This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

1

Preface

- [Purpose](#)
This document provides integration service recommendations for Oracle Banking Trade Finance Process Management.
- [Audience](#)
- [Documentation Accessibility](#)
- [Critical Patches](#)
- [Diversity and Inclusion](#)
- [Scope](#)

1.1 Purpose

This document provides integration service recommendations for Oracle Banking Trade Finance Process Management.

1.2 Audience

This guide is primarily intended for Developers for Oracle Banking Trade Finance Process Management and third party or vendor software's. Some information may be relevant to IT decision makers and users of the application are also included. Readers are assumed to possess basic operating system, network, and system administration skills with awareness of vendor/third-party software's and knowledge of Oracle Banking Trade Finance Process Management application.

1.3 Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc>.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

1.4 Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at [Critical Patches](#), [Security Alerts and Bulletins](#). All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by [Oracle Software Security Assurance](#).

1.5 Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1.6 Scope

- [Read Sections Completely](#)
Each section should be read and understood completely. Instructions should never be blindly applied. Relevant discussion may occur immediately after instructions for an action, so be sure to read whole sections before beginning implementation.
- [Understand the Purpose of This Guidance](#)
The purpose of the guidance is to provide necessary integration services for OBTFPM 14.5.2.0.0.
- [Limitations](#)
This guide is limited in its scope to integration services guideline for developers.

1.6.1 Read Sections Completely

Each section should be read and understood completely. Instructions should never be blindly applied. Relevant discussion may occur immediately after instructions for an action, so be sure to read whole sections before beginning implementation.

1.6.2 Understand the Purpose of This Guidance

The purpose of the guidance is to provide necessary integration services for OBTFPM 14.5.2.0.0.

1.6.3 Limitations

This guide is limited in its scope to integration services guideline for developers.

2

Integration services

- [ServicesRequired for Integration](#)

The services listed below are required for OBTFPM integration. Please make sure that the following services are available before the implementation.

2.1 ServicesRequired for Integration

The services listed below are required for OBTFPM integration. Please make sure that the following services are available before the implementation.

(Required) Enter introductory text here, including the definition and purpose of the concept.

S	Provider	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
1.	ELCM	ELFacilityService/ QueryFacility	Verify facilities availability	Scrutiny Stage/Trade Finance processes/Verify Limits Availability	Service API which is used to verify the Limit for the specific customer Service used in (Scrutiny stage) : All Trade Process
2.	ELCM	ELFacilityBlockService/ CreateFacilityBlock	Earmark facilities available	Data Enrichment Stage/Trade Finance processes/Earmark Limits	Service API which is used to block the Limit for the specific customer Service used in (Data Enrichment stage) : All Trade Process
3.	ELCM	ELFacilityBlockService/ CloseFacilityBlock	Release earmarking facilities available	Handoff Stage/Trade Finance processes/Release earmarked limits	Service API which is used to Release the Limit for the specific customer Service used in (Hand off stage) : All Trade Process
4.	FCUBS	FCUBSSTService/ QueryKYCDetails	Verify KYC of a customer	Data Enrichment Stage/Trade Finance processes/To verify KYC of the customers	Service API which is used to perform KYC check for the specific customer in back office / external system Service used in (Data Enrichment stage) : All Trade Process

S N o.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
5.	OBTF	OBTFLCService/ QueryContractSim	Contract Reference Number Generation	Registration, Scrutiny Stage(first stage)/Trade Finance processes/To generate contract reference number	Service API which is used to generate a unique contract reference number from back office system. Service used in (Registration stage) : All Trade Process
6.	OBTF	OBTFLCService/ CreateContractSim	Simulation of LC Contract Creation	Data Enrichment Stage/Import LC Issuance/Retrieve charges, commissions, taxes Data Enrichment Stage/Export LC Advise/Retrieve charges, commissions, taxes	Service API which is used to calculate the charges, commissions and taxes at enrichment stage from back office system. Service used in (Data Enrichment stage) : Import LC Issuance Export LC Advise
7.	OBTF	OBTFLCService/ SummaryQueryContractSim	Summary Query For Contract	Registration Stage/Import LC Amendment/To retrieve list of issued LC Registration Stage/Export LC Amendment/To retrieve list of advised LC Registration Stage/Import LC Drawing/To retrieve list of issued LC Registration Stage/Export LC Drawing/To retrieve list of advised LC	Service API which is used to fetch the Approved Letter of credit contracts (summary) from back office system. Service used in (Registration stage) : Import LC Amendment Export LC Amendment Import LC Drawing Export LC Drawing process
8.	OBTF	OBTFLCService/ CreateContract	Create LC contract	Handoff / Import LC Issuance / Handoff to the back-office system. Handoff / Export LC Advise / Handoff to the back-office system.	Service API which is used to hand off the letter of credit contract details to back office system and create a new contract in back office. Service used in (Post Approval stage) : Import LC Issuance Export LC process
9.	OBTF	OBTFLCService/ QueryContract	Query LC Contract	Registration Stage/Import LC Amendment/To retrieve details of a issued LC Registration Stage/Export LC Amendment/To retrieve details of a advised LC Registration Stage/Import LC Drawing/To retrieve details of a issued LC Registration Stage/Export LC Drawing/To retrieve details of a advised LC	Service API which is used to fetch the Letter of credit contracts (details) from back office system. Service used in (registration stage) : Import LC Amendment Export LC Amendment Import LC Drawing Export LC Drawing process

S N o.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
10	OBTF	OBTFLCService/ModifyContract	Modify LC Contract	NA	-
11	OBTF	OBTFLCService/QueryAmendmentConfirm	Query LC Amendment Input	Scrutiny Stage/Import LC Amendment/Retrieve details of a single LC Amendment Scrutiny Stage/Import LC Amendment Beneficiary Consent/Retrieve details of a single LC Amendment Scrutiny Stage/ Export LC Amendment and beneficiary Consent/Retrieve details of a single Amendment	Service API which is used to fetch the Single amendment of Letter of credit contracts (details) from back office system. Service used in (Scrutiny stage) : Import LC Amendment Export LC Amendment process
12	OBTF	OBTFLCService/CreateAmendmentConfirm	Create LC Amendment Input	Handoff / Import LC Amendment	Service API which is used to hand off the amendment details of letter of credit contract to back office system and create a new contract in back office. Service used in (Post approval stage) : Amendment of Import LC process Amendment of Export LC process
13	OBTF	OBTFLCService/ConfirmAmendmentConfirm	Confirm LC Amendment Input	Handoff Stage/Import LC Amendment Beneficiary Consent /Handoff the details to back-office system.	Service API which is used to handoff Import LC / Export LC Amendment on Beneficiary Consent to back-office system. Service used in (Hand off stage) : Amendment of Import LC Beneficiary Consent process Amendment of Export LC Beneficiary Consent process

S N o.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
14	OBTF	OBTFLCService/ AuthorizeAmendConfirm	Authorize LC Amendment Input	Handoff Stage/Import LC Amendment Beneficiary Consent /Authorize the handed off details to back-office system through OBTFLCService/ ConfirmAmendConfirm	Service API which is used to Authorize the Import LC / Export LC Amendment in back-office system. Service used in (Hand off stage) : Amendment of Import LC Beneficiary Consent process Amendment of Export LC Beneficiary Consent process
15	OBTF	OBTFLCService/ SummaryQueryAmendConfirm	Summary Query LC Amendment Input	Registration Stage/Import LC Amendment Beneficiary Consent/Summary query to retrieve list of LC Amendments	Service API which is used to fetch the amendment details of Letter of credit contracts (summary) from back office system. Service used in (Registration stage) : Amendment of Import LC Beneficiary Consent process Amendment of Export LC Beneficiary Consent process
16	OBTF	OBTFBCService/ QueryContract	Query BC Contract	Registration Stage / Import LC Drawing Amendment Import/Export update Documentary Collection / Retrieve the details of a single Import LC Drawing/ / Retrieve the details of a single Import Export Documentary Collection Booking/ Registration Stage / Import LC Drawing Liquidation / Retrieve the details of a single Import LC Drawing	Service API which is used to fetch the Import / Export Bills contracts (details) from back office system. Service used in (Registration stage) : Import LC Drawing Amendment process Import LC Drawing Liquidation process Import/Export Update Documentary Collection Import/Export Documentary Collection Liquidation

S N o.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
17	OBTF	OBTFBCService/ CreateContract	Create BC Contract	Handoff Stage / Import /Export LC Drawing Import/Export Documentary Collection Booking / Handoff the details of a Import /Export LC Drawing Import/Export Documentary Collection Booking	Service API which is used to create an Import / Export Bills contracts (details) in back office system. Service used in (Hand off stage) : Import /Export LC Drawing Import/Export Documentary Collection Booking
18	OBTF	OBTFBCService/ ModifyContract	Modify BC Contract	Handoff Stage / Import /Export LC Drawing Amendment / Handoff the details of a Import LC Drawing Amendment/ Import/Export Update Documentary Collection Handoff Stage / Import LC Drawing Acceptance / Handoff the details of a Import LC Drawing Acceptance Import/Export Update Documentary Collection	Service API which is used to amendment on the Import / Export Bills contracts (details) in back office system. Service used in (Hand off stage) : Import /Export LC Drawing Amendment Import /Export LC Drawing Acceptance Import/Export Update Documentary Collection Booking
19	OBTF	OBTFBCService/ LiquidateContract	Liquidate BC Contract	Handoff Stage / Import /Export LC Drawing Liquidation Import/Export Documentary Collection Liquidation / Handoff the details of a Import /Export LC Drawing Liquidation Import/Export Documentary Collection Liquidation	Service API which is used to Liquidate the Import / Export Bills contracts in back office system. Service used in (Hand off stage) : Import /Export LC Drawing Liquidation Import/Export Documentary Collection Liquidation

S No.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
20	FCUBS	FCUBSBCService/SummaryQueryBCContractSim	Summary Query BC Contract	Registration Stage / Import LC Drawing Amendment Import/Export Update Documentary Collection / List of Import LC Drawing available/List of Import/Export Documentary collection bookings are available Registration Stage / Import LC Drawing Liquidation /Import/ Export update and Liquidation of Documentary Collection/ List of Import LC Drawing available / List of Import /Export Documentary Collection available	Service API which is used to fetch the Import / Export Bills contracts (summary) in back office system. Service used in (Hand off stage) : Import /Export LC Drawing Amendment Import /Export LC Drawing Liquidation Import/Export Update Documentary Collection Import/Export Documentary Collection Liquidation
21	OBTF	OBTFLCService/CreateGuarantee	Create Guarantee Contract	Handoff / Guarantee Issuance / Handoff to the back-office system. Handoff / Guarantee Advise / Handoff to the back-office system.	Service API which is used to create a guarantee contract (details) in back office system. Service used in (Hand off stage) : Guarantee Issuance Guarantee Advise
22	OBTF	OBTFLCService/QueryGuarantee	Query Guarantee Contract	NA	-
23	OBTF	OBTFBCService/CreateBCContractSim	Simulation of BC Contract Creation	Scrutiny Stage / Import /Export LC Drawings / Import/Export Documentary Collection Booking Retrieve charges, commissions, taxes	Service API which is used to calculate the charges, commissions and taxes of Bills contract from back office system. Service used in Scrutiny Stage) : Import /Export LC Drawings Import/Export Documentary Collection Booking

S No.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
24	OBTF	OBTFBCService/ ModifyBCContractSim	Simulation of BC Contract Modification	Scrutiny and Data Enrichment / Import /Export LC Drawing Amendment Import/Export Update Documentary Collection / Handoff the details of a Import LC Drawing Amendment/ Import/Export update Documentary Collection Scrutiny and Data Enrichment / Import LC Drawing Acceptance / Handoff the details of a Import LC Drawing Acceptance	Service API which is used to modify the Bills contract in back office system. Service used in (Scrutiny and Data Enrichment stage) : Import LC Drawing Amendment Import LC Drawing Acceptance Import/Export Update Documentary Collection Process
25	OBTF	OBTFBCService/ LiquidateBCContractSim	Simulation of BC Contract Liquidation	Data Enrichment Stage / Import /Export LC Liquidation/ Import/Export Documentary Collection Liquidation / Retrieve charges, commissions, taxes	Service API which is used to fetch the charges, commission and charges during the liquidation of the Bills contract in back office system. Service used in (Data Enrichment stage) : Import/Export LC Liquidation Import /Export Documentary Collection Liquidation
26	FCUBS	FCUBSCustomerService/ QueryCustomer	Query Customer	Data Enrichment Stage/Trade Finance processes/ To retrieve customer details of a customer.	Service API which is used to fetch the customer details from back office system. Service used in (Registration, Scrutiny and Data Enrichment stage) : All trade process
27	FCUBS	FCUBSCoreService/ QueryAmountConversion	Query Amount Conversion	Data Enrichment Stage/Trade Finance processes/ Used for amount conversion as per the local currency and arrive at the number of approval levels needed.	Service API which is used to perform currency conversion in back office system. It is used to arrive the number of approvals is required to approve the contract Service used in (Data Enrichment stage) : All trade process
28	FCUBS	FCUBSAccountService/ QueryCustomerAccount	Query Customer Account	Data Enrichment Stage/Trade Finance processes/ To verify the account balance of a given customer account.	Service API which is used to fetch the account balance from back office system. Service used in (Data Enrichment stage) : All trade process

S No.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
29	OBTF	OBTFMSService/QueryGetDcnMessages	Query Incoming Messages	Registration Stage / Export LC Advise / Retrieve the message of a given contract reference number.	Service API which is used to fetch the unprocessed SWIFT incoming message (details) from back office system. Service used in (Scrutiny stage) : Export LC Advise Process Amendment on Export LC Advise Process Guarantee advise Process
30	OBTF	OBTFMSService/ModifyGetDcnMessages	Modify Incoming Messages	Registration Stage / Export LC Advise / Modify the status of a message of a given contract reference number. This status denotes whether the message has been processed in the MID-OFFICE.	Service API which is used to update the status of the specific SWIFT incoming message in back office system. Service used in (Scrutiny stage) : Export LC Advise Process Amendment on Export LC Advise Process Guarantee advise Process
31	OBTF	OBTFMSService/SummaryQueryGetDcnMessages	Summary Query Incoming Messages	Registration Stage / Export LC Advise / Retrieve the list of messages for a given message type. Say for example list of messages of type MT700.	Service API which is used to fetch the all unprocessed SWIFT incoming messages (summary) from back office system. Service used in (Scrutiny stage) : Export LC Advise Process Amendment on Export LC Advise Process Guarantee advise Process
32	OBTF	OBTFCSService/QueryTFEvent	Query Contract Events	Registration Stage/Import LC Amendment//To retrieve the events on an Import LC Issuance.	Service API which is used to fetch the LC contract events details from back office system. Service used in (Registration stage) : Import LC Issuance Process
33	FCUBS	FCUBSFXService/SummaryQueryContract	Summary Query FX Contract	Data Enrichment Stage / Import LC Drawings / To retrieve list of FX contracts	Service API which is used to fetch the ForEx contract details (summary) from back office system. Service used in (Data Enrichment stage) : Import LC Drawings Process

S N o.	Provider System	Service URL	Service Description	Stage/Domain/Reason When Called	Remarks
34	FCUBS	FCUBSFXService QueryContract	Query FX Contract	Data Enrichment Stage / Import LC Drawings / To retrieve the details of a given FX contract	Service API which is used to fetch the ForEx contract details for a given contract (detail) from back office system. Service used in (Data Enrichment stage) : Import LC Drawings Process
35	FCUBS	FCUBSCustomerService. CreateAmtBlk	Create Amount Block	Data Enrichment Stage / Trade Finance processes / Create Amount Block	Service API which is used to block the amount for a given account Service used in (Data Enrichment stage) : All trade Process
36	FCUBS	FCUBSCustomerService. QueryAmtBlk	Query the details of an Amount Block.	Data Enrichment Stage / Trade Finance processes / Query the details of an Amount Block	Service API which is used to fetch the amount blocks for a given amount block reference no from back office Service used in (Data Enrichment stage) : All trade Process
37	FCUBS	FCUBSCustomerService. CloseAmtBlk	Close Amount Block	Handoff Stage / Trade Finance processes / Release Amount Block	Service API which is used to release the amount blocks for a given reference, in back office Service used in (Data Enrichment stage) : All trade Process
38	EXTERNAL SYSTEM	Sanctions Check	Perform Sanctions Check for a given transaction	Data Enrichment Stage/Trade Finance processes/To perform Sanctions Check of the customers	Service API which is used to trigger the external system - Sanction check service with customer details. It is an external service call. Service used in (Data Enrichment stage) : All trade Process
39	EXTERNAL SYSTEM	Anti-Money Laundering Check	Perform Anti Money Laundering Check for a given transaction	Data Enrichment Stage/Trade Finance processes/To perform AML Check of the customers	Service API which is used to trigger the external system - Anti Money laundering check system with customer details. It is an external service call. Service used in (Data Enrichment stage) : All trade Process

 **Note:**

If the above listed are not used, then the other back office/external systems must have similar APIs to achieve full benefits of OBTFPM application.

S. No.	Provider System	Service URL	Service Description	Stage/Domain/ Reason When Called	Remarks
1.	OBTF	OBTFBCService/CloseContract	CloseContract	/ Handoff BC / Documentary Collection contract to the back-office system. Handoff / closing the contract / Handoff to the back-office system.	Service API which is used to Close BC contract (details) in back office system. Service used in (Hand off stage) : Close BC contract Close Import/ Export Documentary collection Contract
2.	OBTF	OBTFBCService/CloseBCContractSim	CloseBCContractSim	Data Enrichment Stage BC/ Import/export Documentary Collection Contracts / Retrieve charges, commissions, taxes.	Service API which is used to close the Bills contract in back office system. Service used in (Scrutiny and Data Enrichment stage) : Import / export Documentary Collection Return process
