## Purpose

This document helps you acquaint with the information of integration API's Introduced in Oracle Banking Trade Finance.

Besides this user manual, while maintaining the interface related details, you can invoke the context sensitive help available for each field in OBTF. This help describes the purpose of each field within a screen. You can obtain this information by placing the cursor on the relevant field and striking the <F1> key on the keyboard.

## Audience

This manual is intended for the following User/User Roles:

Role	Function
Back office data entry Clerks	Input functions for maintenance related to the interface
End of day operators	Processing during end of day
Implementation Teams	For setting up integration

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

## Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Organization

This manual is organized as follows:

**Table 1 Topics**

Topics	Description
<b>Introduction</b>	This topic provides information on the intended audience. It also lists the various chapters covered in this User Manual.
<b>OBTF- API'S</b>	This topic explains the integration API's introduced to query details from OBTF Application.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.

15.	Repair Reason			Output

## 1.4 FFT Details

This API provides FFT Details for given contract and Message Type

- [Service and Operation](#)
- [Input and Output](#)

## 1.4.1 Service and Operation

Function Id	Service	Operation
IFQQFFTD	OBTFIFService	QueryFFTDDetails

## 1.4.2 Input and Output

S.No	Field Name	Possible Input Values	Mandatory	Input/Output
1.	Contract Reference	Contract Reference Number	Y	Input/Output
2.	Message Type	Message Type - Specific ALL	Y	Input/Output
3.	FFT_INS_COD			Output
4.	FFT_INS_DESCR			Output
5.	Version_No			Output

# 1.5 Charge Details

This API provides Charge Details of a Contract.

- [Service and Operation](#)
- [Input and Output](#)

## 1.5.1 Service and Operation

Function Id	Service	Operation
IFQQCHGD	OBTFIFService	QueryChargeDtls

## 1.5.2 Input and Output

S.No	Field Name	Possible Input Values	Mandatory	Input/Output
1.	Contract Reference Number	Contract Reference Number	Y	Input/Output
2.	Counter Party	Counter Party - ALL - Counter Party	N	Input/Output
3.	Component			Output
4.	Class Description			Output
5.	Charge Amount			Output
6.	Charge ccy			Output
7.	Creation Esn			Output
8.	Liquidation Indicator			Output
9.	Counterparty			Output
10.	AC No			Output

S.No	Field Name	Possible Input Values	Mandatory	Input/Output
11.	AC ccy			Output
12.	LCY Amount			Output
13.	Value Dt			Output

## 1.6 Contract Details

This API provides Contract Details Version wise.

- [Service and Operation](#)
