Index

Preface

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Export LC Liquidation - Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.

- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
`monospace`	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide

- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

1
Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).
Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

2

Export LC Liquidation

This chapter is documented to get familiar with the Export LC Liquidation process of Oracle Banking Trade Finance Process Management.

Export LC liquidation - Islamic process deals with handling a Liquidation of Drawings under Islamic LC.

The various stages involved for Export LC Drawing Liquidation are:

- Input Liquidation details and Upload of related mandatory and non-mandatory documents in Registration stage
- Input/Modify details of Export Drawing Liquidation - Data Enrichment stage
- Check balance availability for amount block
- Check for sanctions & KYC status
- Create amount block if applicable
- Capture remarks for other users to check and act
- Hand off request to back office.

The Islamic Export LC Drawing Liquidation process flow is similar to that of conventional Export LC Drawing Liquidation process flow.

This topic contains following subtopics:

- Common Initiation Stage
- Registration
- Data Enrichment
- Exceptions
- Multi Level Approval
- Reject Approval

2.4 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. Task. The checks to external system/internal system is initiated after the Data Enrichment Stage. The amount Block earmark and Limit Earmarks if applicable are also initiated after the Data Enrichment stage.

If a negative response is received for any of the calls, the task lands in respective exceptional queue which require further manual handling/approval.

Amount Block Exception Approval

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.
Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block. Reference for all accounts to be passed to the back office.
Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

*   Approve:

    – Settlement amount will be funded (outside of this process)

    – Allow account to be overdrawn during hand-off

*   Refer:

    – Refer Refer back to DE providing alternate settlement account to be used for block.

    – Different collateral to be mapped or utilize lines in place of collateral.

*   Reject: Reject the transaction due to non-availability of sufficient balance in settlement account

Amount Bock Exception

This section will display the amount block exception details.
