Preface

- [Purpose](#)
- [Audience](#)

This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)

This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service **Shipping Guarantee Issuance - Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface: Preface gives information on the intended audience, structure, and related documents for this User Manual.
- Chapters: The subsequent chapters provide an overview to the module.
- Screen Shot Disclaimer - The images of screens used in this user manual are for illustrative purpose only, to provide improved understanding of the functionality; information used in the interface or documents are dummy, it does not exist in real world, and its only for reference purpose.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Basic Actions

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 1 Common Action Buttons and its Definitions

Action Buttons	Description
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>
Refer	<p>Select a Refer Reason from the values displayed by the system.</p> <p>Refer Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	<p>The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task.</p> <p>This option is used, if there are any pending information yet to be received from applicant.</p>
Cancel	<p>Click Cancel to cancel the transaction input midway without saving any data.</p>

1

Oracle Banking Trade Finance Process Management Cloud Service

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management Cloud Service process.

Welcome to the Oracle Banking Trade Finance Process Management Cloud Service User Guide. This guide provides an overview on the OBTFPMCS application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPMCS:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

Oracle Banking Trade Finance Process Management Cloud Service is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. Oracle Banking Trade Finance Process Management Cloud Service enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

Oracle Banking Trade Finance Process Management Cloud Service helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPMCS allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Shipping Guarantee Issuance - Islamic

This User Manual describes the various stages of Shipping Guarantee Issuance - Islamic process.

As part of Shipping Guarantee Issuance, the Importer (Applicant in case of LC transaction and Drawee in case of Documentary Collection) approaches a bank and requests the bank to issue a Shipping Guarantee and the Shipping guarantee is presented by the Importer to the carrier for taking delivery of the goods in the case of arrival of cargo prior to the shipping document.

The various stages involved for issuance of Shipping Guarantees are:

- Input application details and Upload of related mandatory and non-mandatory documents in Registration stage.
- Input/Modify details of Shipping Guarantee - Data Enrichment stage
- Check for limit availability
- Check balance availability for amount block
- Check for sanctions & KYC status
- Earmark limits/Create amount block for cash margin/charges
- Capture remarks for other users to check and act Generate acknowledgements
- Hand off request to back office

The design, development and functionality of the Islamic Shipping Guarantee Issuance process flow is similar to that of conventional Shipping Guarantee issuance process flow.

In the subsequent sections, let's look at the details for Shipping Guarantee Issuance process.

This topic contains following sub-topics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new Shipping Guarantee Issuance - Islamic request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Shipping Guarantee Issuance - Islamic request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Shipping Guarantee Issuance - Islamic request.
- [Exceptions](#)
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the new Shipping Guarantee Issuance - Islamic request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.

The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

The screenshot shows the Oracle 'Initiate Task' registration form. The form is titled 'Initiate Task' and 'Registration'. It contains four main input fields: 'Process Name' with a dropdown menu showing 'Islamic Shipping Guarantee Iss', 'Issued Against' with a dropdown menu showing 'Documentary Credit', 'LC Reference Number' with a text input field containing 'PK2ILUN221108065' and a search icon, and 'Branch' with a dropdown menu showing 'PK2-Oracle Banking Trade Fin'. At the bottom right of the form, there are two buttons: 'Proceed' and 'Clear'. The left sidebar shows a navigation menu with 'Trade Finance' selected, and 'Initiate Task' highlighted. The top right corner shows the user 'ADMIN01' and the date 'April 20, 2022'.

2. On **Initiate Task** screen, specify the fields.

 **Note:**

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.

Table 2-2 (Cont.) Action Buttons - Field Description

Field	Description
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Shipping Guarantee Issuance - Islamic request.

The first stage of Shipping Guarantee Issuance - Islamic process starts from the Registration Stage. The user can initiate the Islamic Shipping Guarantee issuance from the Registration process.

The OBTFPMCS user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPMCS verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPMCS user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 Login Screen

The image shows the Oracle login screen. At the top center is the Oracle logo in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains seven dots. Below the password field is a dark grey button with the text "Sign In" in white. The background is a light grey gradient with a decorative pattern at the top.

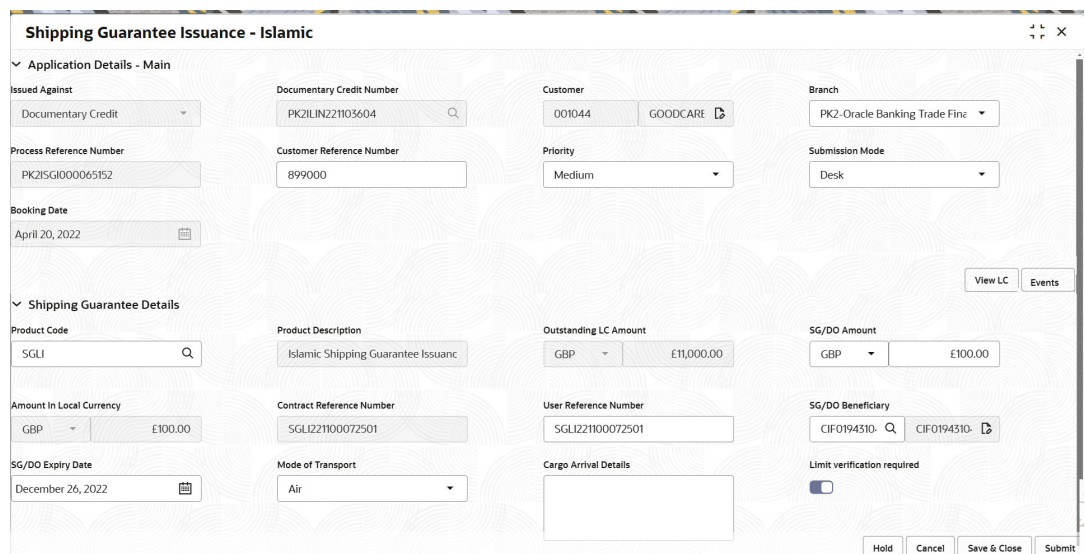

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Shipping Guarantee**.
2. Under **Shipping Guarantee**, click **Shipping Guarantee Issuance - Islamic**.

Figure 2-3 Shipping Guarantee Issuance - Islamic

The **Shipping Guarantee Issuance - Islamic** screen appears. The Shipping Guarantee Issuance - Islamic - Registration stage has two sections Application Details and Shipping Guarantee Details. Let's look at the details of Registration screens below:

Figure 2-4 Application Details

The request is received at the Branch/ Front office or Processing centre. The user should be able to input the following details.

3. On **Shipping Guarantee Issuance - Islamic - Registration - Application Details** screen, specify the fields.

 **Note:**

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

For more information on fields, refer to the field description table below.

Table 2-3 Shipping Guarantee Issuance - Islamic - Registration - Application Details

This topic provides the systematic instructions to capture the settlement details of Shipping Guarantee Issuance - Islamic request.
- [Summary](#)
This topic provides the systematic instructions to view the summary details in Data Enrichment stage of Shipping Guarantee Issuance - Islamic process.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Shipping Guarantee Issuance - Islamic request.

Main details section has two sub section as follows:

- Application Details
- Shipping Guarantee Details.

Application Details

Applications from Online channels will be directly available in the Data Enrichment stage and the fields will be populated with the details from incoming request.

1. On **Data Enrichment - Main** screen, specify the fields that were not entered at Registration stage.

Figure 2-7 Data Enrichment - Main

Note:

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-6 Main - Application Details - Field Description

Field	Description
Issued Against	Read only field. The value is defaulted from Registration stage.
Documentary Credit Number	Read only field. The value is defaulted from Registration stage
Customer	Read only field. The value is defaulted from Registration stage
Branch	System defaults the branch name from shipping Guarantee issuance.
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.
Customer Reference Number	Specify the customer reference number.
Priority	Priority maintained will be populated as either 'Low or Medium or High or Essential or Critical'. If priority is not maintained for a customer, Medium priority will be defaulted. User can change the priority populated any time before submit of Registration stage.
Submission Mode	System defaults the submission mode from the Registration stage. By default the submission mode will have the value as 'Desk'. <ul style="list-style-type: none"> • Desk - Request received through Desk • Courier - Request received through Courier • Online - Request received through Email User can change the submission mode populated. <div style="border: 1px solid #0070C0; padding: 5px; margin-top: 10px;"> <p> Note:</p> <p>When the requests that are created online (Trade Portal) then the Submission mode for online requests will be "Online" and user cannot change the Submission mode.</p> </div>
Booking Date	Read only field. By default, the application displays the branch's current date.

Shipping Guarantee Details

The fields listed under this section are same as the fields listed under the **Shipping Guarantee Details** section in Registration stage. For more information on the fields, **Registration** stage. During registration, if user has not captured input, then user can capture the details in this section.

Figure 2-8 Shipping Guarantee Details

For more information on fields, refer to the field description table below.

Table 2-7 Shipping Guarantee Details - Field Description

Field	Description
Product Code	Read only field. System defaults the product code from the Registration stage.
Product Description	Read only field. Product description is auto populated by the application based on the Product Code.
Outstanding LC Amount	Read only field. System defaults outstanding LC amount, if any.
SG/DO Amount	System defaults the shipping guarantee amount from the Registration stage. User can change the currency and amount.
Amount In Local Currency	Read only field. System fetches the local currency equivalent value for the LC amount from back office (with decimal places).
Contract Reference Number	Read only field. Auto-generated by back end application. Shipping guarantee back office reference gets simulated and displayed.
User Reference Number	User Reference Number will be auto populated by the system based on selection of Product Code. The user can change the User Reference Number.
SG/DO Beneficiary	System defaults the Shipping Guarantee beneficiary details from the Registration stage. The user can change the beneficiary details.
SG/DO Expiry Date	System defaults the expiry date of the Shipping Guarantee from the Registration stage. The user can change the expiry date.
Mode of Transport	System defaults the mode of transport details from the Registration stage. The user can change the mode of transport details.
Cargo Arrival Details	Specify the cargo arrival details.

Table 2-9 Main Details - Action Buttons - Field Description

Field	Description
Clarification Details	Clicking the button opens a detailed screen, user can see the clarification details in the window and the status will be 'Clarification Requested'.
Documents	Click to View/Upload the required document. Application displays the mandatory and optional documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the Guarantee Issuance Claim Settlement. This information can be viewed by other users processing the request. Content from Remarks field should be handed off to Remarks field in Backend application.
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPMCS user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures
Request Clarification	Clicking this button allows the user to submit the request for clarification to the "Trade Finance Portal" for the transactions that are initiated offline.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.

Table 2-9 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Scrutiny stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.

2.3.2 Shipment Details

This topic provides the systematic instructions to capture the shipment details of Shipping Guarantee Issuance - Islamic request.

As part of DE, user will verify and enter the basic details available in the Islamic Shipping Guarantee request. In case the request is received through online channel, user will verify the details populated.

1. On **Shipment Details** screen, specify the fields.

Submit	<p>Task will get moved to next logical stage of Shipping Guarantee Issuance - Islamic.</p> <p>If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. In case of duplicate documents' system will terminate the process after handing off the details to back office.</p>

2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Islamic Shipping Guarantee Issuance request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Amount Block Exception Approval

User can review the amount block exception for Trade Finance requests that failed to create Amount Block in backend system.

Log in into Oracle Banking Trade Finance Process Management (OBTFPMCS) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Open the task to view the summary tiles. The tiles should display a list of important fields with values.

In Amount block, system checks whether the sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPMCS) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
 - Settlement amount will be funded (outside of this process)
 - Allow account to be overdrawn during hand-off
- Refer:
 - Refer Refer back to DE providing alternate settlement account to be used for block.
 - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account

Exception - Know Your Customer (KYC)

As part of KYC validation, application will check if necessary KYC documents are available and valid for the applicant. The transactions that have failed KYC due to non-availability / expired KYC verification will reach KYC exception stage.

1. Log in into OBTFPMCS application, KYC exception queue. KYC exception failed tasks for Trade Finance transactions will be listed in your queue.
2. Open the task, to see summary tiles that display a summary of available updated fields with values.
User can pick up a transaction and do the following actions:

Approve

- After changing the KYC status in the back end application (outside this process).
- Without changing the KYC status in the back end application.
- Reject (with appropriate reject reason).

2.5 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

This stage allows the approver user to approve a Islamic Shipping Guarantee Issuance transaction. The user can view the Summary tiles. The tiles should display a list of important fields with values. User must be able to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

1. Log in into OBTFPMCS application and on **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.
3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to approve the task.

The **Approval Re-Key** pop-up screen appears.

Figure 2-20 Approval Re-Key

Approval Rekey

View Signature Documents Remarks

Currency

GBP ✓

Contract Amount

GBP £1,000.00 ✓

Refer Close Proceed

The application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message and user will not be able to approve the task.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Currency
- Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.
