Preface

- [Purpose](#)
- [Audience](#)
This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)
This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Basic Actions](#)
- [Symbols and Icons](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Export LC Cancellation** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

- [Access to Oracle Support](#)

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description
OBTFFPM	Oracle Banking Trade Finance Process Management
LC	Letter of Credit
BC	Bankers Cheque
FX	Foreign Exchange
CCY	Currency
LCY	Local Currency
FCY	Foreign Currency
LOV	List of Values
CIF	Customer Information File
UDF	User Defined Fields
FFT	Free Format Text
SBLC	Standby Letter of Credit

Basic Actions

Most of the screens contain Action Buttons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table 2 Common Action Buttons and its Definitions

Action Buttons	Description
Reject	<p>On click of Reject, user must select a Reject Reason from a list displayed by the system.</p> <p>Reject Codes are:</p> <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others <p>Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.</p>

Table 2 (Cont.) Common Action Buttons and its Definitions

Action Buttons	Description
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Click Cancel to cancel the transaction input midway without saving any data.
Save & Close	Click Save & Close to save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Next	Click Next , system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Submit	Click Submit to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

Symbols and Icons

1

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Export LC Cancellation

This chapter is documented to get familiar with the Export LC Cancellation process of Oracle Banking Trade Finance Process Management.

Export LC Cancellation process enables the user to cancel the LC which had been already advised.

The cancellation require consent from the beneficiary of the LC. In such scenarios, after the processing of cancellation, the cancelled LC is parked awaiting beneficiary consent.

In the following sections, let's look at the details for export LC cancellation process.

This topic contains following subtopics:

- [Common Initiation Stage](#)
- [Registration](#)
- [Data Enrichment](#)
- [Exceptions](#)
- [Multi Level Approval](#)
- [Reject Approval](#)
- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the **Export LC Cancellation** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Export LC Cancellation request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Export LC Cancellation request.
- [Exceptions](#)
This topic helps you quickly get acquainted with the Exceptions process.
- [Multi Level Approval](#)
This topic helps you quickly get acquainted with the Multi Level Approval process.
- [Reject Approval](#)
This topic helps you quickly get acquainted with the Reject Approval process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the **Export LC Cancellation** request.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Initiate Task**.

The **Initiate Task** screen appears.

Figure 2-1 Initiate Task

2. On **Initiate Task** screen, specify the fields.

Note:

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

Field	Description
Process Name	Select a process name from the drop-down list.
Advising Bank Reference	Click Search to search and select the advising bank reference of the applicant or applicant's bank from the look-up.
Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Export LC Cancellation request.

If the Letter Of Credit cancellation request is submitted through branch, the Export LC Cancellation process starts from the Registration Stage.

During registration stage, user can capture the basic details of the application and upload the related documents of the applicant. On submit of the request, the request will be available for an LC cancellation expert to handle the request in the next stage.

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 LogIn Screen

The screenshot shows the Oracle login interface. At the top, the Oracle logo is displayed in red. Below the logo, the text 'User Name' is followed by a text input field containing 'ATEST11'. Below that, the text 'Password' is followed by a password input field containing seven dots. At the bottom of the form is a black button with the text 'Sign In' in white.

1. On **Home** screen, click **Trade Finance**. Under **Trade Finance**, click **Export Documentary Credit**.
2. Under **Export Documentary Credit**, click **Export LC Cancellation**.

Figure 2-3 Export LC Cancellation

The **Export LC Cancellation - Registration** screen appears. The Export LC Cancellation - Registration stage has two sections Application Details and LC Details. Let's look at the details of Registration screens below:

Figure 2-4 Export LC Cancellation - Registration - Application Details

3. On **Export LC Cancellation - Registration - Application Details** screen, specify the fields.

 **Note:**

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-3 Export LC Cancellation - Registration - Application Details - Field Description

Field	Description
Advising Bank Reference	<p>Click Search to search and select the advising bank reference number from the look-up. Alternatively, specify the advising bank reference number.</p> <p>In the look-up search, user can specify the DCN Reference Number, Applicant, Currency, Amount and User Reference to fetch the Export LC details. Based on the search result, select the applicable Export LC to be canceled.</p>
Beneficiary ID	<p>Read only field.</p> <p>Beneficiary ID is auto-populated based on the selected Export LC from the look-up.</p>
Beneficiary	<p>Read only field.</p> <p>Beneficiary name will be auto-populated based on the selected Export LC from the look-up.</p>
Branch	<p>Read only field.</p> <p>Branch details will be auto-populated based on the selected Export LC from the look-up.</p>
Process Reference Number	<p>Unique sequence number for the transaction.</p> <p>This is auto generated by the system based on process name and branch code.</p>
Priority	<p>System populates the priority of the customer based on priority maintenance, also enables the user to change the priority as per the requirement.</p> <p>Set the priority of the Export LC Cancellation request as Low/Medium/High. Table 2-3 (Cont.) Export LC Cancellation - Registration - Application Details - Field Description

Field	Description
52A Issuing Bank	Read only field. Issuing Bank details is auto-populated based on the selected Export LC from the look-up.
Non Bank Issuer	Read only field. Non Bank Issuer details is auto-populated based on the selected Export LC from the look-up.
User Reference Number	Read only field. User reference number will be auto-populated by the system based on selected Export LC.
Beneficiary Consent Reqd	Enable the option, if beneficiary consent is required. Disable the option, if beneficiary consent is not required. By default, the toggle must be 'On' for Export LC Cancellation process.

LC Details

Registration user can provide LC details in this section. Alternately, details can be provided by Data Enrichment user.

- On **Export LC Cancellation - LC Details** screen, specify the fields.

 **Note:**
The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-4 Export LC Cancellation - Registration - LC Details - Field Description

Field	Description
LC Type	Read only field. LC type is auto-populated based on the selected Export LC from the look-up.
Product Code	Read only field. This field displays the product code of the selected LC.
Product Description	Read only field. This field displays the description of the product as per the product code.
Advising Bank	Read only field. This field displays the advising bank details of the selected LC.
40A/B - Form of Documentary Credit	Read only field. This field displays the form of documentary credit details of the selected LC.
Contract Reference Number	Read only field. This field displays the form of contract reference number of the selected LC.
Date of Issue	Read only field. This field displays the LC issuance date.
Applicable Rules	Read only field. This field displays the rules of the selected export LC.
Date of Expiry	Read only field. This field displays the expiry date of the selected LC.
Place of Expiry	Read only field. This field displays the place of expiry of the selected LC.
Applicant Bank	Read only field. This field displays the applicant bank details of the selected LC.
Applicant	Read only field. This field displays the details of the applicant of the selected LC.
Currency Code, Amount	Read only field. This field displays the details of the currency/amount of the selected LC.
Amount In Local Currency	Read only field. System fetches the local currency equivalent value for the LC amount from back office (with decimal places).
Percentage Credit Amount Tolerance	Read only field. This field displays the details of the percentage credit amount tolerance of the selected LC.
Additional Amount Covered	Read only field. This field displays the details of the additional amount covered of the selected LC.

Table 2-4 (Cont.) Export LC Cancellation - Registration - LC Details - Field Description

Field	Description
LC Outstanding Amount	Read only field. This field displays the details of the LC outstanding amount of the selected LC.

5. Click **Submit**.

The task will move to next logical stage of Export LC Cancellation.

For more information on action buttons, refer to the field description table below.

Table 2-5 Export LC Cancellation - Registration - Action Buttons - Field Description

Field	Description
Documents	Upload the documents received under the Export LC Cancellation.
Remarks	Specify any additional information regarding the Export LC Cancellation. This information can be viewed by other users handling the request.
Customer Instruction	Click to view/ input the following. <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
Signatures	Click the Signatures to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.
View LC	Click View LC to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields.
View LC Events	Click to view the LC events.
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Export LC Cancellation task. Details entered will not be saved and the task will be removed
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.

Table 2-5 (Cont.) Export LC Cancellation - Registration - Action Buttons - Field Description

Field	Description
Submit	The task will move to next logical stage of Export LC Cancellation. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.
Checklist	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.

- [Document Linkage](#)
This topic provides the systematic instructions to initiate the document linkage.

2.2.1 Document Linkage

This topic provides the systematic instructions to initiate the document linkage.

In OBTFPM, system should display Document Ids available in the DMS system. In DMS system, the documents can be Uploaded and stored for future access. Every document stored in DMS will have a unique document id along with other Metadata. The uploaded Document image in the DMS should be available/queried in the Process flow stage screens to link with the task by using the Document ID.

System displays the Documents ids which is not linked with any of the task. Mid office should allow either upload the document or link the document during task processing. The Mid office should allow to Link the same Document in multiple tasks.

Specify **User ID** and **Password**, and navigate to **Registration** screen.

1. On the header of **Registration** screen, click, **Documents**.

The **Document** pop-up screen is displayed.

2. Click the **Add Additional Documents** button/ link.

The **Document** screen is displayed.

The screenshot shows a form titled "Document" with the following fields and controls:

- Document Type:** A dropdown menu with "Letter of Credit" selected.
- Document Code:** A dropdown menu with "Insurance Policy" selected.
- Document Title:** A text input field with a "Required" label below it.
- Document Description:** A text input field.
- Remarks:** A text input field.
- Document Expiry Date:** A date picker field with a calendar icon.
- File Upload:** A dashed box containing the text "Drop files here or click to select".
- Link Document:** A text label.
- Selected files:** A label below the file upload area.
- Buttons:** "Upload", "Link", and "Cancel" buttons at the bottom right.

Field	Description
Document Type	Select the document type from list. Indicates the document type from metadata.
Document Code	Select the document Code from list. Indicates the document Code from metadata.
Document Title	Specify the document title.
Document Description	Specify the document description.
Remarks	Specify the remarks.
Document Expiry Date	Select the document expiry date.
Link Document	The link to link the existing uploaded documents from DMS to the workflow task.

3. Select the document to be uploaded or linked and click the **Link Document** link.

The link **Document** pop up screen is displayed.

The value selected in **Document Type** and **Document Code** of **Document** screen are defaulted in the **Link Document Search** screen.

2.3 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Export LC Cancellation request.

A DE User can input new Export LC Cancellation request. As part of data enrichment user can enter/update basic details of the incoming request.

Note:

For expired line of limits, the task moves to “Limit Exception” stage under Free Tasks, on ‘Submit’ of DE Stage with the reason for exception as “Limit Expired”.

Do the following steps to acquire a task which completed the registration and currently at Data enrichment stage.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On **Home** screen, click, **Task**.
2. Under **Task**, click **Free Task**.

The Data Enrichment stage has the following hops for data capture:

- [Main Details](#)
- [Payment Details](#)
- [Additional Fields](#)
- [Advices](#)
- [Additional Details](#)
- [Settlement Details](#)
- [Summary](#)

Let's look at the details for Data Enrichment stage. User can enter/update the fields in Data Enrichment stage. Some of the fields that are already having value from Registration/online channels may not be editable.

- [Main Details](#)
This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Export LC Cancellation request.
- [Payment Details](#)
This topic provides the systematic instructions to initiate the Payment in Data Enrichment stage of Export LC Cancellation request.
- [Additional Fields](#)
This topic provides the systematic instructions to capture the additional fields.
- [Advices](#)
This topic provides the systematic instructions to capture the advices details of Export LC Cancellation process.
- [Additional Details](#)
This topic provides the systematic instructions to capture the additional details in Scrutiny stage of Export LC Cancellation process.
- [Settlement Details](#)
This topic provides the systematic instructions to capture the settlement details of Export LC Cancellation request.

- [Summary](#)
This topic provides the systematic instructions to view the summary details in Data Enrichment stage of Export LC Cancellation request.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the main details of Data Enrichment stage of Export LC Cancellation request.

Main details section has two sub section as follows:

- Application Details
- LC Details.

Application Details

All fields displayed under Application Details section, would be read only except for the **Priority** and **Beneficiary Consent Reqd.**

1. On **Main Details** screen, specify the fields that were not entered at Registration stage.

Figure 2-7 Main Details

For more information on fields, refer to the field description table below.

Table 2-6 Export LC Cancellation - Main Details - Application Details - Field Description

Field	Description
Advising Bank Reference	Read only field. The value is auto-populated from the Registration stage.
Beneficiary ID	Read only field. Beneficiary ID is auto-populated based on the selected Export LC in the Registration stage.
Beneficiary	Read only field. Beneficiary name will be auto-populated based on the selected Export LC in the Registration stage.
Branch	Read only field. Branch details will be auto-populated based on the selected Export LC.
Process Reference Number	Read only field. Unique sequence number for the transaction. This is auto generated by the system based on process name and branch code.
Priority	System populates the priority of the customer based on priority maintenance, also enables the user to change the priority as per the requirement. Set the priority of the Export LC Cancellation request as Low/Medium/High. If priority is not maintained for a customer, 'Medium' priority will be defaulted.

Percentage Credit Amount Tolerance	This field displays the percentage credit amount tolerance details of the selected Export LC in Registration stage.
Additional Amount Covered	This field displays the details of additional amount covered of the selected LC and user can amend if required.
LC Outstanding Amount	Read only field. This field displays the details of the LC outstanding amount of the selected LC in Registration stage.

Audit

Task Audit Trail Details

Application No. Branch Code Initiated Date Initiated By

Process Name

S.No	Stage Name	Pickup Time	Completed Time	Completed By	Outcome
1	Registration	Thu, 11 Jul 2024 08:01:31 GMT	Thu, 11 Jul 2024 08:02:39 GMT	ATEST11	PROCEED

This button provides information about user initiated the transaction, initiated date, stage wise detail etc.

For more information on audit, refer to the field description table below.

Table 2-8 Audit - Field Description

Field	Description
Application No.	This field displays the application number of the process.
Branch Code	This field displays the branch code.
Initiated Date	This field displays the date on which process is initiated.
Initiated By	This field displays the user ID of the user who had initiated the process.
Process Name	This field displays the name of the process which is initiated.
S. No	This field displays the serial number of the audit record.
Stage Name	This field displays the current stage of the process.
Completed Time	This field displays the time on which the audit of the current stage is completed.
Completed By	This field displays the user ID of the user who had completed the audit.
Outcome	This field displays the outcome of the audit.

2. Click **Next**.

The task will move to next data segment.

Table 2-9 Main Details - Action Buttons - Field Description

Field	Description
Documents	Upload the required documents. The user can view and input/view application details simultaneously. When a user clicks on the uploaded document, Document window get opened and on clicking the view icon of the uploaded document, Application screen should get split into two. The one side of the document allows to view and on the other side allows to input/view the details in the application.
Remarks	Specify any additional information regarding the Export LC Cancellation. This information can be viewed by other users handling the request.

Table 2-9 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
Overrides	Click to view the overrides accepted by the user.
Customer Instruction	Click to view/ input the following. <ul style="list-style-type: none"> • Standard Instructions – In this section, the system will populate the details of Standard Instructions maintained for the customer. User will not be able to edit this. • Transaction Level Instructions – In this section, OBTFPM user can input any Customer Instructions received as part of transaction processing. This section will be enabled only for customer initiated transactions.
View LC	Click View LC to view the latest LC values displayed in the respective fields. All fields displayed in LC details section are read only fields..
Signatures	Click the Signature button to verify the signature of the customer/ bank if required. The user can view the Customer Number and Name of the signatory, Signature image and the applicable operation instructions if any available in the back-office system. If more than one signature is required, system should display all the signatures.
Reject	On click of Reject, user must select a Reject Reason from a list displayed by the system. Reject Codes are: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others Select a Reject code and give a Reject Description. This reject reason will be available in the remarks window throughout the process.
Refer	Select a Refer Reason from the values displayed by the system. Refer Codes are: <ul style="list-style-type: none"> • R1- Documents missing • R2- Signature Missing • R3- Input Error • R4- Insufficient Balance/Limits • R5 - Others
Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Export LC Cancellation task. Details entered will not be saved and the task will be removed

Table 2-9 (Cont.) Main Details - Action Buttons - Field Description

Field	Description
Save & Close	Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request.
Next	On click of Next, system validates if all the mandatory fields have been captured. Necessary error and override messages to be displayed. On successful validation, system moves the task to the next data segment.
Checklist	Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit.

2.3.2 Payment Details

This topic provides the systematic instructions to initiate the Payment in Data Enrichment stage of Export LC Cancellation request.

1. On **Payment Details** screen, specify the fields.

Figure 2-9 Payment Details

For more information on fields, refer to the field description table below.

Table 2-10 Payment - Field Description

Field	Description
Payment Details	
Special Payment conditions for beneficiary	Read-only field. Displays the details of special payment condition to the beneficiary, if any.
Special Payment conditions for receiving bank	Read-only field. This field specifies special payment conditions applicable to the receiving bank without disclosure to the beneficiary, for example, post-financing request/conditions for receiving bank only.
Period for Presentation	Read-only field. Displays the the period of presentation. The field displays the event name in text along with the number of days in number, if the period of presentation is based on any event other than shipment.
Confirmation Instructions	Read-only field. Displays the confirmation instruction for the LC. The values can be: <ul style="list-style-type: none"> • CONFIRM • MAY ADD • WITHOUT The system should display the <ul style="list-style-type: none"> • SWIFT code (if available) • Name and address of the bank
Partial Confirmation Allowed	Read-only field. Displays whether partial confirmation is allowed.
Silent Confirmation	Read-only field. Indicates whether silent confirmation is added to an LC already advised to the beneficiary and Confirmation Percentage should default as 100 and Silent Confirmation Amount should display the full LC outstanding value. This field is added only for LC in which Issuing Bank does not request confirmation.
Confirmation %	Read-only field. Displays the confirmation percentage. This field is alternate to Confirmation Amount field.
Confirmation Amount	Read-only field. Displays the confirmation amount.
Requested Confirmation Party Type	Read-only field. Displays the requested confirmation party type.
Requested Confirmation Party	Read-only field. Displays the requested confirmation party details.
Confirmation Expiry Date	Read-only field. Displays the confirmation expiry date.
Reimbursing Bank	Read-only field. Displays the reimbursing bank details.
Advise Through Bank	Read-only field. Displays the advise through bank details. In case of SWIFT MT707 message, this field is empty.
Instructions to P/A/N Bank	Read-only field. Displays the instructions to P/A/N Bank.

Table 2-10 (Cont.) Payment - Field Description

Field	Description
Sender to Receiver Information	Read-only field. Displays the sender to receiver information.
Charges	Read-only field. Displays charges details(FFT).
Amendment Charges payable by	Select the party to pay the amendment charges. The options are: <ul style="list-style-type: none"> • Applicant • Beneficiary • Others
Information to Issuing Bank	
Sender to Receiver Information	Click Search to search and select the FFT to provide the additional information to receiver.
Narrative	Click Search to search and select the FFT to provide the additional information from the advising bank to the issuing bank.
Issuing Bank Account No	Click Search to search and select the issuing bank account number from the look-up.
Charges to be Claimed	Select the currency and specify the charges to be claimed.
Charges	Specify the charge details for advising.
Issuing Bank Date	Select the issuing bank date from the date picker.
Account with Bank	Click Search to search and select the account to which the charges needs to be paid.
Information to Advise Through Bank	
Sender to Receiver Information	Read-only field. Displays the additional information to receiver.

2. Click **Next**.

The task will move to next data segment. For more information refer [Additional Fields](#).

Hold	The details provided will be saved and status will be on hold. User must update the remarks on the reason for holding the task. This option is used, if there are any pending information yet to be received from applicant.
Cancel	Cancel the Data Enrichment stage inputs. The details updated in this stage are not saved. The task will be available in 'My Task' queue.
Save & Close	Save the details provided and holds the task in 'My Task' queue for further update. This option will not submit the request.
Back	On click of Back, task moves to previous logical step.
Submit	Task will get moved to next logical stage of Export LC Cancellation. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.

2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Export LC Cancellation request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Amount Block Exception Approval

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral. Amount block check will be done for all the parties related to the LC.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM Application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA

account from the Back office. If multiple accounts are applicable, Amount Block Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
 - Settlement amount will be funded (outside of this process)
 - Allow account to be overdrawn during hand-off
- Refer:
 - Refer Refer back to DE providing alternate settlement account to be used for block.
 - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Block Exception

This section will display the amount block exception details.

Summary

Tiles Displayed in Summary:

- Main Details - User can view the application details and LC details.
- Payment Details - User can view all the details related to payments.
- Additional Fields - User can view the details of additional fields.
- Settlement Details - User can view the settlement details.
- Advices - User can view the details of advices.
- Preview Messages - User can view the preview messages.
- Limits and Collaterals - User can view the limits and collateral details.
- Commission, Charges and taxes - User can view the Commission, charges and taxes details.
- Accounting Details - User can view the accounting entries generated by back office system.

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Currency

- Contract Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

7. Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

 **Note:**

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.
