# Preface

## Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Export LC Transfer Closure - Islamic** process.

## Audience

This user guide is intended for the central administrator of the Bank who controls the system and application parameters and ensures smooth functionality and flexibility of the banking application.

## Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

### Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

## Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

## Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

## Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

## Conventions

The following text conventions are used in this document:

Convention	Meaning
<b>boldface</b>	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

## Related Documents

Formore information on any related features, you can refer to the following documents:

- Oracle Banking SecurityManagement System User Guide
- GettingStarted User Guide

## Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

## Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

**Table 1 Acronyms and Abbreviations**

Abbreviation	Description
OBTFFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit

## Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

### Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

### Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

### Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

# 2

## Export LC Transfer Closure - Islamic

This User Manual is documented to get familiar with the Export LC Transfer Closure - Islamic process of Oracle Banking Trade Finance Process Management.

This process allows the corporate users to close an Export Transfer LC. Transfer LC can be closed under following scenarios:

- Transfer LC has expired
- There is no bill outstanding

The design, development and functionality of the Islamic Export LC Transfer Closure process flow is similar to that of conventional Export LC Transfer Closure process flow.

In the following sections, let's look at the details for Export LC Transfer Closure - Islamic process.

This topic contains following subtopics:

### Common Initiation Stage

This topic provides the systematic instructions to initiate the **Export LC Transfer Closure - Islamic** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.

The **Initiate Task** screen appears.

**Figure 2-1 Initiate Task**

The screenshot displays the Oracle Banking Trade Finance interface. At the top, the Oracle logo is on the left, and user information (DEFAULTENTITY (DEFAULT...), Oracle Banking Trade Financ..., April 20, 2022, ATEST11) is on the right. A search bar is visible. The main content area is titled 'Initiate Task' and contains a 'Registration' section. This section has three input fields: 'Process Name' with a dropdown menu showing 'Export LC Transfer Closure - Isl.', 'LC Reference Number' with a text input containing 'TFIU221100015003' and a search icon, and 'Branch' with a dropdown menu showing 'PK2-Oracle Banking Trade Fina'. At the bottom right of the registration area, there are 'Proceed' and 'Clear' buttons. On the left side, there is a navigation menu with 'Trade Finance' selected, and 'Initiate Task' highlighted in the sub-menu.

2. On **Initiate Task** screen, specify the fields.

 **Note:**

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

**Table 2-1 Initiate Task - Field Description**

Field	Description
<b>Process Name</b>	Select a process name from the drop-down list.
<b>LC Reference Number</b>	Click <b>Search</b> to search and select the required LC reference number.
<b>Branch</b>	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

**Table 2-2 Action Buttons - Field Description**

Field	Description
<b>Proceed</b>	Task will get initiated to next logical stage..
<b>Clear</b>	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

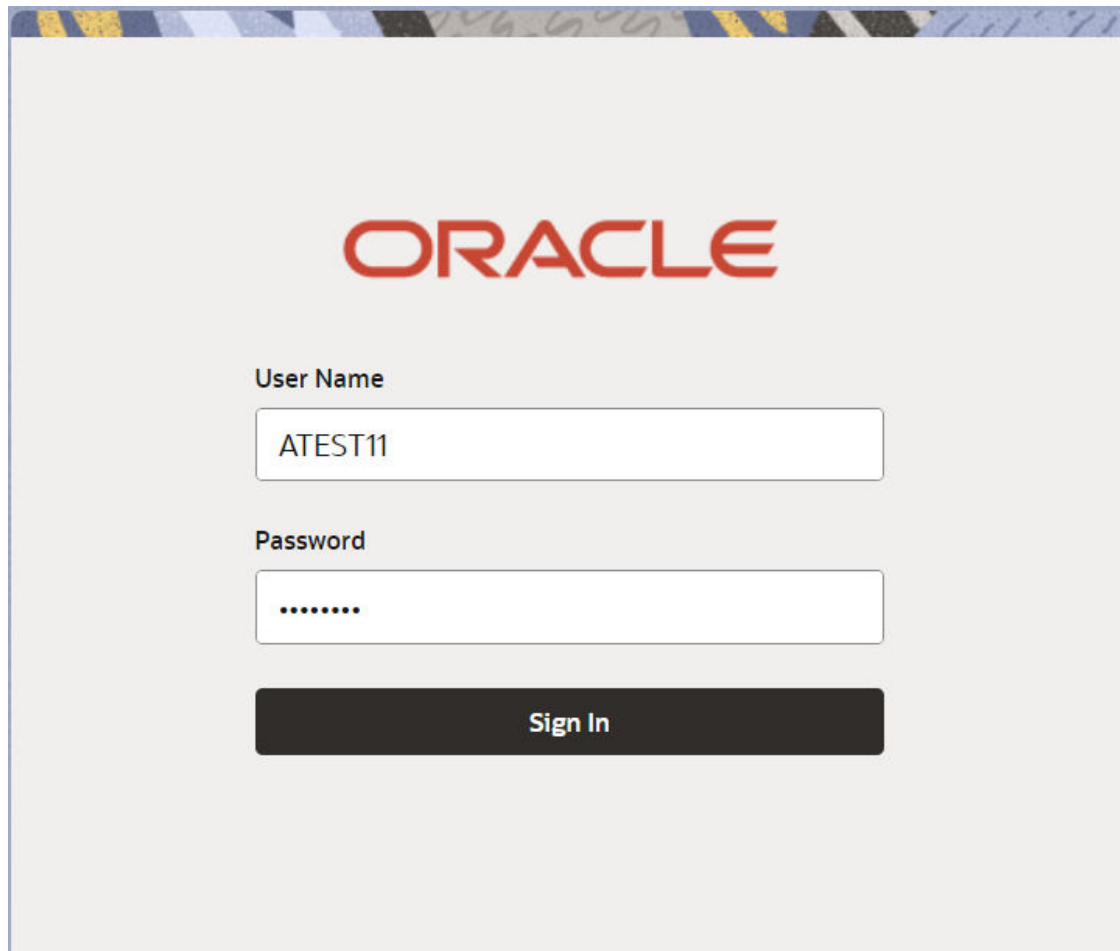

## Registration

This topic provides the systematic instructions to initiate the Registration stage of **Export LC Transfer Closure - Islamicrequest**.

During the Registration stage, the user can register a request for a Transfer LC Closure - Islamic received at desk (as an application received physically/received by mail/fax). User can capture the basic details of the application, check the signature of the first Beneficiary and upload related documents. On submit of the request, the customer should be notified with acknowledgement and the request should be available for an LC expert to handle in the next stage.

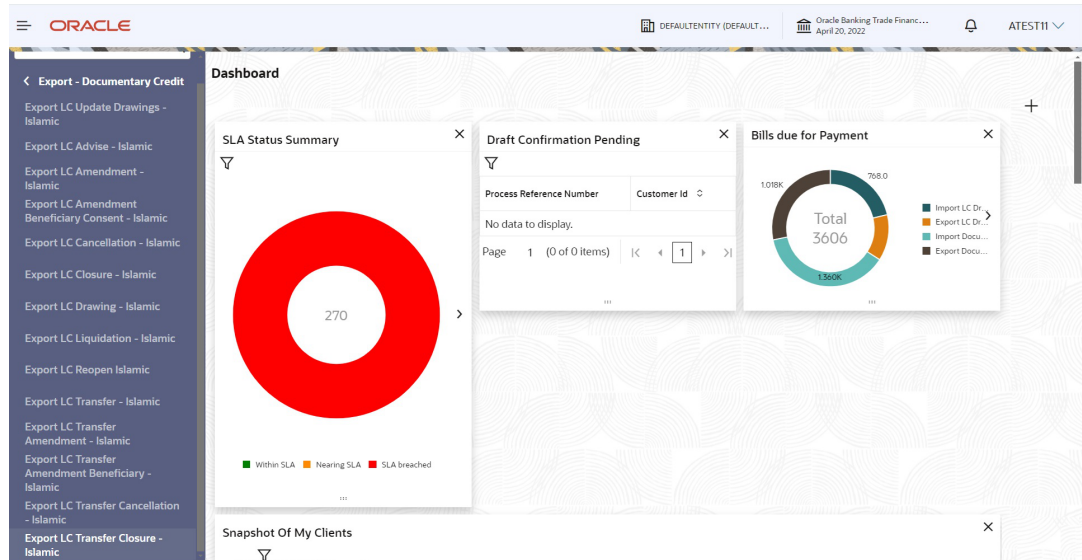

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 LogIn Screen

The image shows the Oracle login screen. At the top center is the Oracle logo in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains seven dots. Below the password field is a dark grey button with the text "Sign In" in white. The background is a light grey gradient with a decorative pattern at the top.

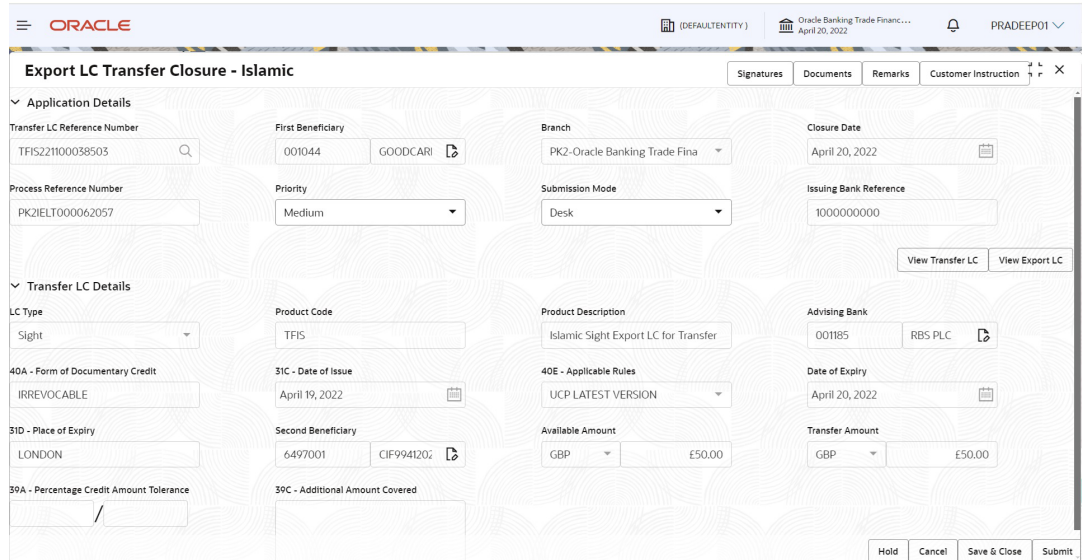

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Export Documentary Credit**.
2. Under **Export Documentary Credit**, click **Export LC Transfer Closure - Islamic**.

Figure 2-3 Export LC Transfer Closure - Islamic

The **Export LC Transfer Closure - Islamic** screen is displayed. The Export LC Transfer Closure - Islamic - Registration stage has two sections Application Details and Transfer LC Details. Let's look at the details of Registration screens below:

Figure 2-4 Export LC Transfer Closure - Islamic - Registration - Application Details

- On **Export LC Transfer Closure - Islamic - Registration - Application Details** screen, specify the fields.

**Note:** The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

**Table 2-3 Export LC Transfer Closure - Islamic - Registration - Application Details - Field Description**

## Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Export LC Transfer Closure - Islamic request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

### Amount Block Exception Approval

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block. Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
  - Settlement amount will be funded (outside of this process)
  - Allow account to be overdrawn during hand-off
- Refer:
  - Refer Refer back to DE providing alternate settlement account to be used for block.
  - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account

### Amount Bock Exception
