozen.
Account Balance	Displays the total account available.
<phone number=""></phone>	Displays the customer's phone number.
<email id=""></email>	Displays the customer's email ID.
Address of Communication	Displays the complete address of the customer.

2. In this section, user can view the customer's basic information.

3. To launch the Customer 360 screen, click

3.5 Account View

Under the **Account View** menu, user can view and perform various vital transactions on a CASA account.

This topic contains the following subtopics:

Account 360

The Account 360 screen helps the user to get an overview of Account Holder Details, Account Balance, Account Details, Suggested Actions, Overdraft Details, Alerts, Standing Instructions, Pending Requests, Recent transactions, and Interest Details.

3.5.1 Account 360

The Account 360 screen helps the user to get an overview of Account Holder Details, Account Balance, Account Details, Suggested Actions, Overdraft Details, Alerts, Standing Instructions, Pending Requests, Recent transactions, and Interest Details.

To view the 360 account details:

 On the Home screen, from Retail Account Services, under Account View, click Account 360, or specify Account 360 in the Search icon bar.

The Account 360 screen is displayed.

Figure 3-12 Account 360

2. On Account 360 screen, specify the account number.

Account 360 details for account is displayed.

Figure 3-13 Account 360 Details for Active Account

3. On Account 360 screen, specify the fields.

For more information on fields, refer to the field description table.

Table 3-9 Account 360 - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	① Note
	The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.

- On the Account 360 screen, click the Refresh icon to refresh the information on the screen.
- On the Account 360 screen, click the Hamburger icon to browse the account services menu.
- Account Balance

This topic helps the user to know the account balance details while performing account servicing transactions.

• Account Information

This topic helps the user to know the account information details while performing account servicing transactions.

Account Holder Details

This topic helps the user to know the Account Holder details while performing account servicing transactions.

Account Address and Account Preferences

This topic helps the user to know the Account Address details and preferences enabled to the account.

Account Statement Details

This topic helps the user to know the statement frequency and the last statement details for the account.

Suggested Actions

This topic describes the systematic instruction about the Suggested Actions in Account 360 screen. The Suggested Actions widget in the Account 360 screen displays the account's upcoming events and pending actions. This helps the user to inform the account holder and take the required actions.

Alerts

This topic describes the systematic instruction about the Alerts in Account 360 screen. The Alerts widget helps the user view alerts on the account.

Recent Transactions

This topic describes the systematic instruction to view the Recent Transactions in the Account 360 screen.

Interest Details

This topic describes about Interest Details in the Account 360 screen.

Frequent Actions

This topic describes the about the Frequent Actions in the Account 360 screen. The Frequent Actions helps the user to perform account servicing related transactions from the account 360 view screen without navigating to the main menu.

3.5.1.1 Account Balance

This topic helps the user to know the account balance details while performing account servicing transactions.

On the **Account 360** screen, the system displays the following balance details for the account balance:

- Withdrawable Balance
- Available Balance

Figure 3-14 Account Balance

Withdrawable Balance **1,000,012,560.00**

Available Balance **1,000,009,000.00**

3.5.1.2 Account Information

This topic helps the user to know the account information details while performing account servicing transactions.

On the **Account 360** screen, the system displays the following account information details:

- Account Product Description
- Account Branch Description
- Account Status
- IBAN
- Account class Type (Savings/Current)
- Account Currency
- Account Opening Date

- Nomination Status
- Performance Status
- Account Type

Figure 3-15 Account Information

Regular Savings Account	Active
Branch	Account
006 Branch	Savings
IBAN	Since
	Mar 30, 2018
Performance Status	Currency
NORM Since Mar 30, 2018	USD
Nomination	Type
Provided	Single

Note

Account status is displayed as Active, Inactive, Frozen, Dormant, Closure Initiated, or Closed based on account status.

Following status is displayed when there are combination of account status:

- If the account is frozen and Dormant, then the status is displayed as Frozen.
- If the account is Dormant and Closed, then the status is displayed as Closed.
- If the account is Inactive and Frozen, then the status is displayed as Frozen.

3.5.1.3 Account Holder Details

This topic helps the user to know the Account Holder details while performing account servicing transactions.

On the Account 360 screen, the system displays the following account holder details:

- Account holders photo
- Name
- Customer ID
- Account holder relation (Primary/Joint, first/Joint, other etc)
- Mobile Number with ISD code

- Email Id
- Mode of Operation

Figure 3-16 Account Holder

3.5.1.4 Account Address and Account Preferences

This topic helps the user to know the Account Address details and preferences enabled to the account.

On the **Account 360** screen, the Account Address widget displays the preferred communication address for the account.

Figure 3-17 Account Details

To update the account address, click **Update Address** hyperlink and the system displays the **Account Address Update** screen.

Fore more information, refer <u>Account Address Update</u>.

On the **Account Address Update** screen, user can modify the below details:

- Building
- Street
- City
- State
- Country
- Zip Code

3.5.1.5 Account Statement Details

This topic helps the user to know the statement frequency and the last statement details for the account.

The below account statement details are displayed:

- Account Statement Frequency and Cycle
- Last Statement Date

Figure 3-18 Account Statement Details

Account Statement Details

Statement Frequency Last Statement Date

Request Statement

To generate the ad hoc account statement, click the **Request Statement** link.

3.5.1.6 Suggested Actions

This topic describes the systematic instruction about the Suggested Actions in Account 360 screen. The Suggested Actions widget in the Account 360 screen displays the account's upcoming events and pending actions. This helps the user to inform the account holder and take the required actions.

On the Account 360 screen, the system displays the suggested actions for the account.

Figure 3-19 Suggested Actions

The suggested actions widget displays two suggested actions at a time. If more than 2 suggested actions are present for the account, the **View All** button is enabled to the user.

- 1. To view all the suggested actions, click on View All button.
- Click the Close icon on the Suggested Actions pop-up window.The view all display is closed.
- 3. On the **Suggested Actions** widget, the below cases are displayed. If no suggested actions are displayed, the system displays the message as **No Suggested Actions**.

For more information on fields, refer to the field description table.

Table 3-10 Suggested Actions - Field Description

Field	Description
Deliver Check Book	Displayed, if any check book delivery is pending for the account at branch. To deliver the check book, click on Deliver button, and the Check Book Status screen is launched. The system displays the message with check book request date and status.
	For example, Requested on March 30, 2019, pending delivery.
Renew Debit Card	Displayed, if any debit card is expiring for the account in specified number of days defined at Account 360 parameter. By default the number of days is 30 and can modify the value. To renew the debit card, click on Renew button and the Debit Card Request screen is launched. The system displays the message with card number and expiry date. For example, Card 098976569876XXX expiring on Jan 15, 2022.

Table 3-10 (Cont.) Suggested Actions - Field Description

Field	Description
Request Check Book	Displayed, if the number of pending check leaves are less than or equal to the specified limit at Account 360 parameter. By default the limit is 5 and can modify the value. To request new check book, click on Request button, and the Check Book Request screen is launched. For example, Unused leaves are 5.
	Note: The pending check leaves consider unused, stopped, and rejected checks. It excludes canceled and used checks.
Document Expiring	Displayed, if any document attached to the account is getting expired in a specified number of days defined at the Account 360 parameter. By default, the number of days is 30 and can modify the value. To upload the new document, click on the Upload button and the Account Documents Update screen is launched. The system displays the message with the document name and expiry date.
	For example, DRIVING LICENSE expiring on Feb 25, 2022.
Document Pending Submission	Displayed, if any document is pending for submission. To upload the new document, click on the Upload button, and the Account Documents Update screen is launched. For example, AADHAR or PAN or Driving License.
Activate Dormant Account	Displayed, if the account status is dormant. To activate the dormant account, click on the Activate button, and the Activate Dormant Account screen is launched. The system displays the message with a dormant date. For example: Dormant since Jan 10, 2022.

3.5.1.7 Alerts

This topic describes the systematic instruction about the Alerts in Account 360 screen. The Alerts widget helps the user view alerts on the account.

 On the Account 360 screen, the system displays the alerts of any exceptions, memo, and warnings on the account.

Account Alert details are displayed.

Figure 3-20 Alerts

- 2. The alerts widget displays two alerts at a time. If more than 2 alerts are present for the account, the **View All** button is enabled to the user.
- To view all alerts, click on View All button.

Alerts pop-up window is displayed.

4. Click the **Close** icon on the **Alerts** pop-up window.

Alerts pop-up window is closed.

5. On the **Alerts** widget, the below details are displayed.

For more information on fields, refer to the field description table.

Note

If no alerts are displayed, the system displays the message as **No Alerts**.

Table 3-11 Alerts - Field Description

Alerts	Description
Check Stop Payment	Displayed if any active stop payment is available on the account. The alert message displays the check number, Stop payment date, and stop payment reason. For example, check 0002 stopped on Jan 10, 2022 due to an incorrect amount.
Check Rejected	Displayed if any check clearing is rejected on the account. The alert message displays the check Number, Rejected date, and Reject reason. For example, check CHQ00000003023063 Rejected on Jan 15, 2022, due to Insufficient Balance.
Amount Block	Displayed if any active amount is blocked on the account. The alert message displays the Blocked amount, Date, and Block reason details. For example, GBP 10,000.00 blocked on Dec 10, 2021, due to legal notice.
Memo	Displayed if any active memo is maintained for the account. The memo message is displayed in the alert.
Debit Restricted	Displayed if any debit restriction is there for the account.
Credit Restricted	Displayed if any credit restriction is there on the account.

3.5.1.8 Recent Transactions

This topic describes the systematic instruction to view the Recent Transactions in the Account 360 screen.

 On the Account 360 screen, the system displays the Recent Transactions performed for the account.

Recent Transactions details for the account are displayed.

Figure 3-21 Recent Transactions

Recent Transactions Test Transaction Description Credited GBP 10,000.00 on March 30, 2018 Reference: 123124 **Test Transaction Description** Credited GBP 1,000.00 on March 30, 2018 Reference: 123123 **Test Transaction Description** Credited GBP 1,000.00 on March 30, 2018 Reference: 123123

:::

- The Recent Transactions widget displays latest 5 transaction details at a time. If more than 5 transaction details are present for the account, the View more button is enabled to the
- To view more Recent Transactions, click on **View more** button.

Account Transaction screen is displayed.

Note

In this view, 15 records are shown at a time and can be configured in Account 360 parameter.

3.5.1.9 Interest Details

This topic describes about Interest Details in the Account 360 screen.

Figure 3-22 Interest Details

3.5.1.10 Frequent Actions

This topic describes the about the Frequent Actions in the Account 360 screen. The Frequent Actions helps the user to perform account servicing related transactions from the account 360 view screen without navigating to the main menu.

The Frequent Actions widget displays the frequently used account servicing transactions.

Figure 3-23 Frequent Actions

Note

A maximum of 6 transactions are allowed for frequent actions.

Users can configure the frequently used account servicing transactions screens.

When users click on the configured account servicing transactions, the system launches the related transaction screen by defaulting the account number.

(i) Note

If any widget fails to fetch the details, the system displays the related error message and the retry option is provided to fetch the details.

3.6 Maintenance

Under the Maintenance menu, User can maintain the details of a CASA account.

This topic contains the following subtopics:

Account Address Update

This topic describes the systematic instruction about Account Address Update. While entering the account number, the system displays the current address details of the account and the user can modify these details.

Joint Holder Maintenance

User can either add joint holders for the first time or modify the existing joint holder relationship using this screen.

Nominee Details Update

User can modify the existing nominee details, add a new nominee, and delete the existing nominee details added to an account using this screen.

Account Preferences

User can set or modify the preferences for the CASA account using this screen.

This topic describes about the process the account closure request.

Secured Overdraft Limits

This topic describes the systematic instructions to secured overdraft limits.

3.6.1 Account Address Update

This topic describes the systematic instruction about Account Address Update. While entering the account number, the system displays the current address details of the account and the user can modify these details.

(i) Note

This screen is applicable only for IRA Accounts.

To update the account address:

On the Home screen, from Retail Account Services, under Maintenance,, click Account Address Update, or specify the Account Address Update in the Search icon bar.

The **Account Address Update** screen is displayed.

Figure 3-24 Account Address Update

Note

The fields marked as Required are Mandatory.

Click the Search icon or specify the account number in the Account Number field, and press Enter or Tab.

The account address details are displayed in the screen.

Figure 3-25 Account Address Update_Details

3. On the Account Address Update screen, specify the fields.

For more information on fields, refer to the field description table.

Table 3-12 Account Address Update - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Address Type	Displays the type of address added such as Residential or Communication . Only the address type which is chosen as the preferred address for communication during account origination is displayed.
Address	Displays the address details corresponding to the address type.
Start Date	Displays the start date when a given communication address becomes effective. This is applicable only for temporary communication addresses. It is not applicable for Residential and Communication address types.
End Date	Displays the date when a given communication address ceases to be effective. This is applicable only for temporary communication addresses. It is not applicable for Residential and Communication address types.
Action	User can edit or delete the added address details. This is applicable only for temporary communication addresses. It is not applicable for Residential address types.

4. Click Add Communication Address in the Address Details section.

The Add Communication Address screen is displayed.

Field	Description
Address Line 1/Building Name	Specify the building details for communication address.
Address Line 2/Street Name	Specify the street name details for communication address.
Address Line 3/City/Town Name	Specify the city or town name details for communication address.
State	Specify the State or click the Search icon and select the state from the list of values displayed.
Country	By default, the country is displayed in this field once you select the State.

Table 3-13 (Cont.) Account Address Update - Field Description

Field	Description
Zip Code	Specify the zip code for communication address.
Start Date	Specify the start date for the temporary communication address to become effective.
End Date	Specify the date for the temporary communication address to cease. Once the end date of the temporary communication address is crossed, the account switches back to the preferred address that was used prior to the temporary address.

- a. Click **Add** to add the address details in the main screen.
- Click Cancel to cancel the added details.
- Click Submit.

The screen is successfully submitted for authorization.

3.6.2 Joint Holder Maintenance

User can either add joint holders for the first time or modify the existing joint holder relationship using this screen.

(i) Note

The fields marked as **Required** are mandatory.

A customer can be the sole or joint owner of an account. The joint accounts are accounts that are shared between two or more individuals. They can be operated either singly or jointly.

(i) Note

- If the user enters or chooses a minor account number, the system will show a notification indicating that the account holder is a minor and that joint holders cannot be added. Consequently, the user will be unable to take any further actions on the screen.
- When a user enters a major account number and attempts to add a minor as a joint holder, the system will show a notification indicating that a minor cannot be included as a joint account holder.

To maintain joint holder details:

On the Home screen, from the Retail Account Services mega menu, under Maintenance, click Joint Holder or specify Joint Holder in the search icon bar and select the screen.

The Joint Holder Maintenance screen is displayed.

Figure 3-27 Joint Holder Maintenance

Click the Search icon or specify the account number in the Account Number field, and press Enter or Tab.

The details are displayed in the screen.

Figure 3-28 Joint Holder Details

User can view the details of the account selected. For more information on fields, refer to the field description table.

Table 3-14 Joint Holder Maintenance – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Primary Holder	Displays the name of the primary holder of the CASA account.
Mode of Operation	Specify the mode of operation in the drop-down. The available options are: • Former or Survivor Tenants by the Entirety • Tenants in Common • Single • Joint Tenants with Right of Survivorship The options in the list is maintained in Retail Account Configurations. Note: • If no joint holders are linked to the account, the system will display only Single. • The values in this filed are based on maintenance in the Account Operating Instruction Type, where the Category is set as Joint. But there is one exception for the value Single, which is pre-shipped in the routing hub configuration.
Joint Holder Details	 This section displays the existing joint holder details. Note: You can perform the following actions in this section: Add Joint Holder Details: For details on this action, refer Add Joint Holder. Edit Joint Holder Details: For details on this action, refer Edit Joint Holder Details. Delete Joint Holder Details: From the Actions field, click the Delete icon. A confirmation message is displayed that the action cannot be recovered. Click Delete to proceed with the deletion. Convert Joint Account to Single Account: From the Mode of Operations field, select the Single option. A confirmation message is displayed. Click Confirm to proceed with the conversion.

4. Click Submit.

The screen is successfully submitted for authorization.

Maintain Joint Holder Details
 User can add, edit, or delete a joint holder of an account. Also, User can covert a joint holder account to single holder account.

3.6.2.1 Maintain Joint Holder Details

User can add, edit, or delete a joint holder of an account. Also, User can covert a joint holder account to single holder account.

To maintain the joint holder details:

- From the Joint Holder Maintenance screen, perform any of the following actions as required:
 - Add Joint Holder

- a. Select the **Jointly** option from the **Mode of Operation** field.
- b. In the Joint Holder Details section, click Add Joint Holder.

The Add Joint Holder Details section is displayed.

Figure 3-29 Add Joint Holder Details

c. You can maintain the required details in this section. For more information on fields, refer to the field description table.

Table 3-15 Add Joint Holder - Field Description

Field	Description
Customer Number	Select or specify the customer number to be added as joint holder.
Customer Name	Displays the customer name for the customer number selected.
Joint Holder Type	Select the type of joint holder to be added to the account.

d. Click Add.

User can add multiple joint holders to the account by clicking Add Another.

The added joint holder details are displayed in the **Joint Holder Details** section.

Figure 3-30 Joint Holder Details

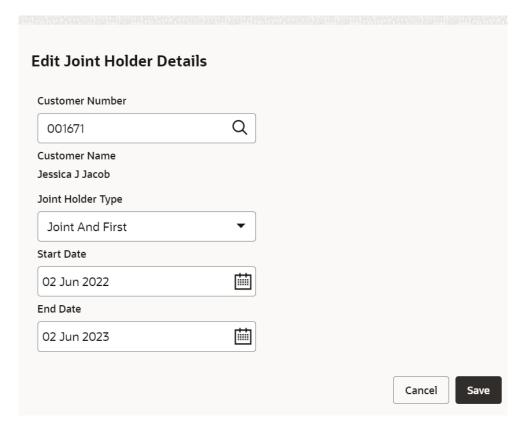

Edit Joint Holder Details

a. In the Joint Holder Details section, click the Edit icon, from the Actions field.
 The Edit Joint Holder Details section is displayed.

Figure 3-31 Edit Joint Holder Details

- b. User can update the joint holder details as required. The fields are same as displayed in the Add Joint Holder Details section. For more information, refer Add Joint Holder.
- 2. Click Submit.

3.6.3 Nominee Details Update

User can modify the existing nominee details, add a new nominee, and delete the existing nominee details added to an account using this screen.

To update nominee details:

 On the Home screen, from the Retail Account Services mega menu, under Maintenance, click Nominee Details Update or specify Nominee in the search icon bar and select the screen.

The Nominee Details Update screen is displayed.

Figure 3-32 Nominee Details Update

(i) Note

The fields marked as **Required** are mandatory.

Click the Search icon or specify the account number in the Account Number field, and press Enter or Tab.

The details are displayed in the screen.

Figure 3-33 Nominee Details

3. In the **Nominee Details** section, user can view the details of the nominee if already added to the account. For more information on fields, refer to the field description table.

Table 3-16 Nominee Details Update – Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
	 If user selects an account with closed status, then an appropriate message is displayed. The user will not be allowed to proceed with the required action in the screen.
Account Name	Displays the name of the account holder for the selected account number.
Nominee Details	This section displays the details of the nominee added to the CASA account. Note: For information on adding a nominee, refer Add Nominee.
Nominee Name	Displays the name of the nominee added.
Relation Type	Displays the relationship of the nominee.
Possession (%)	Displays the percentage allotted to the beneficiary.
Date of Birth	Displays the nominee's date of birth.
Minor	Displays whether the nominee is a minor.
Guardian	Displays the name of the guardian, if the nominee is a minor.
Details	Click the View icon to view the beneficiary details.
Actions	Displays the following icons to perform the action: Edit: For information on this action, refer Edit Nominee topic. Delete: If you click this icon, then a confirmation message is displayed that the nominee details will not be recovered. To proceed with deletion, you need to click Delete.

4. Click Submit.

The screen is successfully submitted for authorization.

Add Nominee

User can add a nominee to a CASA account.

- View Nominee Details
 User can view the details of the nominee added to a CASA account.
- Edit Nominee Details
 User can edit the nominee details that are already added to a CASA account.

3.6.3.1 Add Nominee

User can add a nominee to a CASA account.

To add a nominee:

1. In the Nominee Details section, click Add Nominee.

The Add Nominee section is displayed.

Figure 3-34 Add Nominee

(i) Note

The fields marked as Required are Mandatory

User can maintain the required details in the sections displayed. For more information on fields, refer to the field description table.

Table 3-17 Add Nominee Details – Field Description

Field	Description
Nominee Details	This section displays the fields for capturing the basic nominee details.
Nominee Type	Select the nominee type from the list.
Customer ID	Select or specify the customer ID to default the nominee details for the selected customer.
Relationship Type	Select the relationship type with the nominee.
Title	Select the title for the nominee from the list.
First Name	Specify the nominee's first name.
Middle Name	Specify the nominee's middle name.
Last Name	Specify the nominee's last name.
Possession (%)	Specify the possession percentage to be given for the nominee.
Date of Birth	Select or specify the nominee's date of birth.
Minor	Displays whether the added nominee is a minor or major based on the date of birth selected or specified. Note:
	The minor status will be derived based on the minor age limit maintained for the country (the country will be derived from the account holder's communication address).
	Find the below steps to configure minor age validation.
	a. Create a fact for values, State, and Age.
	 Create a rule for minor age validation with the required state and related age.
	IF
	((STATE==GB)&&(AGE < 18))
	Output
	Section1 True
	c. Maintain a validation model with model code as VMMINORAGE and link the above rule.
	For more information, refer to the <i>Oracle Banking Common Core User Guide</i> to create Fact, Rule and Rule Group.
Address Details	This section displays the fields to capture the nominee's address.

Table 3-17 (Cont.) Add Nominee Details - Field Description

Field	Description
Default Account Address	Switch to toggle ON to default the account holder's communication address specified.
	Switch to toggle OFF to not to default the account holder's communication address specified.
Address Line 1/Building Name	Specify the building of the nominee.
Address Line 2/Street Name	Specify the street of the nominee.
Address Line 3/City/Town Name	Specify the city or town of the nominee.
State	Specify the state of the beneficiary or click Search and select the state from the list of values.
Country	Country is defaulted based on the state selected.
Zip Code	Specify the zip code of the nominee.
Contact Details	This section displays the fields to capture the contact details.
Mobile Number	Specify the mobile number of the nominee.
Email ID	Specify the email ID number of the nominee.

If the added nominee is a minor, its mandatory to add the guardian details. If required, user can also add guardian details for a major by switching to toggle ON from the Add Guardian field in the Guardian Details section.

Figure 3-35 Guardian Details

For more information on fields, refer to the field description table.

Table 3-18 Guardian Details - Field Description

Field	Description
Add Guardian	Switch to toggle ON to add guardian details.
	Switch to toggle OFF to not to add the guardian details.
Relationship Type	Select the relationship type with the guardian.
Title	Select a title for the guardian.
First Name	Specify the guardian's first name.
Middle Name	Specify the guardian's middle name.
Last Name	Specify the guardian's last name.
Address Details	This section displays the fields to capture the guardian's address details.
Default Address	Select the default address for the guardian. The available options are: - Nominee: If you select this option, then the guardian address is defaulted from nominee address. - Account: If you select this option, then the account holder communication address is defaulted as guardian's address. Note: If required, you can edit the defaulted address.
Address Line 1/Building Name	Specify the building of the guardian.
Address Line 2/Street Name	Specify the street of the guardian.
Address Line 3/City/Town Name	Specify the city or town of the guardian.
State	Specify the state of the beneficiary or click Search and select the state from the list of values.
Country	Country is defaulted based on the state selected.
Zip Code	Specify the zip code of the guardian.
Contact Details	This section displays the fields to capture the contact details.
Mobile Number	Specify the mobile number of the guardian.
Email ID	Specify the email ID number of the guardian.

Note

- The system defaults the customer's communication address and personal details when the nominee details are defaulted from the customer.
- The system defaults the customer's communication address when the nominee or guardian address details are defaulted from the account.

3. Click Save.

The nominee details are saved and displayed in the **Nominee Details** section.

4. Click Submit.

The screen is successfully submitted for authorization.

3.6.3.2 View Nominee Details

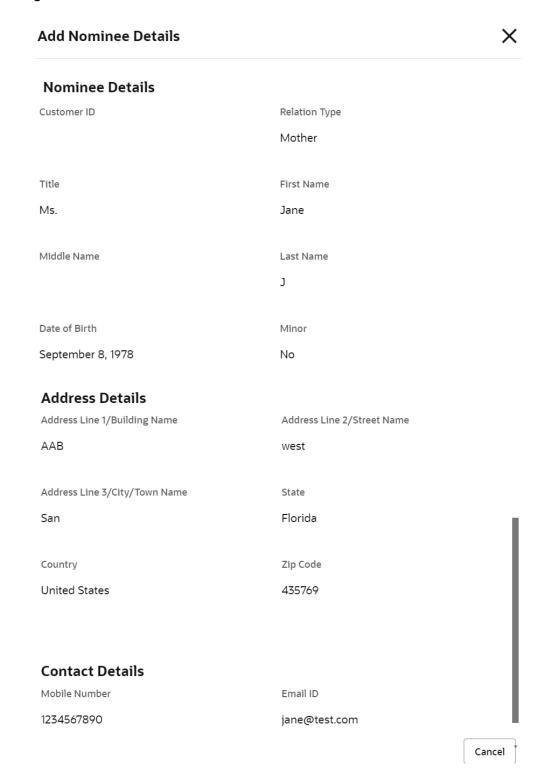

User can view the details of the nominee added to a CASA account.

To view the nominee details:

In the Nominee Details section, click the View icon from the Actions field.
 The Nominee Details section is displayed.

Figure 3-36 View Nominee Details - Personal

User can view the required details in the section displayed. For more information on fields, refer to the field description table.

Table 3-19 View Nominee Details - Field Description

Field	Description
Nominee Details	This section displays the details of the nominee.
Customer ID	Displays a customer ID of the nominee.
Relation Type	Displays the type of relationship with the nominee.
Title	Displays a title for the nominee.
First Name	Displays the nominee's first name.
Middle Name	Displays the nominee's middle name.
Last Name	Displays the nominee's last name.
Date of Birth	Displays the nominee's date of birth.
Minor	Displays whether the added nominee is a minor.
Address	Displays the complete address of the nominee.
Mobile Number	Displays the nominee's mobile number.
Email ID	Displays the nominee's email ID.

3. Click Close.

3.6.3.3 Edit Nominee Details

User can edit the nominee details that are already added to a CASA account.

To edit a nominee:

- In the Nominee Details section, click the Edit icon from the Actions field.
 The Edit Nominee section is displayed.
- For information on fields and description, refer <u>Add Nominee</u>, as the fields in the <u>Add Nominee</u> section are same.
- 3. Click Save.

3.6.4 Account Preferences

User can set or modify the preferences for the CASA account using this screen.

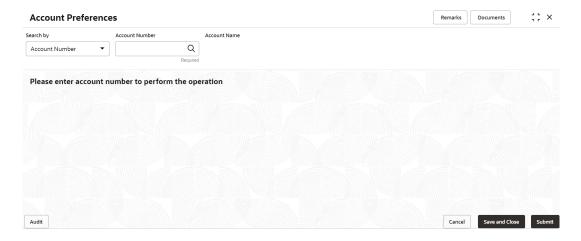

To set the account preferences:

 On the Home screen, from Retail Account Services, under Maintenance, click Account Preferences, or specify the Account Preferences in the Search icon bar.

The Account Preferences screen is displayed.

Figure 3-37 Account Preferences

(i) Note

The fields marked as **Required** are mandatory.

2. On the **Account Preferences** screen, click the **Search** icon or specify the account number in the **Account Number** field, and press **Tab** or **Enter**.

Note

As the user specifies the account number, the system validates whether the cheque book facility is enabled for the account number specified at the product level. If it is not enabled, then an appropriate message is displayed.

The fields to set the preferences for the account are displayed.

Figure 3-38 Set Account Preferences

On the Account Preferences screen, user can set the preferences for the account based on the requirement. For more information on fields, refer to the field description table below.

Table 3-20 Account Preferences - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
ATM Facility	This section displays the field to set preference for the ATM facility.
ATM Required	Switch Toggle On to subscribe for ATM facility for the account. Switch Toggle Off to unsubscribe for ATM facility for the account.
Cheque Book Facility	This section displays the fields to set the preferences for cheque book.
Cheque Book Required	Switch Toggle On to subscribe for cheque book facility for the account. Switch Toggle Off to unsubscribe for cheque book facility for the account. Note: This field is enabled only if the cheque book facility is enabled
Cheque Book Name 1	for the account at the product level. Specify the primary name on the cheque book. Note: This field is displayed if user switch Toggle On from the Cheque Book Required field.
Cheque Book Name 2	Specify the secondary name on the cheque book. Note: This field is displayed if user switch Toggle On from the Cheque Book Required field.
Auto Reorder Cheque Book	Switch Toggle On to reorder the cheque book automatically. Switch Toggle Off to stop reordering of the cheque book automatically.
Reorder Cheque Level	Specify the level for the cheque reorder. Note: This field is displayed if user switch Toggle On from the Auto Reorder Cheque Book field.
Reorder Number Of Leaves	Specify the number of leaves for the cheque book reorder. Note: This field is displayed if user switch Toggle On from the Auto Reorder Cheque Book field.
Passbook Facility	This section displays the field to set the preference for passbook.

Table 3-20 (Cont.) Account Preferences - Field Description

Field	Description
Passbook	Switch Toggle On to avail the passbook facility for the account. Switch Toggle Off to unavail the passbook facility for the account.
Banking Channels	This section displays the fields to set the preference for banking channels.
Banking Channel Required	Switch Toggle On to set the banking channel facility for the account. Switch Toggle Off to stop the banking channel facility for the account.
	Note: This field is enabled only if banking channels are enabled for the specified account number at the product level.
Banking Channel	Select the preferred banking channel for the account. Note: This field is displayed if user switch Toggle On from the Banking Channel Required field. This field is enabled if user click Add Channel.
Channel Name	Displays the channel name based on the banking channel selected. Note:This field is displayed if user switch Toggle On from the Banking Channel Required field.
Action	Displays the following icons to perform required action: Edit: Click to edit the baking channel set for the account. Delete: Click to delete the banking channel set for the account. Note: This field is displayed if user switch Toggle On from the Banking Channel Required field.

Click Submit.

The screen is successfully submitted for authorization.

3.6.5 Account Closure

This topic describes about the process the account closure request.

(i) Note

This screen is applicable only for IRA Accounts.

The account holder may request for closing the account with different reasons. Before closing, the account must not have any active instructions, contracts, overdrafts, or sweep transactions.

On Home screen, from Retail Account Services, under Maintenance, click Account Closure, or specify the Account Closure in the Search icon bar.

The Account Closure screen is displayed.

Figure 3-39 Account Closure

The fields marked as **Required** are mandatory.

Click the Search icon or specify the account number in the Account Number field, and press Enter or Tab.

The details are displayed in the screen.

Figure 3-40 Account Closure Details

On Account Closure screen, specify the fields.

For more information on fields, refer to the field description table.

Table 3-21 Account Closure - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Details	Displays the account details with Available Balance, Accrued Interest, and Estimated Payout.
Available Balance	Displays the available balance in account currency. If the account balance is greater than zero, credit indicator is displayed. if the account balance is less than zero, debit indicator is displayed.
Accrued Interest	Displays the net accrued interest in account currency. For credit interest, credit indicator is displayed. For debit interest, debit indicator is displayed. If multiple accrued interests are available for the account, the system displays the net accrued interest.
Estimated Payout	Displays the estimated payout amount in account currency. The estimated payout amount is the sum of available balance and accrued interest.
	 If the estimated payout amount is greater than zero, credit indicator is displayed. If the estimated payout amount is less than zero, debit indicator is displayed.
Account Closure Reason	Specify the reason for closure.

4. Click Add Settlement Details button in the Settlement Details section.

The Add Settlement Details screen is displayed.

Note

The Add Settlement Details button will not be enabled if the account balance is zero.

Figure 3-41 Add Settlement Details - Account

Figure 3-42 Add Settlement Details - Ledger

a. Select the payout mode as an account to settle the account balance transferring to a Current and Savings Account. For more information on fields, refer to the field description table.

Table 3-22 Add Payout Details as an Account

Field	Description
Select Payout Mode	The Account mode is selected with the default.
Select Account Number	The own accounts are displayed as widgets with the Account Number , Account Name , and Currency . User can select the account for payout. User can select Others from the widget to select any other accounts for payout.
Search Account Detail	This will display, if you select Others from the widgets. click the Search icon to select from the list or specify the account number in the Account Number field and the Account Name is displayed adjacent to the account number.

b. Select the payout mode as ledger to settle the account balance transferring to a ledger. For more information on fields, refer to the field description table.

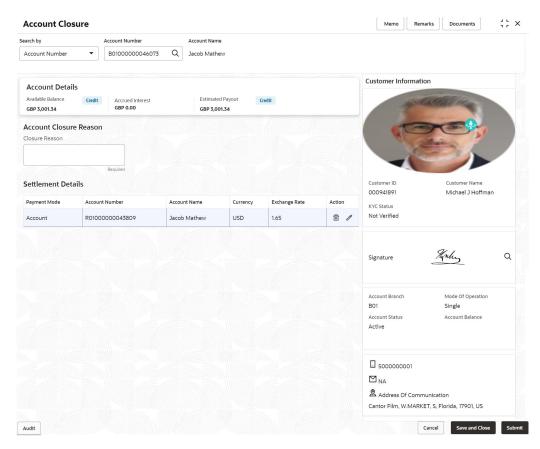

Table 3-23 Add Payout Details as Ledger

Field	Description
Select Payout Mode	Select the Ledger option to perform the account closure settlement to a ledger account.
Ledger Code	Click the Search icon to select or specify the ledger code required for the payout.
Ledger Description	Displays the ledger description for the payout.

Click Add button.

The **Settlement Details** are added in the **Account Closure** screen.

Figure 3-43 Account Closure - Settlement Details Added

For more information on fields, refer to the field description table.

Table 3-24 Account Closure - Settlement Details

Field	Description
Settlement Details	If the Payout Mode is Account, the available Options are: Payment Mode Account Number Currency Exchange Rate If the Payout Mode is Ledger, the available options are: Payment Mode Ledger Code Description Click the Edit icon to modify the settlement details. Click the Delete icon to delete the settlement details. Note:An exchange rate is derived based on an exchange rate parameter maintained for an account closure at service preference screen.

5. Click Submit.

Figure 3-44 Account Closure - Validation Retry

The system validates the account closure request with other product processors to check for any active contracts or instructions available for the account.

If the account closure validations are successful, then the system will update the account status to **Closure Initiated** and request will be moved to the approval stage and available in free task for authorization.

Transactions are restricted to the account once the account marked for closure is initiated.

If any active contracts, instructions, or other relations are found, the account closure validation is failed, and the account closure request is moved to the validation retry stage and assigned back to the maker. It should be available in the maker's pending task, then the maker can pick up the account closure validation failure and resubmit the request after manually closing or delinking the related contracts, or delete the account closure request based on the account holder request.

In the case of deletion, the system reverts the account status **Closure initiated** to open.

(i) Note

- If an account has debit balance, then the debit balance to be settled before closing an account.
- The system processes the account closure validations with external product processors. The required external product processors are configured at the workflow level.
- 6. Approve or Reject the account closure request.

On successful approval, the system initiate the below processes.

- Process the Interest Liquidation
- Account settlement (Transfer to Account/GL)
- Close the Account.

In case of Interest liquidation, or Account Settlement, or close the account process failure, the transaction moved to handoff retry stage and assigned back to the checker, then the checker can acquire the request and **Retry** or **Reject** the account closure request.

On **Retry**, the system process the failed stage again.

On **Reject**, the transaction send back to the initiation stage and assign back to the maker.

Note

- If the maker resubmit the account closure request, the system trigger the account closure validation across all the product processors again.
- If the maker delete the account closure request after authorizer rejects, the system revert the account status closure initiated to open.

3.6.6 Secured Overdraft Limits

This topic describes the systematic instructions to secured overdraft limits.

Note

The fields marked as **Required** are mandatory.

 On the Homepage, from the Retail Deposit Services mega menu, under Term Deposits and Transactions, click Account Opening, or specify Secured Overdraft Limits in the search icon bar and select the screen.

The **Secured Overdraft Limits** screen is displayed.

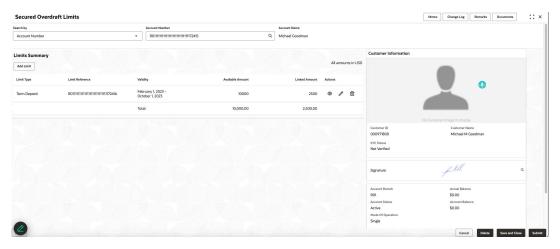

Figure 3-45 Secured Overdraft Limits

2. On the **Secured Overdraft Limits** screen, click the **Search** icon or specify the account number in the **Account Number** field, and press **Enter** or **Tab**.

The details are displayed in the screen.

Figure 3-46 Secured Overdraft Limits

3. User can view the limits details of the secured overdraft limits. For more information on fields, refer to the field description table.

Table 3-25 Secured Overdraft Limits

Fields/Column Name	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Limit Type	Displays the limit type.
Limit Reference	Displays the limit reference number.
Validity	Specify the validity period of the limits by specifying the start date and the end date. End date is optional.
Available Amount	Displays the available amount.
Linked Amount	Displays the linked amount.
Action	 Displays the following icons to perform the action: View: For information on this action, refer View Limit Details. Edit: For information on this action, refer Edit Limit Details. Delete: If you click this icon, then a confirmation message is displayed that the limit details will not be recovered. To proceed with deletion, you need to click Delete.

4. Click Submit.

The screen is successfully submitted for authorization.

3.7 Statement

Under the **Statement** menu, User can perform the required actions related to statement of an account.

This topic contains the following subtopics:

Ad hoc Account Statement

This topic describes the systematic instruction to generate account statement based on a given date range or selected period on the account holder's request.

Account Statement Frequency

This topic describes the systematic instruction about Account Statement Frequency Update. After specifying the account number, system displays existing account statement cycle details, and the user can modify the frequency.

3.7.1 Ad hoc Account Statement

This topic describes the systematic instruction to generate account statement based on a given date range or selected period on the account holder's request.

To generate and view ad hoc account statement:

 On the Home screen, from Retail Account Services, under Statement, click Ad hoc Account Statement, or specify the Ad hoc Account Statement in the Search icon bar.

Ad hoc Account Statement screen is displayed.

Figure 3-47 Ad hoc Account Statement

Enter the Account Number.

Ad hoc Account Statement details are displayed.

On the Ad hoc Account Statement screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-26 Ad hoc Account Statement - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Period	Users can select the period for account statement generation from the drop-down list. The available options are: Date Range Last Month Last 2 Months Last 3 Months Last 6 Months When you select the Date Range in the Period drop-down, user can specify the account statement generation date manually. When you select the Last Month or Last 2 Months or Last 3 Months or Last 6 months in the Period drop-down, the Date Range field defaults, and the user cannot modify the date. For Example: If the user selects the Period drop-down as Last Month, the date will be default as last one month from the current date. If the user selects the Period drop-down as Last 2 Months, the system defaults the account statement generation date as last 2 months from the current date, and the user cannot modify the date. If the user selects the Period drop-down as Last 3 Months, the system defaults the account statement generation date as last 3 months from the current date, and the user cannot modify the date. If the user selects the Period drop-down as Last 6Months, the system defaults the account statement generation date as last 3 months from the current date, and the user cannot modify the date. If the user selects the Period drop-down as Last 6Months, the system defaults the account statement generation date as last 6 months from the current date, and the user cannot modify the date.
Date Range	Click the calendar and specify the from date and to date. Note: The Date Range cannot be blank and less than from date.

- On the Ad hoc Account Statement screen, click Generate button to generate the account statement for selected period.
- 5. On the **Generated Account Statement**, the following details are displayed:
 - Statement Period
 - Document Reference
- Click the Action icon to view or print the generated account statement.

3.7.2 Account Statement Frequency

This topic describes the systematic instruction about Account Statement Frequency Update. After specifying the account number, system displays existing account statement cycle details, and the user can modify the frequency.

(i) Note

This screen is applicable only for IRA Accounts.

To modify the account statement frequency:

 On the Home screen, from Retail Account Services, under Statement, click Account Statement Frequency, or specify the Account Statement Frequency in the Search icon bar.

Account Statement Frequency screen is displayed.

Figure 3-49 Account Statement Frequency

On Account Statement Frequency screen, specify the account number. For more information on fields, refer to the field description table.

Table 3-27 Account Statement Frequency - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Name	Account Name is displayed by default based on the account selected.
Last Statement Date	The last statement generation date will be displayed.

Table 3-27 (Cont.) Account Statement Frequency - Field Description

Field	Description
Frequency	Users can modify the frequency for generating the account statements. To specify the frequency of the statements, click on the adjoining drop-down list. The available options are Annual Semiannual Quarterly Monthly Fortnightly Weekly Daily For the Annual, Semiannual, Quarterly, and Daily cycles, the account statement will be generated on the last day of that cycle. For a weekly and fortnightly statement, the user can specify the day of the week on which account statements must be generated. To specify weekly and fortnightly statements, click on the adjoining drop-down list. The available options are: Sunday Monday Tuesday Wednesday Thursday Friday
	 Saturday For monthly statements the user can specify the dates of the month, between 1 and 31(corresponding to the system date). For example: If the user selected the statement date to 30, then account statements will be generated on the last working day for months with < 30 days. If the user sets the statement date to 31, then account statements will be generated on the last working day for months with <31 days. If 30th or 31st is a holiday on the next working day the account statement gets generated.

3. Click Submit.

3.8 Status Update

Under the **Status Update** menu, User can update the status of an account.

This topic contains the following subtopics:

Activate Dormant Account

User can activate a Dormant account based on the account holder's request using the **Activate Dormant Account** screen.

Account Status Change

This topic describes the systematic instructions about account status change. The bank can update the status of an account to No Debit, No Credit, and Frozen.

3.8.1 Activate Dormant Account

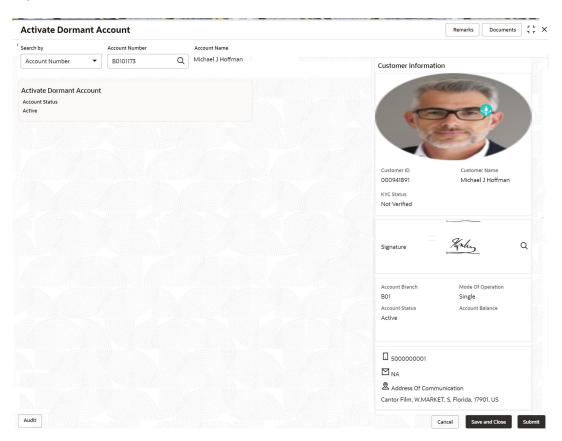

User can activate a Dormant account based on the account holder's request using the **Activate Dormant Account** screen.

To activate dormant account:

 On the Home screen, from Retail Account Services, under Status Update, click Activate Dormant Account, or specify the Activate Dormant Account in the Search icon har

The Activate Dormant Account screen is displayed.

Figure 3-50 Activate Dormant Account

2. On **Activate Dormant Account** screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-28 Activate Dormant Account - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Activate Dormant Account	This section displays the current status of the account.
Account Status	Displays the current account status. The available options are: • Active • Dormant
Dormant Since	Dormant Since is a display-only field, the system defaults the dormant date while choosing/entering the Account Number. Note: This field is not displayed, if the status of the account is Active.
Activate Account	The user can activate the dormant account by enabling the toggle button. Note: This field is not displayed, if the status of the account is Active.

Click Submit.

The screen is successfully submitted for authorization.

3.8.2 Account Status Change

This topic describes the systematic instructions about account status change. The bank can update the status of an account to No Debit, No Credit, and Frozen.

(i) Note

This screen is applicable only for IRA Accounts.

To change account status:

On the Home screen, from Retail Account Services, under Status Update, click Account Status Change, or specify the Account Status Change in the Search icon bar.

Account Status Change screen is displayed.

Figure 3-51 Account Status Change

2. On Account Status Change screen, specify the fields.

For more information on fields, refer to the field description table.

Table 3-29 Account Status Change - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Status	The existing account statuses will be displayed and users can modify them (No Debit, No Credit, and Frozen) by enabling or disabling the toggle button.

3.9 Limits

Under the **Limits** menu, User can perform actions related to limits for an account.

This topic contains the following subtopics:

Unsecured Overdraft Limits

This topic provides systematic instructions to create an unsecured limit for an account and to update, modify, or delete the existing unsecured limits on the account.

Temporary Overdraft Limit

This topic describes the systematic instructions to maintain Temporary Overdraft Limit. The temporary OD limit is the limit up to which any overdraft is allowed for a specified time over and above the limit provided for an account.

Advance against Uncollected Funds

This topic provides systematic instructions to capture details of limits granted to the account holder towards advance against uncollected funds and to update, modify or delete the existing limits.

3.9.1 Unsecured Overdraft Limits

This topic provides systematic instructions to create an unsecured limit for an account and to update, modify, or delete the existing unsecured limits on the account.

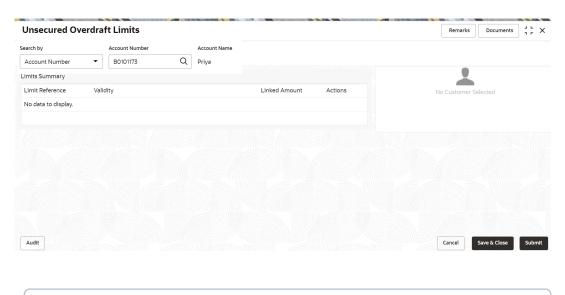

To create or update unsecured limit for an account:

 On the Home screen, from Retail Account Services, under Limits, click Unsecured Overdraft Limits, or specify the Unsecured Overdraft Limits in the Search icon bar.

The Unsecured Overdraft Limits screen is displayed.

Figure 3-52 Unsecured Overdraft Limits

(i) Note

The fields marked as **Required** are mandatory.

2. On **Unsecured Overdraft Limits** screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-30 Unsecured Overdraft Limits - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.

Customer Information and **Limits Summary** is displayed for the selected **Account Number** with existing records.

Figure 3-53 Customer Information - Unsecured Overdraft Limits

- 3. On Unsecured Overdraft Limits screen, under Limits Summary, click the Action icon.
 - The system displays the following options:
 - View
 - Edit
 - Delete
- 4. Click the **View** or **Delete** option to view or delete the existing unsecured limits record.

The non- editable **Unsecured Limits** window is displayed.

Figure 3-54 Unsecured Limits - View or Delete

5. Click the **Edit** option to modify the existing unsecured limits record.

The editable **Unsecured Limits** window is displayed.

Figure 3-55 Unsecured Limits - Edit

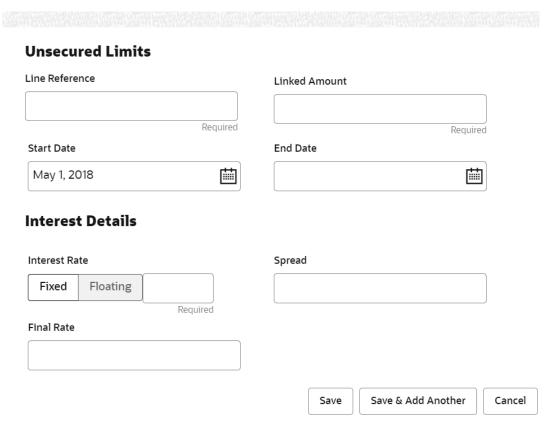

6. To add new unsecured limits, click the **Add** icon.

Unsecured Limits window is displayed.

Figure 3-56 Unsecured Limits

7. On **Unsecured Limits** window, specify the fields. For more information on fields, refer to the field description table below.

Table 3-31 Unsecured Limits - Field Description

Field	Description
Line Reference	Enter any reference number to identify the clean unsecured limit being granted to the account holder.
Linked Amount	Enter the amount of unsecured limit being granted to the customer.
Start Date	The system defaults the Start date as the current branch date. User can modify the Start Date to any future date using the adjoining calendar button. Note: The Start Date cannot be backdated.
End Date	Click on the adjoining calendar icon and specify the End Date of the unsecured limit.
Interest Rate	Displays the interest rate as Fixed. Note: Interest Rate Type and actual Interest Rates defaults from the account class level if defined. In such cases, the Interest Rate Type and Interest Rates automatically defaults in these fields.
Spread	This is an optional field and can be Positive Spread or Negative Spread.
Final Rate	The system defaults the Final Rate by adding the Interest rate. Note: The additional of interest rate can be +/- spread.

On clicking **Save** button, newly added unsecured limit is displayed in the **Limits Summary**.

3.9.2 Temporary Overdraft Limit

This topic describes the systematic instructions to maintain Temporary Overdraft Limit. The temporary OD limit is the limit up to which any overdraft is allowed for a specified time over and above the limit provided for an account.

This limit is independent of any credit line linked to the account. This facility is mostly opted by the customer for short-term overdrawing.

To maintain temporary overdraft limit:

 On the Home screen, from Retail Account Services, under Limits, click Temporary Overdraft Limit, or specify the Temporary Overdraft Limit in the Search icon bar.

Temporary Overdraft Limit screen is displayed.

Figure 3-57 Temporary Overdraft Limit

2. On **Temporary Overdraft Limit** screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-32 Temporary Overdraft Limit - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation. Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the
Temporary Overdraft Start Date	adjacent field would display the label as SSN. The current Business Date defaults in the Temporary Overdraft Start Date field. This can be changed to any future date. However, it cannot be backdated.
Temporary Overdraft End Date	The date on which the temporary overdraft limit comes to an end. This date cannot be lesser than the Temporary Overdraft Start Date. Input to this field is optional. If a date is not specified it means that the temporary overdraft facility is extended to the customer for an indefinite period.
Temporary Overdraft Limit	The limit amount can be input in the Temporary Overdraft Limit field. The ISO currency code will be defaulted in this field based on the Account Currency. This field highlights the limit up to which any overdraft is allowed for a specified period over and above the limit set for this account. This limit is independent of any credit line linked to this account. This is mostly used for short-term overdrawing. Any amount greater than equal one can be input. Negative values not allowed.
Temporary Overdraft Renewal	Optionally, temporary overdraft renewal details can also be specified. Fields specific to renewal become visible only when the Temporary Overdraft Renewal slider is turned on. When the Temporary Overdraft Renewal slider is turned on, specifying Renewal Unit, Renewal Frequency, and Next Renewal Limit becomes mandatory.
Renewal Frequency	Renewal frequency for temporary overdraft is specified in the Renewal Frequency field. The user has the option to specify the renewal frequency in: Days Months Years
Next Renewal Limit	Specify the new renewal limit amount in the Next Renewal Limit field. A value greater than or equal to 1 is specified.

3.9.3 Advance against Uncollected Funds

This topic provides systematic instructions to capture details of limits granted to the account holder towards advance against uncollected funds and to update, modify or delete the existing limits.

The fields marked as **Required** are mandatory.

Uncollected funds are the funds whose value date for the fund availability is in the future. Typically in a Retail banking scenario, cheques deposited into the account for collection represent an uncollected funds since the clearing process generally takes time.

To perform action on uncollected funds:

 On the Home screen, from Retail Account Services, under Limits, click Advance against Uncollected Funds, or specify the Advance against Uncollected Funds in the Search icon bar.

Advance against Uncollected Fundsscreen is displayed.

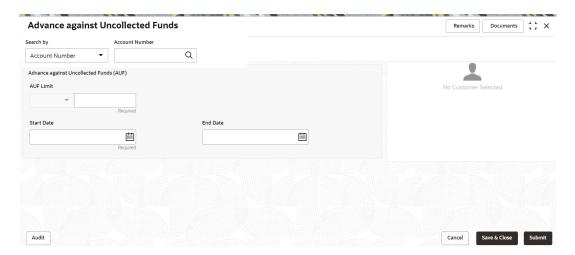

Figure 3-58 Advance against Uncollected Funds

2. On **Advance against Uncollected Funds** screen, specify the account number. For more information on fields, refer to the field description table below.

Table 3-33 Advance against Uncollected Funds - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked. For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	(i) Note The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Name	Account Name is displayed by default based on the account selected.

If an existing AUF Limit is present for the account, the system displays the AUF Limit and if there are no records found, the message 'Given account does not have any AUF limit' is displayed.

Customer Information is displayed for the entered Account Number.

3. On **Advance against Uncollected Funds** screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-34 Advance against Uncollected Funds - Field Description

Field	Description
AUF Limits	Enter the AUF Limit amount. The withdrawable uncollected fund for an account will be either the AUF limit or the uncollected fund whichever is lesser. AUF Limit is always displayed in the account currency.
Start Date	The system defaults the Start Date as the current branch date. You can modify the start date to any future date using the adjoining calender button.
	(i) Note
	Start Date cannot be backdated.

Table 3-34 (Cont.) Advance against Uncollected Funds - Field Description

Field	Description
End Date	This is an optional field. Click the calendar icon and specify the expiry date. i Note End Date cannot be less than Start Date.

4. Click Submit.

The transaction is intiated successfully.

3.10 Amount Block

Under the **Amount Block** menu, User can perform the amount block related actions for an account.

This topic contains the following subtopics:

Amount Block

This topic describes the systematic instruction about Amount Block. An amount block is that part of the balance in a customer's account, which is reserved for a specific purpose.

View and Modify Amount Block

This topic describes the systematic instruction to View, Modify, and Close the Amount Block. The View and Modify Amount Block screen displays the summary of all amount blocks that are present against a Customer's account and allows the user to modify or close the existing amount block.

3.10.1 Amount Block

This topic describes the systematic instruction about Amount Block. An amount block is that part of the balance in a customer's account, which is reserved for a specific purpose.

It can be specified for an account either on the directions of the customer or of that of the bank. When an amount block is set for an account, the balance available for withdrawal is the current balance of the account minus the blocked amount. On the expiry of the period for which the amount block is defined, the system automatically updates the amount block check in the Customer Accounts table.

To create amount block:

 On the Home screen, from Retail Account Services, under Amount Block, click Amount Block, or specify the Amount Block in the Search icon bar.

Amount Block screen is displayed.

Figure 3-60 Amount Block

On the Amount Block screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-35 Amount Block - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email. A specific customer ID can be searched by providing the customer
	name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Name	Account Name is displayed by default based on the account selected.
Amount To be Blocked	Specify the amount to be blocked. The ISO currency code will be defaulted in this field based on the Account Currency.
Effective Date	The date from which the funds in the account need to be blocked can be specified in the Effective Date field. The effective date is the current date of the Branch and is defaulted. The effective date can be changed to a future date. However, backdating the effective date is not allowed.
Expiry date	The date on which the amount block is to be released can be specified in the Expiry Date field. From this date onwards, the blocked amount will be unlocked and is available for withdrawal to the customer. Block instruction amount cannot be modified after the expiry date. This is an optional input field and can be left blank which would mean that the block would remain on the account for an indefinite period.
Block Reason	Click the search icon to view the Block Code pop-up window. By default, this window lists all the available Block Codes. You can search for a specific Block Reason by providing Block Code or Block Description and clicking on the Fetch button. The available fields on the Block Code Pop-Up window are: Block Code Block Description When a Block Reason is selected, the Block Description is automatically populated.
Narrative	The Narrative is defaulted to Amount Block. User can edit the defaulted narrative to a narrative of your choice.

3.10.2 View and Modify Amount Block

This topic describes the systematic instruction to View, Modify, and Close the Amount Block. The View and Modify Amount Block screen displays the summary of all amount blocks that are present against a Customer's account and allows the user to modify or close the existing amount block.

If the Branch Transfer fails for any reason, details of such failed transfers are updated in the Branch Transfer Log. After clearing the faults due to which the Account Branch transfer failed, this screen allows user to resubmit the transfer request again for processing.

To view and modify amount block:

 On the Home screen, from Retail Account Services, under Amount Block, click View and Modify Amount Block, or specify the View and Modify Amount Block in the Search icon bar.

If active amount blocks are available for the account number, the system displays them in tile layout and displays the total amount blocked for all the blocks.

View and Modify Amount Block screen is displayed.

Figure 3-61 View and Modify Amount Block

2. On the **View and Modify Amount Block** screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-36 View and Modify Amount Block - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.

(i) Note

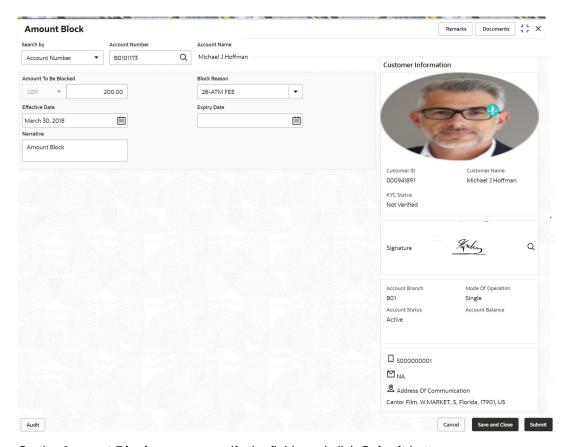

If an active amount blocks are unavailable for the account number, then a message that no amount blocks are present for the given account number is displayed in the **Amount Block Details** section.

3. Click Create Amount Block to add a new amount block.

Amount Block screen is displayed.

Figure 3-62 Amount Block

4. On the Amount Block screen, specify the fields and click Submit button.

For more information on fields, refer to <u>Table 3-35</u>.

A new amount block tile is displayed on the View and Modify Amount Block screen.

On the View and Modify Amount Block screen, under Amount Block Details, click Edit on the tile to modify the Amount Block.

Modify Amount Block screen is displayed.

Figure 3-63 Modify Amount Block

6. On the **Modify Amount Block** screen, specify the fields the user can modify. For more information on fields, refer to the field description table below.

Table 3-37 Modify Amount Block - Field Description

Field	Description
Amount To be Blocked	You can modify the Amount To be Blocked. The ISO currency code is defaulted based on the Account Currency. Note: The amount cannot be in negative or zero value.
Block Reason	User can modify the block reason, by clicking the search icon. You can search for a specific Block Reason by providing Block Code or Block Description and clicking on the Fetch button. When a Block Reason is selected, the Block Description is automatically updated in the field.
Effective Date	User can modify the effective date. The effective date can be changed to a future date. Note: The Effective Date cannot be backdated.
Expiry Date	This is an optional input field. Users can modify the expiry date. From this date onwards, the blocked amount will be unlocked and is available for withdrawal to the customer.
Narrative	User can modify the Narrative field.

- 7. Click the Submit button.
- 8. On View and Modify Amount Block screen, under Amount Block Details, click the Close icon on the tile to close the Amount block.

Close Amount Block screen is displayed.

(i) Note
All the fields are non-editable.

Figure 3-64 Close Amount Block

9. Close the Amount Block by clicking on the Submit button.

3.11 Cheque Book

Under the **Cheque Book** menu, User can perform the check book related actions for an account.

This topic contains the following subtopics:

Cheque Book Request

This topic describes the systematic instructions to request Cheque book. Subject to the facility being available for the category of account the Customer owns, Cheque Books can be requested by the Customer.

Cheque Book Status

This topic describes the systematic instructions about the Cheque Book Status.

Stop Cheque Payment

This topic describes the systematic instructions for stopping the payment of the cheque. Based on customer requests, the bank can stop payment on an uncleared cheque. Stop

payment requests can either be for a single cheque or a continuous sequence of cheques or an amount.

View and Modify Stop Cheque Payment
 User can modify or delete an existing stop payment cheque, based on the customer request.

3.11.1 Cheque Book Request

This topic describes the systematic instructions to request Cheque book. Subject to the facility being available for the category of account the Customer owns, Cheque Books can be requested by the Customer.

Generally, Cheque Books come in pre-defined book sizes and customers can request for issuance of new Cheque books when they run out of Cheque leaves.

To request cheque book:

 On the Home screen, from Retail Account Services, under Cheque Book, click Cheque Book Request, or specify the Cheque Book Request in the Search icon bar.

Cheque Book Request screen is displayed.

Figure 3-65 Cheque Book Request

Note

When the user specifies the Account Number, the system validates whether Cheque Book Required option is enabled for the specified account number in the Account Preference screen. Only if its enabled, user can proceed with screen or else a message is displayed that the cheque book preference is not set at the account preference level.

On Cheque Book Request screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-38 Cheque Book Request - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Number of Cheque Leaves	Input the Number of Cheque Leaves per Cheque book. The number of leaves is a drop-down field that contains numbers that define the size of the Cheque book. Note: The cheque book sizes for a given account number can differ based on the configuration maintained in the Business Product Maintenance.
Request Date	The Request Date defaults to the current business date and this field is not allowed to edit.
Delivery Mode	In the Delivery Mode drop-down, the available options are: Post/Courier Branch Selecting the Branch option indicates that the customer would collect the Cheque book at the Branch whereas selecting the Post/Courier option indicates that the Cheque book will be delivered at the registered mailing address of the account.
	Note: There will be no option to select a delivery address since the mailing address is verified at the time of account opening and all customer communication happens at this address.

Table 3-38 (Cont.) Cheque Book Request - Field Description

Field	Description
Delivery Address	If the Delivery Mode field is selected as Post/Courier , the Delivery Address field displays. The Delivery Address defaults to the address maintained at the Account. This field cannot be edited.
Delivery Branch	If the Delivery Mode field is selected as Branch, the Delivery Branch field displays. The Delivery Branch field displays the account branch by default but this field can be edited. Note: This field allows selecting a branch Id different from the account branch while requesting a new cheque book to be delivered or collected. Enter the new Delivery Branch or click the Search icon to view the Branch ID pop-up window. By default, this window lists all the branches present in the system. User can search for a specific Delivery Branch by providing a Branch ID or Branch Name, and click on the Fetch button.
Narrative	The Narrative field defaults to the Cheque Book Request and allows editing.

3. Click Submit.

The screen is successfully submitted for authorization.

3.11.2 Cheque Book Status

This topic describes the systematic instructions about the Cheque Book Status.

The Cheque Book Status screen helps the user to inquire about the delivery status of the cheque book that the customer has requested for and be able to update its status to Delivered once it is delivered to the customer.

To view the cheque book status:

 On the Home screen, from Retail Account Services, under Cheque Book, click Cheque Book Status, or specify the Cheque Book Status in the Search icon bar.

Cheque Book Status screen is displayed.

Figure 3-66 Cheque Book Status

On Cheque Book Status specify the fields. For more information on fields, refer to the field description table below.

Table 3-39 Cheque Book Status - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Name	Account Name is displayed based on the account selected.
First Cheque Number	By default, the system displays the most recent Cheque book request that the customer has made.
Status	The system displays the following status of the Cheque book request. The available status are: Requested Delivered Destroyed Delivery Awaited or Destruction Awaited is updated as interim status when the transaction is pending approval for delivery or destruction. Note: When the cheque book is updated as Destroyed, the delivery
Requested Date	date is updated to the current business date and highlighted in red. The system displays the date on which the customer requested the
Delivery Date	cheque book. The system displays the date on which the cheque book is delivered to the customer. Automatically the current business date is updated when the status of the cheque book is changed to Delivered . The delivery date is blank for cheque books where the status is Requested .
Delivery Mode	The system defaults the following type of cheque delivery mode. The available options are: Branch Delivery
Address	The system displays the Branch Code and Name by default when the delivery mode is Branch. The system displays the Account Address by default when the delivery mode is Delivery.

Table 3-39 (Cont.) Cheque Book Status - Field Description

Field	Description
Actions	Click the Action icon to update the cheque book status from updated to: Deliver
	• Destory

- On click of the **Deliver** option, the status is updated as **Delivery Pending**. Upon authorization the status is updated as **Delivered**.
- 4. On click of the **Destory** option, the status is updated as **Desctruction Pending**. Upon authorization the status is updated as **Destroyed**.
- 5. Click Submit.

The screen is successfully submitted for authorization.

3.11.3 Stop Cheque Payment

This topic describes the systematic instructions for stopping the payment of the cheque. Based on customer requests, the bank can stop payment on an uncleared cheque. Stop payment requests can either be for a single cheque or a continuous sequence of cheques or an amount.

Users can select the option Single Cheque or Range of Chequesor Amount for a stop payment. If stop payment to be performed for multiple sequential cheque numbers, the user has to select the Range of cheques option. To input a stop payment instruction based on Amount, the user has to select the Amount option.

To stop cheque payment:

 On the Home screen, from Retail Account Services, under Cheque Book, click Stop Cheque Payment, or specify the Stop Cheque Payment in the Search icon bar.

The **Stop Cheque Payment** screen is displayed.

2. On **Stop Cheque Payment** screen, specify the fields. For more information on fields, refer to the field description table below.

Table 3-40 Stop Payment Cheque - Single Cheque - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name. Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	Note: The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.
Account Name	Account Name is displayed by default based on the account selected.
Cheque Number	Enter the Cheque Number on which payment has to be stopped. Note: The option to input a single cheque number is available when Single Cheque is selected. This field is mandatory.
Stop Reason	User can capture the reason for stop payment instruction.
Effective Date	Select or specify the start date for the stop cheque payment instruction based. Note: The effective date should be equal or greater than the current business date.
Expiry Date	Select or specify the end date for the stop cheque payment instruction. Note: The effective date should be equal or greater than the current business date.

Table 3-41 Stop Payment Cheque - Range of Cheque - Field Description

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. User can search for a specific Account Number by providing Customer ID, Account Number, or Account Name, and clicking on the Fetch button.
Cheque Start Number	Enter the first cheque number in a series of cheques on which payment has to be stopped. Note: The option to input Cheque Start Number is available when Range of Cheques is selected.

Table 3-41 (Cont.) Stop Payment Cheque - Range of Cheque - Field Description

Field	Description
Cheque End Number	Enter the last cheque number in a series of cheques on which payment has to be stopped. Note: The option to input Cheque End Number is available when Range of Cheques is selected. Cheque End Number cannot be less than the Cheque Start Number. The cheque numbers must always be sequential.
Stop Reason	User can capture the reason for stop payment instruction.
Effective Date	Select or specify the start date for the stop cheque payment instruction. Note: The effective date should be equal or greater than the current business date.
Expiry Date	Select or specify the end date for the stop cheque payment instruction. Note: The effective date should be equal or greater than the current business date.

Table 3-42 Stop Payment Cheque - Amount - Field Description

Field	Description
Account Number	Enter the Account Number or click the search icon to view the Account Number pop-up window. By default, this window lists all the Account Numbers present in the system. User can search for a specific Account Number by providing Customer ID, Account Number, or Account Name and clicking on the Fetch button.
Account Name	Account Name is displayed based on the account selected.
Amount	Enter the amount on which payment has to stop. If the Stop Payment Type is selected as an Amount , the cheque amount represents the amount for which the cheque was drawn.
Expiry Date	Click the Calendar icon and specify the expiry date. The stop payment expires on the selected date. A stop payment is effective till the End of Day is executed on the expiry date.
Stop Reason	Specify the reason for including the Stop Cheque Payment instruction.
Effective Date	Select or specify the start date for the stop cheque payment instruction. Note: The effective date should be equal or greater than the current business date.
Expiry Date	Select or specify the end date for the stop cheque payment instruction. Note: The effective date should be equal or greater than the current business date.

3. Click Submit.

The screen is successfully submitted for authorization.

3.11.4 View and Modify Stop Cheque Payment

User can modify or delete an existing stop payment cheque, based on the customer request.

When such an action is performed, the status of the cheque or a series of cheques is updated to **Not Used**. In future, when a cheque based transaction is initiated by the customer using any of these cheque numbers, payments are honored by the bank.

To manage the stop cheque payment details:

 On the Home screen, from Retail Account Services, under Cheque Book, click View and Modify Stop Cheque Payment, or specify the View and Modify Stop Cheque Payment in the Search icon bar.

The View and Modify Stop Cheque Payment screen is displayed.

Figure 3-70 View and Modify Stop Cheque Payment

On the View and Modify Stop Cheque Payment screen, click the Search icon or specify the account number in the Account Number field, and press Tab or Enter.

The details are dislayed in the **Stopped Cheques** section.

Figure 3-71 Stopped Cheques Detail

If there are no stop payment records available for a given account number, the system displays a message that there are no stopped payments for the account.

On the View and Modify Stop Cheque Payment screen, you can view a summary of the stopped cheques for the account. For more information on fields, refer to the field description table below.

Table 3-43 View and Modify Stop Cheque Payment - Field Description

Field	Description
Search By	Users can search for an account number by using any of the available search criteria. The account number is set as the default search option. Users can specify the account number directly in the adjacent field or search for an account number by clicking the Search icon. Users can also search for the specific account number by providing customer ID, account number, or account name.
	Other search options available in the Search by field are Customer ID, SSN, Mobile Number, and Email.
	A specific customer ID can be searched by providing the customer name or customer ID. If SSN, mobile, or email IDs are chosen to find an account number, the respective IDs have to be input entirely in the adjacent field for the system to display the account number. For a given search criteria, multiple account numbers may be linked.
	For example, two or more account numbers can be linked to a single mobile number. In such cases, the system displays all the account number matches and the user can select the relevant account number on which to perform a servicing operation.
	The label of the field adjacent to the Search by field changes dynamically. For example, if the Account number is chosen as the search criteria, the label of the adjacent field is displayed as the Account Number. If SSN is chosen as the search criteria, then the adjacent field would display the label as SSN.

Transaction Reference Number - Display the transaction reference number of account to GL transfer. 			

3. Click Close icon to close this screen.

3.13 Staff Restrictions

If staff restriction is enabled, User cannot view the account balance and transaction details of other staff accounts. Also, users are restricted to initiate or approve the transaction of own account.

- The staff restriction is validated while performing transactions or serving operations form branch.
- For enabling staff restrictions for the user, refer User topic in Oracle Banking Security Management System User Guide.
- For creating staff customer, refer Retail Onboarding User Guide.

3.14 Access Restriction

The access restriction feature ensures that only authorized users can manage certain groups of customer accounts, like High Net Worth Individual (HNI) accounts. Access restrictions are applied at all stages of branch service transactions, including initiation, approval, hand-off, retries, and any multi-level authorization processes.

At the initiation stage, when the customer enters the account number, the system checks for access restrictions and shows an error if the user is not allowed access. For approval and hand-off retries, when the authorizer opens the approval screen, the system will again verify the access restrictions.

The Access Restriction can be enabled using the **User Creation** and **Party Creation** screens.

(i) Note

- Access restriction validation occurs after other checks, such as the account status (Open or Closed) and any staff restrictions.
- Access restriction is validated against the primary customer and joint holders of the account.

Below are the use cases:

Table 3-51 Access Restrictions Use Case

Customer	Customer Access Group	User Access	Branch Servicing Operations Allowed/Restricted?
000001	HNI	-	Restricted
000001	HNI	HNI	Allowed
000001	HNI	CELEBRITIES	Restricted
000002	-	-	Allowed
000002	-	HNI	Allowed

3.15 Multi-Currency Accounts

The multi-currency accounts functionality helps the customer to improve customer experience and operational efficiency. This kind of account is useful for the customer's dealing with international payments or perform transactions in different currencies.

The following are the financial screens, where multi-currency functionality is supported:

- Account 360
- Overdraft Limit Summary
- Unsecured Overdraft Limit
- Temporary Overdraft Limit
- Advance Against Uncollected Funds
- Create Amount Block
- View and Modify
- Amount Block
- Account Transactions
- Account Balance Inquiry
- Secured Overdraft Limit

The following are the non-financial screens, where multi-currency functionality are supported:

- Account Address Update
- Joint Holder Maintenance
- Nominee/Beneficiary Details Update
- Account Preferences

- Customer Relationship Maintenance
- Account Statement Frequency
- Activate Dormant/Inactive Account
- Account Status Change
- Cheque Book Request
- Stop Cheque Payment
- Cheque Book Status
- View/Modify Stop Cheque
- Account Closure Inquiry
- Memo Maintenance

The following are the screens, where multi-currency functionality is not supported:

- Courtesy Pay Maintenance
- Account Garnishment
- Online Account Sweep In
- Online Account Sweep History
- Regulation D Transaction Inquiry
- Account Closure

To set currency from multi-currency:

Specify the account number in the financial screens.
 The following screens is displayed.

Figure 3-76 Multi Currency Accounts

- 2. In the Multi Currency Accounts section, select the currency.
- 3. The currency gets defaulted, for the specific screen.

3.16 Business Events in Oracle Banking Retail Accounts

This topic describes about the processing of business events in online for Oracle Banking Retail Accounts.

The System has the capability to generate events based customer-initiated or system-initiated actions. The system generates these events related to a customer and their accounts when activities or actions related to the customer or accounts take place that are useful for a service interaction. Some of these generated events are also important to be communicated to customers in a timely manner as per regulations.

The system has the capability to generate and hand over the event with the required details to an external system through Event Delivery Platform (EDP) for their consumption and the external system can use the data handed over for any purpose as deemed necessary. For example, the external system can use the data for communicating the customer of the event with necessary details.

The following business events is available as follows:

- **Account Creation**
- Debit transaction
- Credit transaction
- Minimum Credit or Debit transaction threshold
- Maximum Credit or Debit transaction threshold
- Amend Account
- Check book request
- Stop Check Payment
- Manual/ Auto revoke stop check payment
- **Account Closure**
- Balance Thresholds (Min balance threshold, Max balance threshold, Negative balance, Daily Account Summary).

The static data is factory shipped as part of this release as below.

When the event happens and passes the underlying rule, the system will publish the event with necessary facts (Data) as shown in the table for the multiple third party systems to consume. A single event can be published to multiple consumers.

(i) Note

Facts and Rules are the key elements for generating the Business Events. Banks can configure the Facts and Rules, with the naming convention specified in the below tables respectively.

OBRAC C	NOTICE S	REGD	F_TXN_DATE	Transaction Date
OBRAC C	NOTICE S	REGD	F_TXN_CODE	Transaction Code
OBRAC C	NOTICE S	REGD	F_REG_D_WARNING_TRANSAC TION_THRESHOLD	Reg D Warning Threshold
OBRAC C	NOTICE S	REGD	F_ACC_NO	Account Number
OBRAC C	NOTICE S	REGD	F_DATE_OF_VIOLATION_THRES HOLD_BREACH	Reg D Warning BreachDate
OBRAC C	NOTICE S	REGD	F_WARNING_TXN_MONTH_AND _YEAR	Reg D Warning Transaction MonthYear
OBRAC C	NOTICE S	REGD	F_REG_D_12_MONTH_ROLLING _PERIOD_VIOLATION_THRESHO LD	Reg D 12 Month Rolling Period Violation Threshold
OBRAC C	NOTICE S	REGD	F_REG_D_MONTHLY_VIOLATION _THRESHOLD	Reg D Monthly Violation Threshold
OBRAC C	NOTICE S	REGD	F_REG_D_TXN_COUNT_FOR_T HE_MONTH	Reg D Transaction Count For The Month

Table 3-55 (Cont.) List of Facts

Domain	Categor y	Event	Fact Name	Fact Description
OBRAC C	NOTICE S	REGD	F_REG_D_VIOLATION_MONTHS _IN_12_MONTH_ROLLING_PERI OD	Reg D Yearly Violation
OBRAC C	NOTICE S	REGD	F_REG_D_VIOLATION_THRESH OLD	Reg D Violation Threshold
OBRAC C	NOTICE S	REGD	F_CUST_NO	Customer No
OBRAC C	NOTICE S	REGD	F_ACC_TYPE	Account Type
OBRAC C	NOTICE S	REGD	F_ACC_NAME	Account Name
OBRAC C	NOTICE S	REGD	F_CUST_NAME	Customer Name
OBRAC C	NOTICE S	REGD	F_CUST_TYPE	Customer Type
OBRAC C	NOTICE S	REGD	F_NEW_ACC_CLASS	New Account Class

Table 3-56 List of Rules

Rule Name	Rule Description
EVENT_JOINT	Joint Holder
EVENT_GUAR	Guardian
EVENT_REGD_V_CAL_MNTH	Violation For Calendar Month
EVENT_REGD_V_YRLY	Yearly Violation
EVENT_REGD_V_MNTHLY	Monthly Threshold Violation
EVENT_REGD_WARN	Reg D Warning
EVENT_GARN	Garnishment
EVENT_STMT_PERIODIC	Periodic
EVENT_CLOSURE	Closure
EVENT_ESCH_CLOS	Escheatment Closure

Functional Activity Codes

This topic contains the functional activity codes available in Oracle Banking Retail Accounts.

Screen Name/API Name	Functional Activity Code	Action	Description
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ AMEND	MODIFY	To amend an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ AUTHORIZE	AUTHORIZE	To authorize an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ CLOSE	CLOSE	To close an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ DELETE	DELETE	To delete an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ NEW	NEW	To make a new account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ REMOVELOCK	All Operations	To remove lock on an account class resource
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ REOPEN	REOPEN	To reopen an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ SUBMIT	SUBMIT	To submit an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ VALIDATE	VALIDATE	To validate an account class
Business Product Maintenance	OBRACC_FA_ACCOUN TCLASSAGGREGATE_ VIEW	VIEW	To view an account class
Business Product Maintenance	OBRACC_FA_SER_AC COUNTCLASSAGGRE GATE_AMEND	UNLOCK	Update business product service API
Business Product Maintenance	OBRACC_FA_SER_AC COUNTCLASSAGGRE GATE_CLOSE	CLOSE	Close business product service API
Business Product Maintenance	OBRACC_FA_SER_AC COUNTCLASSAGGRE GATE_NEW	NEW	Create business product service API
Business Product Maintenance	OBRACC_FA_SER_AC COUNTCLASSAGGRE GATE_REOPEN	REOPEN	Reopen business product service API

Screen Name/API	Functional Activity	Action	Description
Name	Functional Activity Code	Action	Description
Business Product Maintenance	OBRACC_FA_SER_AC COUNTCLASSAGGRE GATE_VIEW	VIEW	View business product service API
Business Events	CDDAPP_FA_LOG_NO TICE_EVENTGEN_SAV E	SAVE	Notice Event Generation Logging
Statement	DDASTMT_FA_DOWNL OAD_STATEMENT_SE RVICE	VIEW	Download Account Statement Service
Statement	DDASTMT_FA_GENER ATE_CONSOL_STMT_ SERVICE	NEW	Generate consolidated statement service
Statement	DDASTMT_FA_GENER ATE_STMT_SERVICE	NEW	Generate Account Statement Service
Statement	DDASTMT_FA_GET_ST ATEMENT_SERVICE	VIEW	Get Account Statement Service
Statement	DDASTMT_FA_SERVIC E_GET_STATEMENT_P REF	VIEW	Get Account Statement Preferences
External Relationship Code	DDACFG_FA_EXTREL ATIONSHIPCODE_GET SUMMARY	VIEW	View external relationsheip summary API
Cheque Book Service	CDDAPP_FA_SER_CH EQUEBOOKSERVICE_ AMEND	UNLOCK	Update Cheque Book Services for Service API
Cheque Book Service	CDDAPP_FA_SER_CH EQUEBOOKSERVICE_ CLOSE	CLOSE	Close Cheque Book Services for Service API
Cheque Book Service	CDDAPP_FA_SER_CH EQUEBOOKSERVICE_ NEW	NEW	Create Cheque Book Services for Service API
Cheque Book Service	CDDAPP_FA_SER_CH EQUEBOOKSERVICE_ REOPEN	REOPEN	Reopen Cheque Book Services for Service API
Cheque Book Service	CDDAPP_FA_SER_CH EQUEBOOKSERVICE_ VIEW	VIEW	View Cheque Book Services for Service API
Cheque Book Service	CDDAPP_FA_SER_ST OPPAYMENT_AMEND	UNLOCK	Update Stop Payment Services for Service API
Cheque Book Service	CDDAPP_FA_SER_ST OPPAYMENT_CLOSE	CLOSE	Close Stop Payment Services for Service API
Cheque Book Service	CDDAPP_FA_SER_ST OPPAYMENT_NEW	NEW	Create Stop Payment Services for Service API
Cheque Book Service	CDDAPP_FA_SER_ST OPPAYMENT_REOPEN	REOPEN	Reopen Stop Payment Services for Service API
Cheque Book Service	CDDAPP_FA_SER_ST OPPAYMENT_VIEW	VIEW	View Stop Payment Services for Service API
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_ALLBRANCHACCO UNT	VIEW	To get all accounts of a branch

Screen Name/API	Functional Activity	Action	Description
Name	Functional Activity Code	Action	Description
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_AMEND	MODIFY	To amend an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_AUTHORIZE	AUTHORIZE	To authorize an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_CLOSE	CLOSE	To close an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_DELETE	DELETE	To delete an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_LISTALLACCOUNT	VIEW	To list all accounts
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_NEW	NEW	To create a new account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_REMOVELOCK	All Operations	To remove lock on an account resource
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_REOPEN	REOPEN	To reopen an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_SUBMIT	SUBMIT	To submit an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_VALIDATE	VALIDATE	To validate an account
Account Service	OBRACC_FA_ACCOUN TSERVICESAGGREGA TE_VIEW	VIEW	To view an account
Account Service	OBRACC_FA_ACCOUN TSERVICES_MIGRATE ACCOUNT	NEW	To migrate an external account
Integration Service	OBRACC_FA_GET_CU STOMERDATA	VIEW	To Get customer data
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_ALER TS	VIEW	To Get customer alerts
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_ASSE TSLIAB	VIEW	To Get customer assets liability details
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_CASA SUMMARY	VIEW	To Get casa summary
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_HOUS EHOLD	VIEW	To Get customer details

Corean Name (ADI	Functional Activity	Antina	Bassintian
Screen Name/API Name	Functional Activity Code	Action	Description
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_HOUS EHOLDBALANCE	VIEW	To Get customer balance
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_LAST TXN	VIEW	To Get last 5 transactions
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_SUMM ARY	VIEW	To Get customer summary
Integration Service	OBRACC_FA_INTEGRA TIONSERVICES_RELA TEDACCOUNTS	POST	Retrieves related accounts of a customer. If customer is minor, it restricts if there is only custodian for an account.
Integration Service	OBRACC_FA_SER_INT EGRATIONSERVICES_ GETBALANCESUMMA RY	POST	Retrieves the account balance along with Limit utilization status for the given account
Product Switch	OBRACC_FA_SER_AC COUNTBATCHSERVIC E_NEW	NEW	For Product switch batch
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_AMEND	MODIFY	To update account basic details
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_AMEND_BASI CDETAILS	MODIFY	To update account basic details
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_AUTO_AMEN D	MODIFY	To auto modify account
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_CHEQUEBO OK	NEW	To create chequebook for given accounts
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_CLOSE	CLOSE	To close the account
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_EXTERNALA CCOUNTVALIDATION	VALIDATE	To validate external account
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_GETCUSTAC COUNTS	VIEW	To get customer accounts
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_GETERRORC ODEENTRIES	VIEW	To get error code entries
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_NEW	NEW	To create a new account

Screen Name/API Name	Functional Activity Code	Action	Description
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_POPULATE_P RE_RECORD	NEW	To create pre record in external system
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_PUSH_ACCO UNTMIS	All Operations	To push account mis
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_PUSH_CMCE XTERNAL	All Operations	To account to cmc external
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_PUSH_CMCS TRADDRESS	All Operations	To push cmc structured address accounts
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_PUSH_ICACC OUNT	All Operations	To push IC accounts
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_PUSH_MCY	All Operations	To push to mcy account
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_PUSH_STATE MENT	All Operations	To push account to statement service
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_REOPEN	REOPEN	To reopen a closed account
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_UPDATE_FIN AL_STATUS	All Operations	To update final external handoff status
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_VALIDATEAN DGETACCOUNTS	VALIDATE	To validate and get accounts
Account Service	OBRACC_FA_SER_AC COUNTSERVICESAGG REGATE_VIEW	VIEW	To view an account
Product Switch	OBRACC_FA_SER_PO PULATEACCPRODSWI TCH_NEW	NEW	To populate account product switch entries
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_AMEND	MODIFY	To update account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_AUTHORIZ E	AUTHORIZE	To authorize account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_CLOSE	CLOSE	To close account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_DELETE	DELETE	To delete account operating instruction

Screen Name/API Name	Functional Activity Code	Action	Description
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_NEW	NEW	To create new account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_REMOVEL OCK	All Operations	To remove lock on account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_REOPEN	REOPEN	To reopen a closed account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_SUBMIT	SUBMIT	To submit account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_VALIDATE	VALIDATE	To validate account operating instruction
Mode Of Operation	RDDA_FA_ACCOPERA TINGINSTR_VIEW	VIEW	To view account operating instruction
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_AMEND	MODIFY	To update joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_AUTHORIZE	AUTHORIZE	To authorize joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_CLOSE	CLOSE	To close joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_DELETE	DELETE	To delete joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_NEW	NEW	To create new joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_REMOVELOC K	All Operations	To remove lock on joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_REOPEN	REOPEN	To reopen a closed joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_SUBMIT	SUBMIT	To submit joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_VALIDATE	VALIDATE	To validate joint holder type
Joint Holder Type	RDDA_FA_JOINTHOLD ERTYPE_VIEW	VIEW	To view joint holder type
Joint Holder Category	RDDA_FA_JOINTHOLD ERCATEGORY_VIEW	VIEW	To Fetch Joint Holder Category
Balance Enquiry	RDDA_FA_PP_TXNBS_ GET_BALANCES	VIEW	To get balances
Balance Enquiry	RDDA_FA_PP_TXNBS_ GET_BALANCES_SER VICE	VIEW	To get balances
Product Switch	RDDA_FA_PP_TXNBS_ REGD_VIOLATION	NEW	To trigger product switch if account has regulatory violation
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_AMEND	MODIFY	To update relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_AUTHORIZE	AUTHORIZE	To authorize relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_CLOSE	CLOSE	To close relationship type

Screen Name/API Name	Functional Activity Code	Action	Description
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_DELETE	DELETE	To delete relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_NEW	NEW	To create new relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_REMOVELO CK	All Operations	To remove lock on relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_REOPEN	REOPEN	To reopen a closed relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_SUBMIT	SUBMIT	To submit a relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_VALIDATE	VALIDATE	To validate a relationship type
Relationship Type	RDDA_FA_RELATIONS HIPTYPE_VIEW	VIEW	To view relationship type
Initial Deposit	RDDA_FA_PP_TXN_US _GET_INTIALDEPOSIT	VIEW	Get all valid Initial funded accounts
Initial Deposit	RDDA_FA_PP_TXN_US _PROCESS_ACCOUNT S	VIEW	Initial funding batch process
Initial Deposit	RDDA_FA_PP_TXN_US _PROCESS_BATCH	VIEW	Initial funding batch to release the allocation
Initial Deposit	RDDA_FA_PP_TXN_US _RELEASE_ALLOCATI ON	VIEW	Common Endpoints exposed by plato- batch-dependencies
Initial Deposit	PLATO_FA_BATCH_OB CDDATXNUS_FUNC	VIEW	Common Endpoints exposed by plato- batch-dependencies
Initial Deposit	PLATO_FA_BATCH_OB RACCTXNUS_FUNC	VIEW	Common Endpoints exposed by plato- batch-dependencies
Account Batch	RDDA_FA_PP_ACC_BT CH_AUTO_PROD_SWI TCH_BATCH	VIEW	The endpoint supports for online and Batch as it reads these records from driver table and updates the record with status Processed or Error in driver.
Account Batch	RDDA_FA_PP_ACC_BT CH_POPULATE_PROD _ENTRIES	VIEW	The endpoint is used to populate product details such as old account class,new account class, source system, status, business date and branch in driver table.
Account Batch	CDDA_FA_PP_ACC_BT CH_POPULATE_PROD _ENTRIES	VIEW	The endpoint is used to populate product details such as old account class,new account class, source system, status, business date and branch in driver table.
Account Batch	CDDA_FA_PP_ACC_BT CH_AUTO_PROD_SWI TCH_BATCH	VIEW	The endpoint supports for online and Batch as it reads these records from driver table and updates the record with status Processed or Error in driver.
Account Batch	PLATO_FA_BATCH_RD DAPPACCBATCH_FUN C	VIEW	Common Endpoints exposed by plato- batch-dependencies
Account Batch	PLATO_FA_BATCH_DD APPACCBATCH_FUNC	VIEW	Common Endpoints exposed by plato- batch-dependencies

Screen Name/API Name	Functional Activity Code	Action	Description
Event Generation	CDDAPP_FA_LOG_NO TICE_EVENTGEN_SAV E	SAVE	To log notice events in event generation service
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_NEW	NEW	Creating new Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_AMEND	UNLOCK	Modify/Amend Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_VIEW	VIEW	View Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_AUTHORI ZE	AUTHORIZE	Authorize Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_DELETE	DELETE	Delete Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_CLOSE	CLOSE	Close Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_REOPEN	REOPEN	Reopen Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_REJECT	REJECT	Reject Insolvency Block Details
Insolvency Block Details	DDACFG_FA_INSOLVE NCYBLOCK_GETSUM MARY	VIEW	Get summary of Insolvency Block Details
Insolvency Batch	OBRACC_FA_INSOLVE NCYBTCH_PREPROCE SS	NEW	Insolvency preprocess batch for allocation
Insolvency Batch	OBRACC_FA_INSOLVE NCYBTCH_BATCHRUN	NEW	Insolvency batch process that are allocated in the preprocess batch
Insolvency Batch	OBRACC_FA_INSOLVE NCYBTCH_ABORT	NEW	Abort insolvency batch

Table A-1 Functional Activity Codes for Account Servicing Screens

Screen Name/API Name	Functional Activity Code	Action	Description
Account 360	CSR_FA_CASA_DASH	Query Details	Get the details of the account and balances.
Account Address Update	CSR_FA_ACADRR_SAVE	Initiation	Initiate the address update request.
Account Address Update	CSR_FA_ACADRR_AUTH	Authorization	Approve or Reject the address update request.
Joint Holder Maintenance	CSR_FA_UPDJH_SAVE	Initiation	Initiate the joint holder update request.
Joint Holder Maintenance	CSR_FA_UPDJH_AUTH	Authorization	Approve or Reject the joint holder update request.
Nominee Maintenance	CSR_FA_UPDNOM_SAVE	Initiation	Initiate the nominee update request.
Nominee Maintenance	CSR_FA_UPDNOM_AUTH	Authorization	Approve or Reject the nominee update request.
Account Preferences	CSR_FA_ACCPRF_SAVE	Initiation	Initiate the account preference update request.
Account Preferences	CSR_FA_ACCPRF_AUTH	Authorization	Approve or Reject the account preference update request.
Account Closure	CSR_FA_ACCLSR_SAVE	Initiation	Initiate the account closure request.
Account Closure	CSR_FA_ACCLSR_AUTH	Authorization	Approve or Reject the account closure request.
Ad hoc Account Statement	CSR_FA_ACC_STMT_GEN	Initiation	Initiate adhoc account statement request.
Account statement frequency	CSR_FA_ASFSAV_SAVE	Initiation	Initiate account statement frequency change request.
Account Statement Frequency	CSR_FA_ASFSAV_AUTH	Authorization	Authorise or Reject account statement frequency change request.
Activate Dormant Account	CSR_FA_ADASAV9_SAVE	Initiation	Initiate the activation of dormant account request.
Activate Dormant Account	CSR_FA_ADASAV9_AUTH	Authorization	Approve or Reject the activation of dormant account request.
Account Status Change	CSR_FA_ACSTCHNG_SAVE	Initiation	Initiate the account status change request.

Table A-1 (Cont.) Functional Activity Codes for Account Servicing Screens

Screen Name/API Name	Functional Activity Code	Action	Description
Account Status Change	CSR_FA_ACSTCHNG_AUTH	Authorization	Approve or Reject the account status change request.
Unsecured Overdraft Limit	CSR_FA_UNSODLMT_SAVE	Initiation	Initiate the unsecured overdraft limit request.
Unsecured Overdraft Limit	CSR_FA_UNSODLMT_AUTH	Authorization	Approve or Reject the unsecured overdraft limit request.
Temporary Overdraft Limit	CSR_FA_TODCSR_SAVE	Initiation	Initiation request for creation of temporary overdraft limit.
Temporary Overdraft Limit	CSR_FA_TODCSR_AUTH	Authorization	Approve or Reject the temporary overdraft limit request.
Advance Against Uncollected Funds	CSR_FA_AUFLIMIT_SAVE	Initiation	Initiate the advance against uncollected funds request.
Advance Against Uncollected Funds	CSR_FA_AUFLIMIT_AUTH	Authorization	Approve or Reject the advance against uncollected funds request.
Create Amount Block	CSR_FA_AMTBLK_SAVE	Initiation	Initiate the create amount block request.
Create Amount Block	CSR_FA_AMTBLK_AUTH	Authorization	Approve or Reject the create amount block request.
View Amount Block	CSR_FA_MOAMTBLK_VIEW	Query Details	View the details of an existing amount block.
Modify Amount Block	CSR_FA_MOAMTBLK_SAVE	Initiation	Initiate the modify amount block request.
Modify Amount Block	CSR_FA_MOAMTBLK_AUTH	Authorization	Approve or Reject the modify amount block request.
Cheque Book Request	CSR_FA_CHQBKRQ_SAVE	Initiation	Initiate the cheque book request.
Cheque Book Request	CSR_FA_CHQBKRQ_AUTH	Authorization	Approve or Reject the cheque book request.
Stop Cheque Payment	CSR_FA_STOPCHEQ_SAVE	Initiation	Initiate the stop cheque payment request.
Stop Cheque Payment	CSR_FA_STOPCHEQ_AUTH	Authorization	Approve or Reject the stop cheque payment request.
View & Modify Stop Cheque Payment	CSR_FA_MODSTCHQ_SAVE	Initiation	Initiate the modify stop cheque request.
View & Modify Stop Cheque Payment	CSR_FA_MODSTCHQ_AUTH	Authorization	Approve or Reject the modify stop cheque request.
Reverse Stop Cheque Payment	CSR_FA_RVSTCHEQ_SAVE	Initiation	Initiate reversal of stop cheque request.
Reverse Stop Cheque Payment	CSR_FA_RVSTCHEQ_AUTH	Authorization	Approve or Reject reversal of stop cheque request.
Cheque Book Status Change	CSR_FA_CHQBKSTS_SAVE	Initiation	Initiate the cheque book status change request.

Table A-1 (Cont.) Functional Activity Codes for Account Servicing Screens

Screen Name/API Name	Functional Activity Code	Action	Description
Cheque Book Status Change	CSR_FA_CHQBKSTS_AUTH	Authorization	Approve or Reject the cheque book status change request.
Account Transactions	CSR_FA_ACC_TRN	Query Details	Fetch the account transaction details.
Cheque Status Inquiry	CSR_FA_CHEQUE_STATUS_INQ UIRY	Query Details	Inquire the cheque status.

Table A-2 Functional Activity Codes for Servicing Dashboard

Servicing Widget	Functional Activity Code	Action	Description
Bulletin	REMO_FA_BULLETIN_BOARD	Query Details	Access the bulletin board widget on the dashboard.
Pending Documentation	REMO_FA_PENDING_DOC	Query Details	Access the pending documents widget on the dashboard.
Service Requests	REMO_FA_SER_REQ_GET	Query Details	Initiate the service requests from the widget on the dashboard.
My Dairy	REMO_FA_PJ_CSR_GET_MYDIA RY	Query Details	Capture the notes using my diary widget on the dashboard.
Pending Tasks	REMO_FA_MY_TRAN	Query Details	Access the pending tasks widget on the dashboard.

Basic Functional Activity Codes

This activity code is needed for user to login and access menu and tasks.

Actions are applicable only for transaction screens where conductor work flow is used. For login and access screens, actions are not applicable.

Table A-3 Basic Functional Activity Code

Screen Name/API Name	Functional Activity Code	Action	Description
View Currency Definition	CMC_FA_CURRENCY_DEFN_VI EW	Not Applicable	To view the currency code definitions.
View Branch Parameter	CMC_FA_EXT_BRANCH_PARAM ETERS_VIEW	Not Applicable	To view the branch parameter maintenance.
View local holiday (for the Branch)	CMC_FA_LOCAL_HOLIDAY_VIE W	Not Applicable	To view the holiday maintenance.
View Awaiting Customer Clarification tasks	CMC_FA_SUBMENU_1_Awaiting	Not Applicable	For awaiting tasks.

Table A-3 (Cont.) Basic Functional Activity Code

Screen Name/API Name	Functional Activity Code	Action	Description
View Completed tasks	CMC_FA_SUBMENU_1_Complete d	Not Applicable	To view the completed tasks on the Tasks page.
View Free tasks	CMC_FA_SUBMENU_1_FreeTask s	Not Applicable	To access the free tasks on the Tasks page.
View Hold tasks	CMC_FA_SUBMENU_1_HoldTask s	Not Applicable	To access the hold tasks.
View My tasks	CMC_FA_SUBMENU_1_MyTasks	Not Applicable	To access the My Tasks on the Tasks page.
View My Pending tasks	REMO_FA_SUBMENU_1_MY_PE NDING_TASKS	Not Applicable	To access the My Pending Tasks on the Tasks page.
Search tasks	CMC_FA_SUBMENU_1_SEARCH	Not Applicable	To access the Search page on the Tasks page.
View Subprocess tasks	CMC_FA_SUBMENU_1_Subproce ss	Not Applicable	To access the Sub process tasks on the Tasks page.
View Supervisor tasks	CMC_FA_SUBMENU_1_Supervis or	Not Applicable	To access the Supervisor tasks on the Tasks page.
Business process workflow maintenance	CMC_FA_SUBMENU_1_WORKFL OW_MAINT	Not Applicable	To initiate the workflow maintenance.
Screen Not Applicable	OBRC_FA_CONFIG_MASTER	Not Applicable	To fetch the regional configuration.
Screen Not Applicable	SMS_FA_USER_LOGIN	Not Applicable	For user to login.
View System Dates	CMC_FA_SYSTEM_DATES_VIEW	Not Applicable	To view the calendar.
View Dashboard	SMS_FA_MENU_DASHBOARD_V IEW	Not Applicable	To launch the dashboard.
View Priority Code Maintenance	CMC_MENU_FA_PRIORITY_COD E_MAINT_VIEWALL	Not Applicable	To view priority code maintenance.
Screen Not Applicable	OBRC_FA_GRID_CONFIG	Not Applicable	To get grid configuration.
Screen Not Applicable	OBRC_FA_PROCESS_CONFIG	Not Applicable	To get all process configuration.
Screen Not Applicable	OBRC_FA_SCREEN_CONFIG	Not Applicable	To get all screen configuration.
View Users	SMS_FA_USER_VIEW	Not Applicable	To view user details.

Error Codes and Messages

This topic contains error codes and messages found while using Oracle Banking Retail Accounts Service.

Table B-1 List of Error Codes and Messages

Error Code	Error Message
CAPM-COM-001	Record does not exist
CAPM-COM-002	Unable to parse JSON
CAPM-COM-003	Application Number cannot be blank or "null".
CAPM-COM-004	Process Ref Number cannot be blank or "null".
CAPM-COM-005	Error saving the datasegment
CAPM-COM-006	Unexpected error occurred during runtime
CAPM-COM-007	Application Initiated Successfully
CAPM-DEL-001	Record deleted successfully
CAPM-DEL-002	Record(s) deleted successfully
CAPM-DEL-003	Failed to Delete the record
CAPM-MOD-001	Record Successfully Modified
CAPM-MOD-002	Failed to Update the record
CAPM-SAV-001	Record Saved Successfully.
CAPM-SAV-002	Failed to create the record
CAPM-SAV-003	The record is validated and saved successfully.
CAPM-SAV-004	Record already exists
CAPM-VAL-001	The record is successfully validated.
CAPM-VAL-002	Error in fetching Summary Info.
CAPM-TJS-VAL-00	Process code is not set for the selected Lifecycle
CAPM-TJS-VAL-01	AccountType, LifeCycleCode, BranchCode cannot be null
CAPM-TJS-VAL-02	BusinessProcess Code cannot be null
CAPM-TJS-VAL-03	Failed to generate the reference number
CAPM-TJS-VAL-04	No business process code found
CAPM-TJS-VAL-05	Application Initiation Failed
CAPM-TJS-VAL-06	Unable to Parse Application Initiation Json
CAPM-TJS-VAL-07	Process Code cannot be null for the lifecycle
CAPM-TJS-VAL-08	Error in retrieving application category
CAPM-TJS-VAL-09	Error in retrieving TaskID List
CAPM-TJS-VAL-10	Workflow Definition Not Found
CAPM-TJS-VAL-11	Error while checking workflow definition existence
CAPM-TJS-VAL-12	Response from EA service is null
CAPM-TJS-VAL-13	Only maximum 4 characters are allowed
CAPM-TJS-VAL-14	Invalid Event Serial Number. Value should be a positive number
CAPM-TJS-VAL-15	The record is successfully validated.
CAPM-TJS-MOD-00	Record Successfully Modified

Table B-1 (Cont.) List of Error Codes and Messages

Error Code	Error Message
CAPM-TJS-SAV-00	Record Saved Successfully.
CAPM-TJS-COM-00	Unable to parse JSON
CAPM-TJS-COM-01	Application Number cannot be blank or "null".
CAPM-TJS-COM-02	Unexpected error occurred during runtime
CAPM-TJS-COM-03	Application Initiated Successfully
CAPM-TJS-COM-04	Application Number cannot be blank or "null".
CAPM-TJS-VAL-16	Error while checking workflow definition existence
CAPM-TJS-COM-05	Update status failed
CAPM-TJS-COM-06	Unable to get sub-domain info
CAPM-TJS-VAL-17	Application date parsing failed
CAPM-TJS-VAL-18	Application number not valid
CAPM-TJS-VAL-19	Unable to parse application transaction flow JSON
CAPM-TJS-VAL-21	Failed in parsing date
CAPM-TJS-SAV-01	Record Saved Successfully.
CAPM-TJS-VAL-22	Source code cannot be null or empty
CAPM-TJS-VAL-23	Error while parsing source code from DDA-CONFIG-SOURCECODE-SERVICES
CAPM-TJS-VAL-24	Source code is invalid
CAPM-TJS-VAL-25	Error in getting data from DDA-CONFIG-SOURCECODE-SERVICES
CAPM-TJS-VAL-26	Error in validating the record.
CAPM-TJS-DEF-00	Error in defaulting source code details
CAPM-TJS-VAL-27	Invalid entry type
CAPM-TJS-VAL-28	Invalid posting into
CAPM-TJS-VAL-29	Account currency amount cannot be NULL or empty
