Purpose

Welcome to the **Retail Loans Origination** user guide for Oracle Banking Origination. This document provides an overview of the Retail Loan Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Retail Loan Origination.

Audience

This user manual is intended for the Relationship Managers (RMs), other loan executive staff-member in-charge of maintenance for the loan accounts in the bank, and sales officer in-charge of sourcing the Retail Loan Origination products from prospect and customer of the bank. This user manual is also intended for the other bank personas such as bank operations manager, account opening officers or branch managers who may handle the specific stages of the lifecycle of the Retail Loans Origination process based on the bank's internal operation and policies.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resource

The related documents are as follows:

- *Operations User Guide*
- *Configuration User Guide*
- *Alerts and Dashboard User Guide*

Overview

Oracle Banking Origination is the middle office banking solution with a comprehensive coverage of account opening processes of the below product for both Individual as well as Small and Medium Business type of customers:

- Saving Account
- Current Account
- Term Deposit Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver the improved user experience for various bank persons such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and more, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business-driven, is hosted and architecture by our new platform solution. The random access navigation between data segments within a given stage are with appropriate validations helps to enable the business user to capture apt information anytime during the account open process before created account in the Host. The new workflow supports capturing relevant documents, stage-wise, and the generation of advice and notifications dynamically.

The account opening request is initiated by authorized branch user or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services. These services are available on digital devices like tablets or mobiles. The account opening request can be initiated for both both new and existing customer types. Also, the system supports the processing of the account opening request from the customer directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST-based service APIs.

2

Retail Loans Account Origination Process

This topic describes about the Retail Loans Account Origination Process.

This document provides an overview of the retail account open process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a retail loan account open process.

The document is designed to help you create the following types of retail loan:

- Individual customers
 - Housing Loan

2.1 Retail Loan Account

This topic describes information about retail loan account.

The initial request for a loan can be made through any of the following:

- Authorized branch users
- Relationship managers
- Authorized bank agents
- Traditional branch channel
- Specialized protocol services available on digital devices such as tablets or mobiles

The initiation of loan request can be made for both new and existing customer types. Also, the platform supports the processing of the loan request from the customer which is directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

The selection of the relevant loan product on which the loan is required can be initiated using this process, provided the user has the required access rights.

Please refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the Operations user guide.

To acquire and edit the task:

1. From **Home** screen, click **Tasks**. Under **Tasks**, click **Free Tasks**.

2.2 Application Entry Stage

This topic describes the systematic instructions to initiate the loan application entry stage.

Based on the access configuration, user can view the records in Free Task. In this stage user can capture the details that are required to open a current account. This stage is automatically submitted on below conditions:

- If the bank level configuration for allowing the full application submission is set as **Yes**.
- If the user captures the required details in all the data segments of the **Application Entry** stage as part of the **Application Initiation** stage on clicking the Application button in the **Product Details** data segment.

To open retail loan application entry task:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Entry** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Applicant](#)
In this data segment you can view and edit the customer information which is captured while initiating an loan account application.
- [Loan Details](#)
This topic describes the systematic instructions to configure the loan product.
- [Stake Holder Details](#)
This topic provides the systematic instructions to capture the stake holder details related information for the application.
- [Financial Details](#)
This topic provides the systematic instructions to capture the financial details of a single customer or multiple customers.
- [Collateral Details](#)
This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.
- [Terms and Conditions](#)
(Required) This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.
- [Summary](#)
This topic provides instruction to view the tiles for all the data segments in the Loan Application Entry Process.

2.2.1 Applicant

In this data segment you can view and edit the customer information which is captured while initiating an loan account application.

The **Applicant** data segment displays the details captured for the customer in the Application Initiate stage and allows to update further for supplementing the customer related information. The user can capture data for both new as well existing customer. If the existing customer is

selected the system fetches store data and populates in the respective fields. The user can edit the fetched data.

- [For Individual Customer Type](#)
The topic describes the process to capture or edit applicant of Individual type of customer.
- [For Small and Medium Business \(SMB\) Customer Type](#)
The topic describes the process to capture or edit customer information of Small and Medium Business type of customers.

2.2.1.1 For Individual Customer Type

The topic describes the process to capture or edit applicant of Individual type of customer.

To capture applicant details:

1. In the Current Application Entry stage, update the customer details in the Applicant data segment based on the respective customer type.

The **Applicant - Individual** screen displays.

Table 2-7 (Cont.) Financial Details: SMB – Field Description

Field	Description
Asset	Specify the amount for any of the applicable asset type in the below fields. <ul style="list-style-type: none"> • House • Deposit • Vehicle • Other Total gets calculated automatically. The fields appears in this sections are based on the configuration.
Profit and Financial Ratios	This field appears only if the Customer Type is selected as Small and Medium Business (SMB) .
Financial Year	Select the Financial Year from the dropdown list.
Currency	Click Search icon and select the currency from the available list.
Balance Sheet Size	Specify the balance sheet size.
Operating Profit	Specify the operating profit of the business.
Net Profit	Specify the net profit of the business.
Year Over Year Growth	Specify the growth of the business year on year.
Return On Investment	Specify the return on investments.
Return On Equity	Specify the return on equity.
Return On Asset	Specify the return on asset.

- Click **Next**. The system validates the date specified in **Last Update On** with Financial Details Validity Period and, if date specified in **Last Update On** exceeds the date specified in Financial Details Validity Period at Business Product Preferences configurations, the system displays the following error message:
- Click **Yes** to retain the existing financial details and proceed with the next data segment.
OR
Click **No** to edit financial details and proceed.

2.2.5 Collateral Details

This topic provides the systematic instructions to capture the collateral which is offered by the customer as security for Overdraft limit.

Collateral details is a data segment to capture the collateral which is offered by the customer as security for the loan. Collateral details will be sent to the host to be made available under local collateral. The relevant service APIs will be made available for both Push and Pull details of collaterals.

Capturing of Collateral details in Oracle Banking Origination is also enabled with an option to onboard collateral using the Oracle Banking Credit Facility Process Management integration services. In such cases, the collateral details will be sent to the Collateral onboarding systems for performing the Valuation, obtaining the Legal opinion and recording the perfection details. These details will be made available on Oracle Banking Origination in the respective Data segments in read only mode.

To add collateral details:

- Click **Next** in previous data segments to proceed with the next data segment, after successfully capturing the data.

- Click **Add Collateral** to capture the collateral details.
The **Collateral Details** screen displays.

Figure 2-16 Collateral Details

If the **Collateral Type** is selected as **Term Deposit**, the following **warningmessage** displays when the OD Limit expiry date is more than the Maturity Date of the term deposit. The **Warning Message** popup screen displays.

Figure 2-17 Warning

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-8 Collateral Details - Field Description

Maturity Date	Select the Maturity Date of the term deposit.
Available Linkage Amount	Specify the available linkage amount.
Linked Amount	Specify the linked amount.
Linkage Currency	Displays the linkage currency.
Guarantee Type	<p>Specify the type of guarantee.</p> <p>This field appears only if the collateral type is Guarantee.</p>
Currency	Specify the currency of the collateral value.
Collateral Value	Specify the collateral value.
Collateral Description	Specify the collateral description.
Mark Collateral For Refinance	Specify if an added collateral should be consider for refinance.

Table 2-8 (Cont.) Collateral Details - Field Description

Field	Description
Applicants	This section displays the applicants name and remarks that are involved in the loan application. These applicants are also related to the added collateral.
Guarantor	This section displays the guarantor name.
Purchase Property	Specify whether the collateral property being added is being purchased. This field appears if the Property option is selected from the Collateral Type list.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Collateral Available Date Range	Select the date range of the collateral. The range indicates the date from and date up to, which the collateral is available.
Collateral Value	Specify the value of the collateral.
Hair Cut %	Specify the percentage of Hair Cut.
Collateral Amount To Be Considered	Displays the collateral amount to be considered. Collateral Amount = (Hair Cut % Collateral Value)
Collateral Description	Specify the collateral description.
Property Location	In this section you can enter property address which is added as collateral. This section appears only if you select Property from the Collateral Type list. The fields appears if you select the Property option from the Collateral Type list.
Address	Specify the address to search already captured address. Based on configuration, on entering few letters, the system fetches the related address that are already captured. Based on the selection, the fields are auto populated in the address section.
Address Line 1	Specify the building name.
Address Line 2	Specify the street name.
Address Line 3	Specify the city or town name.
State / Country Sub Division	Specify the state or country sub division.
Country	Select and search the country code.
Zip Code / Post Code	Specify the zip or post code of the address.
Collateral Ownership Details	In this section you specify the ownership details of the collateral property. This section displays all the customers that are involved in the loan application. The fields appears if you select the Property option from the Collateral Type list.
Ownership Type	Select the ownership type of the property. The available options are <ul style="list-style-type: none"> • Single • Joint The fields appears if you select the Property option from the Collateral Type list.

Table 2-8 (Cont.) Collateral Details - Field Description

Field	Description
Select	Select the appropriate customer as owner from the list. The fields appears if you select the Property option from the Collateral Type list.
Customer Name	Displays the customer name along with title. The fields appears if you select the Property option from the Collateral Type list.
Ownership Percentage	Displays the percentage of the ownership of the customer. The fields appears if you select the Property option from the Collateral Type list.
Remark	Displays the remark of the customer. The fields appears if you select the Property option from the Collateral Type list.
Market LTV	Displays the market LTV.
Bank LTV	Displays the bank LTV.
Collateral Description	Displays the description of the collateral.
Collateral Type	Displays the collateral type.
Category	Displays the category of the collateral.
Collateral Value	Displays the collateral value.
Owners	Displays the owner names of the collateral.
<Actions>	Displays the actions that you can perform on the added collateral. <ul style="list-style-type: none"> •  <ul style="list-style-type: none"> - Click delete to delete the added collateral. •  <ul style="list-style-type: none"> - Click down arrow to view the collateral details.
Total Collateral Value	Displays the total value of collateral. This field will be auto updated based on the number of collaterals.
Cover Available	Displays the cover available. This field will be auto updated based on the number of collaterals.

 **Note:**

All the fields are fetched from Oracle Banking Credit Facilities Process Management in read only mode, if integrated with Oracle Banking Credit Facilities Process Management.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.2.6 Terms and Conditions

(Required) This topic descriptions the terms and conditions that are mandatory to accept for to proceed with account opening process.

In this data segment user can capture term and conditions consents from the applicants. The customer consents are same across products but few term and conditions defer based on the applied products. They appears in questionnaire format based on the configurations. This questionnaire is mapped at product configuration level. It is mandatory to accept all term and condition to proceed with application.

This data segment comprises of below sections:

- **Term and Conditions for all products** - In this section the term and conditions which are applicable for all the products appears in the questionnaire format.
- **Term and Conditions for <Selected Product>** - In this section the term and conditions which are applicable for all the selected product appears in the questionnaire format.

To capture terms and conditions:

1. Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Term and Conditions** screen appears

Figure 2-18 Term and Conditions

2. Click  to view the term and conditions.
3. In the **Customer Consent across Products** section, select to capture the customer consents.
4. In the **Term and Conditions for Lending Application** section, select to accept the product level term and conditions.
5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are

not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.2.7 Summary

This topic provides instruction to view the tiles for all the data segments in the Loan Application Entry Process.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** from pervious data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-19 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-9 Summary – Field Description

Data Segment	Description
Applicants	Displays the applicants details
Relationship	Displays the relationship details.
Loan Details	Displays the loan details.
Mandate Details	Displays the mandate details.
Financial Details	Displays the financial details.
Collateral Details	Displays the collateral summary details.
Guarantor Details	Displays the guarantor summary details.
Terms and Conditions	Displays the term and conditions.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.

3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed. OR Click **Proceed**. The Checklist screen appears
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **LoanApplication Enrichment**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Credit Card Account] to the Credit Card Application Underwriting stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

 **Note:**

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.
- Unique process reference numbers will be generated and made available in the Free Task grid for the respective Customer Onboarding, Collateral Onboarding requests, which need to be picked up by the concerned users in the Oracle Banking Party / Oracle Banking Credit Facilities Process Management modules.

2.3 Application Enrichment Stage

This topic describes the systematic instructions to move the loan application to enrichment stage.

The **Loan Application Enrichment** stage is the next representative and optional stage in the Retail Loan Account Open process. Effectively, the user can move the application to the **Loan Underwriting** stage without capturing the details in any of the data segments of **Loan Application Enrichment** stage. After the **Loan Application Entry** stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture. The user can acquire the application from **Free Tasks** list.

Users having functional access to the **Application Enrichment** stage will be able to view the record in the Free Task process.

To enrich an application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Enrichment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Interest and Charges](#)
This topic describes systematic instructions to configure loan interest and charges details.
- [Mortgage Insurance](#)
This topic describes the systematic instructions to configure the mortgage insurance.
- [Loan Disbursement Details](#)
This topic describes systematic instructions to configure loan disbursement details.
- [Loan Repayment Details](#)
This topic describes systematic instructions to enables the user to capture the loan repayment details.

- **Account Services**
This topic describes systematic instructions to enables the user to capture the statement preference and the holiday preferences.
- **Summary**
This topic provides the systematic instruction to view the tiles for all the data segments in the Loan Application Enrichment Process.

2.3.1 Interest and Charges

This topic describes systematic instructions to configure loan interest and charges details.

In this data segment the **Interest Details** section displays the interest applicable for the account.

The **Charge Details** section enables the user to display the charges applicable or levied for this loan application. These charge details are fetched from the Host (APIs – Pull).

To add interest and charges details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Interest and Charges** screen appears.

Figure 2-20 Interest and Charges

2. Specify the fields on **Interest and Charges** screen.
For more information on fields, refer to the field description table.

Table 2-10 Interest and Charges – Field Description

Field	Description
Interest Details	Displays the interest details.
Interest Description	Displays the interest description of the selected interest rate code.
Interest Rate (%)	Specify the interest rate. Interest Rate is fetched from host back end product to which this loan account is mapped via the Business Product configuration.

Table 2-10 (Cont.) Interest and Charges – Field Description

Field	Description
Rate Type	Displays the rate type. The system fetches the rate type from host back end product to which this loan account is mapped via the Business Product configuration.
Margin / Variance (%)	Specify the margin or variance in percentage. The Margin field appears if the Rate Type is selected as Floating . The Variance field appears if the Rate Type is selected as Fixed . This field is editable if the Margin Allowed toggle is ON at the product level
Effective Rate (In %)	Displays the effective rate for the loan calculated as Interest Rate + or - Margin/Variance .
Charge Deatils	Displays te charge details.
Charge Description	Displays the type of charges. The system also displays the total values of uncapitalized and capitalized charges and insurance.
Amount	Displays the amount.
Rate	Displays the rate for the charge component.
Waive	The user will have the option to waive all charges or selectively waive a particular type of charge.
Capitalize	Select if you want to capitalize the fees. The charges cannot be capitalized if the same are waived in this case this field appears disabled. This option is enabled only for the fees that are set to capitalize while configuring product.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.2 Mortgage Insurance

This topic describes the systematic instructions to configure the mortgage insurance.

In this data segment, you can capture mortgage insurance details. This data segment appears based on the following conditions

- If the LMI rule is selected while configuring the product
- If the rule outcome determines the mortgage insurance need.

To add mortgage insurance details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

Figure 2-21 Mortgage Insurance

Table 2-11 Mortgage Insurance – Field Description

Field	Description
Insured Amount	Displays the mortgage amount that is insured
Insurance Provider	Displays the name of insurance provider.
Insurance Premium	Displays the premium amount of the insurance.
Insurance Provider	Specify the name of the insurance provider.
Insurance ID	Specify the identification number of the insurance policy which is taken against your mortgage.
Insurance Amount	Specify the amount that is insured.
Insurance Quote/ Premium	Specify the insurance premium.
Lender Stamp Duty	Specify the stamp duty amount which lender pays.
Lender GST	Specify the good and services tax amount which lender pays.
Total Lender Premium	Displays the total amount of premium. The system populates the value based on following formula, Total Lender Premium = Lender Stamp Duty + Lender GST.
Borrower Stamp Duty	Specify the stamp duty amount which borrower pays.
Borrower GST	Specify the good and services tax amount which borrower pays.
Borrower Premium	Displays the premium amount that borrower pays. The system populates the value based on following formula, Borrower Premium = Insurance Quote/Premium – Total Lender Premium – Borrower Stamp Duty – Borrower GST
Total Borrower Premium	Displays the total premium amount of the borrower. The system populates the value based on the following formula: Total Borrower Premium = Borrower Premium + Borrower Stamp Duty + Borrower GST

2. Enter the relevant details.
3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3.3 Loan Disbursement Details

This topic describes systematic instructions to configure loan disbursement details.

The **Loan Disbursement Details** are pushed into the host as a part of account open process data share – API's are provided for the same. The **Loan Disbursement Details** enables the user to capture the various disbursement methods.

To add loan disbursement details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

If **Account Type** is selected as **Own Internal Account** in **Loan Details** data segment.

The **Loan Disbursement Details - Own Internal Account** screen displays.

Figure 2-22 Loan Disbursement Details - Own Internal Account

The screenshot shows the 'Loan Disbursement Details' form for an 'Own Internal Account'. The form includes the following fields and options:

- Requested Loan Amount:** USD, \$1000.00
- Loan Amount:** USD, \$1000.00
- First Disbursement Date:** November 30, 2018
- Disbursement into:** Own Internal Account
- Customer Account:** (Empty field)
- Branch Code:** (Empty field)
- Payment Method:** (Radio buttons for Yes/No, currently No is selected)

The left sidebar shows a navigation menu with the following items:

- Interest and Charges

Table 2-14 Repayment Schedule – Field Description

Field	Description
S.No.	Display the serial number of the installment schedule table.
Date	Displays the installment date.
Installment	Displays the installment amount.
Principle	Displays the principle amount.
Interest	Displays the interest amount.
O/S Balance	Displays the outstanding balance amount.

2.3.5 Account Services

This topic describes systematic instructions to enables the user to capture the statement preference and the holiday preferences.

This segment will enable the user to capture the statement preference and the holiday preferences. Account services data will be pushed to the Host – APIs will be provided – to enable generation of account statements and processing of repayments based on Holiday treatment during the life cycle of the loan account.

To add account services:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Account Services** screen displays.

Figure 2-31 Account Service

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

Table 2-15 Account Services – Field Description

Field	Description
Statement Preferences	Specify the statement preferences details.
Statement Cycle	Select the statement cycle from the drop-down list. The available options are: <ul style="list-style-type: none"> • Monthly • Quarterly • Half Yearly • Yearly
Start Date	Select the statement start date.
Statement Type	Select the statement type from the drop-down list. The available options are: <ul style="list-style-type: none"> • Detailed • Summary
Holiday Preferences	Specify the holiday preferences details for Payment Schedules, Maturity Date, and Revision schedule.
Payment Schedules	Specify the payment schedules details.
Ignore Holidays	Select it to indicate if holidays will be ignored for payment schedules.
Holiday Check	Select the holiday check for payment schedule from the drop-down list to apply holidays based on the available options. The available options are: <ul style="list-style-type: none"> • Local • Currency • Both
Cascade Schedules	Select it to indicate if movement cascades to other schedules as well.
Move Forward	Select Move Forward to indicate if payment schedule date should move forward to next working day of the following month.

Table 2-15 (Cont.) Account Services – Field Description

Field	Description
Move Backward	Select Move Backward to indicate if payment schedule should move backward to the previous working day or the current scheduled month.
Move Across Month	Select it to indicate if movement across the month is allowed or not.
Maturity Date	Specify the maturity date details.
Ignore Holidays	Select it to indicate if holidays will be ignored for maturity date.
Holiday Check	Select the holiday check for payment schedule from the drop-down list to apply holidays based on the available options. The available options are: <ul style="list-style-type: none"> • Local • Currency • Both
Cascade Schedules	Select it to indicate if movement cascades to other schedules as well.
Move Forward	Select Move Forward to indicate if maturity date should move forward to next working day of the following month.
Move Backward	Select Move Backward to indicate if maturity date should move backward to the previous working day or the current scheduled month.
Move Across Month	Select it to indicate if movement of maturity date across the month is allowed or not.
Revision Schedules	Specify the Revision schedule details.
Ignore Holidays	Select it to indicate if holidays will be ignored for revision schedule.
Holiday Check	Select the holiday check for revision schedule from the drop-down list to apply holidays based on the available options. The available options are: <ul style="list-style-type: none"> • Local • Currency • Both
Cascade Schedules	Select it to indicate if movement cascades to other schedules as well.
Move Forward	Select Move Forward to indicate if payment schedule date should move forward to next working day of the following month.
Move Backward	Select Move Backward to indicate if payment schedule should move backward to the previous working day or the current scheduled month.
Move Across Month	Select it to indicate if movement of revision schedule across the month is allowed or not.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.3.6 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the Loan Application Enrichment Process.

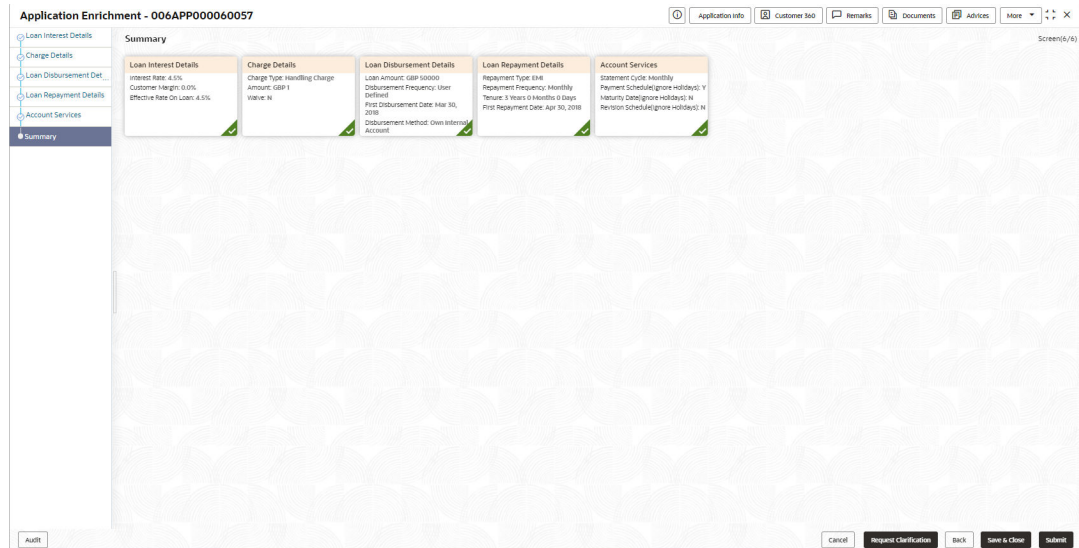

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary of all the data segments:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-32 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on data segments, refer to the field description table below

Table 2-16 Summary Application Enrichment – Field Description

Data Segment	Description
Loan Interest Details	Displays the loan details.
Loan Disbursement Details	Displays the asset details.
Loan Repayment Details	Displays the mandate details.
Charge Details	Displays the collateral summary details.
Account Service	Displays the account services details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.

- Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Enrichment** stage for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Loan Underwriting Stage**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Loan Application Underwriting stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If the **Collateral Type** is selected as **Term Deposit** in **Collateral Details** data segment, then submit of the Loan Application Enrichment stage, will move the application into the Account Parameter Setup stage.

If the selected **Collateral Type** is other than **Deposits** in **Collateral Details** data segment, then submit of the **Loan Application Enrichment** stage, will move the application into the **Loan Underwriting** stage.

2.4 Application Documents

This topic describes the process of the documents that are uploaded related to application.

The Application Documents stage provides the view of the outbound documents that are generated and dispatched to the applicants involved in the application.

To generate and dispatch the outbound documents:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Application Documents stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Document Generation](#)
In this data segment you can generate and dispatch the documents that are configured.
- [Document Acceptance](#)
In this data segment you can capture the acceptance of the documents that are already generated and dispatched.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.4.1 Document Generation

In this data segment you can generate and dispatch the documents that are configured.

In the Document Generation data segment, the list of documents that are maintained within the document generation event and fulfills the rule criteria are pre-populated in the tabular format. This document generation events are defined in the **Advice Maintenance** screen. Each documents appears separately to generate and dispatch.

To generate and dispatch the document:

1. On acquiring the **Application Document** task, the **Document Generation** stage is displayed.

Figure 2-33 Document Generation

2. In the **Document Generation** section, select the check box to select the document from the list. It is mandatory to select atleast one document

You can perform below actions on the seletced document:

- **Generate:** You can click this button to generate the selected document. On clicking this button the system invokes a call to the report generation service which generates a PDF output for the advice onfigured in the Advice Maintenance screen. Once the output is generated the documents are stored in the document managed service (DMS) along with the reference ID. This reference ID fetches the document on click the Generate Document link in the Documen column.
- **Dispatch:** You can click this button to dispatch the selected generated documents. You can only dispatch those documents which are not already disptached. On clicking this button the system validates whether the document is already generated. Once the validation is successful the system dispatch the document to the default setting defined in the Advice Maintenance screen.
- **Reset:** You can click this button to reset the action performed on the document.

For more information on fields, refer to the field description table.

Table 2-17 Document Generation – Field Description

Field	Description
Document Name	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. This link appears only if the document is generated.
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
Delivery Mode	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen. The available options are: <ul style="list-style-type: none"> • Email • Post • Print • e-Sign Remote • e-Sign In-Person
Delivery Details	Displays the delivery details of the generated documents based on the default delivery mode. <ul style="list-style-type: none"> • If the delivery mode is Email or e-Sign Remote then the preferred email address of every recipient is displayed. • If the delivery mode is Post then the preferred address of every recipient is displayed. • If the delivery mode is e-Sign In-Person then the link is shared with every recipients and in this case the status appears as Pending For Link Generation. Once the dispatch event is executed successfully, the status appears as Link Generated. • If the delivery mode is Print then the Not Applicable text appears.
Status	Displays the status of the documents based on the actions performed on clicking Generate or Dispatch button. Once the dispatch process is initiated for the generated documents, the status appears based on the selected default mode of delivery. <ul style="list-style-type: none"> • If the mode of delivery is Email then on the successful trigger the status appears as Email Sent. • If the mode of delivery is E-Sign Remote or E-Sign In-Person then on the successful trigger the status appears as E-Signing Initiated. • If the mode of delivery is Post then on the successful trigger the status appears as Dispatched. • If the mode of delivery is Print then on the successful trigger the status appears as Ready for Print. • In case the dispatch process fails due to technical error then the status appears as Failed.
Status Details	Displays the status details of the document. Click the icon to view the generation and dispatched details of document along with the date and time.
Action	Select the appropriate icon to perform respective action. <ul style="list-style-type: none"> • Click  to edit the delivery mode. • Click  to save the edited delivery mode. This icon appears once you are edit mode.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.4.2 Document Acceptance

In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

The Document Acceptance data segment populates the list of documents that appeared in the **Document Generation** data segment and are mark as **Yes** in the **Acceptance** field in the **Advice Maintenance** screen.

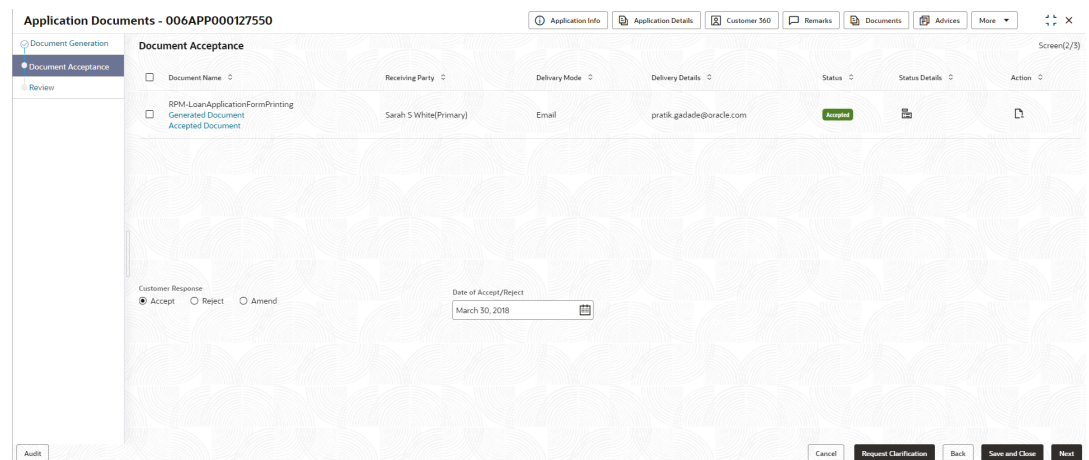

If the document is marked as No in the Acceptance field in the Advice Maintenance screen then the e-sign acceptance process in not required for that document and hence it will not appear in this data segment.

To accept the document:

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Document Acceptance** screen appears.

Figure 2-34 Document Acceptance

2. In the **Document Acceptance** section, select the check box to select the document from the list and perform appropriate actions.

For more information on fields, refer to the field description table.

Table 2-18 Document Acceptance – Field Description

Field	Description
Document Name	<p>Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document.</p> <ul style="list-style-type: none"> • Generated Document: This link appears only if the document is generated atleast onces. • Accepted Document: This link appears only if the E-Signed document is uploaded.

Table 2-18 (Cont.) Document Acceptance – Field Description

Field	Description
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
Delivery Mode	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen. The available options are: <ul style="list-style-type: none"> • Email • Post • Print • e-Sign Remote • e-Sign In-Person
Delivery Details	Displays the delivery details of the generated documents based on the default delivery mode. <ul style="list-style-type: none"> • If the delivery mode is Email or e-Sign Remote then the preferred email address of every recipient is displayed. • If the delivery mode is Post then the preferred address of every recipient is displayed. • If the delivery mode is e-Sign In-Person then the link is shared with every recipients and in this case the status appears as Pending For Link Generation. Once the dispatch event is executed successfully, the status appears as Link Generated. • If the delivery mode is Print then the Not Applicable text appears.
Status	Displays the status of the documents based on the actions performed on the document.
Status Details	Displays the status details of the document. Click the icon to view the generation, dispatched and acceptance details of document along with the date and time.
Action	Select the appropriate icon to perform respective action. <ul style="list-style-type: none"> • View: You can view the documents only if the Delivery Mode is defined as E-Sign Remote or E-Sign In-Person. • Upload Document: You can upload documents only if the Delivery Mode is defined as Email, Print or Post. • Delete: You can upload documents only if the Delivery Mode is defined as Email, Print or Post.
Customer Response	Select the customer response for the documents. The available options are: <ul style="list-style-type: none"> • Accept: Select to accept the application documents. You can select this option only if the acceptance status of all the document is Accepted. • Reject: Select to reject the application documents. If the acceptance status of any one of the document is declined then this option appears auto-selected. • Amend: Select to amend the application document status.
Date of Response	Select the date on which the customer response is captured. This date should be greater or equal to current date.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.4.3 Summary

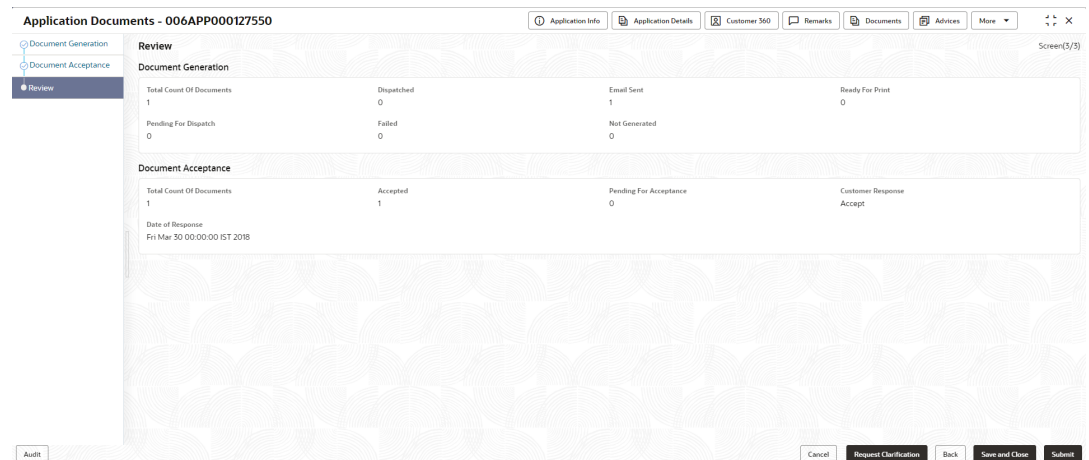

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system displays the summary of each data segments in tiles.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Application Document** screen displays.

Figure 2-35 Summary - Application Documents

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-19 Summary - Application Documents – Field Description

Data Segment	Description
Document Generation	Displays the document generation.
Documents Acceptance	Displays the document acceptance.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Accept Overrides & Proceed**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Save & Proceed**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
6. Click **Submit** to submit the Account Approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

2.5 Loan Underwriting

This topic describes the systematic instructions to move the loan application to underwriting stage.

The underwriting process of the lender bank is set to determine if a borrower's loan application is an acceptable risk. It is a process to assess the borrower's ability to repay the Loan based on an analysis of their credit, financial capacity, and collateral provided by the borrower. The **Loan Underwriting** stage is the next representative stage in the Retail Loan Account Open process. After the **Loan Application Enrichment** stage is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture.

To add underwriting details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Underwriting** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Credit Rating Details](#)
This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.
- [Valuation Details](#)
This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.
- [Legal Opinion](#)
This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.5.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

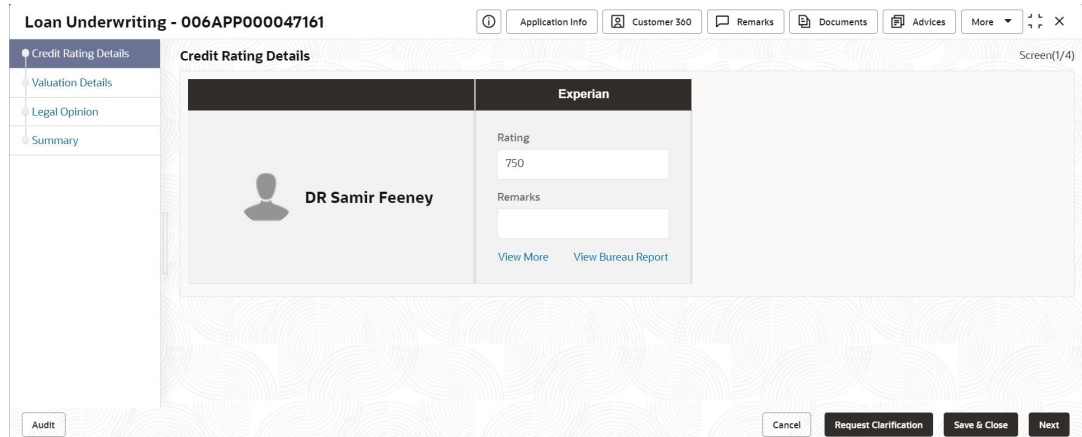

Credit Rating Details is the first data segment of **Loan Underwriting** stage. The user can acquire the application from Free Tasks list. This data segment will provide the information on the External Rating Agencies Rating / Scores for the Loan Applicant. If the applicants are more than one, accordingly the information against each applicant / borrower will be provided. The interface with external rating agencies will be provided.

Oracle Banking Origination is now integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s). The Bank will have an option to use this integration service or use the manual process of entering the Bureau score in the Credit Rating DS.

To view the credit rating details of loan:

1. On acquiring the **Underwriting** task, the **Credit Rating Details** data segment appears.

Figure 2-36 Credit Rating Details

- Specify the details in the relevant data fields. For more information on fields, refer to the field description table below

Table 2-20 Credit Rating Details – Field Description

Field	Description
<Customer Name along with image>	Displays the customer name along with image.
Agency Name	Displays the configured agency.
Ratings	Displays the ratings. The system populates the credit rating score from the Bureau Integration Service.
Remarks	Specify the remarks.

- Click **View More** to view the additional Credit Bureau details.
The **Additional Credit Bureau Details** screen is displayed.

Figure 2-37 Additional Credit Bureau Details

Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
FIRST FEDERAL SAVINGS	0019888010777	Loan	100000	86820	2020-01-07	2162	NIL	NIL
HSBC/CARSN	001901000999	Overdraft	22000	0	2019-06-07	0	NIL	NIL

- For more information on fields, refer to the field description table below.

Table 2-21 Additional Credit Bureau Details – Field Description

Field	Description
Institution Name	Displays the institution name.
Account Number	Displays the account number of the applicant.
Account Type	Displays the account type.
Loan Amount	Displays the overdraft amount.
Outstanding Balance	Displays the outstanding balance.
Account Opening Date	Displays the account opening date.
Installment Amount	Displays the installment amount.
Delinquency Bucket	Displays the delinquency bucket.
Delinquency Amount	Displays the delinquency amount.

 **Note:**

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

5. Click **View Bureau Report** to view and download the bureau report from the external agency.
6. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.5.2 Valuation Details

This topic provides the systematic instructions to capture the information on the asset valuation done by the bank approved valuator.

Valuation Details is the next data segment of Loan Underwriting stage. This segment enables the user to capture the information on the asset valuation done by the bank approved valuator.

To capture the valuation details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Valuation Details** screen displays.

Figure 2-38 Valuation Details

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the valuation details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the valuation details manually in this data segment.

Table 2-22 Valuation Details – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral Type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owners name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Hair Cut %	Displays the Hair cut percentage.
Collateral Amount	Displays the collateral amount.
Valuation Type	Select the type of valuation. Available options are <ul style="list-style-type: none"> • External • Internal
Valuation Amount	Specify the valuation amount of the collateral.
Agency Code	Specify the agency code.
Agency Name	Specify the name of agency.
Valuation Date	Select the valuation date. Date should not be earlier than the Loan Application Date .
Add Valuation	Click Add Valuation to add valuation details. Add the valuation details if you want to evaluate the collateral.

 **Note:**

All the fields will be fetched from Oracle Banking Credit Facilities Process Management in read only mode if integrated with Oracle Banking Credit Facilities Process Management.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.5.3 Legal Opinion

This topic provides the systematic instructions to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

Legal Opinion is the next data segment of **Loan Underwriting** stage. This segment allows the user to capture the legal opinion provided by the bank approved lawyer and decision provided thereon.

To add legal opinion:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Legal Opinion** screen displays.

Figure 2-39 Legal Opinion

The screenshot shows the 'Legal Opinion' form within the Oracle Banking Credit Facilities Process Management system. The form is titled 'Legal Opinion' and is part of a larger application window. The top navigation bar includes 'Application Info', 'Customer 360', 'Remarks', 'Documents', 'Advices', and a 'More' dropdown menu. The left sidebar shows a navigation menu with 'Credit Rating Details', 'Legal Opinion' (selected), 'Valuation Details', and 'Summary'. The main form area displays the following details:

Collateral Description	Collateral Type	Category	Collateral Value	Owners
test collateral	Property	Residential Property	GBP 20000	DR Samir Feeney

Collateral ID	Collateral Description	Liability ID	Liability Description
OPLOC0L000006324	test collateral	006023875	Liability for Samir Feeney

Opinion Type	Agency Code	Agency Name	Legal Remarks
Internal	INDUS12	Tata	approved
Opinion Date	March 30, 2018		

At the bottom of the form, there is an '- Add Opinion' button. The bottom navigation bar includes 'Audit', 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next' buttons.

2. Specify the details in the relevant data fields. For more information on fields, refer to the field description table below.

If Oracle Banking Origination is integrated with Oracle Banking Credit Facilities Process Management, the Legal Opinion details will be fetched from integration service and the values will be displayed in the respective fields as read only data. In the absence of Oracle Banking Credit Facilities Process Management integration, the user has to capture the Legal Opinion details manually in this data segment.

Table 2-23 Legal Opinion – Field Description

Field	Description
Collateral Description	Displays the collateral description which is added.
Collateral type	Displays the collateral type which is added.
Category	Displays the category of the collateral which is added.
Collateral Value	Displays the value of the collateral which is added.
Owners	Displays the owners name of the collateral.
Collateral ID	Displays the Collateral ID.
Collateral Description	Displays the description of the collateral.
Liability ID	Displays the Liability ID
Liability Description	Displays the Liability description.
Opinion Type	Select the opinion type. Available options are: <ul style="list-style-type: none"> • External • Internal
Agency Code	Specify the agency code.
Agency Name	Specify the agency name.
Legal Remarks	Specify the legal remarks.
Opinion Date	Select the opinion date. Date should not be earlier than the Collateral Valuation Date .
Add Opinion	Click Add Opinion to add the legal opinion received from multiple agencies (both internal and external).

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

2.5.4 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-40 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-24 Summary - Loan Underwriting – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The Overrides screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.
OR
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Loan Underwriting Stage** for the loan application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Loan Assessment Stage**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.

- Select the **Return to Application Enrichment** to return to application enrichment stage. The system generates the Application Enrichment task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.
- OR
- Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Loan Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.6 Loan Assessment Stage

This topic describes the systematic instructions to move the loan application to assessment stage.

After the application entry, enrichment and underwriting data segment details are captured and verified, Oracle Banking Origination receives the assessment details from Decision Service. Consequent to the Decision Service integration, the **Assessment Details** data segment screen displays the System recommended decision, Total Weighted score, Grade, recommended Pricing (based on the approval recommendation) for the Loan application, which is fetched real-time from Decision Service. Also, the detailed weightage score on the respective facts along with the Scoring model matrix is made available applicant wise for scrutiny and further action by the credit officer.

To assess the loan application:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Loan Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Qualitative Scorecard](#)
This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.
- [Assessment Details](#)
This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Loan Account with Overdraft.
- [Summary](#)
This topic provides the systematic instructions to view the tiles for all the data segments in the Loan Assessment stage.

2.6.1 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card.

Qualitative Scorecard Details is the first data segment of Loan Assessment stage. The user can acquire the application from Free Tasks list.

The Qualitative score card screen enables the user to capture the relevant evaluation details Applicant wise (if more than one applicant) and the scores are automatically displayed based on the Question / Answer configuration provided for this type of score card. The relevant qualitative score card ID is attached to the Loan Business Product and thereby the Loan Account which uses this Business product inherits the score card attributes for evaluation.

To capture the qualitative scorecard details:

1. On acquiring the **Loan Assessment** task from the **Free Task**, the Qualitative Scorecard screen appears.

Figure 2-41 Qualitative Scorecard

2. Specify the fields on **Qualitative Scorecard** screen.
For more information on fields, refer to the field description table.

Table 2-25 Qualitative Scorecard – Field Description

Field	Description
Applicant Name	Displays the name of the applicant.
Questionnaire Code	Displays the Questionnaire code.
Questionnaire Description	Displays the description of the Questionnaire code.
Question	Displays the question configured for the Questionnaire code.
Answer	Select the answer from the drop-down values available. The answers are populated based on the Answers configured in the Questionnaire code.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are

not provided, the system displays an error message for the user to take an action. The user cannot proceed to the next data segment, without capturing the mandatory data.

2.6.2 Assessment Details

This topic provides the systematic instructions to view the total weightage score of the Applicant or Applicants, in case of multiple Applicants in the Loan Account with Overdraft.

Assessment Details is the next data segment of Loan Assessment stage. The user can acquire the application from FREE TASK. **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- **Validation Model**
- **Borrowing Capacity**
- **Qualitative Score**
- **Quantitative Score**
- **Decision and Grade**
- **Pricing**

To view assessment details:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Assessment Details – Validation Model** screen displays.

2. Click **Borrowing Capacity** tab under **Assessment Details** screen to view the borrowing capacity of the applicant.

The **Assessment Details – Borrowing Capacity** screen displays.

Figure 2-43 Assessment Details – Borrowing Capacity

3. Click **Qualitative Score** tab under **Assessment Details** screen to view the qualitative score for the applicant.

The **Assessment Details – Qualitative Score – Graph View** screen displays.

Figure 2-44 Assessment Details – Qualitative Score – Graph View

4. Click **Data View** tab under **Qualitative Score** screen to view the qualitative scoring data of the applicant.

The **Assessment Details – Qualitative Score – Data View** screen displays.

Figure 2-45 Assessment Details – Qualitative Score – Data View

The screenshot shows the 'Assessment Details' screen for application 006APP00004714. The 'Qualitative Score' tab is active, displaying a 'Data View' of scoring details. The interface includes a top navigation bar with 'Application Info', 'Customer 360', 'Remarks', 'Documents', and 'Advices'. A left sidebar shows 'Qualitative Scorecard', 'Assessment Details', and 'Summary'. The main content area is divided into several sections:

- Requested Amount:** GBP, 109,182.00
- Tenure:** 2 Years 0 Months 0 Days
- Rate of Interest:** 4.50
- Variance:** 0
- Total Weighted Score:** 85
- Approved Amount:** ----
- Proposed Variance:** 0.22
- Effective Rate:** 4.72
- System Recommendation:** ManualQueueA
- Grade:** B
- APR:** ----

Below these are summary metrics: Validation Model (PASS), Borrowing Capacity (616059910.00), Qualitative Score (66), Quantitative Score (85.75), Decision & Grade (ManualQueueA, Grade: B), and Pricing (0.22%). The Scoring Model Code is QSELVLP, with a description 'Qualitative Scoring model for Automation' and a Weightage Score of 66. An 'Applicants' section lists 'query query' with a score of 66. A table titled 'Scoring Details' provides the following data:

Question Code	Question	Value	Score
Q3	How many members are dependent on the applicant?	1	50
Q5	Is the applicant undergoing any medical treatment?	Regular dialysis	60
Q4	How long applicant staying in the current residence?	More than 5 years	70
Q1	How many years in the current employment?	Less than 1 year	50
Q2	What is the current residence type?	Own house	100

Note:

For multi borrower applications, the user can view the Qualitative details of individual borrowers by clicking on each borrower's name.

- Click **Quantitative Score** tab under **Assessment Details** screen to view the quantitative score for the application.

The **Assessment Details – Quantitative Score – Graph View** screen displays.

Figure 2-46 Assessment Details – Quantitative Score – Graph View

The screenshot shows the 'Assessment Details' screen for application 006APP00004714, now in 'Graph View' under the 'Quantitative Score' tab. The interface is similar to Figure 2-45 but displays a bar chart for the 'Scoring Details'. The 'Applicants' section shows 'query query' with a score of 85.75. The bar chart shows the following data:

Feature	Weightage Score	Category
SCORE	66	Medium
QSCORE	66	Medium
APR	----	Low
Q1	50	High

- Click **Data View** tab under **Quantitative Score** screen to view the quantitative scoring data of the applicant.

The **Assessment Details – Quantitative Score – Data View** screen displays.

Figure 2-47 Assessment Details – Quantitative Score – Data View

The screenshot displays the 'Assessment Details' screen for a loan application. The 'Data View' tab is selected under the 'Quantitative Score' section. The interface includes a navigation sidebar, a top toolbar, and a main content area with several data cards and a table.

Feature	Value	Range Type	Range	Weightage %	Score	Weightage Score
Credit Bureau Score	750	Value	750-850	35	80	28
Qualitative Score	66.00	Value	50-80	35	85	2975
Customer Age	33.88	Value	18-35	10	80	8
Debt to Income Ratio	0.0	Value	0-50	20	100	20

Note:

For multi borrower applications, the user can view the Quantitative details of individual borrowers by clicking on each borrower's name.

- Click **Decision & Grade** tab under **Assessment Details** screen to view the decision and grade for the application.

The **Assessment Details – Decision and Grade** screen displays.

Figure 2-48 Assessment Details – Decision & Grade

The screenshot displays the 'Assessment Details' screen for a loan application, with the 'Decision & Grade' tab selected. The interface includes a navigation sidebar, a top toolbar, and a main content area with data cards and a decision matrix table.

Decision	Quantitative Score	Quantitative Score Range	Decision
Insider Limit Breached	85.75	60-90	ManualQueueA

- Click **Pricing** tab under **Assessment Details** screen to view the pricing for the application. The **Assessment Details – Pricing** screen displays.

Figure 2-49 Assessment Details – Pricing

For more information on fields, refer to the field description table.

Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Decision	Displays the decision configured for the quantitative score.
Decision and Grade – Grade	Displays the field details related to Grade.
Quantitative Score	Displays the overall quantitative score of the application.
Quantitative Score Range	Displays the range for the quantitative score.
Grade	Displays the grade configured for the quantitative score.
Pricing	Displays the field details related to Pricing.
Pricing Model Code	Displays the pricing model code configured for the product.
Model Description	Displays the description of the pricing model code.
Rate Type	Displays the rate type.
Rate Percentage	Displays the rate percentage.
Loan Amount	Displays the loan amount.
Loan Tenure	Displays the loan tenure.
Loan Amount Range	Displays the range for the loan amount.
Loan Tenure Range	Displays the range for the loan tenure.
Rate %	Displays the rate of interest configured for the range.

 **Note:**

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The user cannot proceed to the next data segment, without capturing the mandatory data.

2.6.3 Summary

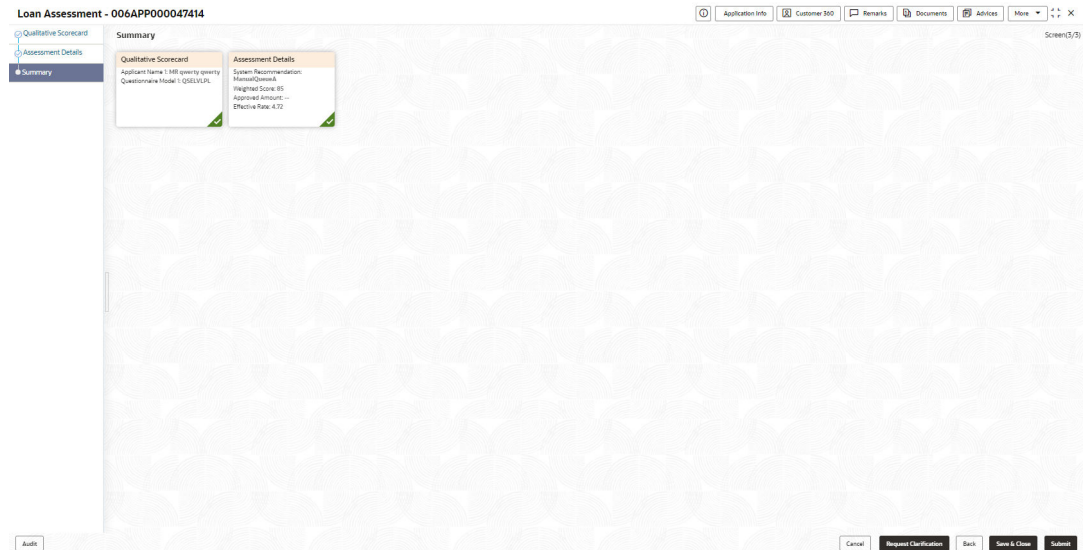

This topic provides the systematic instructions to view the tiles for all the data segments in the Loan Assessment stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-50 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-27 Summary - Assessment – Field Description

Data Segment	Description
Qualitative Scorecard Details	Displays the qualitative scorecard details.
Assessment Details	Displays the assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.
OR
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The Outcome screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. If the Proceed option is selected, then the application proceeds based on the assessment decision.

- It will logically complete the **Loan Assessment** stage for the loan application if the system recommendation is **Approved**. The Workflow Orchestrator will automatically move this application to the **Account Parameter Setup** stage.
 - If the system recommendation is **Manual** then, the Manual Credit Assessment stage is generated for this loan application.
 - If the system recommendation is **Rejected** then the application is terminated. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
- Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Loan Assessment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Assessment stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.7 Manual Credit Assessment

This topic describes the systematic instructions to move the loan application to manual credit assessment stage.

The Manual Credit Assessment stage of the retail loan account open process work-flow is enabled the bank to manually assess the application and provide the recommendation for the approval / rejection of the application. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from the Application Entry Stage, Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the Credit Officer to analyze.

To capture manual credit assessment details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Credit Assessment** stage is displayed

The Manual Credit Assessment stage has the following data segments in which the user can only view the data:

- **Loan Details** - For detailed information, refer the Loan Details data segment in the Application Entry stage.

- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Assessment](#)
This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the loan application.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.7.1 Manual Assessment

This topic provides the systematic instructions to modify the account details and recommend for the approval / reject the loan application.

Manual Assessment is the data segment which enables the bank user to modify the loan details and recommend for the approval / reject the loan application. The user can acquire the application from Free Tasks list and assess all the View Only data segments.

To capture manual assessment:

1. On acquiring the **Manual Credit Assessment** task from the Free Task, the Manual Assessment appears.

Figure 2-51 Manual Credit Assessment

- Specify the fields on **Manual Assessment** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of **Validation Model, Borrowing Capacity, Qualitative Score, Quantitative Score, Decision & Grade, and Pricing** tabs.

Table 2-28 Manual Assessment – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the overdraft tenure.
Base Rate	Displays the interest rate without including margin/variance.
Rate of Interest	Displays the rate of interest. Click  to view the rate type.
Margin	Displays the customer margin in percentage. This field displays if the Rate Type is selected as Floating .
Variance	Displays the variance in percentage. This field displays if the Rate Type is selected as Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount. This field will be blank for Manual Assessment.
Proposed Margin (In %)	Displays the margin proposed by Decision service in percentage. This field displays if the Rate Type is selected as Floating .
Proposed Variance	Displays the variance proposed by Decision service in percentage. This field displays if the Rate Type is selected as Fixed .
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Specify the recommended overdraft amount.
Final Tenure	Specify the final overdraft tenure.
Recommendation	Select the recommendations. Available options are: <ul style="list-style-type: none"> Recommended for Approval Reject
Comments	Specify the comment for the recommendation.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.7.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

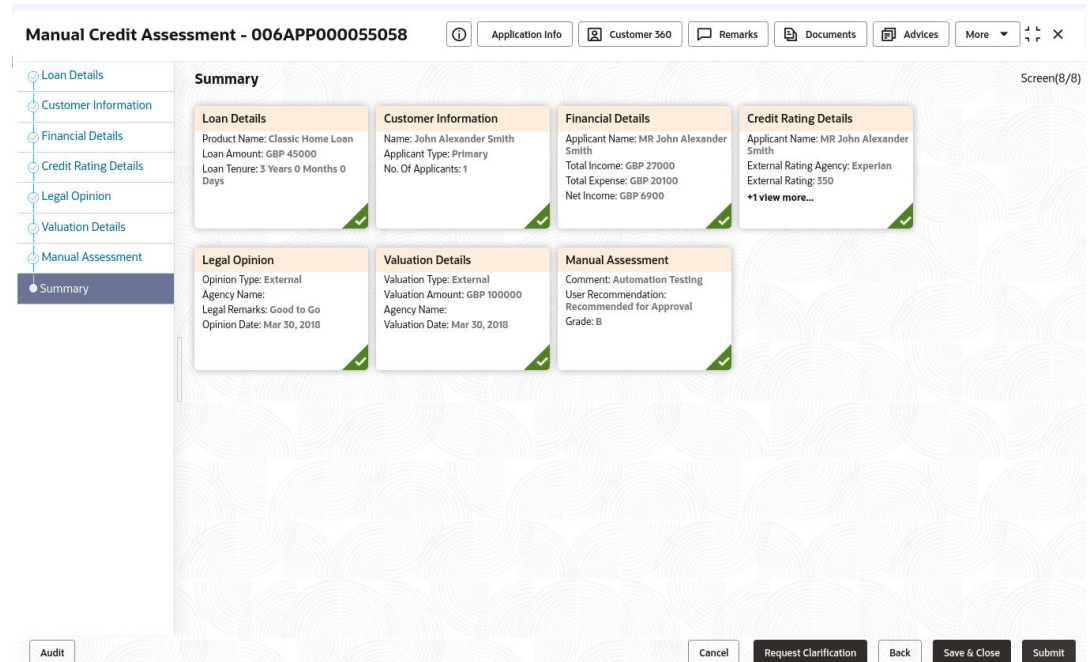

The system displays the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary details:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Manual Credit Assessment** screen displays.

Figure 2-52 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-29 Summary - Manual Credit Assessment – Field Description

Data Segment	Description
Customer Information	Displays the customer information.
Loan Details	Displays the loan details.
Financial Details	Displays the financial details.
Credit Rating Details	Displays the credit rating details.
Valuation Details	Displays the valuation details.
Legal Opinion	Displays the legal opinion.
Assessment Details	Displays the assessment details.
Manual Assessment Details	Displays the manual assessment details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.

4. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
5. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Assessment** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Manual Credit Decision** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle** and **Business Product Code**.

6. Click **Submit** to submit the Manual Credit Assessment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Manual Credit Decision stage. This application will be available in the **FREE TASKS** list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.8 Manual Credit Decision

This topic describes the systematic instructions to move the loan application to manual credit decision stage.

The **Manual Credit Decision** stage of the retail loan account open process work-flow enables the bank to make the decision on whether the recommended loan amount can be approved to the loan applicant / borrower.

To capture manual credit decision details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the Action column of the appropriate record. The Manual Credit Decision stage is displayed.

The Manual Credit Decision stage has the following data segments in which the user can only view the data:

- **Loan Details** - For detailed information, refer the Loan Details data segment in the Application Entry stage.
- **Customer Information** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Financial Details:** - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Credit Rating Details:** - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.
- **Manual Assessment** – For details information, refer the Assessment Details data segment in the Manual Credit Assessment stage.

Refer below chapters for detailed information on data segment that are editable.

- [Manual Decision](#)
This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.8.1 Manual Decision

This topic provides the systematic instructions to review and approve the application manually in manual credit decision stage.

Manual Decision is the first data segment of Manual Credit Decision stage. The user can acquire the application from Free Tasks list.

To capture manual decision:

1. On acquiring the Manual Credit Decision task from the Free Task, the Manual Decision appears.

Figure 2-53 Manual Decision

2. Specify the fields on **Manual Decision** screen.

For more information on fields, refer to the field description table. Refer to **Assessment Details** screen for the detailed explanation of **Validation Model**, **Borrowing Capacity**, **Qualitative Score**, **Quantitative Score**, **Decision & Grade**, and **Pricing** tabs.

Variance	Displays the variance in percentage.  Note: This field displays if the Rate Type is selected as Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the approved overdraft amount. This field appears blank by default. If the user selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Proposed Margin	Displays the margin proposed by Decision service in percentage.  Note: This field displays if the Rate Type is selected as Floating .
Proposed Variance	Displays the variance proposed by Decision service in percentage.  Note: This field displays if the Rate Type is selected as Fixed .
Effective Rate	Displays the effective rate of interest.
Recommended Amount	Displays the recommended overdraft amount.
Final Tenure	Displays the final overdraft tenure.

Table 2-30 (Cont.) Manual Decision – Field Description

Field	Description
Manual Recommendation	Displays the manual recommendation.
Comments	Displays the comments for the manual recommendation.
System Recommendation	Displays the system recommendations.
Recommendation	Select the recommendation. Available options are: <ul style="list-style-type: none"> • Approve • Decline If the user selects the recommendation as Approve , then the recommended amount gets defaulted as approved amount.
Action	Displays the user action based on user recommendation.
Comments	Specify the comment on the user action.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.8.2 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-54 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-31 Summary - Manual Credit Decision – Field Description

Field	Description
Manual Decision	Displays the manual decision.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen appears.
4. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.

6. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Manual Credit Decision** stage for the Loan Application. Upon submit, a Pricing call will be made by Oracle Banking Origination to Decision Service to get the Interest rate. The Workflow Orchestrator will automatically move this application to the next processing stage, **Account Parameter Setup** stage.

The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle and Business Product Code**.

7. Click **Submit** to submit the Manual Credit Decision stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Account Parameter Setup stage. This application will be available in the **FREE TASKS** list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.9 Account Parameter Setup

This topic describes the systematic instructions to move the loan application to account parameter setup stage.

The **Account Parameter Setup** stage is the next representative stage in the Retail Loan Account Open process. After the **Loan Assessment / Manual Credit Decision** is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture. The user can acquire the application from **Free Tasks** list.

The **Account Parameter Setup** stage has the following reference data segments:

- **Assessment Details** - For detailed information, refer the Manual Assessment data segment in the Manual Credit Assessment stage.
- **Loan Interest Details** - For detailed information, refer the Loan Interest Details data segment in the Application Enrichment stage.
- **Mortgage Insurance** – For detailed information, refer the Mortgage Insurance data segment in the Application Enrichment stage.
- **Charge Details** - For detailed information, refer the Charge Details data segment in the Application Enrichment stage.
- **Loan Disbursement** - For detailed information, refer the Loan Disbursement data segment in the Application Enrichment stage.
- **Loan Repayment** - For detailed information, refer the Loan Repayment data segment in the Application Enrichment stage.
- **Account Services** - For detailed information, refer the Account Services data segment in the Application Enrichment stage.

All the data segments are carried forward from **Application Enrichment**. If the details are captured in **Application Enrichment**, the same will be fetched automatically. The user can modify the captured details and all the data segments are mandatory to capture the details to move the application to the next stage.

If there is any change in the price (interest), the application will be redirected to the **Supervisor Approval**, otherwise submitting this step will move the application to the next reference stage which is the **Offer Issue**.

 **Note:**

Please refer to the **Application Enrichment Stage** for the detailed explanation.

- **Summary**
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.9.1 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

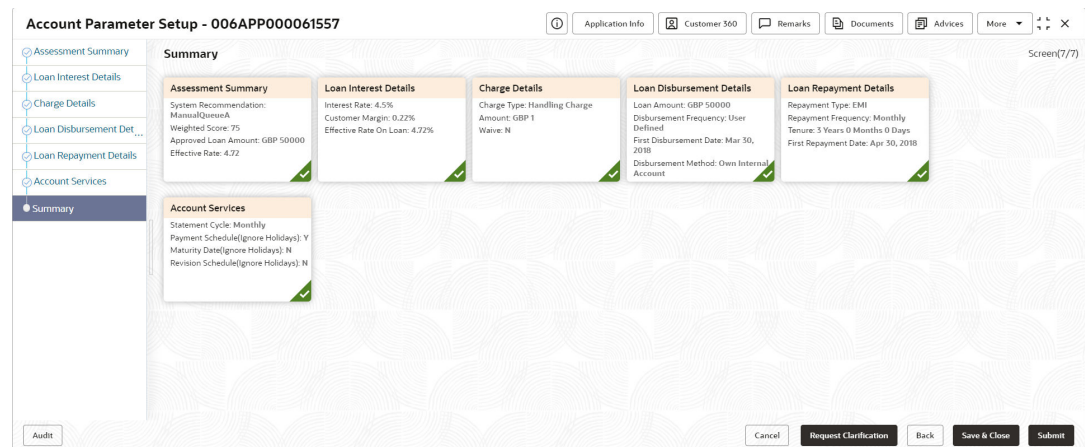

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-55 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-32 Summary - Account Parameter Setup - Field Description

Data Segment	Description
Assessment Details	Displays the assessment details.

Table 2-32 (Cont.) Summary - Account Parameter Setup - Field Description

Data Segment	Description
Loan Interest Details	Displays the loan interest details.
Mortgage Insurance	Displays the mortgage insurance details.
Charge Details	Displays the charge details.
Loan Disbursement Details	Displays the loan disbursement details.
Loan Repayment Details	Displays the loan repayment details
Account Services Details	Displays the account services details.

 **Note:**

Charges Data segment and Mortgage Insurance premium data segment is available in edit mode to amend or change the capitalization amounts which need to be considered as part of the Approved Loan amount even in this stage. Accordingly, it impacts the Approved Loan Amount. The inclusion or exclusion of such capitalization amounts is validated to ensure that the Approved Loan Amount is not breached.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. Click **Accept Overrides & Proceed**. The **Checklist** screen appears.
4. Click **Save & Proceed** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Outcome** field.
6. Select **Proceed** outcome from the drop-down list.

It will logically complete the **Account Parameter Setup** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Supervisor Approval / Offer Issue** stage.

The application will be directly moved to Offer Issue stage if there is no change in Loan Interest data segment.

The application will be moved to Supervisor Approval stage if there is any change in Price (Interest) in Loan Interest data segment.

The stage movement is driven by the business configuration for a given combination of **Process Code, Life Cycle** and **Business Product Code**.

7. Click **Submit** to submit the Account Parameter Setup stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number
8. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Supervisor Approval / Offer Issue stage. This application is available in the **FREE TASK** list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.10 Supervisor Application Approval Stage

This topic describes the information on the various data segments to view and approve the price change in the Supervisor Application Approval stage.

The **Supervisor Application Approval** stage has the following data segments in which the user can only view the data:

- **Assessment Details** - For detailed information, refer the Manual Assessment data segment in the Manual Credit Assessment stage.
- **Approval Details**
This topic provides the systematic instructions to view and approve the application.
- **Summary - Supervisor Approval**
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.10.1 Approval Details

This topic provides the systematic instructions to view and approve the application.

The **Approval Details** is the first data segment of **Supervisor Approval** stage. The user can acquire the application from **Free Tasks** list.

1. On acquiring the **Supervisor Approval** stage the **Approval Details** data segment appears
The **Approval Details** screen displays.

Figure 2-56 Approval Details

The screenshot displays the 'Approval Details' screen for an account approval. The title bar shows 'Account Approval - 006APP000063437'. The main content area is divided into several sections:

- Applicant Name:** AutoFNN AutoMNN AutoLNN
- Account Type:** Loan Account
- Account Branch:** 006
- Product Code:** INSACT
- Product Name:** Small Personal Loan (with a green checkmark)
- Host Product Code:** RPMSA
- Host Product Description:** RPMSA (with a green checkmark)
- User Recommendation:** A section with a circular arrow icon and a dropdown menu.
- User Action:** A section with a dropdown menu containing 'Approved' and 'Rejected' options.

At the bottom of the screen, there are buttons for 'Audit', 'Cancel', 'Request Clarification', 'Save & Close', and 'Next'.

2. Specify the fields on **Approval Details** screen.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-33 Approval Details – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Account Type	Displays the account type.
Account Branch	Displays the account branch name.
Product Code	Displays the product code selected for this loan account.
Product Name	Displays the product name selected or this loan account.
Existing Values	Displays the existing values.
Approved Loan Amount	Displays the final loan approved amount.
Loan Tenure	Displays the final loan tenure for the approved amount.
Installment Type	Displays the installment type.
Rate of Interest	Displays the rate of interest for the approved loan amount.
Margin	<p>Displays the margin proposed by Decision Service.</p> <div style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px; margin-top: 10px;"> <p> Note: This field displays if the Rate Type is selected as Floating.</p> </div>
Variance	<p>Displays the variance proposed by Decision Service.</p> <div style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px; margin-top: 10px;"> <p> Note: This field displays if the Rate Type is selected as Fixed.</p> </div>
Effective Rate	Displays the calculated effective rate.
Revised Values	<p>Displays the revised values against the existing values.</p> <div style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px; margin-top: 10px;"> <p> Note: If there is no change in the existing values, the revised values will not be displayed.</p> </div>
Approved Loan Amount	Displays the final loan approved amount.
Loan Tenure	Displays the final loan tenure for the approved amount.
Installment Type	Displays the installment type.
Rate of Interest	Displays the rate of interest for the approved loan amount.
Margin	<p>Displays the modified margin.</p> <div style="border: 1px solid #ccc; background-color: #e6f2ff; padding: 10px; margin-top: 10px;"> <p> Note: This field displays if the Rate Type is selected as Floating.</p> </div>

Table 2-33 (Cont.) Approval Details – Field Description

Field	Description
Variance	Displays the modified variance. <div style="border-left: 2px solid #0070C0; padding-left: 10px; margin-top: 10px;"> <p> Note: This field displays if the Rate Type is selected as Fixed.</p> </div>
Effective Rate	Displays the effective rate.
Component Considered	Displays the component considered.
User Recommendation	Select the user recommendation. The available options are: <ul style="list-style-type: none"> • Approved • Rejected
User Action	Displays the user action based on user recommendation.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.10.2 Summary - Supervisor Approval

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-57 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-34 Summary – Field Description

Data Segment	Description
Assessment Details	Displays the assessment details.
Approval Details	Displays the approval details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The Outcome screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Supervisor Approval** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Offer Issue**. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code
 - Select the **Return to Application Entry Stage** to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment Stage** to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting Stage** to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit** to submit the supervisor approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Offer Issue on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application. The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.11 Offer Issue Stage

This topic describes the information on the various data segments to generate the offer in the Offer Issue stage.

After due diligence and Assessment approval, the Application will move to the Offer issue stage where the Approver will generate the offer letter. As a reference, the relevant completed data segments will be made available to the Approver before the application can be moved to the next stage. These completed data segments are from the Application Underwrite Stage and Application Assessment Stage. The data segments are displayed in view only mode for the Approver to browse.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Issue** stage is displayed.

In the Offer Issue stage, provide the required details under each data segment. The Offer issue stage has the following reference data segments:

- **Credit Rating Details**: - For detailed information, refer the Credit Rating Details data segment in the Loan Underwriting stage.
- **Valuation Details** - For detailed information, refer the Valuation Details data segment in the Loan Underwriting stage.
- **Legal Opinion** - For detailed information, refer the Legal Opinion data segment in the Loan Underwriting stage.

Refer below chapters for detailed information on data segment that are editable.

- [Assessment Summary](#)
This topic provides the systematic instructions to view the assessment summary of the Savings Account application.
- [Offer Issue](#)
This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.
- [Summary](#)
This topic describes systematic instructions to view all the details of offer issue.

2.11.1 Assessment Summary

This topic provides the systematic instructions to view the assessment summary of the Savings Account application.

Assessment Summary is the view only data segment of Offer Issue stage.

To view the assessment summary:

1. On acquiring the Offer Issue stage the **Assessment Summary** screen is displayed.

Figure 2-58 Assessment Summary

- Specify the fields on **Assessment Summary** screen.
For more information on fields, refer to the field description table.

Table 2-35 Assessment Summary – Field Description

Field	Description
Requested Amount	Displays the requested overdraft amount.
Tenure	Displays the tenure.
Base Rate	Displays the interest rate without including margin / variance.
Rate of Interest	Displays the rate of interest. Click  to view the rate type.
Margin	Displays the approved margin. This field displays if the Rate Type is selected as Floating .
Variance	Displays the approved variance. This field displays if the Rate Type is selected as Fixed .
Total Weightage Score	Displays the total weightage score.
Approved Amount	Displays the final approved loan amount.
Proposed Margin	Displays the proposed margin from Decision Service. This field displays if the Rate Type is selected as Floating .
Proposed Variance	Displays the proposed variance from Decision Service. This field displays if the Rate Type is selected as Fixed .
Effective Rate	Displays the effective rate of interest.
System Recommendation	Displays the system recommendations.
Grade	Displays the grade of the applicant.
Manual Decision	Displays the manual decision.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.2 Offer Issue

This topic provides the systematic instructions to capture the offer issue date and generate the offer letter.

Offer Issue is the next data segment of Offer Issue stage.

To generate the offer issued:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Offer Issue** screen displays.

Figure 2-59 Offer Issue

The screenshot shows the 'Offer Issue' screen for application 006APP000055058. The interface includes a navigation menu on the left with options like 'Credit Rating Details', 'Valuation Details', 'Legal Opinion', 'Assessment Summary', 'Offer Issue', and 'Summary'. The main area contains a form with the following fields:

- Applicant Name:** MR John Alexander Smith
- Approved Loan Amount:** GBP 34,500.00
- Loan Tenure:** 3 Years 0 Months 0 Days
- Rate Of Interest:** 5.9%
- Instalment Type:** EMI
- Instalment Frequency:** Monthly
- Instalment Amount:** GBP 0.00
- Principal:** GBP 34,500.00
- Interest:** GBP 5,196.77
- Charges:** GBP 5,782.00
- APR:** (empty)
- Offer Issue Date:** 2018-03-30

At the bottom right, there is a 'Generate Offer' button. At the bottom of the screen, there are navigation buttons: 'Cancel', 'Request Clarification', 'Back', 'Save & Close', and 'Next'.

Offer Issue screen enables the approver to capture the Offer Issue date. The other data elements available in the screen are prepopulated and not editable. For more information on fields, refer to the field description table.

Table 2-36 Offer Issue – Field Description

Field	Description
Applicant Name	Displays the applicant name.
Approved Loan Amount	Displays the approved loan amount.
Loan Tenure	Displays the loan tenure.
Rate of Interest	Displays the rate of interest.
Installment Type	Displays the installment type.
Installment Frequency	Displays the installment frequency.
Installment Amount	Displays the instalment amount.

Table 2-36 (Cont.) Offer Issue – Field Description

Field	Description
Principal	Displays the principal amount.
Interest	Displays the interest amount.
Charges	Displays the charge amount.
APR	Displays the annual percentage rate value.
Offer Issue Date	Select the offer issue date.
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Loan Account.
Generate Offer	<p>Select the checkbox to indicate if offer letter to the borrower with all the terms and conditions which the borrower or applicant may accept or reject is to be sent. Also, the generate offer can be done with repayment schedule or without repayment schedule.</p> <p>The available options are:</p> <ul style="list-style-type: none"> • With Schedule • Without Schedule <p>A PDF file will be generated with the offer content. The system generates the repayment schedule, if not generated earlier. Default template for offer issue is used in this reference workflow.</p>

2. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.11.3 Summary

This topic describes systematic instructions to view all the details of offer issue.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Offer Issue** screen displays.

Figure 2-60 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment. For more information on fields, refer to the field description table.

Table 2-37 Summary - Offer Issue – Field Description

Data Segment	Description
Credit Rating Details	Displays the credit rating details.
Valuation of Asset	Displays the valuation of asset details.
Legal Opinion Details	Displays the legal opinion details.
Assessment Summary	Displays the assessment details.
Offer Issue Details	Displays the offer issue details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Proceed Next**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the **Offer Issue** stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, **Offer Accept/Reject**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment** Stage to make enrichment stage available in free task.

- Select the **Return to Application Underwriting** Stage to make underwriting stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit supervisor approval stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Application Offer Accept / Reject stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

2.12 Offer Accept / Reject Stage

This topic describes the information on the various data segments to accept / reject the offer in the Offer Accept / Reject stage.

After the **Offer Issue** stage, the offer letter will be sent or communicated to the borrower or applicant. The **Offer Accept / Reject** stage will enable the user to record the customer response – Accept or Reject as the case may be. Also, the offer made can be amended based on Customer request – viz., change in Principal Amount, Interest Rate, Margin or Tenure. The post offer amend can be routed back to the relevant previous completed stages like Application Entry / Loan Application Enrichment. If the business wants the Loan Underwriting stage or the Loan Assessment stage to be redone, they can be configured accordingly, post which the new offer with the revised terms will be issued to the borrower or applicant for acceptance.

To perform actions on issued offer:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Offer Accept /Reject** stage is displayed.

In the **Offer Accept / Reject** stage, provide the required details under each data segment. The Offer Accept / Reject stage has the following data segments which user can only view.

- **Offer Issue:** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.
- **Assessment Summary** - For detailed information, refer the Assessment Summary data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Offer Accept / Reject](#)
This topic provides the systematic instructions to view the offer letter and record the customer response.

- **Summary**
This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.12.1 Offer Accept / Reject

This topic provides the systematic instructions to view the offer letter and record the customer response.

Offer Accept / Reject data segment is the first data segment of **Offer Accept / Reject** stage.
To capture customer response:

1. On acquiring the Offer Accept / Reject task the **Offer Accept/Reject** screen is displayed.

Figure 2-61 Offer Accept / Reject

The screenshot displays the 'Offer Accept/Reject' screen for application 006APP000043302. The interface includes a navigation pane on the left with options for Offer Issue, Assessment Summary, Offer Accept/Reject (selected), and Summary. The main area contains several data entry fields:

- Applicant Name:** DR Samir Feeney
- Loan Tenure:** GBP, 50,000.00
- Loan Tenure (Calendar):** 3 Years 0 Months 0 Days
- Rate Of Interest:** 3.52%
- Instalment Type:** EMI
- Instalment Frequency:** Monthly
- Instalment Amount:** GBP, 1,510.55
- Principal:** GBP, 50,000.00
- Interest:** GBP, 4,379.04
- Charges:** GBP, 1.00
- Offer Issue Date:** 2018-03-30
- Offer Expiry Date:** 2018-04-29
- Customer Response:** Accept
- Date Of Offer Accept/Reject:** April 23, 2018

At the bottom, there are buttons for Audit, Cancel, Request Clarification, Back, Save & Close, and Next.

2. Specify the fields on **Offer Accept / Reject** screen.
For more information on fields, refer to the field description table.

Table 2-38 Nomenclature Fields

Field	Description
Applicant Name	Displays the applicant name.
Approved Loan Amount	Displays the approved loan amount.
Loan Tenure	Displays the loan tenure.
Rate of Interest	Displays the rate of interest.
Instalment Type	Displays the instalment type.
Instalment Frequency	Displays the instalment frequency.
Instalment Amount	Displays the instalment amount.
Principal	Displays the principal amount.
Interest	Displays the interest amount.
Charges	Displays the charge amount.
APR	Displays the annual percentage rate value.
Offer Issue Date	Select the offer issue date.

Table 2-38 (Cont.) Nomenclature Fields

Field	Description
Offer Expiry Date	Displays the date based on the expiry period configuration done at the Business Product level which is used for this Loan Account.
Customer Response	Select the customer response from the drop-down list. Available options are: <ul style="list-style-type: none"> • Accept • Reject • Amend
Date Of Offer Accept/Reject	Select the date of offer accept or offer reject.
Reason	Specify the reason of rejecting this offer. This field appears only if you select the Reject option from the Customer Response list.
Offer Amend	Offer Amend option will be at the instance of the customer request. This will be taken as a Post Offer amendment and based on the change requested the application will be routed as part of the OUTCOME to the respective earlier stages to incorporate the changes.
Post Offer Amend	The post offer amend will be supported for the following data elements: <ul style="list-style-type: none"> • Loan Principal • Loan Interest • Customer Margin • Tenure of the Loan

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.12.2 Summary

This topic provide the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Offer Accept / Reject** screen displays.

Figure 2-62 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-39 Summary - Offer Accept / Reject – Field Description

Data Segment	Description
Assessment Summary	Displays the assessment summary.
Offer Issue Details	Displays the offer issue details.
Offer Accept / Reject Details	Displays the offer issue details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Proceed Next**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Offer Accept/Reject stage for the Loan Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Approval on Host. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - If the **Customer Response** is selected as **Accept** in Offer Accept/Reject screen, then submit of this stage, will move the application into the Account Approval stage.
 - If the **Customer Response** is selected as **Reject** in Offer Accept/Reject screen, then submit of this stage, will terminate the application.
 - If the **Customer Response** is selected as **Amend** in Offer Accept/Reject screen, then submit of this stage, will move the application into the Post Offer Amendment stage.

- Select the **Return to Application Entry** Stage to make application entry stage available in free task for edit.
 - Select the **Return to Application Enrichment** Stage to make enrichment stage available in free task.
 - Select the **Return to Application Underwriting** Stage to make underwriting stage available in free task.
 - Select the **Return to Assessment** stage to make assessment stage available in free task.
 - Select the **Reject Application** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
6. Click **Submit** to submit the Offer Accept/ Reject stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
 7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the sub process reference numbers [Loan Account] to the Account Approval on Host stage. This application is available in the FREE TASK list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

If account creation process is set to be as automatic workflow, then there will not be an Account Creation stage configured at the Business Process level. In this case, when the user submits the Offer Accept/Reject stage, Loan Account creation request will be triggered from Oracle Banking Origination - Account Open Process Management workflow to the HOST.

However, if there is an error encountered while submitting to the host, a new wait task is created and user once acquire the task, BackOffice Error data segment will be displayed with the host errors.

Figure 2-63 Back Office

Backoffice Errors
Status FAILURE
Error Code: CL-ISA-00103 Message: Invalid Customer ID
Error Code: CL-ISA-00104 Message: Principal Amount exceeds the Total Disbursement Details

This stage will have the following outcomes:

- Retry
- Return

Select the option Retry, for any technical errors. And, select the option Return, if user wants to correct any values, wherein the application will move to the Application Entry stage.

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

Loan Account Number 000RPPL20086A0SO has been opened for New Personal Loan with Application Number 000APP000000215 dated Mar 26, 2020

2.13 Post Offer Amendment Stage

This topic describes the information on the various data segments to request for amendment of loan application in the Post Offer Amendment stage.

Post Offer Amendment stage enables the user to request for amendment of Loan components after the Offer is Issued by the bank. This stage will appear only if the **Customer Response** is selected as **Amend** in **Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Post Offer Amendment stage is displayed.

The **Post Offer Amendment** stage has the following data segments which user can only view:

- **Offer Issue:** - For detailed information, refer the Offer Issue data segment in the Offer Issue stage.

Refer below chapters for detailed information on data segment that are editable.

- [Post Offer Amendment](#)
This topic provides the systematic instructions to request for amendment of loan components after the Offer is Issued by the bank.
- [Loan Disbursement Details](#)
This topic describes systematic instructions to configure loan disbursement post offer amendment details.
- [Loan Repayment Details](#)
This topic describes systematic instructions to enables the user to capture the loan repayment details.
- [Summary](#)
This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

2.13.1 Post Offer Amendment

This topic provides the systematic instructions to request for amendment of loan components after the Offer is Issued by the bank.

Post Offer Amendment data segment is the first data segment of Post Offer Amendment stage. The user can acquire the application from Free Tasks list.

Only if Customer Response is selected as Amend in **Offer Accept/Reject** data segment.

To perform actions on post offer amendment:

1. On acquiring the post offer amendment stage, the **Post Offer Amendment** screen appears.

2.13.4 Summary

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

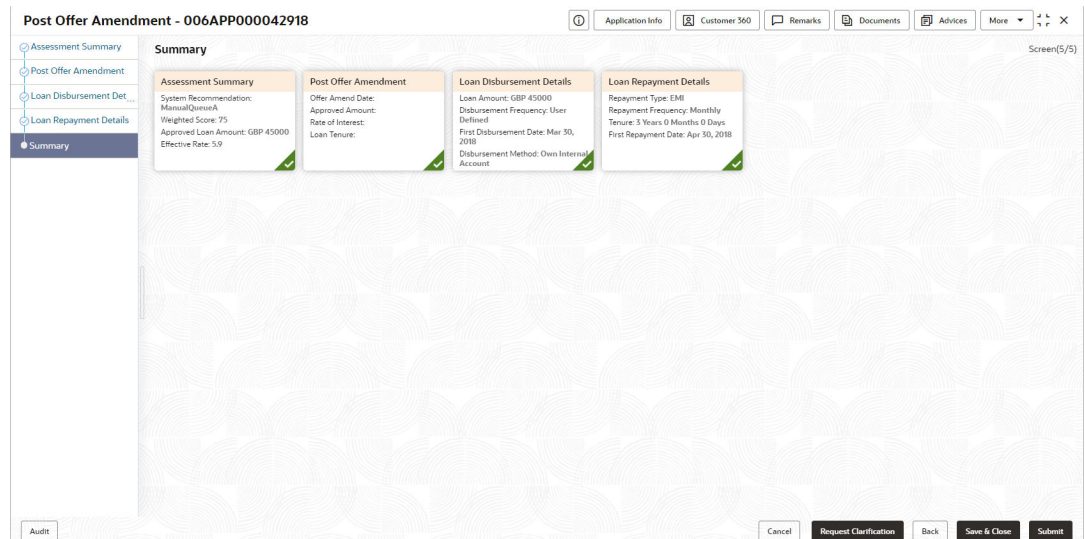

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

To view the summary:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-75 Summary

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

Table 2-46 Summary - Post Offer Amendment – Field Description

Data Segment	Description
Assessment Details	Displays the assessment details.
Post Offer Amendment Details	Displays the post offer amendment details.
Loan Disbursement Details	Displays the loan disbursement details.
Loan Repayment Details	Displays the loan repayment details.

2. Click **Submit** to reach the **OUTCOME**, where the Overrides, Checklist and the Documents for this stage can be validated or verified. The **Overrides** screen is displayed.
3. In the Override screen, click **Proceed Next**. The **Checklist** screen is displayed.
4. In the Checklist screen, click **Proceed Next**. The **Outcome** screen is displayed.
5. In the Outcome screen, select appropriate option from the **Select to Outcome** field.
 - Select **Proceed** outcome from the drop-down list. It will logically complete the Post Offer Amend stage for the Loan Application. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
 - If there is change in Approved Amount or Loan Tenure, then submit of this stage will move the application to Loan Assessment Stage.
 - If there is change in Rate of Interest, then submit of this stage will move the application to Supervisor Approval Stage.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.

6. Click **Submit** to submit the Post Offer Amendment stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers to the Account Approval stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.14 Account Approval Stage

This topic describes the information on the various data segments to view the captured details and approve the application in the Account Approval stage

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments which user can only view:

- **Applicants** – For detailed information, refer the Applicantst data segment in the Application Entry stage.
- **Loan Details** - For detailed information, refer the Loan Details data segment in the Application Entry stage.
- **Mandate Details** – For detailed information, refer the Mandate Details data segment in the Application Entry stage.
- **Financial Details**: - For detailed information, refer the Financial Details data segment in the Application Entry stage.
- **Collateral Details** – For detailed information, refer the Collateral Details data segment in the Application Entry stage.

 **Note:**

Collateral will be linked to Loan Account while sending to the Host.

7. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The following notification will be sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

Figure 2-79 Loan Account Statement

Loan Account Number 000RPPL20086A0SO has been opened for New Personal Loan with Application Number 000APP000000215 dated Mar 26, 2020

Reject Application will terminate the application and no further action will be allowed on this reference number.

After the Host creates the Loan Account successfully, the response is sent back to Oracle Banking Origination with the Loan Account Number.

The details of all the applications which have logically completed all their stage movements, (Rejected / Account Created) will be made available in Completed tasks for query purpose only.

2.15 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears are the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

- [Application Info](#)
In this section you can view the application number along with its product name.
- [Customer 360](#)
In this section you can view the list of customers involved in the application.

- [Application Details](#)
In this section you can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.
- [Remarks](#)
In this section you can view or the post the remarks.
- [Documents](#)
In this section you can upload the document and also view the already uploaded documents.
- [Advices](#)
You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.
- [Condition and Convenants](#)
You capture conditions and convenants details for the loan applications.
- [Solicitor Details](#)
You can add the solicitor details using this section.
- [Clarification Details](#)
In this section you can request for clarifications.

2.15.1 Application Info

In this section you can view the application number along with its product name.

- Click the **Application Info** button to view the details.
The **Application Info** screen appears with the Application Number and Business Product fields.

Figure 2-80 Application Info

2.15.2 Customer 360

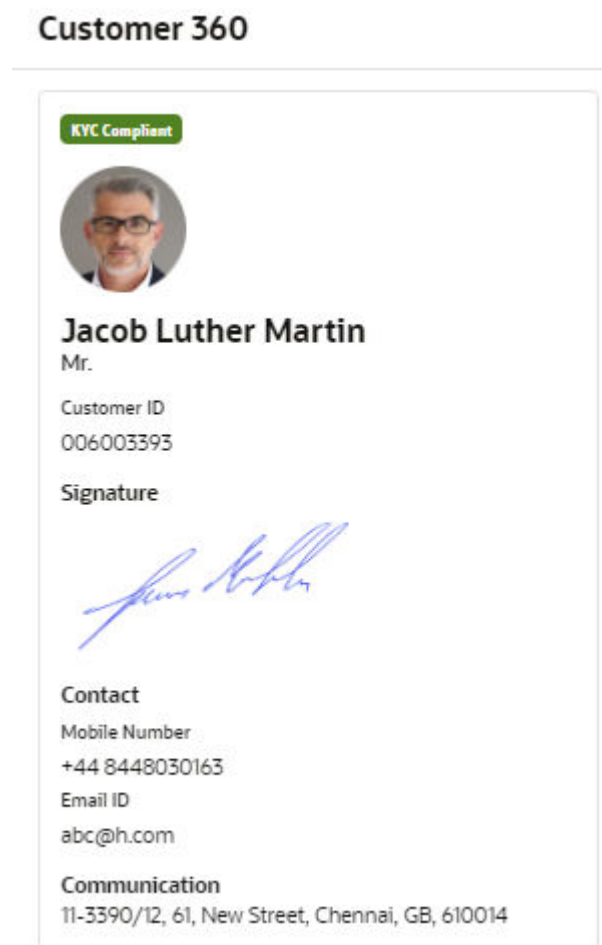

In this section you can view the list of customers involved in the application.

The separate tiles of all the customers involved in the application appears. You can click on the respective customer tile to view the 360 degree details of that customer.

1. Click **Customer 360** to view the list of customer involved in the application.

The **Customer 360** screen is displayed.

Figure 2-81 Customer 360

The customer title comprises of below details:

- <Applicant Role>
 - <KYC Status>
 - <Applicant Image>
 - <First Name, Middle Name, Last Name>
 - <Title>
 - Customer ID
 - Signature
 - Contact
 - Communication
2. Select the specific Customer ID to view their Mini Customer 360. The CIF Numbers are populated in the Customer 360 screen only post the CIF number has been keyed in the Applicant data segment.

2.15.3 Application Details

In this section you can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.

You can also track and launch the respective stage of the application.

To view the application details:

1. Click **Application Details** to view the application details .

The **Application Details** screen is displayed.

Figure 2-82 Application Details

The screenshot displays the 'Application Details' interface. At the top, it shows application metadata: Application Number (06AAPP00128197), Application Date (30/3/2018, 12:00 AM), Channel (RPM), Source By (ANADHESH), and Priority (Medium). Below this is a 'Stage Details' section with a progress bar showing stages from 'Application Entry' (In Progress) to 'Post'. A central card displays applicant information for 'Rose Albert Mary', including a profile picture, name, and contact details. At the bottom, a table lists 'Advices' with columns for Advice Name, Event, Recipients, Mode of Delivery, Delivery Details, Status Details, and Action.

Post saving the record you must delete the record to remove the document.</p> <p>Below actions are perfrom on the uploaded document</p> <ul style="list-style-type: none"> • You can preview already uploaded document. • You can download already uploaded document.
Actions	You can perfrom below actions on the added record: <ul style="list-style-type: none"> • Click  to save the record. • Click  to delete the record.

 **Note:**

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

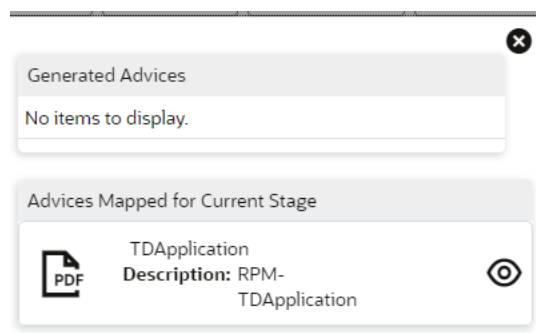

2.15.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.

The **Advices** screen is displayed.

Figure 2-85 Advices

The system will generate the advice on submission of the stage. For Application Entry stage of Product, no advice is configured.

2.15.7 Condition and Covenants

You capture conditions and covenants details for the loan applications.

In this section you can add, edit and remove the condition and covenant details .

Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

To add conditions:

1. From the **More** option, click the **Conditions & Covenants** to add or remove the conditions details.

The **Conditions & Covenants** page appears.

Figure 2-86 Conditions

- Click **Add Condition** to add new conditions.

OR

Click **Remove** to remove already added conditions.

- Enter the relevant details.

Table 2-52 Conditions – Field Description

Field	Description
Entity	Select the entity on which you want to set condition. The available options are <ul style="list-style-type: none"> • Party • Collateral • Account
Entity ID	Select the entity ID from the list. The options in the list appears based on the entity selected in the Entity field.
Condition	Specify the conditions for the selected entity.
Type	Select the type when the conditions must be complied. The available options are <ul style="list-style-type: none"> • Pre Disbursement: If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement. • Post Disbursement: If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.
Status	Select the status of the condition. The available options are <ul style="list-style-type: none"> • Open • Complied
Actions	You can perform below actions on the added record: <ul style="list-style-type: none"> • Click <input checked="" type="checkbox"/> to save the record. • Click <input type="checkbox"/> to delete the record.

- Click **OK**. The conditions are saved.

 **Note:**

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

Convenants

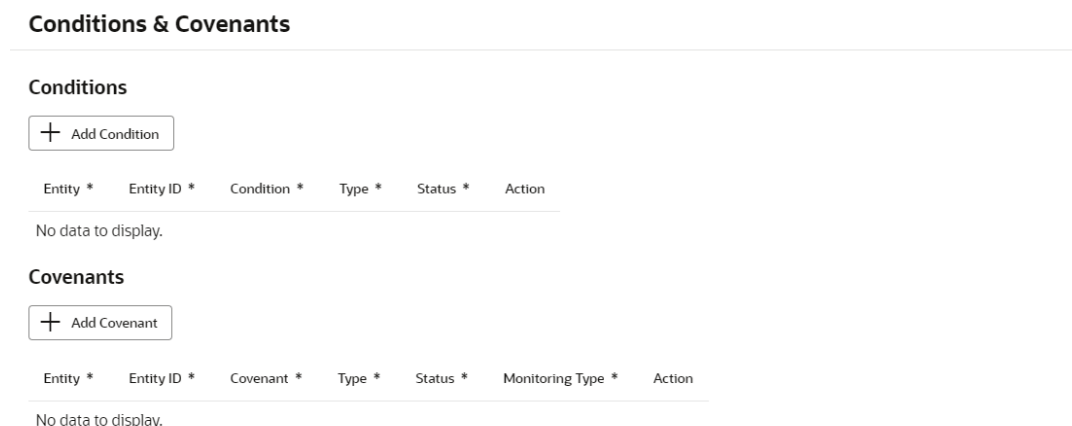

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

To add convenants:

- From the **More** option, click **Conditions & Convenants** to add or remove the convenants details.

The **Conditions & Covenants** page appears.

Actions	You can perform below actions on the added record: <ul style="list-style-type: none"> • Click  to save the record. • Click  to delete the record.

- Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

- Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation
- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are

available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.

3

Instant Retail Loan Account Opening Process

This topic describes the instant account opening process of retail loan product.

Instant personal loan account opening flow is applicable only for the Individual type of customer. The reference origination flow has been optimized to ensure that the loan request is processed with minimal manual intervention.

This personal loan request can be triggered from the Self- Service Channel such as Oracle Banking Digital Experience for both new and KYC compliant existing customers For the Assisted Channel, this loan request can be triggered only for KYC compliant existing customer.

In case of new customer, the self-service channel uses the automatic flow to verify or provide KYC compliance to customer. This automatic flow is indicated as Video KYC in OBDX. The necessary KYC types for compliance verification is configured in Oracle Banking Party Module. Please refer the **Retail Onboarding User Guide** for more details.

Below configuration are set for Instant Personal Loan product in the **Business Product** configuration screen.

- In the **Business Product Details** data segment, the **Application Submission is Mandatory** toggle is selected to capture application details in initiate stage.

Below configurations are set for Instant Personal Loan product in the **Business Process** screen.

- Document and checklist verification is set as non mandatory
- The Offer Issue Advices are configured

Account Opening Process Flow

The Instant Personal Loan account opening process is described below:

1. Application Entry Stage:

- In case the application is initiated through Self-Service Channel, the system automatically triggers the Application Entry stage without any manual intervention and completes the data segment level validation. On successful completion of the validation, the system automatically submits the Application Entry Stage.
OR
- In case the application is initiated through Branch, this stage is automatically submitted, if the application details are captured by clicking the **Application** button from the **Product Details** data segment. On submission of Application Entry Stage, system will perform an Assessment and if the system decision is Approved then the application process in the Offer Accept / Reject stage.

2. The Assessment and Offer issue stage automatically handled and hence the stage are not generated:

- If the offer is successfully generated, then offer letter is communicated to an applicant on email.
- If the automatic offer issue workflow fails, then the **Offer Issue** task is generated to perform manual action on loan application.

- If the assessment is Auto Rejected, then an application is terminated automatically and an email communication along with the rejection advice is sent to the applicant. As an exceptional case for Insta personal loan, Assessment recommendations which are Manual are also handled.
3. **Manual Credit Assessment stage:**
 - If the Assessment Decision is Manual Queue A or Manual Queue B, then the system proceeds application to the Manual Credit Assessment stage to assess manually.
 - If the application is approved, then the system proceeds and the Manual Credit Decision stage is generated.
 - If the application is rejected, then the application is terminated, and a rejection advice is mailed to the borrowing applicant.
 4. **Manual Credit Decision stage:** On submitting the Manual Credit Assessment stage, the system generates the Manual Credit Decision task to assess the loan application. In this task the assessment officer can either Reject or Approve the application manually.
 - If the application is approved, then Offer Issue is automatically trigger and an email with the attached offer letter is communicate to an applicant. The application proceeds with the next logical referenced stage.
 - If the application is rejected, then the system terminates the application and a rejection advice is sent to the applicant.
 5. **Offer Accept /Reject:** Once the offer is issued successfully, the applications proceeds with the next task which is generated based on action selected in the previous stage.
 - If the application is initiated through branch channel then you can capture the applicant's response. If the application is initiated through the self-service channel, the applicant's response is received from OBDX. In both the cases, once the offer is accepted OBO initiates call and shares data to the host for creation of Instant Personal Loan Account.
 - If the customer response is reject, then the application is rejected.by selecting the **Reject** option from the Outcome screen while submitting the stage. The rejection advice is sent to the applicant through email.
 - If the bank reject the application, then the application is rejected.by selecting the **Reject By Bank** option from the Outcome screen while submitting the stage. The rejection advice is sent to the applicant through email.
 6. **Handoff Retry:** Application moves to this stage and appears in the Free Task only if the Instant Personal Loan Account creation has been rejected by Product Processor. The users with the necessary access rights can pick such task and can retry submission to Host after taking required actions on the Failure reason.

4

Simplified Application

This topic describes the concept and process of single stage application.

What is Simplified Application?

The Simplified Application is introduced to open an account in a smooth single process culminating the long account opening process. In this process the user can directly create and application and update details with multiple data segments in a single view.

How to configure Simplified Application for a product?

To enable a simplified account opening process, select the **Simplified Application** flag in the **Business Product Preference** data segment of the **Business Product Configuration** screen.

Once the product is configured for simplified application, the user can configure the business process such as stages, data segments, document checklist and so on, in the **Business Process Configuration** screen.

How to process the simplified application?

After configuring the product and process, the user can initiate a single-stage application by navigating the menu. Below is the detailed process for opening an account using a simplified application.

To open an account using simplified application process:

1. From the **Menu**, select the **Retail Origination**. The Retail Origination menu appears.
2. From the **Retail Origination**, select the **New Application**. The New Application page appears with list of product types which are configured.
3. Select the appropriate product and click **Apply**.
The Application Entry stage appears. The data segments in this stage appears based on the business process configuration.
 - **Applicant** : In this data segment user can capture applicant details such as basic, address, signature, employment, identification. Multiple applicants are allowed with different roles. Refer **Applicant** data segment from the **Application Entry** stage of this guide.
 - **Relationship**: In this data segment user can capture the relationship details in case multiple applicants. Refer **Relationship** data segment from the **Application Entry** stage of this guide.
 - **Loan Details**: In this data segment user can capture the product details to configure the account. Refer **Account Details** data segment from the **Application Entry** stage of this guide.
 - **Interest and Charges**: In this data segment user can view and edit the interest and charges that are applicable. Refer the **Interest and Charges** data segment from the **Application Enrichment** stage of this guide.

- **Financial Details:** In this data segment user can capture the financial details of all the applicants that are involved in the account opening application. Refer **Financial Details** data segment from the **Application Entry** stage of this guide.
 - **Loan Disbursement Details:** In this data segment user can capture the loan disbursement details. Refer the **Loan Disbursement Details** data segment from the **Application Enrichment** stage of this guide.
 - **Loan Repayment Details:** In this data segment user can capture the loan repayment details. Refer the **Loan Repayment Details** data segment from the **Application Enrichment** stage of this guide.
 - **Qualitative Scorecard:** In this data segment user can capture the qualitative scorecard details which appears based on configuration. Refer the **Qualitative Scorecard** data segment from the **Loan Assessment** stage of this guide
 - **Term and Conditions:** In this data segment user can capture the term, conditions and consents of the customer. Refer the **Term and Conditions** data segment from the **Application Entry** stage of this guide.
 - **Review:** In this data segment user can review all the details that are captured on clicking on each data segment tile.
4. On submitting the Application Entry stage, next stage is triggered based on the business process configuration.
 5. Below stages are generated in the process of account opening. Refer respective stage pages of this guide for detailed information.
 - a. **Application Document**
 - b. **Loan Assessment**
 - c. **Manual Credit Assessment**
 - d. **Manual Credit Decision**
 - e. **Account Parameter Setup**
 - f. **Supervisor Application Approval Stage**
 - g. **Offer Issue**
 - h. **Offer Accept / Reject**
 - i. **Post Offer Amendment**
 6. The **Account Approval** stage is generated. All the data segments of the Application Entry stage appears. The user can only view those stages. The Approval Details data segment is enabled to capture account approval status. For more information refer the **Approval Details** data segment of the **Account Approval** stage in this guide.
 - If the Rejected option is selected in the Approval Details data segment then this application is terminated.
 - If the Approved option is selected in the Approval Details data segment then the application's payload are proceed for account creation.
 7. An account is created on approving the application in the **Account Approval** stage.
 8. If the system fails, the Free Task generates the **Handoff Retry** task. With the necessary access rights, the user can pick up such tasks, take the necessary action on the Failure reason, and then resubmit to the Host.

A

Error Codes and Messages

This topic contains the error codes and messages.
