# Preface

- Purpose
- Audience
- Documentation Accessibility

### Purpose

This guide helps to get started with Oracle Banking applications. It explains the basic design of Oracle and the common operations that you can follow while using it. The guide must be used as a supplement and read in conjunction with Common Core, Security Management System, and other application user guides.

# Audience

This guide is intended for the Customer Service Representatives (CSR) and staff responsible for setting up new products in your bank.

## **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

#### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

# 1 Welcome to Getting Started User Guide

This topic provides an overview of getting started user guide.

This guide helps you get started with Oracle Banking applications and explains the basic design of Oracle and the common operations that you can follow while using it. The guide must be used as a supplement and must be read in conjunction with Common Core User Guide, Security Management System User Guide, and other application user guides.

This document is intended for the Customer Service Representatives (CSRs) and staff in charge of setting up new products in your bank.

Thissection contains the following topics

# 2 Access Application

Youcan access any application using the link provided by the administrator. Contact the adminis- trator for the URL and the login credentials. For more information on Users and Roles, refer to **Oracle Banking Security Management System User Guide**.

### Sign In

To sign in the product application:

1. Specifythe URL in the browser address and press Enter. The Sign In page appears.

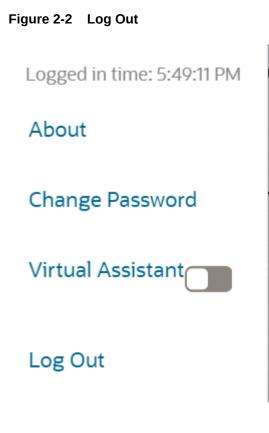

Figure 2-1 Sign In

- 2. In the **User Name** field, enter the user name using which you wish to login.
- 3. In the **Password** field, enter the set password of the entered user name.
- 4. Click**SignIn** to log in to the application.

#### Logout

- **1.** In the selected application navigate to the **Toolbar**.
- 2. Under **Toolbar**, click the user name logged into the application. TheUser Profile fly-out menu appears.

# 3 Application Environment

This topic describes about the various fields available in the application environment.

On successful login, the application environment screen appears depending on the user privileges.

#### **Call-out details**

- 1. HamburgerMenu:Use to expand/collapse the menu.
- 2. Menu:Use to navigate/open the screens associated with the application.
- 3. **Sub-Menu**:Click to view the sub-menus associated with the menu. These screens are associated with the menu depending on the user privileges.
- 4. DisplayGrid: Displays the screens/dashboards selected using the menu.
- 5. **BankName**:Displays the name of the bank and its branch code. Click to select the branches associated with the logged in user.

### Note:

Dependingon the logged in user and the branches associated, you can switch between branches and view the records

6. **ApplicationDate**:Displays the application date on which the branch's EOD was last performed.

- 7. UserProfile:User profile related options and actions are available.
- Screen Environment This topic describes about the various components in the screen environment.

### 3.1 Screen Environment

This topic describes about the various components in the screen environment.

There are three types of screens in the application.

- Dashboard
- Maintenance Screen
- Summary Screen
- Dashboard
   This topic describes about the various components in the dashboard.
- Summary Screen This topic describes about the various components on the summary screen.
- Maintenance Screen This topic describes about the various components in the maintenance screen.

### 3.1.1 Dashboard

This topic describes about the various components in the dashboard.

Depending on the access/permission provided to the logged-in user, the user can view the dashboards associated with the user. These dashboard helps the user to analyse the situation and take the necessary actions.

Asample screenshot of Dashboard is shown below:

onversion Analysis $\nabla$ X	Product Applications Near Expiry $ au  imes$	Loan Exposure To Collateral $ au imes$ X	New Current Account	× My Applications 3 + New Application

For more information on fields, refer to the field description table.

#### **Call-out Details**

- Fields: Displays the fields associated with the selected maintenance screen. There are several typesof fields such as text box, dropdown, and so on, these fields can also be either manda- tory or options fields. For more information, refer to Mandatory and Optional Fields.
- 2. Title bar: Displaysthe name of the screen and couple of common actions such as minimize and remove. For more information, refer to Minimizing Records and Closing Records .
- 3. Save:Click Saveto save the specified details in the maintenance screen.
- 4. Cancel: Click Cancel to reset the specified details in the maintenance screen

# 4 How to's

This topic describes about the different types of actions that the user can perform.

As a new user, the user need to perform a set of tasks that are similar in all the screens such as view, edit, delete existing records, and more.

When the user is working with records, it is important to remember that any records that user create, view, edit, delete, and more are determined by administrator settings such as user profile or permission set. Work with the administrator to ensure that the user have access to the records and data.

Now, you have learned how to work with your records, you might want to explore more advanced features.

- Access the Records This topic provides the systematic instructions to access the records.
- View the Records This topic describes about the various formats to view the records.
- Search the Records This topic provides the systematic instructions to search the records.
- Refresh the Records This topic provides the systematic instructions to refresh the records.
- Creating / Configuring the Records
   This topic provides the systematic instructions to create / configure the records.
- Copy the Records This topic provides the systematic instructions to copy the record.
- Unlock the Records This topic provides the systematic instructions to unlock the record.
- Reopen the Records This topic provides the systematic instructions to reopen the record.
- Delete the Records This topic provides the systematic instructions to delete the record.
- Print the Records This topic provides the systematic instructions to print the record.
- Authorize the Records This topic provides the systematic instructions to authorize the record.
- Minimize and Maximize the Records This topic provides the systematic instructions to minimize and maximize the records.
- Close the Records This topic provides the systematic instructions to close the record.
- Audit the Records
   This topic provides the systematic instructions to audit the record.

## 4.1 Access the Records

This topic provides the systematic instructions to access the records.

The user can access the screens depending on the permissions/rights provided.

Specify User ID and Password, and login to Home screen.

**1.** Navigate to the hamburger menu.

By default, the hamburger menu is expanded.

2. Click <sub-menu>, and click <name of the screen>.

The screens associated with the sub-menu displays.

3. Click Create <name of the screen>.

The Create <name of the screen> screen displays. The user can create/configure the new records.

4. Click View <name of the screen>.

The View <name of the screen> screen displays. The user can view the configured records.

### 4.2 View the Records

This topic describes about the various formats to view the records.

You can view the summary of all configured records in the selected summary screen. This helps you to find the required record faster. A few different formats to view the records are described.

#### **Tile View**

The default summary view of the records are tile view. Displays the configured records in a tile formatwith few key fields that are associated with the screen. You can click a tile to open a record in a full screen and view the details.

A sample screenshot is shown below:

#### Figure 4-1 Tile View

#### **Call -Out Details**

- **ContextMenu**: The icon appears only to the selected number of screens. The context menu allows you to perform actions that are associated with the record.
- ContextMenu Flyout: A list of all of the actions appear, and the list of actions depend on the status of the record

### 4.3 Search the Records

This topic provides the systematic instructions to search the records.

Youcan search the required number of records.

1. In the selected screen, click **Search**, the fields associated with the selected screen appear in a drop-down menu.

A sample screenshot is shown below.

Search Filter	×
Questionnaire Code Q1010	
Description	
Authorization Status	
Record Status	
Search Reset	

#### Figure 4-3 Searching Records

- 2. Provide the required details associated with the selected screen.
- 3. Click **Search**. The requested record displays.

## 4.4 Refresh the Records

This topic provides the systematic instructions to refresh the records.

In the selected screen, click **Refresh**, the records associated with the selected screen is updated with the latest details.

# 4.5 Creating / Configuring the Records

This topic provides the systematic instructions to create / configure the records.

Youcan create/configure records with any of the following two ways:

- 1. In the selected view screen, click Add icon to create/configure a record.
- On the menu, select a sub-menu and click <Create name of the screen>.
   The Create or Configure the record screen shown for reference.

- 6. Click Confirm to save the details.

The record is created and the maker remarks can be viewed in **Audit** screen. Refer **Auditing Record** topic for the detailed explanation.

7. Click **Cancel** to discard the changes.

## 4.6 Copy the Records

This topic provides the systematic instructions to copy the record.

Perform the following steps to copy a record.

- 1. In a selected screen, click a record.
- 2. Click Copy to copy the selected record details and do the required changes to the record.
- Click Save to save the modified record.

## 4.7 Unlock the Records

This topic provides the systematic instructions to unlock the record.

Perform the following steps to unlock a record.

- 1. In a selected screen, click a record.
- 2. Click **Unlock** to unlock the selected record details and do the required changes to the record.
- 3. Click **Save** to save the modifed record.

### 4.8 Reopen the Records

This topic provides the systematic instructions to reopen the record.

- 1. Navigate to Summary screen.
- 2. Click on the record that need to reopen.
- 3. Click Reopen.

The **Confirmation** screen displays.

- 4. Specify a remark.
- 5. Click Confirm to reopen the record.

## 4.9 Delete the Records

This topic provides the systematic instructions to delete the record.

#### 💉 Note:

Make sure that the user have privileges and know the guidelines to delete the records.

- 1. Navigate to Summary screen.
- Click the record that needs to be deleted.
- 3. Click Delete.

The selected record is deleted.

### 4.10 Print the Records

This topic provides the systematic instructions to print the record.

- 1. Navigate to Summary screen.
- 2. Click the record that needs to be printed.
- Click Print to view the record in a print format. The selected record is printed.

### 4.11 Authorize the Records

This topic provides the systematic instructions to authorize the record.

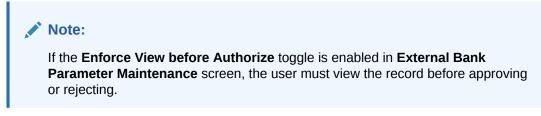

- 1. Navigate to **Summary** screen.
- 2. Click  $\frac{1}{2}$  icon on the unauthorized record which needs to be authorized.

3. Click Authorize.

The Authorization screen displays.

- 8. Specify the approval remarks in the **Remarks** field.
- 9. Click **Confirm** to approve the record.

The selected record is approved and the approval remarks can be viewed in **Audit** screen. Refer Audit the Records topic for the detailed explanation.

10. Click **Cancel** to discard the approval.

To reject the record:

11. Click **Reject** to reject the record.

The Reject - Confirmation Message popup screen displays.

12. Specify the rejection remarks in the **Remarks** field.

### Note:

The **Remarks** is mandatory while rejecting the record.

13. Click **Confirm** to reject the record.

The selected record is rejected and the rejection remarks can be viewed in **Audit** screen. Refer **Audit Record** topic for the detailed explanation.

14. Click **Cancel** to discard the rejection.

## 4.12 Minimize and Maximize the Records

This topic provides the systematic instructions to minimize and maximize the records.

In the selected screen, click Collapse to minimize the screen. The minimized screen appears at the bottom left corner of the screen. You can click to maximize the screen.

## 4.13 Close the Records

This topic provides the systematic instructions to close the record.

In the selected screen, click Remove to close the screen. If you are in the middle of creating/ modi- fying the records in a selected screen, an error/warning message appears prompting to save the changes.

# 4.14 Audit the Records

This topic provides the systematic instructions to audit the record.

- 1. Navigate to Summary screen.
- 2. Click <sup>§</sup> icon and click **Unlock** or **View** button to modify/view the record.
- 3. On Maintenance screen, click Audit to view the change history of the record.

The Audit detail popup screen displays.

### Figure 4-8 Audit Details
