This software and related documentation are provided under a license agreement containing restrictions on use and disclosure and are protected by intellectual property laws. Except as expressly permitted in your license agreement or allowed by law, you may not use, copy, reproduce, translate, broadcast, modify, license, transmit, distribute, exhibit, perform, publish, or display any part, in any form, or by any means. Reverse engineering, disassembly, or decompilation of this software, unless required by law for interoperability, is prohibited.

The information contained herein is subject to change without notice and is not warranted to be error-free. If you find any errors, please report them to us in writing.

If this is software, software documentation, data (as defined in the Federal Acquisition Regulation), or related documentation that is delivered to the U.S. Government or anyone licensing it on behalf of the U.S. Government, then the following notice is applicable:

U.S. GOVERNMENT END USERS: Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs) and Oracle computer documentation or other Oracle data delivered to or accessed by U.S. Government end users are "commercial computer software," "commercial computer software documentation," or "limited rights data" pursuant to the applicable Federal Acquisition Regulation and agency-specific supplemental regulations. As such, the use, reproduction, duplication, release, display, disclosure, modification, preparation of derivative works, and/or adaptation of i) Oracle programs (including any operating system, integrated software, any programs embedded, installed, or activated on delivered hardware, and modifications of such programs), ii) Oracle computer documentation and/or iii) other Oracle data, is subject to the rights and limitations specified in the license contained in the applicable contract. The terms governing the U.S. Government's use of Oracle cloud services are defined by the applicable contract for such services. No other rights are granted to the U.S. Government.

This software or hardware is developed for general use in a variety of information management applications. It is not developed or intended for use in any inherently dangerous applications, including applications that may create a risk of personal injury. If you use this software or hardware in dangerous applications, then you shall be responsible to take all appropriate fail-safe, backup, redundancy, and other measures to ensure its safe use. Oracle Corporation and its affiliates disclaim any liability for any damages caused by use of this software or hardware in dangerous applications.

Oracle®, Java, MySQL, and NetSuite are registered trademarks of Oracle and/or its affiliates. Other names may be trademarks of their respective owners.

Intel and Intel Inside are trademarks or registered trademarks of Intel Corporation. All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. AMD, Epyc, and the AMD logo are trademarks or registered trademarks of Advanced Micro Devices. UNIX is a registered trademark of The Open Group.

This software or hardware and documentation may provide access to or information about content, products, and services from third parties. Oracle Corporation and its affiliates are not responsible for and expressly disclaim all warranties of any kind with respect to third-party content, products, and services unless otherwise set forth in an applicable agreement between you and Oracle. Oracle Corporation and its affiliates will not be responsible for any loss, costs, or damages incurred due to your access to or use of third-party content, products, or services, except as set forth in an applicable agreement between you and Oracle.

Purpose

This guide is designed to help you quickly get acquainted with the customer and accounts functionality of Oracle® Banking Virtual Account Management.

Audience

This guide is intended for Back Office Data Entry Clerk, Back Office Managers/Officers, Product Managers, End of Day Operators, and Financial Controller users.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customer access to and use of Oracle support services will be pursuant to the terms and conditions specified in their Oracle order for the applicable services.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to ensure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Related Resources

The related documents are as follows:

- Oracle Banking Security Management System User Guide

Conventions

The following text conventions are used in this document:

| Convention | Meaning |
|------------|--|
| boldface | Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary. |
| italic | Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values. |
| monospace | Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter. |

Screenshot Disclaimer

Personal information used in the interface or documents are dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The list of acronyms and abbreviations that are used in this guide are as follows:

Table 1 Acronyms and Abbreviations

| Abbreviation | Description |
|--------------|-----------------------------------|
| DDA | Demand Deposit Accounts |
| EOD | End of Day |
| IBAN | International Bank Account Number |
| IC | Interest and Charges |
| SSN | Social Security Number |

Basic Actions

The basic actions performed in the screens are as follows:

Table 2 Basic Actions

| Actions | Description |
|-----------|---|
| New | Click New to add a new record. The system displays a new record to specify the required data. The fields marked with Required are mandatory. This button is displayed only for the records that are already created. |
| Save | Click Save to save the details entered or selected in the screen. |
| Unlock | Click Unlock to update the details of an existing record. The system displays an existing record in editable mode. This button is displayed only for the records that are already created. |
| Authorize | Click Authorize to authorize the record created. A maker of the screen is not allowed to authorize the same. Only a checker can authorize a record. This button is displayed only for the already created records. For more information on the process, refer Authorization Process. |
| Approve | Click Approve to approve the initiated record. This button is displayed once you click Authorize . |
| Reject | Click Reject to reject the initiated record. This button is displayed once you click Authorize . |
| Audit | Click Audit to view the maker details, checker details of the particular record. This button is displayed only for the records that are already created. |
| Close | Click Close to close a record. This action is available only when a record is created. |
| Confirm | Click Confirm to confirm the action performed. |
| Cancel | Click Cancel to cancel the action performed. |
| Compare | Click Compare to view the comparison through the field values of old record and the current record. This button is displayed in the widget once you click Authorize . |
| View | Click View to view the details in a particular modification stage. This button is displayed in the widget once you click Authorize . |

Table 2 (Cont.) Basic Actions

| Actions | Description |
|----------------------|---|
| View Difference only | Click View Difference only to view a comparison through the field element values of old record and the current record, which has undergone changes. This button is displayed once you click Compare. |
| Expand All | Click Expand All to expand and view all the details in the sections. This button is displayed once you click Compare . |
| Collapse All | Click Collapse All to hide the details in the sections. This button is displayed once you click Compare. |
| ок | Click OK to confirm the details in the screen. |

Introduction

Each virtual account is a dummy sub-account of the customer's own physical account with the bank. They cannot exist outside of that immediate relationship, hence they are virtual. The serves to segregate any funds from any other funds in the same main account and yet is inextricably linked to that account. The key to a virtual account is thus the virtual account number/identifier.

2

Account Facility

This topic provides the information about the Account Facility maintenance.

As part of on-boarding a customer for virtual account facility, the user must enable virtual account facility for the customer. The user can enable/disable virtual account facility for one or more accounts. The customer information is provided by the DDA system.

This topic contains the following subtopics:

- Create Account Facility
 This topic describes the systematic instructions to enable or disable virtual account facility for a customer.
- View Account Facility

 This topic describes the systematic instructions to view the list of enabled virtual account facility for a customer.

2.1 Create Account Facility

This topic describes the systematic instructions to enable or disable virtual account facility for a customer.

The **Create Account Facility** screen allows the user to select the product templates under which the virtual accounts can be created. The user can also link a customer to a pricing scheme and define the charge funding account for customer level charges.

Specify User ID and Password, and login to Home screen.

- 1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Customer.
- Under Customer, click Account Facility. Under Account Facility, click Create Account Facility.

The Create Account Facility - Account Facility screen displays.

Create Account Facility Errors & Overrides **Account Facility** Products Q **Account Details** \otimes \otimes Type to filter Type to filter K Account Number © Branch © Currency © Account Class © Currency 0 -No data to display. Figure 2-1 Create Account Facility - Account Facility

3. Specify the fields on Create Account Facility - Account Facility screen.

Note:

The fields marked as **Required** are mandatory.

Table 2-1 Create Account Facility - Account Facility - Field Description

| Field | Description |
|---------------|--|
| | Click Search icon to view and select the required customer number. The customer information is stored and used from the DDA system. |
| Customer Name | Displays the brief description about the selected Customer Number. |

Table 2-1 (Cont.) Create Account Facility - Account Facility - Field Description

| Field | Description |
|-------------------------|---|
| Sanction Check Exempted | By default, it is disabled. If enabled, the customer is exempted from sanction check. It will be enabled only if Sanction Check Required is selected while configuring the bank parameters. |
| All Accounts | Displays the list of all the account of the selected customers. Specify the name of the account on the filter and/or select the required account to enable the virtual account facility that appears on the grid. |
| Virtual Account Enabled | Displays the list of the accounts enabled for the virtual account facility. |
| Branch Restrictions | Select the option to allow/restrict the virtual accounts to be opened under specific branches. The available options are: Allowed Restricted |
| Branch Group | Click Search icon to view and select the required branch group. |
| Description | Displays the brief description about the selected Branch Group. Note: For more information on branch group creation and branch linking, refer to the Branch Group topic in Configuration |
| Pricing Scheme | User Guide. Click Search to view and select the required pricing scheme. |
| | Note: If a pricing scheme linked to a customer is changed in the middle of a charge cycle, the charges configured for the updated pricing scheme will be applied for the entire charge cycle. Any pending event-based charges (Customer setup and Structure setup charges) will be calculated based on the existing pricing scheme. Any newly created structure will be charged based on the updated pricing scheme. |
| Description | Displays the brief description about the selected Pricing Scheme. |
| Real Account Number | Click Search to view and select the required real account number to collect the charges. |
| Real Account Branch | Displays the account branch based on the selected Real Account Number. |
| Real Account Currency | Displays the account currency based on the selected Real Account Number. |
| Branch Code | Click Search to view and select the required branch code. This branch code will be used during charge postings. |
| Description | Displays the brief description about the selected Branch Code. |
| | |

4. Click > to move the selected account into the **Virtual Account Enabled** grid. The list of accounts displayed in the grid is enabled for virtual account facility.

The user can use the respective options to move the records back and forth from one grid to another. The user can also filter to select the required account and move the record.

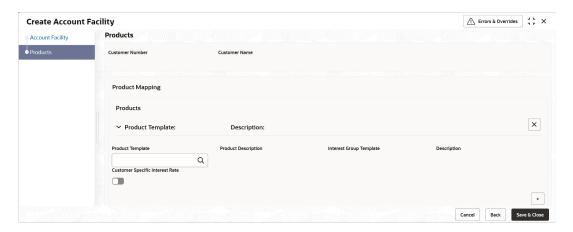

Products

The **Products** screen allows the user to select the one or more product templates.

Click Next.

The Create Account Facility - Products screen displays.

Figure 2-2 Create Account Facility - Products

6. Specify the fields on Create Account Facility - Products screen.

Note:

The fields marked as **Required** are mandatory.

Table 2-2 Create Account Facility - Products - Field Description

| Field | Description |
|-----------------|---|
| Customer Number | Based on the customer number selected in Account Facility screen, the information is auto-populated. |
| Customer Name | Based on the customer name selected in Account Facility screen, the information is auto-populated. |

Table 2-2 (Cont.) Create Account Facility - Products - Field Description

| Field | Description |
|---------------------------------|--|
| Product Template | Click Search icon to view and select the required product template. Displays the list of product templates that are allowed for the customer category. For more information, refer to the Restrictions section of Account Product Proposition topic in <i>Configuration User Guide</i> . |
| | Product Template/s are allowed to be attached during the account facility creation only. Once a facility is created, the customer account product/s will automatically be created based on the product template/s attached. Any further maintenances on customer account products needs to be performed through View Customer Account Product screen or if any subsequent product templates need to be attached to a customer, it can be performed through Create Customer Account Product screen. |
| Product Description | Based on the Product Template selected, the information is autopopulated. |
| Interest Group Template | Based on the Product Template selected, the information is autopopulated. |
| Description | Based on the Product Template , selected the information is autopopulated. |
| Customer Specific Interest Rate | By default, this is disabled. If enabled, indicates if a customer specific interest rate needs to be maintained. Note: If Customer Specific Interest Rate is selected, a new Customer Interest group will be created and mapped to the customer and Virtual Account product in IC else the Interest Group template selected will be mapped. The Interest products will be based on the Interest Group template selected. |

- 7. Click + to map the multiple product templates to a customer.
- 8. Click **Save** to save the details.

The user can view the enabled virtual account facility details in the View Account Facility.

Note:

After enabling an account for virtual account facility, the user can either go ahead and create a virtual account and/or a virtual identifier.

9. Click **Cancel** to close the details without saving.

2.2 View Account Facility

This topic describes the systematic instructions to view the list of enabled virtual account facility for a customer.

The user can enable the virtual account facility using the Create Account Facility.

Specify User ID and Password, and login to Home screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Customer.
- Under Customer, click Account Facility. Under Account Facility, click View Account Facility.

The View Account Facility screen displays.

Figure 2-3 View Account Facility

| Modification Status | Displays the number of modification performed on the record. |

Customer Account Product

This topic provides the information about the Customer Account Product maintenance.

The **Customer Account Product** enables the user to configure account product/s for a customer.

- Create Customer Account Product
 This topic describes the systematic instructions to configure the account products for a customer.
- View Customer Account Product
 This topic describes the systematic instructions to view the list of configured customer account products.

4.1 Create Customer Account Product

This topic describes the systematic instructions to configure the account products for a customer.

Specify **User ID** and **Password**, and login to **Home** screen.

1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Customer. Under Customer, click Customer Account Product. Under Customer Account Product, click Create Customer Account Product.

The Create Customer Account Product - Virtual Account Product screen displays.

1. X **Create Customer Account Product** Errors and Overrides Virtual Account Product **Virtual Account Product** Screen(1/2) Restrictions Account Product Description Customer Number Customer Name Account Product Q **Account Preferences** Interest Calculation Debit Transaction Allowed Credit Transaction Allowed Overdraft Facility Allowed Liquidity Management Allowed ^

Figure 4-1 Create Customer Account Product - Virtual Account Product

Specify the fields on Create Customer Account Product - Virtual Account Product screen.

Note:
The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 4-1 Create Customer Account Product - Virtual Account Product - Field Description

| Field | Description |
|------------------------------------|---|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Displays the name of the customer. |
| Account Product | Specify a unique product code for the customer. The user has the option to either generate a new product code for the customer or utilize an existing product template to set up a customer account product, refer to the Use Product Template section. |
| Account Product Description | Specify the description of the account product. |
| Interest Calculation | Select the toggle to show if interest calculation is needed for the virtual accounts associated with this product, and the Interest Group Mapping screen will be displayed. By default, this is disabled. |
| Debit Transaction Allowed | Select the toggle to indicate whether the debit transactions are allowed for the virtual accounts created under this product. By default, this is disabled. |
| Credit Transaction Allowed | Select the toggle to indicate whether the credit transactions are allowed for the virtual accounts created under this product. By default, this is disabled. |
| Overdraft Facility Allowed | Select the toggle to indicate whether the overdrafts are allowed for the virtual accounts created under this product. By default, this is disabled. |
| Liquidity Management Allowed | Select the toggle to indicate whether the virtual accounts created under this product are allowed to be created as Liquidity Management accounts in Oracle Banking Liquidity Management. By default, this is disabled. |
| Account description change allowed | Select the toggle to indicate if account description change is allowed at an account level or not. If this enabled, it indicates account description can be changed at an account level If this is disabled, it indicates account description cannot be changed at an account level and will be defaulted to the virtual entity name. |
| Inactive Days | Specify the number of days after which the virtual accounts created under the product are marked as Inactive if no transactions are performed for the configured days. |
| | Note: Any Credit transactions on an Inactive Virtual account will mark the account back as "Active". However, Debit transactions are not allowed on Inactive Virtual Accounts. |

Use Product Template

The **Use Product Template** hyperlink is used to link a new product template to a customer after the customer is onboarded for virtual account facility. Based the product template

selected, the product parameters are defaulted and the user is allowed to modify the parameters at the customer account product level.

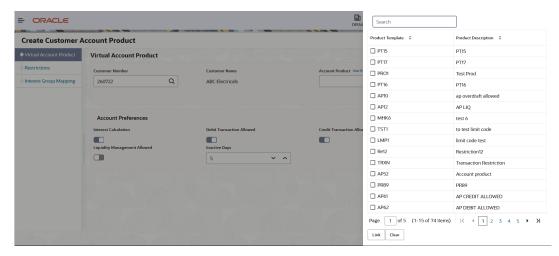

Note:

The **Use Product Template** hyperlink is applicable only during creation of a Customer Account Product.

Click Use Product Template.

The **Create Customer Account Product - Use Product Template** pop-up screen displays the list of applicable product templates based on the customer category.

Figure 4-2 Create Customer Account Product - Use Product Template

4. Specify the details to search and select the required product template from the list. For more information on fields, refer to the field description table.

Table 4-2 Create Customer Account Product - Use Product Template - Field Description

| Field | Description |
|----------------------------|--|
| Product Template | Displays the name of the product template. |
| Product Description | Displays the description of the product. |

Click Link to use the selected product template.

The product parameters get defaulted from the template.

6. Click Clear to clear the search filter.

Restrictions

The **Restrictions** screen allows the user to configure the product restrictions.

7. Click Next.

The Create Customer Account Product - Restrictions screen displays.

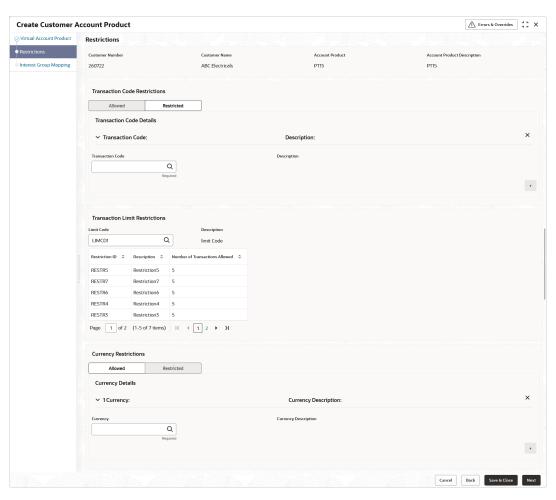

Figure 4-3 Create Customer Account Product - Restrictions

8. Specify the fields on Create Customer Account Product - Restrictions screen.

| Account Product Description | Displays the account product description specified in the Virtual Account Product screen. |
| Transaction Code Restrictions | Displays the following fields to maintain Transaction Code Restrictions. |

Table 4-3 (Cont.) Create Customer Account Product - Restrictions – Field Description

| Field | Description |
|--------------------------------|---|
| Allowed / Restricted | Select one of the options. This is used for allowing or not allowing transaction codes for virtual accounts opened under this product. |
| Transaction Code | Click Search to view and select the required transaction code. To create a new transaction code, refer to Transaction Code Maintenance in the Oracle Banking Common Core User Guide . |
| Description | Displays the description of the selected Transaction Code. |
| Transaction Limit Restrictions | Displays the following fields to attach the transaction limits to a customer account product. |
| Limit Code | Click Search icon to view and select the limit code. To define a new transaction limit rule, refer to the Transaction Limit Rule topic in the Configuration User Guide . To define a new transaction limit for a limit rule, refer to Transaction Limits topic in the Configuration User Guide . |
| | Note: If no limit code is attached to the product, this will signify no transaction limit restrictions applies for the specific product and the subsequent virtual accounts opened under that product. If a limit code mapping is modified, the changes will be effective from the modification date onwards. |
| | |
| Description | Displays the description of the selected limit code. |
| Restriction ID | Displays the restriction IDs maintained for the limit rule attached to the limit code. |
| Description | Displays the description of the respective Restriction ID. |
| Number of Transactions Allowed | Displays the number of transactions allowed for the respective Restriction ID(s). |
| Currency Restrictions | Displays the following fields to maintain Currency Restrictions. |
| Allowed / Restricted | Select one of the options. This is used for allowing or not allowing currencies for which the virtual accounts can be opened under this product. |
| Currency | Click Search to view and select the required currency. To define a new currency, refer to Currency Definition topic in the Common Core User Guide. |
| Currency Description | Displays the description of the selected Currency. |
| | |

9. Click + to add a row and provide the required details.

Note:

The number of transactions allowed under transaction limit restrictions cannot be modified at a product level. For any changes, a new limit code needs to be created with the required restrictions and attached to the product.

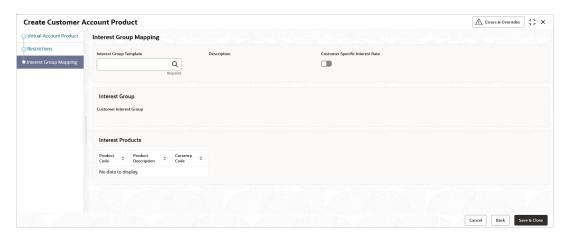

Interest Group Mapping

The Interest Group Mapping screen allows the user to map a Customer Virtual Account Product to an interest group. This screen displays only if the Interest Calculation is enabled in Virtual Account Product screen.

10. Enable the Interest Calculation and click Next.

The Create Customer Account Product - Interest Group Mapping screen displays.

Figure 4-4 Create Customer Account Product - Interest Group Mapping

 Specify the fields on Create Customer Account Product - Interest Group Mapping screen.

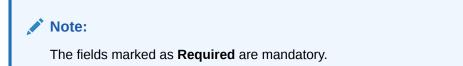

Table 4-4 Create Customer Account Product - Interest Group Mapping - Field Description

| Field | Description |
|-------------------------|---|
| Field | Description |
| Interest Group Template | Click Search icon to view and select the required interest group template. Displays the list of all the bank level Interest groups maintained in IC. |
| Description | Displays the description of the selected Interest Group Template. |
| Customer Specific Rate | Select the toggle to indicate whether a customer specific interest group needs to be maintained. By default, this is disabled. |

Table 4-4 (Cont.) Create Customer Account Product - Interest Group Mapping – Field Description

| Field | Description |
|-------------------------|--|
| Customer Interest Group | Displays the customer interest group. |
| | Note: If Corporate Specific Rate is selected, a new Customer Interest group is created and mapped to the Customer and Virtual Account product in IC else the Interest Group template selected is mapped. The Interest products is based on the Interest Group template selected. |
| Interest Products | Displays a list of interest product/s mapped to selected Interest |
| | Group Template. |
| Product Code | Displays the Interest Product Code. |
| Product Description | Displays the Interest Product Description. |
| Currency Code | Displays the currency of Interest Product. |

12. Click Save and Close to save the details.

The user can view the configured account product details in the View Customer Account Product.

13. Click **Cancel** to close the details without saving.

4.2 View Customer Account Product

This topic describes the systematic instructions to view the list of configured customer account products.

The user can configure an account product using the Create Customer Account Product.

Specify User ID and Password, and login to Home screen.

- 1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Customer.
- Under Customer, click Customer Account Product. Under Customer Account Product, click View Customer Account Product.

The View Customer Account Product screen displays.

Figure 4-5 View Customer Account Product

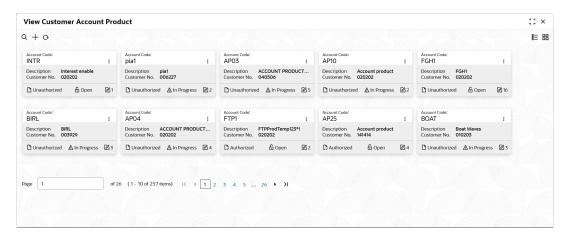

Table 4-5 View Customer Account Product – Field Description

| Field | Description |
|----------------------|---|
| Account Code | Displays the code of the account. |
| Description | Displays the additional information of the account. |
| Customer Number | Displays the customer number that is associated with the account code. |
| Authorization Status | Displays the authorization status of the record. The options are: |
| Record Status | Displays the status of the record. The options are: Open Closed |
| Modification Number | Displays the number of modification performed on the record. |

Virtual Entity

This topic provides the information about the Virtual Entity maintenance.

The **Virtual Entity** enables the user to create a virtual entity and use it to map the details with a virtual account. The user can create multiple virtual entities for a real customer.

This topic contains the following subtopics:

- Create Virtual Entity
 This topic describes the systematic instructions to configure the virtual entity and its preferences.
- View Virtual Entity
 This topic describes the systemetic instructions to view the list of virtual entity configured for a customer.

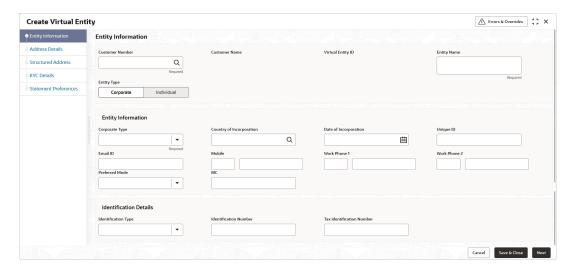

5.1 Create Virtual Entity

This topic describes the systematic instructions to configure the virtual entity and its preferences.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Customer.
- Under Customer, click Virtual Entity. Under Virtual Entity, click Create Virtual Entity.
 The Create Virtual Entity Entity Information screen displays.

Figure 5-1 Create Virtual Entity - Entity Information

3. Specify the fields on Create Virtual Entity - Entity Information screen.

The fields marked as **Required** are mandatory.

Table 5-1 Create Virtual Entity - Entity Information - Field Description

| Field | Description |
|------------------------|--|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Virtual Entity ID | This field is disabled. Once the record is saved, an Entity ID Generation screen appears, where you can provide the information. |
| Entity Name | Specify a name for the entity. |
| Entity Type | Select one of the following: Corporate: If selected, the record configured is for a corporate entity. Individual: If selected, the record configured is for an individual entity. |
| | Note: Depending on the Entity Type selected, the Entity Information appears with different fields. |
| | |
| Corporate Type | Select the corporate type. The available options are: |
| | Note: The drop down values can be updated at bank level as a part of Day 0 setup. This field appears only if the Entity Type is selected as Corporate. |

Table 5-1 (Cont.) Create Virtual Entity - Entity Information – Field Description

| Field | Description |
|--------------------------|---|
| Country of Incorporation | Click Search icon to view and select the required country for which you want to incorporate the virtual entity. Note: This field appears only if the Entity Type is selected as |
| | Corporate. |
| Date of Incorporation | Select a date of incorporation from the drop-down calendar. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |
| Unique ID | Specify an unique ID for the virtual entity. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |
| Email ID | Specify the customer Email ID. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |
| Mobile | Specify the customer contact number. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |

Table 5-1 (Cont.) Create Virtual Entity - Entity Information – Field Description

| Field | Description |
|----------------|--|
| Work Phone 1-2 | Specify the customer work contact number. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |
| Preferred Mode | Select one of the following: Mobile: If selected, mobile is the preferred mode to contact the customer. Email: If selected, Email is the preferred mode to contact the customer. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |
| BIC | Specify the business identifier code. |
| | Note: This field appears only if the Entity Type is selected as Corporate. |
| First Name | Specify the first name of an individual. |
| | Note: This field appears only if the Entity Type is selected as Individual. |
| Middle Name | Specify the middle/maiden name of an individual. |
| | Note: This field appears only if the Entity Type is selected as Individual. |

Table 5-1 (Cont.) Create Virtual Entity - Entity Information – Field Description

| Field | Description |
|---------------|--|
| Last Name | Specify the last name/surname of an individual. Note: This field appears only if the Entity Type is selected as Individual. |
| Date of Birth | Select a DOB of the individual from the drop-down calendar. Note: This field appears only if the Entity Type is selected as Individual. |
| Gender | Select a gender from the drop-down list. Note: This field appears only if the Entity Type is selected as Individual. |
| Nationality | Click Search icon to view and select the required nationality. Note: This field appears only if the Entity Type is selected as Individual . |
| National ID | Specify a national ID. Note: This field appears only if the Entity Type is selected as Individual. |

Table 5-2 Create Virtual Entity - Address Details - Field Description

| Field | Description |
|-------------------|---|
| Customer Number | Displays the customer number. |
| Customer Name | Displays the customer name. |
| Virtual Entity ID | Displays the Virtual Entity ID. |
| Entity Name | Displays the name of the entity. |
| Address Line 1 | Specify the address line 1 of the correspondence address. Note: This field is mandatory if Structured Address Applicable is not selected. |
| Address Line 2 | Specify the address line 2 of the correspondence address. |
| Address Line 3 | Specify the address line 3 of the correspondence address. |
| Address Line 4 | Specify the address line 4 of the correspondence address. |

Table 5-2 (Cont.) Create Virtual Entity - Address Details - Field Description

| Field | Description |
|----------------------------------|---|
| Country | Click Search icon to view and select the require country of the correspondence address. |
| | Note: This field is mandatory if Structured Address Applicable is not selected. |
| Zip Code | Specify the zip code details of the correspondence address. |
| Copy from Correspondence Address | Select the checkbox to copy the address from the correspondence address to registered address. |
| Address Line 1 | Specify the address line 1 of the registered address. Note: This field is mandatory if Structured Address Applicable is not selected. |
| Address Line 2 | Specify the address line 2 of the registered address. |
| Address Line 3 | Specify the address line 3 of the registered address. |
| Address Line 4 | Specify the address line 4 of the registered address. |
| Country | Click Search icon to view and select the require country of the registered address. Note: This field is mandatory if Structured Address Applicable is not selected. |
| Zip Code | Specify the zip code details of the registered address. |

Structured Address

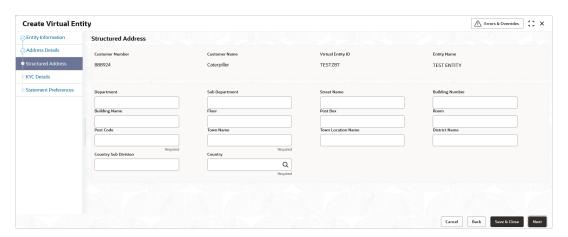

The **Structured Address** screen allows the user to capture the address details of a customer in a structured format.

If **Structured Address Applicable** is selected in **Create Bank Parameters** screen, then **Structured Address** is visible to provide the required information.

9. Click Next.

The Create Virtual Entity - Structured Address screen displays.

Figure 5-4 Create Virtual Entity - Structured Address

10. Specify the fields on **Create Virtual Entity - Structured Address** screen.

For more information on fields, refer to the field description table.

Table 5-3 Create Virtual Entity - Structured Address - Field Description

| Field | Description |
|----------------------|--|
| Department | Specify the department. |
| Sub Department | Specify the sub department. |
| Street Name | Specify the street name. |
| Building Number | Specify the building number. |
| Building Name | Specify the building name. |
| Floor | Specify the floor number. |
| Post Box | Specify the post box details |
| Room | Specify the room number. |
| Post Code | Specify the post code details. |
| Town Name | Specify the town name. |
| Town Location Name | Specify the location name of the town. |
| District Name | Specify the district name. |
| Country Sub Division | Specify the country sub division. |
| Country | Click Search to view and select the required country. |

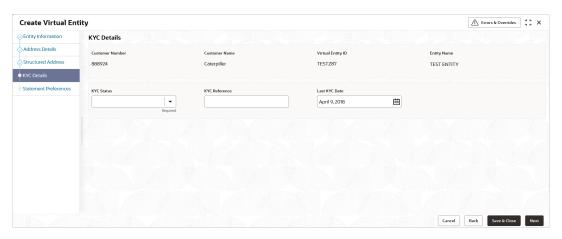

KYC Details

The KYC Details screen allows the user to capture the address details for a customer.

11. Click Next.

The Create Virtual Entity - KYC Details screen displays.

Figure 5-5 Create Virtual Entity - KYC Details

12. Specify the fields on Create Virtual Entity - KYC Details screen.

For more information on fields, refer to the field description table.

Table 5-4 Create Virtual Entity - KYC Details - Field Description

| Field | Description |
|---------------|--|
| KYC Status | Select a KYC status from the drop-down list. |
| KYC Reference | Specify a KYC reference number. |
| Last KYC Date | Select the last KYC performed from the drop-down calendar. |

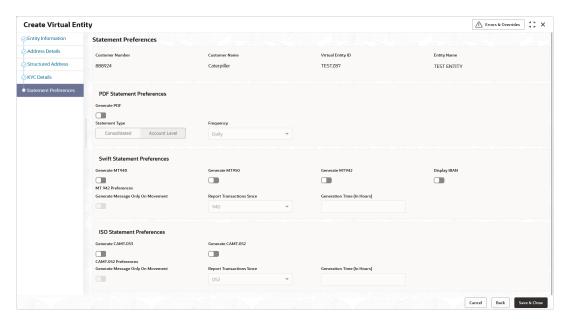

Statement Preferences

The **Statement Preferences** screen allows the user to configure the account statement preferences.

13. Click Next.

The Create Virtual Entity - Statement Preferences screen displays.

Figure 5-6 Create Virtual Entity - Statement Preferences

14. Specify the fields on Create Virtual Entity - Statement Preferences screen.

Note:
The fields marked as **Required** are mandatory.

Table 5-5 Create Virtual Entity - Statement Preferences – Field Description

| Field | Description |
|-------------------|---|
| Customer Number | Displays the customer number. |
| Customer Name | Displays the customer name. |
| Virtual Entity ID | Displays the virtual entity ID. |
| Entity Name | Displays the entity name. |
| Generate PDF | If selected, an account statement is generated in PDF format. |
| Statement Type | Select one of the options: Consolidated: If selected, a consolidated statement is generated. Account Level: If selected, an account level statement is generated. |
| Frequency | Select a frequency from the drop-down list. |

Table 5-5 (Cont.) Create Virtual Entity - Statement Preferences - Field Description

| Field | Description |
|--------------------------------------|---|
| Due On | Select the due date to generate the account statement from the drop-down list. The available options based on the frequency selected are: • Daily - This field is not applicable and will not appear for Daily frequency. • Weekly - Select the day when the account statement needs to be generated for the week. • Monthly - Select the day of the month when the account statement needs to be generated for the month. |
| | Example: If Due On is selected as "31", this will be considered as the last day of the month and the account statements will be generated on the last day for all the months. Quarterly - Select the end month of quarter when the account statement needs to be generated. Statement will always be generated on the last day of the month selected Example: If Due On is selected as "March (3)", the |
| | account statement will be generated on the last day of the month (31st March) for the period of 1st January to 31st March. Yearly - Select the month when the account statement needs to be generated for the year. Statement will always be generated on the last day of the month selected. |
| | PDF Account statements can be generated in customer's language. Based on the media and advice created, and report locale selected while creating the advice, report can be generated in that language. Language specific templates will need to be provided by the bank. |
| Gonorato MT040 | If colocted, the statement is generated in MT040 format |
| Generate MT940 Generate MT950 | If selected, the statement is generated in MT940 format. If selected, the statement is generated in MT950 format. |
| Generate MT942 | If selected, the intra-day account statement is generated in MT942 format. |
| Display IBAN | If selected, generated statement is reported with IBAN Account Number instead of Virtual Account Number. |
| | Note: System generates a statement automatically on the account closure day based on the statement preferences captured except the scheduled generation date. |
| Generate Message Only On Movement | By default, it is disabled. If enabled, system generates statement only if additional entries have been posted subsequent to the previous statement generation. |

Table 5-5 (Cont.) Create Virtual Entity - Statement Preferences - Field Description

| Field | Description |
|--|--|
| Report Transactions Since Generation Time (In | Select one of the required options from the drop-down list: 940: If selected, the current statement includes all of the transactions posted and authorized since the previous MT940 generation. 950: If selected, the current statement includes all of the transactions posted and authorized since the previous MT950 generation. 942: If selected, the current statement includes all of the transactions posted and authorized since the previous MT942 generation. Select a timing for MT942 generation from the multi-select drop-down |
| Hours) | list. |
| | Note: The system supports only hourly time intervals. The statement is generated based on the virtual account's branch timezone. |
| Generate CAMT.052 | If selected, the statement is generated in CAMT.053 format. |
| Generate CAMT.053 | If selected, the intra day account statement is generated in CAMT.052 format. |
| Generate Message Only On Movement | By default, it is disabled. If enabled, system generates statement only if additional entries have been posted subsequent to the previous statement generation. |
| Report Transactions Since | Select the one of the required options from the drop-down list: • 052: If selected, the current statement will include all the transactions posted and authorized since the previous CAMT.052 generation. • 053: If selected, the current statement will include all the transactions posted and authorized since the previous CAMT.053 generation. |
| Generation Time (In Hours) | Select a timing for CAMT.052 generation from the multi-select drop-down list. |
| | Note: The system supports only hourly time intervals. The statement is generated based on the virtual account's branch timezone. |

15. Click Save and Close to save the details.

The user can view the defined virtual entity in the View Virtual Entity.

16. Click **Cancel** to close the details without saving.

5.2 View Virtual Entity

This topic describes the systemetic instructions to view the list of virtual entity configured for a customer.

The user can capture the virtual entity details and its preferences using the Create Virtual Entity.

Specify **User ID** and **Password**, and login to **Home** screen.

- 1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Customer.
- Under Customer, click Virtual Entity. Under Virtual Entity, click View Virtual Entity.
 The View Virtual Entity screen displays.

Virtual Multi-Currency Account

This topic provides the information about the Virtual Multi-Currency Account maintenance.

The **Virtual Multi-Currency Account** enables the user to create a group of multiple accounts with different currencies for a customer. The user can manage account transactions with more than one currency for a customer.

This topic contains the following subtopics:

- Create Virtual Multi-Currency Account
 This topic describes the systematic instructions to configure a virtual multi-currency account.
- View Virtual Multi-Currency Account
 This topic describes the systemetic instructions to view the list of configured virtual multi-currency account.

6.1 Create Virtual Multi-Currency Account

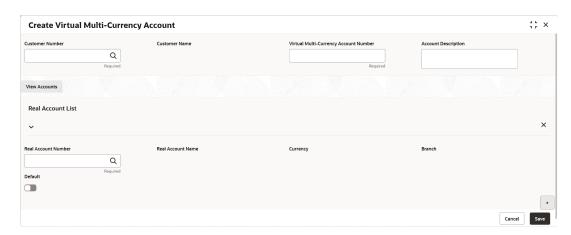

This topic describes the systematic instructions to configure a virtual multi-currency account.

Specify User ID and Password, and login to Home screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Virtual Multi-Currency Account. Under Virtual Multi-Currency Account, click Create Virtual Multi-Currency Account.

The Create Virtual Multi-Currency Account screen displays.

Figure 6-1 Create Virtual Multi-Currency Account

3. Specify the fields on Create Virtual Multi-Currency Account screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 6-1 Create Virtual Multi-Currency Account – Field Description

| Field | Description |
|--|--|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Virtual Multi-Currency Account Number | Specify a virtual multi-currency account number. |
| Account Description | Specify the additional information of the account. |
| View Account | Click View Account to view the list all real account that are associated with the customer number. |
| Real Account Number | Click Search icon to view and select the required action name. |
| Currency | Based on the Real Account Number selected, the information is auto-populated. |
| Branch | Based on the Real Account Number selected, the information is auto-populated. |
| Default | If selected, indicates that the selected account currency is the default currency, if the transaction currency is not configured for a customer. For example, If the virtual multi-currency account consists of USD, EURO, and Peso, the default account currency is configured as USD. Any transactions performed in INR on the virtual multi-currency account is performed in the USD (default) account. |

- 4. Click + to add a row and provide the required details.
- Click Save to save the details.

The user can view the configured virtual multi-currency account in the View Virtual Multi-Currency Account.

6. Click **Cancel** to close the details without saving.

6.2 View Virtual Multi-Currency Account

This topic describes the systemetic instructions to view the list of configured virtual multicurrency account.

The user can configure a virtual multi-currency account using the Create Virtual Multi-Currency Account.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Virtual Multi-Currency Account. Under Virtual Multi-Currency Account, click View Virtual Multi-Currency Account.

The View Virtual Multi-Currency Account screen displays.

| Modification Number | Displays the number of modification performed on the record. |

Account Closure

This topic provides the information about the Account Closure maintenance.

The **Account Closure** enables the user to initiate account closure for one or more virtual accounts for a customer.

This topic contains the following subtopics:

- Create Account Closure
 This topic describes the systematic instructions to to initiate an account closure request.
- View Account Closure
 This topic describes the systematic instructions to view the list of closure requests initiated.
- Account Closure Status
 This topic describes the systematic instructions to view the status of the closure request for a specific virtual account.

7.1 Create Account Closure

This topic describes the systematic instructions to to initiate an account closure request.

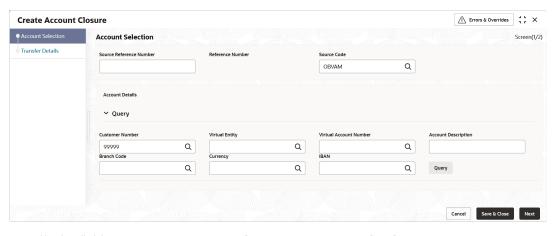

The user can initiate the account closure of one or more virtual accounts of a customer.

Specify User ID and Password, and login to Home screen.

- 1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Account Closure. Under Account Closure, click Create Account Closure.

The Create Account Closure - Account Selection screen displays.

Figure 7-1 Create Account Closure - Account Selection

3. Specify the fields on Create Account Closure - Account Selection screen.

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 7-1 Create Account Closure - Account Selection - Field Description

| Field | Description |
|-------------------------|---|
| Source Reference Number | Specify the source reference number. |
| Reference Number | System generates the reference number. |
| Source Code | Click Search icon to view and select the source code. |
| Customer Number | Click Search icon to view and select the customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Virtual Entity | Click Search icon to view and select the virtual entity. |
| Virtual Account Number | Click Search icon to view and select the virtual account number. |
| Account Description | Specify the account description. |
| Branch Code | Click Search icon to view and select the branch code. |
| Currency | Click Search icon to view and select the currency. |
| IBAN Account Number | Click Search to view and select the IBAN account number. |

- 4. Click **Query** to list the virtual accounts.
- 5. Click the collapsible button to view the details and mark the respective virtual account or accounts for closure.

The Create Account Closure - Query screen displays.

| Branch Code | Displays the branch code of the account. |
| Currency | Displays the account currency. |
| Currency Status | Displays the current account closure status. |
| Reference Number | Displays the reference number. |
| Process Status | Displays the process status. |

4. Click **View Errors** to view the error details of a marked stage.

The **Error** popup screen displays.

Figure 7-7 Error

Account Closure Status

The available account closure status are:

 In-Progress: The status of the closure request is marked as In-Progress until all the closure stages are successfully completed.

- **Completed**: On successful closure of the Virtual Account, the status of the closure request is marked as **Completed**.
- Aborted: The status of the closure request is marked as Aborted, whenever a user aborts
 a closure request before the account is closed. Click Abort to abort a closure request.
- Failed: The status of the closure request is marked as Failed if any of the closure stages
 fail. Click View Errors to view the failure reason. Click Retry to retry the closure request.
 The Retry process will start from the first closure stage (i.e. Account and Balances)
 irrespective of which stage the error has occurred.

Account Closure Stages

The account closure stages are as follows:

- Account and Balances: These are internal validations performed by the system.
- Open Contracts: These are external validations performed to validate, if any active Standing Orders, Future Value Dated Payments and Pending Payments are set on a virtual account in Oracle Banking Payments, and also the virtual account is an active liquidity account in Oracle Banking Liquidity Management.
- Interest Liquidation: Interest liquidation of the accrued Interest till date.
- Balance Transfer: Transfer of residual balance to a designated virtual account specified during account closure initiation.

Note:

Transaction postings on virtual accounts with zero net balance are not allowed while the account closure is pending/in-progress.

Transactions posting on virtual account (with an initial balance), after the balance transfer stage for which the closure request is in progress, will either be allowed or disallowed based on a parameter.

- **Delink From Structure**: Delinking of virtual accounts that are a part of structure and do not have any child accounts.
- Account Closure: Successful closure of virtual account.

Account Input

This topic provides the information about the Account Input maintenance.

The **Account Input** enables the user to create a virtual account for a customer.

This topic contains the following subtopics:

- Create Account Input
 This topic describes the systematic instructions to configure the virtual account details.
- View Account Input
 This topic describes the systematic instructions to view the list of configured virtual account.

8.1 Create Account Input

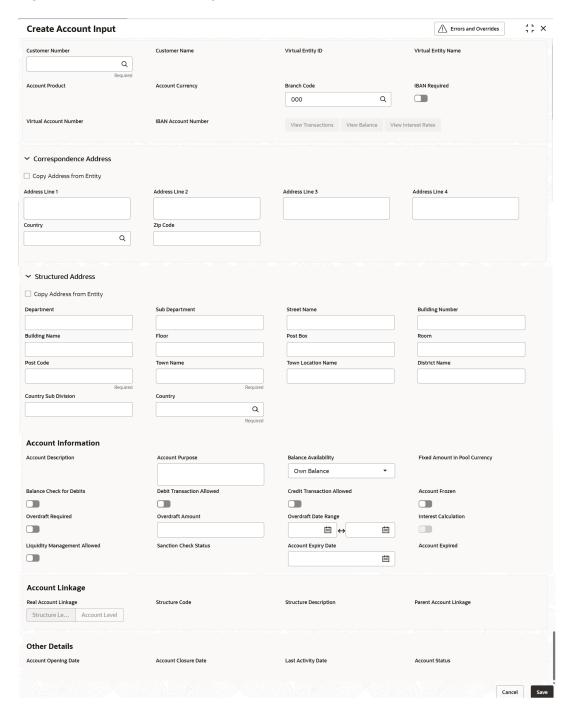

This topic describes the systematic instructions to configure the virtual account details.

Specify **User ID** and **Password**, and login to **Home** screen.

- 1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Account Input. Under Account Input, click Create Account Input.

The Create Account Input screen displays.

3. Specify the fields on Create Account Input screen.

Table 8-1 Create Account Input – Field Description

| Field | Description |
|--------------------------|--|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Virtual Entity ID | Click Search icon to view and select the required virtual entity ID. |
| Virtual Entity Name | Based on the Virtual Entity ID selected, the information is autopopulated. |
| Account Product | Click Search icon to view and select the required account product. |
| Account Currency | Click Search icon to view and select the required account currency. Displays the list of currencies based on the currency restrictions configured in Customer Account Product. |
| Branch Code | Click Search icon to view and select the required branch code. Displays the list of branches based on the Branch Restrictions configured in Create Account Facility for the customer. |
| IBAN Required | By default, this is disabled. If enabled, indicates that an IBAN must be generated. |
| Virtual Account Number | System generates the virtual account number based on account numbering mask and corporate specific range, if defined. If the External Account Number is selected in Branch Parameters configuration, the system suppresses internal account number generation logic and accepts externally generated account number for the specific branch. If Corporate Specific Range Required is opted and the autogeneration of account number is also enabled, the system automatically allocates the virtual account numbers from the corporate specified range defined. In this case, the next incremental virtual account number from the corporate specified range will be allocated. In case a corporate has been allocated with multiple ranges, then the new virtual account number is allocated from lowest number in the defined range or ranges. However, if all of the ranges are utilized for a corporate, the user needs to define a new corporate specific range for a given corporate. Until then, the user is not allowed to create a new virtual account for a given corporate. If Manual Account Number Generation is opted, the user has to manually provide account number from the corporate specific range defined. |
| IBAN Account Number | System generates the IBAN based on IBAN numbering mask. If the External IBAN is selected in Branch Parameters configuration, system suppresses internal IBAN generation logic and accepts externally generated IBAN for the specific branch. |
| Copy Address from Entity | Select the checkbox to copy the correspondence address captured at virtual entity level. However, you can also modify the address at the virtual account level. |
| Address Line 1 | Specify the address line 1 address details. Note: This field is mandatory if Structured Address Applicable is not selected. |

Table 8-1 (Cont.) Create Account Input – Field Description

| Field Address Line 2 Address Line 3 | Description Specify the address line 2 address details. |
|-------------------------------------|--|
| | Specify the address line 2 address details. |
| Address Line 3 | |
| | Specify the address line 3 address details. |
| Address Line 4 | Specify the address line 4 address details. |
| Country | Click Search icon to view and select the require country. |
| | Note: This field is mandatory if Structured Address Applicable is not selected. |
| Zip Code | Specify the zip code details of the address. |
| Structured Address | If Structured Address Applicable is selected in Create Bank Parameters , then the Structured Address is displayed to provide the required information. |
| Copy Address from Entity | Select the checkbox to copy the structured address captured at virtual entity level. However, you can also modify the address at the virtual account level. |
| Department | Specify the department. |
| Sub Department | Specify the sub department. |
| Street Name | Specify the street name. |
| Building Number | Specify the building number. |
| Building Name | Specify the building name. |
| Floor | Specify the floor number. |
| Post Box | Specify the post box details. |
| Room | Specify the room number. |
| Post Code | Specify the post code details. |
| Town Name | Specify the town name. |
| Town Location Name | Specify the location name of the town. |
| District Name | Specify the district name. |
| Country Sub Division | Specify the country sub division. |
| Country | Click Search icon to view and select the required country. This field is mandatory. |
| Account Description | This is auto-populated as virtual entity name. User can modify the auto-populated details. |
| Account Purpose | Specify the purpose of the virtual account. |
| Balance Availability | Select one of the following options: Own Balance: This is the available balance of the virtual account including child contributions and internal limits if available. Pool Balance: The entire pool balance is available for this accounts irrespective of its own balance. Own Balance and Fixed Amount from Pool: Sum of own balance as mentioned above and a fixed amount from the pool balance. If Own Balance and Fixed Amount from Pool is selected, the Fixed Amount in Pool Currency field is available to |

Table 8-1 (Cont.) Create Account Input – Field Description

| Field | Description |
|-------------------------------|--|
| Fixed Amount in Pool Currency | Specify the fixed amount in the pool currency. |
| Balance Check for Debits | This is defaulted from the account product used. The default value can be modified. |
| Debit Transaction Allowed | This is defaulted from the account product used. |
| | Note: This option can be disabled, but cannot enable it. |
| Credit Transaction Allowed | This is defaulted from the account product used. |
| | Note: This option can be disabled, but cannot enable it. |
| Account Frozen | By default, this is disabled. If selected, indicates if the account is frozen. |
| Overdraft Required | This is defaulted from the account product used. |
| | Note: This option can be disabled, but cannot enable it. |
| Overdraft Amount | Specify the fixed amount that can be overdrawn by the account. This is applicable if overdraft is allowed. |
| Interest Calculation | This is defaulted from the account product used. |
| | Note: This option can be disabled, but cannot enable it. |

Table 8-1 (Cont.) Create Account Input – Field Description

| Field | Description |
|---------------------------------|--|
| Liquidity Management Allowed | This is defaulted from the account product used. This option can be disabled but cannot enable. If enabled, the virtual accounts will be automatically created as Liquidity accounts in Oracle Banking Liquidity Management during Virtual Account creation. |
| | Note: Any maintenances on virtual accounts in Oracle® Banking Virtual Account Management or liquidity accounts in Oracle® Banking Liquidity Management Cloud Service will have independent life cycles in the respective systems. |
| Sanction Check Status | System displays the sanction check status for the virtual account. The available options are : Success Failed Pending Not Required |
| | During the virtual account creation or modification, the Sanction Check Status is marked as Pending by default, if the Sanction Check Required is selected while configuring the bank parameters. If the customer is exempted from the sanction check, the Sanction Check Status is marked as Not Required. However, the user can update the sanction check status from Update Sanction Status. |
| Account Expiry Date | Select a future date to indicate the expiry date of virtual account. On the expiry date, the account is marked as expired. Transactions are restricted on expired virtual accounts. |
| | Note: For an expired account, user needs to either manually close the account or reactivate the account by modifying the expiry date to a future date. |
| Account Expired | Displays the expiry status of virtual account. |
| Real Account Linkage | Select one of the options: Structure Level: If selected, indicates the virtual account is linked to a real account through a structure Account Level: If selected, indicates the virtual account is linked directly to a real account |
| Structure Code | Specify the structure code to link the virtual account to an existing structure of the customer. This field is displayed if Real Account Linkage is selected as Structure Level . Note: This is applicable only during create virtual account |
| | The second state of the se |

Table 8-1 (Cont.) Create Account Input – Field Description

| Field | Description |
|------------------------|---|
| Structure Description | Based on the Structure Code selected, the information is autopopulated. This field is displayed if Real Account Linkage is selected as Structure Level . |
| Parent Account Linkage | Select the required parent virtual account number from the drop- down list for linking the virtual account. The list of parent virtual accounts is based on the structure code selected. This field is displayed if Real Account Linkage is selected as Structure Level . |
| | Note: This is applicable only during create virtual account |
| Real Account Number | Click Search icon to view and select the required real account number, if real account linkage is at the account level. This field is displayed if Real Account Linkage is selected as Account Level . |
| Real Account Branch | Based on the Real Account Number selected, the information is auto-populated. This field is displayed if Real Account Linkage is selected as Account Level. |
| Real Account Currency | Based on the Real Account Number selected, the information is auto-populated. This field is displayed if Real Account Linkage is selected as Account Level. |
| Account Opening Date | Displays the account opening date for the virtual account. |
| Account Closure Date | Displays the account closure date for the virtual account. |
| Last Activity Date | Displays the last date on which a transaction was performed for the virtual account. |
| Account Status | This indicates the activity status of the virtual account and is determined based on the inactive days configured at the product level. |

Account Transactions Enquiry

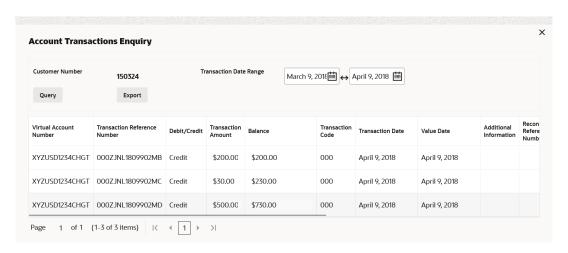

The **Account Transactions Enquiry** screen enables the user to view the virtual account transactions.

- 4. On **Create Account Input** screen, select an account for which the user want to view the account transactions. The respective screen opens with the account details.
- 5. Click View Transactions.

The **Account Transactions Enquiry** screen displays.

Figure 8-2 Account Transactions Enquiry

By default, the last one month transactions are auto-populated.

6. Select the **Transaction Date Range** and click **Query** to view the list of transactions.

Table 8-2 Account Transactions Enquiry – Field Description

| Field | Description |
|------------------------------------|--|
| Virtual Account Number | Displays the virtual account number. |
| Transaction Reference | · · |
| Number | Displays the transaction reference number. |
| Debit/Credit | Indicates whether it is debit/credit transaction. |
| Transaction Currency | Displays the transaction currency. |
| Transaction Amount | Displays the transaction amount. |
| Balance | Displays the account balance. |
| Transaction Code | Displays the transaction code. |
| Transaction Date | Displays the transaction date. |
| Value Date | Displays the value date. |
| Additional Information | Displays the additional information about the transaction. |
| Reconciliation Reference Number | Displays the reconciliation reference number. |

Account Structure

This topic provides the information about the Account Structure maintenance.

The **Account Structure** enables the user to configure an account structure for a real account that belongs to any customer.

This topic contains the following subtopics:

- Create Account Structure
 - This topic describes the systematic instructions to create or modify the account structure for a customer.
- View Account Structure

This topic describes the systematic instructions to view the list of the configured account structures.

9.1 Create Account Structure

This topic describes the systematic instructions to create or modify the account structure for a customer.

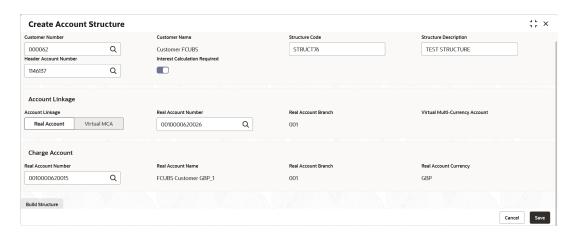

The user can configure charge funding account for structure level charges.

Specify User ID and Password, and login to Home screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Account Structure. Under Account Structure, click Create Account Structure.

The Create Account Structure screen displays.

Figure 9-1 Create Account Structure

3. Specify the fields on **Create Account Structure** screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 9-1 Create Account Structure – Field Description

| Field | Description |
|-----------------------------------|---|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Structure Code | Specify a code for the structure. A maximum length of eight alphanumeric characters are allowed. |
| Structure Description | Specify the additional information for the structure. |
| Header Account Number | Click Search icon to view and select the required header account number. This is the root node for the structure and is always a virtual account. |
| Interest Calculation Required | If enabled, indicates the interest calculation required at the account structure level. |
| Account Linkage | Select one of the options below: Real Account: If selected, the user can configure an account structure for a real account. The Real Account Number and the Real Account Branch are enabled to select the account. Virtual MCA: If selected, the user can configure an account structure for a virtual multi-currency account. The Virtual Multi-Currency Account is enabled to select the account. |
| Real Account Number | Click Search icon to view and select the required real account number. |
| Real Account Branch | Based on the Real Account Number selected, the information is auto-populated. |
| Virtual Multi-Currency Account | Click Search icon to view and select the required virtual multi- currency account. |
| Real Account Number | Click Search icon to view and select the required real account number. |
| Real Account Name | Based on the Real Account Number selected, the information is auto-populated. |
| Real Account Branch | Based on the Real Account Number selected, the information is auto-populated. |
| Real Account Currency | Based on the Real Account Number selected, the information is auto-populated. |

4. Click **Build Structure** to define the account structure using **Diagram View** or **Detail View**. The selected **Header Account Number** displays as the first node.

Figure 9-2 Create Account Structure - Header Account Number

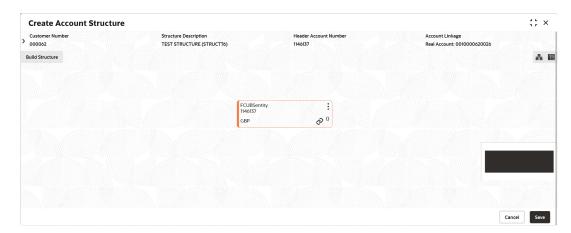

Diagram View

- **5.** For **Diagram View**, follow the below steps:
 - a. Click on the **Link** button to link the virtual accounts to the structure.

Figure 9-3 Create Account Structure - Diagram View - Link Account

b. Select the virtual account number from the list which needs to be linked and click Link.

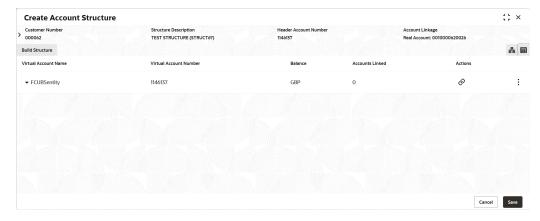

Figure 9-4 Create Account Structure - Diagram View

- The user can select a node, click on three dots symbol, and click on Account
 Details to view more details of the account.
- The user can select a node, click on three dots symbol, and click on **Undo Link** to remove the newly added linkage before submitting the request.

Detail View

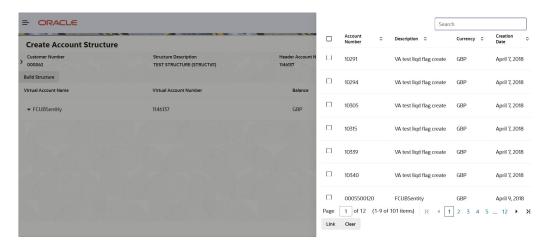

- **6.** For **Detail View**, follow the below steps:
 - a. Click **Detail View** to change the view and provide the details in a tabular format.

Figure 9-5 Create Account Structure - Detail View - Header Account Number

b. Click **Link** button to link the virtual accounts to the structure.

Figure 9-6 Create Account Structure - Detail View - Link Account

c. Select the virtual account number from the list which needs to be linked and click Link.

Figure 9-7 Create Account Structure - Detail View

- The user can select a node, click on three dots symbol, and click on Account
 Details to view more details of the account.
- The user can select a node, click on three dots symbol, and click on **Undo Link** to remove the newly added linkage before submitting the request.
- Click Export to download the account structure in .csv format.

The Account Structure displays in the **Diagram View** when all the available rows of the **Detail View** has relevant data.

8. Click **Save** to save the details.

The user can view the configured account structure details in the View Account Structure.

Once the Virtual Account Structure is closed and authorized, the linked virtual accounts will automatically be delinked and will be available to be linked to a new or existing Virtual Account Structure. A closed Virtual Account Structure cannot be re-opened.

9. Click **Cancel** to close the details without saving.

9.2 View Account Structure

This topic describes the systematic instructions to view the list of the configured account structures.

The user can configure an account structure using the Create Account Structure.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Account Structure. Under Account Structure, click View Account Structure.

The View Account Structure screen displays.

Account Transaction and Balance Limits

This topic provides the information about the Account Transaction and Balance Limits maintenance.

The **Account Transaction and Balance Limits** enables the user to configure the account level restrictions where the restriction values are different from the one maintained at the customer account product level. It allows user to maintain specific transaction amount restrictions at a specific account level for the account currency. If the transaction limit restrictions are maintained at both the product and account level, the account level restrictions will be considered.

This topic contains the following subtopics:

- Create Account Transaction and Balance Limits

 This topic describes the systematic instructions to configure the transaction amount limits at the account level for special cases where the account level transaction limits are different from that attached at an account product level.
- View Account Transaction and Balance Limits
 This topic describes the systematic instructions to view the list of configured account transaction limits.

10.1 Create Account Transaction and Balance Limits

This topic describes the systematic instructions to configure the transaction amount limits at the account level for special cases where the account level transaction limits are different from that attached at an account product level.

If the transaction limits are maintained for the specific virtual account, it will take precedence over the transaction limits maintained at an account product level.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Account Transaction Limits. Under Account Transaction Limits, click Create Account Transaction and Balance Limits.

The Create Account Transaction and Balance Limits screen displays.

Figure 10-1 Create Account Transaction and Balance Limits- Transaction Restrictions

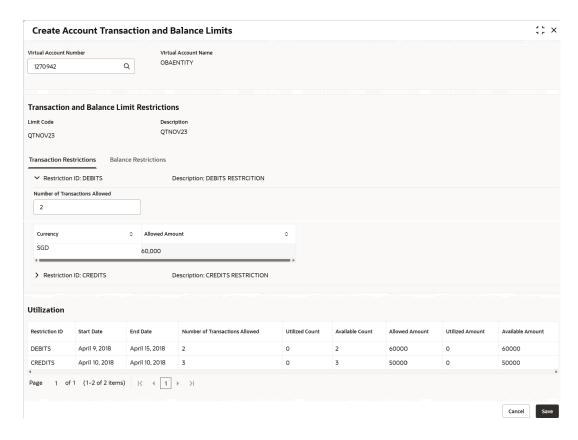

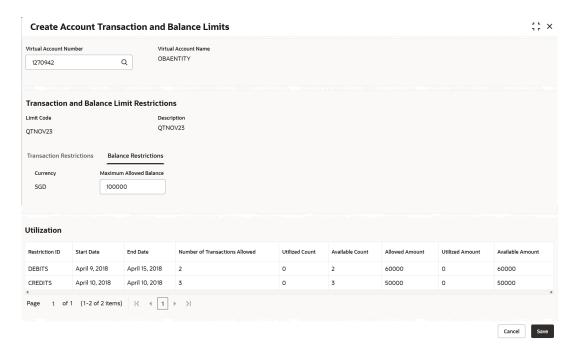

Figure 10-2 Create Account Transaction and Balance Limits - Balance Restrictions

3. Specify the fields on Create Account Transaction Limits screen.

Note:

The fields marked as **Required** are mandatory.

Table 10-1 Create Account Transaction and Balance Limits – Field Description

| Field | Description |
|----------------------------------|--|
| Virtual Account Number | Click Search icon to view and select the account number for which a specific transaction limit needs to be maintained. |
| Virtual Account Name | Displays the name of the selected Virtual account. |
| Transaction Limit Restrictions | Displays the following fields to attach the transaction limits for the selected virtual account. |
| Limit Code | Displays the limit code maintained at the product level for the selected Virtual Account. |
| Description | Displays the description of the selected limit code. |
| Transaction Restrictions | Displays the following fields, if Transaction Restrictions is selected. |
| Restriction ID | Displays the Restriction ID(s) maintained for the limit rule attached to the limit code. |
| Description | Displays the description of the specific Restriction ID. |
| Number of Transaction Allowed | Specify the number of transactions allowed for the specific Restriction ID(s). By default, the system displays the value maintained at the product level. |
| Currency | Displays the currency details |
| Allowed Amount | Displays the Amount allowed for the Specific restriction. |
| Balance Restrictions | Displays the following fields, if Balance Restrictions is selected. |
| Currency | Displays the currency details Note: This field will be displayed only Balance restrictions is selected |
| Allowed Amount | Displays the balance amount allowed for the restriction ID for the specific period based on customer account product or account level if maintained. Note: This field will be displayed only Balance restrictions is selected |
| Utilization | Displays the following fields to view the current transaction limit utilization for the Virtual Account. |
| Restriction ID | Displays the restriction ID(s) applicable for the virtual account. |
| Start Date | Displays the start date of the current restriction period. This is based on period configured for the respective restriction ID in the limit rule. |
| End Date | Displays the end date of the current restriction period. This is based on period configured for the respective restriction ID in the limit rule. |
| Number of Transaction Allowed | Displays the number of transactions allowed for the specific restriction ID and period. |
| Utilized Count | Displays the current utilization of transaction limit for the specific restriction ID and period. |
| Available Count | Displays the available transaction limit for the specific restriction ID and period. |
| Allowed Amount Count | Displays the amount allowed for the restriction ID for the specific period based on customer account product or account level if maintained. |

Table 10-1 (Cont.) Create Account Transaction and Balance Limits – Field Description

| Field | Description |
|-----------------------|---|
| Utilized Amount Count | Displays the current utilized of amount for the specific restriction ID and period. |
| Available Amount | Displays the available amount for the specific restriction ID and period. |

4. Click **Save** to save the details.

The user can view the configured account transaction limits in the View Account Transaction and Balance Limits.

Click Cancel to close the details without saving.

10.2 View Account Transaction and Balance Limits

This topic describes the systematic instructions to view the list of configured account transaction limits.

The user can configure the transaction and Balance limits at the account level using the Create Account Transaction and Balance Limits.

Specify User ID and Password, and login to Home screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Account Transaction Limits. Under Account Transaction Limits, click View Account Transaction and Balance Limits.

The View Account Transaction and Balance Limits screen displays.

Internal Credit Line

This topic provides the information about the Internal Credit Line maintenance.

The **Internal Credit Line** enables the user to configure internal credit line for a customer. The customer can offer the facility to its subsidiaries and the subsidiaries can use the credit line.

This topic contains the following subtopics:

- Create Internal Credit Line
 This topic describes the systematic instructions to configure internal credit line.
- View Internal Credit Line
 This topic describes the systematic instructions to view the list of configured internal credit line.

12.1 Create Internal Credit Line

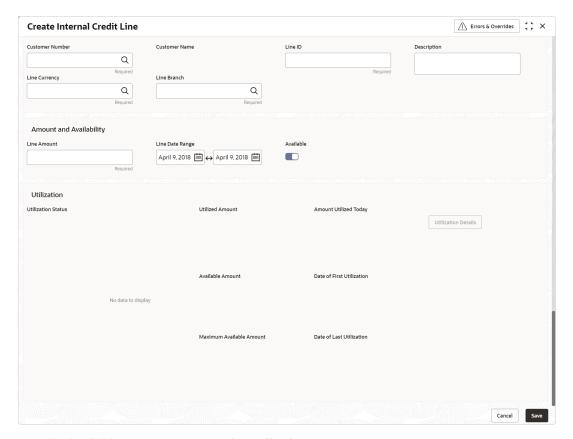

This topic describes the systematic instructions to configure internal credit line.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Internal Credit Line. Under Internal Credit Line, click Create Internal Credit Line.

The Create Internal Credit Line screen displays.

Figure 12-1 Create Internal Credit Line

3. Specify the fields on Create Internal Credit Line screen.

Table 12-1 Create Internal Credit Line - Field Description

| Field | Description |
|-----------------|---|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Line ID | Specify a line ID. |
| Description | Specify the additional information about the line ID. |
| Line Currency | Click Search icon to view and select the required line currency. |
| Line Amount | Specify the internal credit line amount. |
| Line Start Date | Specify a start date for the line amount from the drop-down calendar. |
| Line End Date | Specify an end date for the line amount from the drop-down calendar. |
| Available | By default, this option is selected. If selected, indicates that the line amount is valid for the selected period. |

Table 12-1 (Cont.) Create Internal Credit Line - Field Description

| Field | Description |
|-----------------------------|--|

| Amount Utilized Today | Displays the amount that is utilized today. |
| Available Amount | Displays the amount that is available. |
| Date of First Utilization | Displays the date from when the amount is utilized. |
| Maximum Available Amount | Displays the maximum amount that is available. |
| Date of Last Utilization | Displays the date until when the amount is utilized. |

- 4. Click Utilization Details to view all the utilization details of the internal credit line.
- Click Save to save the details.

The user can view the configured internal credit line in the View Internal Credit Line.

Click Cancel to close the details without saving.

12.2 View Internal Credit Line

This topic describes the systematic instructions to view the list of configured internal credit line.

The user can configure an internal credit line using the Create Internal Credit Line.

Specify **User ID** and **Password**, and login to **Home** screen.

- 1. On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Internal Credit Line. Under Internal Credit Line, click View Internal Credit Line.

The View Internal Credit Line screen displays.

Figure 12-2 View Internal Credit Line

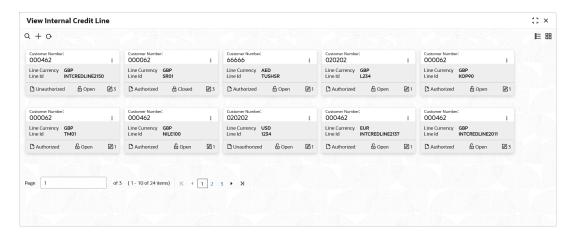

Table 12-2 View Internal Credit Line – Field Description

| Field | Description |
|----------------------|---|
| Customer Number | Displays the customer number details. |
| Line Currency | Displays the line currency details. |
| Line ID | Displays the line ID details. |
| Authorization Status | Displays the authorization status of the record. The options are: |
| Record Status | Displays the status of the record. The options are: Open Closed |
| Modification Number | Displays the number of modification performed on the record. |

Line Account Linkage

This topic provides the information about the Line Account Linkage maintenance.

The **Line Account Linkage** enables the user to configure the credit line of a customer to a virtual account for that customer. The virtual account that is linked must be either individual accounts or header accounts from account structure.

This topic contains the following subtopics:

- Create Line Account Linkage
 This topic describes the systematic instructions to configure line account linkage.
- View Line Account Linkage
 This topic describes the systematic instructions to view the list of configured line account linkage.

13.1 Create Line Account Linkage

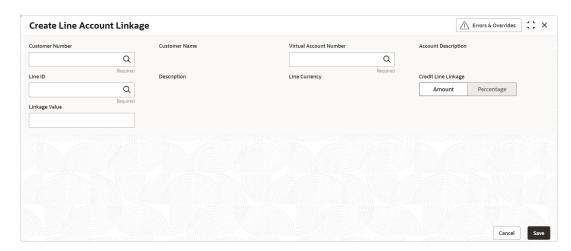

This topic describes the systematic instructions to configure line account linkage.

Specify User ID and Password, and login to Home screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Line Account Linkage. Under Line Account Linkage, click Create Line Account Linkage.

The Create Line Account Linkage screen displays.

Figure 13-1 Create Line Account Linkage

3. Specify the fields on Create Line Account Linkage screen.

Note:

The fields marked as **Required** are mandatory.

For more information on fields, refer to the field description table.

Table 13-1 Create Line Account Linkage – Field Description

| Field | Description |
|------------------------|---|
| Customer Number | Click Search icon to view and select the required customer number. |
| Customer Name | Based on the Customer Number selected, the information is autopopulated. |
| Virtual Account Number | Click Search icon to view and select the required virtual account number. |
| Account Description | Specify additional information about the line account linkage. |
| Line ID | Specify a line ID. |
| Description | Specify additional information about the line ID. |
| Line Currency | Click Search icon to view and select the required line currency. |
| Credit Line Linkage | Select one of the following: • Amount: If selected, displays the credit line in amounts. • Percentage: If selected, displays the credit line in percentage. |
| Linkage Value | Specify a linkage value. |

4. Click **Save** to save the details.

The user can view the configured line account linkage in the View Line Account Linkage.

Click Cancel to close the details without saving.

13.2 View Line Account Linkage

This topic describes the systematic instructions to view the list of configured line account linkage.

The user can configure the line account linkage using the Create Line Account Linkage.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Line Account Linkage. Under Line Account Linkage, click View Line Account Linkage.

The View Line Account Linkage screen displays.

Figure 13-2 View Line Account Linkage

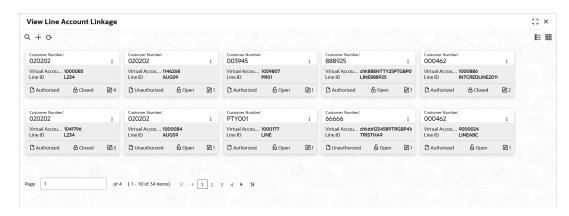

Table 13-2 View Line Account Linkage – Field Description

| Field | Description |
|------------------------|---|
| Customer Number | Displays the customer number. |
| Virtual Account Number | Displays the virtual account number details. |
| Line ID | Displays the line ID details. |
| Authorization Status | Displays the authorization status of the record. The options are: |
| Record Status | Displays the status of the record. The options are: Open Closed |
| Modification Number | Displays the number of modification performed on the record. |

Sanction Status

This topic provides the information about the Sanction Status maintenance.

The **Sanction Status** enables the user to update and view the sanction status of the virtual accounts.

This topic contains the following subtopics:

- Update Sanction Status
 - This topic describes the systematic instructions to update the sanction status for a virtual account.
- View Sanction Status

This topic describes the systematic instructions to view the list of virtual accounts with sanction status.

14.1 Update Sanction Status

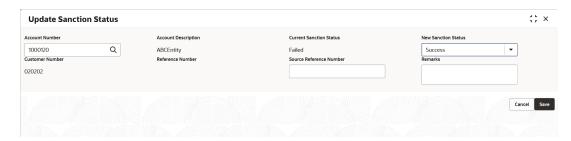

This topic describes the systematic instructions to update the sanction status for a virtual account.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- Under Accounts, click Sanction Status. Under Sanction Status, click Update Sanction Status.

The **Update Sanction Status** screen displays.

Figure 14-1 Update Sanction Status

Specify the fields on Update Sanction Status screen.

Table 14-1 Update Sanction Status - Field Description

| Field | Description | |
|--------------------------------|---|--|
| Account Number | Click Search icon to view and select the required account number. | |
| Account Description | Displays additional information about the account. | |
| Current Sanction Status | Displays the current sanction status. | |
| New Sanction Status | Select the new sanction status from the drop-down list. The available options are as following: | |
| | SuccessFailedPendingNot Required | |
| Customer ID | Displays the current customer ID. | |
| Reference Number | Displays the reference number. | |
| Source Reference Number | Specify the source reference number. | |
| Remarks | Specify the remarks, if any. | |

4. Click **Save** to save the details.

The user can view the sanction status in the View Sanction Status.

14.2 View Sanction Status

This topic describes the systematic instructions to view the list of virtual accounts with sanction status.

The user can update the sanction status using the Update Sanction Status.

Specify **User ID** and **Password**, and login to **Home** screen.

- On Home screen, click Virtual Account Management. Under Virtual Account Management, click Accounts.
- 2. Under Accounts, click Sanction Status. Under Sanction Status, click View Sanction Status.

The View Sanction Status screen displays.

| Account Input Account Structure | VAM-BAL-007 | Successfully updated data into Value Dated table for \$1 |
| Account Input Account Structure | VAM-BAL-008 | Successfully inserted data into Account Transaction table for \$1 |
| Account Input Account Structure | VAM-BAL-009 | Failed to build URL to call Turn over balance |
| Account Input Account Structure | VAM-BAL-010 | No records sent to post turn over balance |
| Account Input Account Structure | VAM-BAL-011 | No response has come after call to turn over balance |
| Account Input Account Structure | VAM-BAL-012 | Successfully updated turn over balance |
| Account Input Account Structure | VAM-BAL-013 | Failed to insert turn over balance for virtual account \$1 |
| Account Input Account Structure | VAM-BAL-014 | Successfully retrieved |
| Account Input Account Structure | VAM-BAL-015 | Failed while fetching the records for the given combination, please check the logs for further details |
| Account Input Account Structure | VAM-BAL-016 | It is mandatory to pass either the virtual account number or the value date to fetch records |
| Account Input Account Structure | VAM-BAL-017 | Virtual Account number, from date and to date, all three are mandatory fields |
| Account Input Account Structure | VAM-BAL-018 | From date cannot be greater than to date |
| Account Input Account Structure | VAM-BAL-020 | Failed to acquire balances of participating account(s) |
| Account Input Account Structure | VAM-BAL-021 | Virtual Account \$1 and currency \$2 combination is Invalid |
| Account Input Account Structure | VAM-BAL-022 | Failed to acquire account details of participating account(s) |
| Account Input Account Structure | VAM-BAL-023 | Failed to merge Account Balance details for Tanked Batch |
| Account Input Account Structure | VAM-BAL-024 | Successfully merged account details for Untanking batch |

Table A-1 (Cont.) Error Codes and Messages

| Screen Name | Error Code | Error Message |
|---------------------------------|-------------|--|
| Account Input Account Structure | VAM-BAL-025 | Failed to retrieve current balance |
| Account Closure | VAM-CLS-001 | Inserted entry into Virtual Account Closure Request Status Successfully |
| Account Closure | VAM-CLS-002 | Updated Virtual Account Closure Request Status Successfully |
| Account Closure | VAM-CLS-003 | Virtual account closure request initiated successfully |
| Account Closure | VAM-CLS-004 | Failed when pushing into Virtual Account Closure Request Status queue |
| Account Closure | VAM-CLS-005 | Retry request for Virtual Account Closure submitted successfully |
| Account Closure | VAM-CLS-006 | Virtual account closure aborted successfully |
| Account Closure | VAM-CLS-007 | Cannot abort virtual account closure as it is already aborted |
| Account Closure | VAM-CLS-008 | Cannot retry virtual account closure that is already aborted |
| Account Closure | VAM-CLS-009 | Virtual account closure request already exists for the given source system and source reference number |
| Account Closure | VAM-CLS-010 | At least one virtual account closure request is mandatory |
| Account Closure | VAM-CLS-011 | Transfer out virtual account is mandatory when outstanding balance is greater than zero |
| Account Closure | VAM-CLS-012 | Transfer in virtual account is mandatory when outstanding balance is less than zero |
| Account Closure | VAM-CLS-013 | Virtual account and transfer in/out virtual account must be in same currency |
| Account Closure | VAM-CLS-014 | Virtual account and transfer in virtual account must be in same currency |
| Account Closure | VAM-CLS-015 | Virtual account and transfer in/out virtual account should belong to same Real account |
| Account Closure | VAM-CLS-016 | Transfer out virtual account \$1 is not valid as account closure request is initiated for the same |
| Account Closure | VAM-CLS-017 | Closure request already initiated for virtual account \$1 |
| Account Closure | VAM-CLS-018 | Transfer in virtual account \$1 is not valid as account closure request is initiated for the same |
| Account Closure | VAM-CLS-019 | Multiple account closure requests found for virtual account \$1 |
| Account Closure | VAM-CLS-020 | Virtual account \$1 for which closure is requested cannot be given as Transfer In Account |
| Account Closure | VAM-CLS-021 | Virtual account \$1 for which closure is requested cannot be given as Transfer Out Account |
| Account Closure | VAM-CLS-022 | Closure request for virtual account \$1 is not allowed as it has non zero outstanding balance |
| Account Closure | VAM-CLS-023 | Transfer virtual account \$1 is not linked to any real account |

Table A-1 (Cont.) Error Codes and Messages

| Screen Name | Error Code | Error Message |
|-----------------|--------------|--|
| Account Closure | VAM-CLS-025 | Closure request for virtual account \$1 not allowed as it is maintained as transfer account in another account closure request |
| Account Closure | VAM-CLS-026 | Virtual account closure request authorization failed |
| Account Closure | VAM-CLS-027 | Virtual account closure request authorized successfully |
| Account Closure | VAM-CLS-028 | Virtual account closure request deleted successfully |
| Account Closure | VAM-CLS-029 | Deletion of virtual account closure request failed |
| Account Closure | VAM-CLS-030 | Maker and Checker cannot be same |
| Account Closure | VAM-CLS-031 | Virtual account closure request saved successfully |
| Account Closure | VAM-CLS-032 | Only Maker can delete the record |
| Account Closure | VAM-CLS-033 | Authorized record cannot be deleted |
| Account Closure | VAM-CLS-034 | Virtual account closure request is already authorized |
| Account Closure | VAM-CLS-037 | Failed to abort conductor workflow |
| Account Closure | VAM-CLS-038 | Failed to start conductor workflow |
| Account Closure | VAM-CLS-039 | Cannot retry virtual account closure request that is in progress |
| Account Closure | VAM-CLS-040 | Cannot retry Account closure in Pending state |
| Account Closure | VAM-CLS-042 | Virtual Account Closure saved and authorized successfully |
| Account Closure | VAM-CLS-043 | Closure Request already exists for the Virtual Account \$1 |
| Account Closure | VAM-CLS-044 | Failed while generating Request Ref No |
| Account Closure | VAM-CLS-045 | Virtual Account Closure Request Failed |
| Account Closure | VAM-CLS-046 | No Closure request found to Delete |
| Account Closure | VAM-CLS-047 | No Closure request found to Authorize |
| Account Closure | VAM-CLS-048 | Virtual Account No \$1 is part of an Unauthorized Account Structure |
| Account Closure | VAM-CLS-049 | Virtual Account \$1 is an active liquidity account |
| Account Input | VAM-EXT-001 | External system could not generated the Virtual Account Number. |
| Account Input | VAM-EXT-002 | External system could not generated the IBAN Number. |
| Account Input | VAM-EXT-003 | Externally Generation Virtual Account Number validation Failed : Account \$1 Already Exists |
| Account Input | VAM-EXT-004 | Externally Generation IBAN number validation Failed : IBAN number \$1 Already Exists |

| Sanction Status | VAM-SANC-008 | Record Successfully Deleted | |
| Sanction Status | VAM-SANC-009 | Transaction not allowed for virtual account/s with posting restrictions for specific status | |
| Account Input | VAM-STR-032 | mandatory fields are missing for structured address. Town Name, Post Code and Country are mandatory to proceed. | |
| Account Input | VAM-STR-033 | Structured address is disabled at bank level | |
| Account Input | VAM-STR-035 | structured address is missing | |
| Account Structure | VAM-STR-AUTH01 | Event request logged for handing off account map details to \$ system | |
| Account Structure | VAM-STR-AUTH02 | Failed to process handing off account map details to \$ system | |
| Account Structure | VAM-STR-AUTH03 | Failed to process authorization of account map | |
| Corporate Specific Account Number Range | VAM-RNG-000 | Account Range provided has already been defined for another Real Customer in the same Branch | |
| Corporate Specific Account Number Range | VAM-RNG-001 | Record cannot be closed as there are active Accounts for the Real Customer and Branch combination | |
| Corporate Specific Account Number Range | VAM-RNG-002 | At least one Account Number Range must be maintained | |
| Corporate Specific Account Number Range | VAM-RNG-003 | Account Range provided doesn't lie within the Account Number Range provided at Branch level | |
| Corporate Specific Account Number Range | VAM-RNG-004 | Account Range cannot be modified | |
| Corporate Specific Account Number Range | VAM-RNG-005 | Account Range cannot be deleted | |
| Corporate Specific Account Number Range | VAM-RNG-006 | Duplicate entry of \$1 Account Range exists in the record | |
| Adhoc Interest Liquidation | EIE-INT-001 | Interest is not enabled for this Virtual Account | |
| Adhoc Interest Liquidation | EIE-INT-002 | Interest retrieved successfully | |
| Adhoc Interest Liquidation | EIE-INT-003 | Unable to fetch accrued interest | |
| Adhoc Interest Liquidation | EIE-INT-004 | Unable to fetch Virtual Account details | |
| Adhoc Interest Liquidation | EIE-LIQ-002 | Virtual account Interest Liquidation request initiated successfully. | |
| Adhoc Interest Liquidation | EIE-LIQ-003 | Maker and Checker cannot be same. | |
| Adhoc Interest Liquidation | EIE-LIQ-004 | Record already authorized. | |
| Adhoc Interest Liquidation | EIE-LIQ-005 | Virtual account interest Liquidation request authorized successfully. | |
| Adhoc Interest Liquidation | EIE-LIQ-006 | Authorization of Interest Liquidation Failed | |
| Adhoc Interest Liquidation | EIE-LIQ-007 | Failed while liquidating interest in IC | |
| Adhoc Interest Liquidation | EIE-LIQ-008 | Interest Liquidation Record Deleted successfully | |

Table A-1 (Cont.) Error Codes and Messages

| Screen Name | Error Code | Error Message | |
|----------------------------|-------------|---|--|
| Adhoc Interest Liquidation | EIE-LIQ-009 | Failed when liquidating the interest. | |
| Adhoc Interest Liquidation | EIE-LIQ-010 | Interest Liquidation not allowed for this Virtual account. | |
| Adhoc Interest Liquidation | EIE-LIQ-011 | Virtual account is not Valid. | |
| Adhoc Interest Liquidation | EIE-LIQ-012 | Virtual account Interest Liquidated successfully. | |
| Adhoc Interest Liquidation | EIE-LIQ-013 | Accrued Interest must not be zero | |
| Line Account Linkage | VAM-LAL-001 | Successfully created entry in account line utilization | |
| Line Account Linkage | VAM-LAL-002 | Line id -customer configuration does not exists | |
| Line Account Linkage | VAM-LAL-003 | Virtual Account-Real customer combination does not exists | |
| Line Account Linkage | VAM-LAL-004 | An Account can be linked to only one Line | |
| Line Account Linkage | VAM-LAL-006 | The virtual account selected for line linkage should be either a header account of a Structure or directly linked to Real Account | |
| Line Account Linkage | VAM-LAL-009 | For linkage as Percent, the linkage value should be within 1 to 100 | |
| Line Account Linkage | VAM-LAL-012 | Balance Availability of virtual account is not Own Balance and hence cannot be linked to a Line | |
| Line Account Linkage | VAM-LAL-014 | Credit Line Account Linkage cannot be closed: utilization is greater than zero | |
| Line Account Linkage | VAM-LAL-020 | Linkage entry doesn't exist | |
| Internal Credit Line | VAM-LINE-04 | Successfully utilized Line | |
| Internal Credit Line | VAM-LINE-06 | Internal credit is linked to a VA. Cannot Close the Record | |
| Internal Credit Line | VAM-LINE-07 | Real Customer No is Invalid | |
| Internal Credit Line | VAM-LINE-08 | Currency is Invalid | |
| Customer Account Product | VAM-COD-111 | The Limit Code cannot be changed as Account Level Restriction exists for Virtual Accounts using this Account Product. | |
| Customer Account Product | VAM-COD-112 | Limit Code is invalid | |
| Account Transaction Limit | VAM-ATR-01 | Please provide mandatory values for Virtual Account, Limit Code, Restriction Details | |
| Account Transaction Limit | VAM-ATR-02 | Invalid virtual account number | |
| Account Transaction Limit | VAM-ATR-03 | Limit Code provided doesn't match with the value maintained at Account Product | |
| Account Transaction Limit | VAM-ATR-04 | Key fields should not be modified | |
| Account Transaction Limit | VAM-ATR-05 | Invalid Limit code | |
| Account Transaction Limit | VAM-ATR-06 | Restrictions provided doesn't match with those maintained at Limit Code | |
| Account Transaction Limit | VAM-ATR-07 | Count should be greater than 0 | |
| Account Transaction Limit | VAM-ATR-08 | Count should be greater than utilized count | |

B

Functional Activity Codes

Table B-1 List of Functional Activity Codes

| Screen Name/API Name | Functional Activity Code | Action | Description |
|----------------------------|--|---------------|--|

C

Annexure - Events

This topic contains the events and its purpose.

Table C-1 List of Events

| Events | Purpose |
|--------------------------------------|--|
| vac.accountfacilitynotification | Event is generated when a Virtual Account Facility is Created/ Modified/ Closed |
| vae.virtualentitynotification | Event is generated when a Virtual Entity is Created/ Modified/ Closed/Re-Opened |
| vam.virtualaccountnotification | Event is generated when a Virtual Account is Created/ Modified/ Closed/Re-Opened |
| vam.accountstructurenotificati on | Event is generated when a Virtual Account Structure is Created/ Modified/Closed/Re-Opened |
| vam.sanctioncheckupdatenoti fication | Event is generated when an Account Sanction Status is updated |
| vam.accountbalancenotificati on | Event is generated to provide the Account balance notification to reporting service. |
| vas.genericdashboardeventre quest | Event is generated for unauthorised transaction count. |
| vam.sanctioncheckupdatenoti fication | Event is generated when an Account Sanction Status is updated. |
| vamlm.branchchargeeventreq uest | Event raised to push branch level currency conversion configuration for Charges. |
| vamlm.structurechargesnotific ation | Event raised to push Charge Preferences at Structure level. |
| vamlm.chargebasisnotificatio n | Event raised to update the action and count related to account Creation/Closure/Reopen Transaction create/reverse sweep transaction in Oracle Banking Liquidity Management |
| vac.ccyaccgroupnotification | Event populates data in projection service for Virtual Multi- Currency Account Group |
| vamlm.pricingmapnotification | Event raised to push Charge Preferences at Customer level |
| vae.statementpreferencenotifi cation | Event is generated whenever the statement generation preference changes. |
