This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

- [Screenshot Disclaimer](#)

Purpose

This guide helps to get started with Oracle Banking applications. It explains the basic design of Oracle and the common operations that can follow while using it. The guide must be used as a supplement and read in conjunction with Common Core, Security Management System, and other application user guides.

Audience

This guide is intended for the Customer Service Representatives (CSR) and staff responsible for setting up new products in your bank.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve.

Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1

Access Application

The user can access any application using the link provided by the administrator. Please contact the administrator for URL and the login credentials.

For more information on Users and Roles, refer to **Oracle Banking Security Management System User Guide**.

- [Sign In](#)
This topic provides systematic instructions to sign in to the application.
- [Sign Out](#)
This topic provides systematic instructions to sign out from the application.

1.1 Sign In

This topic provides systematic instructions to sign in to the application.

Make sure that a valid user name and password is created for the user.

1. Specify the URL in the browser address and press **Enter**.

The **Sign In** screen displays.

Figure 1-1 Sign In

The screenshot shows a web-based sign-in interface. At the top, the word "ORACLE" is displayed in a large, red, sans-serif font. Below the logo, the text "User Name" is positioned above a white rectangular input field. Further down, the text "Password" is positioned above another white rectangular input field. At the bottom center of the form area, there is a black rectangular button with the text "Sign In" in white.

2. Specify the required fields on **Sign In** screen.
For more information on fields, refer to the field description table.

Table 1-1 Sign In – Field Description

Field	Description
User Name	Specify the user name provided by the administrator.
Password	Specify the password provided by the administrator.

3. Click **Sign In** to login to the application.

The **Home** screen displays.

1.2 Sign Out

This topic provides systematic instructions to sign out from the application.

Make sure that all the fields are entered and saved.

1. In the selected application, navigate to toolbar.
2. From toolbar, click user name logged into the application.

The **User Profile** fly-out screen displays.

Figure 1-2 User Profile

3. Click **Log out** to sign out from the application.

The application logs out.

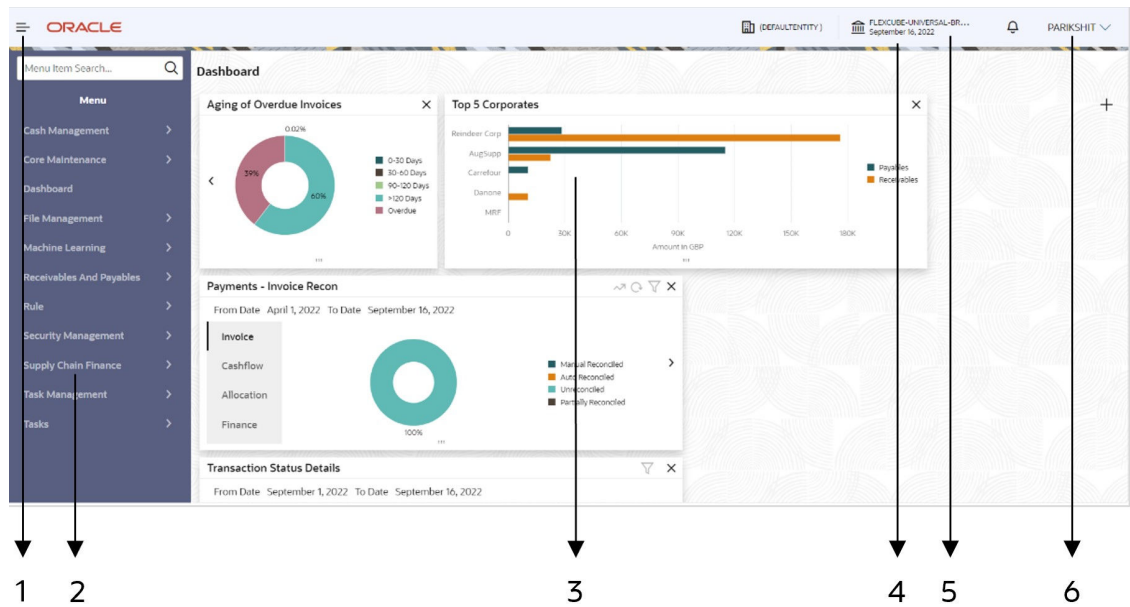

2

Application Environment

This topic describes about the various fields available in the application environment.

On successful login, the application environment screen appears depending on the user privileges.

Figure 2-1 Application Environment

For more information on fields, refer to the field description table.

Table 2-1 Application Environment - Field Description

Field	Description
Hamburger Menu	Click to expand/collapse the menu.
Menu	Click to navigate/open the screens associated with the application.
Sub-Menu	Click to navigate/open the screens associated with the application. These screens are associated with the menu depending on the user privileges.
Display Grid	Displays the screens/dashboards.

Table 2-1 (Cont.) Application Environment - Field Description

Field	Description
Bank Name	Displays the name of the bank and its branch code. Click to select the branches associated with the logged in user.  Note: Depending on the logged in user and the branches associated, the user can switch between branches and view the records.
Application Date	Displays the last performed application date of branch's EOD.
User Profile	Displays the user profile related options and actions.

- [Screen Environment](#)
This topic describes about the various components in the screen environment.

2.1 Screen Environment

This topic describes about the various components in the screen environment.

There are three types of screens in the application.

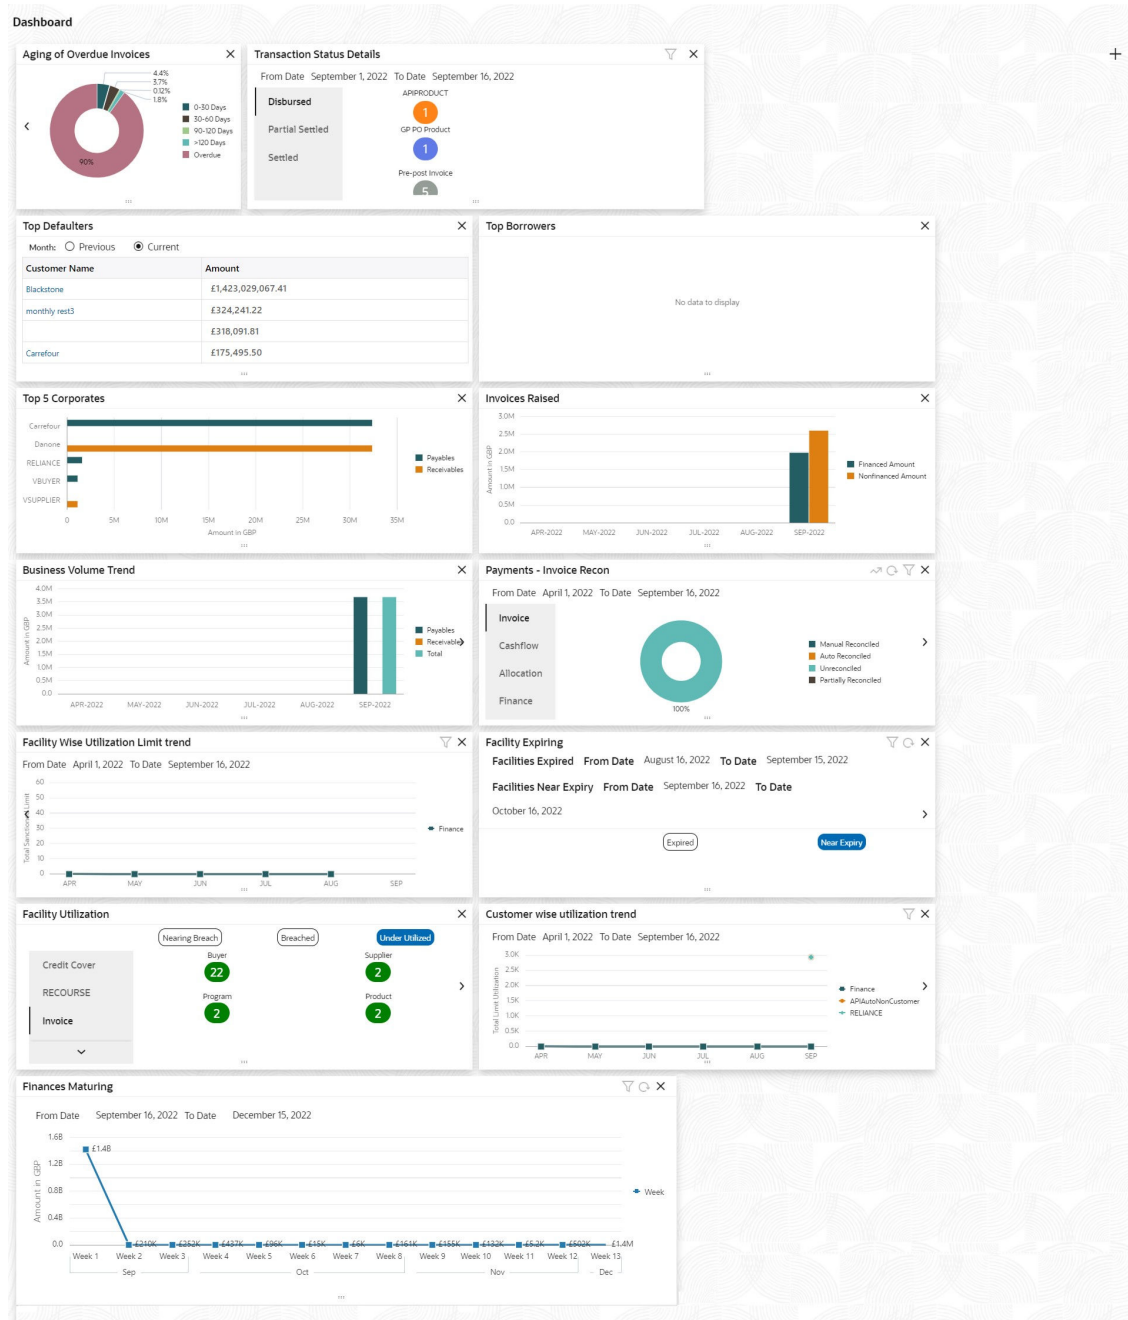

- [Dashboard](#)
This topic describes about the various components in the dashboard.
- [Maintenance Screen](#)
This topic describes about the various components in the Maintenance screen.
- [Summary Screen](#)
This topic describes about the various components on the summary screen.

2.1.1 Dashboard

This topic describes about the various components in the dashboard.

Depending on the access/permission provided to the logged-in user, the user can view the dashboards associated with the user. These dashboard helps the user to analyze the situation and take the necessary actions.

Figure 2-2 Dashboard

2.1.2 Maintenance Screen

This topic describes about the various components in the Maintenance screen.

Depending on the access/permission provided to the logged-in user, the user can access the Maintenance screen. The Maintenance screen allows the user to create/configure the new records using the fields associated with the selected create screen. These new records can also be saved.

Figure 2-3 Maintenance Screen

For more information on fields, refer to the field description table.

Table 2-2 Maintenance Screen – Field Description

Field	Description
Fields	Displays the fields associated with the selected create screen. There are several types of fields such as text box, drop-down, and so on. These fields are either mandatory or options fields. For more information, refer to Mandatory and Optional Fields .
Tile bar	Displays the name of the screen, minimize, and remove actions. For more information, refer to Minimizing Records and Close the Records .
Save	Click to save the entered details.
Cancel	Click to cancel the entered details.

2.1.3 Summary Screen

This topic describes about the various components on the summary screen.

Depending on the access/permission provided to the logged in user, the user can access the summary screen. The summary screen provides information about the configured records, where the user can perform few common actions and view the records.

Figure 2-4 Summary Screen

Table 2-3 Summary Screen – Field Description

Field	Description
Search	Click to search/view a record.
Refresh	Click to refresh all configured records.
Add	Click to create/configure a new record.
Pagination	Displays the number of items available and its page numbers.
Title bar	Displays the name of the screen, minimize, and remove actions. For more information, refer to Minimizing Records and Close the Records .
Records	Displays the configured records. The user can view the records in different format. For more information, refer to View the Records .
Tile view	Displays the configured records in the tile format.
List view	Displays the configured records in the list format.

3

How to's

This topic describes about the different types of actions that the user can perform.

As a new user, you need to perform a set of tasks that are similar in all the screens such as view, edit, delete existing records, and more.

When the user is working with records, it is important to remember that any records that user create, view, edit, delete, and more are determined by administrator settings such as user profile or permission set. Work with the administrator to ensure that the user have access to the records and data.

Now, you have learned how to work with your records, you might want to explore more advanced features.

- [Access the Records](#)
This topic provides systematic instructions to access the records.
- [View the Records](#)
This topic describes about the various formats to view the records.
- [Search the Records / Transactions](#)
This topic describes the instruction to search the records/transactions.
- [Refresh the Records](#)
This topic provides systematic instructions to refresh the records.
- [Create / Configure the Records](#)
This topic provides systematic instructions to create / configure the records.
- [Copy the Records](#)
This topic provides systematic instructions to copy the record.
- [Unlock the Records](#)
This topic provides systematic instructions to unlock the record.
- [Reopen the Records](#)
This topic provides systematic instructions to reopen the record.
- [Delete the Records](#)
This topic provides systematic instructions to delete the record.
- [Print the Records](#)
This topic provides systematic instructions to print the record.
- [Authorize the Records / Transactions](#)
This topic describes the instruction to authorize the records/transactions.
- [Minimize and Maximize the Records](#)
This topic provides systematic instructions to minimize and maximize the screen.
- [Close the Records](#)
This topic provides systematic instructions to close the record.
- [Audit the Records](#)
This topic provides systematic instructions to audit the record.

3.1 Access the Records

This topic provides systematic instructions to access the records.

The user can access the screens on the permissions/rights provided for the user.

Specify **User ID** and **Password**, and login to **Home** screen.

1. Navigate to the hamburger menu.
By default, the hamburger menu is expanded.
2. Click <sub-menu>, and click <name of the screen>.
The screens associated with the sub-menu appears.
3. Click Create <name of the screen>.
The Create <name of the screen> screen displays. The user can create/configure the new records.
4. Click View <name of the screen>.
The View <name of the screen> screen displays. The user can view the configured records.

3.2 View the Records

This topic describes about the various formats to view the records.

The user can view the summary of all configured records in the selected summary screen. This helps you to find the required record faster.

The various formats to view the records are as follows:

- [Tile View](#)
This topic describes about viewing the records in tile view.
- [Tile View with Context Menu](#)
This topic describes about viewing the records in tile view with context menu.
- [List View](#)
This topic describes about viewing the record in list view.

3.2.1 Tile View

This topic describes about viewing the records in tile view.

The default summary view of the records are tile view. Displays the configured records in a tile format with few key fields that are associated with the screen. The user can click a tile to open a record in a full screen and view the details.

Figure 3-1 Tile View

3.2.2 Tile View with Context Menu

This topic describes about viewing the records in tile view with context menu.

Tile view with context menu is similar to any tile view summary record. The context menu allows the user to perform any actions that are associated with the records.

Figure 3-2 Tile View with Context Menu

For more information on fields, refer to the field description table.

Table 3-1 Tile View with Context Menu - Field Description

Field	Description
Context Menu	The context menu allows the user to perform actions that are associated with the record.
Context Menu Flyout	A list of all actions appears. The list of actions depend on the status of the record.

3.2.3 List View

This topic describes about viewing the record in list view.

The list view displays the configured records in a list format.

1. Navigate to **View** screen.
2. Click **List View** on the action toolbar to view the details.

The **List View** displays with the details.

Figure 3-3 List View

3.3 Search the Records / Transactions

This topic describes the instruction to search the records/transactions.

- [Search the Records](#)
This topic provides systematic instructions to search the records.
- [Search the Transactions](#)
This topic provides the systematic instructions to search the transactions.

3.3.1 Search the Records

This topic provides systematic instructions to search the records.

1. Navigate to **Summary - Maintenance** screen.
2. Click **Search** button.

The fields associated with the screen displays.

- Specify the required fields.
- Click **Search**.
The requested transaction displays.

3.4 Refresh the Records

This topic provides systematic instructions to refresh the records.

1. Navigate to **Summary** screen.
2. Click **Refresh** button.

The records associated with the screen is updated with the latest details.

3.5 Create / Configure the Records

This topic provides systematic instructions to create / configure the records.

The user can create / configure records in any of the three ways:

1. In the selected **Summary** screen, click **Add** to create / configure a record.
2. On the **menu**, select a **sub-menu** and click **<Create name of the screen>**.

The **Create Host Code** screen shown for reference.

Figure 3-6 Create Host Code

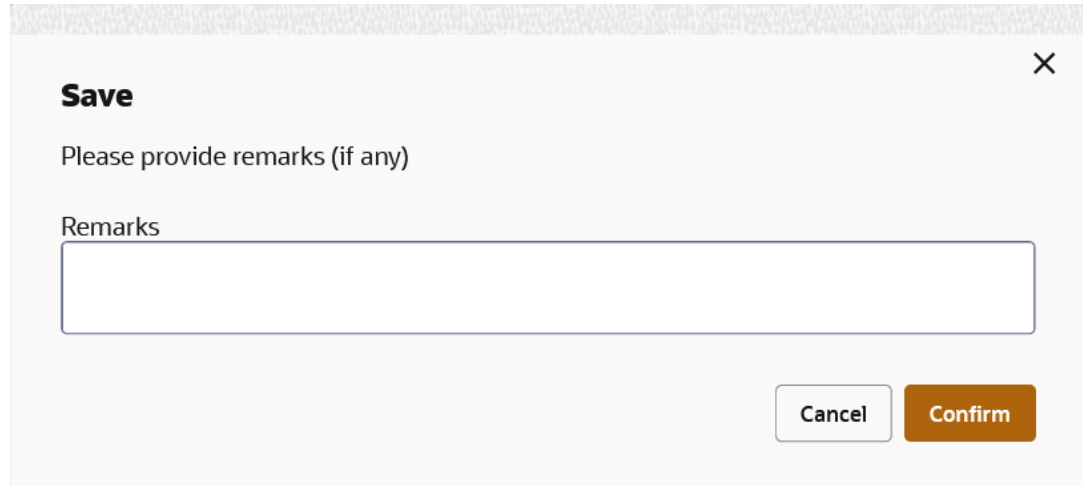

The screenshot shows a web form titled "Create Host Code". The form has a title bar with a maximize and close button. It contains five required input fields: "Host Code", "Description", "Country Code", "Processing Time Zone", and "Default Branch Code". Each field has a search icon and the word "Required" below it. At the bottom right, there are "Cancel" and "Save" buttons.

3. Specify the required details in the respective fields.
4. Click **Save**.

The **Save - Confirmation Message** pop-up screen displays.

Figure 3-7 Save - Confirmation Message

The screenshot shows a modal dialog box titled "Save". At the top right of the dialog is a close button (X). Below the title, the text "Please provide remarks (if any)" is displayed. Underneath is a text input field with the label "Remarks". At the bottom right of the dialog, there are two buttons: "Cancel" and "Confirm".

5. Specify the remarks on the **Remarks** field.

6. Click **Confirm** to save the details.

The record is created and the maker remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.

7. Click **Cancel** to discard the changes.

3.6 Copy the Records

This topic provides systematic instructions to copy the record.

1. Navigate to **Summary** screen.

2. Click on the record that needs to be copied.

3. Click **Copy** to copy the selected record details and do the required changes to the record.

4. Click **Save**.

The modified record is saved.

3.7 Unlock the Records

This topic provides systematic instructions to unlock the record.

1. Navigate to **Summary** screen.

2. Click the record that needs to be unlocked.

3. Click **Unlock** to unlock the selected record details and do the required changes to the record.

4. Click **Save**.

The modified record is saved.

3.8 Reopen the Records

This topic provides systematic instructions to reopen the record.

1. Navigate to **Summary** screen.
2. Click the record that needs to be reopened.
3. Click **Reopen**.
The **Confirmation** screen displays.
4. Specify a remark.
5. Click **Confirm** to reopen the record.

3.9 Delete the Records

This topic provides systematic instructions to delete the record.

Note:

Make sure that the user have privileges and know the guidelines to delete the records.

1. Navigate to **Summary** screen.
2. Click the **Record** that needs to be deleted.
3. Click **Delete**.
The selected record is deleted.

3.10 Print the Records

This topic provides systematic instructions to print the record.

1. Navigate to **Summary** screen.
2. Click the record that needs to be printed.
3. Click **Print** to view the record in a print format.
The selected record is printed.

3.11 Authorize the Records / Transactions

This topic describes the instruction to authorize the records/transactions.

- [Authorize the Records](#)
This topic provides systematic instructions to authorize the record.
- [Authorize the Transactions](#)
This topic provides the systematic instructions to authorize the transaction.

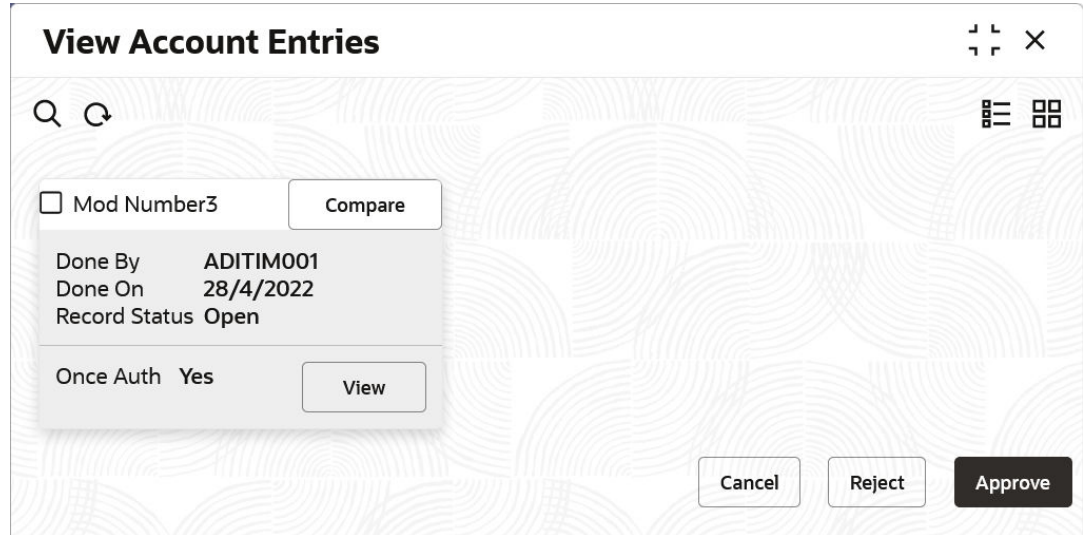

3.11.1 Authorize the Records

This topic provides systematic instructions to authorize the record.

1. Navigate to **Summary - Maintenance** screen.
2. Click **Action** icon on the unauthorized record which needs to be authorized.

3. Click **Authorize**.
The **Authorization** screen displays.

Figure 3-8 Authorization

4. Click **View** to view the record.

 **Note:**

If the **Enforce View before Authorize** toggle is enabled in **External Bank Parameter Maintenance** screen, the user must view the record before approving or rejecting.

5. Click **Cancel** to cancel the authorization of the record.
6. Select the required modification number that must be approved/rejected.

 **Note:**

- If the lower modification has to be rejected, all the higher modifications (if any) must also be rejected.
- If the higher modification has to be approved, all the lower modifications (if any) must also be approved.

To approve the record:

7. Click **Approve** to approve the record.
The **Approval Confirmation** pop-up screen displays.

A dialog box titled "Confirm" with a close button (X) in the top right corner. The text inside reads: "Are you sure you want to approve? Please confirm". Below this is a text input field labeled "Remarks". At the bottom right, there are two buttons: "Cancel" and "Confirm".

8. Specify the approval remarks in the **Remarks** field.

9. Click **Confirm** to approve the record.

The selected record is approved and the approval remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.

10. Click **Cancel** to discard the approval.

To reject the record:

11. Click **Reject** to reject the record.

The **Rejection Confirmation** pop-up screen displays.

A dialog box titled "Confirm" with a close button (X) in the top right corner. The text inside reads: "Are you sure you want to reject? Please provide remarks for rejection." Below this is a text input field labeled "Remarks". At the bottom right, there are two buttons: "Cancel" and "Confirm".

12. Specify the rejection remarks in the **Remarks** field.

 **Note:**

The **Remarks** is mandatory while rejecting the record.

13. Click **Confirm** to reject the record.

The selected record is rejected and the rejection remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.

14. Click **Cancel** to discard the rejection.

3.11.2 Authorize the Transactions

This topic provides the systematic instructions to authorize the transaction.

1. Navigate to **Summary - Transaction** screen.
2. Click **Action** icon on the unauthorized transaction which needs to be authorized.
3. Click **Authorize**.

The **Authorization** screen displays.

7. Click **Cancel** to discard the approval.

To reject the transaction:

8. Click **Reject** to reject the transaction.
The **Rejection Confirmation** pop-up screen displays.

The image shows a 'Confirm' dialog box with a close button (X) in the top right corner. The text inside reads: 'Are you sure you want to reject? Please provide remarks for rejection.' Below this is a text input field labeled 'Remarks'. At the bottom right, there are two buttons: 'Cancel' and 'Confirm'.

9. Specify the rejection remarks in the **Remarks** field.

Note:

The **Remarks** is mandatory while rejecting the transaction.

10. Click **Confirm** to reject the transaction.
The selected transaction is rejected and the rejection remarks can be viewed in **Audit** screen. Refer [Audit the Records](#) topic for the detailed explanation.
11. Click **Cancel** to discard the rejection.

3.12 Minimize and Maximize the Records

This topic provides systematic instructions to minimize and maximize the screen.

1. Navigate to **Summary** screen.
2. Click **Collapse** to minimize the screen.
The minimized screen appears at the bottom left corner of the screen.
3. Click **Maximize** button to maximize the screen.
The screen is maximized.

3.13 Close the Records

This topic provides systematic instructions to close the record.

1. Navigate to **Summary** screen.
2. Click **Remove** button to close the record.
The selected record is closed.

 **Note:**

If the user is in the middle of creating/modifying the records, an error/warning message appears prompting to save the changes.

3.14 Audit the Records

This topic provides systematic instructions to audit the record.

1. Navigate to **Summary** screen.
2. Click **Options** icon and click **Unlock** or **View** button to modify/view the record.
3. On **Maintenance** screen, click **Audit** to view the change history of the record.

The **Audit** detail pop-up screen appears.

Screen / Dashboard

This topic describes about Screen / Dashboard.

This topic contains the following subtopics:

- [Pagination](#)
This topic describes about the pagination details in the screen.
- [Mandatory and Optional Fields](#)
This topic describes about the mandatory and optional fields in the screen.
- [Remove Tile](#)
This topic describes the systematic instructions to remove the tile.
- [Reorder Tile](#)
This topic describes the systematic instructions to reorder the tile.
- [Expand Tile](#)
This topic describes the systematic instructions to expand the tile.
- [Add Tile](#)
This topic describes the systematic instructions to add the tile.

4.1 Pagination

This topic describes about the pagination details in the screen.

The pagination displays the number of records on the bottom left corner of the selected view screen. The number of pages appears depending on the records available. The user can navigate to the first page, last page, previous page, or next page by using the number options.

4.2 Mandatory and Optional Fields

This topic describes about the mandatory and optional fields in the screen.

There are mandatory and optional fields available for any screen. The user can identify the mandatory field with the **Required** text. Once the value is captured, the **Required** text will disappear. If the user tries to save the record without providing all the mandatory fields, the fields are highlighted with the error message at the bottom.

4.3 Remove Tile

This topic describes the systematic instructions to remove the tile.

- Click **Remove** to remove the dashboard widget from the landing page.
The removed widgets are available under the **Add Tiles** option.

4.4 Reorder Tile

This topic describes the systematic instructions to reorder the tile.

- Select and drag the **Drag to Reorder** to drop the dashboard widget at the desired place.
The page is automatically refreshed and displays the updated order.

4.5 Expand Tile

This topic describes the systematic instructions to expand the tile.

- Click **Expand Tile** to view all the information of the dashboard widget.
The expanded widget appears on a complete row to view more information.

4.6 Add Tile

This topic describes the systematic instructions to add the tile.

1. Click **Add Tiles to Dashboard** to add more available dashboard widget to the dashboard landing page.

The **Click on tiles to add them** screen displays.

2. Click on the dashboard that the user wants to add to the dashboard-landing page.
The page is automatically refreshed and displays the added dashboard widget.

5
