# Preface

- [Purpose](#)
- [Audience](#)  
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)  
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Acronyms and Abbreviations](#)
- [Screenshot Disclaimer](#)
- [Symbols and Icons](#)
- [Basic Actions](#)

## Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Import LC Amendment Beneficiary Consent** process.

## Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

- [Access to Oracle Support](#)

## Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide

- Oracle Banking Common Core User Guide

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

**Table 1 Acronyms and Abbreviations**

Abbreviation	Description
OBTFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency
LOV	List of Values
CIF	Customer Information File
UDF	User Defined Fields
FFT	Free Format Text
SBLC	Standby Letter of Credit

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## Symbols and Icons

## Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

### Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

### Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

### Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# 2

## Import LC Amendment - Beneficiary Consent

Import LC Amendment - Beneficiary Consent process enables the user to register the beneficiary consent response received for an amendment made to a LC.

This topic contains following subtopics:

- [Common Initiation Stage](#)  
This topic provides the systematic instructions to initiate the new **Import LC amendment - Beneficiary Consent** request.
- [Registration](#)  
This topic provides the systematic instructions to initiate the Registration stage of **Import LC Amendment Beneficiary Consent** request.
- [Data Enrichment](#)  
This topic provides the systematic instructions to initiate the Data Enrichment stage of **Import LC Amendment Beneficiary Consent** request.
- [Exceptions](#)  
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)  
This topic helps you quickly get acquainted with the Multi Level Approval process.

### 2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new **Import LC amendment - Beneficiary Consent** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.  
The **Initiate Task** screen appears.

**Figure 2-1 Initiate Task**

- On **Initiate Task** screen, specify the fields.

 **Note:**

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

**Table 2-1 Initiate Task - Field Description**

Field	Description
<b>Process Name</b>	Select a process name from the drop-down list.
<b>LC Reference Number</b>	Click <b>Search</b> to search and select the required LC reference number.
<b>Branch</b>	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

**Table 2-2 Action Buttons - Field Description**

Field	Description
<b>Proceed</b>	Task will get initiated to next logical stage.
<b>Clear</b>	Click to clear the contents update and enter the values again.

- Click **Proceed** to proceed to the next step.

## 2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of **Import LC Amendment Beneficiary Consent** request.

If beneficiary response is given through branch either by fax, mail, or paper, the **Import LC amendment - Beneficiary Consent** process starts from the Registration Stage.

During Registration stage, user can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. It also enables the user to capture beneficiary response.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 LogIn Screen

The image shows a login screen for Oracle. At the top center is the Oracle logo in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains seven dots. Below the password field is a dark grey button with the text "Sign In" in white. The background of the screen is light grey with a decorative pattern at the top.

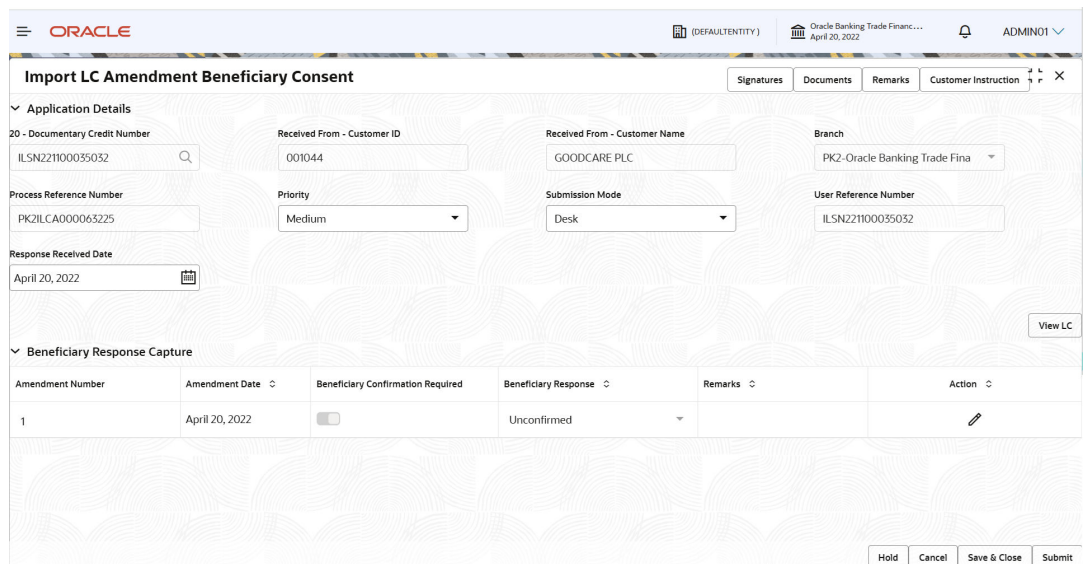

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Import Documentary Credit**.
2. Under **Import Documentary Credit**, click **Import LC Amendment Beneficiary Consent**.

Figure 2-3 Import LC Amendment - Beneficiary Consent

The **Import LC Amendment Beneficiary Consent** screen appears. The Import LC Amendment Beneficiary Consent - Registration stage has two sections Application Details and Beneficiary Response Capture. Let's look at the details of Registration screens below:

Figure 2-4 Registration - Application Details

- On **Import LC Amendment Beneficiary Consent - Registration - Application Details** screen, specify the fields.

**Note:**

The fields marked as **Required** are mandatory.

Table 2-3 Registration - Application Details - Field Description

Field	Description
<b>Documentary Credit Number</b>	<p>Specify the documentary credit number..</p> <p>Alternatively, click <b>Search</b> to search and select the documentary credit number.</p> <p>In lookup search/advanced lookup search, user can input DCN Reference Number, Applicant, Currency, Amount and User Reference to fetch the LC details.</p> <p>Based on the search result, select the applicable LC to add the Beneficiary response.</p>
<b>Received From - Customer ID</b>	<p>Read only field.</p> <p>Customer ID will be auto-populated based on the selected LC from the lookup.</p>
<b>Received From - Customer Name</b>	<p>Read only field.</p> <p>Customer name will be auto-populated based on the selected LC from the lookup.</p>
<b>Branch</b>	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected LC from the lookup.</p>
<b>Process Reference Number</b>	<p>Unique Oracle Banking Trade Finance Process Management Cloud Service task reference number for the transaction.</p> <p>This is auto generated by the system based on process name and branch code.</p>
<b>Priority</b>	<p>Set the priority of the Import LC Amendment - Beneficiary Consent request as:</p> <ul style="list-style-type: none"> <li>• <b>Essential</b></li> <li>• <b>Critical</b></li> <li>• <b>Low</b></li> <li>• <b>Medium</b></li> <li>• <b>High</b></li> </ul> <p>If priority is not maintained for the customer, system will populate 'Medium' as the default priority.</p>
<b>Submission Mode</b>	<p>Select the submission mode of Import LC Amendment - Beneficiary Consent request. By default the submission mode will have the value as 'Desk' for transactions created via registration.</p> <p>By default the submission mode will have the value as 'Desk'.</p> <ul style="list-style-type: none"> <li>• <b>Desk</b> - Request received through Desk</li> <li>• <b>Fax</b> - Request received through Fax</li> <li>• <b>Email</b> - Request received through Email</li> <li>• <b>Courier</b> - Request received through Courier</li> </ul>
<b>User Reference Number</b>	<p>Read only field.</p> <p>User Reference Number will be auto populated by the system based on selected LC using documentary credit number.</p>

**Table 2-3 (Cont.) Registration - Application Details - Field Description**

Field	Description
<b>Response Received Date</b>	<p>The application displays the branch's current date by default. The user can change the date to any back date.</p> <div style="border: 1px solid #0070C0; padding: 5px; margin-top: 10px;"> <p> <b>Note:</b></p> <p>Future date selection is not allowed.</p> </div>

**Registration - Beneficiary Response Capture**

Registration user can capture the beneficiary responses of each amendments made to the LC in this section.

4. On **Import LC Amendment Beneficiary Consent - Registration - Beneficiary Response Capture** screen, specify the fields.

 **Note:**

If mandatory checklist items are not selected, system will display an error on submit.</p> <p>The checklist items under Registration Stage are: Application signed and stamped Customer signature verified Any correction or alteration initialed by the applicant.</p> 

- [Document Linkage](#)  
This topic provides the systematic instructions to initiate the document linkage.

## 2.2.1 Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

In Oracle Banking Trade Finance Process Management Cloud Service, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id

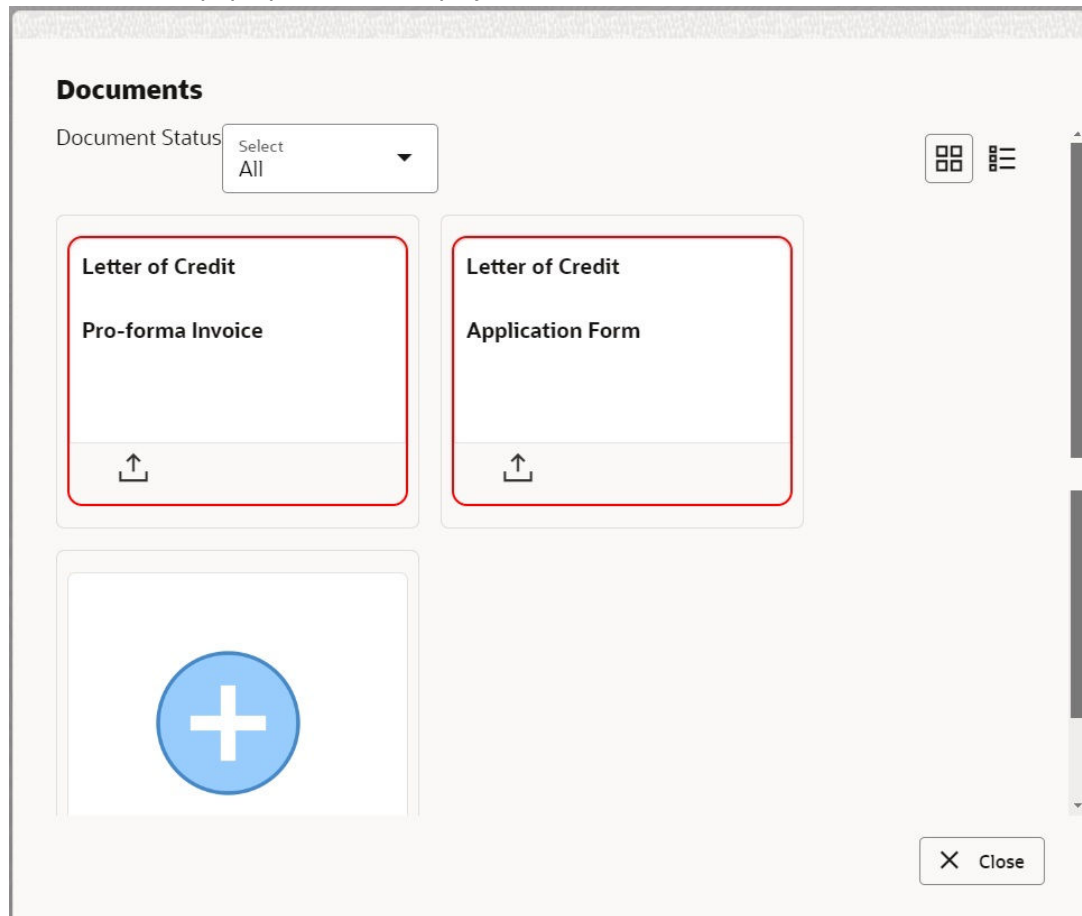

along with other Metadata. The uploaded Document image in the DMS should be available/ queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

Specify **User ID** and **Password**, and navigate to **Registration** screen.

1. On the header of **Registration** screen, click, **Documents**.

The **Document** pop-up screen is displayed.

2. Click the **Add Additional Documents** button/ link.

The **Document** screen is displayed.

Field	Description
<b>Document Type</b>	Select the document type from list. Indicates the document type from metadata.
<b>Document Code</b>	Select the document Code from list. Indicates the document Code from metadata.
<b>Document Title</b>	Specify the document title.
<b>Document Description</b>	Specify the document description.
<b>Remarks</b>	Specify the remarks.
<b>Document Expiry Date</b>	Select the document expiry date.
<b>Link Document</b>	The link to link the existing uploaded documents from DMS to the workflow task.

3. Select the document to be uploaded or linked and click the **Link Document** link.

The link **Document** pop up screen is displayed.

The value selected in **Document Type** and **Document Code** of **Document** screen are defaulted in the **Link Document Search** screen.

Let's look at the details for Data Enrichment stage. User can enter/update basic details of the incoming request. Some of the fields that are already having value from Registration/online channels may not be editable.

Do the following steps to acquire a task at Data Enrichment stage.

The Data Enrichment stage has the following hops for data capture:

- [Main Details](#)  
This topic provides the systematic instructions to initiate the Data Enrichment stage of **Import LC Amendment Beneficiary Consent** request.
- [Advices](#)  
This topic provides the systematic instructions to capture the advices details.
- [Additional Fields](#)  
This topic provides the systematic instructions to capture the additional fields.
- [Additional Details](#)  
This topic provides the systematic instructions to capture the additional details
- [Settlement Details](#)  
This topic provides the systematic instructions to capture the settlement details of import LC amendment beneficiary consent request.
- [Summary](#)  
This topic provides the systematic instructions to view the summary of import LC amendment Beneficiary Consent request.

### 2.3.1 Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of **Import LC Amendment Beneficiary Consent** request.

Main details section has two sub section as follows:

- Application Details
- Beneficiary Response Capture

#### Application Details

All fields displayed under main details section, would be read only except the **Priority**. For more information on the fields, refer **Application Details** of **Registration** stage.

1. On **Data Enrichment - Main Details** screen, specify the fields that were not entered at Registration stage.

**Figure 2-7 Data Enrichment - Main Details**

**Table 2-6 Data Enrichment - Main Details - Application Details - Field Description**

Field	Description
<b>Documentary Credit Number</b>	Read only field. Documentary credit number is defaulted from LC.
<b>Received From - Customer ID</b>	Read only field. Customer ID will be auto-populated based on the selected LC in Registration stage.
<b>Received From - Customer Name</b>	Read only field. Customer name will be defaulted as available in LC.
<b>Branch</b>	Read only field. Branch details will be auto-populated based on the selected LC from the lookup.
<b>Process Reference Number</b>	Read only field. Unique Oracle Banking Trade Finance Process Management Cloud Service task reference number for the transaction.  This is auto generated by the system based on process name and branch code.

**Table 2-6 (Cont.) Data Enrichment - Main Details - Application Details - Field Description**

Field	Description
<b>Priority</b>	Set the priority of the Import LC Amendment - Beneficiary Consent request as: <ul style="list-style-type: none"> <li>• <b>Essential</b></li> <li>• <b>Critical</b></li> <li>• <b>Low</b></li> <li>• <b>Medium</b></li> <li>• <b>High</b></li> </ul> If priority is not maintained for the customer, system will populate 'Medium' as the default priority.
<b>Submission Mode</b>	Read only field.  Submission mode will be defaulted based on the selected LC in Registration stage.
<b>User Reference Number</b>	Read only field.  User reference number will be defaulted based on the selected LC in Registration stage.
<b>Response Received Date</b>	Read only field. The application displays the branch's current date by default.

**Beneficiary Response Capture**

The fields listed under this section are same as the fields listed under the **Beneficiary Response Capture** section in **Registration**. For more information on the fields refer **Beneficiary Response Capture** in the **Registration** stage. If user has not captured input, then user can capture the details in this section.

**Figure 2-8 Beneficiary Response Capture**

Beneficiary Response Capture

This button provides information about user initiated the transaction, initiated date, stage wise detail etc.

For more information on fields, refer to the field description table below.

**Table 2-9 Audit - Field Description**

Field	Description
<b>Application No.</b>	This field displays the application number of the process.
<b>Branch Code</b>	This field displays the branch code.
<b>Initiated Date</b>	This field displays the date on which process is initiated.
<b>Initiated By</b>	This field displays the user ID of the user who had initiated the process.
<b>Process Name</b>	This field displays the name of the process which is initiated.
<b>S. No</b>	This field displays the serial number of the audit record.
<b>Stage Name</b>	This field displays the current stage of the process.
<b>Completed Time</b>	This field displays the time on which the audit of the current stage is completed.
<b>Completed By</b>	This field displays the user ID of the user who had completed the audit.
<b>Outcome</b>	This field displays the outcome of the audit.

2. Click **Next**.

The task will move to next data segment.

**Table 2-10 Main Details - Action Buttons - Field Description**

Field	Description
<b>Clarification Details</b>	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
<b>Documents</b>	Click to View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
<b>Remarks</b>	Specify any additional information regarding the LC amendment beneficiary consent. This information can be viewed by other users processing the request.  Content from Remarks field should be handed off to Remarks field in Backend application.
<b>Overrides</b>	Click to view the various overrides that have been generated and accepted.

Table 2-10 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
<b>Customer Instruction</b>	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> <li>• <b>Standard Instructions</b> – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>• <b>Transaction Level Instructions</b> – In this section, Oracle Banking Trade Finance Process Management Cloud Service user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>
<b>View LC</b>	Click to view the details of the LC.
<b>Signatures</b>	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>
<b>Request Clarification</b>	Submit the request for clarification to the “Trade Finance Portal” for the transactions initiated offline.
<b>Save &amp; Close</b>	Save the details provided and holds the task in ‘My Task’ queue for further update. This option will not submit the request.
<b>Cancel</b>	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
<b>Hold</b>	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>
<b>Reject</b>	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul> <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
<b>Refer</b>	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul>

**Table 2-10 (Cont.) Main Details - Action Buttons - Field Description**

Field	Description
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

## 2.3.2 Advices

This topic provides the systematic instructions to capture the advices details.

Advices menu displays the advices available under a product code from the back office as tiles. User can edit the fields in the tile, if required. User can suppress the advice, if required.

1. On **Advices** screen, click  on any advice tile to view the advice details.

**Figure 2-10 Advices**

The screenshot shows the Oracle interface for 'Import LC Amendment Beneficiary Consent DataEnrichment :: Application No:- PK2ILCA000063225'. The 'Advices' section is active, displaying a grid of six advice tiles. Each tile contains the following information:

- Advice Name**: The specific name of the advice.
- Advice Party**: The party associated with the advice.
- Party Name**: The name of the party.
- Suppress Advice**: A field indicating if the advice should be suppressed.

At the bottom of the screen, there are several action buttons: Request Clarification, Reject, Refer, Hold, Cancel, Save & Close, Back, and Next.

Figure 2-11 Advices Details

Table 2-11 Advices Details

Field	Description
<b>Suppress Advice</b>	Switch to  , to suppress the advice. Switch to  , if suppress advice is not required.
<b>Advice Name</b>	Read only field. Displays the advice name.
<b>Medium</b>	This field displays the medium of advices defaulted from the system. User can update if required.
<b>Advice Party</b>	Read only field. Displays the advice party, defaulted from the LC amendment beneficiary consent.
<b>Party ID</b>	Read only field. Displays the party Id defaulted from the LC amendment beneficiary consent.
<b>Party Name</b>	Read only field. Displays the party name defaulted from the LC amendment beneficiary consent.
<b>Free Format Text</b>	Specify the free format text based on the following table.
	Click plus icon to add multiple FFT code.
<b>FFT Code</b>	Click <b>Search</b> to search and select the FFT code as a part of free text.

**Table 2-11 (Cont.) Advices Details**

Field	Description
<b>FFT Description</b>	Read only field. This field displays the FFT description based on the FFT code selected.
	Click edit icon to edit the existing FFT description.
<b>Action</b>	Click Edit icon to edit the FFT code. Click Delete icon to delete the FFT code.
<b>Instruction Details</b>	Specify the instruction details based on the following table.
	Click plus icon to add new instruction code.
<b>Instruction Code</b>	Click <b>Search</b> to search and select the instruction code as a part of free text.
<b>Instruction Description</b>	This field displays the instruction description based on the instruction code selected. User can edit the instruction description.
	Click edit icon to edit the existing instruction description.
<b>Action</b>	Click Edit icon to edit the instruction code. Click Delete icon to delete the instruction code.

2. Click **Next**.

The task will move to next data segment.  
For more information on fields, refer to the field description table below.

**Table 2-12 Advices - Action Buttons - Field Description**

Field	Description
<b>Clarification Details</b>	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
<b>Documents</b>	Click to View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.

Table 2-12 (Cont.) Advices - Action Buttons - Field Description

Field	Description
<b>Remarks</b>	Specify any additional information regarding the import lc amendment - beneficiary response. This information can be viewed by other users processing the request.  Content from Remarks field should be handed off to Remarks field in Backend application.
<b>Overrides</b>	Click to view the overrides accepted by the user.
<b>Customer Instructions</b>	Click to view/ input the following <ul style="list-style-type: none"> <li>Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.</li> </ul>
<b>View LC</b>	Click to view the details of the LC.
<b>Signatures</b>	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is available, system should display all the signatures.
<b>Request Clarification</b>	Submit the request for clarification to the “Trade Finance Portal” for the transactions initiated offline.
<b>Save &amp; Close</b>	Save the details provided and holds the task in ‘My Task’ queue for further update. This option will not submit the request.
<b>Cancel</b>	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
<b>Hold</b>	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.  This option is used, if there are any pending information yet to be received from applicant.
<b>Reject</b>	On click of Reject, user must select a Reject Reason from a list displayed by the system.  Reject Codes are: <ul style="list-style-type: none"> <li>R1- Documents missing</li> <li>R2- Signature Missing</li> <li>R3- Input Error</li> <li>R4- Insufficient Balance/Limits</li> <li>R5 - Others</li> </ul> Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.

**Table 2-12 (Cont.) Advices - Action Buttons - Field Description**

Field	Description
<b>Refer</b>	Select a Refer Reason from the values displayed by the system.  Refer Codes are: <ul style="list-style-type: none"> <li>• R1- Documents missing</li> <li>• R2- Signature Missing</li> <li>• R3- Input Error</li> <li>• R4- Insufficient Balance/Limits</li> <li>• R5 - Others</li> </ul>
<b>Back</b>	On click of Back, system moves the task back to previous data segment.
<b>Next</b>	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

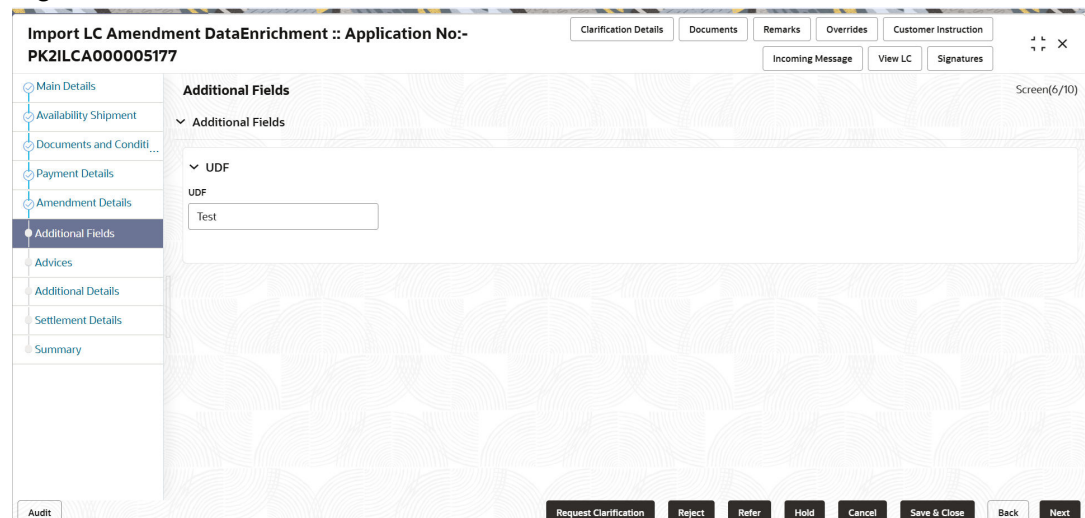

### 2.3.3 Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Banks can configure user defined fields as per their requirement in the Additional Fields Screen.

1. On **Data Enrichment - Additional Fields** screen, specify the fields, if any.

**Figure 2-12 Additional Fields**

2. Click **Next**.

The task will move to next data segment.

For more information on fields, refer to the field description table below.

**Table 2-13 Additional Fields - Action Buttons - Field Description**

<b>Field</b>	<b>Description</b>
<b>Clarification Details</b>	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
<b>Documents</b>	Click to View/Upload the required document.  Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
<b>Remarks</b>	Specify any additional information regarding the import lc amendment - beneficiary response. This information can be viewed by other users processing the request.  Content from Remarks field should be handed off to Remarks field in Backend application.
<b>Overrides</b>	Click to view the overrides accepted by the user.
<b>Customer Instructions</b>	Click to view/ input the following <ul style="list-style-type: none"> <li>Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this.</li> <li>Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. For more information on fields, refer to the field description table below.

Table 2-14 Charge Details - Field Description

Field	Description
<b>Commission Details</b>	This section displays the commission details. By default, all the charges, commission and margin are collected from the counter-party.
<b>Component</b>	Displays the commission component. Click the link to view the commission component details.

**Table 2-14 (Cont.) Charge Details - Field Description**

Field	Description
<b>Rate</b>	Displays the rate that is defaulted from product. The commission rate, if available in Back Office defaults in OBTFPMCS. The user is able to change the rate.  If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.
<b>Mod. Rate</b>	From the default value, if the rate is changed the value gets updated in this field.
<b>Currency</b>	Displays the currency in which the commission have to be collected.
<b>Amount</b>	Displays the amount that is maintained under the product code. The commission rate, if available in Back Office defaults in OBTFPMCS. The user is able to change the rate, but not the commission amount directly. The amount gets modified based on the rate changed and the new amount is calculated in back office based on the new rate and is populated in OBTFPMCS.  If flat commission is applicable, then commission amount defaulted from back office is modifiable by the user. Rate field will be blank and the user cannot modify the Rate field.
<b>Modified</b>	From the default value, if the amount is changed, the value gets updated in the modified amount field.
<b>Defer</b>	Switch to  for charges/commissions has to be deferred and collected at any future step.
<b>Waive</b>	Switch to  to waive the charges/commissions. Based on the customer maintenance, the charges/commission can be marked for Billing or Defer.  If the defaulted Commission is changed to defer or billing or waive, system must capture the user details and the modification details in the 'Remarks' place holder.
<b>Split</b>	Switch to  for splitting the Commission.  Switch to  if splitting of commission is not required.
<b>Charge Party</b>	Charge party is 'Applicant' by default. User can change the value to Beneficiary.

## 2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Import LC Amendment Beneficiary Consent request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

### Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into Oracle Banking Trade Finance Process Management Cloud Service application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account.

### Amount Bock Exception

This section will display the amount block exception details.

Refer Close Proceed

For non online channel, the application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message and user will not be able to approve the task.

Some of the fields below will dynamically be available for re-key.:

- Currency
- Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

**Table 2-23 Approval Re-Key - Action Buttons - Field Description**

Field	Description
