Purpose

Welcome to the **Individual Retirement Account Certificate of Deposit Origination** user guide for Oracle Banking Originations Cloud Service. This document provides an overview of the Savings Account Origination process and takes you through the various steps involved in handling all the necessary activities in the life cycle of a Individual Retirement Account Certificate of Deposit Origination.

Audience

This guide provides instructions and information about the Individual Retirement Account Certificate of Deposit product to help various bank users to deliver quick and efficient service to both customer and prospects.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners,

we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that you are likely to find in the manual are as follows:

Basic Actions

Table 3 Basic Actions

Actions	Functions
Request Clarification	Used to raise a new clarification request. The system allows placing a request for clarification that is needed from the Customer to proceed ahead with the application. The clarification can be for any additional details, confirming specific information, the requirement for any additional document, and so on, from the customer. For more information on Request Clarification, refer to the section Request Clarification.
Back	Used to navigate to the previous data segment within a stage.
Next	Used to navigate to the next data segment, after successfully capturing the data. The system validates all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. Users will not be able to proceed to the next data segment, without capturing the mandatory data.
Save & Close	Used to save the data captured, provided all the mandatory fields are captured and will be available in the My Task list for the user to continue later.
Cancel	Used to close the application without saving. This task appears in Free Task, once the transaction is canceled.

1

Overview

This topic describes about the features of the entire module.

Oracle Banking Originations Cloud Service is a middle office banking solution that offers extensive support for Retail Banking Origination processes. It encompasses a range of products, including Savings Accounts, Current Accounts, Certificate of Deposits, Credit Cards, and various types of loans such as Home Loans, Personal Loans, Education Loans, and Vehicle Loans for individual customers, as well as Term Loans and Business Loans tailored for Small and Medium Business clients.

It enables banks to deliver improved user experience for various bank persons handling defined functions in the life cycle of the various product origination.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectures by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Certificate of Deposit Account is created in the Host. The new work-flow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

The convenience of configuring appropriate stages and the respective data segments within each of these stages, which can be business driven, is hosted and architectures by our new platform solution. The random access navigation between data segments within a given stage with appropriate validations, helps enable the business user to capture apt information anytime during the account open process before the Individual Retirement Account Certificate of Deposit Account is created in the Host. The new work-flow also supports capturing of relevant documents, stage wise, and generation of advices and notifications dynamically.

This user guide explains the reference work-flow for the Individual Retirement Account Certificate of Deposit Account Origination process and further details the data that needs to be captured in the data segment linked to the specific stages.

This process initiates with the receipt of Individual Retirement Account Certificate of Deposit opening form and related documents from a customer for opening of a Individual Retirement Account Certificate of Deposit. The bank verifies the details and documents submitted for opening of Certificate Deposit to ensure completeness and initiates the Individual Retirement Account Certificate of Deposit Origination process by selecting the desired Individual Retirement Account Certificate of Deposit Product from the Product Catalogue.

IRA Certificate of Deposit Origination

This topic provides detailed information on the defined stages through which the Individual Retirement Account Certificate of Deposit application has to flow.

As detailed in the **Operations** user manual, all the Product Originations are initiated in the **Application Initiation** stage from the Product Catalogue. The **Cart Operation** in Product Catalogue allows to originate single or Product initiation. Once the Individual Retirement Account Certificate of Deposit product origination process is initiated as a single product origination selection, Process Orchestrator generates the Individual Retirement Account Certificate of Deposit Process Reference Number on submit of the **Application Initiation** stage. Process Orchestrator also updates the record in the **Free Task** process for the **Application Entry** stage also referred as **Task** from orchestrator perspective.

The IRA Certificate of Deposit Account Origination Process flow comprises of the following stages and the detailed information of the same is available in the following topics:

The user will have the option to view all the details captured under the given data segment.

 Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-11 Summary - Field Description

Data Segment	Description
Applicants	Displays the applicants details.
Account Details	Displays the account details.
Funding	Displays the funding details.
Payout Instruction	Displays the payout instruction.
Beneficiary Details	Displays the beneficiary details.
Terms and Conditions	Displays the term and condition details.

- Click **Submit** to proceed to the **Outcome** stage., where the overrides, checklist and documents for this stage can be validated or verified.

3. In the **Override** screen, the message appears in case there is any override. Overrides are basically warnings that are raised during the business validations. User has to accept the overrides to proceed further. Alternatively, user can go back and correct the data to ensure overrides do not arise. In case of override, click **Accept Overrides & Proceed** to proceed.
OR
Click **Proceed**. The Checklist screen appears.
4. In the **Checklist** screen the system displays the error message if document checklist is not verified. Click **Proceed Next** to proceed. The **Outcome** screen appears.
5. Select the checkbox to accept the checklist.
6. Click **Save & Proceed**. The **Outcome** screen is displayed.
7. In the **Outcome** screen, select appropriate option from the **Select to Proceed** field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Application Entry** stage for the saving application. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
8. Enter the remarks in Remarks.
9. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
10. Click **Close** to close the window.
OR
Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Individual Retirement Account Certificate of Deposit Account] to the other stages. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.2 Application Documents

This topic describes the process of the documents that are uploaded related to application.

The Application Documents stage provides the view of the outbound documents that are generated and dispatched to the applicants involved in the application.

To generate and dispatch the outbound documents:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Application Documents stage is displayed.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Document Generation](#)
In this data segment you can generate and dispatch the documents that are configured.
- [Document Acceptance](#)
In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

2.2.1 Document Generation

In this data segment you can generate and dispatch the documents that are configured.

In the Document Generation data section, a table displays a pre-populated list of documents that are retained within the document generation event and meet the specified rule criteria. The document generation events are established in the **Advice Maintenance** screen.

To generate and dispatch the document:

1. On acquiring the **Application Document** task, the **Document Generation** stage is displayed.

Figure 2-12 Document Generation

The screenshot shows the 'Document Generation' screen for application '006APP00005631'. The interface includes a top navigation bar with tabs for 'Application Info', 'Application Details', 'Customer 360', and 'Documents'. A left sidebar contains 'Document Generation' (selected), 'Document Acceptance', and 'Review'. The main area has a 'Document Generation' section with 'Generate', 'Dispatch', and 'Reset' buttons. Below is a table with columns: Document Name, Receiving Party, Delivery Mode, Delivery Details, Status, Status Details, and Action. One document is listed: 'CASA Privacy Notice Generated Document' for 'Nathan A Park (Primary)' with 'Email' delivery mode to 'shanti.baliga@oracle.com'. An 'Email Sent' button is next to it. At the bottom are 'Audit', 'Cancel', 'Request Clarification', 'Save and Close', and 'Next' buttons.

2. In the **Document Generation** section, select the check box to select the document from the list. It is mandatory to select atleast one document

You can perform below actions on the seletced document:

- **Generate:** Click this button to generate the selected document. On clicking this button the system invokes a call to the report generation service which generates a PDF output for the advice onfigured in the Advice Maintenance screen. Once the output is generated the documents are stored in the document managed service (DMS) along with the reference ID. This reference ID fetches the document on click the Generate Document link in the Document column.
- **Dispatch:** Click this button to dispatch the selected generated documents. You can only dispatch those documents which are not already dispatched. On clicking this button the system validates whether the document is already generated. Once the validation is successful the system dispatch the document to the default setting defined in the Advice Maintenance screen.
- **Reset:** Click this button to reset the action performed on the document.

For more information on fields, refer to the field description table.

Table 2-12 Document Generation – Field Description

Field	Description
Document Name	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. This link appears only if the document is generated.
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
Delivery Mode	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen. The available options are: • Email • Post • Print • e-Sign Remote • e-Sign In-Person
Delivery Details	Displays the delivery details of the generated documents based on the default delivery mode. • If the delivery mode is Email or e-Sign Remote then the preferred email address of every recipient is displayed. • If the delivery mode is Post then the preferred address of every recipient is displayed. • If the delivery mode is e-Sign In-Person then the link is shared with every recipients and in this case the status appears as Pending For Link Generation. Once the dispatch event is executed successfully, the status appears as Link Generated. • If the delivery mode is Print then the Not Applicable text appears.
Status	Displays the status of the documents based on the actions performed on clicking Generate or Dispatch button. Once the dispatch process is initiated for the generated documents, the status appears based on the selected default mode of delivery. • If the mode of delivery is Email then on the successful trigger the status appears as Email Sent. • If the mode of delivery is E-Sign Remote or E-Sign In-Person then on the successful trigger the status appears as E-Signing Initiated. • If the mode of delivery is Post then on the successful trigger the status appears as Dispatched. • If the mode of delivery is Print then on the successful trigger the status appears as Ready for Print. • In case the dispatch process fails due to technical error then the status appears as Failed.
Status Details	Displays the status details of the document. Click the icon to view the generation and dispatched details of document along with the date and time.
Action	Select the appropriate icon to perform respective action. • Click  to edit the delivery mode. • Click  to save the edited delivery mode. This icon appears once you are edit mode.

3. Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

2.2.2 Document Acceptance

In this data segment you can capture the acceptance of the documents that are already generated and dispatched.

The Document Acceptance data segment populates the list of documents that appeared in the **Document Generation** data segment and are mark as **Yes** in the **Acceptance** field in the **Advice Maintenance** screen.

If the document is marked as No in the Acceptance field in the Advice Maintenance screen then the e-sign acceptance process is not required for that document and hence it will not appear in this data segment.

To accept the document:

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Document Acceptance** screen appears.

Figure 2-13 Document Acceptance

2. In the **Document Acceptance** section, select the check box to select the document from the list and perform appropriate actions.

For more information on fields, refer to the field description table.

Table 2-13 Document Acceptance – Field Description

Field	Description
Refresh Status	Click Refresh Status button to refresh the status of the documents.

Table 2-13 (Cont.) Document Acceptance – Field Description

Field	Description
Document Name	Displays the name of document. Click the link to fetch the document from the stored service and view the PDF output of the document. • Generated Document: This link appears only if the document is generated atleast onces. • Accepted Document: This link appears only if the E-Signed document is uploaded.
Receiving Party	Displays the name of the applicant along with the role. The document is generated and dispatched to the applicants mentioned in this column. The name appears as captured in the Applicant data segment.
Delivery Mode	Displays the default mode of delivery of the documents. This default mode of delivery is defined in the Advice Maintenance screen. The available options are: • Email • Post • Print • e-Sign Remote • e-Sign In-Person
Delivery Details	Displays the delivery details of the generated documents based on the default delivery mode. • If the delivery mode is Email or e-Sign Remote then the preferred email address of every recipient is displayed. • If the delivery mode is Post then the preferred address of every recipient is displayed. • If the delivery mode is e-Sign In-Person then the link is shared with every recipients and in this case the status appears as Pending For Link Generation. Once the dispatch event is executed successfully, the status appears as Link Generated. • If the delivery mode is Print then the Not Applicable text appears.
Status	Displays the status of the documents based on the actions performed on the document.
Status Details	Displays the status details of the document. Click the icon to view the generation, dispatched and acceptance details of document along with the date and time.
Action	Select the appropriate icon to perform respective action. • View: You can view the documents only if the Delivery Mode is defined as E-Sign Remote or E-Sign In-Person. • Upload Document: You can upload documents only if the Delivery Mode is defined as Email, Print or Post. • Delete: You can upload documents only if the Delivery Mode is defined as Email, Print or Post.
Customer Response	Select the customer response for the documents. The available options are: • Accept: Select to accept the application documents. You can select this option only if the acceptance status of all the document is Accepted. • Reject: Select to reject the application documents. If the acceptance status of any one of the document is declined then this option appears auto-selected. • Amend: Select to amend the application document status.

Table 2-13 (Cont.) Document Acceptance – Field Description

Field	Description
Date of Response	Select the date on which the customer response is captured. This date should be greater or equal to current date.
Reason	Select the reject reason from the drop-down list.

- Click **Next** to navigate to the next data segment, after successfully capturing the data. The system will validate all mandatory data segments and data fields. If mandatory details are not provided, the system displays an error message for the user to take action. User will not be able to proceed to the next data segment, without capturing the mandatory data.

2.3 Manual Debit Assessment

The topic describes the manual debit assessment process.

In the process of an account opening of deposit product this stage appears if the bureau status of any applicant is mark as **Referred**. The user can manual change the status of the applicant to proceed.

To open manual debit assessment task:

- Scan the records that appears in the **Free Task** list.
- Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The **Manual Debit Assessment** stage is displayed.
The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

The **Manual Debit Assessment** stage has the following reference data segments:

- [Bureau Information](#)
This topic describes the bureau information details.
- [Manual Decision](#)
The topic describes the manual decision process.
- [Summary](#)
This topic describes summary of all the data segment.

2.3.1 Bureau Information

This topic describes the bureau information details.

In this data segment user can view the bureau information of application and status of all the applicants that are involved in the application.

- On acquiring the Manual Debit Assessment task, the Bureau Information data segment appears and call to bureau service is initiated for display the bureau information related to application and applicants.

The **Bureau Information** screen appears.

2.3.3 Summary

This topic describes summary of all the data segment.

The Summary displays the tiles for all the data segments in the Manual Debit Assessment stage. The tiles display the important details captured in the specified data segment.

To view the summary and submit the task:

1. Click **Next** in previous screen to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen is displayed

Figure 2-16 Summary-Manual Debit Assessment

2. The user can view all the details captured under the given data segment. For more information on summary tiles, refer to the field description table below.

Table 2-16 Summary

Data Segment	Description
Bureau Information	Displays the bureau information details.
Manual Decision	Displays the manual decision details.

3. Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

2.4 Account Funding Stage

This topic provides the detailed information about the account funding stage data segments.

Users having functional access to the Account Funding Stage will be able to view the record in the Free Task process.

To add funding details:

1. Scan the records that appears in the **Free Task** list.
2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Funding stage is displayed.

The Account Funding stage has the following data segments in which the user can only view the data:

- **Account Details:** - For detailed information, refer the Account Details data segment in the Application Entry stage.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- **Funding**
This topic provides the systematic instructions to capture the funding details of Individual Retirement Account Certificate of Deposit account.
- **Summary**
This topic provides the systematic instruction to view the tiles for all the data segments in the account funding stage.

2.4.1 Funding

This topic provides the systematic instructions to capture the funding details of Individual Retirement Account Certificate of Deposit account.

In this data segment you can capture the funding details to fund the Individual Retirement Account Certificate of Deposit account.

1. Click **Next** in previous data segment screen to proceed with the next data segment, after successfully capturing the data.

The **Funding** screen displays.

Figure 2-17 Funding

The screenshot displays the 'Funding' screen within the Oracle application. The top navigation bar includes tabs for 'Application Info', 'Application Details', 'Customer 360', 'Remarks', 'Documents', 'Advices', and 'More'. The left-hand menu is expanded, showing options like 'Applicants', 'Account Details', 'Funding' (which is the active segment), 'Payout Instruction', 'Nominee Details', 'Terms and Conditions', and 'Review'. The 'Funding' section contains several input fields: 'Funding Amount' is set to 50,000.00; 'Fund By' has radio buttons for 'Cash', 'Other Bank Cheque', 'Account Transfer' (which is selected), and 'GL Account'; 'Transaction Reference Number' is 578196; and 'Value Date' is March 30, 2018. At the bottom of the screen, there are five buttons: 'Cancel', 'Request Clarification', 'Back', 'Save and Close', and 'Next'.

2. In the **Funding** screen, specify the required details.

 Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-17 Funding

Field Name	Description
Funding Amount	Displays the amount to be funded along with the currency.
Fund By	Select the mode from the drop-down list through which fund are collected. The available options are: • Account Transfer • GL Account
Transaction Reference Number	Specify the transaction reference number. If you select the Cash , Account Transfer , or Other Bank Cheque option from the Fund By drop-down list, this field will become visible.
Value Date	Select the date on which the transaction is performed. By default the current business date is populated.
Account	Select the account number from the list. If you select the GL Account or Account Transfer option from the Fund By drop-down list, this field will become visible. The applicants' Savings and GL accounts are the only ones populated for those who are involved in the application process.

 Note:

The **GL Account** and **GL Account Description** will be applicable depending on the following scenarios:

Table 2-18 Fund By

Fund By	Fund By Mode (In the Origination Preferences screen)	Applicability
Cash	Automatic	Applicable
Cash	Manual	Applicable
Account Transfer	Host	Applicable
Account Transfer	Manual	Applicable
Cheque	Manual	Applicable

In Origination Preference, under Funding Parameters configuration for Individual Retirement Account Certificate of Deposit, if the "Fund by" option is set to anything other than "Manual," the account funding stage in the Individual Retirement Account Certificate of Deposit business process will be skipped, and the application will directly proceed to the Account Approval stage.

3. Proceed by clicking **Next** to move to the subsequent data segment once the data has been successfully captured. The system will verify all required data segments and fields. If any essential information is missing, an error message will be shown to prompt the user to address the issue. Users must complete the mandatory data before they can advance to the next segment.

2.4.2 Summary

This topic provides the systematic instruction to view the tiles for all the data segments in the account funding stage.

The Summary displays the tiles for all the data segments in the Account Funding stage. The tiles display the important details captured in the specified data segment.

1. Click **Next** from the previous data segment to proceed with the next data segment, after successfully capturing the data.

The **Summary** screen displays.

Figure 2-18 Summary

The user will have the option to view all the details captured under the given data segment.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Table 2-19 Summary - Field Description

Data Segment	Description
Account Details	Displays the account details.
Funding	Displays the initial funding details.

2. Click **Submit** to reach the **OUTCOME**, where the overrides, checklist and documents for this stage can be validated or verified.

3. In the **Override** screen, the message appears in case there is any override. During business validations, the system raises warnings as overrides. The user must accept them to continue. The user can go back and collect the data to prevent overrides from occurring. Then, they can click "**Accept Overrides & Proceed**" to proceed.
OR
Click **Proceed**. The Checklist screen appears.
4. On the **Checklist** screen, you will see an error message if the document checklist is not verified by the system. Click **Proceed Next** to continue. The **Outcome** screen then appears.
5. Select the check box to accept the checklist.
6. Click **Save & Proceed**. The **Outcome** screen is displayed.
7. In the **Outcome** screen, select appropriate option from the Select to Proceed field.
 - Select the **Proceed** to proceed with the application. By default this option is selected. It will logically complete the **Account Funding Stage** for the Individual Retirement Account Certificate of Deposit application. The Work flow Orchestrator will automatically move this application to the next processing stage, **Account Approval Stage**. The stage movement is driven by the business configuration for a given combination of **Process Code**, **Life Cycle** and **Business Product Code**.
 - Select the **Return to Application Entry** to return to application entry stage. The system generates the Application Entry task that appears in **Free Task** to acquire and edit.
 - Select the **Reject by Bank** to reject the submission of this application. The application is terminated, and an email is sent to the borrower or customer with a rejection advice.
8. Enter the remarks in Remarks.
9. Click **Submit** to submit the Application Entry stage. The confirmation screen appears with the submission status, the Application Reference Number and the Process Application Reference Number.
10. Click **Close** to close the window.
OR
Click **Go to Free Task**. The system successfully moves the Application Reference Number along with the process reference numbers [Individual Retirement Account Certificate of Deposit Account] to the other stages. This application will be available in the FREE TASKS list. The user who has the access rights will be able to acquire and proceed with the next processing stage of the application.

2.5 Account Approval Stage

This topic provides the detailed information about the account approval stage data segments.

Users having functional access to the Account Approval stage will be able to view the record in the Free Task process.

The Account Approval stage comprises of the data segments of the previous stages. Since the data segment are in view only mode and have been completed in the previous stages, the Account Approval stages are launched with the Application Information segment.

To approve an account opening:

1. Scan the records that appears in the **Free Task** list.

2. Click **Acquire and Edit** or **Acquire** from the **Action** column of the appropriate record. The Account Approval stage is displayed.

The Account Approval stage has the following data segments in which the user can only view the data:

- **Applicant** – For detailed information, refer the Customer Information data segment in the Application Entry stage.
- **Account Details** - For detailed information, refer the Account Details data segment in the Application Entry stage.
- **Account Funding Details** – For detailed information, refer the Account Funding Details data segment.
- **Payout Instruction** – For detailed information, refer the Payout Instructions data segment in the Application Entry stage.
- **Beneficiary Details** – For detailed information, refer the Beneficiary Details data segment in the Application Entry stage.
- **Terms and Conditions** – For detailed information, refer the Terms and Conditions data segment in the Application Entry stage.

The data segments appears as configured in business process. Refer below chapters for detailed information of each data segment.

- [Account Approval Details](#)
This topic provides the systematic instruction to view the details captured for the account approval details in the account approval stage.
- [Summary](#)
This topic provides the systematic instruction to view the tiles for all the data segments in the account approval stage.

2.5.1 Account Approval Details

This topic provides the systematic instruction to view the details captured for the account approval details in the account approval stage.

The **Account Approval Details** data segment displays the application details.

1. On acquiring the TD Account Approval stage, the Account Approval Details stage is displayed.

The **Account Approval Details** screen displays.

Figure 2-19 Account Approval Details

- Specify the fields on **Account Approval Details** screen.

Note:

The fields, which mentioned as Required, are mandatory.

For more information on fields, refer to the field description table.

Rose Mary, who is 32 and married, has applied for a loan of £498,000 with a repayment plan of 120 months. Her net monthly income is £5,000 and her expenses are £2,000, leaving her with a monthly surplus of £3,000. She plans to use the loan to purchase a property. Rose Mary has an 750 observation score. The loan amount is £498,000 and the institution rating is 0.0.

Risk Analysis Report

Rose Mary, who is 32 years old and married, has applied for a home loan of GBP 498,000 with a loan term of 120 months. Rose Mary has a net income of GBP 50,000 and an asset value of GBP 500,000. Her credit score is 750, and she has no existing loan payments. We would consider this application to be low risk. Our decision is based on the fact that Rose Mary has a healthy financial profile with sufficient income, a positive credit history, and no existing debt. We would recommend approving this loan application subject to meeting the remaining internal requirements.

Valuations:

- Credit Score: High
- Collateral: High
