Preface

- [Purpose](#)
- [Audience](#)

This document is intended for the following audience:
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Structure](#)

This manual is organized into the following chapters:
- [Conventions](#)
- [Related Documents](#)
- [Screenshot Disclaimer](#)
- [Acronyms and Abbreviations](#)
- [Symbols and Icons](#)
- [Basic Actions](#)

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Guarantee Advise Amendment Beneficiary Consent Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches, Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance [Oracle Software Security Assurance](#).

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

Abbreviation	Description

Submit	<p>Click Submit to complete the transaction after you specify all the input parameters for a particular process. The task will get moved to next logical stage of the process. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided.</p>

1

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Guarantee Advise Amendment Beneficiary Consent Islamic

This User Manual describes the various stages of Guarantee Advise Amendment Beneficiary Consent Islamic process.

As part of Guarantee Advice Amendment, the amendments may need consent from the beneficiary of the amendment and the amended Guarantee is parked awaiting beneficiary consent. Once the Beneficiary has accepted the amendment, the Guarantee amendment Confirmation will be triggered.

The various stages involved for Islamic Guarantee Advice Amendment Beneficiary Consent are:

- Input data and Upload of related mandatory and non-mandatory documents in Registration stage
- Input/Modify details of amendment of Guarantee - Data Enrichment stage
- Capture remarks for other users to check and act
- Notify customer on any negative statuses in any of the stages to the applicant
- Hand off request to back office for amendment confirmation

The design, development and functionality of the Islamic Guarantee Advice Amendment Beneficiary Consent process flow is similar to that of conventional Guarantee Advice Amendment Beneficiary Consent process flow.

This topic contains following subtopics:

- [Common Initiation Stage](#)
- [Registration](#)
- [Data Enrichment](#)
- [Exceptions](#)
- [Multi Level Approval](#)
- [Common Initiation Stage](#)
This topic provides the systematic instructions to initiate the new **Islamic Guarantee Advise Amendment Beneficiary Consent** request.
- [Registration](#)
This topic provides the systematic instructions to initiate the Registration stage of Guarantee Advise Amendment Beneficiary Consent Islamic request.
- [Data Enrichment](#)
This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Advise Amendment Beneficiary Consent Islamic request.
- [Exceptions](#)

Branch	Select the required branch code from the drop-down list.

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

Field	Description
Proceed	Task will get initiated to next logical stage.
Clear	Click to clear the contents update and enter the values again.

3. Click **Proceed** to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Guarantee Advise Amendment Beneficiary Consent Islamic request.

During Registration stage, user can register the beneficiary consent response received for the amendment to Guarantee advised. User can enter the basic details of the amendment confirmation.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

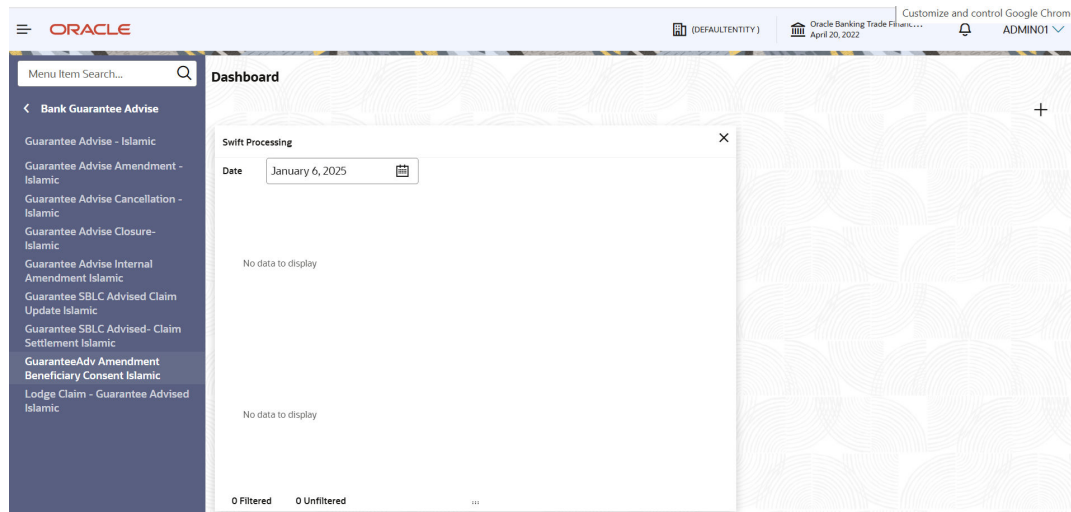

Specify **User ID** and **Password**, and login to **Home** screen.

Figure 2-2 Login Screen

The image shows a login screen for Oracle. At the top, the Oracle logo is displayed in red. Below the logo, there are two input fields. The first is labeled "User Name" and contains the text "ATEST11". The second is labeled "Password" and contains seven dots. Below the password field is a dark grey button with the text "Sign In" in white. The background of the screen is light grey with a decorative pattern at the top.

1. On **Home** screen, click **Trade Finance - Islamic**. Under **Trade Finance - Islamic**, click **Bank Guarantee Advise**.
2. Under **Bank Guarantee Advise**, click **Guarantee Advise Amendment Beneficiary Consent Islamic**.

Figure 2-3 Guarantee Advise Amendment Beneficiary Consent Islamic

2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

The Guarantee Advised Amendment Beneficiary Consent Islamic request, before it reaches the approval stage, the application will validate the Amount Block, KYC and AML. If any of these failed in validation will reach exception stage for further clearance for the exceptions.

Amount Block Exception Approval

User can review the amount block exception for Trade Finance requests that failed to create Amount Block in backend system.

Log in into Trade Mid Office (TMO) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Log in into Trade Mid Office (TMO) system amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue.

Open the task to view the summary tiles. The tiles should display a list of important fields with values.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number" to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to

release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block.

Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
 - Settlement amount will be funded (outside of this process)
 - Allow account to be overdrawn during hand-off
- Refer:
 - Refer Refer back to DE providing alternate settlement account to be used for block.
 - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement account Amount Bock Exception This section will display the amount block exception details.

Amount Bock Exception

This section will display the amount block exception details.
