Preface

This document provides licensing information for Oracle Linux.

Documentation License

The content in this document is licensed under the [Creative Commons Attribution–Share Alike 4.0 \(CC-BY-SA\)](#) license. In accordance with CC-BY-SA, if you distribute this content or an adaptation of it, you must provide attribution to Oracle and retain the original copyright notices.

Conventions

The following text conventions are used in this document:

Convention	Meaning
boldface	Boldface type indicates graphical user interface elements associated with an action, or terms defined in text or the glossary.
<i>italic</i>	Italic type indicates book titles, emphasis, or placeholder variables for which you supply particular values.
<code>monospace</code>	Monospace type indicates commands within a paragraph, URLs, code in examples, text that appears on the screen, or text that you enter.

Documentation Accessibility

For information about Oracle's commitment to accessibility, visit the Oracle Accessibility Program website at <https://www.oracle.com/corporate/accessibility/>.

Access to Oracle Support for Accessibility

Oracle customers that have purchased support have access to electronic support through My Oracle Support. For information, visit <https://www.oracle.com/corporate/accessibility/learning-support.html#support-tab>.

Diversity and Inclusion

Oracle is fully committed to diversity and inclusion. Oracle respects and values having a diverse workforce that increases thought leadership and innovation. As part of our initiative to build a more inclusive culture that positively impacts our employees, customers, and partners, we are working to remove insensitive terms from our products and documentation. We are also mindful of the necessity to maintain compatibility with our customers' existing technologies and the need to ensure continuity of service as Oracle's offerings and industry standards evolve.

Because of these technical constraints, our effort to remove insensitive terms is ongoing and will take time and external cooperation.

1

Introduction

This Licensing Information document is a part of the product or program documentation under the terms of your Oracle license agreement and is intended to help you understand the program editions, entitlements, restrictions, prerequisites, special license rights, and/or separately licensed third party technology terms associated with the Oracle software program(s) covered by this document (the “Program(s)”). Entitled or restricted use products or components identified in this document that are not provided with the particular Program may be obtained from the Oracle Software Delivery Cloud website (<https://edelivery.oracle.com>) or from media Oracle may provide. If you have a question about your license rights and obligations, please contact your Oracle sales representative and/or contact the applicable Oracle License Management Services representative listed on <https://www.oracle.com/us/corporate/license-management-services/index.html>.

2

Entitlements and Restricted Use Licenses

This chapter identifies software entitlements and restricted use licenses that are included as part of Premier and Basic support. [Oracle Open Source Support Policies](#) identify the features for each support level, including support for certain Additional Linux Programs, which are provided with the core Linux Programs.

The following software packages are licensed to customers with a valid Oracle Linux Support subscription at the Premier or Basic level, subject to the restricted use licenses provided below.

Product/Service	Licensing Information
Ksplice	You may download the Ksplice client software and system updates from the Ksplice channel on the Unbreakable Linux Network at https://linux.oracle.com and use it to update Oracle Linux and, or Red Hat Enterprise Linux as described in the Oracle Linux: Ksplice User's Guide . With the exception of any separately licensed components, your use of the Ksplice client software is subject to these terms and Oracle's terms for your Oracle Linux Premier support subscription. You are entitled to use Ksplice only during the term of your Oracle Linux Premier Support subscription and only on machines that are covered by that subscription. Any kernel or other updates that you obtain as a result of using the Ksplice service are subject to separate open source license terms, which are provided with the updates. These terms are not intended to restrict or otherwise limit your use of any separately licensed software that is provided as part of the Ksplice service, including any open source or separately licensed components that are delivered as part of the Ksplice client software.
Oracle Clusterware	You may download Oracle Database 19c Grid Infrastructure (19.3) for Linux x86-64 from the repository https://www.oracle.com/database/technologies/oracle19c-linux-downloads.html and use the Oracle Clusterware portion of that download in support of Oracle Linux. In conjunction with such use, these terms and Oracle's terms for your Oracle Linux Basic or Premier support subscription supersede the terms of any clickwrap agreement that you must accept at the time of downloading the Oracle Database 19c Grid Infrastructure (19.3) for Linux x86-64.

Product/Service	Licensing Information
OS Management Hub	You may access and use OS Management Hub as described in the OS Management Hub documentation . With the exception of any separately licensed components, your use of the OS Management Hub service is subject to these terms and Oracle's terms for your Oracle Linux Premier or Basic support subscription. You are entitled to use OS Management Hub only during the term of your Oracle Linux Premier or Basic Support subscription and only on systems that are covered by that subscription.

Third-Party Notices and Licenses

The Oracle Linux programs contain many components developed by Oracle and various third parties. The license for each component is located in this licensing documentation and/or in the component's source code. In addition, a list of components may be delivered with the Oracle Linux programs and the Additional Oracle Linux programs (as defined in the Oracle Linux License Agreement) or accessed online at <https://oss.oracle.com/linux/legal/oracle-list.html>. The source code for the Oracle Linux Programs and the Additional Oracle Linux programs can be found and accessed online at <https://oss.oracle.com/sources/>.
