# **Preface**

- Purpose
- Audience

This document is intended for the following audience:

- Documentation Accessibility
- Critical Patches
- Diversity and Inclusion
- Structure

This manual is organized into the following chapters:

- Conventions
- Related Documents
- Screenshot Disclaimer
- Acronyms and Abbreviations
- Basic Actions
- Symbols and Icons

# Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Export Documentary Collection Booking Update** process.

# **Audience**

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

# **Documentation Accessibility**

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

# Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

# **Critical Patches**

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

# **Diversity and Inclusion**

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

### Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

# Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## **Related Documents**

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

# Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

# Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1-1 Acronyms and Abbreviations

Abbreviation	Description
ОВТЕРМ	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency
LOV	List of Values
CIF	Customer Information File
UDF	User Defined Fields
FFT	Free Format Text
SBLC	Standby Letter of Credit

# **Basic Actions**

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 1-2 Common Action Buttons and its Definitions

Action Buttons	Description
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.
	Reject Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
	Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.

Table 1-2 (Cont.) Common Action Buttons and its Definitions

Action Buttons	Description
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	R1- Documents missing
	R2- Signature Missing
	R3- Input Error
	R4- Insufficient Balance/Limits
	R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.
	This option is used, if there are any pending information yet to be received from applicant.
Cancel	Click <b>Cancel</b> to cancel the transaction input midway without saving any data.
Save & Close	Click <b>Save &amp; Close</b> to save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	Click <b>Next</b> , system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Submit	Click <b>Submit</b> to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

# Symbols and Icons

The list of symbols and icons available on the screens are as follows:

# Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

#### Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

#### **Benefits**

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

#### **Key Features**

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# Export Documentary Collection Booking Update

Export Documentary Collection Booking Update process involves update of an Existing Documentary Collection under Export LC.

This topic contains following sub-topics:

#### Common Initiation Stage

This topic provides the systematic instructions to initiate the export documentary collection booking update Islamic request.

#### Registration

This topic provides the systematic instructions to initiate the Registration stage of **Export Documentary Collection Booking Update** request.

#### Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of export documentary collection booking update request.

#### Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

#### Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

# **Common Initiation Stage**

This topic provides the systematic instructions to initiate the export documentary collection booking update Islamic request.

Specify **User ID** and **Password**, and login to **Home** screen.

On Home screen, click Trade Finance. Under Trade Finance, click Initiate Task.
 The Initiate Task screen appears.

Figure 3-1 Initiate Task

2. On Initiate Task screen, specify the fields.

The fields which are marked in asterisk are mandatory.

#### Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

 Bi-Directional Flow for Offline Transactions Initiated from Oracle Banking Trade Finance Process Management Cloud Service

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from Oracle Banking Trade Finance Process Management Cloud Service.

# **Document Linkage**

This topic provides the systematic instructions to initiate the document linkage.

In Oracle Banking Trade Finance Process Management Cloud Service, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/ queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

Specify **User ID** and **Password**, and navigate to **Registration** screen.

1. On the header of **Registration** screen, click, **Documents**.

**Documents** Document Status Select 器量 All Letter of Credit Letter of Credit Pro-forma Invoice **Application Form** ₾ X Close

The **Document** pop-up screen is displayed.

2. Click the Add Additional Documents button/ link.

The **Document** screen is displayed.

Field	Description
Document Type	Select the document type from list. Indicates the document type from metadata.
Document Code	Select the document Code from list. Indicates the document Code from metadata.
Document Title	Specify the document title.
Document Description	Specify the document description.
Remarks	Specify the remarks.
Document Expiry Date	Select the document expiry date.
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.

3. Select the document to be uploaded or linked and click the **Link Document** link.

The link **Document** pop up screen is displayed.

The value selected in **Document Type** and **Document Code** of **Document** screen are defaulted in the **Link Document Search** screen.

Click Fetch to retrieve the details from DMS.

System displays all the documents available for the given **Document Type** and **Document Code** for the customer.

Field	Description
Customer ID	This field displays the transaction Customer ID.
Document ID	Specify the document ID.
Document Type	Select the document type from list.
Document Code	Select the document Code from list.
Search Result	
Document ID	This field displays the document ID from metadata.
Customer ID	This field displays the transaction customer ID.
Document Type	This field displays the document type from metadata.
Document Code	This field displays the document code from metadata.
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.
Upload Date	The field displays the upload date of the document.
Reference Number	The field displays the reference number of the document.

5. Click **Link** to link the particular document required for the current transaction.

Post linking the document, the user can View, Edit and Download the document.

Click Edit icon to edit the documents.

The **Edit Document** screen is displayed.

# Bi-Directional Flow for Offline Transactions Initiated from Oracle Banking Trade Finance Process Management Cloud Service

This topic provides the systematic instructions to initiate the Bi-Directional Flow for Offline Transactions Initiated from Oracle Banking Trade Finance Process Management Cloud Service.

Offline Transactions means those transactions which are not initiated by OBDX, but are initiated directly by the bank user in Oracle Banking Trade Finance Process Management Cloud Service upon request received from the customer.

#### **Pre- Conditions:**

- Customer Maintenance details are replicated from OBTF to Oracle Banking Trade Finance Process Management Cloud Service.
- Task is initiated in Oracle Banking Trade Finance Process Management Cloud Service,
   Customer ID is captured/populated and Process Reference Number is generated.
- Customer Maintenance details are replicated from OBTF to Oracle Banking Trade Finance Process Management Cloud Service.
- 2. In Oracle Banking Trade Finance Process Management Cloud Service, user clicks Request Clarification, the system checks if the request is initiated from OBDX by validating the value available in the submission mode field is "Online". In case submission mode is "Online", the user can enter the clarification details in "Clarification Required" placeholder.
- 3. In case submission mode is not "Online", the system will validates if the counterparty is a OBDX customer by checking the flag "Trade Finance Portal" in the Customer Maintenance table replicated from OBTF. In this case, the user can submit clarification.
- 4. In case submission mode is not "Online", and if the "Trade Finance Portal" flag is set to 'No' in Customer Maintenance Table, the system should display the error message that 'The customer is not subscribed to Trade Finance Portal'. Once the request is submitted, the Request Clarification functionality would be applicable to offline initiated transactions also.

# **Data Enrichment**

This topic provides the systematic instructions to initiate the Data Enrichment stage of export documentary collection booking update request.

On successful completion of Registration of an Export Documentary Collection Booking Update, the task moves to Data Enrichment stage. At this stage the gathered information during Registration are validated.

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Specify **User ID** and **Password**, and login to **Home** screen.

- 1. On Home screen, click Trade Finance. Under Trade Finance, click Task.
- 2. Under Tasks, click Free Tasks.

Figure 3-5 Free Tasks

The Free Tasks screen appears.

- Select the appropriate task and click Acquire & Edit to edit the task or click Acquire to edit the task from My Tasks.
- The acquired task will be available in My Tasks tab. Click Edit to update the registered task.

Figure 3-6 My Tasks

Let's look at the details for Data Enrichment stage. User can enter/update the fields. Some of the application details that are already having value from Registration/online channels may not be editable.

The Data Enrichment stage has the following hops for data capture:

#### Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Export Documentary Collection Update booking request.

#### Maturity Details

This topic provides the systematic instructions to capture the maturity details.

#### Additional Fields

This topic provides the systematic instructions to capture the additional fields.

#### Other Details

This topic provides the systematic instructions to capture the other details like Credit Value Date, Debit Value Date, Other Bank charges etc.

#### Advices

This topic provides the systematic instructions to capture the advices details.

#### Additional Details

This topic provides the systematic instructions to capture the additional details

#### Settlement Details

This topic provides the systematic instructions to capture the settlement details of export documentary collection update booking request.

#### Updated Details

This topic provides the systematic instructions to capture the updated details.

#### Summary

This topic provides the systematic instructions to view the summary of export documentary collection update booking request.

#### Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Export Documentary Collection Update booking request.

Main details section has two sub section as follows:

- Application Details
- Collection Details.

#### **Application Details**

The fields listed under this section are same as the fields listed under the Application Details section in Registration. For more information on the fields, refer **Registration** stage.

1. On **Data Enrichment - Main Details** screen, specify the fields that were not entered at Registration stage.

Figure 3-7 Data Enrichment - Main Details

For more information on fields, refer to the field description table below.

The fields which are marked as **Required** are mandatory.

Table 3-6 Main Details - Collection Details - Field Description

Field	Description
Documents Received	Documents Received will be auto-populated from the collection booking.
	User can change the value.
Tenor Type	Read only field.
	Tenor details will be auto-populated from the collection booking.
Product Code	Read only field.
	Product Code will be auto-populated from the Documentary Collection Number.
Product Description	Read only field.
	This field displays the description of the product as per the product code.

Table 3-6 (Cont.) Main Details - Collection Details - Field Description

Field	Description
Operation Type	Select Operation type from the drop-down list. The options are:  Note:  Change of Operation from Collection or Acceptance to Free of Payment should be enabled only for Documentary Bills.
Stage	Stage will be auto-populated from the collection booking. User can update the stage to final, if it is set to Initial already.  Note:  For Operation Type, FOP the Stage to be defaulted to Final as Free of Payment is not applicable for Bills in Initial stage.

Rebate Amount	Rebate to the bill outstanding amount is auto-populated from the collection booking.  User can change the value.
Unlinked FX Rate	Read only field.  Unlinked FX Rate will be auto-populated from the collection booking.
Non Acceptance Date	Read only field.  Non Acceptance Date will be auto-populated from the collection booking.

Table 3-7 (Cont.) Main Details - Collection Details - Field Description

Field	Description
Non Pay Date	Read only field.
	Non Pay Date will be auto-populated from the collection booking.
MT416 - 23E OTHR	Read only field.
	Other details will be auto-populated from the collection booking.
Limit verification required	Switch to enables for limit verification.
	Switch to ,
	and provide the <b>Finance Amount</b> , the system prompts an override message on Submit.
Customer Dispatch	Displays the value that will be populated from back office based on the maintenance.
Avalization/Co- Acceptance Requested	Enable this option, if the bill is to be avalized. User can enable this option either during the Bill Booking or Amendment. During bill booking, the option can be enabled both INTIAL/FINAL stage and Operation is COL/ACC /DIS. During the Amendment, stage should be Final.  By default this option is disabled. Once the option is enabled, it can not be unchecked during any further actions or operations.
	Option is not applicable for Sight bills, Multi-tenor and Bills Under LC.
Avalization/Co- Acceptance Requested	Switch to , if the bill is to be avalized. User can enable this option either during the Bill Booking or Amendment. During bill booking, the option can be enabled both INTIAL/FINAL stage and Operation is COL/ACC /DIS. During the Amendment, stage should be Final. By default this option is disabled. Once the option is enabled, it can not be unchecked during any further actions or operations.
	Note:  Option is not applicable for Sight bills, Multi-tenor and Bills Under LC.

Table 3-7 (Cont.) Main Details - Collection Details - Field Description

Field	Description
Avalization/Co-Accepted	Switch to , if the bill is Availized/Co Accepted by Collecting Bank.  If the "Availization/Co-Acceptance Requested" flag is not selected, user cannot select the "Availized/Co-Accepted" flag.
	Note:  Option is not applicable for Sight bills, Multi-tenor and Bills Under LC.

## 2. Click Next.

The task will move to next data segment.

Table 3-8 Main Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	View/Upload the required document.
	Application displays the mandatory and optional documents.
	The user can view and input/view application details simultaneously.
	When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the collection. This information can be viewed by other users processing the request.
	Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following  Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.  Transaction Level Instructions – In this section, OBTFPMCS user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for
	customer initiated transactions.
Common Group Messages	Click to send MT799 and MT999 messages from within the task.
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.
View Collection	Enables the user to view the latest collection values displayed in the respective fields.

Table 3-8 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
Signatures	Click the Signature button to verify the signature of the customer/bank if required.
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.
	If more than one signature is required, system should display all the signatures.
Request Clarification	User should be able to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.
	Reject Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
	Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	R1- Documents missing     R2- Signature Missing
	<ul><li>R2- Signature Missing</li><li>R3- Input Error</li></ul>
	R4- Insufficient Balance/Limits     R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.
	This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

# **Maturity Details**

This topic provides the systematic instructions to capture the maturity details.

1. On Maturity Details screen, specify the fields.

Figure 3-9 Maturity Details

Table 3-9 Maturity Details - Field Description

Field	Description	
Draft Details The user can click + to add m	ultiple <b>Draft Details</b> .	
Draft Code	Specify the draft code or click <b>Search</b> to search and select the draft code.	
Draft Amount	Specify the draft amount.	
Action	Click Edit icon to edit the draft code/ draft amount.	
	Click Delete icon to delete the draft code.	
	Maturity and Multi Tenor Liquidation Details In case of multi tenor, user can provide multiple maturity details by clicking the plus '+' icon.	
S. No	Serial number of the tenor record.	
Tenor Basis	System defaults the tenor basis, user can update the tenor basis. Click <b>Search</b> to search and select the tenor basis.	
	Note:  This field is disabled if the Tenor Type is 'Mixed'.	
Tenor Description	The tenor base code description is displayed based on the selected tenor basis.  The user to can edit the tenor description.	
Start Date	System defaults the tenor date, user can update the same.	
Tenor Days	Specify the number of tenor days, if required.	

Table 3-9 (Cont.) Maturity Details - Field Description

Field	Description
Transit Days	Specify the transit days, if the tenor is sight.
Maturity Date	System displays the due date for the bill based on tenor and tenor basis.  If tenor is sight, system will calculate the maturity date as five working days from Document Received Date. User can change this value to any date earlier than the maturity date up to system date. User cannot change the value to later than maturity date.  If tenor is Usance, system will calculate the maturity date based on the tenor basis and populate the maturity date.
	Note:  In case if the Operation Type is FOP, Due date (Maturity date) is not applicable in this case and current branch date will be populated in the Maturity date field.
Bill Amount	Specify the bill amount.
Liquidated Amount	Specify the the liquidation amount.
Exchange Rate	Specify the exchange rate.
Liquidation Date	Specify the liquidation date.
Liquidation Amount	Specify the liquidation amount.
Action	Click Edit icon to edit the tenor record.
	Click Delete icon to delete the tenor record.
Interest From Date	Indicates the interest from date. The interest from date cannot be earlier than branch date and later than maturity date. User can update the Interest From Date.
Interest To Date	Indicates the interest to date. The interest to date cannot be earlier than branch date and later than maturity date. User can update the Interest To Date.
Acceptance Commission From Date	Indicates the accept commission from date.
Acceptance Commission To Date	Indicates the accept commission to date.

## 2. Click Next.

The task will move to next data segment. For more information refer Other Details. For more information on action buttons, refer to the field description table below.

Table 3-10 Maturity Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.

Table 3-10 (Cont.) Maturity Details - Action Buttons - Field Description

Field	Description
Documents	View/Upload the required document.
	Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously.  When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application
Remarks	Specify any additional information regarding the collection. This information can be viewed by other users processing the request.
	Content from Remarks field should be handed off to 'Remarks' field in backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	<ul> <li>Click to view/ input the following</li> <li>Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>Transaction Level Instructions – In this section, OBTFPMCS user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.
View Collection	Enables the user to view the latest collection values displayed in the respective fields.
Signatures	Click the Signature button to verify the signature of the customer/bank if required.  The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.  If more than one signature is required, system should display all the signatures.
Request Clarification	Click the Request Clarification button to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.

Table 3-10 (Cont.) Maturity Details - Action Buttons - Field Description

Field	Description
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.
	Reject Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
	Select a Reject code and give a Reject description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	R1- Documents missing
	<ul><li>R2- Signature Missing</li><li>R3- Input Error</li></ul>
	R4- Insufficient Balance/Limits
	R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.
	This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	Click the Back button, to go back to the previous screen.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

# Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Banks can configure user defined fields as per their requirement in the Additional Fields screen.

1. On Additional Fields screen, specify the fields, if any.

Figure 3-10 Additional Fields

#### Click Next.

The task will move to next data segment. For more information refer Advices. For more information on action buttons, refer to the field description table below.

Table 3-11 Additional Fields - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	View/Upload the required document.
	Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the
	uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application
Remarks	Specify any additional information regarding the collection. This information can be viewed by other users processing the request.
	Content from Remarks field should be handed off to 'Remarks' field in backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	<ul> <li>Click to view/ input the following</li> <li>Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>

Table 3-11 (Cont.) Additional Fields - Action Buttons - Field Description

Field	Description
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.
View Collection	Enables the user to view the latest collection values displayed in the respective fields.
Signatures	Click the Signature button to verify the signature of the customer/bank if required.
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.
	If more than one signature is required, system should display all the signatures.
Request Clarification	Click the Request Clarification button to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.
	Reject Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
	Select a Reject code and give a Reject description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.
	This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	Click the Back button, to go back to the previous screen.

	Select a Reject code and give a Reject description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.
	This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	Click the Back button, to go back to the previous screen.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

# Advices

This topic provides the systematic instructions to capture the advices details.

Advices menu displays the advices available under a product code from the back office as tiles. User can edit the fields in the tile, if required. User can suppress the advice, if required.

## Note:

In case of Operation Type is FOP, Advice should be generated for the Drawer (Mail Advice) and the Collecting Bank (MT499).In Advices, SWIFT 499 – FREEOFPAYMENT\_ADVICE user should attach the FOP instruction and system should validate the same.

1. On **Advices** screen, click the 3 dots on any advice tile to view the advice details.

Figure 3-12 Advices

#### **Advice Details**

Table 3-14 Advice Details

Field	Deacription
Suppress Advice	Enable this option to suppress the advice. Disable this option if suppress advice is not required.
Advice Name	This field diaplays the advice name defaulted from LC issuance.

Table 3-14 (Cont.) Advice Details

Field	Description
Field	Deacription
Medium	This field diaplays the medium of advices defaulted from the system. User can update if required.
Advice Party	This field diaplays the advice party defaulted from LC issuance.
Party ID	This field diaplays the party ID defaulted from LC issuance.
Party Name	This field diaplays the party name defaulted from LC issuance.
FFT Code Click + to add multiple FFT C	ode.
FTT Code	Click <b>Search</b> to search and select the FFT code as a part of free text.
FFT Description	This field displys the FFT description based on the FFT code selected.
Action	Click Edit icon to edit the FFT code.
	Click Delete icon to delete the FFT code.
Instruction Code Click + to add multiple Instru	ction Code.
Instruction Code	Click <b>Search</b> to search and select the instruction code as a part of free text.
Instruction Description	This field displys the instruction description based on the instruction code selected.
Edit	Click Edit icon to edit the instruction code description.
Action	Click Edit icon to edit the instruction code.
	Click Delete icon to delete the instruction code.

#### 2. Click Next.

The task will move to next data segment. For more information refer Additional Details. For more information on fields, refer to the field description table below.

Table 3-15 Advices - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously.  When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application

Table 3-15 (Cont.) Advices - Action Buttons - Field Description

Field	Description
Remarks	Specify any additional information regarding the collection. This information can be viewed by other users processing the request.
	Content from Remarks field should be handed off to 'Remarks' field in backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following  Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.  Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.
View Collection	Enables the user to view the latest collection values displayed in the respective fields.
Signatures	Click the Signature button to verify the signature of the customer/bank if required.  The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.  If more than one signature is required, system should display
	all the signatures.
Request Clarification	Click the Request Clarification button to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes are:  R1- Documents missing R2- Signature Missing R3- Input Error R4- Insufficient Balance/Limits R5 - Others  Select a Reject code and give a Reject description. This reject reason will be available in the remarks window throughout the process.

Table 3-15 (Cont.) Advices - Action Buttons - Field Description

Field	Description
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.  This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	Click the Back button, to go back to the previous screen.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

# **Additional Details**

This topic provides the systematic instructions to capture the additional details

1. On **Additional Details** screen, click on any Additional Details tile to view the details.

Figure 3-13 Additional Details

#### **Limits and Collaterals**

Limit availability needs to be checked if amendment involves increase in amount or tolerance or both.

On Approval, system should not release the Earmarking against each limit line and system should handoff the "Limit Earmark Reference Number "to the back office. On successful handoff, back office will make use of these "Limit Earmark Reference Number" to release the Limit Earmark done in the mid office (OBTFPM) and should Earmark the limit from the Back office.

In case multiple Lines are applicable, Limit Earmark Reference for all lines to be passed to the back office.

Figure 3-14 Limit Details

Figure 3-15 Collateral Details

Collateral availability needs to be checked if amendment involves increase in amount or tolerance.

Figure 3-16 Deposit Linkage Details

Table 3-16 Limit Details - Field Description

Field	Description
+	Click + plus icon to add new limit details.  Below fields are displayed on the Limit Details pop-up screen, if the user clicks plus icon.
Customer ID	This field displays the applicant's/applicant bank customer ID defaulted from the application.
Linkage Type	Select the linkage type. Linkage type can be: Facility Liability By default Linkage Type should be Facility.

Table 3-16 (Cont.) Limit Details - Field Description

Field	Description
Contribution %	System will default this to 100%. User can modify, if contribution is more than 100%. System will display an alert message, if modified. Once contribution % is provided, system will default the amount. System to validate that if Limit Contribution% plus Collateral% is equal to 100. If the total percentage is not equal to 100 application will display an alert message.
	Note:  The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified.
Liability Number	Click <b>Search</b> to search and select the Liability Number from the look- up. The list has all the Liabilities mapped to the customer.
Contribution Currency	This field displays the contribution currency.
Line ID/Linkage Ref No	Click <b>Search</b> to search and select from the various lines available and mapped under the customer id gets listed in the drop-down.  LINE ID-DESCRIPTION will be available for selection along with Line ID. When you click on 'verify', the system will return value if the limit check was successful or Limit not Available. If limit check fails, the outstanding limit after the transaction value will be shown in the limit outstanding amount.  The user can click the Line Id link to view the limit details.  Note:  User can also select expired Line ID from the lookup and on clicking the verify button, system should default "The Earmarking cannot be performed as the Line ID is Expired" in the "Response Message" field.
	This field is disabled and read only, if <b>Linkage Type</b> is Liability.
Limit/Liability Currency	This field displays the limit currency, when the user select the Liability Number.
Limits Description	This field displays the limits description.
Limit Check Response	This field displays the limit check response.  Response can be 'Success' or 'Limit not Available' based on the limit service call response.  The value in this field appears, if you click the <b>Verify</b> button.
Contribution Amount	This field defaults the contribution amount. Contribution amount will default based on the contribution %. User can change the value.

Table 3-16 (Cont.) Limit Details - Field Description

et. I I	B
Field	Description
Expiry Date	This field displays the date up to which the Line is valid.
Limit Available Amount	This field displays the value of available limit, i.e., limit available without any earmark. The Limit Available Amount must be greater than the Contribution Amount.  The value in this field appears, if you click the <b>Verify</b> button.
Response Message	This field displays the detailed response message. The value in this field appears, if you click the <b>Verify</b> button.
ELCM Reference Number	This field displays the ELCM reference number.
Below fields appear in the Lir	nit Details grid along with the above fields.
Line Serial	Displays the serial of the various lines available and mapped under the customer id. This field appears on the Limits grid.
Edit	Click the link to edit the <b>Limit Details</b> .
盘	Click delete icon to delete the existing limit details.
Cash Collateral Details	Collateral availability needs to be checked if amendment involves increase in amount or tolerance. Provide the collateral details based on the description provided in the following table:
	Below fields are displayed on the <b>Collateral Details</b> pop-up screen, if the user clicks plus icon.
	Click plus icon to add new collateral details.
Total Collateral Amount	Read only field. This field displays the total collateral amount provided by the user.
Collateral Amount to be Collected	Read only field. This field displays the collateral amount yet to be collected as part of the collateral split.
Sequence Number	Read only field. The sequence number is auto populated with the value, generated by the system.
Collateral Split %	Specify the collateral split% to be collected against the selected settlement account.
Collateral Contribution Amount	Specify the collateral amount to be collected against the selected settlement account. User can either provide the collateral % where the collateral amount will be auto populated or modifying the collateral amount will auto correct the collateral %.
Settlement Account	Click <b>Search</b> to search and select the settlement account for the collateral.
Settlement Account Currency	Read only field. This field displays the settlement account currency defaulted by the system.
Exchange Rate	Read only field. This field displays the exchange rate, if the settlement account currency is different from the collateral currency.
Contribution Amount in Account Currency	Read only field. This field displays the contribution amount in the settlement account currency as defaulted by the system.

Table 3-16 (Cont.) Limit Details - Field Description

Field	Description
Account Available Amount	Read only field. This field displays the account available amount which will be autopopulated on clicking the <b>Verify</b> button.
Response	Read only field. System populates the response on clicking the <b>Verify</b> button.
Response Message	Read only field. System populates the response message on clicking the <b>Verify</b> button.
Verify	Click to verify the account balance of the Settlement Account.
Save & Close	Click to to save and close the record.
Cancel	Click to cancel the entry.
Cash Collateral Details grid	Below fields appear in the <b>Cash Collateral Details</b> grid along with the above fields.
Collateral %	Specify the percentage of collateral to be linked to this transaction. If the value is more than 100% system will display an alert message. The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified.
Contribution Amount	This field displays the collateral contribution amount.  The collateral % maintained for the customer is defaulted into the Collateral Details screen. If collateral % is not maintained for the customer, then system should default the collateral % maintained for the product. User can modify the defaulted collateral percentage, in which case system should display a override message "Defaulted Collateral Percentage modified.
Account Balance Check Response	Read only field. System populates the Account Balance Check Response on clicking the <b>Verify</b> button.
Edit	Click edit link to edit the collateral details.
⑪	Click delete icon to delete the existing collateral details.
Deposit Linkage Details	Click plus icon to add new deposit linkage details.  Below fields are displayed on the <b>Deposit Linkage Details</b> pop-up screen, if the user clicks plus icon.
Customer ID	This field displays the applicant's/applicant bank customer ID defaulted from the application.  User can change the customer ID.
Deposit Account	Click <b>Search</b> to search and select deposit for linkage from the list of all the customer Deposits.
Deposit Branch	This field displays the deposit branch which is auto-populated based on the deposit account selection.
Deposit Available Amount	This field displays the deposit available amount and currency which will be auto-populated based on the deposit account selection.
Deposit Maturity Date	This field displays the maturity date of deposit.

Table 3-16 (Cont.) Limit Details - Field Description

Field	Description
Exchange Rate	This field displays the latest exchange rate for deposit linkage. This will be picked up from the exchange rate maintenance from the common core.
Deposit Available In Transaction Currency	This field displays the deposit amount available, after exchange rate conversion, if applicable.
Linkage Percentage %	Specify the value for linkage percentage.
Linkage Amount (Transaction Currency)	This field displays the transaction amount, user can change the value.
Deposit Linkage Details grid	Below fields appear in the <b>Deposit Linkage Details</b> grid along with the above fields.
Deposit Currency	Deposit currency will get defaulted in this field.
Transaction Currency	Transaction currency will get defaulted in this field from the underlying task.
1	Click delete icon to delete the existing deposit linkage details.
Edit	Click edit link to edit the deposit linkage details.

### **Charge Details**

This section displays charge details.

**Table 3-17 Charge Details - Field Description** 

Field	Description
Commission Details	
Event	Read only field. This field displays the event name.

Table 3-17 (Cont.) Charge Details - Field Description

Field	Description
Event Description	Read only field. This field displays the description of the event.
Component	This field displays the commission component.
Rate	This field displays the rate that is defaulted from product. The commission rate, if available in Back Office defaults in OBTFPMCS. The user is able to change the rate.
	If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.
Modified Rate	From the default value, if the rate is changed the value gets updated in this field.
Currency	This field displays the currency in which the commission have to be collected.
Amount	This field defaults the amount that is maintained under the product code.  The commission rate, if available in Back Office defaults in OBTFPMCS. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPMCS.
	If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.
Modified Amount	From the default value, if the amount is changed, the value gets updated in the modified amount field.
Defer	If enabled, charges/commissions has to be deferred and collected at any future step. On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is 'Billing' enabled, 'Billing' toggle for that component should be automatically checked in OBTFPMCS.
	The user can not select/de-select the check box if it is de-selected by default.
Waive	Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.  If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.
Charge Party	Charge party is 'Applicant' by default. User can change the value to Beneficiary.
Settlement Account	Select the settlement account.
Amendable	The value is auto-populated as the commission can be amended or not.
Charge Details	
Component	This field defaults the charge component type.
Tag Currency	This field defaults the tag currency in which the charges have to be collected.
Tag Amount	This field defaults the tag amount that is maintained under the product code.
Currency	This field defaults the currency in which the charges have to be collected.

Table 3-17 (Cont.) Charge Details - Field Description

Field	Description
Amount	·
Amount	This field defaults the amount that is maintained under the product code.
Modified	From the default value, if the rate is changed or the amount is changed, the value gets updated in the modified amount field.
Billing	If charges are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.
Defer	If charges have to be deferred and collected at any future step, this check box has to be selected.  On simulation of charges/commission from Back Office, if any of the Charges/Commission component for the customer is AR-AP tracking enabled, 'Defer' toggle for that component should be automatically checked in OBTFPMCS.
	The user can enable/disable the option the check box. On deselection the user has to click on 'Recalculate' charges button for resimulation.
Waive	Enble the toggle, if charges has to be waived. Based on the customer maintenance, the charges should be marked for Billing or for Defer.
	This field is disabled, if <b>Defer</b> toggle is enabled.
Charge Party	Charge party is applicant by default. User can change the value to beneficiary.
Settlement Account	Indicates the settlement account.
Tax Details	The tax component is calculated based on the commission and defaults if maintained at product level. User cannot update tax details and any change in tax amount on account of modification of charges/commission will be available on click of Re-Calculate button or on hand off to back-end system.
Component	This field displays the tax component.
Туре	This field displays the type of tax component.
Value Date	This field displays the value date of tax component.
Currency	This field displays the currency in which the tax have to be collected. The tax currency is the same as the commission.
Amount	This field displays the tax amount based on the percentage of commission maintained.
Billing	If taxes are handled by separate billing engine, then by selecting billing the details to be available for billing engine for further processing.
Defer	If taxes have to be deferred and collected at any future step, this option has to be enabled.  The user can enable/disable the option the check box. On deselection the user has to click on 'Recalculate' charges button for resimulation.
Settlement Account	System defaults the settlement account. The user can modify the settlement account.

### **Preview Message**

The bank user can view a preview of the outgoing SWIFT message and advise simulated from back office.

For more information on fields, refer to the field description table below.

Table 3-18 Preview - Field Description

Field	Description
Preview SWIFT Message	
Language	Select the language for the SWIFT message.
Message Type	Select the message type.
Message Status	Read only field. Display the message status of draft message of liquidation details.
Repair Reason	Read only field. Display the message repair reason of draft message of liquidation details.
Preview Message	This field displays a preview of the draft message.
Preview Mail Device	
Language	Select the language for the advice message.
Advice Type	Select the advice type.
Message Status	Read only field. Display the message status of draft message of liquidation details.
Repair Reason	Read only field. Display the message repair reason of draft message of liquidation details.
Preview Message	This field displays a preview of the draft message.

3. Click **Save and Close** to save the details and close the screen.

### **Payment Details**

Table 3-19 Payment Details - Field Description

Field	Description
Payment Details	
Auto Liquidate	Enable the option as 'On' if the auto liquidation is required. Disable the option as 'Off' if the auto liquidation is not required. Auto Liquidation enables liquidation of the bill on the due date automatically from the back office system.
Allow Rollover	Enable the option to allow rollover.
Auto Change from Acceptance to Advance	Read only field. This flag indicates whether an Acceptance type of bill should be automatically converted into an Advance type of bill on its liquidation date.  Note:  This option is applicable only for the bills that are co-accepted by the bank.
Liquidate using Collateral	Read only field.
Outstanding Collateral Amount	Read only field.  Auto Liquidation enables liquidation of the bill on the due date automatically from the back office system.
Protest Date	Select the protest date.

Table 3-19 (Cont.) Payment Details - Field Description

Field	Description		
Split Settlement	Enable the option as 'On' to select more than one account for settlement (Split Settlement) for the liquidation of an import or export drawing or collection bill.  Disable the option as 'Off' Disables the user to select more than one account for settlement (Split Settlement) for the liquidation of an import or export drawing or collection bill.		
Avalization	Enable the option as 'On' for availization.		
Settlement Details - Liquida	ition		
Component	This field displays the component based on the product selected.		
Currency	This field displays the default currency for the component.		
Debit/Credit	This field displays the debit/credit indicators for the components.		
Account	This field displays the account details for the components.		
Account Description	This field displays the description of the selected account.		
Branch	This field displays the branch of the selected account.		
Account Currency	This field displays the currency for all the items based on the account number.		
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF.		
Exchange Rate	The exchange rate for the settlement.		
Deal Reference Number	The exchange deal reference number.		
Split Settlement			
Component	This field displays the component based on the product selected.		
Currency	This field displays the default currency for the component.		
Amount	This field displays the amount for each component. This is populated from the transaction details of the drawing.		
Split Settlement Details The user can click + to add m	Split Settlement Details The user can click + to add multiple Split Settlement Details.		
Sequence	Indicates the sequence of the settlement details.		
Amount	Specify the amount for the split settlement.		
Settlement Account	Click <b>Search</b> to search and select the settlement account.		
Account Customer	This field displays customer account based on the selected settlement account.		
Account Currency	This field displays currency of the account.		
Account Branch	This field displays branch of the customer's account		
Original Exchange Rate	System displays the Original Exchange Rate as simulated in settlement details section from OBTF.		
Exchange Rate	Click the <b>Fetch Exchange Rate</b> button, the field displays the exchange rate for the split settlement.		
Deal Reference Number	The exchange deal reference number.		
Action	Click Edit icon to edit the Split Settlement.		
	Click Delete icon to delete the Split Settlement.		

### **FX Linkage**

This section enables the user to link the existing FX contract(s) to the Bill. User can link one or more FX deals to a bill. The linked value of an FX deal(s) must not exceed the value of the bill.

FX contract linkage with the Bill booking can happen only for immediate liquidation of sight payment or for Usance. For manual sight payment, the user needs to link the FX contract on the date of liquidation of the bill.

Following are the features of FX Linkage in BC.

- FX linkage cannot be linked at Bills at initial stage.
- When a bill is drawn under LC, the details of forward contract linked as a part of the LC, will be defaulted at bill.
- Linked amount will be defaulted against the corresponding FX sequentially.
- User can delink or modify the defaulted FX details at in the Bill.
- Bill maturity date should be greater than or equal to FX Value date.
- Sum of Linked amount will not be greater than Bill contract amount.
- Linked amount will not be greater than the available amount for linkage.
- Current Utilized amount will display the liquidated/purchased/discounted/negotiated amount of Bill contract. It cannot go beyond the linked FX amount.
- When a bill is drawn under LC, delink of FX at BC is allowed only if the linked FX is not utilized by the bill.
- Multiple forward FX contract could be linked and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. The same will be populated in the Average FX Rate.

Figure 3-17 FX Linkage Details

Table 3-20 FX Linkage - Field Description

Field	Description	
The user can click + to add m	ultiple <b>FX Details</b> .	
FX Reference Number	Click Search to search and select the FX contract reference number. On select and save and close, system defaults the available amount, bot currency, sold currency and rate. Forward FX Linkage available for selection at bill would be as follows,  Counterparty of the FX contract should be the counterparty of the Bill contract.  Active Forward FX transactions authorized not marked for auto liquidation.  Bill contract currency should be BOT currency of the FX transaction in case of an export Bill or the SOLD currency in case of an Import Bill.	
The user can click + to add m	The user can click + to add multiple <b>FX Details</b> .	
Bought Currency	This field displays the currency from the linked FX contract.	
Sold Currency	This field displays the currency from the linked FX contract.	
Available Contract Amount	Available amount will be FX contract amount minus the linked amount. Available amount for linkage should be greater than Zero.	
Rate	This field displays the rate at which the contract is booked.	

Table 3-20 (Cont.) FX Linkage - Field Description

Field	Description
Linked Amount	Sum of Linked amount will not be greater than LC contract amount. Linked amount will not be greater than the available amount for linkage.
Current Utilized amount	This field displays the liquidated /purchased /discounted /negotiated amount of BC contract. It cannot go beyond the linked FX amount.
Total Utilized Amount	This field displays the total amount utilized against the corresponding linked FX. On query, both Utilized and Total Utilized amount holds the amount of latest version.
Amount in Contract Currency	This field displays the amount in contract currency converted from FX currency.
FX Expiry Date	This field displays the expiry date from the linked FX contract.
FX Delivery Period - From	This field displays the date from which the contract is valid for utilization.
FX Delivery Period - To	This field displays the date to which the contract is valid for utilization.
Action	Click Edit icon to edit the FX details.  Click Delete icon to delete the FX details.
Average FX Rate	Multiple forward FX contract could be linked,and exchange rate of FX contract vary from each. Hence, effective exchange rate for bill would be arrived using weighted average method and it is utilized during purchase/negotiation/discount or liquidation of the bill. This will be populated in the Average FX Rate.

#### **Interest Details**

The user can view and modify the Interest Details Simulated from Back Office system. On update of the Interest rate user has to click on Recalculate button. System will trigger a simulation call to the back office and the updated Interest details will be reflected in this section.

**Table 3-21 Interest Details - Field Description** 

Field	Description
Component	This field displays the component maintained in the back office.

Table 3-21 (Cont.) Interest Details - Field Description

Field	Description
Component Description	This field displays the description of the component.
Rate Type	This field displays the rate type maintained for the component in back office.  • Fixed Floating  • Special
Rate Code	This field displays the rate code applicable for the component.
Min Spread	This field displays the minimum spread applicable for the Rate Code. This field have value, if the <b>Rate Type</b> is <b>Floating</b> .
Max Spread	This field displays the maximum spread applicable for the Rate Code. This field have value, if the <b>Rate Type</b> is <b>Floating</b> .
Spread	This field displays the spread applicable for the Component in case of Floating Rate Component. User can change the defaulted value. System validates whether the spread input is within the Minimum to Maximum Spread.
Min Rate	This field displays the minimum rate applicable for the Rate Code.
Max Rate	This field displays the maximum rate applicable for the Rate Code.
Rate	This field displays the value applicable for the Rate Code. You can modify the value, if the <b>Rate Type</b> is <b>Fixed</b> . System validates whether the Rate input is between the Minimum and Maximum Rate.
Modified Rate	This field displays the modified rate.
Special Pricing Reference Number	Specify the Special Pricing Reference Number, when there is a special Interest rate to be provided for that customer against the interest component (Main Component).  Special Pricing Reference is not applicable for Penal Interest components.  For transactions initiated from OBDX, the Special Pricing Reference Number will be populated from OBDX and user cannot edit the same.
	Note:  System displays an override as "Special Pricing Applicable", on clicking "Save" in the Interest Details screen, if Special Pricing Reference number has been provided.
Currency	This field displays the interest currency.
Amount	Specify the interest amount, if the <b>Rate Type</b> is <b>Special</b> .  In other cases, the amount will be calculated by back office immediately only if the Interest is collected in Advance or if Back Dated Interest is collected. In that scenario, the Amount will be populated on Re-simulation from back office. Otherwise Interest will be calculated only in the batch as maintained.
Waive	User can waive the Interest applicable. System displays an override, if the user has waived the Interest.

Table 3-21 (Cont.) Interest Details - Field Description

Field	Description
Charge Party	This field displays the Charge Party based on the type of transaction. In case of Export Transactions, Drawer should be the defaulted Charge Party for Collection Bills and Beneficiary for the LC Bills. In case of Import Transactions, Drawee should be the Charge Party for Collection and Applicant for the LC Bills.
Settlement Account	This field displays the settlement account of the Charge Party for debit of Interest. User can change the value. System displays an error if a different customer is chosen. If different account of the Charge Party is selected, system should display a override. In case the user modifies the Interest Rate, the user should click on Recalculate button to get the modified amount from the back office and display the new Amount.(Recalculation is done in back office and not in OBTFPM).
Settlement Curreny	System defaults the currency of the Settlement Account as maintained for the Charge Party.
Settlement Branch	System defaults the branch of the Settlement Account as maintained for the Charge Party.

#### **Tracer Details**

This section enables the user to view the default Tracer details from back end application. It also allows the user to add new Tracer details. Add new Tracer details based on the description in the following table:

Acknowledgement Tracer, Acceptance Tracer and Payment Tracer are applicable for this process.

**Table 3-22 Tracer Details - Field Description** 

Field	Description
Tracer Required	Select if tracer is required or not.  Toggle On: Required Toggle Off: Not required.
Number of Tracers	Specify the number of tracers required.

Table 3-22 (Cont.) Tracer Details - Field Description

Field	Description	
Tracer Frequency	Select the frequency for generation of the Tracer.  Daily  Weekly  Fortnightly	
Tracer Medium	Select the tracer medium from the drop-down list.  MAIL  EMAIL  SWIFT	
Tracer Receiver Party	Click <b>Search</b> to search and select the tracer receiver party.	
Tracer Start Date	Select the tracer start date. Start date cannot be earlier than the branch date.	
Acceptance Tracer		
Tracer Required	Select if tracer is required or not.  Toggle On: Required Toggle Off: Not required.	
Number of Tracers	Specify the number of tracers required.	
Tracer Frequency	Select the frequency for generation of the Tracer.  Daily  Weekly  Fortnightly	
Tracer Medium	Select the tracer medium from the drop-down list.  MAIL  EMAIL  SWIFT	
Tracer Receiver Party	Click <b>Search</b> to search and select the tracer receiver party.	
Tracer Start Date	Select the tracer start date. Start date cannot be earlier than the branch date.	
Template ID	Click <b>Search</b> to search and select the template ID.	
	Note:  This field is enabled if Tracer Medium has value as SWIFT.	

#### **Pre-Shipment Details**

This section links an existing Preshipment Credit. Liquidation of pre-shipment credit is applicable only is the operation type is PUR or DIS.

For more information on fields, refer to the field description table below.

Table 3-23 Pre-Shipment Details - Field Description

Field	Description
Pre Shipment Details The user can click + to add multiple Pre Shipment Details.	
Loan Account Number	Specify the loan account number or click <b>Search</b> to search and select the loan account number from the look-up.
	Note:  If there are any pre-shipment credits available for the selected pre-shipment credit number, application will display a message, prompting the user that there are earlier pre-shipment credit/s availablecand whether he wants to continue or not.
Currency	Read only field.
	Application defaults the currency based on the selected preshipment credit number.
Outstanding Amount	Read only field.
	Application defaults the outstanding amount based on the selected pre-shipment credit number.
Action	Click Edit icon to edit the pre-shipment details.
	Click Delete icon to delete the pre-shipment details.
Setteled Loan	
Sequence Number	This field displays the sequence of the settled loan.
Loan Account Number	This field displays the pre-shipment loan account number.
Currency	This field displays the currency of the pre-shipment loan account number.
Outstanding Amount	This field displays the pre-shipment outstanding amount.
Event	This field displays the event.

Table 3-23 (Cont.) Pre-Shipment Details - Field Description

Field	Description
Setteled Amount	This field displays the settled amount.

8. Click **Save and Close** to save the details and close the screen.

#### **Linked Loan Details**

This user can view the details of linked loan accounts.

For more information on fields, refer to the field description table below.

Table 3-24 Linked Loan Details

Field	Description
Loan Account	Displays the details of the linked loan account.
Loan Currency	Displays the loan Currency of the linked loan account.
Loan Amount	Displays the loan amount of the linked loan account.

9. Click Save and Close to save the details and close the screen.

#### **10.** Next.

The task will move to next data segment. For more information refer Settlement Details. For more information on action buttons, refer to the field description table below.

Table 3-25 Additional Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously.  When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application

Table 3-25 (Cont.) Additional Details - Action Buttons - Field Description

Field	Description
Remarks	Specify any additional information regarding the collection. This information can be viewed by other users processing the request.
	Content from Remarks field should be handed off to 'Remarks' field in backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following  Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.  Transaction Level Instructions – In this section, OBTFPMCS user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for
	customer initiated transactions.
Common Group Messages	Click Common Group Message button, to send MT799 and MT999 messages from within the task.
Incoming Message	Clicking this button allows the user to see the message in case of STP of incoming MT 767.
View Collection	Enables the user to view the latest collection values displayed in the respective fields.
Signatures	Click the Signature button to verify the signature of the customer/bank if required.
	The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.
	If more than one signature is required, system should display all the signatures.
Request Clarification	Click the Request Clarification button to submit the request for clarification to the "Trade Finance Portal" User for the transactions initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.
	Reject Codes are:

# **Exceptions**

This topic helps you quickly get acquainted with the Exceptions process.

The Export Collection Update Booking request, before the task moves to the approval stage, the application will validate the Amount Block, KYC and AML. A failure in validation of any of them, the task will reach exception stage for further approval for the exceptions.

### **Exception - Amount Block**

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage

Log in into OBTFPMCS application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

## Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

#### Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

## Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

#### **Amount Bock Exception**

This section will display the amount block exception details.

### **Summary**

# Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

1. Log in into OBTFPMCS application and acquire the task available in the approval stage in free task queue. Authorization User can acquire the task for approving.

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFPMCS displays the Handoff failure error during the Approval of the task.

### **Authorization Re-Key (Non-Online Channel)**

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Bill Currency Code
- Bill Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

Figure 3-22 Authorization Re-Key

## **Approval Summary**

Tiles Displayed in Summary:

Hold	The details provided will be saved and status will be on hold.User must update the remarks on the reason for holding the task.
	This option is used, if there are any pending information yet to be received from applicant.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system.
	Reject Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
	Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system.
	Refer Codes are:
	<ul> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul>
Approve	On approve, application must validate for all mandatory field values, and task must move to the next logical stage. If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.

#### Reject Approval

This topic helps you quickly get acquainted with the Reject Approval process.

## Reject Approval

This topic helps you quickly get acquainted with the Reject Approval process.

As a Reject approver, user can review a transaction rejected and waiting for reject confirmation.

Log in into OBTFPM application to view the reject approval tasks for Export Documentary Collection Update Booking available in queue. On opening the task, you will see summary tiles. The tiles will display a list of important fields with values.

The screen from which the reject was initiated can been seen highlighted in the tile view.

User can drill down from reject summary tiles into respective data segments to verify the details of all fields under the data segment.

#### **Summary**

The screen up to which data was captured before reject will be available for the user to view in the summary tile. Other fields will be blank when verified from summary tile.

The data segment in which the task was rejected will have the tiles highlighted in a different colour (red).

- Main Details User can view details about application details and document under collection.
- Party Details User can view party details like applicant, Remitting Bank etc.
- Document Details User can view document details.
