- Provide amount block support for customer account.
- Provides acknowledgement to customers.
- Enables the user to upload related documents during transaction.
- Enables to Integrate with back end applications for tracking limits, creating limit earmarks, amount blocks, checking KYC, AML and Sanction checks status.
- Create, track and close exceptions for the above checks.
- Enables to use customer specific templates for fast and easy processing of trade transactions that reoccur periodically.

Key Features

- Stand-alone system that can be paired with any back end application.
- Minimum changes required to integrate with bank's existing core systems.
- Faster time to market.
- Capable to interface with corporate ERP and SWIFT to Corporate.
- Highly configurable based on bank specific needs.
- Flexibility in modifying processes.

Import LC Amendment - Beneficiary Consent - Islamic

This User Manual describes the various stages of Import LC Amendment - Beneficiary Consent process.

As part of Conventional Import LC Amendment, Import LC Amendment process enables the user to make an amendment to the LC which had been already issued. The amendments may need consent from the beneficiary of the amendment and the amended LC is parked awaiting beneficiary consent. Once the Beneficiary has accepted the amendment, the LC amendment Confirmation will be triggered.

The various stages involved for Import LC Amendment Beneficiary Consent are:

- Input data and Upload of related mandatory and non-mandatory documents in Registration stage
- Input/Modify details of amendment of LC Data Enrichment stage
- Capture remarks for other users to check and act
- Notify customer on any negative statuses in any of the stages to the applicant
- Hand off request to back office for amendment confirmation

The design, development and functionality of the Islamic Import LC Amendment Beneficiary Consent process flow is similar to that of conventional Import LC Amendment process flow.
