Preface

- Purpose
- Audience
 This document is intended for the following audience:
- Documentation Accessibility
- Critical Patches
- Diversity and Inclusion
- Structure This manual is organized into the following chapters:
- Conventions
- Related Documents
- Screenshot Disclaimer
- Acronyms and Abbreviations
- Basic Actions
- Symbols and Icons

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Export LC Transfer Amendment Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels). **Benefits**

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Export LC Transfer Amendment - Islamic

This chapter is documented to get familiar with the Export LC Transfer Amendment - Islamic process of Oracle Banking Trade Finance Process Management.

Transfer LC Amendment takes place usually when there is an amendment in the Export LC.

Following are some of the scenarios where transfer LC amendmentmay be required:

- Amendment of the Expiry Date
- Amendment of the Amount
- · Amendment of the Latest Shipment date
- · Amendment of the Goods Description
- Amendment of the Shipment Details
- Amendment of the Documents Required
- Amendment of the Additional Conditions

The various stages involved for Transfer Amendment of an Export Letter of Credit are:

- Receive and verify documents and Input application details (Non Online Channel)-Registration stage
- Verify/capture details (Online/Non Online Channels)- Scrutiny stage
- Input/Modify details of Transfer LC amendment Data Enrichment stage
- Check balance availability for amount block
- Check for sanctions & KYC status
- Create amount block for cash margin/charges if applicable
- Capture remarks for other users to check and act
- Hand off request to back office

Transfer LC Amendment by Increase in Transfer LC Value

Following points are applicable for both Amendment with Beneficiary consent and Without Beneficiary Consent.

- System checks, that the increase in Transfer LC amount including tolerance if any, is not greater than the Outstanding amount in Parent LC. System displays an error if it is greater.
- System reduces the Outstanding Amount and liability in Parent LC, to the tune of the increased amount in Transfer LC including tolerance.

Transfer LC Amendment by Decrease in Transfer LC value

During Transfer LC Amendment by decrease in Transfer LC value, system validates the decrease value with the outstanding amount of Transfer LC If the decrease value is greater than outstanding amount, system will display an error.

The design, development and functionality of the Islamic Export LC Transfer Amendment process flow is similar to that of conventional Export LC Transfer Amendment process flow.

This topic contains following subtopics:

- Common Initiation Stage
 This topic provides the systematic instructions to initiate the Export LC Transfer
 Amendment Islamic request.
- Registration

This topic provides the systematic instructions to initiate the Registration stage of Export LC Transfer Amendment - Islamic request.

Scrutiny

This topic provides the systematic instructions to initiate the Scrutiny stage of Export LC Transfer Amendment - Islamic request.

- Data Enrichment
 This topic provides the systematic instructions to initiate the Data Enrichment stage of
 Export LC transfer Amendment Islamic request.
- Exceptions This topic helps you quickly get acquainted with the Exceptions process.
- Customer Response Draft Confirmation This topic helps you quickly get acquainted with the Customer Response - Draft Confirmation process.
- Multi Level Approval This topic helps you quickly get acquainted with the Multi Level Approval process.
- Customer Acknowledgement Format
 This topic helps you quickly get acquainted with the Customer Acknowledgement process.

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the **Export LC Transfer Amendment** - **Islamic** request.

Specify User ID and Password, and login to Home screen.

1. On Home screen, click Trade Finance. Under Trade Finance, click Initiate Task.

The Initiate Task screen appears.

				(DEFAULTENTITY)	Oracle Banking Trade Financ April 20, 2022	Ô	PRADEEP01 V

Clear	Click to clear the contents update and enter the values again.

3. Click Proceed to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Export LC Transfer Amendment - Islamic request.

During the Registration stage, the user can register a request for an Export LC Transfer Amendment - Islamic received at the front desk (as an application received physically/received by mail/fax).

User can capture the basic details of the response, check the signature of the signatory from the advising bank and upload the related documents. On submit of the request, the customer should be notified with acknowledgment and the request should be available for an LC expert to handle in the next stage.

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

Specify User ID and Password, and login to Home screen.

Let's look at the details for scrutiny stage. User can enter/update the following fields. Some of the fields that are already having value from Registration/online channels may not be editable.

The Scrutiny stage has the following hops for data capture:

• Main Details

This topic provides the systematic instructions to initiate the main details of Scrutiny stage of Export LC Transfer Amendment - Islamic request.

- Availability Shipment This topic provides the systematic instructions to capture the availability details.
- Payment Details
 This topic provides the systematic instructions to initiate the Payment in Scrutiny stage of
 Export LC Transfer Amendment Islamic request.
- Amendment Details This topic provides the systematic instructions to capture the Amendment Details.
- Additional Fields

This topic provides the systematic instructions to capture the additional fields.

Additional Details

This topic provides the systematic instructions to capture the additional details in Scrutiny stage of Export LC Transfer Amendment - Islamic process.

Summary

This topic provides the systematic instructions to view the summary details in Scrutiny stage of Export LC Transfer Amendment - Islamic request.

2.3.1 Main Details

This topic provides the systematic instructions to initiate the main details of Scrutiny stage of Export LC Transfer Amendment - Islamic request.

Main details section has two sub section as follows:

- Application Details
- Transfer LC Details.

Application Details

This section provides a quick snapshot of details of LC. User can enter the details in the following fields. Some of the fields that are already having value from registration/online channels will not be editable.

1. On **Scrutiny - Main Details** screen, specify the fields if any, that were not entered at Registration stage.

The Data Enrichment stage has the following hops for data capture:

- Main Details
- Availability Shipment
- Document and Conditions

- Payment Details
- Amendment Details
- Additional Fields
- Advices
- Additional Details
- Settlement Details
- Summary

Let's look at the details for Data Enrichment stage. User can enter/update the fields in Data Enrichment stage. Some of the fields that are already having value from Registration/ online channels may not be editable.

• Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Export LC Transfer Amendment - Islamic request.

Availability Shipment

This topic provides the systematic instructions to capture the availability and shipment details.

• Document and Conditions

This topic provides the systematic instructions to capture the details of the documents received.

- Payment Details
 This topic provides the systematic instructions to initiate the Payment in Data Enrichment stage of Export LC Transfer Amendment Islamic request.
- Amendment Details This topic provides the systematic instructions to capture the Amendment Details.
- Additional Fields
 This topic provides the systematic instructions to capture the additional fields.
- Advices

This topic provides the systematic instructions to capture the advices details of Export LC Transfer Amendment - Islamic process.

Additional Details

This topic provides the systematic instructions to capture the additional details in Data Enrichment stage of Export LC Transfer Amendment - Islamic process.

Settlement Details

This topic provides the systematic instructions to capture the settlement details of Export LC Transfer Amendment - Islamic request.

Summary

This topic provides the systematic instructions to view the summary details in Data Enrichment stage of Export LC Transfer Amendment - Islamic request.

2.4.1 Main Details

This topic provides the systematic instructions to initiate the Data Enrichment stage of Export LC Transfer Amendment - Islamic request.

Main details section has two sub section as follows:

• Application Details

• LC Details.

Application Details

1. On **Data Enrichment - Main Details** screen, specify the fields if any, that were not entered at Registration stage.

For more information on fields, refer Table 2-16 of Scrutiny stage.

2. Click Save and Close to save the details and close the screen.

Preview Messages

The bank user can view a preview of the message and advice simulated from back office which is based on the export LC transfer captured in the previous screen.

Note:

A bank user can share the Draft SWIFT message to the customer through email, before the actual transmission of SWIFT message to the Advising Bank.

Note:

Preview to have MT 707 as SWIFT and other advices as Mail Advice. This needs to be mentioned under Preview messages heading.

Draft Confirmation

The user can view the draft LC message (outgoing MT707 SWIFT message format) being displayed on the preview message text box.

If the user wants to send a copy of the draft LC for customer confirmation, the same can be done by choosing the customer response slider as 'Yes'. On submit of the data enrichment stage the mail message to the customer will be sent.

The OBTFPM user can send the draft of the message to the registered email id of the corporate customer as an attachment containing PDF. The PDF sent to the corporate customer is protected by a password. Password to be generated with first four digits of Customer Name and last four digits of Customer Number.

The task will not move to approval but to 'Pending customer response stage. Upon receipt of customer's confirmation, the transaction moves to approval.

In case the customer asks for changes, the transaction will move to data enrichment and after necessary changes, it will move to approval.

The task will move to next logical stage. For more information on action buttons, refer Table 2-18 of **Scrutiny** stage.

2.5 Exceptions

This topic helps you quickly get acquainted with the Exceptions process.

As per regulatory requirement, all tasks are scrutinized for KYC, Compliance and Sanctions. Task. The checks to external system/internal system is initiated after the DE Stage. The amount Block earmark and Limit Earmarks if applicable are also initiated after the DE stage.

If a negative response is received for any of the calls, the task lands in respective exceptional queue which require further manual handling/approval.

Amount Block Exception Approval

As part of amount block validation, application will check if sufficient balance is available in the account to create the block. On hand-off, system will debit the blocked account to the extent of block and credit charges/ commission account in case of charges block or credit the amount in suspense account for blocks created for collateral.

The transactions that have failed amount block due to non-availability of amount in respective account will reach the amount block exception stage.

Log in into OBTFPM application, amount block exception queue. Amount block validation failed tasks for trade transactions will be listed in the queue. Open the task to view summary of important fields with values.

On Approval, system should not release the Amount Block against each applicable account and system should handoff the "Amount Block Reference Number "to the back office. On successful handoff, back office will make use of these "Amount Block Reference Number" to

release the Amount Block done in the mid office (OBTFPM) and should debit the CASA account from the Back office. If multiple accounts are applicable, Amount Block. Reference for all accounts to be passed to the back office.

Exception is created when sufficient balance is not available for blocking the settlement account and the same can be addressed by the approver in the following ways:

- Approve:
 - Settlement amount will be funded (outside of this process)
 - Allow account to be overdrawn during hand-off
- Refer:
 - Refer Refer back to DE providing alternate settlement account to be used for block.
 - Different collateral to be mapped or utilize lines in place of collateral.
- Reject: Reject the transaction due to non-availability of sufficient balance in settlement
 account

Amount Bock Exception

This section will display the amount block exception details.

Table 2-35 (Cont.) Action Buttons - Field Description

2.7 Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

This stage allows the approver user to review and approve the Export LC Transfer Amendment - Islamic transaction.

- 1. Log in into OBTFPM application and on Home screen, click, Task.
- 2. Under Task, click Free Task.
- Select the appropriate task and click Acquire & Edit to edit the task or click Acquire to edit the task from My Tasks.
- 4. The acquired task will be available in **My Tasks** tab. Click **Edit** to approve the task.

The Approval Re-Key pop-up screen appears.

Figure 2-29 Approval Re-Key

For non online channel, application will request approver for few critical field values as an authorization step. If the values captured match with the values available in the screen, system will allow user to open the transaction screens for further verification. If the re-key values are different from the values captured, then application will display an error message.

5. Open the task and re-key some of the critical field values from the request in the **Approval Re-Key** screen.

Some of the fields below will dynamically be available for re-key.:

- Transfer Currency
- Transfer Amount

Re-key is applicable to the first approver in case of multiple approvers. All approvers will however be able see the summary tiles and the details in the screen by drill down from tiles.

6. Click **Proceed** to proceed for the approval.

The **Approval Summary** screen appears. The user can view the Summary tiles which displays list of important fields with values.

 Click each tile to drill down from summary tiles into respective data segments to verify the details of all fields under the data segment.

Note:

The user can simulate/recalculate charge details and during calling the handoff, if handoff is failed with error the OBTFM displays the Handoff failure error during the Approval of the task.
