This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Purpose

This guide is designed to help acquaint you with the Tasks module of the Oracle® Banking Supply Chain Finance. It provides an overview of the module and guides you, through the various steps involved in viewing, the Supply Chain Finance services for the customers of your bank.

Audience

This guide is intended for the following User/User Roles:

Table 1 Audience

Role	Function
Back office executive	Input functions for transactions
Back office managers/officers	Authorization functions
Product Managers	Product definition and authorization

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations used in this guide are as follows:

Table 2 Acronyms and Abbreviations

Abbreviation	Description
DSL	Domain Specific Language
JSON	JavaScript Object Notation

Basic Actions

The basic actions performed in the screens are as follows:

Table 3 Basic Actions

Actions	Description
Save	Click Save to save the details entered or selected in the screen.
Close	Click Close to close a record. This action is available only when a record is created.
Confirm	Click Confirm to confirm the action performed.
Cancel	Click Cancel to cancel the action performed.
Expand All	Click Expand All to expand and view all the details in the sections. <ul style="list-style-type: none"> This button is displayed once you click Compare.
Collapse All	Click Collapse All to hide the details in the sections. <ul style="list-style-type: none"> This button is displayed once you click Compare.
Menu Item Search	Specify the menu name to search and select the required screens from the list. <ul style="list-style-type: none"> This option is used to search and navigate the required screens.
OK	Click OK to confirm the details in the screen.

Symbols and Icons

The list of symbols and icons available on the screens are as follows:

	Click this icon to add a new row.
	Click this icon to delete a row, which is already added.

1

Task Management

This topic describes the information about the Task Management feature.

Tasks are created to execute certain processes, especially those that need to be processed in bulk. These bulk executions are referred as batch jobs. These bulk executions are referred to as batch jobs. Examples of tasks are:

- Reconciliation of invoices – A task can be created to reconcile all invoices whose due dates have elapsed.
- Auto-debit of maturing finances – All finances that are maturing on a specific day can be settled using the debit accounts set for each of them.
- Acceptance of raised invoices - All invoices that are flagged for auto acceptance on a specific day can be marked as accepted.
- End-of-day processes – This job can include a variety of processes, which need to be executed before the closing of each bank day.

A set of standard tasks is offered with the deployment of the Oracle® Banking Supply Chain Finance application. They are set up as part of the Day 0 installation.

Apart from these standard tasks, an authorized bank user can create additional tasks if required. The Task Management feature enables banks to set up and manage tasks, configure them to be triggered at specific times, or even trigger them manually.

The application consists of the below functions:

- [Create Tasks](#)
This topic describes the systematic instruction to create a task for a specific purpose.
- [View Tasks](#)
This topic describes the systematic instruction to view a list of existing tasks.
- [Configure Tasks](#)
This topic describes the systematic instruction to configure the triggering of a particular task.
- [Trigger Tasks](#)
This topic describes the systematic instruction to trigger tasks manually when required.
- [View Tasks Status](#)
This topic describes the systematic instruction to view the statuses of the triggered tasks.

1.1 Create Tasks

This topic describes the systematic instruction to create a task for a specific purpose.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Task Management**. Under **Task Management**, click **Create Task**.
The **Create Task** screen displays.

Figure 1-1 Create Task

2. On **Create Task** screen, specify the fields.

 **Note:**
The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 1-1 Create Task - Field Description

Field Name	Description
Task Name	Specify a unique name for the task being created.
Task Description	Specify the description for the task being created. The syntax is: appld::<<appld>>;microServiceName::<<microServiceName>>;contextRoot::<<contextRoot>>;type::<< type Of Schedule >>;jobName::<< JOB to be triggered >>;destination::<<Topic for which the trigger is defined>>;cronExpression::<<cronExpression>> (without spaces) The values that must be provided for the appld, the microServiceName, the contextRoot, and the jobName are detailed in the Task Description Formats table. Some of these tasks come as part of the day 0 set up.

Table 1-2 Task Description Formats

Task Name	Task Definition

routingHubAuditSummaryJob	appld::CMNCORE;microServiceName::cmc-obrh-services;contextRoot::cmc-obrh-services;jobName::routingHubAuditSummaryJob;

3. Click **Create** to create the task.

A message appears stating that the record is successfully created.

1.2 View Tasks

This topic describes the systematic instruction to view a list of existing tasks.

The users are also provided with the option to delete a particular task, if required.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Task Management**. Under **Task Management**, click **View Task**.

The **View Tasks** screen displays.

Figure 1-2 View Tasks

Page 1 of 5 (1-10 of 48 items) |< < 1 2 3 4 5 > >|

For more information on fields, refer to the field description table.

Table 1-3 View Tasks

Field Name	Description
Task Name	Displays the name of the task.
Task Description	Displays the description of the task.
Actions	Provides the option to delete the task record.

- Click **Delete** button in the Actions column to delete a particular task.
A message appears stating that the record is deleted.

1.3 Configure Tasks

This topic describes the systematic instruction to configure the triggering of a particular task. This can be done as follows:

- Schedule the task to be triggered on a specific day of the month/week, at a specific time.
- Configure the task to be triggered when a particular event occurs.

Specify **User ID** and **Password**, and login to **Home** screen.

- On **Home** screen, click **Task Management**. Under **Task Management**, click **Configure Tasks**.

The **Configure Tasks** screen displays.

Figure 1-3 Configure Tasks

- On Configure Tasks screen, specify the fields.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 1-4 Configure Tasks - Field Description

Field Name	Description
Task Name	Displays the name of the task.
Task Description	Displays the description of the task.
Actions	Select the option to delete the task record.
Event / Schedule	Select Event if the tasks must be triggered when a particular event occurs. Select Schedule if the tasks must be triggered on a specific day at a specific time, using the CRON expression.
Task Name	Select the task for which a trigger should be configured.
Task Trigger Name	Specify a unique name for the task trigger.
CRON Expression / Topic Name	<p>If you have selected the Schedule option above, then enter the CRON Expression pattern to schedule the triggering of the task for a specific day and time. The pattern is a list of six single space-separated fields, representing second, minute, hour, day, month, and weekday. For the month and weekday, provide the first three letters of their English names.</p> <p>OR</p> <p>If you have selected the Event option, then enter the Topic Name or the destination for which the task should be triggered on the arrival of a new message.</p> <div style="border: 1px solid #0070C0; padding: 10px; margin-top: 10px;"> <p> Note:</p> <p>Examples of CRON expression patterns:</p> <ul style="list-style-type: none"> • "0 0 * * * *" = the top of every hour of every day. • "*/10 * * * * *" = every ten seconds. • "0 0 8-10 * * * *" = 8, 9 and 10 o'clock of every day. • "0 0 6,19 * * * *" = 6:00 AM and 7:00 PM every day. • "0 0/30 8-10 * * * *" = 8:00, 8:30, 9:00, 9:30, 10:00 and 10:30 every day. • "0 0 9-17 * * MON-FRI" = on the hour nine-to-five weekdays • "0 0 0 25 12 ?" = every Christmas Day at midnight </div>

3. Click **Save** to save the configuration and send for authorization (if applicable).

1.4 Trigger Tasks

This topic describes the systematic instruction to trigger tasks manually when required.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Task Management**. Under **Task Management**, click **Trigger Tasks**.

The **Trigger Tasks** screen displays.

Figure 1-4 Trigger Tasks

2

Tasks

This topic describes the various features available in Tasks menu.

Tasks menu has multiple sub-menus such as Business Process Maintenance, Finance, Instruments, Recon and Payment, Refund, and Search. The user can access sub-menus based on their access rights. Each sub-menu segregates tasks into the following categories:

- **Completed Tasks:** This menu displays the tasks which have recently completed a stage in a process by the current user. This menu does not display completed tasks of all stages but displays only those of the latest stage.
- **Free Tasks:** This menu displays the tasks which have not yet been acquired by any user and are accessible to the current user.
- **Hold Tasks:** This menu displays the tasks which have been placed on hold by the current user.
- **My Tasks:** This menu displays the tasks acquired by the current user from the Free Tasks menu.

This topic contains the following subtopics:

- [Business Process Maintenance](#)
This topic describes the systematic instruction to create the workflows.
- [Finance](#)
This topic describes the systematic instruction to view the list of the various tasks under Finance.
- [Instruments](#)
This topic describes the systematic instruction to view the list of the various tasks under Instruments.
- [Recon and Payment](#)
This topic describes the systematic instruction to view the list of the various tasks under Recon and Payment.
- [Refunds](#)
This topic describes the systematic instruction to view the list of the various tasks under Refund.
- [Search](#)
This topic describes the systematic instruction to search for the task(s) with the various filters.

2.1 Business Process Maintenance

This topic describes the systematic instruction to create the workflows.

It comprises of the following three screens:

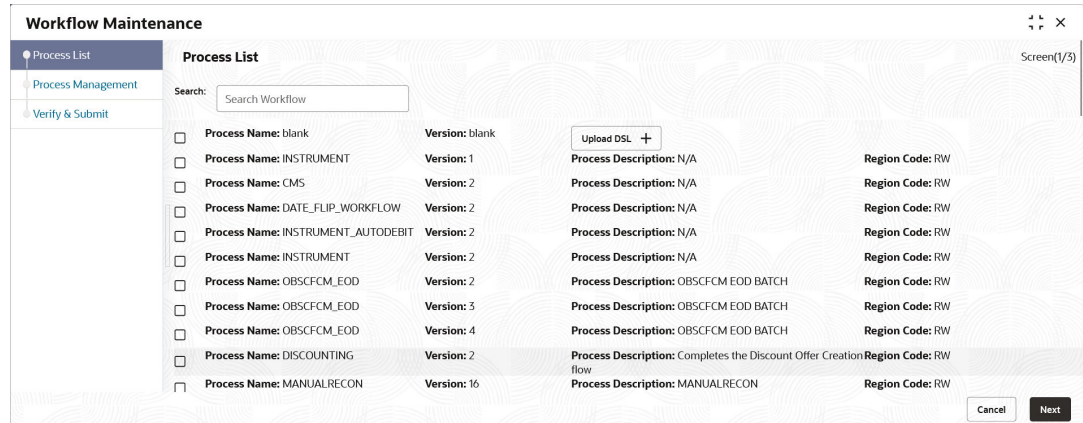

- Process List Screen
- Process Management Screen
- Verify & Submit Screen

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Task Management**. Under **Tasks**, click **Business Process Maintenance**.

The **Process List** screen displays.

Figure 2-1 Process List

2. Select the required process and perform any one of the following actions:
 - Click **Next** to navigate to the next screen.
 - Click **Search** to search for any of the existing workflows/processes.
 - Click **Upload DSL** button to upload a workflow in JSON format.
 - Click **Cancel** button to exit the **Business Process Maintenance** screen.

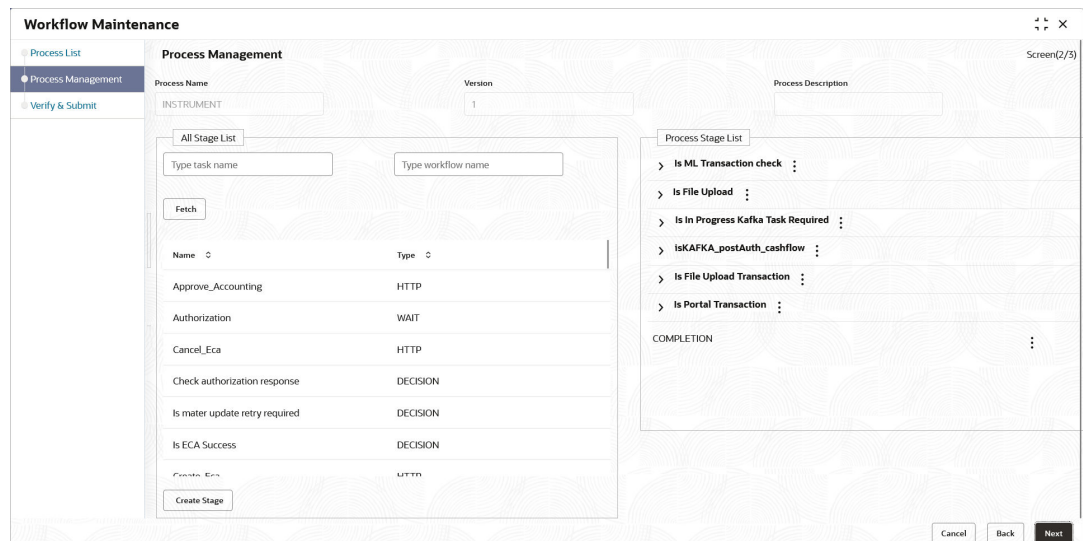

Process Management

The **Process Management** screen displays the list of the stages under the process, which was selected from the **Process List** screen, on the right under the heading **Process Stage List**. Also, all stages are listed in table on the left under the heading **All Stage List**.

3. Click **Next**.

The **Process Management** screen displays.

Figure 2-2 Process Management

4. Drag and drop any stage from the **All Stage List** to the **Process Stage List** to add new stages in the process. The user can also perform the following actions in the **Process Management** screen:
 - a. Click **Create Stage** to create a new stage. The type of the stage can be changed in the core properties.

The **Create Stage** pop-up screen displays.

Figure 2-3 Create Task

- c. Click **Options** and select **Delete** to delete a stage from the **Process Stage List**.
5. Perform one of the following action on the **Process Management** screen
 - Click **Next** to navigate to the next screen after modifying the stages.
 - Click **Back** to navigate to the previous screen.
 - Click **Cancel** to exit the **Business Process Maintenance** screen.

Verify & Submit

The **Verify & Submit** screen displays the process task list with all the new/modified tasks.

6. Click **Next**.
The **Verify & Submit** screen displays.

Figure 2-5 Verify & Submit

7. Perform one of the following actions in the **Verify & Submit** screen
 - **Preview** - Click this button to view the flow diagram of the selected process.
 - **Create Process** – Click this button to create a new process. If an existing process is modified, a new process with updated version appears in the process list.
 - **Export DSL** – Click this button to export DSL into a file in JSON format.
 - **Back** – Click this button to navigate to the previous screen.
 - **Cancel** – Click this button to exit the **Business Process Maintenance** screen.

2.2 Finance

This topic describes the systematic instruction to view the list of the various tasks under Finance.

Specify **User ID** and **Password**, and login to **Home** screen.

Completed Tasks:

1. On **Home** screen, click **Tasks**. Under **Tasks**, click **Finance**.
2. Under **Finance**, click **Completed Tasks**.

2.4 Recon and Payment

This topic describes the systematic instruction to view the list of the various tasks under Recon and Payment.

Specify **User ID** and **Password**, and login to **Home** screen.

Completed Tasks:

1. On **Home** screen, click **Tasks**. Under **Tasks**, click **Recon and Payment**.
2. Under **Recon and Payment**, click **Completed Tasks**.

Figure 2-16 Completed Tasks - Recon and Payment

The screenshot shows the 'Completed Tasks' interface. At the top, there are buttons for 'Refresh', 'Audit', and 'Flow Diagram'. The main area contains a table with the following columns: Stage, Transaction Ref No, Event, Category, Workflow, Transaction Date, and Channel. The table contains two rows of data:

Stage	Transaction Ref No	Event	Category	Workflow	Transaction Date	Channel
Master Update Retry	004200120REC0211	RECON	Invoice Payment Recon	Manual	20-01-20	
Master Update Retry	004200120REC0204	RECON	Invoice Payment Recon	Auto	20-01-20	

At the bottom, there is a pagination control showing 'Page 1 of 1 (1 - 2 of 2 items)' and navigation arrows.

Free Tasks:

3. On **Home** screen, click **Tasks**. Under **Tasks**, click **Recon and Payment**.
4. Under **Recon and Payment**, click **Free Tasks**.

Figure 2-17 Free Tasks - Recon and Payment

The screenshot shows the 'Free Tasks' interface. At the top, there are buttons for 'Refresh', 'Acquire', and 'Flow Diagram'. Below is a table with the following data:

<input type="checkbox"/>	Acquire and Edit	Stage	Transaction Ref No	Event	Category	Workflow	Transaction Date	Channel
<input type="checkbox"/>	Acquire and Edit	Master Update Retry	004200120REC0207	RECON	Invoice Payment Recon	Auto	20-01-20	

At the bottom, there is a pagination control: Page 1 of 1 (1 - 1 of 1 items) with navigation arrows.

Hold Tasks:

5. On **Home** screen, click **Tasks**. Under **Tasks**, click **Recon and Payment**.
6. Under **Recon and Payment**, click **Hold Tasks**.

Figure 2-18 Hold Tasks - Recon and Payment

2.6 Search

This topic describes the systematic instruction to search for the task(s) with the various filters.

Specify **User ID** and **Password**, and login to **Home** screen.

Search feature fetches the results based on one or more filter criteria.

1. On **Home** screen, click **Tasks**. Under **Tasks**, click **Search**.

The **Search** screen displays.

Figure 2-26 Search

2. Perform the following actions on the tasks listed:
 - **AcquireAndEdit** - Click this button to acquire and edit a task.
 - **Flow Diagram** – This enables the user to view the process flow of the selected task and also find the stages that have been completed. The current stage appears highlighted in the process flow.
 - **Audit** - Click this button to view the task history.
