Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Issuance of Letter of Undertaking for Buyers Credit** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange

1

Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Issuance of Letter of Undertaking for Buyers Credit

Bank can arrange for a credit (Buyers Credit) for an Import Bill liquidation, based on the request from the customer through other Lending Banks.

In such cases, system should allow the bank user to liquidate the Import Bill using the Buyers Credit and to settle the Buyers Credit later on debiting the customer account.

This topic contains following subtopics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new **Issuance of Letter of Undertaking for Buyers Credit** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Issuance of Letter of Undertaking for Buyers Credit request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Issuance of Letter of Undertaking for Buyers Credit request.
- [Exceptions](#)
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.
- [Handoff](#)
This topic helps you quickly get acquainted with the Handoff process.

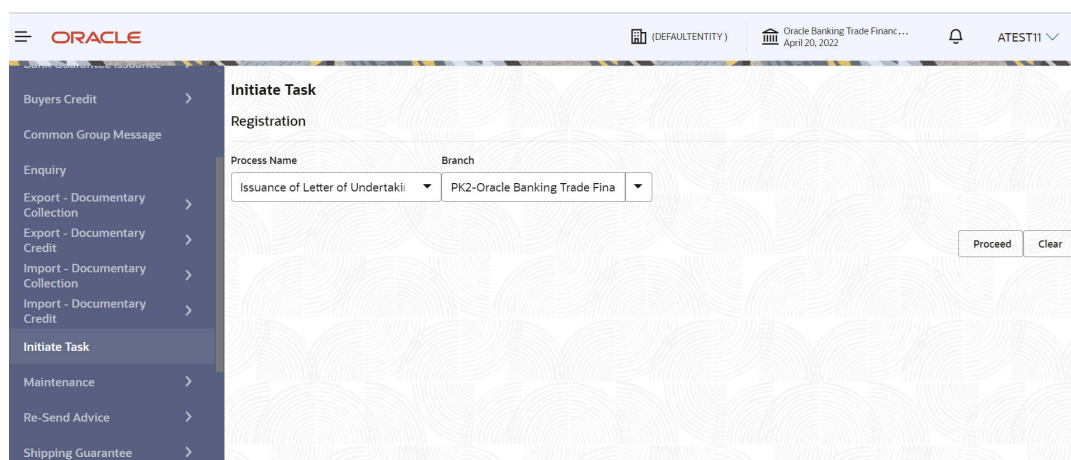

2.1 Common Initiation Stage

2.3 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Issuance of Letter of Undertaking for Buyers Credit request.

As part of Data Enrichment, user can enter/update basic details of the incoming request. The user can also enter additional details, if any in the Data Enrichment stage.

Under Data Enrichment stage, user can capture details that are not captured as part of the Registration stage or can modify the details if any captured as part of the Registration stage.

If the request is received from any external system, then the task will be created directly in the Data Enrichment Stage and user will be allowed to input / update the details as in other Processes.

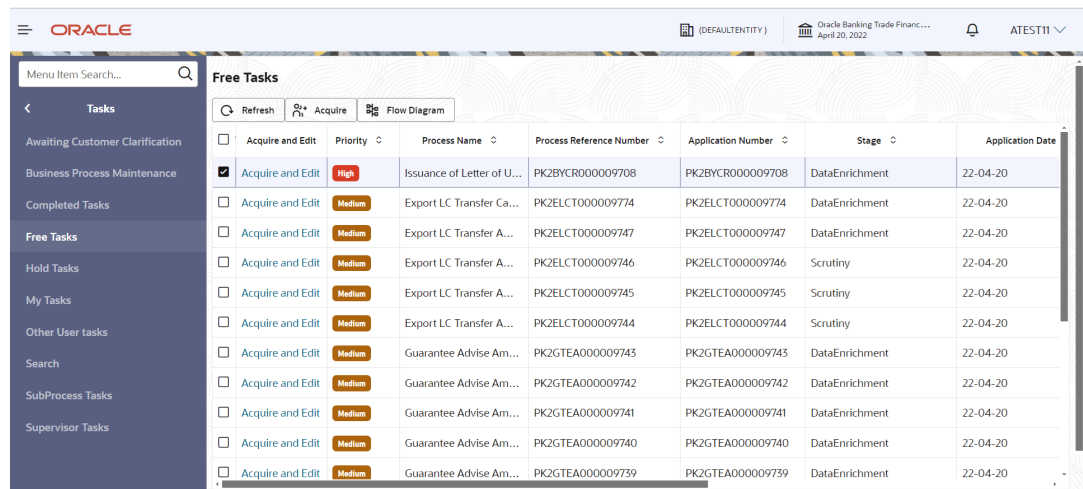

Note:

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.

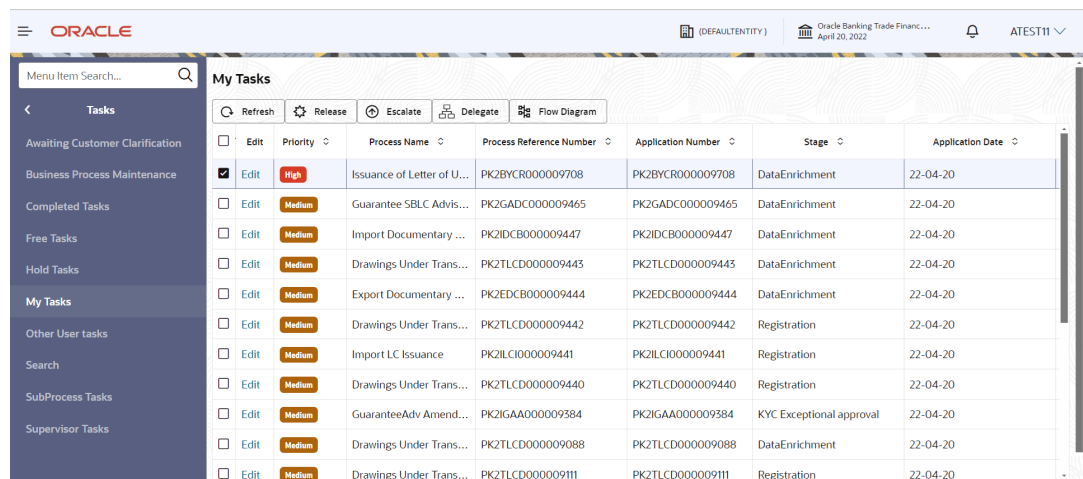

Figure 2-5

The **Free Task** screen appears.

3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to scrutinize the registered task.

Figure 2-6 My Tasks

Let's look at the details for Data Enrichment stage. User can enter/update the following fields. Some of the application details that are already having value from Registration channels may not be editable.

The Data Enrichment stage has the following hops for data capture:

- [Main](#)
This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Issuance of Letter of Undertaking for Buyers Credit request.
- [Other Details](#)
This topic provides the systematic instructions to capture the other details.
- [Advices](#)
This topic provides the systematic instructions to capture the advices details.
- [Additional Details](#)
This topic provides the systematic instructions to capture the additional details
- [Settlement Details](#)
This topic provides the systematic instructions to capture the settlement details of Issuance of Letter of Undertaking for Buyers Credit request.
- [Summary](#)
This topic provides the systematic instructions to view the summary of Issuance of Letter of Undertaking for Buyers Credit request.

For more information on audit, refer to the field description table below.

Table 2-8 Audit - Field Description

Field	Description
Application No.	This field displays the application number of the process.
Branch Code	This field displays the branch code.
Initiated Date	This field displays the date on which process is initiated.
Initiated By	This field displays the user ID of the user who had initiated the process.
Process Name	This field displays the name of the process which is initiated.
S. No	This field displays the serial number of the audit record.
Stage Name	This field displays the current stage of the process.
Completed Time	This field displays the time on which the audit of the current stage is completed.
Completed By	This field displays the user ID of the user who had completed the audit.
Outcome	This field displays the outcome of the audit.

2. Click **Next**.

The task will move to next data segment.

Table 2-9 Main Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be Clarification Requested.
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the Issuance of Letter of Undertaking for Buyers Credit. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.

Table 2-9 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
Customer Instruction	<p>Click to view/ input the following</p> <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPMCS user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Signatures	<p>Click the Signature button to verify the signature of the customer/ bank if required.</p> <p>The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system.</p> <p>If more than one signature is available, system should display all the signatures.</p>
Request Clarification	Submit the request for clarification to the “Trade Finance Portal” for the transactions initiated offline
Save & Close	Save the details provided and holds the task in ‘My Task’ queue for further update. This option will not submit the request.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in ‘My Task’ queue.
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
Refer	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

2.3.2 Other Details

This topic provides the systematic instructions to capture the other details.

Other Details enables the user to capture details like Credit Value Date, Debit Value Date, Other Bank charges, Other Bank Interest and MT750 Details.

1. On **Other Details** screen, specify the fields.

Figure 2-9 Other Details

The screenshot shows the Oracle 'Other Details' screen for an 'Issuance of Letter of Undertaking for Buyers Credit DataEnrichment'. The application number is PK2BYCR00009708. The screen is divided into several sections:

- Other Details:** Contains fields for Debit Value Date (April 20, 2022), Credit Value Date (April 20, 2022), and Value Date (April 20, 2022).
- Other Bank Charges:** Contains three columns for Other Bank Charges-1, -2, and -3, each with a dropdown menu (set to 'Gf') and a text field for the description.
- Other Bank Interest:** Contains three columns for Other Bank Interest-1, -2, and -3. Each column has a Start Date field, a Component dropdown (set to INT1, INT2, INT3), a Component Description field, an Interest Rate field, an Interest Basis dropdown, and a Waive dropdown (set to 'Ye', 'Nc').
- MT 750 Details:** Contains fields for 71D Charges To Be Deducted, 73A Charges To Be Added, 34B Total Amount To Be Paid, and 72Z Sender To Receiver Information.

At the bottom of the screen, there are buttons for 'Audit', 'Request Clarification', 'Reject', 'Refer', 'Hold', 'Cancel', 'Save & Close', 'Back', and 'Next'.

For more information on fields, refer to the field description table below.

Table 2-10 Other Details - Field Description

Field	Description
Other Details	Specify the Other Details based on the following table.
Debit Value Date	The debit value date is defaulted by the system. The user can change the date.
Credit Value Date	The credit value date is defaulted by the system. The user can change the date.
Value Date	The value date is defaulted by the system. The user can change the date.
Other Bank Charges	Specify the other bank charges based on the description in the following table.

Table 2-10 (Cont.) Other Details - Field Description

Field	Description
Other Bank Charges - 1	The charges to be collected for the other bank as part of the collection transaction.
Other Bank Charges - 2	The charges to be collected for the other bank as part of the collection transaction.
Other Bank Charges - 3	The charges to be collected for the other bank as part of the collection transaction.
Other Bank Charge Description - 1	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.
Other Bank Charge Description - 2	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.
Other Bank Charge Description - 3	This field displays the description of charges to be collected for the other bank as part of the drawings transaction.
Other Bank Interest	Specify the Other Bank Interest based on the following table. The user can enter the Interest details to be captured as a part of "Other Bank Interest" details section
Start Date	Specify the date from which the system starts calculating the Interest.
Other Bank Interest-1,2, 3	Below fields are applicable for Other Bank Interest-1,2 and 3.
Component	Read only field. This field displays the name of the interest Component.
Component Description	Specify the description of the interest component.
Interest Rate	Specify the rate to be applied for the interest component.
Interest Basis	Select the calculation basis on which the Interest to be computed from the drop-down list.
Waive	Select whether the interest to be waived off. The options are: <ul style="list-style-type: none"> • Yes • No
MT 750 Details	Specify the MT 750 Details based on the following table.
71D Charges To Be Deducted	Specify the charges to be deducted.
34B Total Amount To Be Paid	Select the currency and specify the total amount to be paid.
73A Charges To Be Added	Specify the charges to be added.
72Z Sender To Receiver Information	Specify the sender to receiver information.

2. Click **Next**.

The task will move to next data segment.

For more information on action buttons, refer to the field description table below.

Table 2-11 Other Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the Issuance of Letter of Undertaking for Buyers Credit. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is available, system should display all the signatures.
Request Clarification	Click the Request Clarification button to request for an Online clarification from customer. Clicking the button opens a detailed screen to capture the clarification details.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Tasks' queue.
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.

Table 2-11 (Cont.) Other Details - Action Buttons - Field Description

Field	Description
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
Refer	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Back	<p>On click of Back, system moves the task back to previous data segment.</p>
Next	<p>On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.</p>

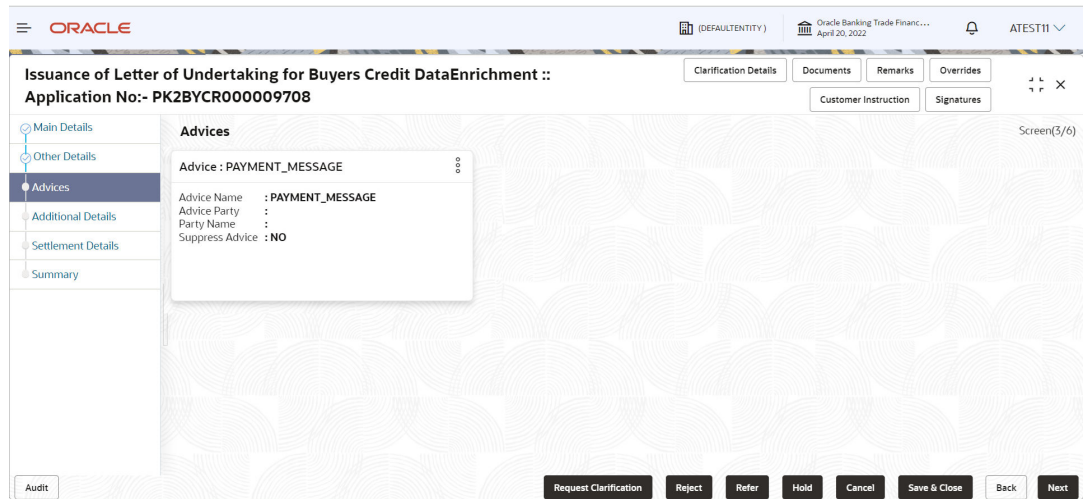

2.3.3 Advices

This topic provides the systematic instructions to capture the advices details.

Advices menu displays the advices available under a product code from the back office as tiles. System should populate the following advices:

- Letter of Undertaking to the Lending Bank
 - Payment Message (Debit advice) to the Customer
 - Letter of undertaking copy to the customer
1. On **Advices** screen, click the 3 dots on any advice tile to view the advice details.

Figure 2-10 Advices

Advice Details

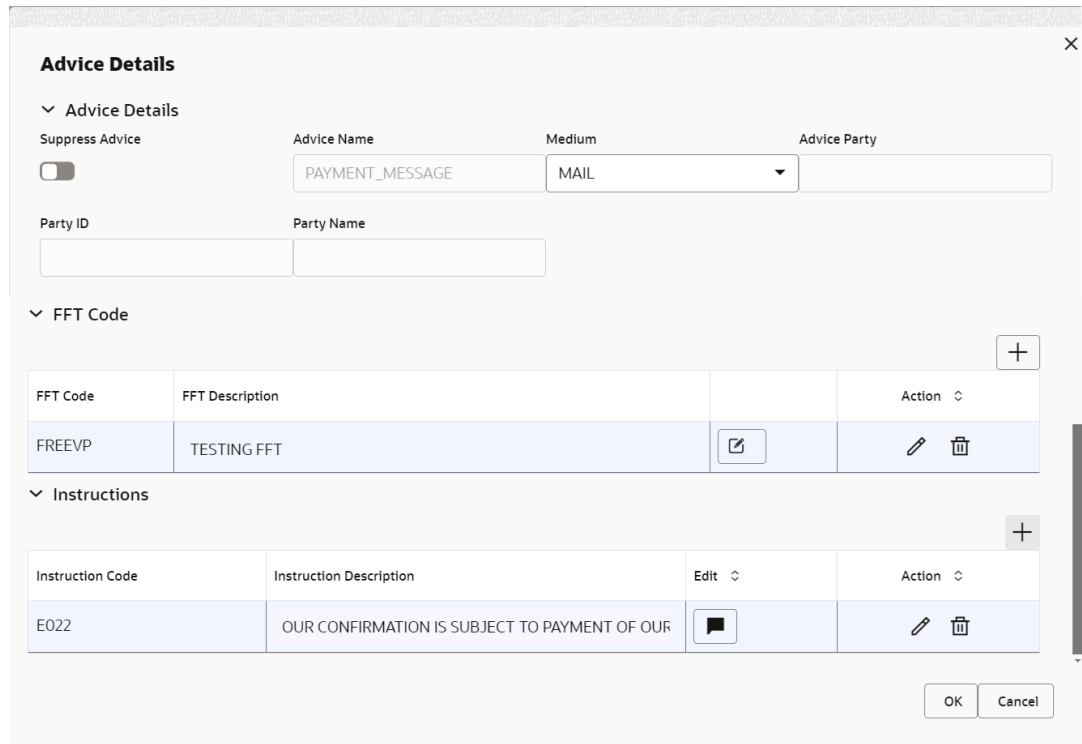

Table 2-12 Advice Details

Field	Description
Suppress Advice	Enable this option to suppress the advice. Disable this option if suppress advice is not required.
Advice Name	Read only field. Advice name is defaulted from the system.

Table 2-12 (Cont.) Advice Details

Field	Description
Medium	The medium of advices is defaulted from the system. User can update, if required.
Advice Party	Read only field. The medium of advices is defaulted from the system.
Party ID	Read only field. Value be defaulted from the system.
Party Name	Read only field. Value be defaulted from the system.
FFT Code	Specify the free format text based on the following table. Click plus icon to add new FFT code.
FFT Code	Click Search to search and select the FFT Code.
FFT Description	FFT description is populated based on the FFT code selected. User can edit the FFT description.
	Click edit icon to edit the existing FFT description.
Action	Click delete icon to remove any existing FFT code. Click edit icon to edit the existing FFT code.
Instructions	Specify the instruction details based on the following table. Click plus icon to add new instruction code.
Instruction Code	Click Search to search and select the instruction Code.
Instruction Description	Instruction description is populated based on the instruction code selected.
	Click edit icon to edit the existing instruction description.
Action	Click delete icon to remove any existing instruction code. Click edit icon to edit the existing instruction code.

2. Click **Next**.

The task will move to next data segment.

For more information on fields, refer to the field description table below.

Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
Refer	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Back	On click of Back, system moves the task back to previous data segment.

Table 2-26 (Cont.) Summary - Action Buttons - Field Description

Field	Description
Submit	Task will get moved to next logical stage of Issuance of Letter of Undertaking for Buyers Credit. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. In case of duplicate documents' system will terminate the process after handing off the details to back office.
Checklist	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit..

2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Issuance of Letter of Undertaking for Buyers Credit request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Exception - Amount Block

As part of amount block validation, application will check if sufficient balance is available in the account to create an amount block. On hand-off, system will debit the blocked account to the extent earmark and credit charges/ commission account in case of charges block or credit the amount in suspense account for earmarks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPMCS application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of updated available fields with values.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

Approve:

- Settlement amount will be funded (outside of this process)
- Allow account to be overdrawn during hand-off

Refer:

- Refer back to DE providing alternate settlement account to be used for block.
- Different collateral to be mapped or utilize lines in place of collateral.

Reject:

Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Block Exception

This section will display the amount block exception details.

Back	Task moves to previous logical step.

2.5 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

1. Log in into OBTFPMCS application and acquire the task available in the approval stage in free task queue. Authorization User can acquire the task for approving.

Authorization Re-Key (Non-Online Channel)

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

Open the task and re-key some of the critical field values from the request in the Re-key screen. Some of the fields below will dynamically be available for re-key.:

- Currency
- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

If there are more approvers, task will move to the next approver for approval. If there are no more approvers, the transaction is handed off to the back end system for posting.</p>

2.6 Handoff

This topic helps you quickly get acquainted with the Handoff process.

On successful handoff of the task, System will handoff the Bill under Letter of Undertaking Details to the back office as an Incoming Bill and a Bill under Letter of Undertaking will be booked in the system and system should generate the necessary accounting entries and messages in the back office.

System should update the Import Bill reference under the Linkages against "Import Bill" in the Contract Linkages in Linkage Details in the Bill under Letter of Undertaking.

System should update the Bill under Letter of Undertaking Contract Reference Number in the Import Bill, under the Linkages against "Buyers Credit Reference" in the Contract Linkages in Linkage Details in the Import Bill
