This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Preface

- Purpose
- Audience

This document is intended for the following audience:

- Documentation Accessibility
- Critical Patches
- Structure

This manual is organized into the following chapters:

- Diversity and Inclusion
- Conventions
- Related Documents
- · Screenshot Disclaimer
- Acronyms and Abbreviations
- Basic Actions
- · Symbols and Icons

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Guarantee Advise** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and BulletinsCritical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security AssuranceOracle Software Security Assurance.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Benefits

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Advise

As part of Guarantee Advise the advising bank advises a guarantee received from the issuing bank to the beneficiary of the guarantee.

The various stages involved in Oracle Banking Trade Finance Process Management Cloud Service during advising of a guarantee are:

- Receive and verify guarantee (non-online channel) Registration stage
- Input application details
- Upload of related mandatory and non mandatory documents
- Verify documents and capture details
- Input/Modify Details of LC Data Enrichment Stage
- Check for sanctions & KYC status
- Capture remarks for other users to check and act
- Hand off request to back office

In the subsequent sections, let's look at the details for Guarantee Advising process:

This topic contains following subtopics:

Common Initiation Stage

This topic provides the systematic instructions to initiate the new **Guarantee Advise** request.

Registration

This topic provides the systematic instructions to initiate the Registration stage of **Guarantee Advise** request.

Scrutiny

This topic provides the systematic instructions to initiate the Scrutiny stage of Guarantee Advise request.

Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise request.

Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

Reject Approval

This topic helps you quickly get acquainted with the Reject Approval process.

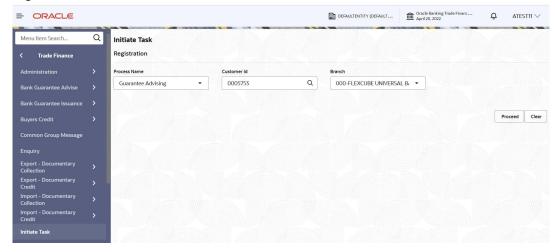

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new Guarantee Advise request.

Specify **User ID** and **Password**, and login to **Home** screen.

On Home screen, click Trade Finance. Under Trade Finance, click Initiate Task.
 The Initiate Task screen displays.

Figure 2-1 Initiate Task

2. On Initiate Task screen, specify the fields.

Note:

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Customer ID	Click Search to search and select the required customer ID of the applicant or applicant's bank.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of **Guarantee Advise** request.

As a Registration user, you can register a Guarantee Advise request, also can upload relevant documents and verify checklist items. If Guarantee to be advised is received as physical instrument, the Guarantee Advise process starts from the Registration Stage. During Registration stage, user can capture the basic details, check the signature of the authorized signatory of the Guarantee Issuing Bank and upload the guarantee. It also enables the user to capture some additional product related details as an option. On submit, the request will be available for an Guarantee Advice expert to handle the request in the next stage.

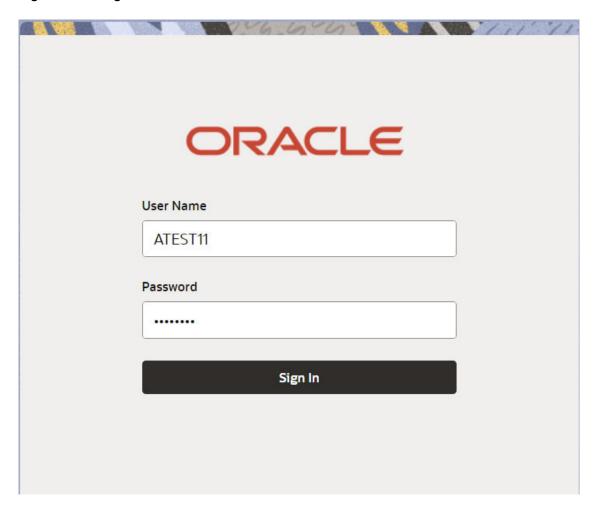

The OBTFPMCS user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPMCS verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPMCS user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 LogIn Screen

- 1. On Home screen, click Trade Finance. Under Trade Finance, click Bank Guarantee Advise.
- 2. Under Bank Guarantee Advise, click Guarantee Advise.

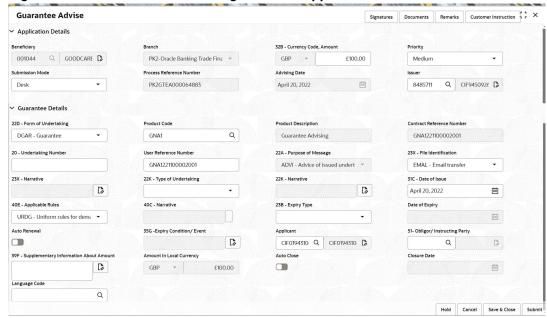

Figure 2-3 Guarantee Advice

The Guarantee Advise - Registration screen displays.

The Guarantee Advise - Registration stage has two sections Application Details and Guarantee Details. Let's look at the details of Registration screens below:

Figure 2-4 Guarantee Advise - Registration - Application Details

On Guarantee Advise - Registration - Application Details screen, specify the fields.

The fields which are marked as **Required** are mandatory.

Table 2-3 Guarantee Advise - Registration - Application Details - Field Description

Field	Description
Beneficiary	Specify the beneficiary or click Search to search and select the beneficiary customer from look-up. If beneficiary is a customer of the bank, system will check for valid KYC status. If KYC status is not valid, system will display alert. For Guarantee Advising MT760, the Customer ID to be resolved from incoming message. If required use Walk-in ID. Bene ID/ name should be made amendable by the user.
Branch	Displays the customer's home branch based on the customer ID. Note: Once the request is submitted, Branch field is noneditable.
	For Guarantee Advising MT760, the branch to be resolved from CIF.
Currency Code, Amount	Select the currency code from the drop-down list. Specify the value of LC (with decimal places) as per currency type. For Guarantee Advising MT760, the currency code is Read only and populated from Incoming MT 760.
Priority	Set the priority of the Guarantee Advise request as Low/Medium/ High. If priority is not maintained for the customer, system will populate 'Medium' as the default priority. User can change the priority populated any time before submit of Registration stage as per the requirement. For Guarantee Advising MT760, the field is defaulted and user can change its value.
Submission Mode	Select the submission mode of Guarantee Advise request from the drop-down list. By default the submission mode will have the value as 'Desk'.
	Desk - Request received through Desk Courier - Request received through Courier
Process Reference Number	Read only field. Unique OBTFPMCS task reference number for the transaction. This is auto generated by the system based on process name and branch code. For Guarantee Advising MT760, the Process Reference Number is read only and generated by the system.

Table 2-3 (Cont.) Guarantee Advise - Registration - Application Details - Field Description

Field	Description
Advising Date	Read only field.
	System will default branch date. Back dating not allowed, if approved on a subsequent date, that date will be populated here.

Closure Date	This field displays the "Closure Date" defaulted by the system, with the value "Expiry Date" + No of Closure days maintained in the respective Product in which the contract has been created. System automatically close the contract on the specified "Closure Date" if "Auto Close" is selected as "Yes" for the specific contract. User can modify the system defaulted "Closure Date" and system should validate the same for the below conditions,
	 Closure Date must be after the Issue Date. Closure Date must be after the Expiry Date. Closure Date cannot be blank, when the "Auto Close" is checked.
	The field is disabled, if Expiry Type is OPEN .
Language Code	Click Search to search and select the language code from the look-up.

5. Click Submit.

The task will move to next logical stage of Guarantee Advise. For more information on action buttons, refer to the field description table below.

Table 2-5 Guarantee Advise - Registration - Action Buttons - Field Description

Field	Description
Signatures	Click the Signature button to verify the signature of the customer/bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.
	If more than one signature is available, system should display all the signatures.
Documents	Upload the documents received. Application displays mandatory documents to be uploaded for Guarantee Advise. Place holders are also available to upload additional documents submitted by the applicant
Remarks	Specify any additional information regarding the Guarantee Advise. This information can be viewed by other users processing the request.

Table 2-5 (Cont.) Guarantee Advise - Registration - Action Buttons - Field Description

Field	Description
Customer Instruction	Click to view/ input the following: Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. Transaction Level Instructions – In this section, OBTFPMCS user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancels the Guarantee Advise task. Details entered will not be saved and the task will be removed.
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.
Submit	Click Submit, system will trigger acknowledgment to the customer and give confirmation message for successful submission. The task will move to next logical stage of Guarantee Advise. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.
Checklist	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.

Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

2.2.1 Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

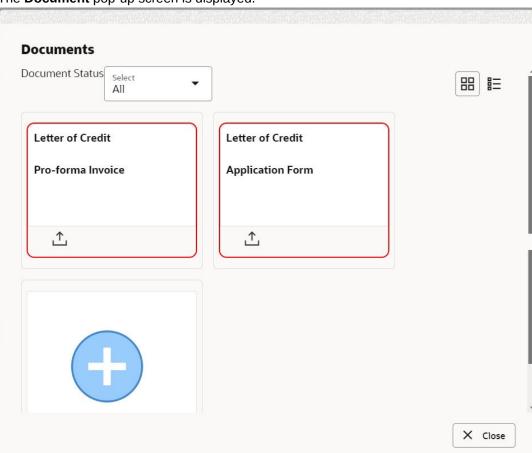

In Oracle Banking Trade Finance Process Management Cloud Service, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/ queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

Specify **User ID** and **Password**, and navigate to **Registration** screen.

1. On the header of **Registration** screen, click, **Documents**.

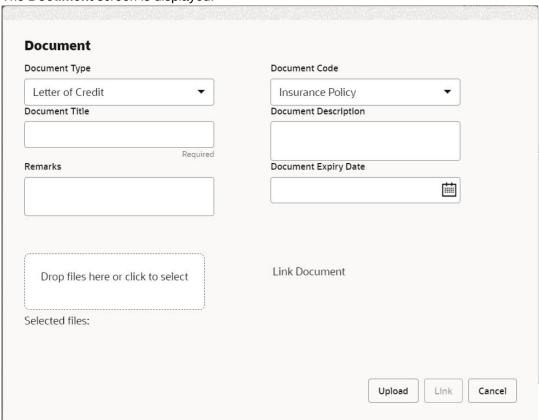

The **Document** pop-up screen is displayed.

2. Click the Add Additional Documents button/ link.

The **Document** screen is displayed.

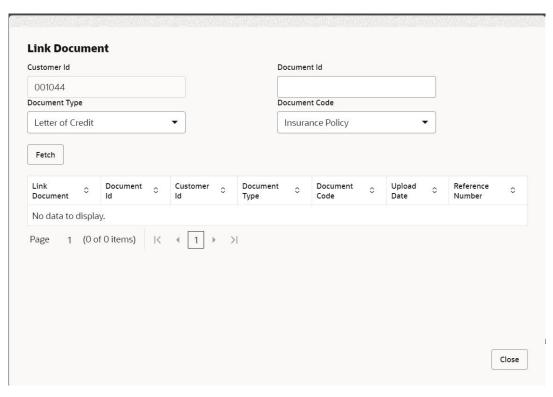

Field	Description
Document Type	Select the document type from list. Indicates the document type from metadata.
Document Code	Select the document Code from list. Indicates the document Code from metadata.
Document Title	Specify the document title.
Document Description	Specify the document description.
Remarks	Specify the remarks.
Document Expiry Date	Select the document expiry date.
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.

3. Select the document to be uploaded or linked and click the **Link Document** link.

The link **Document** pop up screen is displayed.

The value selected in **Document Type** and **Document Code** of **Document** screen are defaulted in the **Link Document Search** screen.

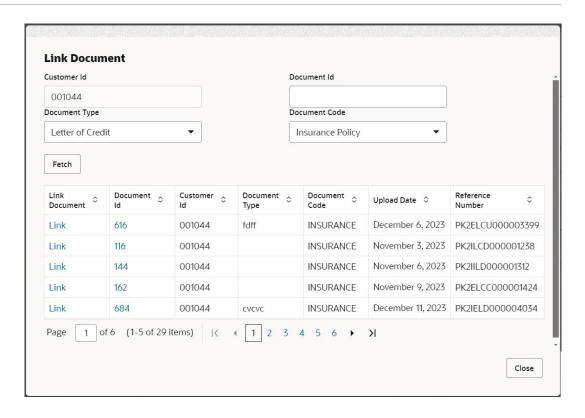

4. Click **Fetch** to retrieve the details from DMS.

System displays all the documents available for the given **Document Type** and **Document Code** for the customer.

Field	Description
Customer ID	This field displays the transaction Customer ID.
Document ID	Specify the document ID.
Document Type	Select the document type from list.
Document Code	Select the document Code from list.
Search Result	
Document ID	This field displays the document ID from metadata.
Customer ID	This field displays the transaction customer ID.
Document Type	This field displays the document type from metadata.
Document Code	This field displays the document code from metadata.
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.
Upload Date	The field displays the upload date of the document.
Reference Number	The field displays the reference number of the document.

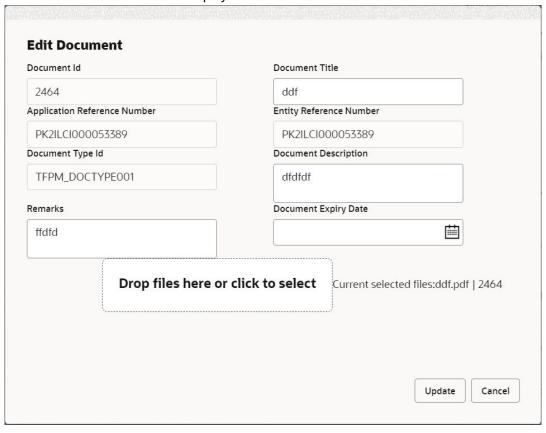

5. Click **Link** to link the particular document required for the current transaction.

Post linking the document, the user can View, Edit and Download the document.

Click Edit icon to edit the documents.

The **Edit Document** screen is displayed.

2.3 Scrutiny

This topic provides the systematic instructions to initiate the Scrutiny stage of Guarantee Advise request.

On successful completion of Registration of an Guarantee Advise, the task moves to Scrutiny stage. At this stage the gathered information during Registration are scrutinized.

Non-Online Channel - Guarantee Advice requests that were received at the desk will move to Scrutiny stage post successful Registration. The request will have the details entered during the Registration stage.

Online Channel - Requests that are received via SWIFT are available directly for further processing from Scrutiny stage and available data for all data segments from Application stage to Data Enrichment stage would be auto populated.

Do the following steps to acquire a task currently at Scrutiny stage:

Specify User ID and Password, and login to Home screen.

- 1. On Home screen, click Tasks.
- Under Task, click Free Tasks.

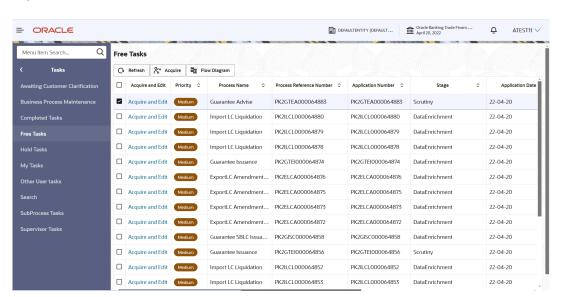

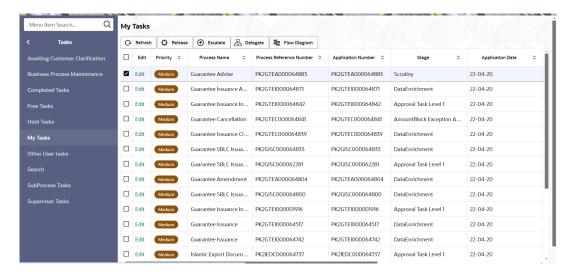

Figure 2-6 Free Tasks

The Free Tasks screen displays.

- 3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
- The acquired task will be available in My Tasks tab. Click Edit to scrutinize the registered task.

Figure 2-7 My Tasks

Let's look at the details for Scrutiny stage. User can enter/update the following fields. Some of the application details that are already having value from Registration channels may not be editable.

The Scrutiny stage has the following hops for data capture:

Main Details

This topic provides the systematic instructions to initiate the main details of Scrutiny stage of Guarantee Advise request.

Guarantee Preferences

This topic provides the systematic instructions to capture the Guarantee preference details in Scrutiny tage.

Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Additional Details

This topic provides the systematic instructions to capture the additional details

Summary

This topic provides the systematic instructions to view the summary of Guarantee Advise request.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the main details of Scrutiny stage of Guarantee Advise request.

Main details section has two sub section as follows:

- Application Details
- Guarantee Details.

Application Details

Submit	Task will get moved to next logical stage of Guarantee Advise. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. n case of duplicate documents' system will terminate the process after handing off the details to back office.

2.4 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise request.

On successful completion of Registration of an Guarantee Advise, the task moves to Data Enrichment stage. As part of Data Enrichment, user can enter/update basic details of the incoming request.

Note:

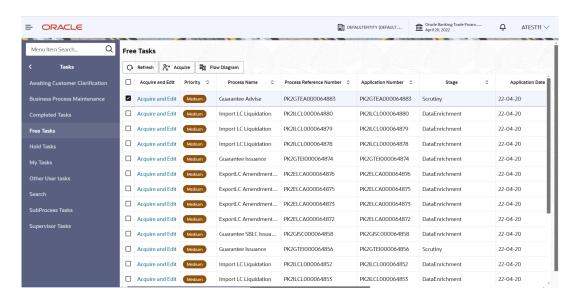

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task which completed the registration and scrutiny and currently at Data enrichment stage.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click, Tasks.
- Under Tasks, click Free Tasks.

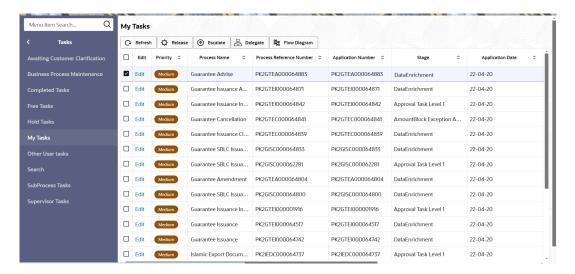

Figure 2-17 Free Tasks

The Free Tasks screen displays.

- Select the appropriate task and click Acquire & Edit to edit the task or click Acquire to edit the task from My Tasks.
- The acquired task will be available in My Tasks tab. Click Edit to scrutinize the registered task.

Figure 2-18 My Tasks

Let's look at the details for Data Enrichment stage. You should be able to enter/update the fields. Some of the fields that are already having value from Scrutiny/Online channels may not be editable.

The Data Enrichment stage has the following hops for data capture:

Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise request.

Guarantee Preferences

This topic provides the systematic instructions to capture the Guarantee preference details in Scrutiny tage.

Acknowledgement Details

This topic provides the systematic instructions to capture the acknowledgement details of Data Enrichment stage.

Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Advices

This topic provides the systematic instructions to capture the advices details.

Additional Details

This topic provides the systematic instructions to capture the additional details.

Settlement Details

This topic provides the systematic instructions to capture the settlement details of **Guarantee Advise** request.

Summary

This topic provides the systematic instructions to view the summary of Guarantee Advise request.

2.4.1 Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise request.

Main details section has two sub section as follows:

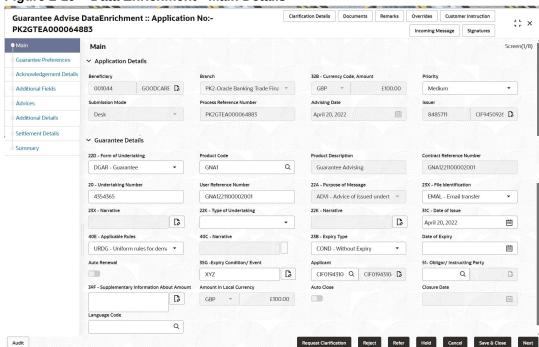

- Application Details
- Guarantee Details.

Application Details

All fields displayed under Basic details section, would be read only except the **Priority** field. For more information on the fields, refer Table 2-6 of **Scrutiny** stage.

1. On **Data Enrichment - Main Details** screen, specify the fields that were not entered at Registration stage.

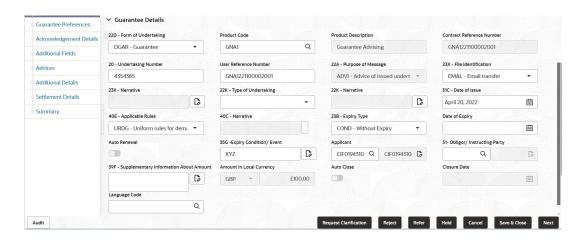

Figure 2-19 Data Enrichment - Main Details

Guarantee Details

The fields listed under this section are same as the fields listed under the **Guarantee Details** section in **Scrutiny** stage. For more information on the fields, refer to refer **Table 2-7** of **Scrutiny** stage. During Registration, if user has not captured input, then user can capture the details in this section.

Figure 2-20 Guarantee Details

Click Next.

The task will move to next data segment.

For more information on action buttons, refer Table 2-9 of **Scrutiny** stage.

2.4.2 Guarantee Preferences

This topic provides the systematic instructions to capture the Guarantee preference details in Scrutiny tage.

1. On Data Enrichment - Guarantee Preferences screen, specify the fields.

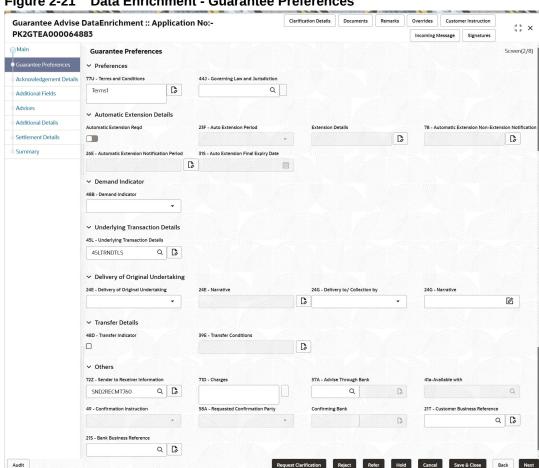

Figure 2-21 Data Enrichment - Guarantee Preferences

For more information on fields, refer to the field description table of Table 2-10 in **Scrutiny** stage.

2. Click Next.

The task will move to next data segment.

For more information on action buttons, refer to the field description **Action Buttons** of Table 2-11 in **Scrutiny** stage.

2.4.3 Acknowledgement Details

This topic provides the systematic instructions to capture the acknowledgement details of Data Enrichment stage.

An acknowledgment in format MT 768 is sent by advising bank to the for Guarantee Advising. The user can input the details required for bank as part of MT 768.

1. On Acknowledgement Details screen, specify the fields.

Clarification Details Documents Remarks Guarantee Advise DataEnrichment :: Application No:-;; × PK2GTEA000064883 **Acknowledgement Details** Screen(3/8) Guarantee Preferences → MT 768 Guarantee Acknowledgment 25 Account Identification Issuing Bank Date Q Q ⊞ £100.00 Q Settlement Details C Summary

Figure 2-22 Acknowledgement Details

For more information on fields, refer to the field description table below:

Table 2-17 Acknowledgement Details - Field Description

Field	Description
Issuing Bank Reference	Specify the issuing bank reference.
Account Identification	Click Search to search and select the account identification.
	This field identifies, the account which is used for settlement of charges, where necessary.
Issuing Bank Date	Specify the date on which the message being acknowledged was sent.
	System displays the Branch Date. If the task is approved on a later date, then the date should be updated as the branch date as on approval.

Table 2-24 (Cont.) Summary - Action Buttons - Field Description

Field	Description
Submit	Task will get moved to next logical stage of Guarantee Advise. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. n case of duplicate documents' system will terminate the process after handing off the details to back office.
Checklist	Make sure that the details in the checklist are completed and acknowledge. If mandatory checklist items are not marked, system will display an error on submit.

2.5 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Guarantee Amendment request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPMCS application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPMCS) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block. Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways.

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.

2.6 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

- Log in into OBTFPMCS application and acquire the task available in the approval stage in free task queue. The user can view the Summary tiles which displays list of important fields with values.
- 2. Click each tile to drill down from summary Tiles into respective data segments to verify the details of all fields under the data segment.

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

Authorization Re-Key (Non-Online Channel)

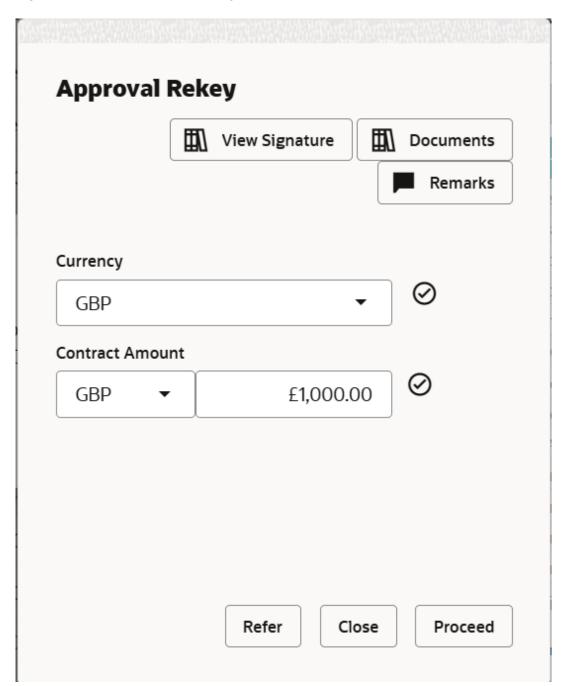

For non-online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

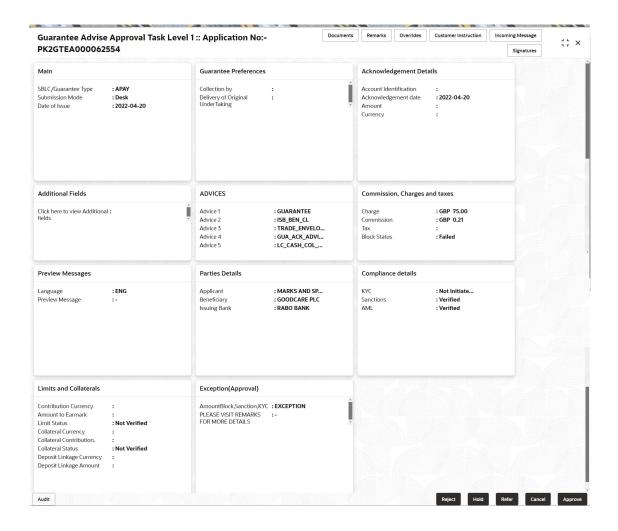

- Currency
- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

Figure 2-28 Authorization Re-Key

Approval Summary
