Preface

- [Purpose](#)
- [Audience](#)

This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)

This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Export LC Closure - Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

| Convention | Meaning |
|------------------------|--|
| boldface | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text. |
| <i>italic</i> | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values. |
| <code>monospace</code> | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

| Abbreviation | Description |
|--------------|---|
| OBTFFPM | Oracle Banking Trade Finance Process Management |
| LC | Letter of Credit |
| BC | Bankers Cheque |
| FX | Foreign Exchange |
| CCY | Currency |
| LCY | Local Currency |
| FCY | Foreign Currency |
| LOV | List of Values |
| CIF | Customer Information File |
| UDF | User Defined Fields |
| FFT | Free Format Text |
| SBLC | Standby Letter of Credit |

1

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Export LC Closure - Islamic

This chapter is documented to get familiar with the Export LC Closure - Islamic process of Oracle Banking Trade Finance Process Management.

As part of Conventional Export LC Closure, System enables the user to Close the LC which had been already issued. As part of Conventional Export LC Closure, System enables the user to Close the LC which had been already issued.

The various stages involved for Export LC Close are:

- Receive and verify documents and Input basic details(Non Online Channel)- Registration stage
- Upload of related mandatory and non-mandatory documents
- Input/Modify details of Close of LC - Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office.

The design, development and functionality of the Islamic Export LC Close process flow is similar to that of conventional Export LC Close process flow.

In the following sections, let's look at the details for Export LC Closure - Islamic process.

This topic contains following subtopics:

- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the **Export LC Closure - Islamic** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of **Export LC Closure - Islamic** request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Export LC Closure - Islamic request.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.
- [Handoff](#)
This chapter is documented to get familiar with the Handoff stage of Export LC Closure process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the **Export LC Closure - Islamic** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.
The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

2. On **Initiate Task** screen, specify the fields.

 **Note:**
The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

| Field | Description |
|---------------------|--|
| Process Name | Select a process name from the drop-down list. |
| Branch | Select the required branch code from the drop-down list. |

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

| Field | Description |
|----------------|--|
| Proceed | Task will get initiated to next logical stage. |
| Clear | Click to clear the contents update and enter the values again. |

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of **Export LC Closure - Islamic** request.

User can register request for Islamic Export LC closure in the Registration stage received at the front desk (as an application received physically/received by mail/fax). During Registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC close expert to handle the request in the next stage.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 Login Screen

The image shows the Oracle login screen. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains seven dots. Below these fields is a black button with the text "Sign In" in white.

2.4 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

The Approval user can approve a Export LC Closure - Islamic transaction.

1. Log in into OBTFPM application and on **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.
3. Select the appropriate task and click **Acquire & Edit** to edit the task or click **Acquire** to edit the task from **My Tasks**.
4. The acquired task will be available in **My Tasks** tab. Click **Edit** to approve the task.

The **Approval Re-Key** pop-up screen appears.

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

 **Note:**

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.

2.5 Handoff

This chapter is documented to get familiar with the Handoff stage of Export LC Closure process.

On Approve, the task is handed off to the back office for postings. In the back office, the relevant accounting entries are posted, advises are generated, charges and tax to be collected are posted.

In case there is a failure in Handoff, the task lands to retry handoff queue. The user can manually try to initiate handoff.
