# Preface

- [Introduction](#)
- [Audience](#)

This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)

This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

## Introduction

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Import LC Amendment Beneficiary Consent - Islamic** process.

## Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

**Table 1 Acronyms and Abbreviations**

Abbreviation	Description
OBTFFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency

## Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

### Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

### Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

### Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

## Import LC Amendment - Beneficiary Consent - Islamic

This User Manual describes the various stages of Import LC Amendment - Beneficiary Consent process.

As part of Conventional Import LC Amendment, Import LC Amendment process enables the user to make an amendment to the LC which had been already issued. The amendments may need consent from the beneficiary of the amendment and the amended LC is parked awaiting beneficiary consent. Once the Beneficiary has accepted the amendment, the LC amendment Confirmation will be triggered.

The various stages involved for Import LC Amendment Beneficiary Consent are:

- Input data and Upload of related mandatory and non-mandatory documents in Registration stage
- Input/Modify details of amendment of LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Notify customer on any negative statuses in any of the stages to the applicant
- Hand off request to back office for amendment confirmation

The design, development and functionality of the Islamic Import LC Amendment Beneficiary Consent process flow is similar to that of conventional Import LC Amendment process flow.

This topic contains the following sub-topics:

- [Common Initiation Stage](#)  
This topic provides the systematic instructions to initiate the new **Import LC Amendment Beneficiary Consent Islamic** request.
- [Registration](#)  
This topic provides the systematic instructions to initiate the Registration stage of Import LC Amendment Beneficiary Consent - Islamic request.
- [Data Enrichment](#)  
This topic provides the systematic instructions to initiate the Data Enrichment stage of import lc Amendment Beneficiary Consent - Islamic request.
- [Exceptions](#)  
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)  
This topic helps you quickly get acquainted with the Multi Level Approval process.

### 2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new **Import LC Amendment Beneficiary Consent Islamic** request.

<b>Request Clarification</b>	Submit the request for clarification to the “Trade Finance Portal” for the transactions initiated offline.
<b>Save &amp; Close</b>	Save the details provided and holds the task in ‘My Task’ queue for further update. This option will not submit the request.
<b>Cancel</b>	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in ‘My Task’ queue.
<b>Hold</b>	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>
<b>Reject</b>	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul> <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
<b>Refer</b>	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul>

**Table 2-9 (Cont.) Main Details - Action Buttons - Field Description**

Field	Description
<b>Next</b>	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

## 2.3.2 Advices

This topic provides the systematic instructions to capture the advices details.

Advices menu displays the advices available under a product code from the back office as tiles. User can edit the fields in the tile, if required. User can suppress the advice, if required.

1. On **Advices** screen, click  on any advice tile to view the advice details.

**Figure 2-9 Advices**

Figure 2-10 Advices Details

Table 2-10 Advices Details

Field	Decription
<b>Suppress Advice</b>	Switch to  , to suppress the advice. Switch to  , if suppress advice is not required.
<b>Advice Name</b>	Read only field. Displays the advice name.
<b>Medium</b>	This field diaplays the medium of advices defaulted from the system. User can update if required.
<b>Advice Party</b>	Read only field. Displays the advice party, defaulted from the LC amendment bneficiary consent.
<b>Party ID</b>	Read only field. Displays the party Id defaulted from the LC amendment bneficiary consent.
<b>Party Name</b>	Read only field. Displays the party name defaulted from the LC amendment bneficiary consent.
<b>FTT Code</b>	Specify the free format text based on the following table. Click plus icon to add multiple FTT code.
<b>FTT Code</b>	Click <b>Search</b> to search and select the FTT code as a part of free text.

**Table 2-10 (Cont.) Advices Details**

Field	Decription
<b>FFT Description</b>	Read only field. This field dispys the FFT description based on the FFT code selected.
	Click edit icon to edit the existing FFT description.
<b>Action</b>	Click Edit icon to edit the FFT code. Click Delete icon to delete the FFT code.
<b>Instructions</b>	Specify the instruction details based on the following table.
<b>Instruction Code</b>	Click <b>Search</b> to search and select the instruction code as a part of free text.
<b>Instruction Description</b>	This field dispys the instruction description based on the instruction code selected. User can edit the instruction description.
	Click edit icon to edit the existing instruction description.
<b>Action</b>	Click Edit icon to edit the instruction code. Click Delete icon to delete the instruction code.

2. Click **Next**.

The task will move to next data segment.  
For more information on fields, refer to the field description table below.

**Table 2-11 Advices - Action Buttons - Field Description**

Field	Description
<b>Clarification Details</b>	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
<b>Documents</b>	Click to View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.

Table 2-11 (Cont.) Advices - Action Buttons - Field Description

Field	Description
<b>Remarks</b>	Specify any additional information regarding the import lc amendment - beneficiary response - Islamic. This information can be viewed by other users processing the request.  Content from Remarks field should be handed off to Remarks field in Backend application.
<b>Overrides</b>	Click to view the overrides accepted by the user.
<b>Customer Instructions</b>	Click to view/ input the following <ul style="list-style-type: none"> <li>Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>Transaction Level Instructions – In this section, Oracle Banking Trade Finance Process Management Cloud Service user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>
<b>View LC</b>	Click to view the details of the LC.
<b>Signatures</b>	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.  If more than one signature is available, system should display all the signatures.
<b>Request Clarification</b>	Submit the request for clarification to the “Trade Finance Portal” for the transactions initiated offline.
<b>Save &amp; Close</b>	Save the details provided and holds the task in ‘My Task’ queue for further update. This option will not submit the request.
<b>Cancel</b>	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in ‘My Task’ queue.
<b>Hold</b>	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.  This option is used, if there are any pending information yet to be received from applicant.
<b>Reject</b>	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes are: <ul style="list-style-type: none"> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul> Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.

**Table 2-11 (Cont.) Advices - Action Buttons - Field Description**

Field	Description
<b>Refer</b>	Select a Refer Reason from the values displayed by the system.  Refer Codes are: <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul>
<b>Back</b>	On click of Back, system moves the task back to previous data segment.
<b>Next</b>	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

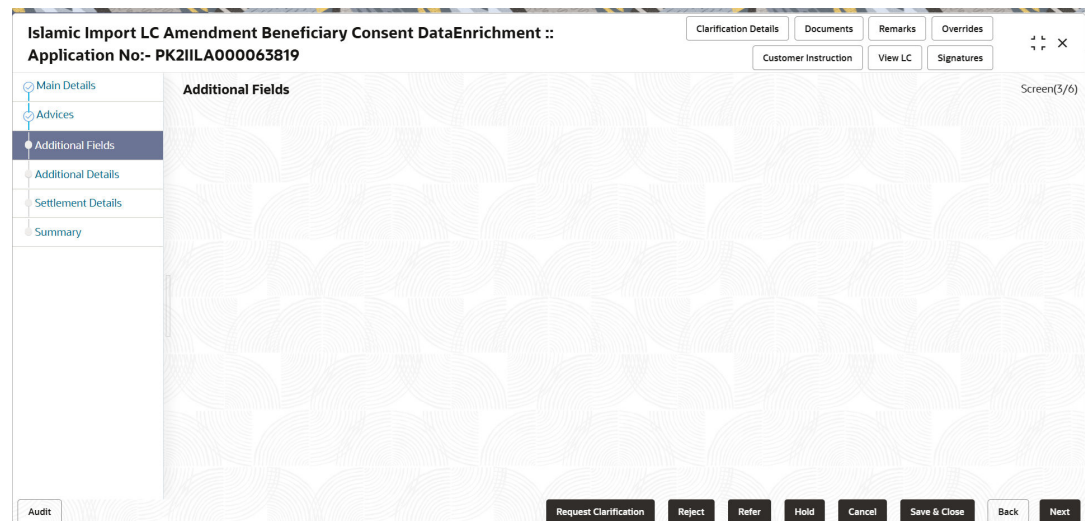

### 2.3.3 Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Banks can configure user defined fields as per their requirement in the Additional Fields Screen.

1. On **Data Enrichment - Additional Fields** screen, specify the fields, if any.

**Figure 2-11 Additional Fields**

2. Click **Next**.

The task will move to next data segment.

For more information on fields, refer to the field description table below.

**Table 2-12 Additional Fields - Action Buttons - Field Description**

<b>Field</b>	<b>Description</b>
<b>Clarification Details</b>	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
<b>Documents</b>	Click to View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.

<b>Checklist</b>	<p>Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.</p>

## 2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Import LC Amendment Beneficiary Consent - Islamic request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

### Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the

extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into Oracle Banking Trade Finance Process Management Cloud Service application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account.

Refer Close Proceed

For non online channel, the application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message and user will not be able to approve the task.

Some of the fields below will dynamically be available for re-key.:

- Currency
- Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

**Table 2-22 Approval Re-Key - Action Buttons - Field Description**

Field	Description
<b>View Signature</b>	Click the View Signatures button to verify the signature of the customer/ bank if required.
