Purpose

This guide provides step-by-step instructions to onboard a corporate customer using Oracle Banking Enterprise Party Management.

Audience

This guide is intended for the bankers who are responsible for onboarding corporate customers into the bank.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at http://www.oracle.com/pls/topic/lookup?ctx=acc&id=docacc.

Access to Oracle Support

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=info or visit http://www.oracle.com/pls/topic/lookup?ctx=acc&id=trs if you are hearing impaired.

Critical Patches

Oracle advises customers to get all their security vulnerability information from the Oracle Critical Patch Update Advisory, which is available at Critical Patches, Security Alerts and Bulletins. All critical patches should be applied in a timely manner to make sure effective security, as strongly recommended by Oracle Software Security Assurance.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve. Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
italic	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
monospace	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Related Resources

For more information, see these Oracle resources:

Screenshot Disclaimer

Personal information used in the interface or documents is dummy and does not exist in the real world. It is only for reference purposes.

Acronyms and Abbreviations

The following acronyms and abbreviations are used in this guide:

Table Acronyms and Abbreviations

Acronym/ Abbreviation	Description
CIF	Customer Information File
кус	Know Your Customer
SME	Small and Medium Enterprise

Basic Actions

Most of the screens contain icons to perform all or a few of the basic actions. The actions which are called here are generic, and it varies based on the usage and the applicability. The table below gives a snapshot of them:

Table Common Icons and its Definitions

Icon	Operation
Submit	Click Submit to default the checklists applicable for the stage based on the application category. On verifying all the checklists and on the selection of the outcome, the task will be submitted.
Post	Click Post to post the comments below the Comments text box.
Cancel	Once you click Cancel , the system will ask for confirmation, and on confirming, the task will be closed without saving the data.
Hold	Click Hold to save the captured details and suspend the task status. The suspended task will be available in the Hold queue. This option is used if there is any pending information to be captured. If mandatory fields have not been captured, the system will display an error until the mandatory fields have been captured.
Next	Click Next to save the captured details and then the system will move to the next screen. If mandatory fields have not been captured, the system will display an error until the mandatory fields have been captured. If mandatory fields have not been captured, the system will display an error until the mandatory fields have been captured.
Back	Click Back to save the captured details and move to the previous screen.
Save and Close	Click Save and Close to save the captured details. If mandatory fields have not been captured, the system will display an error until the mandatory fields are captured.

Corporate Customer Onboarding

This topic describes the information on the various activities performed for the Corporate Customer Onboarding process.

Overview

This topic describes the information about the Corporate Customer Onboarding.

Prerequisites

Onboarding Initiation

This topic describes the systematic instructions to capture the basic demographic information about the corporate customer to be onboarded using Oracle Banking Enterprise Party Management.

KYC Details

This topic describes the systematic instructions to capture KYC details about the corporate customers to be onboarded using Oracle Banking Enterprise Party Management.

Onboarding Enrichment

This topic describes the systematic instruction to capture detailed information about the corporate customer to be added in Oracle Banking Enterprise Party Management.

Review

This topic describes the systematic information to enable the final reviewers to review the customer details and moves the task to the *Approval* stage if the details are appropriate.

Recommendation

This topic describes the systematic instruction to enable the recommending user to review the progress did so far and provides recommendations for each of the data segments with a the decision as approve/reject

Approval

This topic describes the systematic instruction to enable the approver to review the activity done across all the stages and provides final signoff to approve the customer onboarding.

Amendment

This topic describes the systematic instruction to enable the Relationship Manager to amend the information or can add additional information about a corporate customer using Oracle Banking Enterprise Party Management.

1.1 Overview

This topic describes the information about the Corporate Customer Onboarding.

Corporate Customer Onboarding is an umbrella term that is often used to describe the entire process that users go through when they start their journey as a customer of a banking product or service. Onboarding is an ongoing process, which helps banks to create a relationship with customers. In a bank, there would be a Relationship Manager (RM) for every corporate customer. The respective RM would take care of the customer to successfully onboard into the bank.

The various activities performed for the Corporate Customer Onboarding process are:

Initiation

- KYC
- Enrichment
- Review
- Recommendation
- Approval

Process Flow Diagram

The flow diagram illustrating the different stages in the corporate customer onboarding process is shown below for reference:

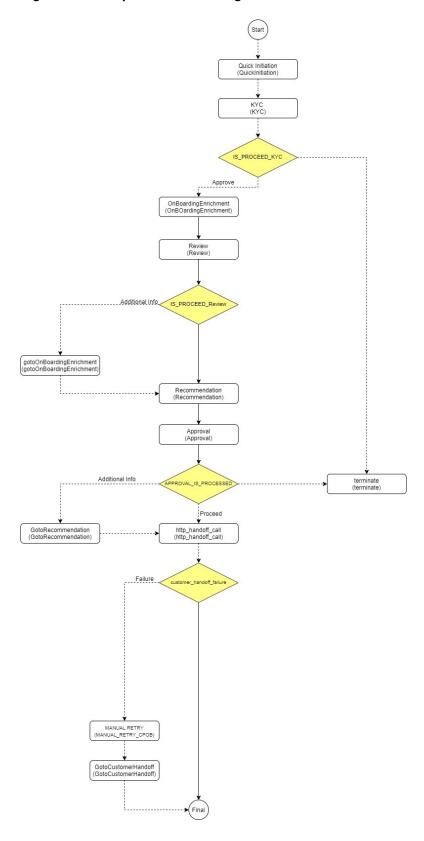

Figure 1-1 Corporate Onboarding Process Flow

1.2 Prerequisites

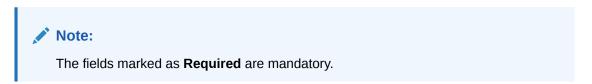

Before you begin, log in to the application Home page. For information on how to log in, refer to the *Getting Started User Guide*.

1.3 Onboarding Initiation

This topic describes the systematic instructions to capture the basic demographic information about the corporate customer to be onboarded using Oracle Banking Enterprise Party Management.

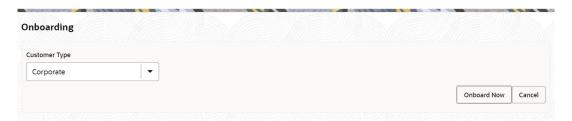

Before you begin, log in to the application Home page. For information on how to log in, refer to the *Getting Started User Guide*.

To initiate the Onboarding process:

On the Home page, click Party Services. Under Party Services, click Onboarding.
 The Onboarding screen displays.

Figure 1-2 Onboarding Initiation

On the Onboarding screen, specify the fields. For more information on fields, refer to the field description table.

Table 1-1 Onboarding - Field Description

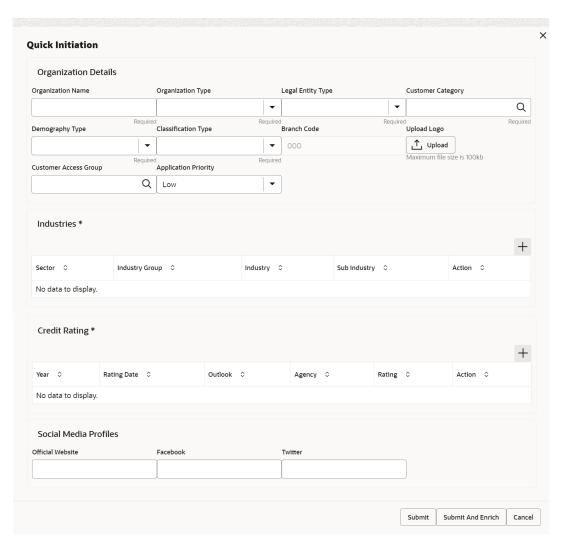

Field	Description	
Customer Type	Select Corporate from the drop-down values.	
Business Process Code	Select the desired business process code, if required.	
	Note: This field is displayed and required only if more than one process code is configured for a given customer type.	

3. Click Onboard Now.

The Quick Initiation screen displays.

Figure 1-3 Corporate Quick Initiation

4. On the **Quick Initiation** screen, specify the details about the customer. For more information on fields, refer to the field description table.

Table 1-2 Quick Initiation - Field Description

Field Name	Description
Organization details	Specify the fields under this section.
Organization Name	Specify the registered name of the organization.
Organization Type	Select the type of organization from the following drop-down values:
Customer Category	Click Search icon and select the customer category from the list of values.

Table 1-2 (Cont.) Quick Initiation - Field Description

Field Name	Description
Entity Type	Select the type of business entity from the following drop-down values: Private Limited Public Limited Trusts Government Owned Associations
Demography Type	Specify the company demography from the following drop-down values: Global Domestic
Geographical Spread	Select the geographical spread of the company from the given list.
Classification Type	Select the Classification of the Corporate as per the local regulations from the following drop-down values: • Micro • Small • Medium
Branch Code	Note: For the parent customer, the branch code defaults to the logged-in branch. For subsidiaries, the values can be entered at the time of capturing the details.
Logo	Upload the logo of the company.
Customer Access Group	Click Search icon and select the customer access group for the party. Note: The user should have required access to onboarding a party within a customer access group.

1. On the Party Details screen, click on the Financial Profile section.

The **Demographic Details - Financial Profile** screen displays.

Figure 1-26 Financial Profile

2. Click + icon to add the financial profile.

The Financial Profile screen displays.

For more information on fields, refer to the field description table.

Table 1-13 Financial Profile – Field Description

Field	Description
Year	Specify the year for which the financial details will be captured.
Balance Sheet Size	Specify the balance sheet size of the Financial Institution for the selected year.
Operating Profit	Specify the operating profit of the Financial Institution for the selected year.
Net Profit	Specify the net profit of the Financial Institution for the selected year.
Year Over Year Growth	Specify the year-on-year growth.
Return On Investment	Specify the return on investment for the selected year.
Return On Equity	Specify the return on equity for the selected year.
Return On Asset	Specify the return on assets for the selected year.

3. Click Save to save the details.

1.5.3 Add Stakeholders

This topic describes the systematic instruction to add the details about the stakeholder such as authorized signatories, management team, etc. of the business.

Stakeholders' detail is necessary for the bank to ascertain the credibility of the business. Stakeholders to a customer can be either of the following:

- An existing customer of the Bank
- An existing party that is not a customer but is a stakeholder to another customer of the bank
- A new party, which is neither a customer nor an existing party (stakeholder)

The following stakeholder types are supported for the corporate customer:

- Shareholders
- Customers
- Owners
- Authorized Signatories Signature can be uploaded for Authorized Signatories.
- Guarantors
- Suppliers
- Bankers
- Insurers
- Buyers
- Management Team
- Sponsors
- Directors
- Contractors
- Auditors
- Debtors
- Creditors
- Advisor

Note:

- Users should have the required access to add a party within a customer access group as a stakeholder. For more details, refer to Oracle Banking Party Configuration User Guide.
- User should have required Personal Identifiable Information (PII) access to add individual stakeholders if PII fields are configured. For more details, refer Oracle Banking Party Configuration User Guide.

To update the stakeholder details:

1. On the Party Details screen, click on the Stakeholders section.

The Demographic Details - Stakeholders Details screen displays.

Figure 1-27 Stakeholder Details

Stakeholders Detail is necessary for the bank to ascertain the credibility of the business. Stakeholders to a customer can be either of the following:

- An existing customer of the Bank.
- An existing party that is not a customer but is a stakeholder to another customer of the bank.
- A new party, which is neither a customer nor an existing party (stakeholder).

The Following **Stakeholder** types are supported for the FI customer:

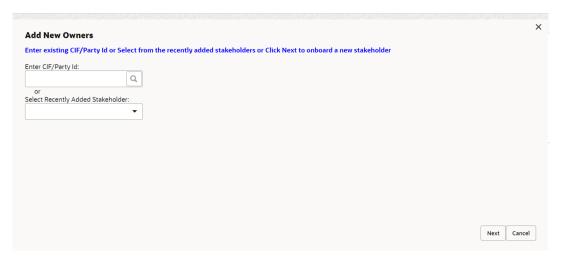

- Shareholders
- Customers
- Owners
- Authorized Signatories Signature can be uploaded for Authorized Signatories.
- Guarantors
- Suppliers
- Bankers
- Insurers
- Buyers
- Management Team
- Sponsors
- Directors
- Contractors
- Auditors
- Debtors
- Creditors
- Advisor

Note:

- Users should have the required access to add a party within a customer access group as a stakeholder. For more details, refer to Oracle Banking Party Configuration User Guide.
- User should have required Personal Identifiable Information (PII) access to add individual stakeholders, if PII fields are configured. For more details, refer to Oracle Banking Party Configuration User Guide.
- Select the corresponding Stakeholder and click the + icon to add the desired stakeholder.The Add New Owners screen displays.

Figure 1-28 Add New Owners
