## Purpose

Welcome to the **Credit Card Origination** user guide for Oracle Banking Origination. This document provides an overview of the Credit Card Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Credit Card Origination.

## Audience

This guide provides instructions and information about the Credit Cards product to help various bank users to deliver quick and efficient service to both customer and prospects.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Related Resource

The related documents are as follows:

- *Operations User Guide*
- *Configuration User Guide*
- *Alerts and Dashboard User Guide*

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

**Table** Acronyms table

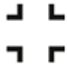

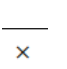

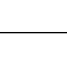

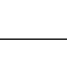

Abbreviation	Description
DS	Data Segment
System	Oracle Banking Origination Module

Table (Cont.) Acronyms table

Abbreviation	Description
OBA	Oracle Banking Accounts
OBO	Oracle Banking Origination

# Basic Actions

**Table Basic Actions**

Actions	Functions
<b>Request Clarification</b>	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
<b>Back</b>	Used to navigate to the previous data segment within a stage.
<b>Next</b>	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.
<b>Save &amp; Close</b>	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
<b>Cancel</b>	Used to close the application without saving. This tasks appears in Free Task, once the transaction is canceled.

# 1

## Credit Card Origination Process

This topic describes the information on the various features of the credit card origination process.

Oracle Banking Origination is the middle office banking solution with comprehensive coverage of account opening processes of the below product for both Individual as well as Small and Medium Business type of customers:

- Saving Account
- Current Account
- Term Deposit Account
- Credit Card Account
- Retail Loans Account

It is a Host-Agnostic solution.

It enables banks to deliver the improved user experience for various bank personas such as Sales Officers, Relationship Manager, Account Opening Officers, Branch Supervisor/Managers, Loan Officers, and Credit Officers and so on, handling defined functions in the lifecycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architected by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the origination request before the Credit Card Account is created in the Host. The new workflow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

This user guide explains the reference workflow for the Credit Card Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

This user guide explains the reference workflow for the Credit Card Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

This chapter includes following sections:

- [Credit Card Application Entry Stage](#)  
This topic describes the information on the various data segments to capture the required data in the Credit Card Application Entry stage.
- [Credit Card Application Assessment](#)  
This topic describes the information on the various data segments to update the required data and assess the application in the Credit Card Application Assessment stage.
- [Supervisor Approval Stage](#)  
This topic describes the information on the various data segments to view the captured details and approve the application in the Supervisor Approval stage
- [Global Actions](#)  
This topic provides the detailed on the actions that can be performed in all stages.

## 2.1 Credit Card Application Entry Stage

This topic describes the information on the various data segments to capture the required data in the Credit Card Application Entry stage.

The initiation request for a credit card can be originated by authorized branch users or relationship managers or by approved bank agents, either through the traditional branch channel or through dedicated protocol services made available on digital devices like tablets or mobiles. The initiation of credit card request can be made for both new and existing customer types. Credit Card is only applicable for individual customers. Also, the platform supports processing of the credit card request from the customer which are directly received from the Self-Service Banking Channel (Oracle Banking Digital Experience) through the REST based service APIs.

The selection of the relevant credit card product on which the credit card is required can be initiated using this process, provided the user has the required access rights.

Please refer to the detailed setup and operation workflows for both asset and liability products initiation made available in the Operations user guide.

### To open credit card application entry task:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the Action column of the appropriate record. The **Application Entry** stage is displayed.

As detailed in the **Operations User Guide**, all the product originations are initiated in the Application Initiation stage from the product catalogue. The cart operation in product catalogue allows to originate single or multiple product initiation. Once the Credit Card origination process is initiated either as a single product origination or as part of the multiple product selection, process orchestrator generates the credit card process reference number on submit of the Application Initiation stage. Process orchestrator also updates the record in the Free Task process for the 'Application Entry' stage also referred as 'Task' from orchestrator perspective.

The Application Entry stage is the first stage in the Credit Card Account Open process. After the initiate process is completed successfully, the application can be acquired by the user who has the access rights for the given stage and progress with the data capture

The **Credit Card Application Entry** stage has the following reference data segments:

- [Applicants](#)  
This topic provides the systematic instructions to capture the customer-related information for the application.
- [Relationship](#)  
This topics describes the relationship details of parties that are involved in loan account opening application.
- [Credit Card Details](#)  
This topic provides the systematic instructions to capture the credit card related information for the customer.
- [Financial Details](#)  
This topic provides the systematic instructions to capture the financial details for a single applicant or a customer for the given credit card application as the case may be.
- [Card Preference](#)  
This topic provides the systematic instructions to capture the card related information for the customer.

- [Add-On Card Holder](#)  
This topic provides the systematic instructions to capture any number of add-on card holder details for the given application.
- [Charge Details](#)  
This topic provides the systematic instructions to view the details of the charges applicable for the account.
- [Interest Details](#)  
This topic provides the systematic instructions to view the interest rates and margin (%) applicable / levied for this credit card application.
- [Summary](#)  
This topic provides the systematic instruction to view the tiles for all the data segments in the Credit Card Application Entry Process.

## 2.1.1 Applicants

This topic provides the systematic instructions to capture the customer-related information for the application.

The **Applicants** data segment displays the details captured for the customer in the Application Entry stage and allows updating further fields for supplementing the customer related information.

### To capture applicants details:

1. In the Application Entry stage, update the customer details in the Applicant data segment based on the respective customer type.

The **Applicants - Individual** screen displays.

Figure 2-2 Applicant - Individual

- Specify the relevant details in data fields. The fields which are marked as **Required** are mandatory. For more information on fields, refer to the field description table below:

For more information on the fields, refer to the field description table below:

Table 2-1 Applicant- Individual – Field Description

Field	Description
Applicant Role	Displays the applicant role. By default the Primary role appears in this field. Select the applicant role incase user add multiple applicant in single application.

**Table 2-1 (Cont.) Applicant- Individual – Field Description**

Field	Description
<b>Add Applicant By</b>	Select the mode from which the user need to add new applicant. The available options are: <ul style="list-style-type: none"> <li>• <b>Upload ID</b> - Using this option user can upload identification document of the applicant to extract the details.</li> <li>• <b>Search Existing Customer</b> - This option is used if the applicant is an existing customer of the bank. On selecting the existing customer, the details appears in the respective sections which are already stored.</li> <li>• <b>Enter Manually</b> - This option is used if user wish to enter all the applicant details manually.</li> </ul>
<b>Document Name</b>	Select the document which is used from extracting applicant details. The available options are: <ul style="list-style-type: none"> <li>• State Issued Drivers License</li> <li>• Passport</li> </ul> This field appears if the <b>Upload ID</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Country of Issue</b>	Select the country in which the document is issued. This field appears if the <b>Upload ID</b> option is selected from the <b>Add Applicant By</b> drop down list.
<b>Select and Drop here</b>	Drag and drop the document file or click on <b>Select or drop files here</b> to browse and upload the document from the local system. PNG & JPEG file formats are supported. 10MB maximum file size is allowed. This field appears if the <b>Upload ID</b> option is selected from the <b>Add Applicant By</b> drop down list.

<b>Currency</b>	Select the currency of the selected type. The currencies that are paired with product appears for selection.
<b>Amount</b>	Specify the amount for the selected type.
<b>Amount (&lt;Account Currency&gt;)</b>	Displays the monthly amount of the selected type. The system evaluates and converts the amount which is entered in the <b>Amount</b> field with the <b>Currency</b> which is selected in the <b>Account Details</b> data segment.
<b>Action</b>	<p>Select the action to perform on added record.</p> <ul style="list-style-type: none"> <li>• <b>Figure 2-11 Edit</b></li> </ul> <div style="text-align: center;">  </div> <p style="text-align: center;">- Click to edit the record.</p> <ul style="list-style-type: none"> <li>• <b>Figure 2-12 Delete</b></li> </ul> <div style="text-align: center;">  </div> <p style="text-align: center;">- Click to delete the record.</p>
<b>Total Asset</b>	Displays the total asset of all the added asset type along with the selected account currency.
<b>Total Liability</b>	Displays the total liability of all the added liability type along with the selected account currency.

3. Click **Next**. The system validates the date specified in **Last Update On** with Financial Details Validity Period and, if date specified in **Last Update On** exceeds the date specified in Financial Details Validity Period at Business Product Preferences configurations, the system displays the error message. Click **Yes** to proceed with the next data segment. Click **No** to edit financial details and proceed..

## 2.1.5 Card Preference

This topic provides the systematic instructions to capture the card related information for the customer.

Card Preference data segment is used to capture the card related information for the customer.

**To capture card preferences:**

1. Click **Next** previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Card Preference** screen displays.

**Figure 2-13 Card Preference**

The screenshot displays the 'Card Preference' screen for a customer named MR Ethan Grand. The screen is divided into several sections:

- Header:** Application Entry - 006APP00060556. Includes navigation tabs for Application info, Customer 360, Remarks, Documents, and Advice.
- Left Sidebar:** Navigation menu with options like Applicants, Relationships, Credit Card Details, Financial Details, Card Preference (selected), Add-On Card Holder, Interest Details, Charge Details, Terms and Conditions, and Summary.
- Main Content Area:**
  - Customer Info:** MASTER, Applicant Name: MR Ethan Grand, Affinity Program: Indian Oil, Card Limit: GBP 200000, Add-on Card Allowed: No.
  - Card Type:** Visa Card (dropdown).
  - Embossed Name:** MR Ethan Grand (text input).
  - Statement Generation Date:** 5 (dropdown).
  - NFC:** Disabled (checkbox).
  - Picture Card:** Disabled (checkbox).
  - Statement Type:** Summary (dropdown).
  - Number of add on cards:** 1 (text input).
  - Image on Picture Card:** 63227 (text input) with an Upload button.
  - Statement Delivery Type:** Email (dropdown), Physical (dropdown).
- Card Transactions Limit Table:**

Limit Type	Maximum Limit	Daily Limit	Action
ATM Limit	40,000	10,000	[Edit] [Delete]
Internet Limit	160,000	10,000	[Edit] [Delete]
POS Limit	100,000	10,000	[Edit] [Delete]
- Bottom:** Buttons for Avail, Cancel, Request Clarification, Back, Save & Close, and Next.

2. Specify the fields on **Card Preference** screen.

**Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-10 Card Preference – Field Description**

Field	Description
<b>Business Product Name</b>	Displays the name of business product.

**Table 2-10 (Cont.) Card Preference – Field Description**

Field	Description
<b>Product Image</b>	Displays the product image which is uploaded while creating a product.
<b>Applicant Name</b>	Displays the name of the applicant.
<b>Affinity Program</b>	Displays the affinity program.
<b>Card Limit</b>	Displays the card limit.
<b>Addon Card Allowed</b>	Displays whether the addon card is allowed.
<b>Card Type</b>	Specify the card type which you prefer. The available options are: <ul style="list-style-type: none"> <li>• Master Card</li> <li>• Visa Card</li> </ul>
<b>NFC</b>	Specify to enable Near Field Communication (NFC) facility.
<b>Number of add on cards</b>	Specify the number of cards required.
<b>Embossed Name</b>	Specify the name to be embossed on the card.
<b>Picture Card</b>	Select the toggle to enable the picture card.
<b>Image on Picture Card</b>	Select the image file from the drive and click <b>Upload</b> to add the image to card.
<b>Statement Generation Date</b>	Select the date when the statement should be generated.
<b>Statement Type</b>	Select the type of statement. Available options are: <ul style="list-style-type: none"> <li>• <b>Detailed</b></li> <li>• <b>Summary</b></li> </ul>
<b>Statement Delivery Type</b>	Specify the statement delivery type such as Email or Physical
<b>Card Transactions Limit</b>	In this section you can capture card transaction limit details. Click add icon to add the transaction limits.
<b>Limit Type</b>	Select the limit type. Available options are: <ul style="list-style-type: none"> <li>• <b>ATM Limit</b></li> <li>• <b>POS Limit</b></li> <li>• <b>International Limit</b></li> <li>• <b>Internet Limit</b></li> </ul>
<b>Maximum Limit</b>	Specify the maximum limit allowed.
<b>Daily Limit</b>	Specify the daily limit allowed.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

## 2.1.6 Add-On Card Holder

This topic provides the systematic instructions to capture any number of add-on card holder details for the given application.

This data segment enables the user to capture any number of add-on card holder details for the given application. The user can add it.

**To add card holder details:**

1. Click **Next** in **Card Preference** screen to proceed with the next data segment, after successfully capturing the data.

The **Add-On Card Holder** screen displays.

2. Click **+ Add Card Holder** to add the details of the Add-on Applicants.

**Figure 2-14 Add-On Card Holder**

3. Specify the fields on **Add Card Holder** screen.

**Note:**  
The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-11 Add-On Card Holder – Field Description**

Field	Description
<b>Applicant Name</b>	Displays the name of the Add-on applicant.
<b>Date of Birth</b>	Displays the date of birth of the Add-on applicant.
<b>E-mail</b>	Displays the e-mail ID of the Add-on applicant.
<b>Mobile</b>	Displays the mobile number of the Add-on applicant.
<b>Phone</b>	Displays the phone number of the Add-on applicant.
<b>Existing Customer</b>	Select to indicate if customer is existing customer or not.
<b>CIF Number</b>	Search and select the CIF number. This field appears only if <b>Existing Customer</b> is selected.

Table 2-11 (Cont.) Add-On Card Holder – Field Description

Field	Description
<b>Relationship with Applicant</b>	Select the relationship with customer from the drop-down list. <ul style="list-style-type: none"> <li>• <b>Father</b></li> <li>• <b>Mother</b></li> <li>• <b>Friend</b></li> <li>• <b>Spouse</b></li> <li>• <b>Brother</b></li> </ul>
<b>Title</b>	Select the Title.
<b>First Name</b>	Specify the first name.
<b>Middle Name</b>	Specify the middle name.
<b>Last Name</b>	Specify the last name.
<b>Date of Birth</b>	Select the date of birth.
<b>Politically Exposed Person (PEP)</b>	Specify whether the add-on card holder is politically exposed person.
<b>Address</b>	In this section user can capture the address details of an add-on card holder. For more information on address detail field, refer <b>Customer Information – Individual - Field Description</b> section above.
<b>ID details</b>	In this section user can capture the ID details of an add-on card holder. For more information on ID detail field, refer <b>Customer Information – Individual - Field Description</b> section above.
<b>Card Preference</b>	In this section user can capture the card preference details for an add-on card holder.
<b>Embossed Name</b>	Specify the name embossed on the card.
<b>Limit Amount</b>	Displays the maximum card limit allowed along with the currency..
<b>Image on Picture Card</b>	Select the image file from the drive and click <b>Upload</b> to add the image to card.

4. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

## 2.1.7 Charge Details

This topic provides the systematic instructions to view the details of the charges applicable for the account.

The Charge Details data segment will enable the user to view the charges applicable / levied for this credit card application. These charge details are fetched from the Host (APIs – Pull).

### To add charge details:

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Charge Details** screen displays.

**Figure 2-15 Charge Details**

2. Specify the fields on **Charge Details** screen.

**Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-12 Charge Details - Field Description**

Field	Description
<b>Charge Types</b>	Displays the charge types.
<b>Amount</b>	Displays the charge amount.
<b>Rate</b>	Displays the rate for the charge component.
<b>Waive</b>	Select the toggle to waive all charges or selectively waive a particular type of charge. For example – Late Fee charges or Annual Charges.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

## 2.1.8 Interest Details

This topic provides the systematic instructions to view the interest rates and margin (%) applicable / levied for this credit card application.

Interest Details data segment will enable the user to view the interest rates and margin (%) applicable / levied for this credit card application.

**To add interest details:**

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Interest Details** screen displays.

**Figure 2-16 Interest Details**

- Specify the fields on **Interest Details** screen.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-13 Interest Rates – Field Description**

Field	Description
<b>Interest Rate</b>	In this section interest rate is fetched from host back end product to which this credit card account is mapped via the Business Product configuration.
<b>Interest Rate (In %)</b>	Specify the interest rate in percentage. By default it is fetched from host back end product to which this credit card account is mapped via the Business Product configuration.
<b>Margin (in %)</b>	Specify the customer margin in percentage.
<b>Effective Rate (In %)</b>	Displays the effective rate for the loan calculated in below formula Effective Rate = Interest Rate + or – Margin.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

## 2.1.9 Summary

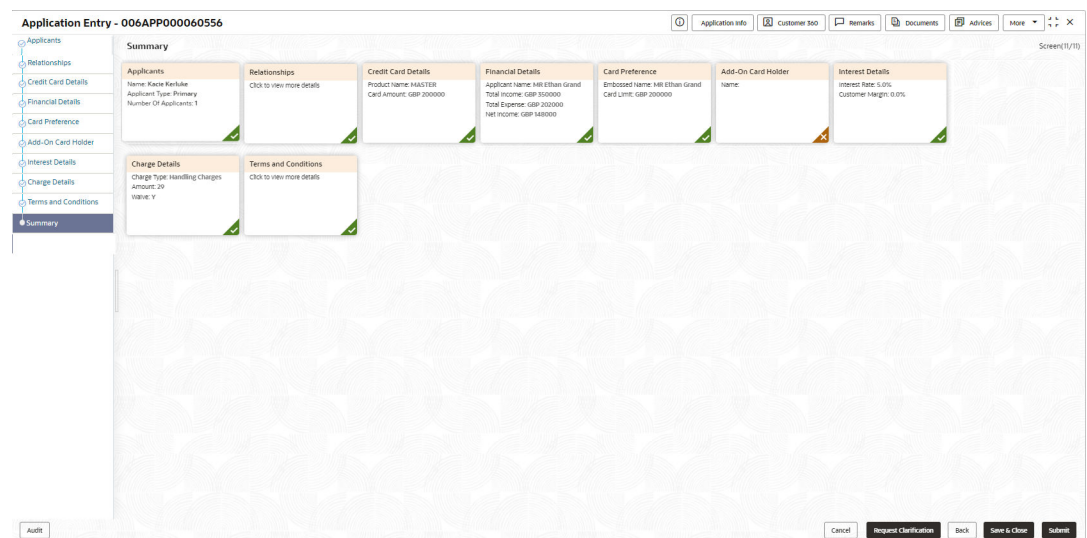

This topic provides the systematic instruction to view the tiles for all the data segments in the Credit Card Application Entry Process.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary - Credit Card Application Entry** screen displays.

**Figure 2-17 Summary**

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

**Table 2-14 Summary – Field Description**

Field	Description
<b>Applicants</b>	Displays the applicants.
<b>Relationships</b>	Displays the relationships details.
<b>Credit Card Details</b>	Displays the credit card details.
<b>Financial Details</b>	Displays the Financial details.
<b>Card Preference</b>	Displays the card preference information.
<b>Add-On Card Holder</b>	Displays the Add-On Card Holder details.
<b>Charge Details</b>	Displays the charge details.
<b>Interest Details</b>	Displays the interest details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage are verified. The **Overrides** screen is displayed.

3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected.
  - Select the **Reject by Bank** to reject the submission of this application.
6. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
7. Click **Close** to close the window.

OR

Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Credit Card Account] to the Credit Card Application Underwriting stage. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

#### Application De-Dupe:

Based on the configuration available at the Bank level / Properties Table, the Dedupe service call can be enabled or disabled for the product Origination.

If application dedupe service is enabled, System will check that any application is in progress for same product and customer combination. On Submit, if any duplicate application exists, override will show a message with other in progress application numbers. User can select the override check box and proceed or take appropriate action.

#### Note:

- If an application is returned to the Application Entry-stage from any other subsequent stages, Oracle Banking Origination will not allow amending details in the Customer Information and Financial Details data segment, once a customer onboarding process has been triggered in the Application Entry Stage and CIF creation is still in progress.
- In case the party amendment request is rejected by Oracle Banking Party, the specified error message is shown to the user while submitting the Application Entry stage. The user has an option to go back and resolve the error or proceed with the stage submission by disregarding the amendment request.

## 2.2 Credit Card Application Assessment

This topic describes the information on the various data segments to update the required data and assess the application in the Credit Card Application Assessment stage.

After the application entry and underwriting data segment details are captured and verified, the application is sent for assessment. The Credit Card Assessment stage of the Credit Card account open process workflow will enable the Bank to analyze the details that have been captured in the Credit Card Application Entry / Credit Card Underwriting stages and decide whether the application met the acceptance criteria as specified by the Bank or Credit Bureau.

Oracle Banking Origination is now integrated with Decision Service to fetch the assessment details and system recommendation for the given applicant(s) based on the details captured in the previous stages.

**To acquire the Credit Card Assessment Stage:**

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Application Assessment** stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Credit Rating Details](#)  
This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.
- [Assessment Details](#)  
This topic provides the systematic instructions to view the total weightage score for the Applicant in the Credit Card application.
- [Qualitative Scorecard](#)  
This topic provides the systematic instructions to capture the relevant evaluation details for each applicant based on the configured Questionnaire Code.
- [Add-On Card Holder](#)  
This topic provides the systematic instructions to capture any number of add-on card holder details for the given application.
- [Summary](#)  
This topic provides the systematic instructions to view the tiles for all the data segments in the Credit Card Assessment stage.

## 2.2.1 Credit Rating Details

This topic provides the systematic instructions to view the information on the External Rating Agencies Rating / Scores for the Applicant.

Credit Rating Details is the first data segment of Credit Card Assessment stage. The user can acquire the application from Free Tasks list. This data segment will provide the information on the External Rating Agencies Rating / Scores for the Credit Card Applicant. The interface with external rating agencies will be provided.

Oracle Banking Origination is now integrated with Bureau Integration Service to fetch the details of the Rating for the given applicant(s).

**To view the credit rating details:**

1. On acquiring the **Assessment** task, the **Credit Rating Details** data segment appears.  
The **Credit Rating Details** screen displays.

**Figure 2-18 Credit Rating Details**

- Specify the fields on **Credit Rating Details** screen.

 **Note:**

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

**Table 2-15 Credit Rating Details – Field Description**

Field	Description
<b>Customer Name</b>	Displays the customer name.
<b>Agency Name</b>	Displays the configured agency.
<b>Ratings</b>	Displays the ratings. The system populates the credit rating score from the Bureau Integration Service.
<b>Remarks</b>	Specify the remarks.

- Click **View More** to view the additional Credit Bureau details.

The **Additional Credit Bureau Details** screen displays.

**Figure 2-19 Additional Credit Bureau Details**

Additional Credit Bureau Details								
Institution Name	Account Number	Account Type	Loan Amount	Outstanding Balance	Account Opening Date	Installment Amount	Delinquency Bucket	Delinquency Amount
		Loan	100000	86820	2020-01-07	2162	NIL	NIL
		Overdraft	22000	0	2019-06-07	0	NIL	NIL

For more information on fields, refer to the field description table.

**Table 2-16 Additional Credit Bureau Details – Field Description**

Field	Description
<b>Institution Name</b>	Displays the institution name.
<b>Account Number</b>	Displays the account number of the applicant.
<b>Account Type</b>	Displays the account type.
<b>Loan Amount</b>	Displays the loan amount.
<b>Outstanding Balance</b>	Displays the outstanding balance.
<b>Account Opening Date</b>	Displays the account opening date.
<b>Installment Amount</b>	Displays the installment amount.
<b>Delinquency Bucket</b>	Displays the delinquency bucket.
<b>Delinquency Amount</b>	Displays the delinquency amount.

 **Note:**

Oracle Banking Origination has been integrated with Bureau Integration Service which will make a call to the Credit Bureau to get Credit Rating Score and additional details.

4. Click **View Bureau Report** to view and download the bureau report from the external agency.
5. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

## 2.2.2 Assessment Details

This topic provides the systematic instructions to view the total weightage score for the Applicant in the Credit Card application.

The **Assessment Details** is the first data segment of Credit Card Assessment stage. The user can acquire the application from FREE TASK. The **Assessment Details** screen enables the user to understand the evaluation and provide the system recommendation based on the following parameters.

- Validation Model
- Borrowing Capacity
- Qualitative Score
- Quantitative Score
- Decision and Grade
- Pricing

To view assessment details:

1. Click **Next** in previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Assessment Details – Validation Model** screen displays.

**Figure 2-20 Assessment Details – Validation Model**

<b>Quantitative Score Range</b>	Displays the range for the quantitative score.
<b>Grade</b>	Displays the grade configured for the quantitative score.
<b>Pricing</b>	<b>Displays the field details related to Pricing.</b>
<b>Pricing Model Code</b>	Displays the pricing model code configured for the product.
<b>Model Description</b>	Displays the description of the pricing model code.
<b>Rate Type</b>	Displays the rate type.

**Table 2-17 (Cont.) Assessment Details – Field Description**

Field	Description
<b>Rate Percentage</b>	Displays the rate percentage.
<b>Loan Amount</b>	Displays the loan amount.
<b>Loan Tenure</b>	Displays the loan tenure.
<b>Loan Amount Range</b>	Displays the range for the loan amount.
<b>Loan Tenure Range</b>	Displays the range for the loan tenure.
<b>Rate %</b>	Displays the rate of interest configured for the range.

 **Note:**

Based on the range of qualitative and quantitative scores, the system provides a suggestive recommendation and the overdraft amount which can be sanctioned.

9. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The user cannot proceed to the next data segment, without capturing the mandatory data.

## 2.2.3 Qualitative Scorecard

This topic provides the systematic instructions to capture the relevant evaluation details for each applicant based on the configured Questionnaire Code.

Qualitative Scorecard is the next data segment of Credit Card Assessment stage. This segment enables the user to capture the relevant evaluation details for each applicant based on the configured Questionnaire Code. The Questionnaire Code is configured to the Credit Card Business Product.

Oracle Banking Origination is now integrated with Decision Service to fetch the Qualitative Score for the given applicant(s) based on the Question and Answers provided.

**To capture the qualitative scorecard details:**

1. On acquiring the **Assessment** task from the **Free Task**, the Qualitative Scorecard screen appears..

The **Qualitative Scorecard** screen displays.

**Figure 2-28 Qualitative Scorecard**

2. Specify the fields on **Qualitative Scorecard** screen.  
For more information on fields, refer to the field description table.

**Table 2-18 Qualitative Scorecard – Field Description**

Field	Description
<b>Applicant Name</b>	Displays the name of the applicant.
<b>Questionnaire Code</b>	Displays the Questionnaire code.
<b>Questionnaire Description</b>	Displays the description of the Questionnaire code.
<b>Question</b>	Displays the question configured for the Questionnaire code.
<b>Answer</b>	Select the answer from the drop-down values available. The answers are populated based on the Answers configured in the Questionnaire code.

3. Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The user cannot proceed to the next data segment, without capturing the mandatory data.

## 2.2.4 Add-On Card Holder

This topic provides the systematic instructions to capture any number of add-on card holder details for the given application.

This data segment enables the user to capture any number of add-on card holder details for the given application. The user can add it.

### To add card holder details:

1. Click **Next** in **Card Preference** screen to proceed with the next data segment, after successfully capturing the data.

The **Add-On Card Holder** screen displays.

2. Click **+ Add Card Holder** to add the details of the Add-on Applicants.

Figure 2-29 Add-On Card Holder

The screenshot shows the 'Add-On Card Holder' form for application entry 006APP000060556. The applicant is Mathew Grand, born 1960-06-28, with email mathew12@abc.com and mobile 7589427432. The form includes sections for Existing Customer, Relationship with Applicant (Father), Title (Mr.), First Name (Mathew), Middle Name, Last Name (Grand), Date of Birth (June 28, 1960), and Politically Exposed Person (PEP). - Click **Next** to navigate to the next data segment, after successfully capturing the data. The system validates for all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take an action. The User cannot to proceed to the next data segment, without capturing the mandatory data.

## 2.3.3 Summary

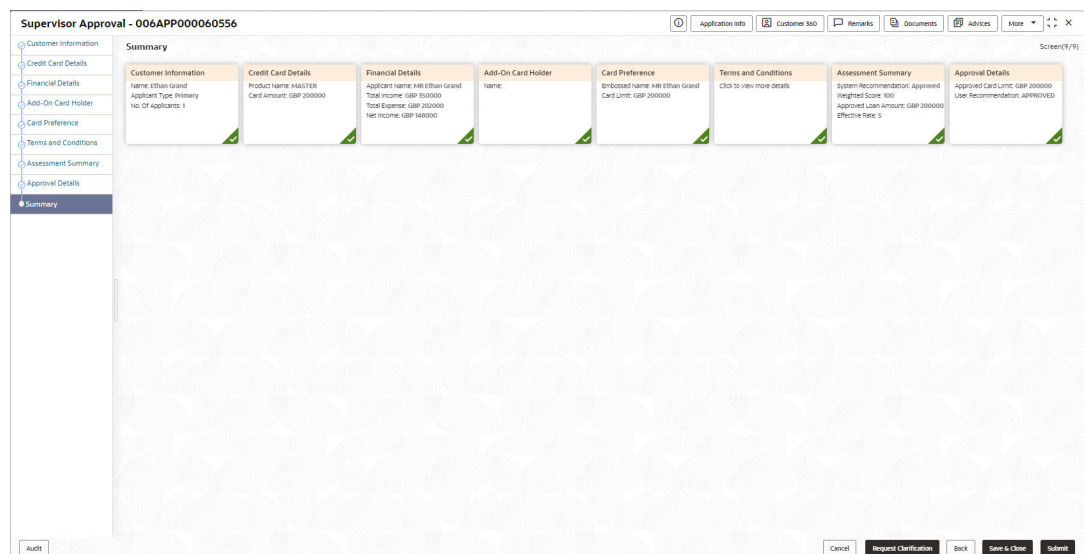

This topic provides the systematic instructions to view the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

The system will display the summary of each of the data segments in as many tiles as the number of data segments in the given stage.

1. Click **Next** in **Approval Details** screen to proceed with the next data segment, after successfully capturing the data.

The **Summary - Supervisor Approval** screen displays.

**Figure 2-33 Summary**

Each of these summary tiles are clickable and the user will have the option to view all the details captured under the given data segment.

For more information on fields, refer to the field description table.

**Table 2-23 Summary - Supervisor Approval - Field Description**

Data Segment	Description
<b>Customer Information</b>	Displays the customer information.
<b>Financial Details</b>	Displays the financial details.
<b>Add-On Card Holder</b>	Displays the Add-On Card Holder details.
<b>Card Preference</b>	Displays the Card Preference details.
<b>Assessment Summary</b>	Displays the assessment summary details.
<b>Approval Details</b>	Displays the approval details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and the documents for this stage can be validated or verified.
3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the

overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.

OR

Click **Proceed**. The Checklist screen appears.

4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
  - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the Supervisor Approval stage for the Credit Card Application. The Workflow Orchestrator will automatically move this application to the next processing stage, Account Creation. The stage movement is driven by the business configuration for a given combination of Process Code, Life Cycle and Business Product Code.
  - Select the **Reject by Bank** to reject the submission of this application.
6. Enter the remarks in **Remarks**.
7. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
8. Click **Close** to close the window.

OR

Click **Go to Free Task**.

The following notification that are sent to the user, if application is initiated from assisted channel, and to the Oracle Banking Digital Experience customer, if application is initiated from self-service.

Reject by Bank will terminate the application and no further action will be allowed on this reference number.

After the Host creates the Credit Card Account successfully, the response is sent back to the Oracle Banking Origination with the Credit Card Account Number. The details of all the applications which have logically completed all their stage movements, (Rejected / Account Created) will be made available in Completed tasks for query purpose only.

Refer to **Alerts and Dashboard User Guide** for the Dashboard details.

## 2.4 Global Actions

This topic provides the detailed on the actions that can be performed in all stages.

This section appears are the top of the right pane and is applicable for all the account opening stage. You can add, edit, view or delete the information from the respective section.

Below are the list of global actions:

- [Application Info](#)  
In this section you can view the application number along with its product name.
- [Customer 360](#)  
In this section you can view the list of customers involved in the application.

- [Application Details](#)  
In this section you can view the detailed information of an application, such as basic details, application status, applicant details that are involved, clarification details and advices details.
- [Remarks](#)  
In this section you can view or the post the remarks.
- [Documents](#)  
In this section you can upload the document and also view the already uploaded documents.
- [Advices](#)  
You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.
- [Condition and Convenants](#)  
You capture conditions and convenants details for the loan applications.
- [Solicitor Details](#)  
You can add the solicitor details using this section.
- [Clarification Details](#)  
In this section you can request for clarifications.

## 2.4.1 Application Info

In this section you can view the application number along with its product name.

- Click the **Application Info** button to view the details.  
The **Application Info** screen appears with the Application Number and Business Product fields.

**Figure 2-34 Application Info**

## 2.4.2 Customer 360

In this section you can view the list of customers involved in the application.

The separate tiles of all the customers involved in the application appears. You can click on the respective customer tile to view the 360 degree details of that customer.

1. Click **Customer 360** to view the list of customer involved in the application.

The **Customer 360** screen is displayed.

Figure 2-35 Customer 360

## Customer 360

Ensure that mandatory documents are uploaded, as the system will validate the same during the stage submission.

Mandatory documents can only be deleted in the same stage where it is uploaded.

Non-mandatory documents can be deleted in any stage.

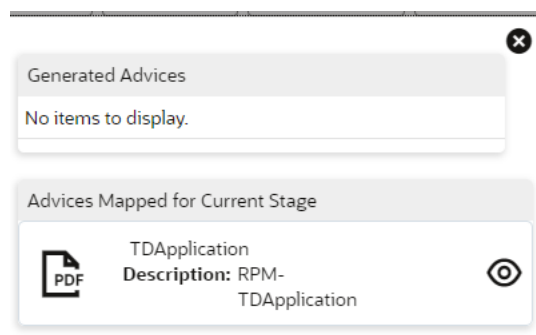

## 2.4.6 Advices

You can view the advices that are shared with customer. Advices are generated post Application Entry stage is submitted.

- Click **Advices** to view the advice linked for the stage.

The **Advices** screen is displayed.

**Figure 2-39 Advices**

The system will generate the advice on submission of the stage. For Application Entry stage of Product, no advice is configured.

## 2.4.7 Condition and Convenants

You capture conditions and convenants details for the loan applications.

In this section you can add, edit and remove the condition and covenant details .

### Conditions

The Conditions are stipulations and constraints recorded in a contract to restrict the usage of funds, in order to ensure proper utilization of funds for the specified purposes and to adhere to a stipulated schedule.

#### To add conditions:

1. From the **More** option, click the **Conditions & Convenants** to add or remove the conditions details.

The **Conditions & Convenants** page appears.

**Figure 2-40 Conditions**

- Click **Add Condition** to add new conditions.

**OR**

Click **Remove** to remove already added conditions.

- Enter the relevant details.

**Table 2-26 Conditions – Field Description**

Field	Description
<b>Entity</b>	Select the entity on which you want to set condition. The available options are <ul style="list-style-type: none"> <li>• <b>Party</b></li> <li>• <b>Collateral</b></li> <li>• <b>Account</b></li> </ul>
<b>Entity ID</b>	Select the entity ID from the list. The options in the list appears based on the entity selected in the <b>Entity</b> field.
<b>Condition</b>	Specify the conditions for the selected entity.
<b>Type</b>	Select the type when the conditions must be complied. The available options are <ul style="list-style-type: none"> <li>• <b>Pre Disbursement:</b> If you select this option then the selected conditions have to be complied prior with the account opening and loan disbursement.</li> <li>• <b>Post Disbursement:</b> If you select this option then the selected conditions occur and are supposed to be complied post loan disbursement. This conditions are manually monitored.</li> </ul>
<b>Status</b>	Select the status of the condition. The available options are <ul style="list-style-type: none"> <li>• <b>Open</b></li> <li>• <b>Complied</b></li> </ul>
<b>Actions</b>	You can perform below actions on the added record: <ul style="list-style-type: none"> <li>• Click <input checked="" type="checkbox"/> to save the record.</li> <li>• Click <input type="checkbox"/> to delete the record.</li> </ul>

- Click **OK**. The conditions are saved.

 **Note:**

All the fields appears with the selected options in tabular format. You can edit the details on clicking the added row.

### Convenants

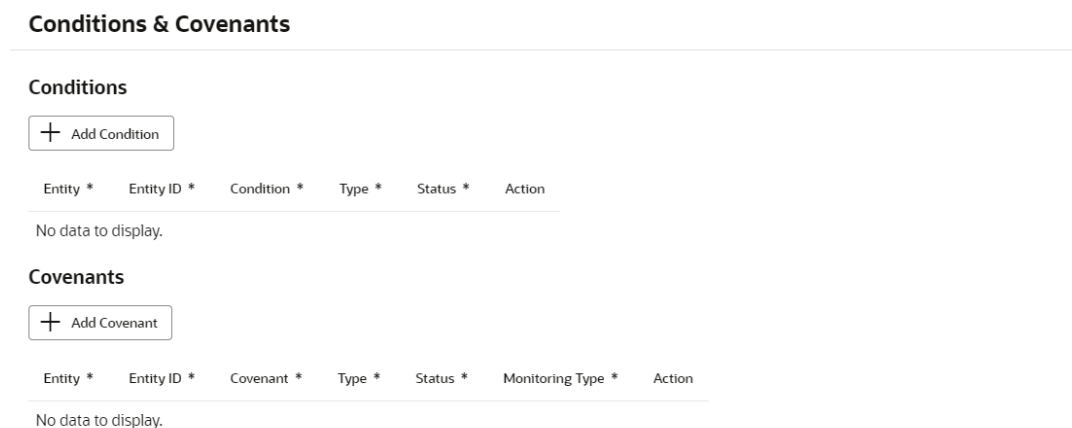

Often there are restrictions on borrowers while extending credit facilities. Sometimes, a borrower promises certain future acts to assure the lender that the conduct of business dealings is fair, healthy and in accordance with the best practices. The purpose of covenant is to assist the lender to ensure the health of loan facilities does not deteriorate suddenly or unexpectedly before maturity.

#### To add convenants:

- From the **More** option, click **Conditions & Convenants** to add or remove the convenants details.

The **Conditions & Covenants** page appears.

**Figure 2-41 Covenants**

6. Click **Add** to add new covenants.
- OR**
- Click **Remove** to remove already added covenants.
7. Enter the relevant details.

**Table 2-27 Covenants – Field Description**

Field	Description
<b>Entity</b>	Select the entity on which you want to set covenants. The available options are <ul style="list-style-type: none"> <li>• <b>Party</b></li> <li>• <b>Collateral</b></li> <li>• <b>Account</b></li> </ul>
<b>Entity ID</b>	Select the entity ID from the list. The options in the list appears based on the entity selected in the <b>Entity</b> field.
<b>Covenants</b>	Specify the covenants for the selected entity.
<b>Type</b>	Select the type when the covenants must be complied. The available options are <ul style="list-style-type: none"> <li>• Financial</li> <li>• Reporting</li> <li>• Undertaking</li> </ul>
<b>Status</b>	Select the status of the covenants. The available options are <ul style="list-style-type: none"> <li>• <b>Open</b></li> <li>• <b>Complied</b></li> </ul>
<b>Monitoring Type</b>	Select the monitoring type for the covenant. The available options are: <ul style="list-style-type: none"> <li>• Fixed</li> <li>• Periodic</li> <li>• Ongoing</li> </ul>

**Table 2-27 (Cont.) Covenants – Field Description**

Field	Description
<b>Actions</b>	You can perform below actions on the added record: <ul style="list-style-type: none"> <li>Click <input checked="" type="checkbox"/> to save the record.</li> <li>Click <input type="checkbox"/> to delete the record.</li> </ul>

- Click **OK**. The covenants are saved.

**Note:**

All the fields appear with the selected options in tabular format. You can edit the details on clicking the added row.

## 2.4.8 Solicitor Details

You can add the solicitor details using this section.

A solicitor is a legal practitioner who traditionally deals with most of the legal matters in some jurisdictions. A person must have legally-defined qualifications, which vary from one jurisdiction to another, to be described as a solicitor and enabled to practice there as such.

In this section you can add or remove the solicitor. You can also view the already added solicitor.

**To add solicitor details:**

- From the **More** option, click the **Solicitor** to add or remove or edit the already added solicitor.

The **Solicitor Details** page appears.

**Figure 2-42 Solicitor**

- Enter the relevant details.

**Table 2-28 Solicitor – Field Description**

Field	Description
<b>Title</b>	Select the title of the solicitor.

**Table 2-28 (Cont.) Solicitor – Field Description**

Field	Description
<b>First Name</b>	Specify the first name of the solicitor.
<b>Middle Name</b>	Specify the middle name of the solicitor.
<b>Last Name</b>	Specify the last name of the solicitor.
<b>Gender</b>	Select the gender of the solicitor from the list.
<b>Date of Birth</b>	Select or enter the birth date of the solicitor.
<b>Registration Number</b>	Specify the registration number of the solicitor.
<b>Communication Address</b>	Capture the communication address of the solicitor.
<b>Address Line 1</b>	Specify the building name.
<b>Address Line 2</b>	Specify the street name.
<b>Address Line 3</b>	Specify the city or town name.
<b>State / Country Sub Division</b>	Specify the state or country sub division.
<b>Country</b>	Select and search the country code.
<b>Zip Code / Post Code</b>	Specify the zip or post code of the address.

3. Click **OK** to save the added solicitor.

## 2.4.9 Clarification Details

In this section you can request for clarifications.

**To add the clarification details:**

1. Click **Clarification Details** to raise a new customer clarification request or view the existing request. The **Clarification** screen appears.
2. Click **Add Request Clarification** button to request new clarification.

The **Request Clarification** screen appears.

**Figure 2-43 Request Clarification**

Type *	Code *	Title *	Description	Remarks	Expiry Date *	Details	Document	Action
Birth Date Proof	Passport Front Side	Passport-Birth date			6/10/2031			

3. In the **Request Clarification** screen enter the subject and description.
4. Click **Add Document** button to upload the document which supports the clarification request.
5. Specify the details in the relevant data fields while adding documents. For more information on fields, refer to the field description table.

**Table 2-29 Upload Document – Field Description**

Field	Description
<b>Document Type</b>	Select the document type.
<b>Document Code</b>	Select the document code.
<b>Document Title</b>	Specify the document title.
<b>Document Description</b>	Specify the description for the document.
<b>Remarks</b>	Specify the remarks for the document.
<b>Expiry Date</b>	Select the document expiry date.
<b>Details</b>	Click the details icon to view below details of the documents: <ul style="list-style-type: none"> <li>• <b>Uploaded Time:</b> Displays the uploaded date and time of the document in hours and mins.</li> <li>• <b>Uploaded By:</b> Displays the user name who uploaded the document .</li> <li>• <b>Stage Uploaded:</b> Displays the stage name on which the document is uploaded.</li> </ul>
<b>Document</b>	Click  to select the document from machine to upload. You can remove the uploaded document before saving the record from the <b>Action</b> column. Post saving the record you must delete the record to remove the document. Below actions are perform on the uploaded document <ul style="list-style-type: none"> <li>• You can preview already uploaded document.</li> <li>• You can download already uploaded document.</li> </ul>
<b>Actions</b>	You can perform below actions on the added record: <ul style="list-style-type: none"> <li>• Click  to save the record.</li> <li>• Click  to delete the record.</li> </ul>

6. Once the details are updated, click **Save**. Clarification Request once raised moves the application to 'Awaiting Customer Clarification' state. The application continues to be assigned to the user who had raised the request. All the applications for which the specified user has requested clarification can be viewed and actioned from the **Awaiting Customer Clarification** sub-menu available under **Task** menu.

Select the Application from the **Awaiting Customer Clarification** sub-menu available under the **Task** menu. Click on the **Clarification Details** from the header.

7. Select the specific clarification to take action on it.

Allowed actions are as following:

- Adding New Conversation

- Withdraw Clarification
- Accept Clarification

Once the Clarification is either withdrawn or accepted, the application moves back to the **My Task** sub-menu available under **Task** menu, post which the user can edit the application and submit the specified stage. Clarification once raised and actioned are available throughout the application processing by the other users working on the other stages of the application by clicking on **Clarification Details** from the header.
