Purpose

This guide is designed to help acquaint you with the Oracle Banking application. This guide provides answers to specific features and procedures that the user need to be aware of the module to function successfully.

Audience

This document is intended for the following audience:

- Customers
- Partners

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resources

For more information on any related features, refer to the following documents:

- Oracle Banking Digital Experience Installation Manuals
- Oracle Banking Digital Experience Licensing Manuals

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes; actual screens that appear in the application may vary based on selected browser, theme, and mobile devices.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBDX	Oracle Banking Digital Experience

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Basic Actions and Descriptions

Action	Description
Back	In case you missed to specify or need to modify the details in the previous segment, click Back to navigate to the previous segment.
Cancel	Click Cancel to cancel the operation input midway without saving any data. You will be alerted that the input data would be lost before confirming the cancellation.
Next	On completion of input of all parameters, click Next to navigate to the next segment.
Save	On completion of input of all parameters, click Save to save the details.
Save & Close	Click Save & Close to save the data captured. The saved data will be available in View Business Product with <i>In Progress</i> status. You can work on it later by picking it from the View Business Product .
Submit	On completing the input of all parameters, click Submit to proceed with executing the transaction.
Reset	Click Reset to clear the data entered.
Refresh	Click Refresh to update the transaction with the recently entered data.
Download	Click Download to download the records in PDF or XLS format.

Symbols and Icons

The following are the symbols/icons you are likely to find in this guide:

1

Payments Overview

This topic describes the information about **Payments Overview** screen.

The digital banking streamlines fund transfers, allowing users to easily move money between accounts or pay to a person or business. Through the payment's module, users can transfer funds between their own accounts, to other accounts within the same bank, to accounts at other local banks, or even to banks in other countries.

The following sections in this document detail all the features offered to users through the payment's module of the digital banking application.

Note

Payment Screens are not supported in the landscape mode of mobile applications and mobile browser.

Features Supported in the Application

Payment features supported in application includes:

- Favourite Transactions
- Payee Setup
- One Time and Recurring Payments
- Multiple Payments
- Demand Draft Issuance
- Inquiries
- Make Payments and Payee screens as per region requirements.
- [Regionalization for Domestic Payments](#)
This topic describes the information about **Regionalization for Domestic Payments** screen.
- [My Payments \(Dashboard\)](#)
This topic describes the information about **My Payments (Dashboard)** screen.

1.1 Regionalization for Domestic Payments

This topic describes the information about **Regionalization for Domestic Payments** screen.

Regionalization for domestic payments involves systems to align with the specific requirements and standards of each region. This includes defining fields such as networks supported, account types, currencies, charges, etc. that can vary from one region to another. By customizing these fields according to regional specifications, implementation partners can enhance the reliability of domestic payment transactions, ensuring they meet local regulatory requirements and customer expectations.

Implementation partners have the flexibility to customize domestic payee and payment fields to meet the specific requirements of each region.

Below are the regions for which configurations are provided out of box:

- India
- SEPA region
- US

Networks for the above supported regions:

Table 1-1 Networks Supported

Region	Networks
India	• RTGS • NEFT • IMPS
SEPA region	• SEPA Credit Transfer • SEPA Instant Credit
US	• ACH Transfer • Faster ACH Transfer • Domestic Wire Transfer

1. India Region

Here are the field specifications which will be displayed on payee and payment screen for domestic payments specific to the India region.

Table 1-2 Payee - Field Description

Field Name	Description
Payee Type	Select Domestic .
Account Details	Information specified in below fields are related to account details.
Account Type	Select the type of account associated with the payee. Below are the types configured for each network: • Savings • Current • Overdraft • Cash Credit • Loan Account • NRE
Account Number	Specify the account number of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Bank Details	Information specified in below fields are related to bank details.
Search by IFSC	On click the Lookup overlay screen appears with the search criteria. This is to enable user to search bank details using IFSC Code. For more information on Lookups , refer Lookups section.

Table 1-2 (Cont.) Payee - Field Description

Field Name	Description
Search by IFSC - Search Result	The following fields are displayed in the search results.
IFSC Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Name	Name of the bank.
Address	The complete address of the bank.
Bank Details	The details of the bank that include the IFSC Code as well as the name and address of the bank and branch in which the payees account is held.
Personal Details	Information specified in below fields are related to personal details.
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. This option will only appear if no photo has been uploaded against the payee. Note: - The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. - Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email addresses of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

Table 1-3 Payment Details - Field Description

Field Name	Description
Currency	Select the currency in which the payment is to be made. For My Account and Within Bank payments it will display debit account and credit account currency. For Domestic and Cross Border payments it will display debit account and network currencies.
Debit/Transfer Amount	Specify the amount for which the payment is to be made.
Transfer Currency	Select transfer currency. This will come in case the debit account currency is selected and network allows different currency transfers.
View Limits	Link to view the transaction limits. For more information on Limits, refer View Limits section.
Exchange Rate	Display indicative exchange rate in case of cross currency transfer.

Table 1-3 (Cont.) Payment Details - Field Description

Field Name	Description
Network Type	Select the network type for the payment. Supported networks are RTGS, NEFT, IMPS.
Scheduled On	The facility to specify the date on which the payment is to be made. The options are: • Pay Now: Select this option if you wish to make the payment on the same day. • Pay Later: Select this option if you wish to make the payment at a future date. If you select this option, you will be required to specify the date on which the payment is to be made. • Recurring: Select this option if you wish to make the recurring payments.
Transfer On	Specify the date on which the payment is to be made. This field appears if the option Pay Later is selected from the Scheduled On list.
Select Frequency	The frequency in which the repeat transfers are to be executed. The options are: • Daily • Weekly • Fortnightly • Monthly • Bi-monthly • Quarterly • Semi-Annually • Annually • Advanced Note: • If the Advanced option is chosen, one can configure a frequency for the transaction to occur, specifying intervals such as once every X day, weeks, or months. • This field appears if the option Recurring is selected from the Scheduled On list.
Start Transferring	The date on which the first recurring transfer is to be executed.
Stop Transferring	Select the option by which to specify when the recurring transfers are to stop being executed. The following two options are available: • On Date: Select this option if you wish to specify a date on which the last transfer is to be executed. • After Instances: Select this option if you wish to specify the number of recurring transfers that are to be executed as part of the instruction. This field appears if the option Recurring is selected from the Scheduled On list.
Date	Specify the date on which the last transfer is to be executed. This field appears if the option On Date is selected in the Stop Transferring field.
Instances	Number of instances. This field appears if the option After Instances is selected in the Stop Transferring field.
Also Transfer Today	Select this option to also initiate a one-time transfer towards the payee for the same amount as each individual instruction.

Table 1-3 (Cont.) Payment Details - Field Description

Field Name	Description
Fees & Charges	Information specified in below fields are related to fees and charges.
Calculate Charges	Click on the link to calculate the fees and charges applicable for the transaction. This field is network dependent field, comes from regionalisation.
Deduct Charges From	The Bank may levy charges for certain payment networks. The user can choose which debit account to use when paying the charges. The accounting entries for the charge's components will be reflected in the statement of the account selected here. This field is enabled for all Payment Types – Within Bank, Domestic and Cross Border. In case of Cross Border Payments, it is enabled when Payer or Shared option is selected in the Correspondence Charges.
Current Balance	The net balance of the source account.
Additional Details	Information specified in below fields are related to additional details.
Payment Purpose	The purpose of payment. It will be a list of allowed purpose codes.
Payment Details	You can add up to 4 fields each of length not more than 35. These will carry the unstructured remittance information to the Payment Processor.
Customer Reference Number	The reference number assigned to the customer.
Note	Specify a note or remarks for the transaction, if required.

2. SEPA Region

Here are the field specifications which will be displayed on payee and payment screen for domestic payments specific to the SEPA region.

Table 1-4 Swift - Field Description

Field Name	Description
Payee Type	Select Domestic .
Account Details	Information specified in below fields are related to account details.
IBAN	Specify the IBAN of the payee.
Confirm IBAN	The user is required to re-enter the payee's IBAN number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Bank Details	Information specified in below fields are related to bank details.
BIC Code (read-only)	The user can see the BIC Code of the payee's account in read only mode. The bank code will be fetched based on the IBAN and will be displayed here in read only mode.
BIC Code - Search Result	The following fields are displayed in the search results.

Table 1-4 (Cont.) Swift - Field Description

Field Name	Description
BIC Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Name	Name of the bank.
Address	The complete address of the bank.
Bank Details	The details of the bank that include the IFSC Code as well as the name and address of the bank and branch in which the payees account is held.
Personal Details	Information specified in below fields are related to personal details.
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. This option will only appear if no photo has been uploaded against the payee. Note: - The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. - Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email addresses of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

Table 1-5 Payment Details - Field Description

Field Name	Description
Currency	Select the currency in which the payment is to be made. For My Account and Within Bank payments it will display debit account and credit account currency. For Domestic and Cross Border payments it will display debit account and network currencies.
Debit/Transfer Amount	Specify the amount for which the payment is to be made.
Transfer Currency	Select transfer currency. This will come in case the debit account currency is selected and network allows different currency transfers.
View Limits	Link to view the transaction limits. For more information on Limits, refer View Limits section.
Exchange Rate	Display indicative exchange rate in case of cross currency transfer.

Table 1-5 (Cont.) Payment Details - Field Description

Field Name	Description
Network Type	Select the network type for the payment. Supported networks are SEPA Credit Transfer, SEPA Instant Transfer.
Scheduled On	The facility to specify the date on which the payment is to be made. The options are: • Pay Now: Select this option if you wish to make the payment on the same day. • Pay Later: Select this option if you wish to make the payment at a future date. If you select this option, you will be required to specify the date on which the payment is to be made. • Recurring: Select this option if you wish to make the recurring payments.
Transfer On	Specify the date on which the payment is to be made. This field appears if the option Pay Later is selected from the Scheduled On list.
Select Frequency	The frequency in which the repeat transfers are to be executed. The options are: • Daily • Weekly • Fortnightly • Monthly • Bi-monthly • Quarterly • Semi-Annually • Annually • Advanced Note: If the Advanced option is chosen, one can configure a frequency for the transaction to occur, specifying intervals such as once every X day, weeks, or months. This field appears if the option Recurring is selected from the Scheduled On list.
Start Transferring	The date on which the first recurring transfer is to be executed.
Stop Transferring	Select the option by which to specify when the recurring transfers are to stop being executed. The following two options are available: • On Date: Select this option if you wish to specify a date on which the last transfer is to be executed. • After Instances: Select this option if you wish to specify the number of recurring transfers that are to be executed as part of the instruction. This field appears if the option Recurring is selected from the Scheduled On list.
Date	Specify the date on which the last transfer is to be executed. This field appears if the option On Date is selected in the Stop Transferring field.
Instances	Number of instances. This field appears if the option After Instances is selected in the Stop Transferring field.
Also Transfer Today	Select this option to also initiate a one-time transfer towards the payee for the same amount as each individual instruction.

Table 1-5 (Cont.) Payment Details - Field Description

Field Name	Description
Fees & Charges	Information specified in below fields are related to fee and charges.
Calculate Charges	Click on the link to calculate the fees and charges applicable for the transaction.
Deduct Charges From	The Bank may levy charges for certain payment networks. The user can choose which debit account to use when paying the charges. The accounting entries for the charge's components will be reflected in the statement of the account selected here. This field is enabled for all Payment Types – Within Bank, Domestic and Cross Border. In case of Cross Border Payments, it is enabled when Payer or Shared option is selected in the Correspondence Charges.

1.2 My Payments (Dashboard)

This topic describes the information about **My Payments (Dashboard)** screen.

The **My Payments** dashboard offers a user-friendly interface and valuable features for organizing and monitoring payment activities effectively. There different widgets are provided to view real-time status of payments and transactions.

The following are the widgets available on the Payments Overview dashboard:

- **Quick Payment**
- **Summary of Payments**
- **Favourites**
- **Recent Payments**
- **Drafts Toast Message**
- **Quick Actions**

The **Quick Payments** widget prioritizes the most frequently used payees, making it effortless to make payments to them promptly. It also allows user to add payees.

The **Summary of Payments** widget provides the user quick view of the number of transactions and total amount done for Incoming and Outgoing payments. User can also see the transactions lying in different stages for Outgoing Payments.

The transactions successfully completed recently are visible under the **Recent Payments** widget. It allows user to track their outgoing and incoming payments conveniently. The **Favourites** widget helps user to quickly access transactions which are marked as a Favourite Payments or Demand Drafts and use them as templates to initiate new transactions. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details.

The user can quickly see the saved drafts under **Saved Drafts Toast** message helping the user to start from where the transaction is left.

Quick Actions widget is available only in mobile to help the user to navigate to the most important transactions quickly.

Note

The left swipe and Long Press gesture is implemented on mobile and tablets devices. Swipe gesture - This feature is available on Favourites widget, Recent Payments widget , Incoming and Outgoing Payments Inquiry, Recurring Payments .

Long press gesture - Users can now press and hold down on a screen for an extended duration, which displays additional options or actions. This feature is available on Quick Actions and on payee cards under Manage payees.

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Transfers & Bill Payments** . Under **Transfers & Bill Payments** , then click **Payments** .
- From the Search bar, type **Payments - Payments** and press **Enter**.

Figure 1-1 My Payments

- Click **Make Payment** to initiate online payments, system redirects to the **Make Payment screen**.

Quick Payments

The **Quick Payments** widget displays the payees at the top of the dashboard, which help users to save time and avoid the hassle of searching for them each time they need to make a payment. They are listed in the descending order of the number of payments made for that payee. It shows 8 most used payees. Click on the payee, the system redirects to the **Make Payments** screen to make payment to the selected payee.

Below are the details being displays for each payee:

- Photo/Name Initials
- Nickname
- Bank Name

Note

For the Bank Name, displays **Within Bank** in case of **Within Bank Transfer**, and displays name of the bank if transfer is **Domestic** or **Cross Border**.

Click on the **Add Payee** to add a payee with transfer type as bank account, the Add Bank Account Payee screen appears. The bank account type can be **Within Bank** or **Domestic** or **Cross Border**.

Click on the **Show All** link to view all the existing payees, the **Payees** screen appears.

Note

The **Show All** link will be displayed only when there are more than 8 Payees.

Summary of Payments

This widget is like an innovative way to visually represent incoming and outgoing payments, providing users with a comprehensive overview of their payment's activity briefly. It depicts both incoming and outgoing payments, with number of payments represented in the form of bar graph. This gives users a clear understanding of the volume and status of payments flowing into and out of their account. The Incoming and Outgoing payments transactions can be filtered on account.

Note

1. By default summary of the payment is displayed for an account selected as Primary/Favourite Account.
2. On Clicking incoming/outgoing transaction it will redirect to Incoming/outgoing payments inquiry screen respectively.
3. The **Multi-Currency** link is displayed in case multiple currencies are present. Individual currency breakup to be shown on click of **Multi Currency** link.
4. On the individual currency breakup, when hovering the mouse over the bar, the status and value of the transaction are displayed. Clicking on the bar will redirect the screen to the **Payments Inquiry** with filtered records.

The status available for user are:

- In Progress: all the transaction which are under process in host payment processor
- Processed: all the transaction which are completed in host payment processor
- Future Dated: all the transaction which are marked as future dated in host payment processor
- Cancelled: all the transaction which are cancelled in host payment processor
- Reversal Initiated: all transaction which are reversal initiated in host payment processor

By default, the data is displayed as per the current month with dates from 1st of current month to till date. Click on edit icon to modify the date range.

Favorites

This widget helps user to quickly access transactions and use them as templates to initiate new transactions which are marked as a favourite Payments and Demand Drafts. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details. Click on the **View All Favourites** link to view all the favourite Payments and Demand Drafts.

The information available for Payments:

- Payment Type (Within Bank, Domestic, Cross Border)
- Favourites Name
- Payee
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked
- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list
- Quick Pay icon: make payment with all the data as pre-populated as marked in Favourite

The information available for Demand Drafts:

- Draft Type (Domestic/Cross Border)
- Favourite Name
- Draft Favouring
- Debit Account Nick Name, Number (In the format as configured for the entity)
- Amount for which favourite is marked
- Icon to mark the record as Unfavourite, clicking this icon will remove the transaction from the Favourite list
- Quick Pay icon: issue demand draft with all the data as pre-populated as marked in Favourite

Note

1. Payments tab is shown only if user has access to either Within Bank /Domestic / Cross Border Payments.
2. Demand Drafts tab is shown only if user has access to either Domestic/Cross Border Demand Draft.
3. The Gesture feature on scroll for Remove from Favourite and Pay is available. Users can now swipe to take these actions. This functionality is only supported on mobile devices and tablets.

Recent Payments

This widget displays both incoming and outgoing payments, showing the last 10 recent payments. Clicking on the **View All Payments** link redirects to the **Payments Inquiry** screen. Within the Payments Inquiry, there are two different tabs available for Incoming Payments and Outgoing Payments. It shows maximum 10 outgoing/incoming recent payments. Click on the **View All Payments** link to view all the outgoing/incoming recent payments. User can select the debit account and based on which the payments will be shown.

The information available for Outgoing Payments:

- Account Number
- Payee name Initials/Image
- Initiation Date
- Payee

- Network Code (For Domestic/Cross Border transfers), Within Bank (For Within Bank transfers)
- Bank Code (applicable for only Domestic Bank transfers)
- Host Reference Number
- Amount with currency
- Status badge
- Cancel Payment  icon: click to cancel payment processing, redirects to **Cancel Payment** screen. Cancel payment appears only for transaction for which cancellation is possible. Refer section **Payment Cancellation**.
- Repeat: on click redirects to **Make Payment- New Payee** screen with data pre-populated copying this transaction.

The information available for Incoming Payments:

- Direction icon
- Payment Date
- Remitter Name
- Sender's Account Details (Bank Code, Number)
- Host Reference Number
- Credited Amount with currency

Note

- The Gesture feature on scroll is implemented, allowing users to press and hold on a screen to trigger additional options or actions such as Repeat Payment and Cancel. This functionality is supported on mobile devices and tablets.
- Number of payments shown in mobile/table is maximum 5 for outgoing/incoming recent payments.

Drafts Toast Message

This feature enables users to view draft messages saved in the system as a toast message, allowing them to resume or view drafts directly from there. On click of the **Resume** option, user is redirected to the Payments screen with data populated from the draft. The view option displays the existing draft inquiry screen.

Note

1. This will only be displayed if the user has saved any drafts.
2. Resume option will be available if there is only 1 saved draft, for more than 1 saved drafts view option will be available.

Quick Actions (Available only in mobile and tablet)

This widget provides quick actions to the user using which the user can navigate to that transaction quickly. Long press gesture feature is available on the quick actions in addition to single click actions. Below are the actions available.

- Payees
- Make Payment
- Payment Status
- Favourites
- Saved Drafts

2

Payees

This topic describes the information about **Payee** feature. This feature enables users to register payee, view and delete the existing payees.

The online banking application enables customers to save and maintain payees (beneficiaries) towards whom payments are to be made frequently.

The user can view payee's details by selecting the provided option and is also able to edit or delete a payee's record. Moreover, the option to add new account payees or new demand draft payees is also provided on this screen. Payees can be created and maintained for the following types of transfers:

- Bank Account
 - Within Bank Account
 - Domestic Bank Account
 - Cross Border Bank Account
- Demand Drafts
 - Domestic Bank Account
 - Cross Border Bank Account

Pre-requisites

- Transaction access is provided to the Small & Medium Business user.

Features Supported in the Application

- Create Payee
- View Payee
- Edit Payee
- Delete Payee
- Initiate payment towards a Payee

Note

The Long Press Gesture feature is implemented on Quick Actions for Payees. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Account Payees, Demand Draft Payees. This functionality is only supported on mobile devices and tablets.

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Transfers & Bill Payments**. Under **Transfers & Bill Payments**, then click **Payments**, click **More Actions**, and then click **Manage Payees**.
- From the Search bar, type **Payees – Manage Payees** and press **Enter**.

2.1 Payee Summary

This topic describes the systematic instruction to **Payee Summary** screen. User can view a holistic view of all Payees saved with the bank in this screen.

The summary page provides the user with a holistic view of all Payees (Within Bank, Domestic, Cross Border) saved with the bank. Additional features available are to make payments, edit the payee details, and delete the payee. The payees can be viewed either in a table format or in a list format using a switch option.

The user can also navigate to other payee-related screens from the **More Actions** menu provided on the screen. Additionally, they can add a new payee. The filters are available to view the payees based on description. The  table and  card view options are provided on screen to view the payees. In the  table view, the payees are listed in tabular form. Whereas in the  card view payees are listed in card format.

Each card displays details like Payment Type, Payee Photo/Avatar, Payee Name, Payee Nickname, Payee Address, Payee Account Number, options to make a payment, update payee's details, and delete the Payee. Click on the specific card to view further details of each card. A separate tab is provided on the screen to view the 'Accounts' payees and **Demand Drafts** payees.

To manage payees:

1. Click on the **Account/Demand Draft** tab, respective **Payees** summary page appears.

All the payees accessible to the logged in user are listed down by their names, photos (if uploaded) and other details defined at the time of payee creation.

Figure 2-1 Payees- Account (Card View)

Figure 2-2 Payees- Account (List View)

The screenshot displays the 'Payees' interface in List View. At the top, there's a header with a back arrow, the title 'Payees', and a button for 'Add Account Payee'. Below the header, a summary bar shows '10 Payees', a 'Filters' button, a 'Download' button, a 'Manage Columns' button, and icons for list and card views. The main area contains a table with the following data:

Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Personal Details	Information specified in below fields are related to personal details.

Table 2-3 (Cont.) Add Payee – Within Account - Field Description

Field Name	Description
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. This option will only appear if no photo has been uploaded against the payee. Note: 1. The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. 2. Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.
Email ID	Email addresses of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

2.2.2 Add Payee - Domestic Account

This topic describes the systematic instruction to **Add Payee - Domestic Account** screen.

A domestic account transfer is one which involves the transfer of funds to an account that is held with another bank within the same country or politically united region.

Figure 2-8 Add Payee – Domestic Account

The screenshot shows the 'Add Account Payee' form with a dark blue header bar containing a back arrow, the title 'Add Account Payee', and 'Cancel' and 'Submit' buttons. Below the header, there are three tabs: 'Within Bank', 'Domestic' (selected), and 'Cross Border'. The form is divided into three main sections: 'Account Details', 'Bank Details', and 'Personal Details'. The 'Account Details' section includes dropdowns for 'Network Type' (SEPA Instant) and 'Account Type' (Savings), followed by text fields for 'Account Number' (masked with asterisks), 'Confirm Account Number' (12345678), and 'Account Name' (Sam Desouza). The 'Bank Details' section displays 'Bank Details' (DEUTDEFFXXX), 'DEUTSCHE BANK', 'GERMANY', and a 'Reset BIC Code' link. The 'Personal Details' section features a profile icon with the letter 'S', a 'Nick Name' field (Samd), an 'Email ID' field (sam@example.com) with an add button, a 'Country' dropdown (United States), and three address fields: 'Address Line 1' (12, Park Avenue), 'Address Line 2' (South Block), and 'City' (San Jose).

① Note

The below field description is not country specific and is given for general information. Fields will be populated based on the country/region fields configuration for Domestic Bank Account.

① Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 2-4 Add Payee – Domestic Account - Field Description

Field Name	Description
PayeeType	Select Domestic .
Account Details	Information specified in below fields are related to account details.
Account Type	Select the type of account associated with the payee.
Account Number or IBAN	Specify the account number of the payee, or specify the IBAN of the payee.
Confirm Account Number or Confirm IBAN	The user is required to re-enter the payee's account number in this field, or the user is required to re-enter the IBAN in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Verify Account	Select this to verify the account mentioned.
Bank Details	• Bank Code Lookup • Bank Code (Read only) • Bank Code (No Verify) • Bank Name & Branch Based on the configuration in regionalisation, one of the below options can be configured for the Bank Details. Out of these four options only one option will be available on the screen.
BankCode Lookup	On click the Lookup Bank Code overlay screen appears with the search criteria. This is to enable user to search for a Bank Code in case he does not remember it. For more information on Lookups , refer Lookups section.
Bank Code (read-only)	The user can see the Bank Code of the payee's account in read only mode. The bank code will be fetched based on the Account Number/IBAN and will be displayed here in read only mode.
Bank Code (No verification)	Specify the Bank Code of the payee's account. This will not be verified and passed onto the host product processor.
Bank Code (With verification)	Specify the Bank Code of the payee's account with the option to verify. The verify option will fetch the bank details based on the bank code specified.
Bank Name	Bank Name of the payee.
Branch	Branch of the bank.
Bank Code Lookup - Search Result	The following fields are displayed in the search results.
Bank Name	Name of the bank.
Address	The complete address of the bank.
Bank Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Details	The details of the bank that include the BIC/IFSC Code as well as the name and address of the bank and branch in which the payees account is held.
Personal Details	Information specified in below fields are related to personal details.

Table 2-4 (Cont.) Add Payee – Domestic Account - Field Description

Field Name	Description

Email ID	Email address of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.
Country	Enter the country of the payee's bank.
Address Line 1- 3	Enter the address of the payee's bank.
City	Enter the city of the payee's bank.

To create a payee for the within bank account transfer:

1. Fill the details in the respective field.
2. In the **Nickname** field, enter the nickname to be assigned to the payee.

Note

If, while creating a payee, the user enters an account number or payee nickname that has already been assigned to a registered payee, an error message will appear informing the user that a payee with the specific details already exists and the user will not be able to create the payee.

3. Click **Submit**.

The **Add Payee - Review** screen appears.

4. The **Review** screen appears. Verify the details and click **Confirm**.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to **Add Payee** screen.

The success message appears along with the transaction reference number and payee details.

5. Below are the available actions on the confirmation page:
 - **View Payees** - To view the list of payees. It will navigate to manage payee's screen

- **Payments** - To go to the **My Payment Overview** page.
- **Go to Dashboard** - To go to the main dashboard screen.
- **Make Payment** - To initiate fund transfer to the added payee.
- **Add New Payee** - To add a new payee.

2.3 Add Demand Draft Payee

This topic describes the systematic instruction to **Add Account Payee** screen. User can create a domestic draft payee to initiate a request to issue a draft which is payable.

A Demand Draft is a pre-paid negotiable instrument. The issuing bank undertakes to make payment in full when the instrument is presented by the payee. The demand draft is made payable at a specified centre and can be issued in local currency as well as in (allowed) foreign currencies. A foreign currency demand draft can be requested using Cross Border Demand Draft while a pay order or local currency demand draft can be requested using the Domestic Demand Draft transaction. A Demand Draft, as compared to a cheque is issued by the Bank against the Bank's own funds and hence there is a reduced risk of the cheque not clearing. Users can save the payee details of the draft through payee maintenance. Payees for demand drafts are of two types:

- Domestic Demand Draft
- Cross Border Demand Draft

The feature allows you to create a Domestic Draft payee to initiate a request to issue a draft which is payable at a location within the country. The user provides the payee details, the details of draft to be issued in favour of and the payable location.

Note

The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Issue Demand Draft, Edit Payee, Delete Payee. This functionality is only supported on mobile devices and tablets.

To add a new demand draft payee:

1. Perform any one of the following navigation to access the **Payees – Add Demand Draft Payee** screen:
 - From the Dashboard, click **Toggle menu**, click **Menu**, then click **Transfers & Bill Payments**. Under **Transfers & Bill Payments**, click **Payments**, click **More Actions**, and then click **Payees**, then click **Add Demand Draft Payee**.
 - From the Search bar, type **Payees – Add Demand Draft Payee** and press **Enter**.
2. The **Add Demand Draft Payee** screen appears.

Figure 2-10 Add Demand Draft Payee- Domestic

The screenshot shows the 'Adhoc Demand draft' form. At the top, there are 'Back', 'Cancel', and 'Issue' buttons. The form is titled 'Adhoc Demand draft'. Below the title, there are two tabs: 'Domestic' (selected) and 'International'. The 'Draft Type' section has a text field for 'Draft Favouring' with the value 'Sam Dsouza'. Below it is a dropdown for 'Draft payable at City' with the value 'INDIA'. The 'Delivery Location' section has three radio buttons: 'Branch Near Me' (selected), 'My Address', and 'Other Address'. Below the radio buttons are two dropdowns: 'City' with the value 'INDIA' and 'Branch Near Me' with the value 'MUMBAI 98001'. Below these is the address 'BANGALORE 2205 BANGALORE 2205 INDIA INDIA'. There is a 'Currency' dropdown with the value 'EUR' and an 'Amount' text field with the value 'EUR 1,200.00'. A 'View Limits' link is present. The 'Scheduled On' section has two radio buttons: 'Now' (selected) and 'Later'. Below this is a dropdown for 'Transfer From' with the value 'main Account Vashi, xxxxxxxxxxxx0036'. Below the dropdown is the text 'Current Balance :- EUR 2,109.82'. At the bottom is a 'Note' text field with the value 'Travel allowance'. On the right side of the form, there is a 'Note' box with a gift icon. The note text is: 'All the Demand Draft requests will be processed on the next working day. Demand Deposits will be couriered to the mailing address/provided beneficiary address within 3 to 5 working days. For Demand Deposits to beneficiary address returned undelivered by courier, the draft will be cancelled and credited to your account. DD charges and any correspondent bank charges will be deducted from your account.'

Figure 2-11 Add Demand Draft Payee- Cross Border

The screenshot shows the 'Add Demand Draft Payee' form. At the top, there are 'Cancel' and 'Submit' buttons. The form is titled 'Add Demand Draft Payee'. Below the title, there are two tabs: 'Domestic' and 'Cross Border' (selected). The 'Demand Draft Details' section has a text field for 'Favouring' with the value 'Sam Desouza'. Below it is a dropdown for 'Country' with the value 'United Kingdom'. Below that is a text field for 'City' with the value 'London'. Below that is a dropdown for 'Deliver to' with the value 'Residential Address'. Below these is the address 'Address GARMIN AVENUE 2 LAMINGTON STREET NEAR AJ HOSPITAL LONDON GB 252344'. The 'Personal Details' section has a profile picture icon. Below the icon is a text field for 'Nick Name' with the value 'samd'. Below that is a text field for 'Email ID' with the value 'samd@example.com'.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 2-6 Add Demand Draft Payee- Domestic - Field Description

Field Name	Description
Draft Type	Specify the type of draft to be associated with the payee. It Could be: Domestic Cross Border
Demand Draft Details	Information specified in below fields are related to demand draft details.
Favouring	Specify the name of the payee as it is to be printed on the demand draft.
Country	Specify the country in which the draft is to be payable. This field is enabled only for the Cross Border Demand Draft type.
City	Specify the name of the city in which the draft is payable.
Personal Details	Information specified in below fields are related to personal details.
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: Upload – Browse and upload the profile picture. Choose Avatar - Select initials pattern profile picture or picture from suggestions. Remove - Removes the profile picture uploaded. - Email ID:** A text input field containing 'gin@example.com'.

2.4.3 Delete Payee

This topic describes the information about **Delete Payee** overlay screen.

To delete the payee:

- Click on the  icon of specific beneficiary card which you wish to delete.

The **Delete Payee** pop up window appears with a warning message prompting the user to confirm the deletion.

Figure 2-22 Delete Payee

- Click **Delete** to proceed with the deletion request.
- Click **Cancel** to cancel the deletion process.

2.4.4 FAQ

- When can I make the payment to newly added payee?**
After successfully adding a payee, you may proceed to transfer funds only after the cooling period (the time set by the bank during which fund transfer is not allowed to a newly added payee) or you may set a future date for the transaction to take place.
- If I delete or edit a payee, what will happen to the in-flight transactions?**
Payee modification or deletion will not have any impact on the transactions which are initiated towards the payee and that are pending further processing.

3

Make Payment

This topic describes the information about **Make Payment** screen. User can initiate online payments with make payment screen.

The Make Payment feature enables the user to initiate online payments between his own accounts or perform one of the following types by using an existing payee or new payee (ad hoc payee) where the customers are required to specify the payee details manually along with the transfer details while initiating a payment.

- Within Bank Transfer
- Domestic Transfer
- Cross Border Transfer

User can also initiate transfers towards a group of people as part of a single transaction. This feature allows them to send money to registered payees or new payees of different transfer types i.e., Within Bank, domestic and Cross Border transfers, with different transfer dates, all at once from a single screen.

Note

The fields appearing in the domestic and cross border payments for both payee and payment is regionalisation supported.

User selects the specific account or the payee towards which the transfer is to be made. The user is not required to explicitly select the transfer type (Within Bank, Domestic or Cross Border) since this is defined at the time of payee creation.

Recurring Payments, also referred to as Standing Instructions or Standing Orders, are instructions given by a payer (bank account holder) to the bank to transfer a specific amount to another account at regular intervals. Once initiated, these transfers are executed repeatedly till the end date.

The application has simplified the user's task of initiating recurring payments by introducing the selection at the time making the regular payments. Through this feature, users can set an instruction for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from the **Recurring Payments summary or details** screen.

Cross Border Low value payments are now enabled as part of Make Payments. User can opt for the low value payment while making the cross-border payment based on the amount and selected bank.

Prerequisites:

- Small & Medium Business users are granted access to transactions and accounts.
- Payees are registered for the purpose of transferring funds.
- Transaction limits are assigned to user to perform the transaction.

- Payee limits, cooling period along with transaction limits are maintained.

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Transfers & Bill Payments**. Under **Transfers & Bill Payments**, click **Payments**, then click **Make Payment**.
- From the Search bar, type **Payments – Make Payment** and press **Enter**

To make a payment:

1. Navigate to the **Make Payment** screen.

Figure 3-1 Make Payment

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-1 Make Payment - Field Description

Field Name	Description
Transfer To	Information specified in below fields are related to transfer to.
Saved Payee	Option to select the existing payee to whom you wish to initiate payment. All the payees maintained will be listed for selection.
My Accounts	Display the list of Own Accounts.
New Payee	Option to add new payee to whom you wish to initiate payment.
Transfer From	Will be blank initially

- [Make Payment - My Accounts](#)
This topic describes the systematic instruction to **Make Payment - My Accounts** screen.
- [Make Payment - New Payee](#)
This topic describes the systematic instruction to **Make Payment - New Payee** screen. User can initiate payment requests towards payees with this feature.

3.1.1 Make Payment - Saved Payee

This topic describes the systematic instruction to **Make Payment - Saved Payee** screen. User can make payment to Saved Payee with this feature.

This feature allows Small & Medium Business user to make payment to Saved Payee. All payees (Within Bank, Domestic and Cross Border payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, the account for debiting funds towards the existing payee will get defaulted on the **Transfer From** field and user can change the source account if required.

Payment related details will be populated based on type of payee selected and based on regionalization. Refer section **Regionalization for Domestic Payments** to view region specific payment fields.

To initiate payment to single user:

1. In the **Transfer To** section, select the **Saved Payee** option. .
 - The **Transfer To** overlay screen will display with the **Saved Payee** tab.

Note

- a. Users have the option to add a new payee through the **New Payee** tab.
- b. Additionally, they can locate specific payees by entering a few characters in the search field. This search functionality is available in categories such as Payee Type, Nickname, Account Name, and Account Number.

- Click on the  icon to add the new payee.
The system redirects to **Add Bank Account Payee** screen.

Deduct Charges From	The Bank may levy charges for certain payment networks. The user can choose which debit account to use when paying the charges. The accounting entries for the charge's components will be reflected in the statement of the account selected here. This field is enabled for all Payment Types – Within Bank, Domestic and Cross Border. In case of Cross Border Payments, it is enabled when Payer or Shared option is selected in the Correspondence Charges.
Current Balance	The net balance of the source account.
Additional Details	Information specified in below fields are related to additional details.
Payment Purpose	The purpose of payment. It will be a list of allowed purpose codes.
Payment Details	You can add up to 4 fields each of length not more than 35. These will carry the unstructured remittance information to the Payment Processor.
Customer Reference Number	The reference number assigned to the customer.
Note	Specify a note or remarks for the transaction, if required.
Compliance Questions	For Cross Border payments the screen asks few compliance questions. OBDX supports configuring a list of questions from backend for On-premises. Once configured and enabled in regionalisation, the questions will show up on the screen.
Upload Documents	For Cross Border payments the screen lets the user attach documents. OBDX supports configuring a list of mandatory/non-mandatory documents from backend for On-premises. Once configured and enabled, the list will show up on the screen. Note When the payment is submitted, the documents will be stored to a configured Document Store (DMS or DB or any other repository depending on the implementation). The document reference numbers will be passed to the back-end payment processor along with the payment request.

3. Fill the details in the respective fields.
4. Perform anyone of the following actions:
 - Click **Proceed to Pay** to initiate the payment request.
The **Review** screen appears.
 - Click **Cancel** to cancel the transaction.
 - Click **Save as Draft** to store the unfinished transaction for later completion.

5. Perform anyone of the following actions:
 - Verify the details and click **Confirm**.
The success message appears of request of payment transfer along with the reference number, host reference number.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to previous screen.
6. Perform anyone of the following actions:
 - Click **Transaction Details** to view the details of the transaction.
 - Click **Go to Dashboard** to go to the **Dashboard** screen.
 - Click **e-Receipt** to generate the electronic receipt of the transaction. For additional details, refer the **e-receipt** section in the **Retail Customer Services** User Manual.
 - Click **Payments** to go to the Payment Overview page.
 - Click **Make Another Payment** to make new payment.
 - Click **Save as Favourite** to save payment as favourite transaction.
 - Click **Check Status** to see the status of the payment transaction. System will redirect to the **Payment Details** screen.
 - Click **Add as Payee** to save the payee to whom the payment is made.
 - Click  icon to share to share payment details. It opens default mail client with relative message in the body.

Note

- a. The **Add as Payee** option is displayed during the ad hoc payment procedure. By clicking on **Add as Payee**, user will be taken to the **Add Bank Account Payee** screen to include a new payee.
- b. The functionality to share payment details is not available for My Account payment transfers.

3.1.2 Make Payment - My Accounts

This topic describes the systematic instruction to **Make Payment - My Accounts** screen.

This feature allows users to make payments towards user's own accounts, enabling them to transfer funds within their bank-held accounts.

To make payment to a payee's own account:

1. Navigate to the **Make Payment** screen.
2. Under the **Transfer To** section, click on the **My Accounts**.

The **Transfer To overlay** screen will appear with the **My Accounts** tab.

Figure 3-4 Make Payment- Transfer To overlay screen

**Note**

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-4 Make Payment- Transfer To overlay screen - Field Description

Field Name	Description
My Accounts	Displays the list of my accounts in the card's layout with following details on each card.
Badge Type	Displays the type of the source account from which the funds are to be debited towards the payee. The values could be - • Islamic • Conventional
Account Details	Displays details like - nick name, account number, branch, currency, current balance etc. based on configuration for account in day0.
Current Balance	The net balance in the selected source account is displayed against the Transfer From field once an account is selected.

- On selection the screen populates the **Transfer From** and **Payment Details**.

Note

Fields under Transfer From, Payment Details, Fees and Charges and Additional Details are same as mentioned above for **Make Payment - Saved Payee**.

Figure 3-5 Make Payment- My Account

The screenshot shows the 'Make Payment' interface. At the top right are buttons: 'Save As Draft', 'Cancel', and 'Proceed to Pay'. The main content is divided into several sections:

- Transfer To:** Includes a 'Conventional Account' badge, the name 'Justin Jefferson', account number 'xxxxxxxxxxxx0035', account type 'HLL Savings Account', and 'Available Balance: €1,000,000.00'.
- Transfer From:** Includes a 'Conventional Account' badge, the name 'Sal Account, xxxxxxxxxxxx0035', account type 'Justin Jefferson | EUR | HLL', and 'Current Balance: €1,000,000.00'.
- Payment Details:** Includes a 'Currency' dropdown set to 'EUR', a 'Transfer Amount' field marked as 'Required', a 'View Limits' link, a 'Scheduled On' dropdown set to 'Pay Now', and a 'Transfer On' date field set to '8/29/2024'.
- Fees & Charges:** Includes a 'Calculate Charges' link, a 'Deduct Charges From' dropdown set to 'Sal Account, xxxxxxxxxxxx0035', and a 'Current Balance: €1,000,000.00'.
- Additional Details:** Includes a 'Note' text area.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-5 Make Payment- My Account - Field Description

Field Name	Description
Transfer To	Information specified in below fields are related to transfer to.
Badge Type	Displays the type of the source account from which the funds are to be debited towards the payee. The values could be • Islamic • Conventional
Account Details	Displays details like - nick name, account number, branch, currency, current balance etc. based on configuration for account in day0.
Current Balance	The net balance in the selected source account is displayed against the Transfer From field once an account is selected.

3.1.3 Make Payment - New Payee

This topic describes the systematic instruction to **Make Payment - New Payee** screen. User can initiate payment requests towards payees with this feature.

Using this feature user can initiate payment requests towards payees that are not registered in the system. Since the payment request is for an unregistered payee, the user is required to specify details of the payee along with transaction details.

Once the payment request is initiated, the user can register the payee as a payee by selecting the Add as Payee option provided on the confirm screen.

Users can initiate Within Bank, Domestic and Cross Border payment requests.

To initiate payment request for new payee:

1. Navigate to the **Make Payment** screen.
2. Under the **Transfer To** section, click on the **New Payee**.

The **Transfer To overlay** screen will appear with the **New Payee** tab to add new payee.

- a. If you select the **Within Bank** option in the **Payee Type** field:
The **Account Details** appears for the within bank payment.
- b. If you select the **Domestic** option in the **Payee Type** field:
The **Account Details** appears for the domestic payment.
- c. If you select the **Cross Border** option in the **Payee Type** field:
The **Account Details** appears for the cross-border payment.

3.2 Make Payment - Multiple Payments

This topic describes the systematic instruction to **Multiple Transfers** screen.

The Multiple Payments feature allows users to initiate payments towards a group of people as part of a single transaction. This feature, users can initiate payments towards own accounts, saved payees or new payees of different transfer types i.e., Within Bank, domestic and Cross Border transfers, with different transfer dates, all at once from a single screen.

To initiate multiple payments:

User can add payment for either Saved Payee, My Accounts, or New Payee type of payee.

1. Follow the steps from **1-3** of **Make Payment-Saved Payee** chapter. Follow the one of the actions for desired type of payee:

Perform one of the following actions:

- If you select **Saved Payee**;
On click open drawer with **Saved Payees** listed along with search option.
User can select the desired payee.
- If you select **My Accounts**;
On click open drawer with **Own Accounts** mapped to the user listed.
Search the desired **Own Accounts** with **Search** option.
- If you select **New Payee**;
On click open drawer with **Add Account Payee** fields.
Fill the details of the payee in the drawer. **Add Account Payee**.

Note

Fields under Transfer From, Payment Details, Fees and Charges and Additional Details are same as mentioned above for **Make Payment - Saved Payee**.

2. Perform one of the following actions:

- Click **Next** to save the details and allows the user to add another payment.

The **Make Payment** screen appears along with the added payment record based on payee type.

- Click **Discard** to cancel the added record.

Figure 3-10 Make Payment – Initiate Screen

Figure 3-11 Make Payment – Preview Screen

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 3-10 Multiple Transfers - Field Description

Field Name	Description
Each card displays below details	
Payment Type	Displays the payment type associated with the payee. It could be: • Within Bank • My Accounts • Domestic • Cross Border
Account Name	Displays the Account name provided for the payee.
Transfer Amount	Specify the amount for which the payment is to be made.
Bank Name	Displays bank name of the payee in case of Domestic and Cross Border. Displays the My Account in case of Own Account payments. Displays the Within Bank in case of Within Bank payments.
Actions	The actions can be performed from the badge. The options are: •  icon – to edit the transfer details of that record •  Icon - to delete the record. •  icon – to create a copy of payment details

3. Click the **Add Payment** and repeat above steps to add new payment.
4. Perform one of the following actions:
 - Click the  icon against a saved record to edit the transfer details of that record. The **Payment Details** screen appears, and user can edit and save the details.
 - Click the  icon against a payment to delete the record.
 - Click the  icon against a payment to create a copy. The **Payment Details** screen appears, where user can change the payee and payment details as required.
5. Click **Proceed to Pay** to initiate the request for the payment.
The **Review Make Payment** screen appears.

Figure 3-12 Make Payment – Review Screen

The screenshot shows the 'Review Make Payment' screen with two payment records. At the top right, there are buttons: 'Save As Draft', 'Back', 'Cancel', and 'Confirm'. The first record shows a transfer to 'CROSSBORDERBANKPAYEE, 222333' for an amount of €1,200.00 on 9/24/2024. The second record shows a transfer to 'SELF, xxxxxxxxxxxx0022' for an amount of €23,000.00 on 9/24/2024. Both records show the transfer from 'Montero 0011, xxxxxxxxxxxx0011' and the account type 'Montero L Hill | EUR | HEL | Active | Saving | Conventional'. A 'See Details' link is present next to each record.

Perform one of the following actions:

- Click the **See Details** next to the payment record, to view the payment details.

Figure 3-13 Make Payment – Review – View Details Screen

The screenshot shows the 'Payment Details' screen. On the left, there is a list of payment records. On the right, a detailed view of a payment record is shown. The details include: Nickname (BANKPAYEE), Account Name (CROSSBORDERBANKPAYEE), Payment Type (Cross Border), Account Number (222333), Bank Details (MIZUHO CAPITAL MARKETS UK LTD, 118 Northern Avenue, London, GB), Network Type (SPE), and Payee Address (BKC, BANDRA, MUM, AE, 2524324234).

- Click **Save as Draft** to save incomplete transaction as a draft.

Note

Perform one of the following actions:

- For **Multiple Transfers**, the **Save Draft** feature will generate an individual draft for each payment included. Each draft will have the same name, followed by a sequence number.
- Click **Back** to navigate back to previous screen. OR Click **Cancel** to cancel the transaction.
- Click **Confirm**. A success message is displayed along with the transaction status.

3.3 Transfer From Selection

This topic describes the information about **Transfer From Selection** overlay screen.

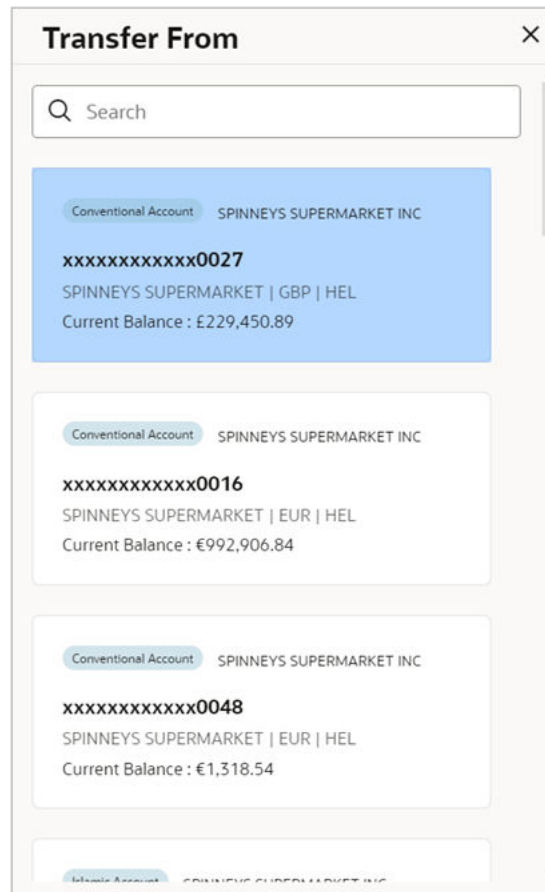

On click of Transfer from card the Transfer From drawer will open displaying all the accounts available to the user. There are 3 types of drawers possible:

- **When number of accounts are less than 10. In that case, the accounts will be listed as shown.**

Figure 3-16 Transfer From Selection

The screenshot shows a 'Transfer From' dialog box with a close button (X) in the top right corner. Inside the dialog, there are two account selection cards. The first card is blue and labeled 'Conventional Account' and displays 'Sal Account, xxxxxxxxxxxx0035', 'Justin Jefferson | EUR | HEL', and 'Current Balance : €1,000,000.00'. The second card is white and also labeled 'Conventional Account', displaying 'Expense Account, xxxxxxxxxxxx0057', 'Justin Jefferson | GBP | HEL', and 'Current Balance : £999,999.00'.

- **When number of accounts are between 10 to 100.**
In this case a search option is provided, to search the by typing in few characters. The search could be on account name, account number, branch, amount or currency.

Figure 3-17 Transfer From Selection

- **When number of accounts are more than 100.**
In this case advanced search option is provided, to search the by using below filters:
 - Account Number
 - Account Name
 - Account Type

3.4 Suggestive Credit Value Date

This topic describes the information about **Suggestive Credit Value Date**.

The Payment framework provides the facility to display the suggestive credit value date on the review screen of a payment. This date is an indicative date only and it gives the end user an idea of when the payment would get credited to the payee's account, before he can confirm the transaction.

The service considers parameters like the network of payment, the currency etc. before arriving at the suggestive credit value date.

This service is currently available out of the box integrated only with Oracle Banking Payments. For other product processors a customization would be required.

3.5 Save as Draft

This topic describes the systematic instruction to **Save as Draft** screen. User can save the transaction which are saved as a draft with this feature.

The **Save as Draft** feature enables the user to save the transaction which are saved as a draft and incomplete can be worked upon later. User can access the transaction from **Saved Drafts** screen and complete it.

1. Navigate to **Make Payment** screen.
2. At any stage of transaction, click **Save As Draft** to save the payment record.
3. Assign name to the Draft.

Figure 3-18 Save as Draft

The screenshot shows the 'Futura Bank' interface. The main screen is titled 'Make Payment' and contains sections for 'Transfer To' (David Wilson, DEUTSCHE), 'Transfer From' (Sal Account, Current Balance: €1,000,000.00), 'Payment Details' (Currency: EUR, Transfer Amount, View Limits, Network Type: SEPA.CREDIT, Scheduled On: Pay Later, Transfer On: 9/20/2024), and 'Fees & Charges' (Calculate Charges, Debit Charges From: Sal Account). A 'Save As Draft' button is visible in the top right corner of the main screen. A modal window titled 'Save As Draft' is open on the right, showing a 'Draft Name' input field and 'Cancel' and 'Save' buttons at the bottom.

Note

For **Multiple Transfers**, the Save Draft feature will generate an individual draft for each payment included. Each draft will have the same name, followed by a sequence number

- a. Click **Save** to save the transaction as a draft.
- b. Click **Cancel** to cancel the transaction.

3.6 Save as Favourite

This topic describes the systematic instruction to **Save as Favourite** screen. The **Save as Favourite** feature enables the user to mark the payment as favourite.

The **Save as Favourite** feature enables the user to mark the payment as favourite. User can access the transaction from Favourite screen and initiate the transaction. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

1. Navigate to **Make Payment** screen.
2. Initiate the transaction.
The system displays confirmation screen.

Note

For more information refer **Make Payment** transaction.

3. Click on the **Save As Favourite** link on the confirmation screen to save transaction as a favourite.
4. Assign name to the transaction which to be marked as favourite.

Figure 3-19 Save as Favourite

- a. Click **Save** to save the transaction as a favourite.
 - b. Click **Cancel** to cancel the transaction.
- [FAQ](#)

3.6.1 FAQ

1. **Can I use the ad hoc transfer transaction to transfer funds towards the repayment of a loan which I hold in the same bank?**
No, fund transfers can be made only to current or savings account through the ad hoc transfer transaction.
2. **Can I set a future date for a fund transfer?**
You can set a future date for a payment using the Pay Later option.
3. **What happens if I have set up a future dated transfer, but don't have enough funds in my account on the transaction date for the transfer?**
Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.
4. **What happens if the transaction amount is less than set Transaction Limit?**
If the transaction amount is less than the minimum limit or more than the maximum transaction limit set by the Bank, the user will not be able to initiate the transfer.

- 5. Can I make a payment towards an account which is currently not registered as my payee?**
Yes, you can make payments to the accounts which are not registered as payees through the ad hoc transfer transaction.
- 6. Are separate transaction limits applicable for when I initiate a transfer using Ad hoc Transfer and using Transfer Money by selecting a payee?**
Transaction limits are defined based on each payment network. The same limits get utilized if the transaction is initiated from Ad hoc Transfer or by using Transfer Money (provided the payment network is the same).
- 7. Can I cancel a Recurring Transfer instruction?**
Yes, you can cancel Recurring Transfer transactions provided that the instruction has some instructions that have not yet been executed. You cannot reverse transfers that have already been initiated.

Once an instruction has been cancelled, it will no longer be visible on the View Repeat Transfer screen.
- 8. What happens if I have set up a transfer for a future date, but on that date, I don't have enough funds in my account to cover the transfer?**
In this case, the transfer will not be made. Transfers are executed only if there are funds available in your account.
- 9. Can I cancel a specific instalment of a recurring payment?**
No, you cannot cancel the specific instalment of recurrent payment, but you can cancel entire instruction given for recurring payment.
- 10. Is there any limit on the number of payments that can be initiated at a time through multiple payments?**
Yes the limit will be enforced as defined by the bank. If you attempt to add another transfer record after reaching this limit, you will see an error message.
- 11. Do fund transfers between business accounts need authorization?**
Transferring funds between business accounts needs approval if the transaction is set up for Two Factor Authentication.

4

Lookups

This topic describes the information about **Lookups** overlay screens.

Below are the different lookups which are available while describing the payee details.

1. Bank Code (BIC/IFSC) Lookup

Figure 4-1 Bank Code Lookups

Lookup BIC Code ×

BIC Code

Regionalization for Domestic Payments

This topic describes the information about **Regionalization for Domestic Payments** screen.

Regionalization for domestic payments involves systems to align with the specific requirements and standards of each region. This includes defining fields such as networks supported, account types, currencies, charges, etc. that can vary from one region to another. By customizing these fields according to regional specifications, implementation partners can enhance the reliability of domestic payment transactions, ensuring they meet local regulatory requirements and customer expectations.

Implementation partners have the flexibility to customize domestic payee and payment fields to meet the specific requirements of each region.

Below are the regions for which configurations are provided out of box:

- India
- SEPA region
- US

Networks for the above supported regions:

Table 5-1 Networks Supported

Region	Networks
India	• RTGS • NEFT • IMPS
SEPA region	• SEPA Credit Transfer • SEPA Instant Credit
US	• ACH Transfer • Faster ACH Transfer • Domestic Wire Transfer

1. India Region

Here are the field specifications which will be displayed on payee and payment screen for domestic payments specific to the India region.

Table 5-2 Payee - Field Description

Field Name	Description
Payee Type	Select Domestic .
Account Details	Information specified in below fields are related to account details.

Table 5-2 (Cont.) Payee - Field Description

Field Name	Description
Account Type	Select the type of account associated with the payee. Below are the types configured for each network: • Savings • Current • Overdraft • Cash Credit • Loan Account • NRE
Account Number	Specify the account number of the payee.
Confirm Account Number	The user is required to re-enter the payee's account number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Bank Details	Information specified in below fields are related to bank details.
Search by IFSC	On click the Lookup overlay screen appears with the search criteria. This is to enable user to search bank details using IFSC Code. For more information on Lookups , refer Lookups section.
Search by IFSC - Search Result	The following fields are displayed in the search results.
IFSC Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Name	Name of the bank.
Address	The complete address of the bank.
Bank Details	The details of the bank that include the IFSC Code as well as the name and address of the bank and branch in which the payees account is held.
Personal Details	Information specified in below fields are related to personal details.
Upload Photo	Select this option to upload a profile photo against the payee. Following actions are available on the + icon: • Upload – Browse and upload the profile picture. • Choose Avatar - Select initials pattern profile picture or picture from suggestions. • Remove - Removes the profile picture uploaded. This option will only appear if no photo has been uploaded against the payee. Note: - The maximum allowable image size is 1MB, and the accepted formats are limited to JPG and PNG. - Once a photo is uploaded against the payee, click on the + icon and select Upload/Choose Avatar to update the profile picture.
Nickname	Specify a nickname to be assigned to the specific account of the payee for the purpose of easy identification.

Table 5-2 (Cont.) Payee - Field Description

Field Name	Description
Email ID	Email addresses of the payee. Note: This field is provided simply as a base product feature and will be available to send across to the backend Payments Processor during posting a payment. There will be no notifications sent to the payee on this email address by OBDX. Doing any processing of this field would be an implementation time activity.

Table 5-3 Payment Details - Field Description

Field Name	Description
Currency	Select the currency in which the payment is to be made. For My Account and Within Bank payments it will display debit account and credit account currency. For Domestic and Cross Border payments it will display debit account and network currencies.
Debit/Transfer Amount	Specify the amount for which the payment is to be made.
Transfer Currency	Select transfer currency. This will come in case the debit account currency is selected and network allows different currency transfers.
View Limits	Link to view the transaction limits. For more information on Limits, refer View Limits section.
Exchange Rate	Display indicative exchange rate in case of cross currency transfer.
Network Type	Select the network type for the payment. Supported networks are RTGS, NEFT, IMPS.
Scheduled On	The facility to specify the date on which the payment is to be made. The options are: • Pay Now: Select this option if you wish to make the payment on the same day. • Pay Later: Select this option if you wish to make the payment at a future date. If you select this option, you will be required to specify the date on which the payment is to be made. • Recurring: Select this option if you wish to make the recurring payments.
Transfer On	Specify the date on which the payment is to be made. This field appears if the option Pay Later is selected from the Scheduled On list.

Table 5-3 (Cont.) Payment Details - Field Description

Field Name	Description
Select Frequency	The frequency in which the repeat transfers are to be executed. The options are: • Daily • Weekly • Fortnightly • Monthly • Bi-monthly • Quarterly • Semi-Annually • Annually • Advanced Note: • If the Advanced option is chosen, one can configure a frequency for the transaction to occur, specifying intervals such as once every X day, weeks, or months. • This field appears if the option Recurring is selected from the Scheduled On list.
Start Transferring	The date on which the first recurring transfer is to be executed.
Stop Transferring	Select the option by which to specify when the recurring transfers are to stop being executed. The following two options are available: • On Date: Select this option if you wish to specify a date on which the last transfer is to be executed. • After Instances: Select this option if you wish to specify the number of recurring transfers that are to be executed as part of the instruction. This field appears if the option Recurring is selected from the Scheduled On list.
Date	Specify the date on which the last transfer is to be executed. This field appears if the option On Date is selected in the Stop Transferring field.
Instances	Number of instances. This field appears if the option After Instances is selected in the Stop Transferring field.
Also Transfer Today	Select this option to also initiate a one-time transfer towards the payee for the same amount as each individual instruction.
Fees & Charges	Information specified in below fields are related to fees and charges.
Calculate Charges	Click on the link to calculate the fees and charges applicable for the transaction. This field is network dependent field, comes from regionalisation.

Table 5-3 (Cont.) Payment Details - Field Description

Field Name	Description
Deduct Charges From	The Bank may levy charges for certain payment networks. The user can choose which debit account to use when paying the charges. The accounting entries for the charge's components will be reflected in the statement of the account selected here. This field is enabled for all Payment Types – Within Bank, Domestic and Cross Border. In case of Cross Border Payments, it is enabled when Payer or Shared option is selected in the Correspondence Charges.
Current Balance	The net balance of the source account.
Additional Details	Information specified in below fields are related to additional details.
Payment Purpose	The purpose of payment. It will be a list of allowed purpose codes.
Payment Details	You can add up to 4 fields each of length not more than 35. These will carry the unstructured remittance information to the Payment Processor.
Customer Reference Number	The reference number assigned to the customer.
Note	Specify a note or remarks for the transaction, if required.

2. SEPA Region

Here are the field specifications which will be displayed on payee and payment screen for domestic payments specific to the SEPA region.

Table 5-4 Swift - Field Description

Field Name	Description
Payee Type	Select Domestic .
Account Details	Information specified in below fields are related to account details.
IBAN	Specify the IBAN of the payee.
Confirm IBAN	The user is required to re-enter the payee's IBAN number in this field.
Account Name	Enter the name of the payee as maintained against the payee's bank account.
Bank Details	Information specified in below fields are related to bank details.
BIC Code (read-only)	The user can see the BIC Code of the payee's account in read only mode. The bank code will be fetched based on the IBAN and will be displayed here in read only mode.
BIC Code - Search Result	The following fields are displayed in the search results.
BIC Code	The Complete Bank Code. Available as a link, selecting which will copy the Bank Code and Bank Details back onto the Add Payee page.
Bank Name	Name of the bank.

Inquiries

- [Outgoing Payments](#)
This topic describes the information about **Outgoing Payments** screen. The Outgoing Payments screen allows users to review and keep track of all their payments.
- [Incoming Payments](#)
This topic describes the information about **Incoming Payments**.
- [Recurring Payments](#)
This topic describes the information about **Recurring Payments** screen. User can set instructions for funds to be transferred at regular intervals with this feature.
- [FAQ](#)

6.1 Outgoing Payments

This topic describes the information about **Outgoing Payments** screen. The Outgoing Payments screen allows users to review and keep track of all their payments.

This feature presents details of payments initiated from the user's current and savings accounts, regardless of the channel used for initiation. These transactions encompass Within Bank, domestic, and cross border transfers, as well as transfers to own accounts.

The summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat payment, cancel, or download e-receipts for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **Outgoing Payments Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list outgoing payments. The **Filter** feature is provided to search the payments based on the search criteria.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen.

By clicking on **Manage Columns** option available on the screen, user can.

- Rearrange columns.
- Remove specific columns.

Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.
3. The Long Press Gesture feature is implemented. In quick actions on Status Inquiry, users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like Single Payments, Recurring Payments, Incoming Payments. This functionality is only supported on mobile devices and tablets.

Pre-requisites:

Transaction access is provided to the Small & Medium Business user.

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Outgoing Payments**.
- From the Search bar, type **Payment Inquiries – Outgoing Payments** and press **Enter**.
- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then from **My Payments**, from **Recent Payments** widget, and then click **Outgoing** tab, click on the **View All Payments**.
- [Outgoing Payments - Summary](#)
This topic describes the systematic instruction to **Outgoing Payments - Summary** screen.
- [Outgoing Payments - Details](#)
This topic describes the systematic instruction to **Outgoing Payments - Details** screen. User can view all payments, including the status on outgoing payments- details.
- [Payment Cancellation](#)
This topic describes the systematic instruction to **Payment Cancellation** screen.
- [Payment Cloning](#)
This topic describes the systematic instruction to **Payment Cloning** screen.

6.1.1 Outgoing Payments - Summary

This topic describes the systematic instruction to **Outgoing Payments - Summary** screen.

To view / search for payment records:

1. Navigate to the Outgoing Payments screen.
The system displays a summary of all the outgoing payments for the primary account.

Note

By default, the **Outgoing Payments** screen displays the list of payments for the primary account.

- 2. Select the account from the drop-down list to view its outgoing payments.
The system displays a summary of all the outgoing payments for the selected account.

4. Click **More Actions** menu to access following transactions:
 - **Download E-receipt** – to download the e-receipt in pdf format.
 - **Cancel Payment** – to cancel the payment processing.

Repeat- The **Make Payment – New Payee** screen will appear with most of the data of the existing payment details prefilled, allowing you to make a payment to a new payee.

6.1.3 Payment Cancellation

This topic describes the systematic instruction to **Payment Cancellation** screen.

This feature allows user to cancel the payments.

Note

The cancellation is currently supported only for Within Bank Transfers that are not yet processed and for Cross Border Transfers that are processed as well as in progress.

To cancel the payment record details:

1. Navigate to the **Outgoing Payments** screen.
2. Select the account from the drop-down list to view its outgoing payments.
The system displays a summary of all the outgoing payments for the selected account.
3. Click on the more options  icon against the record which to be cancelled and click **Cancel Payment**.
 - The user will be redirected to the **Cancel Payments** screen where the cancellation of the respective payment is facilitated.
 - Click on the **Host Reference Number** for the specific payment record to view the details of that payment.

The **Payment Details** screen appears with the details.

- a. Click on the **Cancel Payment** option under the **More Actions** menu.

The **Cancel Payment** screen appears.

Figure 6-5 Payment Cancellation - Within Bank Transfer

The screenshot displays the 'Cancel Payment' interface. At the top, there are 'Cancel' and 'Submit' buttons. The main content area is divided into two columns. The left column contains a 'Cancellation Reason' dropdown menu with the text 'Account number specified has been closed on th...' and a 'Cancellation Remark' text box with the text 'cancel the payment'. The right column is titled 'Transaction Details' and contains the following information: Payee Name 'Columbia Pic Inc', Reference Number '2417602042108000', Payment Type 'Internal Transfer', and Status 'In Progress' with a sub-note '(Transaction to be executed on 5/15/2024)'. Below this, the 'Beneficiary Details' section shows the Account Number 'xxxxxxxxxxxx0027'. An Oracle logo is visible in the bottom right corner.

Beneficiary Details

Account Number: xxxxxxxxxxxx5654
Bank Details: HAHNENSTRASSE 57
Cologne

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 6-4 Payment Cancellation - Field Description

Field Name	Description
Cancellation Details	Information specified in below fields are related to cancellation details.
Cancellation Remarks	Enter the relevant remarks to process cancellation of the payment.
Cancellation Reason	Specify the reason codes.
Transaction Details	Information specified in below fields are related to transaction details.
Payee Name	The name of the payee.
Reference Number	The reference number assigned to the transaction by the host system.
Payment Type	The type of payment transfer i.e., Within Bank, Domestic or Cross Border transfer.
Status	The status of the payment transfer record. It could be: • In Progress • Processed • Future Dated • Cancelled
Payee Details	Information specified in below fields are related to payee details.
Account Number	The payee's account number to which the funds to be transferred. The account number appears in masked format.
Bank Details	This field is displayed only if Payment Type is Cross Border Transfer .

4. Perform anyone of the following actions:
 - Click **Submit** to cancel the payment.
 - Click **Cancel** to cancel the transaction.

The success message of payment cancellation appears along with the transfer request number.

5. Click **Home** to navigate to the **Dashboard**.

6.1.4 Payment Cloning

This topic describes the systematic instruction to **Payment Cloning** screen.

The **Repeat** feature available on the **Outgoing Payments** summary screen allows user to clone a payment. This is to make it convenient for the end user to initiate the same payment again, on a different date. The cloning does not intend to stop the user from changing any of the data. Therefore, it is just another Ad hoc Payment transaction, and the user will be able to change any fields he wants to.

For a Self-Transfer that was initiated from OBDX and visible in Payment Status Inquiry, clicking on the Clone button will open the **Make Payment – Within Bank** page. This is because, from the bank's perspective both Self Transfer and Within Bank Transfer are payments between accounts within the bank.

The payments seen in **Outgoing Payments** are a combination of all payments posted to the back-end payments processor. The payments could have originated from other channels too, or directly from the payment's processor itself. And therefore, to repeat/copy the same payment later, OBDX makes use of the Make Payments for New Payee transaction since the payee information may not be present within OBDX as a payee.

Pre-Requisites

- Entitlements to Make Payments – New Payee

To clone the payments:

1. Navigate to the **Outgoing Payments** screen.
2. Click on the

(Pay Again) icon against the payment record which to be cloned.

The user will be redirected to the **Make Payment** screen transaction with most of the data of the existing payment copied to the input fields.

For more information refer **Make Payment – New Payee** section.

6.2 Incoming Payments

This topic describes the information about **Incoming Payments**.

Inward remittance is amount of money received in user's account/s from the various Domestic and cross border channels. Using this inquiry transaction, user can inquire the inward remittances received in your account.

Prerequisites:

- Transaction and account access is provided to Small & Medium Business user.
- Inward remittances are available under the accounts.

Features supported in application.

Following transactions are allowed under Incoming Payments Inquiry

- View Incoming Payments

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Incoming Payments**.
- From the Search bar, type **Payment Inquiries – Incoming Payments** and press **Enter**.
- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then from **My Payments**, from **Recent Payments** widget, and then click **Incoming** tab, click on the **View All Payments**.

6.2.1 Incoming Payments - Summary

This topic describes the systematic instruction to **Incoming Payments - Summary** screen.

By default, summarized view of all inward remittances received in your primary account mapped to you are listed. An option is provided to search specific remittance transaction based on various search criteria.

To view incoming payments:

1. Navigate to the screen.
2. From the Account Number list, select the appropriate account number.

The list of inward remittance populates on the screen.

Figure 6-7 Incoming Payments - Summary

The screenshot shows the 'Incoming Payments' screen for account 'XXXXXXXXXXXX0011'. It displays a table with 2 records. The table has columns: Sent By, Sender Account, Received On, Host Reference, Payment Type, Amount, and Network Type. The first record is from 'DBTRACCNO67081222' for a Domestic payment of €3,200.55. The second record is from 'Miguel Fernandez' for a Cross Border payment of €1,950.80.

Sent By	Sender Account	Received On	Host Reference	Payment Type	Amount	Network Type
	DBTRACCNO67081222	5/13/2024	2417401141937000	Domestic	€3,200.55	SEPA CREDIT
Miguel Fernandez	SWEURNOST00000000135	5/13/2024	2417401361041000	Cross Border	€1,950.80	INTERNATIONALSWIFT

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 6-5 Incoming Payments - Summary - Field Description

Field Name	Description
Account Number	The account number whose inward remittance inquiry to be done.
Sent By	The account name of the remitter.
Sender Account	The account number of the remitter.
Received On	The date on which the transaction is received by the bank from the channel.
Host Reference	The transaction reference number. Indicates the link to view the details of transaction.
Payment Type	The type of payment transfer i.e., Within Bank, Domestic or Cross Border transfer.
Remittance Amount	The amount in the currency as received by the bank.
Network Type	Local payment network.

3. Click on reference number of the transaction to view the remittance details.

- The **Remittance Details** screen appears.
- Click **Cancel** to cancel the transaction.

4. Click  **Filter** to change filter criteria.

- The **Filter** overlay screen appears.
 - a. Enter the filter criteria.
 - b. Click **Apply** to search the records.

Transaction records appears based on the updated criteria.

- Click on the

icon to download the records in CSV & PDF format.

- Click on the  **Manage Columns** icon to setup a column preference by rearranging or removing columns.

Table 6-7 Remittance Details - Field Description

Field Name	Description
Transaction Details	Information specified in below fields are related to transaction details.
Transaction Date	The date on which the transaction is received by the bank from the channel.
Reference Number	The transaction reference number.
Remittance Amount	The amount as remitted by the remitter.
Credited On	The date on which the funds are credited on receiver's account.
Credit Amount	The amount credited to the account.
Purpose of Remittance	The purpose of remittance.
Description	The brief description of the transaction.
Sender Details	Information specified in below fields are related to sender details.
Remitter Name	The name of the remitter.
Account Number	The account number of the remitter.
Bank Code	The bank details of the remitter.
Remitter IBAN	The intermediary bank through which funds are transferred.
Recipient Details	Information specified in below fields are related to recipient details.
Credit Account	The receiver's account number and nickname to which amount has been credited.
Credit Account Branch	The name of the bank and branch of the receiver.

- Click **Back** to go back to the previous screen.

6.3 Recurring Payments

This topic describes the information about **Recurring Payments** screen. User can set instructions for funds to be transferred at regular intervals with this feature.

The application has simplified the user's task of initiating repetitive payments by introducing the **Recurring Payments** feature. Through this feature, users can set instructions for funds to be transferred at regular intervals towards registered payees or to the user's own accounts. Once initiated, the details of these transfers can be viewed in the **Recurring Payments** screen. The user can also cancel a repeat transfer instruction, if so desired, from this screen using **Stop Recurring Payment feature**.

The **Recurring Payments** transaction enables users to review and keep track of all their payments set as recurring. This feature displays details of all recurring payments initiated from the current and savings accounts to which the user has access, irrespective of the channel from which they were initiated. These transactions can include Within Bank, Domestic and cross border transfers along with transfers made to own accounts.

The **Recurring Payments** summary screen lists down payment transactions based on search criteria defined in the provided search fields. The User can repeat, cancel, or download e-receipts and view status for each payment. The user can view additional details of a payment by selecting the provided reference number link and navigating to the **RecurringPayment Details** screen. The account filter option is provided at the top. (By default, primary account to be selected) to list recurring payments. The **Filter** feature is provided to search the payments based on the search criteria.

The user can view additional details of a recurring payment by selecting the provided reference number link and navigating to the **RecurringPayment Details** screen. Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on **Manage Columns** option available on the screen, user can.

- **Rearrange columns**
- **Remove/add specific columns**

Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.
3. Swipe gesture is implemented on the Recurring Payments summary page showing actions -Copy, Stop as applicable. This functionality is only supported on mobile devices and tablets.

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Inquiries**, and then click **Recurring Payments**.
- From the Search bar, type **Payment Inquiries – Recurring Payments** and press **Enter**.

Execution Date	The date on which the repeat transfer was executed.
Status	The status of the repeat transfer. The status can be: • Active • Failed

4. Additional following actions can be executed from the screen:

- Click on the

(Copy) icon, the **Repeat Transfers – Ad hoc Payee** screen will appear with most of the data of the existing payment details prefilled, allowing you to make a payment to an unsaved payee.

- Click on the

(Stop) icon to stop the repeat transfers maintained for the account.

The **Stop Recurring Payment** confirmation popup appears.

Stop Recurring Payment popup

- a. Click **Stop** to stop the repeat transfers maintained for the account.

OR

Click **Cancel** to cancel the transaction.

The message confirming that the repeat transfer has been stopped/ cancelled appears.

5. Click **Home** to navigate to the **Dashboard**.

6.4 FAQ

- **What is an Inward Remittance?**
Inward remittance is amount of money credited in user's account/s from the various Domestic and Cross Border channels.
- **Can I view the inward remittances of all accounts under my party?**
You can view the inward remittances received in the accounts mapped to you as primary and linked accounts.

7

Favorites

This topic describes the information about **Favorites** option. Users can mark a transaction as a favourite with this option.

This feature allows users to mark payments as favourites. By doing so, users can quickly access these payments and use them as templates to initiate new payments. This feature is beneficial for users who frequently transfer funds to the same recipients with similar details.

Users can mark a transaction as a favourite by selecting the option provided on the confirmation page of a payment.

The following types of payment transactions can be marked as Favourite transactions.

- Payments made to an account (Make Payment)

After a transaction is marked as a favourite, it appears in the user's favourite transaction list. To access it, the user simply needs to select the desired transaction from the displayed list. Once selected, the system presents the transaction details in editable mode. The user can then make any necessary changes and submit the transaction for processing.

Note

The **Long Press Gesture** feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like to Open Favourites screen. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on **Manage Columns** option available on the screen, user can.

- **Rearrange columns**
- **Remove specific columns**

Note

1. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
2. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.

Prerequisites:

- Transaction and account access is provided to the Small & Medium Business user.

Features supported in the application.

- View Favourite Transaction Details
- Initiate a Payment
- Remove Transaction from Favourite List

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments**. Under **Payments**, then click **More Actions**, and then click **Favourites and Drafts**, and then click **Favourites**.
- From the Search bar, type **Favourites and Drafts - Favourites** and press **Enter**.
- [Favorites – Summary](#)
This topic describes the systematic instruction to **Favorites - Summary** screen. Users can view summarized views of all payments marked as favourites.
- [FAQ](#)

7.1 Favorites – Summary

This topic describes the systematic instruction to **Favorites - Summary** screen. Users can view summarized views of all payments marked as favourites.

The screen displays summarized views of all payment transactions marked as favourites. Users can search for a favourite transaction based on the favourite name or favourite types or debit account. They can view and initiate transactions using these favourite transactions as templates, and they can also delete any transaction from the favourite list.

To view and initiate a favourite transaction:

1. Navigate to the **Favourites** screen.

All the favourite transactions appear as a list on the **Favourites Summary** screen.

Figure 7-6 Remove Favourites- Confirm

- a. Click **Remove** to proceed with the deletion request. The message confirming the removal of the transaction from the favourite list appears.
- b. Click **Cancel** to cancel the deletion process.

7.2 FAQ

1. **If I add a transaction to Favourites, where will this transaction be reflected and what benefit will I gain from this?**
The transaction will be saved in the **Favourites** list. You can then use this transaction by selecting it from this list the next time you want to initiate a similar payment. The details will be pre-populated on the screen thus saving you the time and effort of having to enter all the details again.
2. **What type of transactions can be saved as favourite?**
You can mark money transfer transactions as favourites.
3. **Can I edit the details if I am re-initiating a transaction from my favourite transaction list?**
Yes, you can edit the details and re-initiate a transaction by selecting a favourite transaction.
4. **What happens when I add a transaction in my favourite list?**
Once a transaction is marked as favourite it is displayed in the user's favourite list. The user can directly initiate a transfer using favourite transactions; all the transaction details are auto populated in the respective fields. The user can make required changes in the details and submit the transaction for processing.

8

Saved Drafts

This topic describes the systematic instruction to **Saved Drafts** screen. User can view all the transaction which are saved as a draft with this feature.

This feature enables users to view all the transaction which are saved as a draft and incomplete. It also allows user to complete the transaction by redirecting it to the respective transaction screen.

Note

The Long Press Gesture feature is implemented. Users can now press and hold down on a screen for an extended duration, which triggers additional options or actions like open Saved Drafts. This functionality is only supported on mobile devices and tablets.

Using the **Manage Columns** feature, bank can configure and enable customizable UI display/download option for the end users. Using this feature, users can personalize the information to be displayed/downloaded from search grid displayed on the screen. The user can sort the data on each column.

By clicking on **Manage Columns** option available on the screen, user can.

- Rearrange columns.
- Remove specific columns.

Note

- a. The downloaded report will have the same columns as displayed on the UI as per user preference as well as there will also be an option to modify the column selection while downloading.
- b. The column preferences setup by the user will be saved for future reference i.e., in case the user revisits this screen, the preferred columns will only be displayed in the table.

Prerequisites:

- Transaction and account access is provided to the Small & Medium Business user.

Features supported in the application.

- View Saved Payment Drafts
- Initiate a Payment

To view payment drafts:

1. Perform anyone of the following navigation to access the **Saved Drafts** screen.

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** . Under **Payments** , then click **More Actions**, and then click **Favourites and Drafts** , and then click **Saved Drafts**.
 - From the Search bar, type **Favourites and Drafts - Saved Drafts** and press **Enter**.
2. Navigate to the **Saved Drafts** screen.
- The list of all the saved drafts appears on the **Saved Drafts** screen.

Figure 8-1 Saved Drafts - Summary

The screenshot shows the 'Saved Drafts' screen with a table containing one draft record. The table has columns for Draft Name, Payee, Amount, Debit Account, Payment Type, and Actions. The draft record is for 'Aakash Bella Davis 2' with payee 'Isabella Bianchi', amount 'xxxxxxxxxx0035', and payment type 'Cross Border'. There is a trash icon in the Actions column.

Draft Name	Payee	Amount	Debit Account	Payment Type	Actions
Aakash Bella Davis 2	Isabella Bianchi		xxxxxxxxxx0035	Cross Border	

3. Click on the **Draft Name** link to re-initiate transaction.
- The system re-directs to the **Make Payment** screen.
4. Click on the  icon against the draft record to delete the record.

Figure 8-2 Saved Draft - Delete

- a. Click **Proceed** to proceed with the deletion request.
- b. Click **Cancel** to cancel the deletion process.

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 8-1 Saved Drafts - Filter - Field Description

Field Name	Description
Search Criteria	Information specified in below fields are related to search criteria.
Total Count of saved Drafts	Displays the total count of saved drafts.
Draft Name	Name of the Draft. Click on the draft name to view its details.
Payee	Displays the payee's name to whom payment is to be transferred.
Amount	The amount which is to be transferred.
Debit Account	The CASA (Current Account and Savings Account) account from which the amount is to be debited for payment.
Payment Type	The desired transaction type of which drafts is to be searched. The options are: • My Accounts • Domestic • Within Bank • Cross Border
Actions	Delete option to delete draft.

Make Payment - Multiple Payments

This topic describes the systematic instruction to **Multiple Transfers** screen.

The Multiple Payments feature allows users to initiate payments towards a group of people as part of a single transaction. This feature, users can initiate payments towards own accounts, saved payees or new payees of different transfer types i.e., Within Bank, domestic and Cross Border transfers, with different transfer dates, all at once from a single screen.

To initiate multiple payments:

User can add payment for either Saved Payee, My Accounts, or New Payee type of payee.

1. Follow the steps from **1-3** of **Make Payment-Saved Payee** chapter. Follow the one of the actions for desired type of payee:

Perform one of the following actions:

- If you select **Saved Payee**;
On click open drawer with **Saved Payees** listed along with search option.
User can select the desired payee.
- If you select **My Accounts**;
On click open drawer with **Own Accounts** mapped to the user listed.
Search the desired **Own Accounts** with **Search** option.
- If you select **New Payee**;
On click open drawer with **Add Account Payee** fields.
Fill the details of the payee in the drawer. **Add Account Payee**.

Note

Fields under Transfer From, Payment Details, Fees and Charges and Additional Details are same as mentioned above for **Make Payment - Saved Payee**.

2. Perform one of the following actions:
 - Click **Next** to save the details and allows the user to add another payment.
The **Make Payment** screen appears along with the added payment record based on payee type.
 - Click **Discard** to cancel the added record.

9.1 FAQ

1. **Is there any limit on the number of payments that can be initiated at a time through multiple transfers?**
Yes, the limit as defined by the bank will be in place. You will be displayed an error message if you try to add another transfer record once this limit has been met.
2. **Do fund transfers between business accounts need authorization?**
Fund transfer between the business accounts require authorization if transaction is configured for Two Factor Authentication.

Issue Demand Drafts

This topic describes the information about **Issue Demand Drafts** workflow.

The Issue Demand Draft transaction enables users to request the bank to issue demand drafts towards saved or new payees.

To initiate a demand draft issue request to the saved payee, the user must first ensure that the payee i.e., the recipient of the demand draft is registered as a demand draft payee through the **Add Demand Draft Payees** feature. Once the payee is registered, the user can initiate a request to the bank to issue a demand draft. The overlay screen on the **Saved Payee** field allows the user to select the payee from the list of saved payees.

Prerequisites:

- Transaction access is provided to the Small & Medium Business user.
- Transaction working window is maintained.
- Required payees are maintained.
- Transaction limits are assigned to user to perform the transaction.

Features supported in application.

The user can request for two types of demand drafts:

- Domestic Demand Draft – Where the draft is payable within the country.
- Cross Border Demand Draft – Where the draft is payable outside the country.

Figure 10-1 Issue Demand Drafts - Workflow

Navigation Path:

- From the Dashboard, click **Toggle menu**, click **Menu**, then click **Payments** . Under **Payments** , then click **More Actions**, and then click **Issue Demand Drafts** .
- From the Search bar, type **Payments - Issue Demand Drafts** and press **Enter**.
- [Demand Draft Issuance to Saved Payee](#)

This topic describes the systematic instruction to **Demand Draft Issuance to New Payee** screen. Using this feature user can initiate requests for demand drafts to be payable towards payees that are not registered as payees in the system.

- [FAQ](#)

10.1 Demand Draft Issuance to Saved Payee

This topic describes the systematic instruction to **Demand Draft Issuance to Saved Payee** screen. A user can initiate a request for a Demand Draft using this transaction.

All Demand Draft payees (Domestic and Cross Border Demand Draft payees) created by the user are listed for selection. Details of the payee are auto populated on the transaction screen once a selection has been made. Based on the payee selection, the account for debiting funds towards the issue of the demand draft will get defaulted on the **Transfer From** field and user can change the source account if required. is selected. The user is then required to fill in details such as the amount for which the draft is to be drawn and the date on which the draft is payable, to initiate the demand draft request.

To issue demand draft to registered payee:

1. Navigate to the **Issue Demand Draft** screen.

Figure 10-2 Issue Demand Draft

Note

The fields which are marked as Required are mandatory.

For more information on fields, refer to the field description table.

Table 10-1 Issue Demand Draft - Field Description

Field Name	Description
Issue To	Information specified in below fields are related to issue to.
Saved Payee	Option to select the existing payee to whom you wish to issue the demand draft. All the demand draft payees maintained will be listed for selection.

Table 10-1 (Cont.) Issue Demand Draft - Field Description

Field Name	Description
New Payee	Option to add new payee to whom you wish to issue the demand draft.
Transfer From	Displays the debit account details such as Account Type, Account Nick Name/Account Name, Branch code, Account currency and Available Balance. All the user's own accounts will be listed for selection.
Badge Type	Displays the type of the source account from which the funds are to be debited towards the payee. The options are: • Islamic • Conventional
Account Details	Displays details like - nick name, account number, branch, currency, current balance etc. based on configuration for account in day0.
Current Balance	The net balance in the selected source account is displayed against the Transfer From field once an account is selected.

2. Click on the **Transfer From** card.

The **Transfer From** overlay screen will appear with all the user's own accounts.

- Select the source account from the list from which funds need to be drawn.
- Enter the search criteria and click on the  icon to find the accounts.

 Note

Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

5. From the **Currency** list, select the preferred currency.
6. In the **Amount** field, enter the amount for which the draft needs to be issued.
7. In the **Scheduled On** field, select the option to indicate whether the draft is to be issued for the same day or a date in the future.
 - If you select the **Pay Now** option, the draft will be issued on the same day.
 - If you select the option **Pay Later**, select the date for when the draft is to be drawn.
8. In the **Note** field, specify a note or remarks.
9. Perform anyone of the following actions:
 - Click **Submit** to initiate the request for the issue of the demand draft.
 - Click **Cancel** to cancel the transaction.
10. Perform anyone of the following actions:
 - The **Review** screen appears. Verify the details and click **Confirm**.
 - Click **Cancel** to cancel the transaction.
 - Click **Back** to navigate back to previous screen.

The success message appears of request to create a new demand draft along with the reference number, host reference number, status and draft details.
11. Click the **e-Receipt** link to download the e-receipt.

For more information refer the **e-Receipt** section in the **Corporate Customer Services User Manual**.

12. Perform anyone of the following actions:

- Click **Transaction Details** to view the details of the transaction.
- Click **Go to Dashboard** to go to the **Dashboard** screen.
- Click **Go to Payments Overview** to go to the Payment Overview page.
- Click **Issue Another Demand Draft** to issue a new demand draft.

10.2 Demand Draft Issuance to New Payee

This topic describes the systematic instruction to **Demand Draft Issuance to New Payee** screen. Using this feature user can initiate requests for demand drafts to be payable towards payees that are not registered as payees in the system.

Since the demand draft request is for an unregistered payee, the user is required to specify details of the payee along with demand draft details at the time of demand draft request.

Once the request for the demand draft is initiated, the user can register the payee as a payee by selecting the Add Draft Payee option provided on the confirm screen.

Users can initiate both domestic and cross-border requests for demand drafts. A Domestic Draft initiation request is a request to issue a draft that is payable at a location within the same country. Whereas a Cross Border demand draft request is a request to issue a draft that is payable at a location outside the country. To initiate an ad hoc Cross Border demand draft request, the user must specify the payee's details, including the amount and delivery specifications.

To initiate a demand draft request for new payee:

1. Navigate to the **Issue Demand Draft** screen.
2. Click on the **Transfer From** card.

The **Transfer From** overlay screen will appear with all the user's own accounts.

- Select the source account from the list from which funds need to be drawn.

Enter the search criteria and click on the  icon to find the accounts.

 Note

Users can search for accounts by typing a few characters (type to search). This can be done in fields such as Account Type, Nickname, Account Name, Account Number, Currency, and Branch.

3. Under the **Issue To** section, click on the **New Payee**.

The **Issue To** overlay screen will appear with **New Payee** tab appears to add new beneficiary.

- a. If you select the **Domestic** option in the **Draft Type** field:

The **Demand Draft Details** appears for the domestic draft.

Figure 10-6 Issue Domestic Demand Draft – New Payee

The screenshot shows the 'Issue Demand Draft' screen in the Futura Bank app. On the left, under 'Transfer From', a savings account for 'SWATI THITE, xxxxxxxxxxxx0080' with an available balance of €97,909.71 is selected. The 'Issue To' section has two options: 'Saved Beneficiary' and 'New Beneficiary', with 'New Beneficiary' being the active selection. On the right, a modal titled 'Issue To' is open. It has tabs for 'Saved Beneficiary' and 'New Beneficiary', with 'New Beneficiary' selected. Under 'Draft Type', 'Domestic' is selected. The 'Demand Draft Details' section includes: 'Favouring Sam desouza', 'City INDIA', 'Deliver to Postal Address', and a full address: 'OFFS, BAGMANE TECH PARK, CV RAMAN NAGAR, BANAGLORE, IN, 560093'. 'Cancel' and 'Proceed' buttons are at the bottom right.

- b. If you select the **Cross Border** option in the **Draft Type** field:
The **Demand Draft Details** appears for the cross border draft.

Figure 10-7 Issue Cross Border Demand Draft – New Payee

This screenshot is similar to Figure 10-6 but for a cross-border draft. In the 'Issue To' modal, the 'Cross Border' option is selected under 'Draft Type'. The 'Demand Draft Details' section shows: 'Favouring Sam Desouza', 'Country United States', 'City California', 'Deliver to Postal Address', and the same address: 'OFFS, BAGMANE TECH PARK, CV RAMAN NAGAR, California, United States, 560093'. - Click **Issue Another Demand Draft** to issue a new demand draft.

10.3 FAQ

1. Can I initiate a future dated demand draft issuance request?

You can initiate a future dated demand draft issuance request using the Schedule Later option.

2. What happens if I have set up a future dated draft issuance request, but don't have enough funds in my account on the transaction date for the transfer?

Balance check will not be performed at the time of transaction initiation with future date. The transaction will get declined in case of insufficient funds in the account on the given transaction date.

3. What happens if the transaction amount is less than the set Transaction Limit?

You will not be able to proceed with the initiation of the demand draft issuance if the amount you have specified is less than that of the set minimum transaction limit.

11

Positive Pay

This topic describes the information about **Positive Pay**.

An electronic authentication system called Positive Pay that will allow user to share the cheque details with the bank before the bank processes it. Positive Pay is a process to deter cheque fraud.
