This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Purpose

This guide is designed to help you quickly get acquainted with the identifier based virtual accounts functions of Oracle® Banking Virtual Account Management Cloud Service.

Audience

This guide is intended for Back Office Data Entry Clerk, Back Office Managers/Officers, Product Managers, End of Day Operators, and Financial Controller users.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve.

Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

The related documents are as follows:

Conventions

The following text conventions are used in this document:

Convention	Meaning	
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.	
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.	
monospace	Acce Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.	

Screenshot Disclaimer

Personal information used in the interface or documents are dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description	
IBAN	International Bank Account Number	
MCA	Multi-Currency Account	

Basic Actions

The basic actions performed in the screens are as follows:

Table 2 Basic Actions

Actions	Description		
New	 Click New to add a new record. The system displays a new record to specify the required data. The fields marked with Required are mandatory. This button is displayed only for the records that are already created. 		
Save	Click Save to save the details entered or selected in the screen.		
Unlock	 Click Unlock to update the details of an existing record. The system displays an existing record in editable mode. This button is displayed only for the records that are already created. 		
Authorize	 Click Authorize to authorize the record created. A maker of the screen is not allowed to authorize the same. Only a checker can authorize a record. This button is displayed only for the already created records. For more information on the process, refer Authorization Process. 		
Approve	Click Approve to approve the initiated record. • This button is displayed once you click Authorize .		
Reject	Click Reject to reject the initiated record. • This button is displayed once you click Authorize .		
Audit	 Click Audit to view the maker details, checker details of the particular record. This button is displayed only for the records that are already created. 		
Close	Click Close to close a record. This action is available only when a record is created.		
Confirm	Click Confirm to confirm the action performed.		
Cancel	Click Cancel to cancel the action performed.		
Compare	 Click Compare to view the comparison through the field values of old record and the current record. This button is displayed in the widget once you click Authorize. 		
View	Click View to view the details in a particular modification stage. • This button is displayed in the widget once you click Authorize .		
View Difference only	Click View Difference only to view a comparison through the field element values of old record and the current record, which has undergone changes. • This button is displayed once you click Compare.		
Expand All	Click Expand All to expand and view all the details in the sections. • This button is displayed once you click Compare .		
Collapse All	Click Collapse All to hide the details in the sections. • This button is displayed once you click Compare .		
ОК	Click OK to confirm the details in the screen.

1 Introduction

This topic provides the information about the identifier based virtual accounts.

The identifier based virtual accounts are used for one-time payments such as utility payments, payments of visa fees, application fees for schools and universities. The main purpose of such virtual accounts is an effective and automated reconciliation of such receivables by the receiving entities. Such accounts generally consist of two parts, they are Corporate Identifier and Remittance Identifier.

Corporate Identifiers are provided by the bank to their corporate customers to uniquely identify corporates. The corporates have the flexibility to add the second part of the account number that is, Remittance ID based on their requirement. Accounts formed in this manner can be used for receiving payments into the corporate account.

2 Remittance List

This topic provides the information to configure and maintain Remittance List for a customer.

This topic contains the following subtopics:

- Create Remittance List This topic describes the systematic instructions to configure the remittance list.
- View Remittance List This topic describes the systematic instructions to view a list of configured remittance list.

2.1 Create Remittance List

This topic describes the systematic instructions to configure the remittance list.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management , click Identifier.
- 2. Under Identifier, click Remittance List. Under Remittance List, click Create Remittance List.

The Create Remittance List screen displays.

Create Remittance List			:	::×
Customer Number Q Required	Customer Name	Remittance List ID	Remittance List Description	
			Cancel	Save

Figure 2-1 Create Remittance List

3. On Create Remittance List screen, specify the fields.

Field	Description
Customer Number	Click Search icon to view and select the required real customer number.
Customer Name	Based on the Customer Number selected, the information is auto- populated.
Remittance List ID	Specify an ID to uniquely identify the remittance list.
Remittance List Description	Specify additional information about the remittance list ID.

Table 2-1 Create Remittance List - Field Description

4. Click Save to save the details.

The user can view the configured remittance list ID details in the View Remittance List.

Note:

After configuring the remittance list ID, the user can configure the rules for a customer using the **Corporate Specific Rules**.

5. Click Cancel to close the details without saving.

2.2 View Remittance List

This topic describes the systematic instructions to view a list of configured remittance list.

The user can configure the remittance list using Create Remittance List.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management, click Identifier.
- 2. Under Identifier, click Remittance List. Under Remittance List, click View Remittance List.

The View Remittance List screen displays.

Field	Description
Remittance List ID	Displays the remittance list ID.
Customer Number	Displays the customer number associated with the remittance list ID.
Authorized Status	Displays the authorization status of the record. The options are: • Authorized • Rejected • Unauthorized
Record Status	Displays the status of the record. The options are: • Open • Closed
Modification Number	Displays the number of modification performed on the record.

3 Corporate Specific Rule

This topic provides the information to configure Corporate Specific Rule to validate the virtual account and its transactions.

The **Corporate Specific Rule** helps to validate the incoming virtual account and its transaction as per the corporate specific validation requirements.

This topic contains the following subtopics:

- Create Corporate Specific Rule
 This topic describes the systemetic instructions to configure corporate specific rules to
 validate the virtual account and its transactions.
- View Corporate Specific Rule This topic describes the systemetic instructions to view a list of configured corporate specific rules.

3.1 Create Corporate Specific Rule

This topic describes the systemetic instructions to configure corporate specific rules to validate the virtual account and its transactions.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management , click Identifier.
- 2. Under Identifier, click Corporate Specific Rule. Under Corporate Specific Rule, click Create Corporate Specific Rule.

The Create Corporate Specific Rule screen displays.

3. On Create Corporate Specific Rule screen, specify the fields.

 Table 3-1
 Create Corporate Specific Rule - Field Description

Field	Description
Customer Number	Click Search icon to view and select the required customer number.
Customer Name	Based on the Customer Number selected, the information is autopopulated.
Validation Rule ID	Click Search to view and select the required validation rule ID.
Rule Description	Specify the additional information about the corporate specific rule.

Field	Description
Virtual Account Validations	Displays the following fields related to account validations related parameters
Minimum Length	Specify a minimum number of characters for the account number.
Maximum Length	Specify a maximum number of characters for the account number.
Remittance ID Range	Select this option if you want to specify a range for the remittance ID
Remittance List	Select this option if you want to specify a remittance list
External	Select this option if you want to validate the virtual account identifier externally
Start Number	Specify a start number for the remittance ID range.
	Note: This field appears only if the Remittance ID Range is selected.
End Number	Specify a end number for the remittance ID range.
	Note: This field appears only if the Remittance ID Range is selected.
Checksum Algorithm	Displays the following fields related to Checksum Algorithm Details
	Note: This field appears only if the Remittance ID Range or Remittance List is selected.
Check digit Position	Specify a checkdigit position.
	Note: This field appears only if the Remittance ID Range or Remittance List is selected.

-----------	--------	--------------	----------	--------------	---------	---------	-------

Field	Description
Reporting Freierences	 Select the one of the following preferences for reporting from the drop-down list: Virtual Account Number: If selected, the virtual account number is reported with the transaction. Remitter ID: If selected, the remittance ID is reported with the transaction. Virtual Account No-Prefix: If selected, the virtual account number with a specified prefix is reported with the transaction. Virtual Account No-Suffix: If selected, the virtual account number with a specified suffix is reported with the transaction. Virtual Account No-Suffix: If selected, the virtual account number with a specified suffix is reported with the transaction. Remitter ID - Prefix: If selected, the remittance ID with a specified prefix is reported with the transaction. Remitter ID - Suffix: If selected, the remittance ID with a specified suffix is reported with the transaction.
	Note: Depending on the options selected, the options are enabled.
	Note: This field appears for any one of the Remittance ID Range, Remittance List, External is selected.
Prefix/Suffix	Specify a prefix/suffix value, if the reporting preference contains a prefix/suffix.
	Note: This field appears for any one of the Remittance ID Range, Remittance List, External is selected.
Failure Action	Select the action to be performed, if the corporate specific validation rule fails during the execution for a transaction. Based on the preferences, the transaction either proceeds or is rejected.
	Note: This field appears for any one of the Remittance ID Range, Remittance List, External is selected.

Table 3-1 (Cont.) Create Corporate Specific Rule - Field Description

Field	Description
Exception Suffix	Specify a suffix, if the validation fails the transaction proceeds based on the preference and is suffixed with the reporting value.
	Note: This field appears for any one of the Remittance ID Range, Remittance List, External is selected.
Remittance ID List	Click Search icon to view and select the required remittance list.
	Note: The user can configure the required remittance list ID using the Create Remittance List This field appears only if the Remittance List is selected.

Table 3-1 (Cont.) Create Corporate Specific Rule - Field Description

- 4. Click Add icon to add a row and provide the required details.
- 5. Click Save to save the details.

The user can view the configured corporate specific rules in the View Corporate Specific Rule.

Note:

After configuring the corporate specific rule, the user can configure the rules for a customer using the **Multi-Currencies Identifier Mapping**.

6. Click Cancel to close the details without saving.

3.2 View Corporate Specific Rule

This topic describes the systemetic instructions to view a list of configured corporate specific rules.

The user can configure the corporate specific rules using Create Corporate Specific Rule.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management, click Identifier.
- 2. Under Identifier, click Corporate Specific Rule. Under Corporate Specific Rule, click View Corporate Specific Rule.

The View Corporate Specific Rule screen displays.

 View Corporate Specific Rule - Field Description

Field	Description	
Customer Number	Displays the customer number.	
Validation Rule ID	Displays the unique ID of the validation rule.	
Authorized Status	Displays the authorization status of the record. The options are: • Authorized • Rejected • Unauthorized	
Record Status	Displays the status of the record. The options are: • Open • Closed	
Modification Number	Displays the number of modification performed on the record.	

4 Multi-Currencies Identifier Mapping

This topic provides the information to map multi-currencies virtual identifiers for a customer and its accounts based on the transaction currency.

The **Multi-Currencies Identifier Mapping** allows the corporate to assign/create a virtual identifier based on account numbers. The same identifier can be used to make transactions in different currencies and based on the currency of the transaction, the account can be derived.

For a combination of a virtual identifier, and a transaction currency, a real customer account must be mapped. A default account must be configured, if the maintenance of the transaction currency is not found. The user can also map corporate specific rules for a customer using a validation rule ID.

This topic contains the following subtopics:

- Create Multi-Currencies Identifier Mapping This topic describes the systematic instructions to map multi-currencies virtual identifiers for a customer and its accounts based on the transaction currency.
- View Multi-Currencies Identifier Mapping This topic describes the systematic instructions to view a list of mapped multi-currencies identifier.

4.1 Create Multi-Currencies Identifier Mapping

This topic describes the systematic instructions to map multi-currencies virtual identifiers for a customer and its accounts based on the transaction currency.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management , click Identifier.
- 2. Under Identifier, click Multi-Currencies Identifier Mapping. Under Multi-Currencies Identifier Mapping, click Create Multi-Currencies Identifier Mapping.

The Create Multi-Currencies Identifier Mapping screen displays.

Figure 4-1 Create Multi-Currencies Identifier Mapping

3. On Create Multi-Currencies Identifier Mapping screen, specify the fields.

Field	Description
Customer Number	Click Search icon to view and select the required customer number.
Customer Name	Based on the Customer Number selected, the information is auto- populated.
Host Code	Click Search icon to view and select the required host code.
Branch Code	Click Search icon to view and select the required branch code.
Virtual Account Identifier Mask	Based on the Host Code selected, the information is auto-populated.
Virtual Account Identifier	Enter a unique identifier for the customer which complies to the mask.
Identifier Description	Enter additional information about the identifier.
Validation Rule ID	Click Search icon to view and select the required validation rule ID.
Rule Description	Based on the Validation Rule ID selected, the information is auto- populated.
Account Linkage	 Select one of the checksum algorithm from the drop-down list. Real Account: If selected, the Real Account Number field is enabled. Virtual MCA: If selected, the Virtual Multi-Currency Account field is enabled.
Real Account Number	Click Search icon to view and select the real account number to associate the transaction currency.
Account Branch	Based on the Real Account Number selected, the information is auto-populated.
Virtual Multi-Currency Account	Click Search icon to view and select the virtual multi-currency account.

4. Click Save to save the details.

The user can view the defined mapping details in the **View Multi-Currencies Identifier Mapping**.

5. Click Cancel to close the details without saving.

4.2 View Multi-Currencies Identifier Mapping

This topic describes the systematic instructions to view a list of mapped multi-currencies identifier.

The user can map the multi-currencies identifier using Create Multi-Currencies Identifier Mapping.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management, click Identifier.
- 2. Under Identifier, click Multi-Currencies Identifier Mapping. Under Multi-Currencies Identifier Mapping, click View Multi-Currencies Identifier Mapping.

The View Multi-Currencies Identifier Mapping screen displays.

83

Figure 4-2 View Multi-Currencies Identifier Mapping

Table 4-2 View Multi-Currencies Identifier Mapping - Field Description

Field	Description
Customer Number	Displays the real customer number for which the virtual identifier mapping is maintained.
Branch Code	Displays the branch code where virtual identifier mapping is maintained.
Virtual Account Identifier	Displays the virtual account identifier details.
Identifier Description	Displays the additional information of the record.

Field	Description
Authorized Status	Displays the authorization status of the record. The options are: • Authorized • Rejected • Unauthorized
Record Status	Displays the status of the record. The options are: • Open • Closed
Modification Number	Displays the number of modification performed on the record.

5 Remittance Details

This topic provides the information to configure and maintain Remittance Details for a corporate identifier.

This topic contains the following subtopics:

- Create Remittance Details This topic describes the systematic instructions to configure the remittance details.
- View Remittance Details
 This topic describes the systematic instructions to view a list of configured remittance details.

5.1 Create Remittance Details

This topic describes the systematic instructions to configure the remittance details.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management , click Identifier.
- 2. Under Identifier, click Remittance Details. Under Remittance Details, click Create Remittance Details.

The Create Remittance Details screen displays.

Figure 5-1 Create Remittance Details

Create Remittan	ce Details			;: ×
Customer Number Branch Code	Q Required	Customer Name Remittance List ID	Virtual Identifier Q Remittance List Description	Identifier Description
Remittance Details Remittance ID Validity Date Range		Virtual Account Number Reconciliation Information	IBAN Required	IBAN Account Number
Required ↔	Required			
				Cancel Save

3. On Create Remittance Details screen, specify the fields.

The fields marked as **Required** are mandatory.

Field	Description
Customer Number	Click Search icon to view and select the required real customer number.
Customer Name	Based on the Customer Number selected, the information is auto- populated.
Virtual Account Identifier	Click Search icon to view and select the required Virtual Account Identifier. Displays the list of Virtual Account Identifiers, based on the customer number selected.
Identifier Description	Based on the Virtual Account Identifier selected, the information is autopopulated.
Branch Code	Based on the Virtual Account Identifier selected, the information is auto-populated.
Remittance List ID	Based on the Virtual Account Identifier selected, the information is autopopulated.
Remittance List Description	Displays the Remittance List description.
Remittance ID	Specify the Remittance ID.
Virtual Account Number	System generates the Virtual Account Number based on the Virtual Account Identifier and Remittance ID. Example: Let's assume below: Virtual Account Identifier: VA12 Remittance ID: 12345 Virtual Account Number: VA1212345 Note: Virtual Account number length is validated against the Virtual Account Number range defined in corporate specific rule.
IBAN Required	By default, this is disabled. If enabled, indicates that an IBAN must be generated.
	Note: If IBAN Required is selected, Remittance ID is validated against the BBAN Remittance ID Mask configured in Identifier Branch Parameters.
Validity Start Date	Select a start date for the remittance ID from the drop-down calendar.
Validity End Date	Select an expiry date for the remittance ID from the drop-down calendar.
Reconciliation Information	Specify information that can be used for reconciliation.
Additional Information	Specify additional information about the remittance ID.

4. Click **Save** to save the details.

The user can view the configured remittance details in the View Remittance Details.

5. Click **Cancel** to close the details without saving.

5.2 View Remittance Details

This topic describes the systematic instructions to view a list of configured remittance details.

The user can configure the remittance details using Create Remittance Details.

Specify User ID and Password, and login to Home screen.

- 1. On Home Screen, click Virtual Account Management. Under Virtual Account Management , click Identifier.
- 2. Under Identifier, click Remittance Details. Under Remittance Details, click View Remittance Details.

The View Remittance Details screen displays.

Corporate Specific Rule	VAI-RULE-53	Start Time Cannot be Greater Or Equal To End Time If Start and End Date is same		
Corporate Specific Rule	VAI-RULE-54	Cannot Reopen as Real Customer is Closed in Remittance		

Screen Name	Error Code	Error Messages
Corporate Specific Rule	VAI-RULE-55	Cannot Reopen as Real Customer is Closed in Core Customer
Corporate Specific Rule	VAI-RULE-56	Time Format is Invalid
Corporate Specific Rule	VAI-RULE-57	Failure Action Should not Empty as Reporting Preference is inputted
Corporate Specific Rule	VAI-RULE-90	remitter list id is already mapped to remittance detail and hence cannot be modified

B Functional Activity Codes

Screen Name/API Name	Functional Activity Code	Action	Description
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_CREATE	NEW	Create Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_VIEW	VIEW	View Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_VIEWALL	VIEW	View all Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_MODIFY	UNLOC K	Modify Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_AUTHORIZE	AUTHO RIZE	Authorize Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_CLOSE	CLOSE	Close Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_REOPEN	REOPE N	Reopen Corporate Specific Rule
Corporate Specific Rule	VAI_FA_VIRTUAL_IDENTIFI ER_RULE_DELETE	DELETE	Delete Corporate Specific Rule
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_CREATE	NEW	Create Multi-Currencies Identifier Mapping
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_VIEW	VIEW	View Multi-Currencies Identifier Mapping
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_MODIFY	UNLOC K	Modify Multi-Currencies Identifier Mapping
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_AUTHORIZE	AUTHO RIZE	Authorize Multi-Currencies Identifier Mapping
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_CLOSE	CLOSE	Close Multi-Currencies Identifier Mapping
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_REOPEN	REOPE N	Reopen Multi-Currencies Identifier Mapping
Multi-Currencies Identifier Mapping	VAI_FA_VIRTUAL_IDENTIFI ER_MAP_DELETE	DELETE	Delete Multi-Currencies Identifier Mapping
Remittance Details	VAI_FA_REMITTERS_CREA TE	NEW	Create Remittance Details
Remittance Details	VAI_FA_REMITTERS_GETB YID	VIEW	Get Remittance Details by ID
Remittance Details	VAI_FA_REMITTERS_GETAL L	VIEW	Get all Remittance Details
Remittance Details	VAI_FA_REMITTERS_MODI FY	UNLOC K	Modify Remittance Details
Remittance Details	VAI_FA_REMITTERS_CLOS E	CLOSE	Close Remittance Details
Remittance Details	VAI_FA_REMITTERS_REOP EN	REOPE N	Reopen Remittance Details

Table B-1 List of Functional Activity Codes

Screen Name/API Name	Functional Activity Code	Action	Description
Remittance Details	VAI_FA_REMITTERS_DELE TE	DELETE	Delete Remittance Details
Remittance Details	VAI_FA_REMITTERS_AUTH ORIZE	AUTHO RIZE	Authorize Remittance Details
Remittance Details	VAI_FA_REMITTERS_AUTH QUERY	AUTHO RIZE	Authorize Remittance Query
Remittance Details	VAI_FA_REMITTERSERVICE _SAVE	NEW	Service API to create Remittance Details
Remittance Details	VAI_FA_REMITTERSERVICE _REOPEN	REOPE N	Service API to reopen Remittance Details
Remittance Details	VAI_FA_REMITTERSERVICE _CLOSE	CLOSE	Service API to close Remittance Details
Remittance Details	VAI_FA_REMITTERSERVICE _MODIFY	MODIFY	Service API to modify Remittance Details
Remittance List	VAI_FA_REMITTER_LIST_ID _CREATE	NEW	Create Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _VIEW	VIEW	View Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _VIEWALL	VIEW	View all Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _MODIFY	UNLOC K	Modify Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _AUTHORIZE	AUTHO RIZE	Authorize Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _CLOSE	CLOSE	Close Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _REOPEN	REOPE N	Reopen Remittance List ID
Remittance List	VAI_FA_REMITTER_LIST_ID _DELETE	DELETE	Delete Remittance List

Table B-1	(Cont.) List of	Functional	Activity	Codes
-----------	-----------------	------------	----------	-------

This topic contains the events and its purpose.

Table C-1 List of Events

Events	Purpose
vai.identifierServiceNotifi cation	Event is generated when a Virtual Identifier is Created/ Modified/ Closed / Re- Opened
vas.genericdashboarde ventrequest	Event is generated for unauthorised transaction count
