Preface

- Purpose
- Audience

This document is intended for the following audience:

- Documentation Accessibility
- Critical Patches
- Diversity and Inclusion
- Structure

This manual is organized into the following chapters:

- Conventions
- Related Documents
- · Screenshot Disclaimer
- Acronyms and Abbreviations
- Basic Actions
- · Symbols and Icons

Purpose

This manual is designed to help you quickly get acquainted with the Oracle Banking Trade Finance Process Management **Guarantee Cancellation - Islamic** process.

Audience

This document is intended for the following audience:

- Oracle Implementers
- Customer Service Representatives (CSRs)
- Oracle user

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and BulletinsCritical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Structure

This manual is organized into the following chapters:

- Preface gives information on the intended audience, structure, and related documents for this User Manual.
- The subsequent chapters provide an overview to the module.

Conventions

The following text conventions are used in this document:

| Convention | Meaning |
|------------|--|
| boldface | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text. |
| italic | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values. |
| monospace | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

Related Documents

For more information on any related features, you can refer to the following documents:

- Getting Started User Guide
- Oracle Banking Common Core User Guide

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of the acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

| Abbreviation | Description |
|--------------|---|
| ОВТГРМ | Oracle Banking Trade Finance Process Management |
| LC | Letter of Credit |
| BC | Bankers Cheque |
| FX | Foreign Exchange |
| CCY | Currency |
| LCY | Local Currency |
| FCY | Foreign Currency |
| LOV | List of Values |
| CIF | Customer Information File |
| UDF | User Defined Fields |
| FFT | Free Format Text |
| SBLC | Standby Letter of Credit |

Oracle Banking Trade Finance Process Management

This topic helps you quickly get acquainted with the Oracle Banking Trade Finance Process Management process.

Welcome to the Oracle Banking Trade Finance Process Management (OBTFPM) User Guide. This guide provides an overview on the OBTFPM application and takes you through the various steps involved in creating and processing Trade Finance transactions.

This document will take you through following activities in OBTFPM:

- To create and handle Trade Finance transaction.
- Help users to conveniently create and process Trade Finance transaction

Overview

OBTFPM is a Trade Finance middle office platform, which enables bank to streamline the Trade Finance operations. OBTFPM enables the customers to send request for new Trade Finance transaction either by visiting the branch (offline channels) or through SWIFT/Trade Portal/other external systems (online channels).

Benefits

OBTFPM helps banks to manage Trade Finance operations across the globe in different currencies. OBTFPM allows you to:

- Handle all Trade Finance transactions in a single platform.
- Provides support for limit verification and limit earmarking.
- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Guarantee Cancellation - Islamic

This chapter is documented to get familiar with the Guarantee Cancellation - Islamic process of Oracle Banking Trade Finance Process Management.

As part of Conventional Guarantee Issuance Cancel, System enables the user to cancel the Guarantee which had been already issued.

The various stages involved for Guarantee Issuance Cancel are:

- Receive and verify documents and Input basic details (Non Online)- Registration stage
- · Upload of related mandatory and non-mandatory documents
- Input/Modify details of Cancel of Guarantee (No Online/Online Channel) Data Enrichment stage
- Capture remarks for other users to check and act
- Hand off request to back office

The design, development and functionality of the Islamic Guarantee Issuance Cancel process flow is similar to that of conventional Guarantee Issuance Cancel process flow.

In the following sections, let's look at the details for Guarantee/SBLC cancellation - Islamic process.

This topic contains following subtopics:

- Common Initiation Stage
- Registration
- Data Enrichment
- Multi Level Approval
- Common Initiation Stage

This topic provides the systematic instructions to initiate the **Guarantee Cancellation** - **Islamic** request.

Registration

This topic provides the systematic instructions to initiate the Registration stage of Guarantee Cancellation - Islamic request.

Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Cancellation - Islamic request.

Multi Level Approval

This topic helps you quickly get acquainted with the Multi Level Approval process.

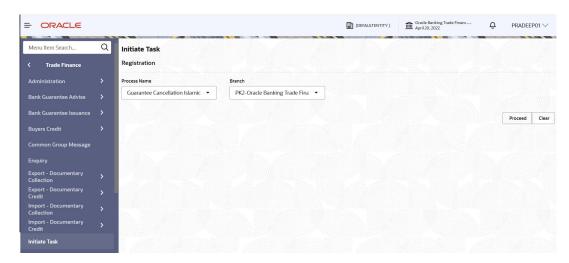

2.1 Common Initiation Stage

This topic provides the systematic instructions to initiate the **Guarantee Cancellation - Islamic** request.

Specify **User ID** and **Password**, and login to **Home** screen.

On Home screen, click Trade Finance. Under Trade Finance, click Initiate Task.
 The Initiate Task screen appears.

Figure 2-1 Initiate Task

2. On Initiate Task screen, specify the fields.

Note:

The fields which are marked as **Required** are mandatory.

For more information on fields, refer to the field description table below.

Table 2-1 Initiate Task - Field Description

| Field | Description |
|--------------|--|
| Process Name | Select a process name from the drop-down list. |
| Branch | Select the required branch code from the drop-down list. |

For more information on action buttons, refer to the field description table below.

Table 2-2 Action Buttons - Field Description

| Field | Description |
|---------|--|
| Proceed | Task will get initiated to next logical stage. |
| Clear | Click to clear the contents update and enter the values again. |

Click Proceed to proceed to the next step.

2.2 Registration

This topic provides the systematic instructions to initiate the Registration stage of Guarantee Cancellation - Islamic request.

The user can register request for Islamic Guarantee Issuance Cancellation received at the front desk (as an application received physically/received by mail/fax). The first stage of Islamic

Guarantee Cancellation process starts from the Registration Stage. During Registration stage, user captures the basic details the Cancel application, check the signature of the applicant and upload related documents. On submit of the Cancel request, the customer should be notified with acknowledgment and the request should be available for the Guarantee expert to handle in the next stage.

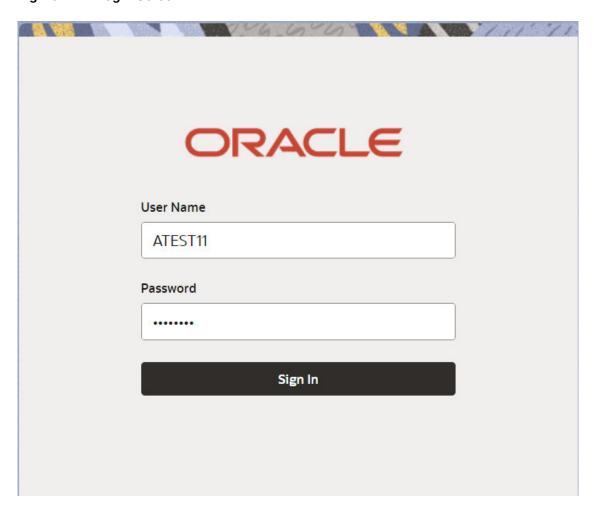

The OBTFPM user can process MT798 with sub messages MT726-MT759 message received through SWIFT. The OBTFPM verifies the field 21 and 26E (of the MT759 and identifies the Original Contract Reference Number and Amendment Number and invokes the process. The user can cancel the previously received MT798 referenced message which is under process.

The OBTFPM user can process incoming MT798(up to a maximum of 8 messages) with sub messages MT788-MT799 message received through SWIFT and enables the user to cancel the previously received MT798 referenced message which is under process.

The user has the option to submit, hold, save and hold and cancel the application.

Specify **User ID** and **Password**, and login to **Home** screen.

| Cancel | Cancels the Guarantee Cancellation - Islamic task. Details entered will not be saved and the task will be removed |
| Save & Close | Save the information provided and holds the task in 'My Task' queue for working later. This option will not submit the request. |
| Submit | The task will move to next logical stage of Guarantee Cancellation - Islamic. If mandatory fields have not been captured, system will display an error message until the mandatory fields data are provided. |
| Checklist | Click to view the list of items that needs to be completed and acknowledge. If mandatory checklist items are not selected, system will display an error on submit. |

2.3 Data Enrichment

This topic provides the systematic instructions to initiate the Data Enrichment stage of Guarantee Cancellation - Islamic request.

As part of Data Enrichment, user can register and update the Guarantee Cancellation - Islamic request received from the Issuing Bank. If the request is received by mail/Courier, the user should be able to update the request. In case the message is received by SWIFT, then the cancellation task needs to be auto created and available for the user to handle.

For expired line of limits, the task moves to "Limit Exception" stage under Free Tasks, on 'Submit' of DE Stage with the reason for exception as "Limit Expired".

Do the following steps to acquire a task which completed the registration and currently at Data enrichment stage.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click, Task.
- Under Task, click Free Task.
