## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Oracle Banking Digital Experience Integration

This Chapter consists of the following topics:

- [Introduction](#)
- [Integration Touchpoints](#)

### 1.1 Introduction

Oracle Banking Digital Experience provides an out-of-the-box interface with Oracle Banking Collections. Through this capability, end customers or borrowers who have a overdue with the bank, will be able to get delinquency notice in case their account is past due on their self-service portal, make a direct payment against their past due amount, or provide a promise to make the payment as of the future date.

The Oracle Banking Digital Experience interfaces with Oracle Banking Collections to obtain the customer or borrower's promise details and save the promise provided by the customer through the portal.

### 1.2 Integration Touchpoints

**Table 1-1 Integration Touchpoints**

Interface Id	Description	Request Type	Operation	Use Case (Actor and Response)
obcr-ntp-services/ntp/fetch	Fetch all NTPs provided by the customer	Get	Fetch the list of all promises provided by the customer in Oracle Banking Collections.	<b>Actor:</b> Individual Customer Self Service – Customer should be able to see their delinquency notice and already active promise when they log into OBDX portal. <b>Response:</b> List of all the NTPs that are, or were associated, with an account with an active collections case in Oracle Banking Collections.

**Table 1-1 (Cont.) Integration Touchpoints**

Interface Id	Description	Request Type	Operation	Use Case (Actor and Response)
obcr-ntp-services/ntp/create	Create PTP in Oracle Banking Collections	Post	Enables Oracle Banking Digital Experience to create a promise in Oracle Banking Collections.	<p><b>Actor:</b> Individual Customer Self Service - Customer should be able to initiate a self-service Promise (PTP) by providing a future business date from OBDX portal.</p> <p><b>Response:</b> Initiate the creation of promise in Oracle Banking Collections based on customer account number, promise amount and promise date.</p>
