This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

This topic contains following sub-topics:

- [Purpose](#)
- [Acronyms and Abbreviations](#)
- [Audience](#)
- [Background](#)
- [Conventions](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Documentation Accessibility](#)
- [Related Resources](#)

Purpose

The purpose of this Release Note is to propagate the features of Oracle Banking Corporate Lending Process Management for the 14.8.2.0.0 release.

Acronyms and Abbreviations

Table 1 Acronyms and Abbreviations

Abbreviation	Description
JDK	Java Development Kit
CMC	Common Core
EAC	External Account and Customer
ECA	External Credit Approval
ELCM	Enterprise Limits and Collateral Management
FCUBS	FLEXCUBE Universal Banking
OBCL	Oracle Banking Corporate Lending
OBCLPM	Oracle Banking Corporate Lending Process Management
OJET	Oracle JavaScript Extension Toolkit
SME	Small and Medium Sized Enterprises
UI	User Interface

Audience

This document is intended for the following audience:

- Customers
- Partners

Background

Oracle Financial Services Software Limited has developed Oracle Banking Corporate Lending Process Management (OBCLPM), which enable banks to streamline their Corporate Lending operations. Oracle Banking Corporate Loans Process Management supports business processes for Corporate loans proposals, evaluation, issuance and subsequent life cycle operations, for Bilateral, SME (Small and Medium sized Enterprises) and Loan Syndications.

A robust workflow engine enables transparency of the process from initiation to fulfilment and brings in rich user experience and process efficiencies.

Conventions

The following text conventions are used in this document:

Table 2 Conventions

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Related Resources

For more information on any related features, you can refer to the following documents:

- *Oracle Banking Corporate Lending Process Management User Manuals*
- *Oracle Banking Corporate Lending Process Management License Guide*

1

Release Notes

This topic provides the information about the release notes added to the product in this release.

This topic contains the following subtopics:

- [Release Highlights](#)
This topic provides the information on the release highlights added to the product in this release.
- [Release Enhancements](#)
This topic provides information about the release enhancements for this release.

1.1 Release Highlights

This topic provides the information on the release highlights added to the product in this release.

The rationale for the product release of Oracle® Banking Corporate Lending Process Management 14.8.2.0.0 is to support the business processes for Corporate loans proposal, evaluation, issuance and subsequent life cycle operations, for Bilateral, SME (Small and Medium sized Enterprises) and Loan Syndication and help improve the competitiveness of our product in the market.

The scope of the current release comprises of the following enhancements:

- CMC Address Format Adoption
- OBCLPM EAC Check/ECA Block
- OBCLPM ELCM Block
- OBCLPM Simulation

This release also focused on technical qualification to comply with approved Tech Stack along with data privacy features.

1.2 Release Enhancements

This topic provides information about the release enhancements for this release.

This topic contains the following subtopics:

- [Functional Features](#)
This topic describes the information about the various functional features added in this release.
- [Non-Functional Changes](#)
This topic describes about the non-functional changes added in this release.
- [Technical Changes](#)
This topic provides the information about the technical changes added in this release.

- [Platform Changes](#)
This topic provides information about the platform changes added in this release.
- [Deprecated Features](#)
This topic provides the information on the features deprecated from the product in this release.

1.2.1 Functional Features

This topic describes the information about the various functional features added in this release.

- **CMC Address Format Adoption (SWIFT Standard)**
Party address capture and maintenance have been updated to comply with SWIFT standards, supporting structured, unstructured, and hybrid address formats.
- **OBCLPM EAC Check / ECA Block**
OBCLPM now integrates with an external system (e.g., FCUBS) to enable External Account & Customer (EAC) validation and External Credit Approval (ECA) blocking. EAC performs real-time customer and account eligibility checks before the flow can proceed, and ECA blocks the required amount upfront. Override handling is updated with a dedicated popup and stage gating so users cannot continue until all overrides are accepted.
- **OBCLPM ELCM Block**
OBCLPM now enables ELCM blocking within Facility and Collateral processing to handle credit lines, liabilities, and collateral linkages for corporate loan applications. The integration spans Facilities Linkage, Collateral Linkage, Collateral Pool, and Link Liability, and supports linkage percentage and amount calculations.
- **OBCLPM Simulation (Pre-Validation with OBCL)**
OBCLPM now includes a Simulation call to OBCL to validate data and detect errors or overrides before stage movement. This capability is available in the Loan Origination, Payment, Financial Amendment, and Non-Financial Amendment flows.

1.2.2 Non-Functional Changes

This topic describes about the non-functional changes added in this release.

There are no non-functional changes in this release.

1.2.3 Technical Changes

This topic provides the information about the technical changes added in this release.

There are no technical changes in this release.

1.2.4 Platform Changes

This topic provides information about the platform changes added in this release.

There are no platform changes in this release.

1.2.5 Deprecated Features

This topic provides the information on the features deprecated from the product in this release.

There is no deprecated feature for this release.

2

Components of the Software

This topic explains the change in software components.

Documents Accompanying the Software

The various documents accompanying the software are as follows:

- Product Release Note
- Installation Manuals
- User Manuals

Software Components

Software Components of Oracle® Banking Corporate Lending Process Management that are part of this release are as follows:

Host

- Service and API Components
- UI Components (OJET)
- Database objects which include tables, sequences, and static data
- Configuration files used for deployment
- Locale files (xliff)

A

Environment Details

Tech Stack – Oracle

Table A-1 Tech Stack - Oracle Banking Corporate Lending Process Management

Component	Deployment option	Machine	Operating System	Software	Version Number
Oracle Banking Corporate Lending Process Management	Single Instance Standalone	Application Server	Oracle Linux Server 8.7 (x86 64 Bit)	Oracle WebLogic Server	14.1.2.0.0
				Java HotSpot (TM) JDK (with WebLogic Application Server)	Oracle JDK 17.0.18
		Database Server	Oracle Linux Server 8.7 (x86 64 Bit)	Oracle RDBMS Enterprise Edition	Oracle Database 19c Enterprise Edition Release 19.29.0.0.0
		Message Broker	Oracle Linux Server 8.7 (x86 64 Bit)	Apache Kafka	2.13-3.9.1
		-	Oracle Linux Server 8.7 (x86 64 Bit)	Conductor	3.15.0
-	Oracle Linux Server 8.7 (x86 64 Bit)	Coherence	14.1.2.0.0		

Note

- # Browser support is no longer based on Operating Systems but strictly tied to the browser themselves, no matter on which Operating Systems they are installed. Current release is certified on client workstations with Windows 10 and Mac OS.
- # **Client Machines:** For detailed information on Browser Support, please refer to the Oracle Software Web Browser Support Policy at: <https://www.oracle.com/middleware/technologies/browser-policy.html>.
- Oracle Applications are developed and tested on Oracle Linux, which is optimized for performance, stability and security.

Table A-2 UI Stack

Software Type	Recommended Software	Version Number
UI	Oracle JET	v18.1.0

B

Third-Party Software Details

This topic describes about the license information for third-party software.

For information on the third-party software, refer to the *Oracle Banking Corporate Lending Process Management License Guide* of this release.
