## Purpose

Welcome to the **Savings Account Origination** user guide for Oracle Banking Origination. This document provides an overview of the Savings Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Savings Account Origination.

## Audience

This user manual is intended for the Relationship Managers (RMs) and Sales Officers in-charge of sourcing the Savings Account Products from prospect and customer of the bank. The user manual is also intended for the other bank personas such as Bank Operations Manager, Account Opening Officers or Branch Managers who may handle the specific stages of the lifecycle of the Savings Account Origination process based on the bank's internal operation and policies.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

**Table 1 Acronyms table**

Abbreviation	Description
DS	Data Segment
System	Oracle Banking Origination Module
OBA	Oracle Banking Accounts
OBO	Oracle Banking Origination

## Basic Actions

Table 3 Basic Actions

Actions	Functions
<b>Request Clarification</b>	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
<b>Back</b>	Used to navigate to the previous data segment within a stage.
<b>Next</b>	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.

**Table 3 (Cont.) Basic Actions**

Actions	Functions
<b>Save &amp; Close</b>	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
<b>Cancel</b>	Used to close the application without saving. This tasks appears in Free Task, once the transaction is canceled.

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

# 1

## Overview

This topic describes the information on the various features of the Savings Account Origination module.

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of Retail Banking Origination processes for Savings Account, Current Account, Term Deposit, Credit Cards and Loans comprising of Home Loan, Personal Loan, Education Loan and Vehicle Loan for Individual customers, and Term Loan and Business Loan for Small and Medium Business customers.

- Saving Account
- Current Account
- Term Deposit Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver improved user experience for various bank personas such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and so on, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Savings Account is created in the Host. The new workflow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The initiation request for a Savings Account can be originated by authorized branch users or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services made available on digital devices like tablets or mobiles. The initiation of Savings Account request can be made for both new and existing customer types. Also, the system supports processing of the savings account request from the customer which are directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

### Note:

Refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the **Operations User Guide**.

# 2

## Savings Account Origination

This topic describes the information on the defined stages through which the Savings Account Application has to flow before it is ready to be sent to the Host for Account Creation.

As detailed in the **Operations User Guide**, all the Product Originations are initiated in the **Application Initiation** stage from the Product Catalogue. The Cart Operation in Product Catalogue allows to originate single or multiple Product initiation. Once the Savings Account Product origination process is initiated either as a single product origination or as part of the multiple product selection, Process Orchestrator generates the Savings Account Process Reference Number on submit of the **Application Initiation** stage. Process Orchestrator also updates the record in the **Free Task** process for the **Application Entry** stage also referred as Task from orchestrator perspective.

The Savings Account Origination Process flow comprises of the following stages and the detailed information of the same is available in the following topics:

- [Application Entry Stage](#)  
This topic describes the information on the various data segments to capture the required data in the Application Entry stage.
- [Application Documents](#)  
This topic describes the process of the documents that are uploaded related to application.
- [Debit Assessment](#)  
The topic describes the debit assessment process.
- [Manual Debit Assessment](#)  
The topic describes the manual debit assessment process.
- [Application Enrichment Stage](#)  
This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.
- [Account Funding Stage](#)  
This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.
- [Account Approval Stage](#)  
This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage
- [Account Funding](#)  
This topic describes the process of initial funding of an account. This stage appears once the account is opened.
- [Global Actions](#)  
This topic provides the detailed on the actions that can be performed in all stages.

### 2.1 Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Application Entry stage.

Process Orchestrator updates the record in the **Free Task** process for the **Application Entry** stage also referred as Task from orchestrator perspective. The user can **Acquire and Edit** or **Acquire** the task from the **Action** column and the header respectively as per requirement.

The **Application Entry** stage will be automatically submitted, in case the Bank level configuration for allowing full Application submission is set as **Yes** and the user has updated all the data segment of **Application Entry** stage as part of the **Application Initiation** stage itself by clicking on the **Application** button available in the **Product Details** data segment.

After successful submission of **Application Entry** stage, a request for the initial funding transaction is sent to **Teller Module**, if **Fund By** option is selected as **Cash**. The status of the **Teller Transaction** is then validated in the **Initial Funding Details** data segment of **Account Funding** stage.

The **Application Entry** stage has the following reference data segments:

- [Applicant](#)  
This topic provides the systematic instructions to capture the customer-related information for the application.
- [Account Details](#)  
This topic provides the systematic instructions to view and modify the account details.
- [Stake Holder Details](#)  
This topic provides the systematic instructions to capture the stake holder details related information for the business.
- [BeneficiaryDetails](#)  
This topic provides the systematic instructions to capture the details of the nominee for the account.
- [Terms and Conditions](#)  
This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.
- [Summary](#)  
This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

## 2.1.1 Applicant

This topic provides the systematic instructions to capture the customer-related information for the application.

The details captured of the customer in the Application Initiate stage appears in this data segment. The user can update further fields for supplementing the customer related information.

- [For Individual Customer Type](#)  
The topic describes the process to capture or edit customer information of Individual type of customer.
- [For Small and Medium Business \(SMB\) Customer Type](#)  
The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

## 2.1.1.1 For Individual Customer Type

The topic describes the process to capture or edit customer information of Individual type of customer.

### To capture applicants details:

1. In the Saving Application Entry stage, update the customer details in the Applicants data segment based on the respective customer type.

The **Applicant - Individual** screen displays.

2. Specify the relevant details in data fields. The fields which are marked as **Required** are mandatory. For more information on fields, refer to the field description table below:

For more information on the fields, refer to the field description table below:

**Table 2-1 Applicant- Individual – Field Description**

Field	Description
<b>Applicant Role</b>	Displays the applicant role. By default the Primary role appears in this field. Select the applicant role incase user add multiple applicant in single application.
<b>Add Applicant By</b>	Select the mode from which the user need to add new applicant. The available options are: <ul style="list-style-type: none"> <li>• <b>Upload ID</b> - Using this option user can upload identification document of the applicant to extract the details.</li> <li>• <b>Search Existing Customer</b> - This option is used if the applicant is an existing customer of the bank. On selecting the existing customer, the details appears in the respective sections which are already stored.</li> <li>• <b>Enter Manually</b> - This option is used if user wish to enter all the applicant details manually.</li> </ul>
<b>Document Name</b>	Select the document which is used from extracting applicant details. The available options are: <ul style="list-style-type: none"> <li>• State Issued Drivers License</li> <li>• Passport</li> </ul> This field appears if the <b>Upload ID</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Country of Issue</b>	Select the country in which the document is issued. This field appears if the <b>Upload ID</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Select and Drop here</b>	Drag and drop the document file or click on <b>Select or drop files here</b> to browse and upload the document from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed. This field appears if the <b>Upload ID</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>CIF Number</b>	Search and select the CIF number. This field appears if the <b>Search Existing Customer</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Advanced Search</b>	Click this button to perform party search using advance parameters. For more information on advance search, refer the <b>Advanced Search</b> section below. This field appears if the <b>Search Existing Customer</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Basic Details</b>	In this section the user can manually capture the basic details of applicant. This section appears if the <b>Enter Manually</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Salutation</b>	Select the salutation of the applicant from the drop-down list.
<b>First Name</b>	Specify the first name of the applicant.
<b>Middle Name</b>	Specify the middle name of the applicant.
<b>Last Name</b>	Specify the last name of the applicant.
<b>Suffix</b>	Specify the suffix for the applicant. This options in this list appears based on the configured entity code in the Oracle Banking Party product.
<b>Gender</b>	Specify the Gender of the applicant from the drop-down list.

**Table 2-1 (Cont.) Applicant- Individual – Field Description**

Field	Description
<b>Date of Birth</b>	Select the date of birth of the applicant.
<b>Citizenship Status</b>	Select the citizenship status of the applicant from the drop-down list. Available options are: <ul style="list-style-type: none"> <li>• <b>Non-Resident Alien</b></li> <li>• <b>Resident Alien</b></li> <li>• <b>Citizen</b></li> </ul>
<b>Country of Residence</b>	Search and select the country code of which the applicant is a resident.
<b>Birth Place</b>	Specify the birth place where the applicant has born.
<b>Nationality</b>	Search and select the country code where the applicant has nationality.
<b>Citizenship By</b>	Search and select the country code for which applicant has citizenship.
<b>Marital Status</b>	Select the marital status of the customer from the drop-down list. Available options are: <ul style="list-style-type: none"> <li>• <b>Married</b></li> <li>• <b>Unmarried</b></li> <li>• <b>Legally Separated</b></li> <li>• <b>Widow</b></li> <li>• <b>Registered Domestic Partnerships</b></li> </ul>
<b>Customer Segment</b>	Select the segment of the customer. Available options are: <ul style="list-style-type: none"> <li>• <b>Emerging Affluent</b></li> <li>• <b>High Net worth Individuals</b></li> <li>• <b>Mass Affluent</b></li> <li>• <b>Ultra HNI</b></li> <li>• <b>Very HNI</b></li> </ul>
<b>Customer Category</b>	Select the category of the customer.
<b>Staff</b>	Select the toggle to indicate if the customer is employee of the bank.
<b>Politically Exposed Person</b>	Select to indicate if the customer are politically exposed person.
<b>Profile Photo</b>	Drag and drop the document file or click on <b>Select or drop files here</b> to browse and upload the document from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed.
<b>Signatures</b>	In this section you can add new signature and view the already added signature of the customer. Click the Add Signature button to select the file to upload signature. Click <b>Cancel</b> button to discard the added details. On <b>Submit</b> , signature will be handed off to Oracle Banking Party.
<b>Upload Signature</b>	Drag and drop the signature file or click on <b>Select or drop files here</b> to browse and upload the signature from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed.
<b>Uploaded Signature</b>	Displays the uploaded signature.
<b>Remarks</b>	Specify the remarks related to the signature. Click <b>Save</b> to save the uploaded file.
<b>Signature ID</b>	Displays the Signature ID for the added signature along with the image and remark.

**Table 2-1 (Cont.) Applicant- Individual – Field Description**

Field	Description
<b>Action</b>	Click Edit to edit the added signatures  Click  to delete the added signatures.
<b>Address</b>	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant. Click the Add Address button to add address details.  Click  to perform below actions on the added address details, <ul style="list-style-type: none"> <li>To view the address details, click <b>View</b>.</li> <li>To edit the address details, click <b>Edit</b>.</li> <li>To delete the address details, click <b>Delete</b>.</li> </ul>
<b>Address Type</b>	Select the address type for the applicant from the drop-down list. <ul style="list-style-type: none"> <li><b>Residential Address</b></li> <li><b>Communication Address</b></li> </ul>
<b>Current Address</b>	Select to indicate if you want to mark entered address as current address type.
<b>Preferred Address</b>	Select to indicate if you want the selected address type as preferred address type. This field is non editable if the <b>No</b> option is selected in the <b>Current Address</b> field.
<b>Address Since</b>	Select the date from when you are connected with the given address.
<b>Address Till</b>	Select the date till when you were connected with the given address. This field appears if the <b>No</b> option is selected in the <b>Current Address</b> field.
<b>Address</b>	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
<b>Address Line 1</b>	Specify the building name.
<b>Address Line 2</b>	Specify the street name.
<b>Address Line 3</b>	Specify the city or town name.
<b>Country</b>	Select and search the country code.
<b>State / Country Sub Division</b>	Specify the state or country sub division. This field appears based on the selected country code.
<b>Zip Code / Post Code</b>	Specify the zip or post code of the address.

<b>&lt;Communication Mode&gt;</b>	<p>Select the communication mode from the drop-down list.</p> <p>The available options are:</p> <ul style="list-style-type: none"> <li>• Mobile Phone</li> <li>• Email</li> </ul>

**Table 2-2 (Cont.) Small and Medium Business – Field Description**

Field	Description
<b>Country</b>	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of countrycode, country name and subscriber dialing code.  This field appears only if you select the <b>Mobile Phone</b> option as communication mode.
<b>Mobile Number</b>	Specify the mobile number.
<b>Preferred</b>	Select to indicate if the given mobile number is the preferred number.
<b>Action</b>	You can edit or delete the added mobile details.
<b>Email Id</b>	Specify the email ID. This field appears only if you select the <b>Email</b> option as communication mode.
<b>Preferred</b>	Select to indicate if the given email ID is the preferred ID.
<b>Action</b>	You can edit or delete the added email details.

**Advanced Search**

You can perform an advanced search for the party by providing additional information.

Refer above **Advanced Search** section for more details.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data. If the **Customer Dedupe** check is enabled, the application will perform the Dedupe check for the new customer details on clicking **Next** button. For more information, refer the **Customer Dedupe Check** section.

**Customer Dedupe Check:**

Based on the configuration set in the **Origination Preference** screen, the customer dedupe service is enabled.

If the **Customer Dedupe** service check is enabled, upon capturing the New Customer details, the system compares the same with the existing customers records. If there are any matching hits, the list of Duplicate records which matches to the New Customer Details will be displayed.

The customer details are compared based on a set of attributes configured. (Refer to Oracle Banking Party Documentation for Dedupe attributes configuration).

- Click **Next** to perform the dedupe check and display the result.

The **De-Dupe Result** screen is displayed

**To add stakeholder details:**

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.
2. Select **+ Add Stakeholder** to add the Stake holders for the business.

The **Stake Holder Details** screen displays.

**Figure 2-7 Stakeholder Details**

3. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

**Table 2-5 Stakeholder - Field Description**

Field	Description
<b>Stake Holder Type</b>	Select the Stakeholder type from the dropdown list. Available options are <ul style="list-style-type: none"> <li>• <b>Owners</b></li> <li>• <b>Authorized Signatories</b></li> <li>• <b>Guarantors</b></li> <li>• <b>Suppliers</b></li> </ul>
<b>Existing Customer</b>	Select the toggle to indicate if the customer is an existing customer or not.
<b>CIF Number</b>	Click <b>Search</b> icon and select the CIF number. This field appears only if the <b>Existing Customer</b> toggle is enabled.

Table 2-5 (Cont.) Stakeholder - Field Description

Field	Description
<b>Ownership Percentage</b>	Specify the ownership percentage. This field is appears only if the <b>Owner</b> option is selected from the <b>Stake Holder Type</b> field.
<b>Associated Since</b>	Select the date from when the Stake Holder is associated with the business.
<b>Authorized Signatories</b>	For the existing customers, the Signature details will be in read-only mode. For the new customers, the user will be able to add, edit and delete the Signature details.
<b>Signatures</b>	Click  icon to upload the signatures for the new customer. Click <b>Add</b> button to add the signatures. Click <b>Cancel</b> button to discard the added details. On Submit, signature will be handed off to Oracle Banking Party.
<b>Upload Signature</b>	Drag and drop the signature file or click on <b>Select or drop files here</b> to browse and upload the signature from the local system. PNG & JPEG file formats are supported. This field appears only for the new Customers.
<b>Uploaded Signature</b>	Displays the uploaded signature. This field appears only for the new Customers.
<b>Remarks</b>	Specify the remarks related to the signature. This field appears only for the new Customers.
<b>Signature ID</b>	Displays the Signature ID for the added signature.
<b>Signature</b>	Displays the added signature.
<b>Remarks</b>	Displays the remarks for the added signature.
<b>Action</b>	Click  to edit the added signatures Click  to delete the added signatures. This field is enabled only for new customers.
<b>Guarantors</b>	Click  to add guarantor details.

**Table 2-5 (Cont.) Stakeholder - Field Description**

Field	Description
<b>Line of Business</b>	Select the line of business for the guarantor/supplier. Available options are: <ul style="list-style-type: none"> <li>• <b>Facility</b></li> <li>• <b>Supply Chain Finance</b></li> <li>• <b>Trade</b></li> <li>• <b>Lending</b></li> <li>• <b>Cash Management</b></li> <li>• <b>Liquidity Management</b></li> <li>• <b>Virtual Account Management</b></li> <li>• <b>Accounts</b></li> </ul>
<b>Scope</b>	Specify the scope of the guarantor in the business.
<b>Guarantee Start date - Expiry date</b>	Select the guarantee start and expiry date.
<b>Guarantee amount</b>	Specify the guarantee amount for the business.
<b>Description</b>	Specify the description for the guarantor.
<b>Suppliers</b>	Click  to add supplier's details.
<b>Line of Business</b>	Select the line of business for the guarantor/supplier. Available options are: <ul style="list-style-type: none"> <li>• <b>Facility</b></li> <li>• <b>Supply Chain Finance</b></li> <li>• <b>Trade</b></li> <li>• <b>Lending</b></li> <li>• <b>Cash Management</b></li> <li>• <b>Liquidity Management</b></li> <li>• <b>Virtual Account Management</b></li> <li>• <b>Accounts</b></li> </ul>
<b>Item Name</b>	Specify the item name of the supplier.
<b>Quantity</b>	Specify the quantity of the item.
<b>Supply Frequency</b>	Specify the supply frequency.
<b>Start Date – End Date</b>	Select the start and end date for the supplier.

- To onboard the New Customers, disable the **Existing Customer** toggle. By Default, the **Existing Customer** is enabled.

The **Customer Onboarding** screen is displayed.

**Figure 2-8 Customer Onboarding**The screenshot shows a web form titled "Customer Onboarding" with a close button (X) in the top right corner. Below the title is a label "Customer Category \*" followed by a dropdown menu. The dropdown menu is currently empty. In the bottom right corner of the form, there is a "Save" button.

5. Select the appropriate option from the Customer Category list.
  - a. If you select **Individual** option to onboard individual type of customer, refer field description table and procedure from **3.1.1.1 For Individual Customer Type of Customer Information** data segment.
  - b. If you select **Small and Medium Business** option to onboard small and medium business type of customer, refer field description table and procedure from **3.1.1.2 For Small and Medium Business Customer Type of Customer Information** data segment.
6. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

On submission of Application Entry stage, Stakeholder Onboarding request gets initiated for the new customers.

The request for New Stakeholder Onboarding is addressed by the underlying API call, which also generates the New Party reference number, thereby circumventing the usual process of generating a Unique Process reference number / Task.

## 2.1.4 BeneficiaryDetails

This topic provides the systematic instructions to capture the details of the nominee for the account.

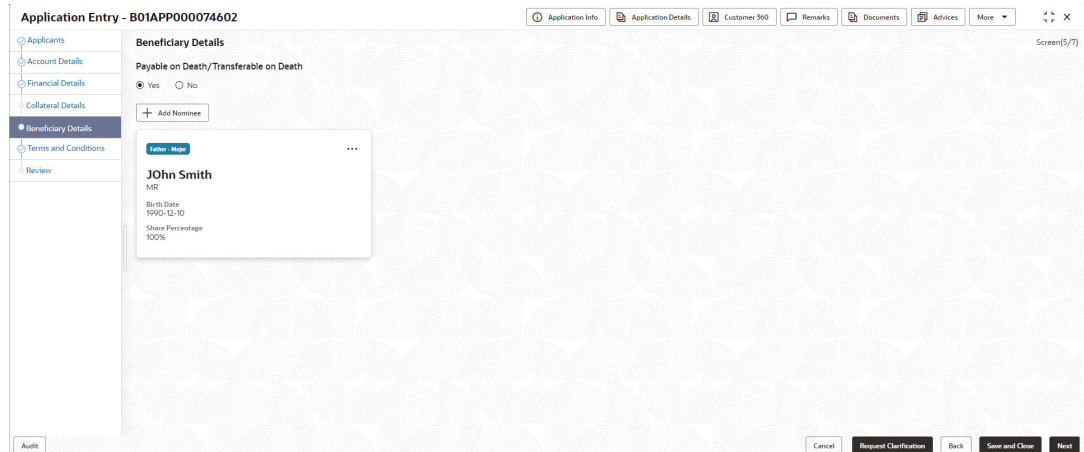

The Beneficiary Details is a non-mandatory data segment. If required, It allows capturing multiple nominees for the account. Beneficiary can be a minor, in that case, it is mandatory to provide details of the guardian. For SMB Customer, Beneficiary Details are allowed only for Proprietary type of Business Accounts.

### To add beneficiary details:

1. Click **Next** in from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Beneficiary Details** screen displays.

Figure 2-9 Beneficiary Details

- Specify the fields on **Beneficiary Details** screen.

Table 2-6 Details - Field Description

Field	Description
<b>Title</b>	Select the title of the applicant.
<b>First Name</b>	Specify the first name of the applicant.
<b>Middle Name</b>	Specify the middle name of the applicant.
<b>Last Name</b>	Specify the last name of the applicant.
<b>Relationship Type</b>	Select the relationship type of the beneficiary with the applicant.
<b>Date of Birth</b>	Select the applicant's date of birth.
<b>Minor</b>	Select to indicate if nominee is minor.
<b>Add Guardian</b>	<b>Click the Add Guardian link to add the guardian details.</b> The link appears if the <b>Minor</b> field is enabled. This field is conditional mandatory.
<b>Percentage</b>	Specify the percentage to be considered for distribution of the account balance in case of uneventful death of the applicant.
<b>Address</b>	This section displays the added address of the applicant. It is mandatory to add communication address of the applicant.  Click  to add address details.  Click  to perform below actions on the added address details, <ul style="list-style-type: none"> <li>To view the address details, click <b>View</b>.</li> <li>To edit the address details, click <b>Edit</b>.</li> <li>To delete the address details, click <b>Delete</b>.</li> </ul>
<b>Address Type</b>	Select the address type for the applicant from the drop-down list. <ul style="list-style-type: none"> <li><b>Residential Address</b></li> <li><b>Communication Address</b></li> </ul>

<b>Current Address</b>	Select to indicate if you want to mark entered address as current address type.
<b>Preferred Address</b>	Select to indicate if you want the selected address type as preferred address type.

Table 2-6 (Cont.) Details - Field Description

Field	Description
<b>Address From</b>	Select the date from when you are connected with the given address.
<b>Address To</b>	Select the date till when you were connected with the given address.
<b>Address</b>	Specify the address to search for the already captured address. Based on the configuration, on entering a few letters, the system fetches the related address that is already captured. Based on the selection, the fields are fetched in the address section.
<b>Address Line 1</b>	Specify the building name.
<b>Address Line 2</b>	Specify the street name.
<b>Address Line 3</b>	Specify the city or town name.
<b>Country</b>	Select and search the country code.
<b>State / Country Sub Division</b>	Specify the state or country sub division. This field appears based on the selected country code.
<b>Zip Code / Post Code</b>	Specify the zip or post code of the address.
<b>Addition Info</b>	In this section you can provide addition information.
<b>Sub Department</b>	Specify the sub department.
<b>Department</b>	Specify the department.
<b>Building Number</b>	Specify the building number.
<b>Post Box</b>	Specify the post box code.
<b>District Name</b>	Specify the district name.
<b>Floor</b>	Specify the floor number.
<b>Room</b>	Specify the room number.
<b>Locality</b>	Specify the locality.
<b>Landmark</b>	Specify the landmark.
<b>Contact Name / Narrative</b>	Specify the name of the contact person.
<b>Contact Details</b>	In this section you can provide digital contact details.
<b>&lt;Communication Mode&gt;</b>	Select the communication mode from the drop-down list. The available options are: <ul style="list-style-type: none"> <li>• Mobile Phone</li> <li>• Email</li> </ul>
<b>Country</b>	Select the country along with international subscriber dialing code of the mobile phone from the drop-down list. The drop-down list option consist of countrycode, country name and subscriber dialing code. This field appears only if you select the <b>Mobile Phone</b> option as communication mode.
<b>Mobile Number</b>	Specify the mobile number.
<b>Preferred</b>	Select to indicate if the given mobile number is the preferred number.
<b>Action</b>	You can edit or delete the added mobile details.
<b>Email Id</b>	Specify the email ID. This field appears only if you select the <b>Email</b> option as communication mode.
<b>Preferred</b>	Select to indicate if the given email ID is the preferred ID.
<b>Action</b>	You can edit or delete the added email details.
<b>Add Beneficiary</b>	Click to add additional nominee for the account.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are

not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

### Guardian Details

This screen allows to capture details of the guardian of the minor nominee.

#### To add guardian details:

- Click **Add Guardian Details** on Nominee Details screen.

The **Guardian Details** screen is displayed

**Figure 2-10 Guardian Details**

- Specify the details in the relevant data fields.  
Refer the **Beneficiary Details** field description table for detailed information on each field.
- Click **Save** to save the guardian details

## 2.1.5 Terms and Conditions

This topic describes the terms and conditions that are mandatory to accept for to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

This data segment comprises of below sections:

- Term and Conditions for all products** - In this section the term and conditions which are applicable for all the products appears in the questionnaire format.
- Term and Conditions for <Selected Product>** - In this section the term and conditions which are applicable for all the selected product appears in the questionnaire format.
- Consents and Preferences** - In this section the user capture the consents and preferences of customer as E-Sign, Marketing Communications, and Privacy Information.

#### To capture terms and conditions:

- Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-11 Term and Conditions

The screenshot shows the 'Application Entry - 006APP00000455' interface. The left sidebar contains a navigation menu with options: Applicants, Account Details, Beneficiary Details, Interest and Charges, Terms and Conditions (selected), and Review. The main content area is titled 'Terms and Conditions' and shows a list of consent items for 'Mr. Clara Cooper'. Each item has a toggle switch and an eye icon. The items are: 'Terms and Conditions for all products' (I have read and agree to the Privacy Notice), 'I have read and agree to the Electronic Signature Card', 'Terms and Conditions for Futura Delight Savings Account' (I have read and agree to the Deposit Account Fees and Charges), 'I have read and agree to the Deposit Account Agreement', and 'Consent to receive Marketing, Promotional and Sales'. Below this is a table with columns: Channel, Contact Value, Preferred Time, Time Zone, and Actions. The table contains one row with values: SMS, [empty], Anyday: 9:00 to 18:00, Eastern Time Zone, and edit/delete icons. At the bottom, there are buttons for 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Next'.

2. Click  to view the term and conditions.
3. Select the toggle button to accept the term and conditions.
4. In the **Consents to receive Marketing Promotional and Sales** section, enter the channel and details.
5. Click **Add Channel** to add the relevant details.

The below fields contain channel data:

- Channel
  - Contact Value
  - Preferred Time
  - Time Zone
  - Actions
6. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.1.6 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Application Entry Process.

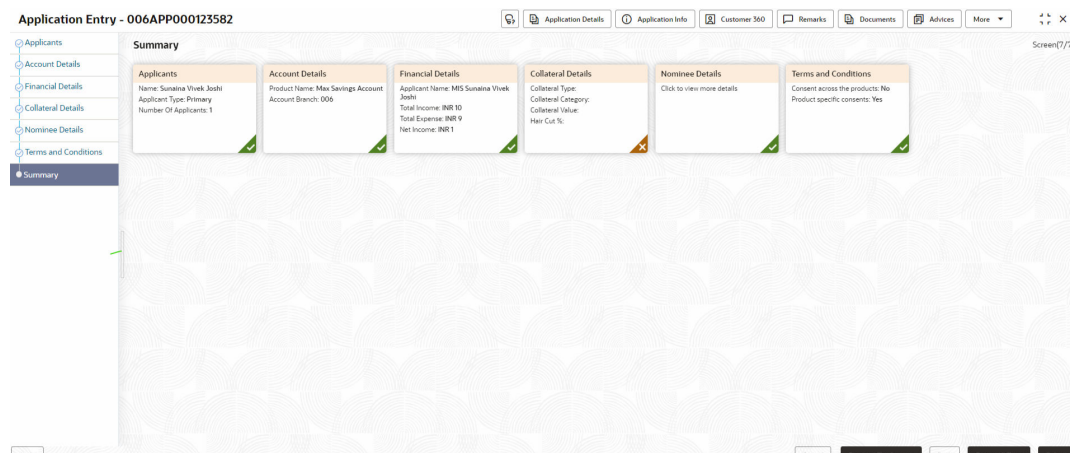

The Summary displays the tiles for all the data segments in the Application Entry stage. The tiles display the important details captured in the specified data segment.

### To view the summary of all data segment

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

**Figure 2-12 Summary**

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

**Table 2-7 Summary - Application Entry – Field Description**

Data Segment	Description
<b>Applicants</b>	Displays the applicants details
<b>Account Details</b>	Displays the account details.
<b>Stake Holder Details</b>	Displays the Stake Holder details This data segment appears only if the <b>Customer Type</b> is selected as <b>Small and Medium Business (SMB)</b> .
<b>Financial Details</b>	Displays the financial details.
<b>Collateral Details</b>	Displays the collateral details.
<b>Beneficiary Details</b>	Displays the beneficiary details.
<b>Term and Conditions</b>	Displays the term and conditions.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.  
OR  
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The

Workflow Orchestrator will automatically move this application to the next processing stage, **Saving Application Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
  7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

#### Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

#### Note:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

## 2.2 Application Documents

This topic describes the process of the documents that are uploaded related to application.

The Application Documents stage provides the view of the outbound documents that are generated and dispatched to the applicants involved in the application.

**To generate and dispatch the outbond documents:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Application Documents stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- **Document Generation**  
In this data segment you can generate and dispatch the documents that are configured.
- **Document Acceptance**  
In this data segment you can capture the acceptance of the documents that are already generated and dispatched.
- **Summary**  
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

## 2.2.1 Document Generation

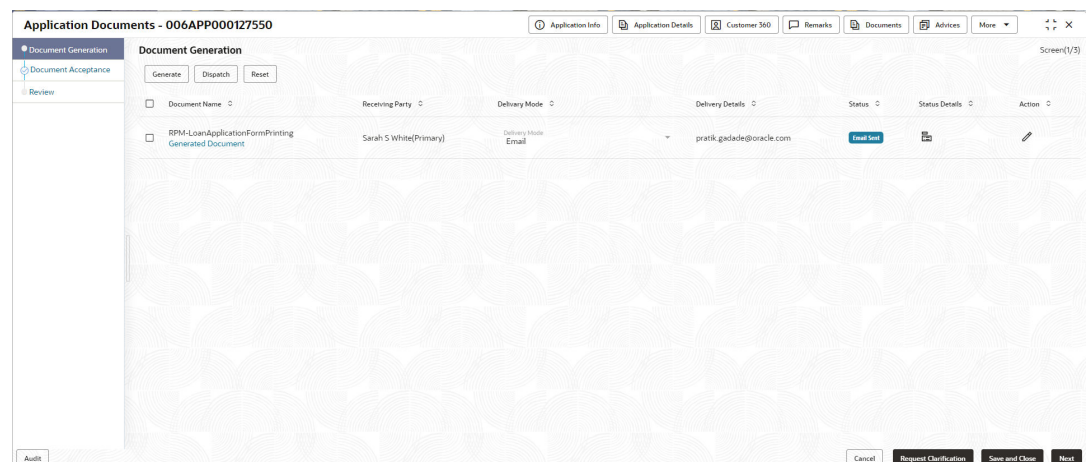

In this data segment you can generate and dispatch the documents that are configured.

In the Document Generation data segment, the list of documents that are maintained within the document generation event and fulfills the rule criteria are pre-populated in the tabular format. This document generation events are defined in the **Advice Maintenance** screen. Each documents appears seperately to generate and dispatch.

**To generate and dispatch the document:**

1. On acquiring the **Application Document** task, the **Document Generation** stage is displayed.

**Figure 2-13 Document Generation**

2. In the **Document Generation** section, select the check box to select the document from the list. It is mandatory to select atleast one document

You can perform below actions on the selected document:

- **Generate:** You can click this button to generate the selected document. On clicking this button the system invokes a call to the report generation service which generates a PDF output for the advice onfigured in the Advice Maintenance screen. Once the output is generated the documents are stored in the document managed service

(DMS) along with the reference ID. This reference ID fetches the document on click the Generate Document link in the Documen column.

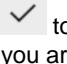

- **Dispatch:** You can click this button to dispatch the selected generated documents. You can only dispatch those documents which are not already disptached. On clicking this button the system validates whether the document is already generated. Once the validation is successful the system dispatch the document to the default setting defined in the Advice Maintenance screen.
- **Reset:** You can click this button to reset the action performed on the document.

For more information on fields, refer to the field description table.

**Table 2-8 Document Generation – Field Description**

Field	Description
<b>Document Name</b>	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. This link appears only if the document is generated.
<b>Receiving Party</b>	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
<b>Delivery Mode</b>	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen.
<b>Delivery Details</b>	Displays the delivery details of the generated documents based on the default delivery mode. <ul style="list-style-type: none"> <li>• If the delivery mode is <b>Email</b> or <b>e-Sign Remote</b> then the preferred email address of every recipient is displayed.</li> <li>• If the delivery mode is <b>Post</b> then the preferred address of every recipient is displayed.</li> <li>• If the delivery mode is <b>e-Sign In-Person</b> then the link is shared with every recipients and in this case the status appears as <b>Pending For Link Generation</b>. Once the dispatch event is executed successfully, the status appears as <b>Link Generated</b>.</li> <li>• If the delivery mode is <b>Print</b> then the <b>Not Applicable</b> text appears.</li> </ul>
<b>Status</b>	Displays the status of the documents based on the actions performed on clicking Generate or Dispatch button. Once the dispatch process is initiated for the generated documents, the status appears based on the selected default mode of delivery. <ul style="list-style-type: none"> <li>• If the mode of delivery is <b>Email</b> then on the successful trigger the status appears as <b>Email Sent</b>.</li> <li>• If the mode of delivery is <b>E-Sign Remote</b> or <b>E-Sign In-Person</b> then on the successful trigger the status appears as <b>E-Signing Initiated</b>.</li> <li>• If the mode of delivery is <b>Post</b> then on the successful trigger the status appears as <b>Dispatched</b>.</li> <li>• If the mode of delivery is <b>Print</b> then on the successful trigger the status appears as <b>Ready for Print</b>.</li> <li>• In case the dispatch process fails due to technical error then the status appears as <b>Failed</b>.</li> </ul>
<b>Status Details</b>	Displays the status details of the document. Click the icon to view the generation and dispatched details of document along with the date and time.

**Table 2-8 (Cont.) Document Generation – Field Description**

Field	Description
<b>Action</b>	<p>Select the appropriate icon to perform respective action.</p> <ul style="list-style-type: none"> <li>Click  to edit the delivery mode.</li> <li>Click  to save the edited delivery mode. This icon appears once you are edit mode.</li> </ul>

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.2.2 Document Acceptance

In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

The Document Acceptance data segment populates the list of documents that appeared in the **Document Generation** data segment and are mark as **Yes** in the **Acceptance** field in the **Advice Maintenance** screen.

If the document is marked as No in the Acceptance field in the Advice Maintenance screen then the e-sign acceptance process in not required for that document and hence it will not appear in this data segment.

### To accept the document:

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Document Acceptance** screen appears.

**Figure 2-14 Document Acceptance**

2. In the **Document Acceptance** section, select the check box to select the document from the list and perform appropriate actions.

For more information on fields, refer to the field description table.

**Table 2-9 Document Acceptance – Field Description**

Field	Description
<b>Document Name</b>	<p>Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document.</p> <ul style="list-style-type: none"> <li>• <b>Generated Document:</b> This link appears only if the document is generated atleast onces.</li> <li>• <b>Accepted Document:</b> This link appears only if the E-Signed document is uploaded.</li> </ul>
<b>Receiving Party</b>	<p>Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.</p>
<b>Delivery Mode</b>	<p>Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen.</p>
<b>Delivery Details</b>	<p>Displays the delivery details of the generated documents based on the default delivery mode.</p> <ul style="list-style-type: none"> <li>• If the delivery mode is <b>Email</b> or <b>e-Sign Remote</b> then the preferred email address of every recipient is displayed.</li> <li>• If the delivery mode is <b>Post</b> then the preferred address of every recipient is displayed.</li> <li>• If the delivery mode is <b>e-Sign In-Person</b> then the link is shared with every recipients and in this case the status appears as <b>Pending For Link Generation</b>. You can select this option only if the acceptance status of all the document is <b>Accepted</b>.</li> <li>• <b>Reject:</b> Select to reject the application documents. If the acceptance status of any one of the document is declined then this option appears auto-selected.</li> <li>• <b>Amend:</b> Select to amend the application document status.</li> </ul>
<b>Date of Response</b>	<p>Select the date on which the customer response is captured. This date should be greater or equal to current date.</p>

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.2.3 Summary

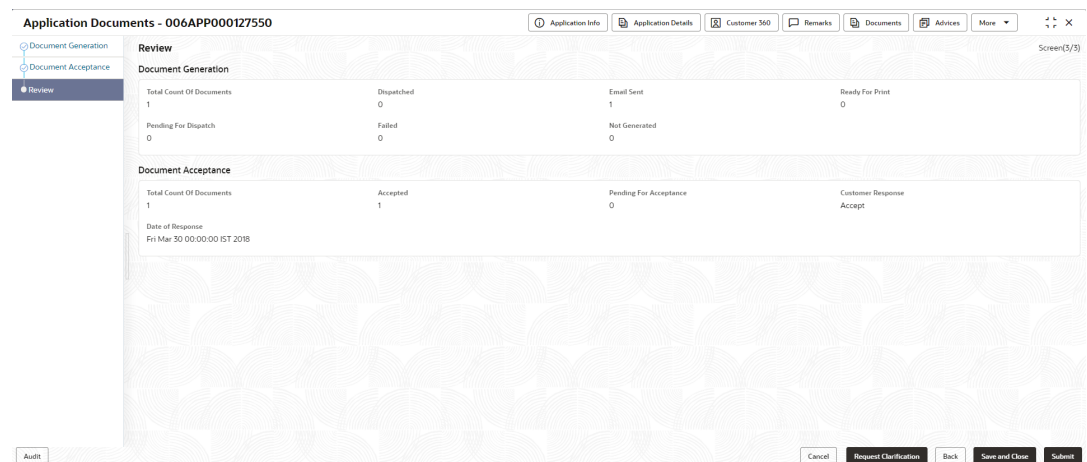

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system displays the summary of each data segments in tiles.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Application Document** screen displays.

**Figure 2-15 Summary - Application Documents**

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

**Table 2-10 Summary - Application Documents – Field Description**

Data Segment	Description
<b>Document Generation</b>	Displays the document generation.
<b>Documents Acceptance</b>	Displays the document acceptance.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
6. Click **Submit** to submit the Account Approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

## 2.3 Debit Assessment

The topic describes the debit assessment process.

In the process of account opening of saving product this stage appears if the Know Your Customer (KYC) is not completed for the applicants involved in the applications.

This stage appears in following conditions:

- The applicant is new.
- Existing customer but the KYC stage is not completed.
- Existing customer but the KYC stage is Referred.

**To open Debit Assessment task:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Debit Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Bureau Information](#)  
This topic describes the bureau information details.
- [Summary](#)  
This topic describes summary of all the data segment.

### 2.3.1 Bureau Information

This topic describes the bureau information details.

In this data segment user can view the bureau information of application and status of all the applicants that are involved in the application.

1. On acquiring the Manual Debit Assessment task, the Bureau Information data segment appears and call to bureau service is initiated for display the bureau information related to application and applicants.

The **Bureau Information** screen appears.

Figure 2-16 Bureau Information

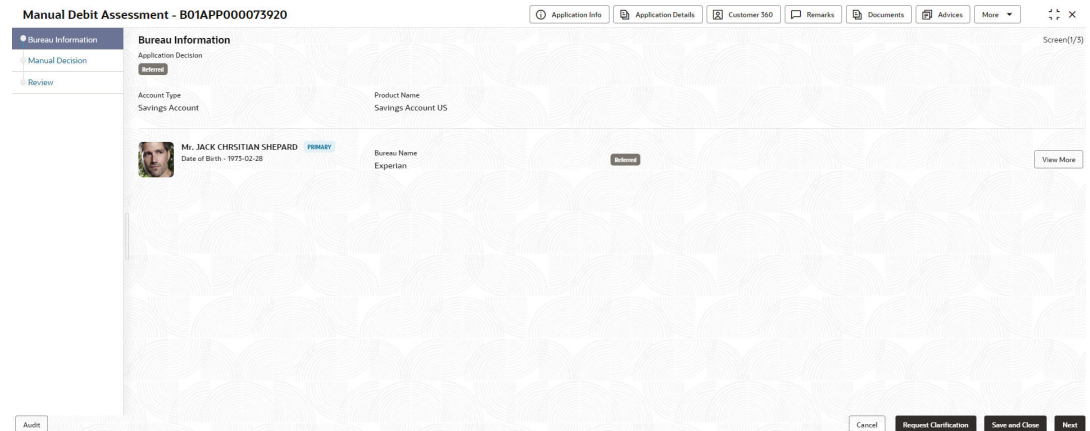

Table 2-11 Bureau Information

Field Name	Description
<b>Application Decision</b>	Displays the application decision status. The debit assessment status appears as <b>Referred</b> .
<b>Account Type</b>	Displays the account type.
<b>Product Name</b>	Displays the product name of the account.
<b>Applicants tile</b>	In this section below fields appear with the captured information in the <b>Application Entry</b> stage: <ul style="list-style-type: none"> <li>• &lt;Name of applicant&gt;</li> <li>• &lt;Role&gt;</li> <li>• Date of Birth &lt;yyyy/mm/dd&gt;</li> <li>• Mobile Number, Email ID and Phone Number as Contact details</li> <li>• Bureau Name</li> <li>• Decision as Approved, Referred or Declined</li> <li>• Reason for the decision</li> </ul>
<b>View More</b>	Click this button to view more details. View More window appears. Below fields appears in the View More window: <ul style="list-style-type: none"> <li>• Report ID</li> <li>• Report Date</li> <li>• Model Name</li> <li>• Score</li> <li>• Result</li> <li>• Reasons</li> </ul>

2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.3.2 Summary

This topic describes summary of all the data segment.

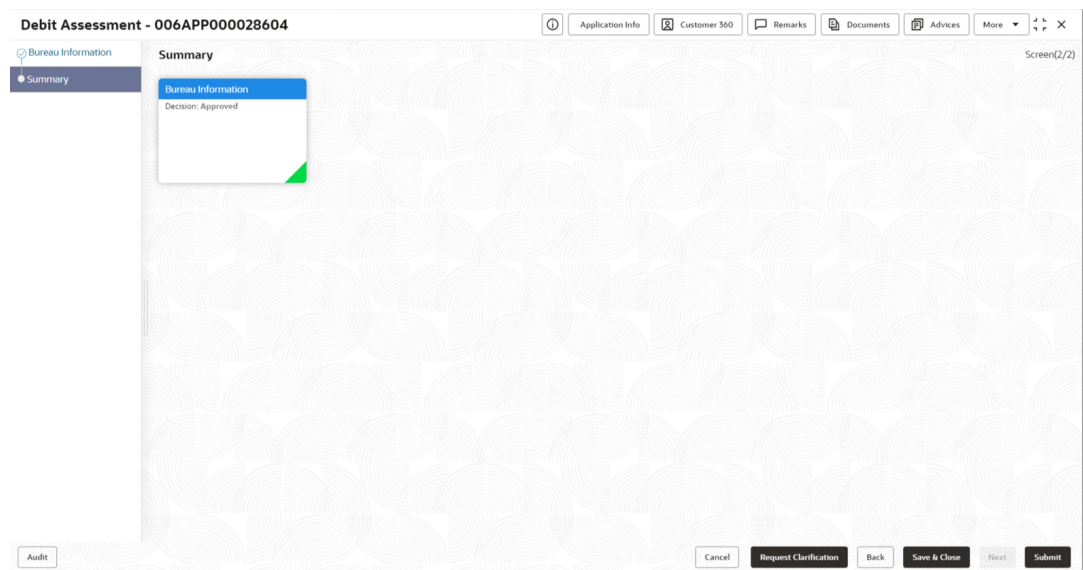

The Summary displays the tiles for all the data segments in the Debit Assessment stage. The tiles display the important details captured in the specified data segment.

**To view the summary and submit the task:**

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen is displayed

**Figure 2-17 Summary**

2. Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

**Table 2-12 Abbreviation**

Data Segment	Description
<b>Bureau Information</b>	Displays the bureau information details.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.4 Manual Debit Assessment

The topic describes the manual debit assessment process.

In the process of an account opening of deposit product this stage appears if the bureau status of any applicant is mark as **Referred**. The user can manual change the status of the applicant to proceed.

**To open manual debit assessment task:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Debit Assessment** stage is displayed.  
The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

The **Manual Debit Assessment** stage has the following reference data segments:

- [Bureau Information](#)  
This topic describes the bureau information details.
- [Manual Decision](#)  
The topic describes the manual decision process.
- [Summary](#)  
This topic describes summary of all the data segment.

## 2.4.1 Bureau Information

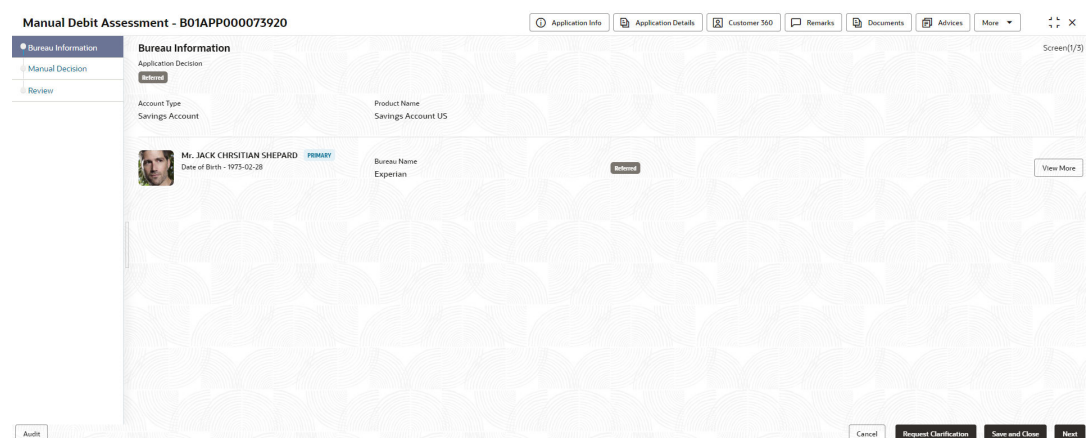

This topic describes the bureau information details.

In this data segment user can view the bureau information of application and status of all the applicants that are involved in the application.

1. On acquiring the Manual Debit Assessment task, the Bureau Information data segment appears and call to bureau service is initiated for display the bureau information related to application and applicants.

The **Bureau Information** screen appears.

**Figure 2-18 Bureau Information**

**Table 2-13 Bureau Information**

Field Name	Description
<b>Application Decision</b>	Displays the application decision status. The debit assessment status appears as <b>Referred</b> .
<b>Account Type</b>	Displays the account type.
<b>Product Name</b>	Displays the product name of the account.
<b>Applicants tile</b>	In this section below fields appear with the captured information in the <b>Application Entry</b> stage: <ul style="list-style-type: none"> <li>• &lt;Name of applicant&gt;</li> <li>• &lt;Role&gt;</li> <li>• Date of Birth &lt;yyyy/mm/dd&gt;</li> <li>• Mobile Number, Email ID and Phone Number as Contact details</li> <li>• Bureau Name</li> <li>• Decision as Approved, Referred or Declined</li> <li>• Reason for the decision</li> </ul>
<b>View More</b>	Click this button to view more details. View More window appears. Below fields appears in the View More window: <ul style="list-style-type: none"> <li>• Report ID</li> <li>• Report Date</li> <li>• Model Name</li> <li>• Score</li> <li>• Result</li> <li>• Reasons</li> </ul>

2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.4.2 Manual Decision

The topic describes the manual decision process.

In this data segment user can change the applicant KYC status.

**To perform manual debit assessment:**

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Manual Decision** data segment appears.

**Figure 2-19 Manual Decision**

2. Select appropriate option to proceed for manual decision.

**Table 2-14 Manual Decision**

Field Name	Description
<b>Product Details</b>	In this section displays the product details.
<b>Image</b>	Displays the account type.
<b>Account Type</b>	Displays the type of account.
<b>Product Name</b>	Displays the product name.
<b>User Recommendation</b>	Select the recommended option to change the debit decision manually. The available options are: <ul style="list-style-type: none"> <li>• Approve</li> <li>• Reject</li> </ul>
<b>Reject Reason</b>	Select the reason for rejection the application.
<b>Remark</b>	Specify the remarks for manual debit decision.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.4.3 Summary

This topic describes summary of all the data segment.

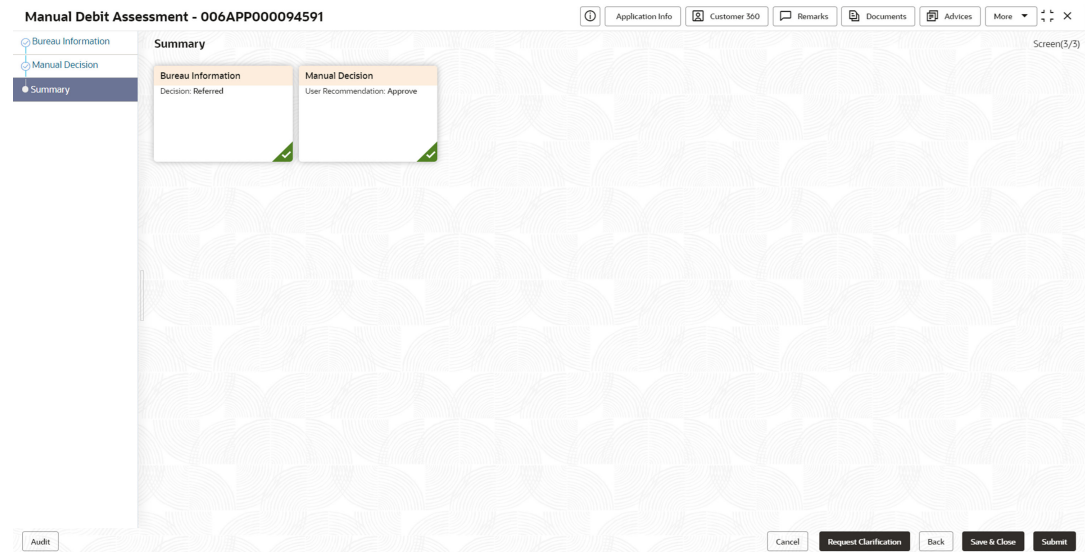

The Summary displays the tiles for all the data segments in the Manual Debit Assessment stage. The tiles display the important details captured in the specified data segment.

**To view the summary and submit the task:**

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen is displayed

**Figure 2-20 Summary**

- Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

**Table 2-15 Summary**

Data Segment	Description
<b>Bureau Information</b>	Displays the bureau information details.
<b>Manual Decision</b>	Displays the manual decision details.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.5 Application Enrichment Stage

This topic describes the information on the various data segments to view and update the required data for the Application Enrichment stage.

Users having functional access to the Application Enrichment stage will be able to view the record in the Free Task process.

### To enrich an application:

- Scan the records that appears in the **Free Task** list.
- Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Enrichment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Interest and Charges](#)  
This topic provides the systematic instructions to view the interest applicable for the account.

- [Summary](#)  
This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

## 2.5.1 Interest and Charges

This topic provides the systematic instructions to view the interest applicable for the account.

The **Interest and Charge** data segment displays the interest applicable for the account.

1. On acquiring the Application Enrichment task, the Interest and Charge data segment appears.

The **Interest and Charge Details** screen displays.

**Figure 2-21 Interest and Charge**

2. Specify the details in the relevant data fields.

**Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-16 Interest Details - Field Description**

Field	Description
<b>Interest Product Name</b>	Displays the interest product name attached to the host product linked with the business product.
<b>Payout Frequency</b>	Displays the payout frequency of the interest product name attached to the host product linked with the business product.
<b>Interest Rate</b>	Displays the interest rate applicable for the account.
<b>Margin (%)</b>	Select the margin in percentage.
<b>Final Rate</b>	Displays the final rate calculated based on the <b>Interest Rate</b> and the <b>Margin</b> specified.

**Table 2-16 (Cont.) Interest Details - Field Description**

Field	Description
<b>APY (in %)</b>	Displays the annual percentage yield value in percentage. Below is the formula to calculate the APY, <b>Annual Percentage Yield = (1 + Interest Rate ÷ The number of Compounding in a year) ^ (Number of compounding in a year) – 1</b> <b>This is applicable for the Credit Interest</b>
<b>APR</b>	Display the annual percentage rate value. This is applicable for debit interest.
<b>Charge Description</b>	Displays the charge description.
<b>Amount/Rate</b>	Displays the charge amount.
<b>Waive</b>	Select the toggle to enable the waiving charges.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.5.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Application Enrichment stage.

The Summary displays the tiles for all the data segments in the Application Enrichment stage. The tiles display the important details captured in the specified data segment.

### To view the summary of all data segment:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data..

The **Summary** screen displays.

Figure 2-22 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-17 Summary – Field Description

Data Segment	Description
Interest and Charges	Displays the interest and charges details.
Account Service Preferences	Displays the account service preferences.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.  
OR  
Click **Proceed**. The Checklist screen appears
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Saving Application Enrichment**. The stage movement is driven by the

business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.

- Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
  7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Saving Account] to the Application Enrichment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

#### **Application De-Dupe:**

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

#### **Note:**

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

## 2.6 Account Funding Stage

This topic describes the process of initial funding of an account. In this stage user can provide initial funding details before opening an account.

In this stage user can provide initial funding details before opening an account.

This stage appears only if the **Fund Post Account Opening** toggle is not selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

**To add funding details:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Initial Funding Details](#)  
This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.
- [Summary](#)  
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage.

## 2.6.1 Initial Funding Details

This topic provides the systematic instructions to view and modify the initial funding details captured in the **Application Entry** stage.

The Initial Funding Details data segment displays the Initial Funding details captured in the Application Entry stage. The **Transaction Reference Number** and the **Transaction Status** is either auto-populated or has to be manually captured based on the configuration. Automatic option is supported only for the Initial Funding with Cash mode. Manual process is supported for Account Transfer, Other Bank Check, and Cash mode of initial funding.

**Note:**

For more details on the Modes and the Manual/Automatic Process configuration, refer to the **Configurations User Guide**.

**To add initial funding details:**

1. On acquiring the **Account Funding** task, the **Initial Funding Details** data segment appears.

The **Initial Funding Details** screen displays.

Figure 2-23 Initial Funding Details

- Specify the fields on **Initial Funding Details** screen.

**Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-18 Initial Funding Details – Field Description

Field	Description
<b>Fund the Account</b>	Displays the Fund the Account selected in the Account Details Data Segment in Application Entry stage.
<b>Fund By</b>	Displays the Fund by option selected in the Account Details Data Segment in Application Entry stage.
<b>Amount</b>	Displays the amount of the initial funding updated in the Account Details data segment in Application Entry stage.
<b>Value Date</b>	Displays the value date of the initial funding updated in the Account Details data segment in Application Entry stage.
<b>Account Number</b>	Displays the account number for the initial funding transaction which was selected in the <b>Account Details</b> data segment of the <b>Application Entry</b> stage This field appears only if the <b>Fund By</b> is selected as <b>Account Transfer</b> .
<b>Account Name</b>	Displays the account name for the selected account number. This field appears only if the <b>Fund By</b> is selected as <b>Account Transfer</b>
<b>Check Number</b>	Display the Check number.
<b>Check Date</b>	Displays the Check date.
<b>Bank Name</b>	Displays the bank name. This field is applicable only if the <b>Fund By</b> is selected as <b>Other Bank Check</b> .

Table 2-18 (Cont.) Initial Funding Details – Field Description

Field	Description
<b>Branch Name</b>	Displays the Branch name. This field is applicable only if the <b>Fund By</b> is selected as <b>Other Bank Check</b> .
<b>Check Routing Number</b>	Displays the Check routing number. This field is applicable only if the <b>Fund By</b> is selected as <b>Other Bank Check</b> .
<b>GL Account Number</b>	Displays the GL account number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
<b>GL Account Description</b>	Displays the GL account description for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
<b>Transaction Reference Number</b>	Displays the transaction reference number for the initial funding transaction that was triggered off in the Application Entry stage for the Teller module.
<b>Teller Transaction Status</b>	Select the status of the transaction if the <b>Fund By</b> option is selected as <b>Cash</b> . The available options are: <ul style="list-style-type: none"> <li>• <b>In Progress</b></li> <li>• <b>Pending</b></li> <li>• <b>Success</b></li> </ul> Displays the status of the transaction if the <b>Fund By</b> option is selected other than <b>Cash</b> . The status of the teller transaction should be <b>Success</b> for the submission of the Account Funding stage.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.6.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage.

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

1. Click **Next** in **Initial Funding Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

**Figure 2-24 Summary**

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

**Table 2-19 Summary - Account Funding – Field Description**

Data Segment	Description
<b>Account Details</b>	Displays the account details.
<b>Initial Funding Details</b>	Displays the initial funding details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The **Overrides** screen is displayed.  
 Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.
3. Click **Proceed Next**. The **Checklist** screen is displayed.  
 Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.
4. Select the checkbox to accept the checklist. Click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Account Funding Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Underwriting**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
  - Select the **Return to Overdraft Limit Details** to return to overdraft limit details stage, the system generate the Overdraft Limit Details stage that appears in **Free Task** to acquire and edit.

- Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
  - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit**. The **Confirmation** screen is displayed.
- On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Saving Account] to the Underwriting on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

## 2.7 Account Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage

### To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Applicants** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Mandate Details** – For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Beneficiary Details** – For detailed information, refer the Beneficiary Details data segment in the Application Entry stage.
- **Stake Holder Details** – For detailed information, refer the Stake Holder Details data segment in the Application Entry stage.
- **Financial Details**: - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Terms and Conditions** – For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.
- **Interest Details**: For details information, refer the Interest Details data segment in the Application Enrichment stage.

- **Charge Details:** For details information, refer the Charge Details data segment in the Application Enrichment stage.
- **Account Limit Details:** For details information, refer the Account Limit Details data segment in the Overdraft Limit Details stage.
- **Temporary OD Limit Details:** For details information, refer the Temporary OD Limit Details data segment in the Overdraft Limit Details stage.
- **Advance against Uncollected Funds:** For details information, refer the Advance against Uncollected Funds data segment in the Overdraft Limit Details stage.
- **Initial Funding Details:** For details information, refer the Initial Funding Details data segment in the Account Funding stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Underwriting stage.
- **Assessment Summary:** For details information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Approval Details](#)  
This topic provides the systematic instructions to view and approve the application.
- [Summary](#)  
This topic provides the systematic instructions to view the tiles for all the data segments of the Savings Account Origination Process.

## 2.7.1 Approval Details

This topic provides the systematic instructions to view and approve the application.

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.  
The **Approval Details** screen displays.

**Figure 2-25 Approval Details**

2. Specify the details in the relevant data fields.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-20 Approval Details - Field Description**

Field	Description
<b>Applicant Name</b>	Displays the applicant name.
<b>Account Type</b>	Displays the account type.
<b>Account Branch</b>	Displays the account branch.
<b>Product Code</b>	Displays the product code.
<b>Product Name</b>	Displays the product name.
<b>Account Currency</b>	Displays the account currency.
<b>Host Product Code</b>	Displays the host product code mapped to the business product.
<b>Host Product Description</b>	Displays the host product description mapped to the business product.
<b>Application Details</b>	Displays the applicant details.
<b>OD Amount</b>	Displays the final approved overdraft amount.
<b>OD Tenure</b>	Displays the final tenure for the approved overdraft amount.
<b>Limit Type</b>	Displays the limit type.
<b>Rate Type</b>	Displays the rate type for the approved overdraft amount.
<b>Margin</b>	Displays the margin percentage.
<b>Effective Rate</b>	Displays the effective rate for the approved overdraft amount.

**Table 2-20 (Cont.) Approval Details - Field Description**

Field	Description
<b>User Recommendation</b>	Select the user recommendation. Available options are: <ul style="list-style-type: none"> <li>• <b>Approved</b></li> <li>• <b>Rejected</b></li> </ul>
<b>User Action</b>	Displays the user action based on user recommendation.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

## 2.7.2 Summary

This topic provides the systematic instructions to view the tiles for all the data segments of the Savings Account Origination Process.

The Summary displays the tiles for all the data segments of the Savings Account Origination Process. The Tiles displays the important details captured in the specified data segment. It further allows to click on the specific tile to view the data segment and the details captured. You can additionally click on the data segment from the train on the left hand side to view the details of the data segment.

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

**Figure 2-26 Summary**

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-21 Summary - Account Approval - Field Description

Data Segment	Description
<b>Account Details</b>	Displays the account details.
<b>Customer Information</b>	Displays the customer information.
<b>Stake Holder Details</b>	Displays the stake holder details. This data segment appears only if the <b>Customer Type</b> selected as <b>Small and Medium Business (SMB)</b> .
<b>Mandate Details</b>	Displays the mandate details.
<b>Beneficiary Details</b>	Displays the beneficiary details.
<b>Financial Details</b>	Displays the financial details.
<b>Interest Details</b>	Displays the interest details.
<b>Charge Details</b>	Displays the charge details.
<b>Account Limit Details</b>	Displays the account limit details.
<b>Temporary Overdraft Limit Details</b>	Displays the Temporary Overdraft Limit details.
<b>Advance against Uncollected Funds Details</b>	Displays the Advance against Uncollected Funds details.
<b>Initial Funding Details</b>	Displays the initial funding details.
<b>Credit Rating Details</b>	Displays the credit rating details.
<b>Valuation Details</b>	Displays the valuation details.
<b>Legal Opinion</b>	Displays the legal opinion details.
<b>Assessment Summary</b>	Displays the assessment details.
<b>Collateral Perfection Details</b>	Displays the collateral perfection details.
<b>Approval Details</b>	Displays the approval details.

Supervisor can verify the KYC Verification status of the Customer from the Customer 360 in the Header. Only if the KYC Status is 'Success' will the application be allowed to proceed further. Click **Submit** to submit the Account Approval stage and proceed to submit the Account Opening request to Host.

- Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified. The Overrides screen is displayed.

Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to ensure overrides do not arise.

- Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

- Select the checkbox to accept the checklist.
- Click **Save & Proceed**. The **Outcome** screen is displayed.
- In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.
  - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.

- Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
  - Select the **Return to Overdraft Limit Details** to make overdraft limit details stage available in free task.
  - Select the **Return to Initial Funding Details** to make account funding details stage available in free task.
  - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
  - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
7. Click **Submit**. The **Confirmation** screen is displayed.

On submission of this stage, the Workflow Orchestrator will automatically move this application to the next processing stage, **Account Create on Host** which has been automated. The account will be successfully created in Product Processor, if all the required validation is successful.

In case due to any error the account creation is rejected on Product Processor side, the application moves to the **Manual Retry Stage**

## 2.8 Account Funding

This topic describes the process of initial funding of an account. This stage appears once the account is opened.

In this stage you can initiate fund for an account post account opening. This stage appears if the **Fund Post Account Opening** toggle is selected in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

### To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire** and **Edit** or **Acquire** from the **Action** column of the appropriate record. The **Account Funding** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Funding Details](#)  
This topic provides the systematic instructions to add the funding details post opening account is complete.
- [Summary](#)  
This topic provides the systematic instructions to view the tiles for all the data segments in the Account Funding stage

### 2.8.1 Account Funding Details

This topic provides the systematic instructions to add the funding details post opening account is complete.

In this data segment you can provide funding details to fund already created account. The Account Number and Account Name appears in the repective fields.

### To add funding details:

1. On acquiring the **Account Funding** task, the **Account Funding Details** data segment appears

The **Account Funding Details** screen displays.

**Figure 2-27 Account Funding Details**

2. From the **Funding Mode** list, select the appropriate option. The fields appears based on the selected funding mode.
3. Enter the details in the respective fields.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-22 Account Funding Details – Field Description**

Field	Description
<b>Account</b>	Displays the generated account number for which the initial funding is credited along with the primary account holder name.
<b>Funding Mode</b>	Specify the funding mode from the drop-down list. The available options are: <ul style="list-style-type: none"> <li>• Own Internal Account</li> <li>• External Account (Finicity)</li> <li>• Fund Later</li> </ul>

Table 2-22 (Cont.) Account Funding Details – Field Description

Field	Description
<b>Funding Amount</b>	Specify the amount to be debited from the internal account to fund the newly generated account. The <b>Minimum Amount Value</b> maintained in the <b>Business Product Preference</b> data segment of the <b>Business Product Details</b> screen appears by default. The user can modify the auto populated amount. The modified amount must be within the range set in the <b>Initial Funding Threshold Preferences</b> section of the <b>Business Product Details</b> screen.
<b>Account Number</b>	Specify or select the account number which is debited for transferring the funds to newly opened account. The internal current or saving accounts of the respective customer appears for selection. This field appears if the <b>Own Internal Account</b> option is selected from the <b>Funding Mode</b> list.
<b>Account Name</b>	Displays the primary account holder name of the selected account. This field appears if the <b>Own Internal Account</b> option is selected from the <b>Funding Mode</b> list.
<b>Check Number</b>	Specify the Check number of the account from which the transfer is to be initiated. This field appears if the <b>Own Internal Account</b> option is selected from the <b>Funding Mode</b> list.
<b>Check Date</b>	Specify the date on which the Check is deposited for transfer. This field appears if the <b>Own Internal Account</b> option is selected from the <b>Funding Mode</b> list.
<b>Value Date</b>	Displays the current date on which the transfer is initiated. This field appears if the <b>Own Internal Account</b> option is selected from the <b>Funding Mode</b> list.
<b>Email Address</b>	Displays the preferred communication email address of the primary customer. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, the user can go back and correct the data to make ensure overrides do not arise.

3. Click **Proceed Next**. The **Checklist** screen is displayed.

Checklist configured in the business process for the business product is displayed here. Checklist are the check points that the user has to accept having confirmed.

4. Click **Proceed**. The **Outcome** screen is displayed.
5. Click **Submit** to submit the application.

On successful submission the above pop-up appears and displays the next stage in which the application has moved. Application Reference Number and the Process Reference Number is also displayed.

## 2.9 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears at the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

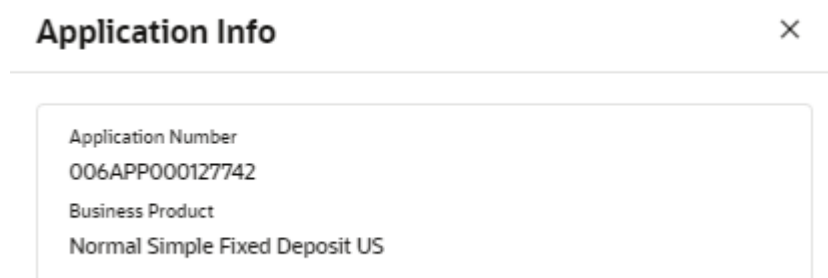

- [Application Info](#)  
In this section you can view the application number along with its product name.
- [Customer 360](#)  
In this section you can view the list of customers involved in the application.
- [Application Details](#)  
In this section you can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.
- [Remarks](#)  
In this section you can view or the post the remarks.
- [Documents](#)  
In this section you can upload the document and also view the already uploaded documents.
- [Advices](#)  
You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.
- [Condition and Convenants](#)  
You capture conditions and convenants details for the loan applications.
- [Solicitor Details](#)  
You can add the solicitor details using this section.
- [Clarification Details](#)  
In this section you can request for clarifications.

## 2.9.1 Application Info

In this section you can view the application number along with its product name.

- Click the **Application Info** button to view the details.  
The **Application Info** screen appears with the Application Number and Business Product fields.

**Figure 2-29 Application Info**

## 2.9.2 Customer 360

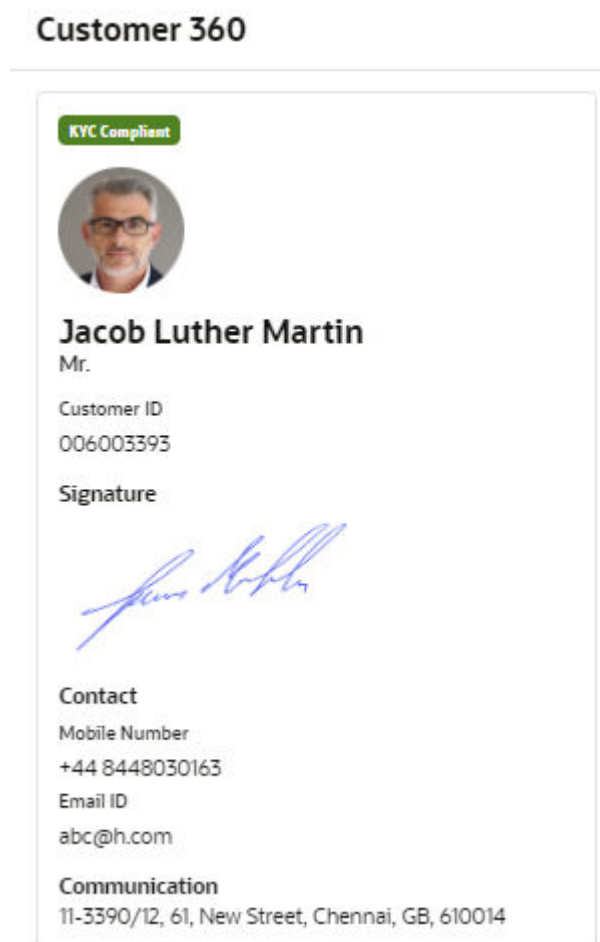

In this section you can view the list of customers involved in the application.

The separate tiles of all the customers involved in the application appears. You can click on the respective customer tile to view the 360 degree details of that customer.

1. Click **Customer 360** to view the list of customer involved in the application.

The **Customer 360** screen is displayed.

**Figure 2-30 Customer 360**

The customer tile comprises of below details:

- <Applicant Role>
- <KYC Status>
- <Applicant Image>
- <First Name, Middle Name, Last Name>
- <Title>

- Customer ID
  - Signature
  - Contact
  - Communication
2. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Applicant data segment.

## 2.9.3 Application Details

In this section you can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.

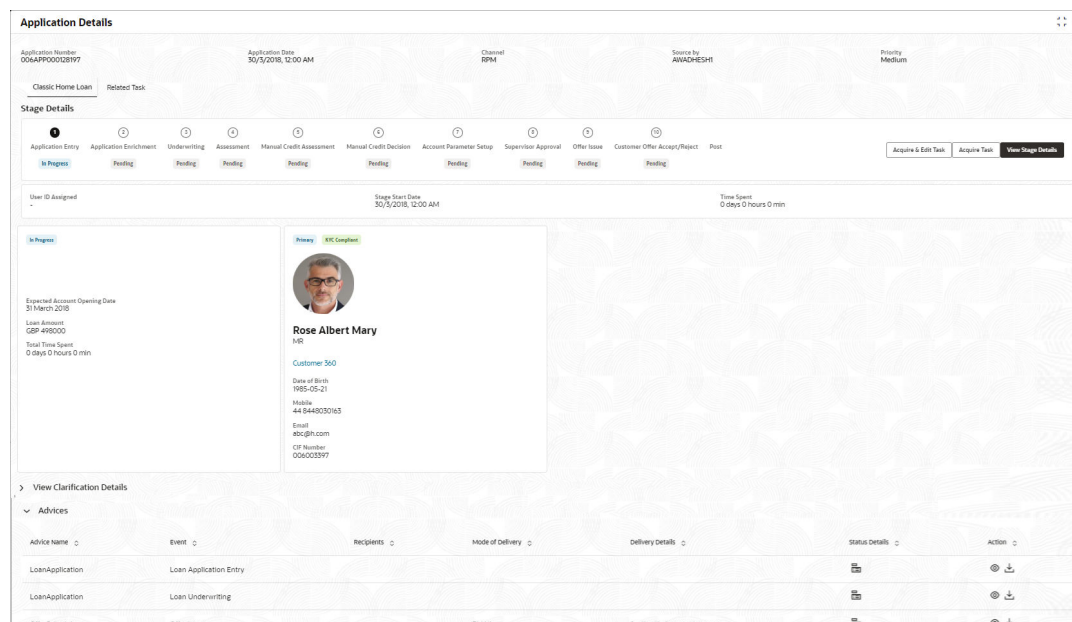

You can also track and launch the respective stage of the application.

**To view the application details:**

1. Click **Application Details** to view the application details .

The **Application Details** screen is displayed.

**Figure 2-31 Application Details**

The **Application Details** screen displays separate cards for various products initiated as part of the single application. For more information on fields, refer to the field description table below.

**Note:**

The fields marked as **Required** are mandatory.

Table 2-24 Application Details – Field Description

Field	Description
<b>Application Number</b>	Displays the application number.
<b>Application Date</b>	Displays the date and time on which the application was initiated.
<b>Source By</b>	Displays the name of the user who has sourced the application.
<b>Channel</b>	Displays the channel name.
<b>Priority</b>	Displays the priority of the application. <ul style="list-style-type: none"> <li>• High</li> <li>• Medium</li> <li>• Low</li> </ul>
<b>&lt;Product Name&gt;</b>	Displays the product name. In case on multiple product, different tabs appears with the respective product name. You can click the product names to view the respective application details.
<b>Stage Details</b>	In this section, all account opening stages appears with the status name and it's chronological order of the stage in the process. You can click the number to perform below actions on the appeared stages: <ul style="list-style-type: none"> <li>• <b>Acquire &amp; Edit Task</b> : Click this button to acquire and edit the selected stage.</li> <li>• <b>Acquire Task</b>Click this button to acquire the selected stage. You can edit it later.</li> <li>• <b>View Stage Details</b>: Click this button to view the stage details.</li> </ul>
<b>User ID Assigned</b>	Displays the <b>User ID</b> of the user currently working on the product process. <div style="border: 1px solid #0070C0; padding: 5px; margin: 10px 0;">  <b>Note:</b> </div> This field appears blank, in case the product process task is not acquired by any user.
<b>Stage Start Date</b>	Displays the start date of the current stage. It also display time in hours, mins and seconds.
<b>Time spent</b>	Displays the days, hours and mins spent on the current selected stage.

Table 2-24 (Cont.) Application Details – Field Description

Field	Description
<b>&lt;Application Tile&gt;</b>	<p>In this tile you can view the application specific details. Below field appears in this tile with respective details:</p> <ul style="list-style-type: none"> <li>• <b>&lt;Status of the Application&gt;</b> : Displays the current stage of the application</li> <li>• <b>Expected Account Opening Date</b> : Displays the date on which the account is opened. This field appears once the account opening process is completed.</li> <li>• <b>Account Number</b>: Displays the account number. This field appears once the account opening process is completed.</li> <li>• <b>Expected Account Opening Date</b>: Displays the date on which the account will be opened.</li> <li>• <b>&lt;Amount&gt;</b>: Displays the value based on the product. For example: <ul style="list-style-type: none"> <li>– For the loan account opening application, the label of this field appears as <b>Loan Amount</b>.</li> <li>– For the saving, term deposit and current account optning application. the lable of this field appears as <b>Initial Funding Amount</b>.</li> </ul> </li> <li>• <b>Total Time Spent</b>: Displays the total time spent on the application from the first to last stage.</li> </ul>
<b>&lt;Applicant Details Tile&gt;</b>	<p>In this tile you can view the applicant details. Seperate tiles appears for all the applicants that are involved in the application. Below field appears with the respective applicant details:</p> <ul style="list-style-type: none"> <li>• <b>Role of the Applicant</b></li> <li>• <b>Applicant Image</b></li> <li>• <b>Applicant Name</b></li> <li>• <b>Title</b></li> <li>• <b>Customer 360</b> : Click this link to view the 360 degress view of the customer information. The Customer 360 screen appears with the details. <b>Actions</b>	<p>You can perform below actions on the added record:</p> <ul style="list-style-type: none"> <li>Click  to save the record.</li> <li>Click  to delete the record.</li> </ul>

 **Note:**

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

## 2.9.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.

The **Advices** screen is displayed.

**Figure 2-34 Advices**

The system will generate the advice on submission of the stage. For Application Entry stage of Product, no advice is configured.

## 2.9.7 Condition and Convenants

You capture conditions and convenants details for the loan applications.

In this section you can add, edit and remove the condition and covenant details .

### Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

**To add conditions:**

1. From the **More** option, click the **Conditions & Covenants** to add or remove the conditions details.

The **Conditions & Covenants** page appears.

**Figure 2-35 Conditions**

2. Click **Add Condition** to add new conditions.

**OR**

Click **Remove** to remove already added conditions.

3. Enter the relevant details.

**Table 2-26 Conditions – Field Description**

Field	Description
<b>Entity</b>	Select the entity on which you want to set condition. The available options are <ul style="list-style-type: none"> <li>• <b>Party</b></li> <li>• <b>Collateral</b></li> <li>• <b>Account</b></li> </ul>
<b>Entity ID</b>	Select the entity ID from the list. The options in the list appears based on the entity selected in the <b>Entity</b> field.
<b>Condition</b>	Specify the conditions for the selected entity.
<b>Type</b>	Select the type when the conditions must be complied. The available options are <ul style="list-style-type: none"> <li>• <b>Pre Disbursement:</b> If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement.</li> <li>• <b>Post Disbursement:</b> If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.</li> </ul>

**Table 2-26 (Cont.) Conditions – Field Description**

Field	Description
<b>Status</b>	Select the status of the condition. The available options are <ul style="list-style-type: none"> <li>• <b>Open</b></li> <li>• <b>Complied</b></li> </ul>
<b>Actions</b>	You can perform below actions on the added record: <ul style="list-style-type: none"> <li>• Click <input checked="" type="checkbox"/> to save the record.</li> <li>• Click <input type="checkbox"/> to delete the record.</li> </ul>

4. Click **OK**. The conditions are saved.

 **Note:**

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

**Convenants**

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

**To add convenants:**

5. From the **More** option, click **Conditions & Convenants** to add or remove the convenants details.

The **Conditions & Convenants** page appears.

**Figure 2-36 Convenants**

6. Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

7. Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

# 3

## Simplified Application

This topic describes the concept and process of single stage application.

### What is Simplified Application?

The Simplified Application is introduced to open an account in a smooth single process culminating the long account opening process. In this process the user can directly create and application and update details with multiple data segments in a single view.

### How to configure Simplified Application for a product?

To enable a simplified account opening process, select the **Simplified Application** flag in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

Once the product is configured for simplified application, the user can configure the business process such as stages, data segments, document checklist and so on, in the **Business Process Configuration** screen.

### How to process the simplified application?

After configuring the product and process, the user can initiate a single-stage application by navigating the menu. Below is the detailed process for opening an account using a simplified application.

#### To open an account using simplified application process:

1. From the **Menu**, select the **Retail Origination**. The Retail Origination menu appears.
2. From the **Retail Origination**, select the **New Application**. The New Application page appears with list of product types which are configured.
3. Select the appropriate product and click **Apply**.  
The Application Entry stage appears. The data segments in this stage appears based on the business process configuration.
  - **Applicant** : In this data segment user can capture applicant details such as basic, address, signature, employment, identification. Multiple applicants are allowed with different roles. Refer **Applicant** data segment from the **Application Entry** stage of this guide.
  - **Account Details**: In this data segment user can capture the product details to configure the account. Refer **Account Details** data segment from the **Application Entry** stage of this guide.
  - **Beneficiary Details**: In this data segment user can capture the beneficiary details. Refer the **Beneficiary Details** data segment from the **Application Entry** stage of this guide.
  - **Interest and Charges**: In this data segment user can view the interest and charges that are applicable. Refer the **Interest and Charges** data segment from the **Application Entry** stage of this guide.

- **Term and Conditions:** In this data segment user can capture the term, conditions and consents of the customer. Refer the **Term and Conditions** data segment from the **Application Entry** stage of this guide.
  - **Review:** In this data segment user can review all the details that are captured on clicking on each data segment tile.
4. On submitting the Application Entry stage, next stage is triggered based on the business process configuration.  
Below are the stages are autogenerated if the Know Your Customer (KYC) process is not successfully completed:
    - **Debit Assessment:** If the applicants involved in a simplified application have not completed the Know Your Customer (KYC) process, then the **Debit Assessment** stage appears in the application process. The user having the required access rights can pick this task and can retry submission after taking required actions on the KYC non-compliance. Refer the **Debit Assessment** stage of this guide.
    - **Manual Debit Assessment:** If the bureau status of any applicant is marked as **Referred** then this stage appears in an account opening process. Refer the **Manual Debit Assessment** stage of this guide.
  5. After completing the Know Your Customer (KYC) process, the account number is generated and application proceed to approval stage. The Account Approval stage is generated. All the data segments of the Application Entry stage appears. The user can only view those stages. The Approval Details data segment is enabled to capture account approval status. For more information refer the **Approval Details** data segment of the **Account Approval** stage in this guide.
    - If the Rejected option is selected in the Approval Details data segment then this application is terminated.
    - If the Approved option is selected in the Approval Details data segment then the application's payload are proceed for account creation.
  6. An account is created on approving the application in the **Account Approval** stage.
  7. Below tasks are aslo generated in this process:
    - If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.
    - If the business process is configured to include Account Funding, then the **Account Funding** stage is generated after account creation.

# 4

## Instant Savings Account Origination Process

This topic describes the information about Instant Savings Account Origination Process.

Additional Instant Business Process is available wherein various stages in the Reference Flow for Savings Account have been automated.

This allows Instantaneous Account origination from Self-Service Channel such as Oracle Banking Digital Experience for existing Customer who are KYC Compliant and New Customers for whom KYC is completed in Oracle Banking Digital Experience. KYC Type supported for the STP is Identification and Address only and the same has to be configured in Oracle Banking Party Module.

### Note:

Refer the **Retail Onboarding User Guide** for more details.

Based on whether the Application is initiated by self-service channel or by a Branch personnel the automatic submission of the stages or skipping of the stages are done by the system.

This process is not applicable for Small and Medium Business customers.

### Prerequisite:

- For the automatic submission to work, it is expected that document and checklist are not configured in any of the stages.
- Initial Funding is either not taken for the Account or taken as Account Transfer for which the mode configured has to be **H** which represents that the selected Account will be debited by the Host as part of the Account Opening Process (Allowed for both Self-Service Channel and Branch Initiated Applications) or Initial Funding is taken via External Bank Account Transfer on self-service channel (This mode is not allowed for Branch Initiated Applications).

### Note:

For more details, refer to **Initial Funding Configuration** topic in the **Configurations User Guide**.

In the Instant Savings Account Origination Reference Business Process, the stages that are configured are mentioned below.

- **Application Entry Stage:** On successful submission of the Savings Account Application from self-service channel, the system starts the **Application Entry** stage without any manual intervention and completes the data segment level validation. On successful completion of the validation, the system automatically submits the **Application Entry** stage. Similarly, for the Branch initiated Application also this stage is automatically submitted, if the data segment configured for Application Entry stage are updated in the **Application**

**Initiate** stage itself by clicking the **Application** button in the **Product Details** data segment.

- **Account Funding Stage:** On successful submission of the **Application Entry** stage, system checks if Initial Funding is updated for the Account Opening or not.
  - The initial funding mode allowed for self-service initiated applications are External Bank Account Transfer and Account Transfer.
  - If the Initial Funding has been taken for the Account via the External Bank Account Transfer in the self-service channel, the system starts the **Application Funding Stage** and validates the **Initial Funding Details** data segment and submits the **Application Funding Stage** automatically.
  - For Application where the **Initial Funding** is updated as Account Transfer or where no funding has been taken for the Account, this stage is skipped completely by the system for Application initiated from Self-Service Channel and Branch Initiated Applications.
  - For the Branch Initiated Applications wherein the **Initial Funding** has been taken in Cash or Other Bank Check, this stage has to be manually actioned by the Branch User having access permission for this stage.
- **Application Approval Stage:** System skips this stage for self-service initiated application and submits the application directly to the Product Processor for Account Creation. However, for Branch initiated Application considering the 4-eye principle, system expects the application to be approved by a Supervisor. Hence this stage, will have to be picked and actioned by the Supervisor User. Supervisor User can either approve or reject the Application. On submission of this stage by selecting **Approve** outcome, system submits the Application to the Product Processor for Account Creation.
- **Handoff Retry:** Application moves to this stage and appears in the Free Task only if the Savings Account creation has been rejected by Product Processor. The user having the required access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.
