Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)

Purpose

This manual is designed to help you to quickly get familiar with the Accelerator Pack Bills and Collections module of Oracle Banking Trade Finance.

Audience

This document is intended for the following audience:

- Back Office Data Entry Clerk
- Back Office Managers/ Officers
- Product Managers, End of Day Operators, and
- Bank's Financial Controller/Trade Finance Department Manager

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

- [Access to Oracle Support](#)

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info> or visit <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs> if you are hearing impaired.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Procedures User Manual
- Messaging User Manual
- Core Entities and Services User Manual
- Settlements User Manual
- Oracle Banking Common Core User Guide

1

Introduction

A bill, as an instrument of international trade, is the most commonly used method for a seller to be paid through banking channels. Besides credit risk considerations, bills are the customary business practice for trade and a particularly important fee earning service for any bank.

The Bills and Collections (BC) module supports the processing of all types of bills, both domestic and international. It handles the necessary activities during the entire life-cycle of a bill once it is booked.

The Bills and Collections module supports the processing of all types of international and domestic bills like:

- Incoming Bills under LCs
- Incoming Bills not under LCs
- Outgoing Bills under LCs
- Outgoing Bills not under LCs
- Incoming Collections

The Bills and Collections module supports the processing of all types of international and domestic bills like:

- Incoming Collections
- Outgoing Collections
- Usance or Sight Bills
- Documentary or Clean Bills
- Bills with multiple tenors
- Incoming Bill under Transferred LC

2

Features

The following BC features are:

- Complete Life Cycle Tracking and Processing
- Flexibility to Create and Tailor Products With Standard Features
- Ability to Modify Standard Features for Specific Bill Contract
- On Line Updates and Accounting Entries
- Credit Limit Maintenance and on Line Tracking
- Automated Handling of User Defined Interest & Charges

3

Common Events

This topic describes about the common events on below table.

Events	Description
ACCR	Accrual of Interest is done in this event.
MACR	Memo accrual of Interest is done in this event.
ADIS	This is the event which fires when a bills contract with discrepancies is unlocked and the discrepancies are resolved.
AMND	Amendment of a bills contract. This event is fired when there is a change to the bills contract other than changing the stage, or discrepancies etc which fire other specific events. This is basically for things like a change in the documents or some description or parties etc.
BOOK	This event is fired whenever a bill other than a collection is stored in the initial stage.
INIT	This is the event fired whenever a bill is saved in the final stage or when a bill is moved from the initial stage to the final stage after unlock.
CLOS	This is fired whenever a bills contract is closed that is a contract not liquidated but just closed.
REGN	This event is for collections when a collection is registered.
REVR	Reversal of a Bills contract fires this event.
STCH	This event is fired when the status of an overdue bill is changed.
LADV	Liquidation of a bill changed from acceptance to advance.
BDIS	Change of operation from acceptance to discount.
LDIS	Liquidation of a bill changed from acceptance to discount.
LIQD	Liquidation of a bill which has had no change in operation that is liquidation of a bill which hasn't been changed from acceptance to advance and so on.
BADV	Change of operation from acceptance to advance.
AFAT	This is when an advice of acceptance fate is generated.
PFAT	This is when an advice of payment fate is generated.
PRNA	This is when you protest the non acceptance of a bill by the other party.
BPUR	Change of a contract from collection to purchase.
LPUR	Liquidation of contract changed from collection to purchase.
BACP	DRAWEE too is supposed to accept it. When the DRAWEE accepts the bill then put the acceptance date on the exceptions screen after unlock and save it and this event is fired.
PRNP	This is when you protest the non payment of a bill by the other party.
REFA	This is when the other party refuses to accept the bill.
REFP	This is when the other party refuses to pay the bill.
TACP	This is when the tracer for an acceptance is generated.
TAFT	This is when the payment fate tracer for an acceptance is generated.
TDIS	This is the approval of discrepancies tracer.
TPAY	This is the principal fate follow up tracer.
TPFT	This is the principal fate tracer.
TRES	This is the release of reserve tracer.

Events	Description
RRES	This is the release from reserve.
REVE	This event is to reverse the previous version creating event.
